BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 126 PETERBOROUGH ONTARIO, TUESDAY MAY 30 1905. PRICE TWO CENTS

THIRTEEN RUSSIAN SHIPS SUNK WITH APPALLING LOSS OF LIFE.

Russians Surprised Under Cover of Darkness and Thrown Into Panic, Then Togo's Big Guns Got in Their Range and Did Their Awful Work of Destruction Most Effectively--Russians Were Completely Out-Manoeuvred and Out-Skilled--None of the Japanese Larger Vessels Were Damaged in the Battle in the Straits of Korea in Which Command of the Sea was Retained--World's Greatest Naval Victory Since the Defeat of the Spanish Armada.

END OF THE TERRIBLE CONFLICT NOW IN SIGHT--OYAMA ACTIVE.

Russia Completely Crushed as a Great Naval Power.

The annihilation of Rosetjvensky's fleet has completely crushed Russia as a great naval power, and it has removed Russia's only hope of success in the war with Japan. It should bring peace measurably nearer, if indeed, it does not lead to immediate negotiations for peace. The terms Japan will now demand will be much more onerous than those she has hitherto been willing to accept; but if she becomes too arrogant in her claims Russia will probably refuse to make peace, and simply withdraw her army further east. Oyama, however, will certainly follow up the sea victory with an attempt to decisively defeat the land army under Linevitch before it can retire.

The loss of life in the conflict of yesterday must have been appalling. Rojestvensky's vessels were simply crowded with men, the fleet being greatly over-manned. It is not unlikely the Russian Admiral himself was killed or drowned, and with him may be Admirals Enquist, Voelkersam, and Nebogatoff. Russia's humiliation is now complete. She is vanquished, if not disgraced. What the result will be on the world's history no one can foretell.

The Loss of Human Life to the Russians Was Terrible.

The number of men who lost their lives in the naval encounter must have been very large. Little attention was probably paid to the rescuing of drowning men during the progress of the engagement, and thousands must have found watery graves. The Russian vessels were greatly overmanned, but the regular complement of the sunken vessels is made up as follows;

Borodino	740	Alexander III	740	Admiral Makhinoff	567	Dimitri Donskoi	510
Vladimir Monomach	550	Admiral Oushakoff	318	Svietlana	300	Jemtchug	340
Irtessin and smaller vessels	500						

Most of these were probably killed or drowned, and many on other vessels must have been killed or wounded. The number of prisoners is accounted for by the crews of the captured vessels remaining alive and the few men rescued from sinking ships. The complements of captured vessels were as follows,

Orel	740	Nicholas I	604	Suscia vin	318	Admiral Apraxine	318

Rojestvensky may have been on the sunken battleship Orel, but his flag-ship is the Kubz Souvaroff, reported badly damaged.

How the Japanese scored their marvellous victory is still unknown. It was probably largely due to the use of submarine mines and torpedoes, rather than to a stand-up fight between the fleets.

Sunk Thirteen Ships.

TwO Torpedo Boats and Two Transports also Sunk--Over 2,000 Prisoners Taken.

Washington, May 30.—An official telegram from Tokio states that Admiral Togo reports to his Government that the total losses sustained by the Russian fleet Saturday and Sunday were;

Two battleships.	One coast defence armor-clad.
Five cruisers.	Two special service ships.
Three destroyers.	

All of the above were sunk.

In addition there were captured;

Two battleships.	Two coast defence armorclads
One destroyer.	One special service ship.
Over two thousand prisoners.	

Admiral Togo adds that the Japanese squadron was undamaged.

BATTLE CONTINUED TWO DAYS.

Washington, May 30.—Official announcement of the result of the naval engagement between the Japanese and Russian fleets was received at the State Department to-day in the following cablegram from Minister Griscom, dated Tokio, May 29;

"Admiral Togo has informed his Government concerning the fight which took place on Saturday afternoon and Saturday evening. According to his report the Japanese fleet under his command destroyed and sank one battleship of the Borodino class and four other large Russian war vessels. Two or three more were captured. None of the large Japanese men-of-war received serious injury.

"The battle was still in progress on Sunday. A great Japanese victory is announced here, as the general result of the engagement, but few details have been received."

EIGHT CAPTAINS DROWNED.

London, May 30.—A despatch to the London Evening News from Tokio says eight captains of Russian warships were drowned during the naval battle of Saturday in the Straits of Korea.

CAPTURE ANOTHER—ROJY'S SHIP DAMAGED.

Washington, May 30.—According to advices received by the Navy Department from Tokio, the Japanese, in addition to the ships already named, captured the Russian battleship Sissoi Veliky, and the Russian flagship was seriously damaged.

WOULD PREFER THE NEPTUNE

Mr. Lowe not Pleased With New Vessel for Northern Trip

Ottawa, May 27.—It has been reported that Mr. A. P. Lowe, the geologist and explorer, who was to have taken charge of the Canadian expedition in the waters north of Hudson's Bay, may decline to accompany the expedition owing to a vessel other than the Neptune having been selected. The Neptune is a Newfoundland vessel, especially built for cruising in the Polar seas, whereas the merits of the Havana, a Halifax vessel, selected in her stead, have yet to be proved. Mr. Lowe, it is said, has not the slightest reluctance to trusting himself to the Neptune, but is dubious about venturing on board the Havana in extremely northern latitudes where ice drifts are to be encountered. It had been intended during the coming season to explore Cumberland Gulf and Cape Haven, but the cruise, according to report, will have to be abandoned, owing to Mr. Lowe's attitude, at least, for the coming summer.

Some Good People

still follow antiquated methods of raising cake, biscuit, bread and pastry with home-made mixtures of what they suppose to be cream of tartar and soda.

They do not know that these articles as now sold in the groceries are almost anything else but cream of tartar and soda.

The best housekeepers use the Royal Baking Powder instead. Its scientific composition insures uniform results. Only by its use can the finest flavored, most wholesome cake, biscuit and pastry be produced. To any housekeeper who has not used the Royal Baking Powder we would like to send our Cook Book, free. Mark your request "For instruction."

The Indian Band.

Local Red Man Misunderstood the Meaning of the Word "Band"

A few days ago, Mr. Ryan, proprietor of the pleasure park, knowing that the 57th Regimental Band was billed to go to Ottawa for 1st July, was in dispair over music for the coming holiday.

Hearing there was an Indian Band at Hiawatha, and thinking this might be a novelty here, he drove down to the village. Here he found the band was not procurable, but was recommended to try the Indian Band, somewhere near Selwyn. Driving out in that direction, Mr. Ryan at last saw a tall Indian entering the general store.

He accosted the red man and asked "Have you got an Indian Band here?" "Why yes," was the reply. "Where could I find the members?" was Mr. Ryan's next question.

With a comprehensive wave of his hand, the Indian, in good faith, answered "Why all the people living round here belong to the Band."

The impressario then discovered he and his red brother were at cross purposes, the word band being taken by the Indian for tribe. Mr. Ryan however engaged a band, without having to bring women, children, and all the colony.

SIFTON OPENS AN OFFICE

Denial That He will be Transcontinental Railway Commissioner

Ottawa, May 29.—The Free Press, the Government organ, says that rumors connecting Mr. Sifton's name with the chairmanship of the Transcontinental Railway Commission have no foundation. It is understood that Mr. Sifton has been engaged by a private concern at a large salary, and that he has not contemplated the acceptance of any Government position. Mr. Sifton has opened an office in Egan Block, Sparks street, where appears the sign, "Clifford Sifton, Canada Assets Brokerage Company."

DEMAND FACTS

About What You Eat.

When it comes to food, demand to know the facts about what goes into your stomach.

Not only that it is pure but that you are not deceived in the description of its contents and condition. Some flaked breakfast foods that have thus fair failed, are now being advertised in close imitation of the Grape-Nuts advertising, thinking in that way to finally make a success of the failure.

But false statements of the merits of human food will never on earth build up a business. These flaked foods are not pre-digested. They are not fully cooked, now the starch in them is still stored still and has not been turned to sugar as claimed.

Chemical analysis tells the truth and the analysis of the famous ciculents of the world show Grape-Nuts the only prepared breakfast food in which the starch part of the wheat and barley has been transformed into sugar and therefore ready for immediate digestion. Why is this true? All the thin rolled flake foods are made by soaking the grains of wheat or oats in water, then rolling, drying and packing. These operations do not cook or predigest the starch.

The barley is soaked about one hundred hours, then it is slowly warmed for some days and sprouted, the diastase being developed and part of the starch turned to sugar, (and later on all of it), then the grains are baked and the sprouts stripped off. Then comes grinding, sifting and mixing with the creamy colored flour made from white and maccaroni wheat. This mixture must be skilfully made in right proportions. This blended flour contains just the ingredients demanded by nature to rebuild the soft gray substance in the nerve centres and brain, but how to make food easy to digest, that was the question.

It certainly would not do to mix in drugs, for there is a certain failure sure to come to the person depending on drugs to digest food. They may do for a temporary expedient, but pure food and digestible food is the only final resort and safe way. So to change the remaining starch part and prepare the other elements in this blended flour it is made up into massive loaves like bread, the inside being dark cream color and quite sticky to the touch. These loaves are sliced and again go through long cooking at certain temperatures. Then the rock-hard slices are each one carefully inspected and ground ready for packing and use, having gone through 10 or 12 hours in the different operations.

When finished, each little granule will show a sparkling substance on its surface. A magnifying glass will bring it out clearer and develop little pieces of pure dextrose sugar, not put on "or poured over" (as the head of a large Sanitarium once stated in his paper, thus exposing his appalling ignorance of food processes) but this sugar exudes from the interior of each as the starch is slowly turned to sugar in the process of manufacture. This kind of sugar is exactly like what is found in the human intestines, provided the starch of the grains, potatoes, bread, rice, cake, etc., has been perfectly digested. But many are weak in that form of digestion and yet need the starches, so Grape-Nuts supplies them pre-digested and ready to go quickly into the blood.

Visitors are shown freely through the works and can follow the steps of making Grape-Nuts from the grain to the finished product. The proportions of different kinds of flour, and the temperatures are not disclosed and it seems impossible for others to steal these secrets of the makers. But purity, cleanliness and skill are shown in every corner of the immense pure food factories. People who care for results from choicely selected food, those who want the food to rebuild the soft gray substance in brain and nerves that give the go, the vigor, the life, will understand why the imitators who try to copy the announcements about Grape-Nuts have failed in the past. There's a reason for Grape-Nuts and a profound one.

NATIVES QUALIFIED TO HOLD LAND

Important Decision Given by Supreme Court of Transvaal

ANOMALIES IN THE LAW

While Natives can buy European's Land, Europeans Cannot Invade Native Areas

Johannesburg, May 30.—The question of land tenure in this colony became very much mixed during the recent war, and instead of being improved, it has apparently been made worse by an important judgment recently given by the Supreme Court of the Transvaal.

A native clergyman, domiciled in Cape Colony, sought an order to compel the Registrar of Deeds to register in the applicant's name an allotment which he had purchased near Krugersdorp. The contention of the Crown was that Resolution No. 106 of 1881, passed by the Volksraad to debar a native from holding land in his own name had still the force of law, and that the provisions of the Pretoria and London Conventions affecting natives were still of full effect. Section 13 of the Convention of 1881 provides that 'natives will be allowed to acquire land, but the grant or transfer of such land in every case must be made to and registered in the name of the Native Location Commission, hereinafter mentioned, in trust for such natives." At a later date these functions of the Native Location Commission were transferred to the Superintendent of Natives, and since the annexation the Commissioner of Native Affairs has acted as trustee in respect of land purchased by the natives.

THE COURT'S JUDGMENT.

In giving judgment in the case, the Chief Justice stated that no law had been brought to the notice of the Court, nor after diligent search had it been possible to find any statutory provision now in force which precluded a native from holding land in this country registered in his own name. It was true that the Pretoria Convention had been adopted by the Transvaal Republic at the instance of Great Britain, but this Convention was not a statute, nor was it at all in the same position as a statute. In any case these conventions might now be dismissed from consideration as one of the parties to them no longer existed. No doubt, if Law 159 of June 15, 1885, had still been in existence, the support of counsel would have received strong support, but all the laws and regulations of the late Republic which would have served to support the contention that natives could not hold land in their own right had been repealed by Proclamation 36 of 1901. There was no law on the statute books to justify the position taken up by the Registrar of Deeds, and the application would therefore be granted.

ITS EFFECT.

The immediate effect of this decision is to increase the anomalies which already exist in the South African native question. As the law of the Transvaal now stands, the native is placed on identically the same footing as the European in respect of any land he may be able to purchase or lease. On the other hand, Europeans are excluded from purchasing land within native areas—that is to say, the only land to all intents and purposes that the native might otherwise be presumed to be at present in a position to sell. There can be little doubt that the judgment of the Supreme Court has come as a surprise to the Native Affairs Department and the Government.

WEATHER NOTES.

Mostly fair and warm.

Last Sad Rites.

Mr. John T. Wright Borne to the Tomb, with Largely Attended Funeral.

The funeral of Mr. John T. Wright, of 5th ward, whose lamented death was chronicled in yesterday's issue, took place yesterday from his late residence, Corner Hunter and Rogers streets, to the Little Lake cemetrey. A large number of friends and sympathisers with the family following the remains to the grave. The services were conducted by Rev. Dr. Torrance and Rev. J. J. Wright, formerly of the Yukon.

Deceased was for many years an efficient and esteemed official of the municipality, having filled the offices of tax-collector, and secretary of the Board of Education, with credit and satisfaction.

The late Mr. Wright was born in Scotland, 72 years ago, removing to Canada at an early age, having ever since resided in Ashburnham.

Surviving him are his wife, and one daughter, Mrs. James A. Pife, of town.

Fred Wood of Campbellford, and Archibald Wood of Toronto, are stepsons of the deceased.

The deceased was a faithful member of St. Paul's Presbyterian church and was a staunch Liberal in politics.

A Painful Accident

Thos. Perdue Cuts Cord of His Leg and Opens Knee Joint.

On Saturday last a most distressing and painful accident befell the little son of Mr. Wm. Perdue of Enniamore, Thomas, was so badly injured it was found necessary to bring him to St. Joseph's Hospital.

A sharp drawing knife, the boy was using, accidentally slipped, cutting the leg above the knee severing the cords and cutting open the knee joint. The boy's father was in Peterborough at the time the accident happened, and when he returned came back immediately for Dr. Coughlin He responded to the call as quickly as possible, and dressed the serious wound as well as he could. The injured boy was brought to St. Joseph's reaching here at 3 a.m. Sunday morning, having suffered considerably during his 11 miles drive to town.

He was attended at the hospital by doctors Coughlin and McGrath. It is feared that the knee joint may remain stiff.

County Nominations

Nominations Held in Keene Yesterday for County Councillor.

As a result of the late lamented death of Mr. John Deyell, nominations were held yesterday in Keene, for the office of county councillor. Two men were nominated, John Lancaster, and John Carey.

There was a large number of electors present and considerable interest was manifested in the nominations. Mr. Carey has been a township councillor for two and a half years, and is well posted in municipal affairs.

Mr. Lancaster has filled the office of township councillor and county councillor, and was the unsuccessful Conservative candidate in the election twelve years ago being defeated by the late T. Blezzard.

The election will take place on Monday, June 12th.

INTERNATIONAL INSTITUTE.

Primary and Field Workers to Meet in Toronto June 20th and 23rd

As many of our readers are taking an interest in the coming 11th International Sunday School Convention, to be held in Toronto, June 23rd to 27th, it is in order to draw their attention to an important preliminary meeting, to be held in that city on the three days' preceding the S.S.—convention, viz., The International Institute. The Institute will be conducted under the joint auspices of—The Field Workers' Department, Rev. E. Morris Ferguson, President Newark, N.J., E. A. Fox, Secretary, Louisville, Ky.; The Primary and Junior Department, Mrs. J. A. Walker, President, Denver, Colo.; Mrs. J. Woodbridge Barnes, Secretary Newark, N.J.

All teachers and superintendents of elementary departments, beginners (beginners, primary and junior) in attendance, are counted as members of the Primary and Junior Department.

For information concerning boarding rates and places, apply to Mr. J. A. Jackson, 100 Confederation Life Building, Toronto, Ont. The local reception committee will be on hand.

Rojestvensky Has Escaped.

Tokio, May 30.—Rear-Admiral Nebogatoff, former commander of the fourth division of the Pacific fleet and recently commander of the information squadron, composed of 5 scouts and merchantmen, with 3,000 other Russians, is among the prisoners captured by the Japanese. Vice-Admiral Rosetjvensky apears to have escaped.

The battle began Saturday morning, and the Japanese are still in pursuit of the Russians.

RUSSIANS WEEP FOR LOST.

St. Petersburg, May 30.—There were many touching incidents in the corridors of the Admiralty, which were filled this afternoon with the wives and families of the officers and men on board the Russian ships, inquiring piteously for news of loved ones. They had already heard rumors that the fleet had practically been annihilated, and most of the women wept and some of them fainted when the Admiralty announced it had no news to communicate.

NO DOUBT ABOUT IT.

Washington, May 30.—Mr. Takahira the Japanese Minister here, has received a cablegram from his Government relating to the naval engagement of Saturday and Sunday, which, he said, while lacking in detail, conveyed the information that the Japanese victory had been absolute and overwhelming.

WILL HASTEN PEACE.

New York, May 30.—Advices received from London and other leading continental centers by local markets were all of the opinion that Japan's decisive victory would hasten peace. Reports that the Government at Washington had signified its willingness to act as mediator in the event of peace proposals were current, and added to the hopeful feeling in financial circles that the end of the war might be looked for.

A Fast Horse.

Mr. T. Guerin's Horse Takes Bit His Teeth and Makes Record Time

On Sunday afternoon, the many pedestrians along portions of Aylmer and Water streets, saw an exhibition of speeding that showed Mr. T. Guerin has a horse that can go the pace.

About 2.30 p.m., a boy named Renvy was driving the horse, which suddenly took fright as it was passing along Aylmer street.

The speed increased and the boy lost all control of the affrighted animal, which turned the corner quickly into King street, thence to Water. The boy, from the unusual bumping and erratic course of the animal, was flung from the rig, but, as usual with boys, was not seriously injured. A gentleman managed, with considerable pluck to catch the horse when it got to the foot of Sherbrooke street. The animal received several cuts about the legs, and the buggy was considerably smashed.

A Curate Prostrated

Rev. W. R. Tandy Has Gone for a Rest to Kingston.

It is with sincere regret that we have to state that the Rev. Mr. Tandy, curate, lately appointed to St. John's church has become so ill and run down, his physician decided a prolonged rest from his labors was absolutely necessary.

The rev. gentleman has been ailing for some time, so this sudden withdrawal from a field of usefulness, where his talents were begining to be greatly appreciated, is not quite unexpected.

The necessity of complete rest was felt and on Saturday he was removed to the station in the ambulance, and he has now reached his sister's residence in Kingston, where he will remain for some time. He bore the journey well, and choses of improvement are entertained.

Two Presentations

Mr. G. W. Jones Receives Handsome Tokens of Esteem.

Two substantial tokens of esteem and regret over his approaching departure, were on Sunday presented to Mr. G. W. Jones, who has been a member of the Charlotte street choir since July, 1904, when he came to Peterborough, and has led the orcheatra of the Sunday school, with much success since August last, is removing to Hamilton in about a week, with the Colonial Ink Company, of which he is secretary, and on Sunday afternoon at the close of the Sunday School session, Mr. R. J. Kidd, the superintendent, gave a short address expressive of the regret, which he and the other officers of the school, felt Miss Campbell, on behalf of the school, presented Mr. Jones with a handsome solid leather suit case, as a slight token of the esteem in which he was held.

Mr. Jones replying, thanked them most heartily for the handsome and much-appreciated gift.

In the evening, after the service, Mr. R. P. Dormer, on behalf of the choir, of which Mr. Jones has been a member of almost ever since he came to town, presented him with a gold-headed umbrella, suitably engraved, and Miss Cherry referred to the valued services which Mr. Jones had rendered the choir, and the male quartette, both of which organizations would miss him sorely.

Mr. Jones, responding, said that he deeply appreciated the kindness of the members of the choir, and referred to the pleasant relations which he had enjoyed with them.

Obituary

Death of Mr. Robert Renwick at Tilbury East.

The many friends here of Mr. Robert Renwick will regret to learn of his death which occurred in Tilbury east, on May 24th in his 74th year.

The deceased was for forty-six years a resident of Peterborough county, having come to this county at the age of 20 years, and living here until seven years ago, when he moved to Tilbury, east, where his death occurred.

The late Mr. Renwick was one of the most highly respected residents of this county and his friends here will be pained to learn of his demise. He leaves a widow and ten children to mourn his loss.

Return That Umberella

A Lady Finds an Old Umberella Substituted for a Good One in The Post Office.

A lady yesterday left a valuable umbrella down for a few minutes in the Post Office, whilst she attended to some business in another part of the office. On her return for the property to her dismay, she found some one, short in sight, or sense of meum and tuum, had "swiped" her valuable umbrella, and had left one that was of a ripe old vintage in its place.

She used the substituted articles to keep her hat dry, as far as the police office, where she made a complaint and left the venerable one. A gentleman standing in the post office saw the transaction, but thinking there had been a misunderstanding between the several umbrella owners, said nothing; he has however described the party who made the "mistake," so if wisdom is allowed to rule, the good shade had better be returned to the police office, and admit the mistake.

SANTAL-MIDY

These tiny Capsules arrest in 48 hours without inconvenience all urethral troubles, even the most chronic. Refuse the imitations

LOTS OF VIGOR, NERVE, VITALITY

To Get Bracing Health—Feel Good—Sleep Well—Enjoy Life, Use

FERROZONE

A TRUE NERVE TONIC

When you read the following experience of Mrs. N. E. Peabody, of Trenton, you will realize what enormous benefit sick people get from Ferrozone.

Every woman will recognize in Mrs. Peabody's case symptoms from which she has suffered herself.

AMONG HER TROUBLES WERE:

Headaches,	Weariness,
Nervousness,	Weakness,
Palpitation	Loss of Flesh,
Dizzy Spells,	Poor Appetite.

HER STATEMENT.

"I was stricken with nervous disease of the heart and stomach. Violent headaches made life a torture. I was so nervous and weak I could scarcely walk. Work was impossible. I couldn't eat or digest anything. When completely wrecked, Ferrozone restored me. To-day I am vigorous and strong and well."

Thousands of men and women are unable to do work requiring power of body and mind. Let them take Ferrozone. It restores the energy of youth, gives back vital stamina, creates reserve force. No medicine on earth contains such concentrated nourishment. Price 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

PETERBOROUGH, MAY 30 1905

THE REAL HEROES OF WAR.

The war in the Far East has served at least to demonstrate that men have not degenerated in valor. Modern arms and terrible death-dealing ordnance have not daunted the courage of soldiers nor abated one jot of the heroism of men, which has since been immortalized in song and story, since music and literature began.

But hidden behind the smoke of battle is a higher heroism that the unthinking world knows little of. The terrifying slaughter has its complement of mercy. There are heroes of war who die not in killing, but in saving lives. The higher sentiments and the nobler impulses that seem to be obliterated by war are by these supplied.

A member of the medical department of the United States army, who has been with the Japanese troops, gives this description of what happened after one of the great battles;

"The regiment reformed, but even while the men were creeping away we saw the medical officers and stretcher-bearers suddenly spread over the field. They walked in that storm of bullets as quietly as if on the parade ground at Tokyo. In twenty minutes there was not a dead or wounded Japanese soldier left on the field"

In the popular mind war is typified by the man on horseback. The glistening epaulets, the circling sword, the floating flag, the blare of bugles, the thunder of cannon and the rattle of riflery are to the popular mind the glorious accessories to the magnificent man at the head of a brigade with his breast exposed to the enemy's fire and with the destiny of a nation in his keeping. But as a picture of actual modern war heroism it is a lie.

The real heroes who suffer and sacrifice and die in war are not magnificent or inspiring to look upon. The real heroes are those who bind up the wounds that war has made—whose breasts are turned to the bullets while they extend hands to soothe and help and heal.

He who would have a correct estimate of war must look beyond the magnificent man on horseback and beyond the ranks of human targets that offer life for life to the quiet, unheralded heroes who put their lives against death and so often lose.

EDITORIAL COMMENT.

A by-law carried in Orillia on the 19th inst. whereby the town binds itself to give to the James Bay Railway a right of way and also $30,000 when the line is open for traffic between Toronto and Parry Sound. The railway binds itself to run main line through Orillia in perpetuity, not to sell or amalgamate, and also to give a siding and flag station at the town's power plant at Ragged Rapids, on the Severn River.

SUCCESSFUL HORSE RAISING

An Experienced Horse Breeder Gives Some Well Advised Hints

Yesterday afternoon a Times representative called at the Snowden House to interview a well known Eastern horse raiser, and obtained, in course of conversation ensuing, a few points that will be of advantage to owners of brood mares. The gentleman stopped over in Peterborough, en route home from the Woodbine races in Toronto. He said, among other things relative to successful horse raising, that it is poor policy to use a poor sire when a good one is available. The first principle of breeding, however, is to use good simply mares, and to mate these mares to the best stallions within reach. Sound and speedy colts will not always result, but the percentage will be greater according to the high quality of sire and dam. The gentleman thought the best horse to breed to for harness purposes was a good-sized, good-boned trotter. The produce would always sell if well taken care of in the early stages of its existence. It is certainly wise policy to breed horses that are popular, useful and in demand. It has been often said and said with a preponderating element of truth, that it costs no more to breed and raise a good horse than a poor one, and the aim of all breeders should be to produce the best. The commercial horses that support wholesale markets are produced in a majority of instances on farms where from one to three foals are raised annually. The range-breeding establishments are passing into innocuous desuetude and the industrial world is dependent on the small breeder for its supply of commercial horses. With breeding operations limited to one or six mares it is easy for the farmer to select sound animals with the best standard conformation for foundation stock. That farmers generally are giving more attention to soundness and commercial individuality in selecting brood mares is evidenced in the improvement in quality and soundness of the horses received at the local market. Like will always produce like, but a poor parent on either side will as often pull the superior down to its level as the superior will elevate the inferior.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A TRIP TO UNITED STATES GOLD

(By Col. W. B. Tetera, Veteran Mine Operator and Expert of Boulder County.)

When I first came to Boulder in 1875, the great mining activity of the county was centered around the famous Caribou mine, which then ranked as one of the greatest mines in Colorado. During the summer of 1875 I spent a great deal of time prospecting the country west of Caribou, extending towards the Continental Divide. The excitement over the Caribou had attracted the attention of prospectors from all over the country, and I found all the territory staked for a radius of five miles surrounding the Caribou camp.

It was therefore with unusual pleasure and interest that I recently made a trip to the mines of the United States Gold Corporation on Arapahoe peak, through the courtesy of the management to visit a country that I thoroughly prospected some thirty years before. The first thing which attracted my attention was the splendid wagon road extending from Eldora to the mines up Fourth of July gulch, a distance of some five miles. When I was in this country in '75 it was wild and inaccessible, except by a precipitous trail from Caribou.

As we arrived at the camp I was impressed by the marvelous grandeur of the scenery. It was indescribable. We were at an altitude of over 10,000 feet. To the west of us we could see the crest of the Continent. On either side of this rose Chittenden mountain and Arapahoe peak to Divide to find great mines. I was swept with a conviction that here nature had lavishly deposited her precious minerals, and, here at the backbone of the continent was a mining section of wonderful possibilities.

One of the things that particularly attracted my attention was the existence of ideal conditions for economic mining. High up on the mountain side were the out-croppings of large veins standing like a wall above the surface. They ran parallel with the mountain one above the other, in succession. The series of veins could be opened and drained by one tunnel of a comparative short distance, driven from the base of the mountain, at a cost less than a shaft could be sunk on any one of the lodes. Up and down the Rush for a mile and a half the patented ground of the company was covered with a wealth of standing and fallen timber, so thick as to make travel impossible to man or beast except upon the wagon road. The same condition also existed on the various lode claims and I could roughly estimate there was two million feet of timber on the territory owned by the company. Here was an ample supply of timber, miles and miles of underground workings as well as for fuel and power. Close at hand the head-waters of Boulder Creek are formed within a stone's throw of the company's power house, a large stream of water flowed by which can be harnessed for cheap power and utilized for milling and smelting purposes.

EQUIPMENT.

It was a pleasure to find that this company had grasped the full force of the situation. At the base of the mountain the Klondyke fun-

GROSS EXAGGERATION

The World's Rumors About Mr. Choate Without due Foundation

In Saturday's Toronto World there was a very sensational report to the effect that Mr. A. P. Choate, an old Peterborough boy, had lost his immense fortune by a slump in stock, mentioning General Electric, in particular.

The Times has since been in communication with several influential gentlemen in Toronto, who in matters of the financial world are "in the know." From their confident assurances we are pleased to say that there is no truth in the sensational rumors current.

Mr. Choate, like any of the speculators in fluctuating values, may [illegible] but there is every reason for saying he is fully solvent.

A few days ago, Mr. Ryan, proprietor of the pleasure park, knowing that the 57th Regimental Band was billed to go to Ottawa for July 1st, was in despair over music for the coming holiday.

THE INDIAN BAND

Hearing that there was an Indian Band at Hiawatha and thinking this might be a novelty here, he drove down to the village. Here he found the band was not procurable, but was recommended to try the Indian Hand, somewhere near Selwyn. Driving out in that direction, Mr. Ryan at last saw a tall Indian entering the general store. He accosted the red man and asked, "Have you got an Indian Band here?" "Why yes," was the reply. "Where could I find the members?" was Mr. Ryan's next question.

With a comprehensive wave of his hand, the Indian, in good faith, answered "why all the people living round here belong to the Band."

The impresario then discovered he and his red brother were at cross purposes, the word band being taken by the Indian for tribe. Mr. Ryan, however, engaged a band, without having to bring women, children and all the colony.

NOTICE.

NOTICE IS HEREBY GIVEN

That the following By-laws were passed by the Council of the Corporation of the Town of Peterborough on the sixteenth day of May, A.D., 1905:

By-law No. 1148, providing for the issue of debentures to the amount of $7897.41, secured by local special rates, on the properties fronting or abutting on parts of streets in the Town of Peterborough, therein set out and described for the purpose of paying the property owners' share of the cost of granolithic sidewalks constructed thereon during the year 1904.

By-law No. 1149, providing for the issue of debentures to the amount of $5026.60, for the purpose of paying the proportion of the cost of granolithic sidewalks, payable by the Corporation of the Town of Peterborough on parts of streets in the Town of Peterborough, therein set out and described, constructed during the year 1904

By-law No. 1150, providing for the issue of debentures to the amount of $1771.05, for the purpose of paying the part of the cost of sewers constructed during 1904 on parts of streets in the Town of Peterborough, therein set out and described, payable by the Corporation of the Town of Peterborough.

By-law No. 1151, providing for the issue of debentures to the amount of $7814.02, secured by local special rates on the properties fronting or abutting on parts of streets in the Town of Peterborough, therein set out and described, for the purpose of paying the property owners' share of the cost of sewers thereon, constructed during the year 1904.

Further that such By-laws were registered in the registry office of the County of Peterborough on the twenty-second day of May, A.D., 1905.

Any motion to quash or set aside the said By-laws, or any of them, or any part of any of such By-laws, must be made within one month from the date of registration thereof, and cannot be made thereafter.

Dated at Peterborough, this 22nd day of May, 1905.

S. R. ARMSTRONG
Clerk.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations nd private firms in Western Canada.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares. Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least two thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by transfer agent Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Farley anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skillful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $15 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Medley" (Illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

DRS. KENNEDY & KERGAN

Cor. Mich. Ave. and Shelby St., Detroit, Mich.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 600 feet in length with a depth of 300 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying interjacent. The base values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo Colo., has averaged a little over $30 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $20 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $2.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ores so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $750.00 per ton and for gold $355.00.

With an average value of $50.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 375,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

For further particulars apply to

W. F. MORPHY, President,

A TRIP TO UNITED STATES GOLD

(Continued from page two.)

nel has been projected some fifteen hundred feet in length and was then in over 750 feet. It was a greater pleasure to note the up-to-date and modern mining methods that were in evidence at this camp. A splendid power plant stood at the portal of the tunnel. Boilers, engine, five drill air compressors, with all other equipment, and in perfect running operation. No where in the country have I seen a finer plant of machinery.

KLONDYKE TUNNEL.

At the breast of the Klondyke then in over 750 feet into the mountain, have made great progress in carrying on its plan of development work. I understand the tunnel is now in 800 feet and is now being driven in night and day a distance of some 150 feet monthly. It seems certain that the tunnel will be completed in a few months and it seems equally certain that the company will go on a permanent shipping basis this year. The quiet systematic manner in which the management have pushed their development work for two years meant business from the six foot drill holes were being driven into the granite every few minutes with power drills, where it would have taken as many hours by hand.

In dimensions, the tunnel is 5 to 7 feet, laid with heavy track and water box, and is run through solid granite for its entire distance, cutting the lodes at right angles.

Five different veins had been cut ranging from two to ten feet in width. We went into the Munroe vein, where a long drift had exposed to view thousands of tons of heavy black iron ore. The vein as shown by cross cuts from the drift was full ten feet wide. In the roof of the drift several feet of soft mill dirt was exposed on the left side, which was seamed like a fine net with black mineral or iron, which, in this section, carries the gold. The matrix or gangu in the vein is very soft, while the iron is very heavy, a condition highly favorable to concentration, where the ore is too low to ship to smelters. I was reminded of the great mines of Gilpin county, which have produced millions of dollars from the same character of ore. In this day and age it is not so much the value of the ore as it is the quality of ore in the mine, so long as a net profit can be derived from the whole. The great tonnage of ore that can be mined from this vein above the tunnel level at a few dollars per ton net profit to the company is the one factor which convinced me of the marvelous possibilities of this one lode. Another factor worthy of mention is the width of the ore chute and small expense at which the ore can be shot down and run out by gravity to the portal of the tunnel for concentration or shipment.

The other four leads exposed by the tunnel were smaller than the Munroe, but many of them showed very good looking ore. They were all blind leads which were not exposed to the surface. In my judgment many more blind leads will be discovered in completing the tunnel and I should not be surprised if some of them would be as good or than any that are exposed.

The mountain is very rich in mineral as is evidenced by discovery of molybdenite in the Munroe lode since my visit to the property. The company is pushing the tunnel to completion very rapidly and anticipate having it into the Fourth of July dyke long before the end of this year.

THE SURFACE.

For over half a day we followed the outcroppings of the Monroe and Arapahoe lodes from east to west. The mountain side is literally covered with great chunks of float and vein matter which have been broken off these veins. Some of these will weigh a ton and will pan free gold. In 1875 I was over this section and assayed a great deal of the ore. It would run as high as $20 per ton but in those days such ore was worthless.

FOURTH OF JULY DYKE.

The Klondyke lodes covering about a mile on the Fourth of July Dyke outcrop on the surface above timberline. The rise of the mountain was so great that we were obliged to pick out our way up and around to the point under which the tunnel will cut with great care. We had climbed 1,000 feet above the level of the tunnel to reach this lode. The dyke at this point was fully one hundred feet wide. It is a small mountain in itself and can be seen for miles either way.

I recognized on the lower edge of the dyke an old shaft which was there in 1875. I remember well in that year the circumstances of two miners sinking the shaft on a rich pocket or ore from which they mined some fabulously rich ore and carried it over a three mile trail to Caribou on their backs as there was no other means of transportation. Several thousand dollars was thus mined from the shaft of my own knowledge. The owners of the lode later became discouraged and I am informed abandoned it. I understand that samples from the dump of this shaft gave values as high as $1,000 per ton. Here at this point stood a ledge of ore fully 20 feet wide, which I was informed, would run better than $20 per ton by actual tests, in gold, copper and silver, the copper values being 8 per cent. In my judgement the dyke is the most valuable of the miles of claims owned by the company. It is one of the greatest mineral dykes that I know of in the state. Fossett refers to it in his book on Colorado at page 369 as follows:

"The Fourth of July lode is an immense ore channel situated several miles west of Caribou and near Arapahoe peak. This is from 50 to 100 feet wide, and has been traced and preempted for its entire course of three miles. It crosses the snowy range. This lode contains some very rich seams of ore but requires capital to open it into condition for advantageous mining. Two tunnels are being driven towards it from the headwaters of the Boulder."

It was an open secret in the early days of the Caribou with its record productions of millions upon millions of dollars that the Caribou and Sherman leads were a branch or spur from the Fourth of July dyke. I prospected the ground in '75 and '76 and proved this theory to my own satisfaction. The Company have a mile on the main dyke itself. It lies several miles closer to the Continental Divide than the Caribou and carries high values in copper. Here is a body of ore right at the surface of remarkable values, which to contemplate the possibilities of the future when the Klondyke tunnel be mined pow at a profit. That no effort to do so has been made by the company is manifest from the precipitous character of the mountain side.

However, when the Klondyke tunnel is driven into this 100-foot dyke I should not be surprised to learn of a strike that would make this property rival or even surpass the great Caribou. In any event, the possibilities are beyond estimation. That the tunnel will open up a great body of smelting ore seems to be a matter of absolute certainty.

I stood upon this ledge above timber line and looked upon the thousands of tons of float scattered for hundreds of feet below me, and tried mel out this dyke at the marvelous depth of 1,000 feet as well as a dozen other lodes at a somewhat lesser depth. I understand why the management and stockholders of the company believed that the stock would pay dividends to themselves and their children's children. I believed it myself.

Considering the great magnitude of the enterprise the management start ard is an example which could be followed with great profit by the owners of other mines of Boulder County.

In conclusion, I wish to say that I had a most enjoyable trip to the United States Gold Camp and I appreciate the courtesy of the management in this connection. I have confidence in both the properties and management and for the reasons which I have given, I believe they have a proposition of extraordinary possibilities.

W. B. TETERS.

Messrs. Thos. Patterson & Co., Fiscal Agents, Simcoe street, would be pleased to give any further information regarding this proposition.

WE HAVE STRUCK IT!

A Little of the Stock Still Offered at the Old Price

We take pleasure in recording a development at our property which has materially increased its intrinsic value and enhanced the holdings of every stockholder in our Company. We have known all the time that we were in the great tungsten belt of Boulder County, the belt which has surprised the mining world lately by the showing it is making in the production of this metal. WE DID NOT KNOW THAT WE HAVE MANY TONS OF MOLYBDENITE ALREADY OPENED IN OUR MINE. We have just made this discovery, and while it is early yet to estimate exactly, we can say positively, that our strike is of much consequence as it means a material increase in our revenue. In addition to the precious metal values in our ores, we have molybdenum, which, it should be stated, IS WORTH MORE THAN GOLD. This is certainly a most important development, as you will admit, and as we have decided not to advance our stock just yet, you will certainly want to avail yourself of the opportunity to secure a block while you can. The future of our property is now assured beyond the question of a doubt. DO NOT FORGET WE HAVE BESIDES, THOUSANDS OF TONS OF GOLD ORE READY FOR SHIPMENT. We have miles of veins, and hundred of acres of ground, enabling us to sustain our production for an indefinite period.

No bonds, No preferred stock. No debts. Money in the treasury. Par value of stock $1 per share. Stock full paid and absolutely non-assessable For a limited period we can offer treasury stock for the purpose of raising funds for larger equipment, to facilitate the shipment of our ore early in the spring. You certainly want some of this stock while it is yet purchasable at the present low price It is very certain that our treasury stock will be entirely withdrawn in the early future. If you are wise you will act at once. Do not forget, we have molybdenite as well as thousands of tons of gold ore. Where can you equal such an ideal proposition?

Full particulars cheerfully furnished upon application we have nothing to hide. Kindly ask us for full information.

FREE . . . .

For the financial and commercial standing of the business men who stand back of this enterprise we refer you to the First National Bank, Boulder, Colo, or Bradstreets Commercial Agency

The publication of our History of Boulder County has been delayed a little through our decision to make it larger in size and more comprehensive in character. The work will be a splendid one in every respect, and well worth preserving by people throughout the country, who are interested in the romantic and fascinating history of the mines of one of the richest and most famous of the Colorado counties. Our booklet should be read by every American who takes interest in the marvelous records of the industries of the west. A History of Boulder County, Colorado, will be sent free to any address

Deadly "La Grippe"

Or Epidemic Influenza is Caused by a Air Germ. The Most Scientific Remedy is Catarrhozone.

Two years ago, the medical journals commented widely on the marvellous success of Catarrhozone, which assisted very largely in stamping out the epidemic raging at that time. Cases that had resisted all other treatment were at once relieved and through the great healing powers of Catarrhozone further progress of the malady was arrested.

It is doubtful whether in the whole range of medicine a more lasting cure can be found. If a patient has any warning of the approach of La Grippe he has only to inhale the germ killing vapor of Catarrhozone a few times daily and escape entirely.

Even as a preventive of colds and catarrh it is a wise precaution to always carry a Catarrhozone Inhaler in your pocket. At the first shiver or sneeze you can ward off an impending attack by merely inhaling a few breaths of Catarrhozone Fatal consequences can often be avoided in this way. The Inhaler is beautifully finished and made entirely of hard rubber. It can be conveniently carried in the vest pocket ready for use in church, at meals, in the theatre, street car, anywhere, at any time. The complete Catarrhozone outfit contains a large bottle of inhalant, sufficient to keep recharging this inhaler for two months. It costs $1.00 and is guaranteed to cure. Sold by all druggists or sent direct to your home by mail if the price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn. U.S.A.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

To Let.

The house at present occupied by the undersigned, corner Barnardo and Bennett streets. 2wd

GEO. BROWN.

Boarders Wanted.

Six gentlemen can be accommodated with first-class rooms and first-class board, from 1st of June, by applying to J. C Craig, 29 Queen street, opposite St. John's church. m 31

Lost.

On Sunday, between the corner of London and Water streets, and the Murray street Baptist church, a clover leaf brooch, set with pearls. The finder will be suitably rewarded by returning this alms to The Times office.

Miss Barlee Leaves for England.

Yesterday at noon, Miss Mabel C. Barlee left by the C.P.R. train for Montreal, en route, for England. Miss Barlee will sail in the S.S. Lake Manitoba, and will visit friends in various parts of the Old Country for several months. Among those friends gathered at the C.P.R. station to wish her bon voyage, and a safe return were noticed; Rev. J. C. Davidson and Mrs. Davidson, Messrs. L. M. Hayes, C. H. Clementi, Gerald Rackham, Mrs. R. H. Fortye, the Misses Rubidge and others. Her sister, Miss Edith, is now on her way to the Coast, where she will visit friends in Vancouver and Victoria.

The Cowgirl Riding a Steer.

The new woman has found a new vocation. The "bike" is too tame for her, the saddle too altogether too-too to her. She is surely ahead of her time, and anyone who doubts it and wish to be convinced can have proof positive when Lemon Bros. Shows, Roman Hippodrome, Monster Museum, Oceanic Aquarium and Congress of Living Phenomena will exhibit at Peterborough, on Thursday, June 1, and show the rough est rider of the arena, the most wondrous new woman of the wild west, riding bareback, without saddle bridle, line or halter, a great surging, leaping, bucking bovine—a regular Texas steer. The handsome, graceful, fearless rider far outstrips any horsewoman or bicycle champion of the day. No one should miss seeing her.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Warden Buck, of Norwood, was in town on Saturday.

—Mr. P. J. Rooney, of Toronto, is a guest at the Oriental.

—Mr. James Lang, of Toronto, is in town for a few days.

—Mr. C. L. Nicholls, Ottawa, is in town for a few days.

—Miss W. Green, Toronto, is visiting friends in town.

—Mr. and Mrs. Fred. Broadworth, of Madoc, are visiting in town.

—Mr. and Mrs. Bridgman, town, are visiting friends in Lindsay.

—Mr. J. W. Gleeson, of Ottawa, is a guest at the Snowden House.

—Mr. J. M. Wallace, of Lindsay, is a guest at the Balmoral House.

—Mrs. Irving Thompson, of Port Hope, is visiting her daughter, Mrs. Will Nelson, town.

—Mr. Fred Wood, Campbellford, is in town attending the funeral of his step-father, the late John Wright.

—Mr. and Mrs. Bert Pratley Lawrence, Moss, have arrived in town and taken up their residence at Auburn.

—Mr. W. R. Colby, who has been organizing a lodge of Elks in town, has concluded his duties and left today for his home in London.

—Mr. William Sailsbury, who has been employed at the Legislative Assembly during the session, has returned to town.

—Ald. Joseph Batten left yesterday morning for Owen Sound to attend the session of the Grand Orange Lodge of British North America.

—Mr. Harold Robertson, of Morrisburg, who is attending Toronto University, is in town for a few days, the guest of Mr. Percy Campbell, Gilmour street.

—Lindsay Post says: Mr. Jack Vanstone, of Peterborough, an old Lindsay boy, is visiting town friends, and will leave Tuesday for Toronto, where he has secured a good position.

—Dr. McClelland has returned from Baltimore, where he spent the past three weeks taking a post graduate course at the John Hopkins hospital. He will resume his professional duties this morning.

—The Lindsay Post says: Mr. E. W. Argus, of Peterborough, was in town yesterday. The Misses L. and L. A. Smith, and Mr. J. A. Smith, of Peterborough, were guests at the Simpson House to-day.

—Word has been received from Keewatin that Mr. Charles Whiten, son of Mr. G. E. Whiten, photographer, who was attacked with typhoid fever, was improving, the doctor having checked the disease in its incipient stage.

—Mr. Bert Dunslow has returned from a visit to his mother in London, Eng. Mr. S. E. Dunslow of the Royal Marine Light Infantry arrived home at the same time after a four years' commission upon H. M. S. Eclipse at the China and Japan stations.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Charity Board held a regular meeting yesterday evening.

—The town road sprayer was at work on McDonnel street yesterday morning.

—J. J. Turner & Sons have a contract for decorating the town of Tillsonburg on July 1st.

—The Rob Roy, Mr. R. M. Roy's trim yacht, made its first run of the season to Rice Lake on Saturday.

—A water main will be laid this week on Townsend street from Park street to the corporation boundary.

—Citizens who have been down the river lately report that the bass and maskinonge are running in large numbers.

—On Ancesion Day, Thursday, June 1st, Holy Communion will be celebrated in St. John's at ten o'clock.

—The Session of St. Paul's church will meet to-night. The next communion will be dispensed on the last Sunday in June.

—The Home Missionary Auxiliary will hold its regular monthly meeting in St. Paul's mission on Wednesday afternoon at 3.30 o'clock.

—A special meeting of the Faithful Workers' Mission Band of St. Paul's church will be held this afternoon, at 4.30 o'clock, at the home of the president, Mrs. A. H. Ferguson.

—Rev. P. H. Neville, of Greenback, Ont., will occupy the pulpit of Charlotte street Methodist church, at both services on Sunday next. Mr. Neville is a son-in-law of Mr. H. E. Hawley, town.

—In George street church on Sunday next Mr. William Eyres will occupy the pulpit in the morning, and Mr. George H. Williamson, general secretary of the Y.M.C.A., will conduct the service in the evening.

—The G.T.R. have let a contract to the E. R. Baker Company, of Chicago, and Midland for the erection at Midland of a grain elevator to have a capacity of a million bushels. It is to be built in time for this year's western crop.

—The Baptist congregation of Port Hope, expect to celebrate the fiftieth anniversary of their church, with appropriate services towards the end of June. Rev. B. D. Thomas, D. D., for twenty years pastor of Jarvis street church, Toronto, has been secured as preacher for the occasion.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrographic Work. Studio 134 Brock Street, Peterborough.

The Kingston Street Railway Question

Kingston, May 27. — The civic finance committee has found that it will cost $1,000 to get a valuation of the street railway if it carries out the proposed plan of engaging three experts. This is too much money to expend just now, and the matter will be held over till after June 1, the last day for receiving tenders. In the meantime, J. M. Campbell is to give the committee an opinion as to whether the road can be run without loss under revised conditions.

Police Court

OFFICIALS

Chief of Police, G.I. Reed
Magistrate, D.W. Dumble

The police court was crowded yesterday morning, the Sun Fish Club being well represented.

The ball opened by a dog tax case, in which Alex. Martin promised to kill the canine, and was allowed to go hence.

W. Gimmey was also called upon to explain why he had not paid his dog tax. The defendant did not show up.

P.C. Stewart explained to his Worship that he had duly served the notice; it appeared however, that defendant, had personally called upon the Magistrate to explain matters. The case was enlarged.

Charles May, who showed evidence of a recent head-on collision with complaintant's fist, his eye being in mourning, was called upon to explain why he had called Charles Munder, a name, more forceful than polite.

May admitted the charge, but said he "did not mean it." The name, his Worship considered ought to, and did, cost him $4.00.

What's in a name? Ans. $4.00, within ten days.

Harry Raymond — committing an assault upon Geo. Trelock. Raymond did not deny the soft impeachment, but, used the same extenuation as pleaded in the preceding case "I did not mean it," whilst the assault was merely the result of an "impulse." His Worship, in low but unmistakable tones, mentioned $2 and costs.

THE PHOTO CASE.

The many times enlarged case against Henry Uttman, was finally decided yesterday.

His Worship asked Mr. Kerr, Utman's counsel, if his client had any defence to offer. As noted in previous issues, several witnesses, including Miss Florence Hall and Mrs. Sarginson, had on Saturday, given evidence in this case, that of Utman's alleged conspiracy to defraud Mrs. Sargingon out of $4.50.

Mr. Kerr, who was too ill to stand, during the examination of his client, occupied a chair, and by his well managed, and intelligent handling of the case, brought about a very different complexion in his client's case.

Mr. R. E. Wood for the prosecution. Utman swore that he had been engaged with Frank Raynor, whom he had met in Ottawa, in the photo-enlarging business. Their trade title was the "Irving Art Studios." The arrangement he had made was that he should get $6 a week, and a commission of 25 cents on each order, payable when the proof was shown.

Raynor was owner of the business. Raynor has a brother, at 176 Bank street, Ottawa, in the same business. He had canvassed the town, both alone and with F. Raynor. Their proofs were made in Detroit, and then forwarded to Ottawa, to have them finished. Some 300 were sent there, between the middle of January and 25th March, none of which, with one exception had ever come back here.

He quit the business here, on or about the last of March, as he did not think things were being done on the square. He then went to Toronto, and with Raynor engaged to work with a Toronto photographer, named Prager.

Regarding the empty rooms, over Dickson's dry goods store, he explained that Raynor had made the arrangements, and had told him, Utman, that when business should warrant it, they would occupy the rooms and have a German artist to do the finishing here. He had pulled out about $65 in commission.

Under cross-examination, by Mr. Wood, he explained that he had told Miss Hall that the photos would be finished in Peterborough, not that all the work would be done here. In answer to a question put by the Magistrate "Why did you not have the proofs made here instead of Detroit?" Said the local photographers could not do this style of work.

His Worship in summing up the evidence, as given by the prisoner, put matters in a very different light. Raynor seems to be the principal, and should bear the responsibility, for presenting matters falsely to the people; the prisoner, was not responsible for Raynor's acts. He expressed his surprise that 300 people in Peterborough should so easily be fooled, and that it was a bad business. People, he said, should not pass by our good photographers, and place their business in the hands of fakers. The prisoner, after his three weeks of detention, during several enlargements of the case was discharged.

The other case against him, a charge of stealing two photographs from Miss Florence Hall, was also dismissed without hearing evidence. An effort will be made to procure the two hundred odd photographs, sent to Ottawa.

The last case, that of Frank Scriber, who was charged with taking Ella Martin, who is under 16 years of age, from the custody of her mother, Mrs. M Martin, was discharged. This case was tried in secret, the press being excluded. In conversation after the trial was over, the father of this misguided young girl, claimed that he and his wife had finally decided to take her home again, and give her another chance.

He states that whilst the girl is not bad at heart, she became unmanageable through too much spoiling by the mother. This is a sad, but too frequent, cause of young girls getting beyond control, when arrived at an age that results of such foolish kindness ends in their, too often, allowing waywardness to supersede common sense and propriety. Whilst it is not always necessary to put in practice literally the old saw about sparing the rod, many a long days' grief, sure to come with the passing years, could be saved by firmness of command, and determination to see that the growing mind be bent by mature wisdom and set fixture of application.

THE PRISONER

Who escapes from jail is by no means free. He is under the ban of the law and punishment is written over against his name. Soon or late he will be caught again and bear added punishment for his short escape from his cell.

Those who by the use of palliative powders and tablets escape for a time from the sufferings of dyspepsia are in the same condition as the escaped prisoner. Soon or late they will go back to the old condition and pay an added penalty for temporary release.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the stomach and organs of digestion and nutrition. Its cures are lasting.

"For about two years I suffered from a very obstinate case of dyspepsia," writes Mr. [illegible] of [illegible] Ave., Toronto, Ontario. "I tried a great number of remedies without success. I finally lost faith in them all. I was so far gone that I could not bear any solid food on my stomach for a long time; felt melancholy and depressed. Could not sleep or follow my occupation (tinsmith). Some four months ago a friend recommended your 'Golden Medical Discovery.' After a week's treatment I had derived so much benefit that I continued the medicine. I have taken three bottles and am convinced it has in my case accomplished a permanent cure. I can conscientiously recommend it to the thousands of dyspeptics throughout the land."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets stimulate the liver

The Calf Case.

Legal Technicalties Prolong the Case Until To-morrow.

Judge Edmison, Crown Attorney Wood, and High Constable O'Beirne, returned on Friday night from Havelock, bringing with them the prisoners William Sears and John Grieves, who were charged with stealing a calf from Mr. E. Curtis, of Belmont, on May 18th.

The evidence in the case was heard before Judge Edmison on Friday. Several questions of law arose in connection with the case, which necessitated its enlargement until to-morrow at 9.30 a.m., when it will be concluded in the court house.

The prisoners in giving evidence on Friday, testified that they had found the calf, dead, in the bush and had removed the hide, and sold it to a local dealer. This was corroborated to some extent by the evidence of Mrs. Chard, with whom they boarded, who stated that, upon the evening of the occurrence, before the "skinning" operations, the prisoners had told her of the discovery of the dead animal.

Crown Attorney Wood, for prosecution; G. J. Sherry, Norwood, for defence.

FRENCH DAMAGES

France is Asking $1,825,000 for Her Fishery Rights

London, May 27. — I understand that France asks $1,825,000 in lieu of her claims on the west shore of Newfoundland. If the claims were assessed actuarially on their present value to their French owners, they would not probably be worth $250,000. On this basis one and a half millions roughly represents France's estimate of the sentimental and political value of her Newfoundland rights. An amicable agreement is expected on some such basis.

TORONTO CHILD MURDER CASE

Little Josephine Carr will Tell Her Own Story

Ottawa, May 30. — Josephine Carr, the child murderess will probably be placed on the witness stand by her lawyer and tell her own story. Her counsel intimated as much. Dr. Beamer, of Mimico Asylum, has examined her. The defence will be that the child was confused and frightened by passing trains and let the baby fall, and then concealed it to get rid of the evidence of her misdeed. There will be no denial of the main circumstances.

—Mr John Craig has sold the last of his lots on Stewart street next to the one purchased by Mr. William Pringle at the corner of Brock and Stewart streets, to Mrs. West. Mrs. West has sold her property on George street, and will put up a fine residence on her recently acquired lot.

—The German Conversation Club will meet at St. Luke's rectory on Thursday evening.

WHERE DISEASE GERMS BREED

No Need to Fear "Germs" if the Stomach Be Healthy.

The ideal breeding place for disease germs is a weak stomach and digestive system. The food, instead of being assimilated, turns into a sour, slimy, fermenting mass, causing gases, distress after eating, bloating, nausea and flatulency. The poisonous germs that are driven off from this undigested food enter the blood, and pimples, boils, and blotched skin is the result. Nervousness and sleeplessness come more often from weakened digestion than from any other one cause. Rheumatism and gout are directly caused by an acid condition of the stomach.

No ordinary food digestive can give lasting relief. It is absolutely necessary, if one wishes to be well, to use Mi-o-na, the only known remedy that soothes and heals the mucous membrane of the stomach and digestive tract, stimulates the solar-plexus, and strengthens the nerves of the stomach. This remarkable remedy puts the whol digestive system in so healthy, clean and sweet a state that fermentation of the food cannot exist, any disease germs in the stomach will be destroyed, and all food will be so well assimilated that a rapid and healthy increase in weight will result.

Mi-o-na is a guaranteed cure for all diseases of the stomach, excepting cancer, a guarantee being given by Wm. Madill with every package he sells, agreeing to refund the money should the remedy not give perfect satisfaction.

Transvaal Constitution

General Botha Issues Manifesto Criticizing Many Points

Pretoria, May 31.—General Botha on behalf of the Constitutional committee has issued to the Dutch member of Het Volk a short resume of the Constitution rendered necessary by the non-publication of an official Dutch version. This resume is followed by a concise criticism of the chief points which, he says, will cause universal dissatisfaction and even indignation owing to the evident deep distrust of the Transvaal public, and particularly of the Boers, which is revealed by them. Among the chief points which General Botha selects for criticism is the fact that under the Constitution the Government is entirely independent of the Legislature, even in regard to salaries of officials. Moreover a quarter of the Legislature being nominated, the seats will always turn on the side favored by the Government, and disastrous proposals will easily be carried out, such as the $150,000,000 contribution. The powers of the Legislature are so limited that it will be more of a debating society than a serious Parliament, financial proposals emanating from the Government which is totally independent of the people's representatives. He objects to the Government's attitude on the subjects of Asiatics and natives, of railways, and the use of the Boer language.

General Botha then refers to the fact that men raising large families of prospective citizens under great trials are placed on the same footing as single men temporarily fortune-hunting in the colony.

The proposed quadrennial redistribution, General Botha continues, is calculated to give the ruling party a further lease of office. The stipulation of a deposit of $500, from Parliamentary candidates is denounced as a bar to working men, whilst the absence of a limit to election expenses favors rich candidates, two provisions demonstrating the one-sidedness of the Constitution and the distrust entertained by the masses, which is deplorable in a country like the Transvaal where the majority are poor and capitalists consequently wield unusual power.

The manifesto concludes with the expression of a hope for a speedy change in the Constitution.

RUSSIAN PRINCE SUICIDED

He Had Lost Fortune of $225,000 at Gambling Tables

Nice, May 30.—It is now known that the person who jumped into the sea out of a boat off this place recently and was drowned was Prince Charles Bakunin, son of the Russian revolutionist. The Prince had been for the last two years at Nice. He was married to a rich Italian lady, and had three children. The Prince had lost $225,000 at the gaming tables and was utterly ruined. He committed suicide by tying a heavy stone around his neck on board a boat which he had hired, and from which he dived into the sea and sank.

QUEEN VICTORIA DEIFIED

Peculiar Belief Among Hindoos About Late Queen

Bombay, May 31.—The Allahabad Pioneer, one of the leading newspapers of India, is responsible for the statement that the belief is widely held throughout India that the decoration of Queen Victoria's statute in Bombay is responsible for the present plague epidemic. It is well known that the late Queen was deified by the Hindus even in her lifetime, owing to her long and brilliant reign, the extent of her power and the veneration in which she was held. Her statue therefore came to be regarded as an idol, and the insult to it some months, when it was damaged by vandals, has caused her, in Hindu belief, to visit the land, as an avenging deity, with a terrible pestilence. The result has been to bring Bombay into bad odor with the rest of India.

A Splendid Program

Many Pleasures Ahead Supplied by George St. Epworth League.

The following program was been arranged by the George street Epworth League, and tells its own story of coming literary and social treats. It is well worth cutting out for future reference;

June 1st—Consecration, "An Interior View of a Great Soul." Mrs. D. W. Dumble.

June 12th—Literary.

June 19th — Missionary, "What Hath God Wrought." Miss E. Miller.

June 26th—Social.

July 3rd—Consecration, "The Christian and Sin." Mr. A. O Kidd.

July 10th—"The Righteousness of Faith."

July 17—"The Evangelistic Work Among the Indians. Miss Scott.

July 24th—"Christian Liberty—Its Basis and Application."

July 31st—"A Christian Among Men."

August 7th—Consecration. "Paul's Testimony before Kings." Miss C. McClennen.

August 14th—Floral Evening.

August 21st—"A Ministry in Words and its Results." Miss A. Bangs.

August 28th—"The Pre-eminence of Christ.

September 4th — Consecration, "Christian Warriors." Miss N. Smith.

September 11th—Social.

September 18th—"Losses and Gains for Christ." Miss Eva Bennett.

September 25th—Literary.

October 2nd—Consecration, "The Moral Power of the Gospel.

October 9th—"The Native Ministry." Miss E. Hill

October 16th—"The Satisfaction of a Good Life."

October 23rd—"Drawing Near Unto God." Miss A. Crafts

October 30th—Social.

Nov 6th—Consecration, "The Making of Heroes." Rev. F. J. Scott.

November 13th—Literary. "The Prospector.

November 20th—Missionary, "More Recent Years." Mr. A. Mann

November 27th—"Christ Criticising the Churches."

The officers of the League are;—

Hon. President—Dr. Crothers.

President—Mr. G. Gilley.

1st Vice-President Christian Endeavor Department—Miss Eva Bennett.

2nd Vice-President, Missionary — Miss Lena Waters.

3rd Vice-President, Literary — Miss Edna Armstrong.

4th Vice-President Social — Miss Clarice McClennen.

Secretary—Miss Amy Crafts.

Treasurer—Mr. A. Mann.

Corresponding Secretary — Miss Ethel Miller.

Pianist—Miss Evelyn Chesty.

Assistant Pianist—Miss M. Crothers.

Our Policy Applauded

The Times in Receipt of Many Letters of Appreciation of our Stand on the Autonomy Bill

The Times has just received a letter from one of its many new subscribers in Peterborough which merits more than a passing acknowledgement. This subscriber comments on the fact that The Times is the only Peterborough newspaper which has had the manliness and courage to express its true conviction on the dangerous Autonomy Bill. He says:

"Your paper deserves and should receive the unqualified support of every good citizen. I regret that I am not an advertiser and am unable to give your paper substantial support in that line. All that I can do is to ask you to put my name on your subscription list and to assure you that no newspaper that comes into my home will be more highly valued than The Times."

Inasmuch as The Times has received a number of subscriptions during the past few weeks which were accompanied by similar expressions, its publishers hasten to assure these new friends that in taking and reading The Times and in talking to their neighbors about what The Times is doing they are giving this paper the very best "substantial support" that it could possibly receive. If you like The Times, if you approve its stand on questions that affect the interests of the community, you can do it no greater service than by becoming one of its subscribers.

In this way you not only help The Times but you extend its opportunities to be of service to Peterborough. If every citizen of Peterborough who is in sympathy with the policy of The Times on the Autonomy question should become a subscriber to this paper it would become at once by far the most influential and prosperous newspaper in Eastern Ontario.

Do not think because you are not an advertiser that you cannot help a newspaper. When a newspaper is read by the people, and the people have confidence in the newspaper, the advertisers will in due time discover that advertising in that news paper pays.

The Times naturally welcomes all legitimate advertising. The more advertising the more money is available to spend in improving the paper; but more than all The Times wants the good will, the confidence and the patronage of the newspaper readers of Peterborough. The most effective way to help The Times is to subscribe for the paper that advocates a just law which will show neither fear nor favor to any one body or class in our great Dominion.

Riverside Park

Now Ready for Use and Greatly Improved--Grandstand Completed.

The Riverside Athletic grounds are owned and managed by a progressive body of men.

This beautifully situated little park, which is practically an island, has been greatly improved, and is now ready for the purposes of its inauguration. It has been thoroughly leveled and seeded down with grass. The time hand stand, taken from the Murray street grounds, now placed on the west side, parallel with the river, is finished, and will seat an immense crowd.

The park will be officially opened on Saturday, the event being a baseball match between The Cobourg and Midland League teams; this promises to be a good game and will give the the park a fitting introduction to the public.

Arrangements are now in progress to have the park used by the various lacrosse and baseball teams. A 12-foot fence will be erected about the park, and men were engaged yesterday building the north side portion of it, which will be in readiness for Saturday's game.

The executive of the park are Messrs. J. J. Hawden, President, and Messrs. J. H. Metherel, Dr. Wightman and F. J. Jamieson.

A Missing Letter

Mrs. John Godfrey Loses a Money Letter--A Shipping Receipt.

A proof that it is wise to register all letters containing money or valuables, especially when sent to a correspondent not having a private letter box or drawer, is furnished by the experience of Mrs. John Godfrey, of town.

About a week ago her husband sent her a letter, addressed to the general delivery, Peterborough, containing a sum of money and the shipping bill of some furniture from Ottawa. Since this letter should have arrived, the lady has had further letters from her husband enquiring about the one containing money. She has made several applications to the local post office, without results. Mrs. Godfrey has had other letters addressed to her if Peterborough, delayed in proper delivery, by being taken away in mistake by other persons of the same surname, these however have always, excepting the one with her valuables, been eventually delivered to her.

Yesterday she applied to the police for assistance, but as there is no actual proof that the letter was ever posted, or that it really came to Peterborough, they could render her no assistance.

It is a serious crime for any one to keep the lady's letter, should it have been handed to anyone but the owner, in mistake.

Race Circuit Assured.

Now Settled That an Extensive Race Circuit, Including Peterborough, Will be Established.

Mr. Arthur Rountree, secretary of the Peterborough Turf Club, as noted in a former issue of this journal, has been in correspondence with various Turf Clubs and associations, in surrounding towns, with a view to establishing a satisfactory race circuit, that will not only attract good horsemen, but be made to pay.

There has been some difficulty in getting Port Hope, an important link in the circuit, to sign. Yesterday Mr. Rountree was in communication with Mr. Smart, President of the Port Hope B. & M Co. and of the Port Hope racing association about this matter. The result is that a race circuit, probably in the order named, will be established, viz., beginning on 1st of July at Port Hope, Bellaville, Campbellford, Peterborough, Cannington, Orillia, Barrie, Duffering Park and winding up at the Toronto Exhibition race meet. With this circuit fully established there is ever reason to believe, considering the short jumps from meet to meet, with a week of two or more races in each stand, that these extra inducements will attract some of the best horsemen, who can thus get frequent runs for their money.

Whilst this is almost as good as settled, the matter will be finally fixed, one way or another at the meeting to be held on Friday, which it is expected, will be attended by turf representatives from each place mentioned in the schedule.

Golfers Named

Those Who Will Compete for the Stratton Trophy, to June 10th.

The draw for the first round of the Stratton Golf Trophy, eighteen holes medal play handicap, will be finished by Saturday, June 10th. Handicaps are posted at the Club House

Rojestvensky Had Twice as Many Guns as Admiral Togo.

Preponderance in Heavy Armament was Greatly in Favor of the Russian Commander--Ships were Strong and Trustworthy

London, May 31.—During the period when the Baltic fleets were being prepared and were starting on the long voyage to the far east there was a tendency in Great Britain and America to decry the strength of the fleets and to regard them as a poor collection of antiquated battleships of little value in actual combat.

This impression, however, was not held by naval experts. The Russian ships for the most part were known to be excellent in construction and heavily armed and armored, and of the same type, in fact, as those which stood the pounding at Port Arthur and showed themselves strong and trustworthy.

The main strength of Rosojtvensky's own first squadron lay in his seven battleships. Four of them—the Suvarov, Orel, Borodino and Alexander III.—were perfectly new and among the best battleships afloat. They steamed 17 to 18 knots, carried 4 12-inch and 12 6-inch guns and were protected by 9-inch Krupp armor on the water line. One of the modern battleships, the Oslabia, carried 10-inch instead of 12-inch guns, but made up for this by greater speed. The other two battleships of the second squadron, the Sissoi Veliki and the Navarin, were older and smaller, but they carried formidable artillery in the shape of four 12-inch guns and six 8-inch guns each, their armor was thick though of poor quality.

The cruisers of the first two squadrons were nine in number, five of them of good speed and modern design, though without armor protecting their guns with the exception of the Oleg. They are: The Oleg, Jemtchug, Izrurug, Almaz and Aurora, all steaming from 19 to 22 knots, and all new ships. Of the four older cruisers, three have been entirely reconstructed and are more effective than would appear at first sight.

To this strength was added three weeks ago Nebogatoff's squadron consisting of four battleships—the Nicolai I., of 9,500 tons, and eight heavy guns, and the three battleships of the Admiral class—Admiral Ouschakoff, Admiral Senyavin and Admiral Apraxin—each 4,100 tons. All four of these battleships are eleven years old. In addition, Nebogatoff brought with him the old cruiser Vladimir Monomach which carried 11 heavy guns, but was 24 years old.

The value of the material, however, is nothing unless the quality of its personnel is up to the standard. It is certain that the best Russian officers and seamen were either out in the far east when the war began or were dispatched thither during the earlier operations while Port Arthur was still accessible. Hence the crews of the Baltic squadron were composed in great part of inexperienced officers and undisciplined men.

A detailed analysis of the artillery mounted in Russian and Japanese warships of the rate of the third-class cruiser and upwards, excluding liners which have been armed and adapted for war purposes, and in which the combined Baltic fleets were strong, gives the following results:

Japanese fleet, heavy, long-range guns—16 12-inch, 3 12 1-2-inch, 1 10-inch 20

Russian fleet, combined first and second Baltic squadrons—24 12-inch, 4 10-inch, 2 8-inch 30

Smaller guns—127 6-inch, 38 4.7-inch 165

Vladivostock squadron—8 8-inch, 44 6-inch 52

Nebogatoff's squadron—16 10-inch, 17 8-inch 34
And 20 6-inch.

It will thus be seen that Rojestvensky had 30 guns of 10-inch calibre or better to Togo's 20, and that the preponderance of his artillery was even greater when the smaller calibre guns were reckoned with.

—Building operations in town are somewhat impeded for a few days owing to the scarcity of brick. One local firm is not able to supply any at present, but expect after June 6th to be able to turn out 75,000 a day.

—The last meeting of the season of St. Luke's Woman's Auxiliary will be held on Thursday afternoon. After the meeting all the members as well as the members of Sunnyside Auxiliary will be entertained to tea at the rectory.

—Are those aldermen responsible for not having water turned on at the drinking troughs in town, afraid they might be given a ducking party when it does?

—The 57th made a grand turn out last night.

The Japs Capture Rojestvensky, Russians Say He is Safe

Official Reports Issued by Tokio and St. Petersburg are Flatly Contradictory--Russian Dispatches Report His Escape but Sustained a Wound in the Head.

St. Petersburg, May 31.—Admiral's despatch from his son, who is in Rojestvensky's staff, arrived at Viadivostock, commend of the Buiny, describing fully how his commander-in-chief, Admiral Rojestvensky, was saved. The Admiral was washed off the deck of the Kniaz Souvaroff just before the flagship foundered, and was picked up by the torpedo-boat destroyer Buiny.

Other private despatches from Vladivostock say the Russians lost 12 warships sunk and captured during the engagement. According to these reports the Japanese torpedo boats played the principal role in the defeat of the Russian fleet. They were sent in for action again and again, under a perfect hail of shot from the Russian rapid-firing guns. More than one-half of the Japanese flotilla of torpedo boats were sunk. The protected cruiser Jemtchug reported sunk in the Tokio despatches has arrived at Vladivostock.

The Russian officers are certainly mistaken in some particulars, if, indeed, their story is not an entire fabrication. Captain Chagin of the Almaz says he saw Rojestvensky lowered on to the Buiny. The captain of the Buiny says Rojestvensky was washed overboard, and picked up by his vessel. It seems possible, even likely, that the Japanese captured Rojestvensky, and the Russian officers are trying to prevent his identity being made known. Time will prove.

Tokio, May 31.—It is officially announced that Admiral Rojestvensky has been captured, and that he is seriously wounded. It is also officially announced that the flagship Kniaz Souvaroff, the battleships Oslabya, Navarin, and the Sissoi Veliky were sunk. The cruiser Almaz was disabled.

The Associated Press sends the following explanation to the editors;

The despatches from Tokio and from St. Petersburg concerning the capture of Admiral Rojestvensky are totally at variance, but both are from the Associated Press own correspondents, and are both reported to be official. Every effort is being made to ascertain the facts.

The Associated Press.

RUSSIANS GIVE DETAILS.

St. Petersburg, May 31.—Admiral of the Empire, and Superintendent of boats and telegraphs, under the Minister of the Interior, has received

Dog Found.

Who Lost a Brown Dog with P.D.T. No. 607 of 1905.?

Mr. C. Breadmith, of 18 Cedar St., was in the police station yesterday in reference to a dog which has taken up its home with him.

The dog has been "hanging around" his place for some days, and will not leave. Mr. Breadmith wants to keep the animal, but prefers to do so with its owner's knowledge.

The dog is of brown color, and its owner evidently cared sufficiently for it to pay the dog tax this year, as on a leather collar, about its neck is a tag bearing the legend P.D.T 607—1905.

If not called for, by its owner soon, a christening bee will be held and the dog permanently adopted by a new owner.

Historial Society.

Nominate Mr. J. H. Burnham as Delegate to Ontario Societies' Session

A meeting of the Peterborough Historical Society was held in the Y.M.C.A. hall, Monday night when there were present, Dr. George Burnham, presiding, Mr. J. B. McWilliams, vice-president, Mr. T. A. S. Hay, secretary, Mrs. Birdsall, and Miss Watt.

Mr. J. H. Burnham was appointed their delegate to the annual meeting of the Ontario Society, which is to be held at Niagara-on-the-Lake, and Niagara Falls on June 7th and 8th.

Victoria Museum with its unique collection of wonders was considered, and it is not beyond possibility that a catalogue of the more valuable and rarer specimens may be published. This would attract attention and prove of interest to strangers visiting the place.

The following ladies and gentlemen have also signified their intention of attending the annual meeting at Niagara; Mrs. Birdsall, Miss Watt, Mr. J. D Collins and Mr. E. H. D.Hall.

Mission at St. Peter's

Redemptorist Fathers' Mission is Part Completed

During last week very many women, attracted by the persuasive eloquence, and their sense of duty, attended the Redemptorist Mission, that week for women, in St. Peter's cathedral On Sunday afternoon, the cathedral was packed to its utmost capacity by the women of the congregation, who consecrated themselves to the Blessed Virgin, renewed their baptismal vows and received the Papal benediction.

The average attendance of women at the five o'clock mass was about 400 and at 8.30 o'clock mass about 900.

The services of this week for the men will be as follows; Masses with sermon at five o'clock and eight o'clock a.m. every day during the week. Recitation of the Rosary, followed by a sermon and the benediction of the most Blessed Sacrament every evening at 7.30.

At the five o'clock and eight o'clock masses yesterday morning Rev Father Mylett preached two convincing sermons on the text, "Render unto Caesar the things that are Caesar's, and to God the things that are God's."

Struck by Train.

Walter Knowles, a farm hand working near Peterborough, was found dead on the C.P.R. track at six o'clock yesterday morning between Pontypool and Burketon station. He was struck by a train some time after midnight. The body was left by the side of the track awaiting the arrival of the corner. Coroner Dr. Gray was notified of the fatal accident, but decided that an inquest was unnecessary. He has given instructions to have the body interred. Knowles was about twenty-eight years of age and had been working in W. Stapleton's saw-mill, Pontypool for some time. He resided in that village for the last five years, but previously spent some six years in the Northwest.

Police Court

OFFICIALS

Chief of Police, G.I. Read

Magistrate, D.W. Dumble

A small audience were greatly amused yesterday morning at the police court, when J. Murphy, of coal shed fame, sued two men for wages, alleged due, about 36 hours.

Mr. Murphy's first debtor was Sam. Oliver, Murph, swore that Oliver owed him $1.80. Defendant explained to his Worship that Murphy had done some work for him, but complained that as the work was carelessly and inefficiently done, they had had a dispute. Murphy claimed to have worked eight hours, but had only worked seven, and had spoiled a piece of woodwork. Had given him 50c. on account and had left the balance due, at the Peterborough Hardware store at 10 o'clock Monday evening, and had told Murphy it was there for him. Murphy's haughty nobleness oblige forbade him running after so trival a sum, so had gone to law to procure it.

The court advised Oliver for peace and quiet to get the money and pay it over, which was done. His Worship remarks to Murphy were not strictly complimentary.

Mr. Murphy's next debtor, of a few hours, was Mr. Timothy Cavanagh, sometimes known to his intimates as "Ted." The amount of this law-suit was $1.60.

Mr. Cavanagh swore that he had paid Murphy all he owed him and that was more than his services were worth. He explained that Murphy had done some work for him, and had paid him $2.50 with his dinner thrown in. He had also given Murphy money last winter when he was hard up.

His Worship, when Cavanagh complained about the poor quality of Murphy's work said "Well you had him before and should have known better than hire him again." Mr. Murphy cross-examined, with an assurance born of seeming experience, Mr. Cavanagh, as to his payments.

The case was dismissed under protests from Murphy, who wanted an enlargement.

A citizen was sued for $10.50 wages due an employe. Defendant admitted the debt but explained, giving details, his recent hard luck. Payment was ordered within ten days.

Fred Bickle learned $2 worth about riding the untamed bicycle on a pavement.

—Yesterday, James Scriber was arrested on a charge of committing an unnatural crime.

County Magistrate Edmison yesterday morning consigned W. Sees and John Grieves to Castle Nesbitt for the space of ten days. The young men had stolen a calf skin, from Ernest Curtis, of Belmont, and sold it for 75c to a country merchant.

Mr. Sherry, of Norwood, appeared for the prisoners, and Mr. R. E. Wood for the prosecution.

The case in which Dominique Borcentro was charged with wounding a brother Italian, Dominique Murdoque in Lakefield on May 22nd last, was extended until next Friday at 11 o'clock on account of the witnesses having been procured.

—"The recent rain was worth hundreds of dollars to many of us," remarked a Douro farmer yesterday. "The spring crops are coming on magnificent."

WEATHER NOTES.

Moderately warm.

"Now I Know the Joy of Health."

I am Brimming Over with Vitality —Appetite is Good—I Sleep Well—I Feel Happy.

FERROZONE

Made Me Feel Like New

One of the earliest settlers in the town of Turnbull, Man., is Mr. John W. McNichol. Everybody knows him; knows how poor his health was for years.

Thanks to Ferrozone, Mr. McNichol is a hearty, strong man today. Here is his statement:

"Last spring I was terribly run down.

"I was so completely fagged out I couldn't do any hard work.

"In the morning I was tired—my limbs ached all over.

"Appetite?—I simply didn't have any.

"Sleepless?—Yes, nervous and unhappy too.

"I braced up at once after taking Ferrozone. It put new life and vitality into my body. My nerves are strong, I eat heartily, I sleep well. Now I know the joy of health.

JOHN W. McNICHOL."

Won't you take Ferrozone too? It's really a marvellous tonic, some people say there is almost witchery in the way it builds you up. It's concentrated nourishment — that's what Ferrozone is—just one chocolate coated tablet to take three times a day. No other medicine in the world restores so quickly. Price 50c. per box, or six for $2.50, at all dealers, or by mail, from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MAY 3 1905

UNION SLUGGERS

Not many more shocking confessions were ever made than that of a man named Charles J. Casey, late secretary of the Chicago Carriage and Wagon Workers' Union, as to the systematic way in which orders were given and executed for the "knocking out" and doing up" of men who persisted in working for boycotted firms. Casey, with four other officials of the Union, and three hired "sluggers," have been arrested charged with a conspiracy that resulted in the murder of one Carlston. The list was given to Gilhooley, and he was given $2 as a starter for car fare." Gilhooley and a couple of other thugs did the job. This is the way he reported the matter:

"Well, I got that fellow Carlston last night. He put up an awful fight and kicked me in the shin. The bone is splintered, and I must see a doctor about it. He fought like —— and we were obliged to throw the boots into him. We done him up good, and I don't think he will be able to work any more. He won't give the union any more trouble."

Thereupon this emissary of civilisation claimed his honorarium. According to Casey the union wanted to put Gilhooley off with $8, but he insisted that other unions that he worked for gave him $15 for a knock out; so he received an extra $6, which, with the original $2, made up the tariff figure. It was only too true that Carlston would not give the union any more trouble, for he died within two weeks from his injuries. A few days later Casey saw Gilhooley again, when he reported having "taken a smash" at another man on the list. For this he was allowed $10. Altogether Casey says he paid him $47.

EDITORIAL COMMENT.

A despatch from Chicago states that one of the most diabolical plans for assisting strikers in their efforts to paralyze business has just been discovered. Strike sympathizers blow eggs from their shells and refill the shells with carbolic acid. These infernal missiles are then thrown from houstops and windows at any strike-breaker who attempts to pass. A number of these acid-loaded eggs have already been thrown in Chicago and several persons injured by them. Scarcely any punishment is too severe for the fiend who resorts to this means of attaining his desires. Rifles and pistols are almost harmless in comparison with these acid grenades. Strikers everywhere are gradually losing the sympathy of the public, and it is largely because they adopt some brutal or unreasonable method of arneting their demands.

A way of keeping the Mississippi and other great rivers from washing away their banks has been designed by Western engineers. It is called a mattress, because it is actually woven from the branches of the willow tree. These mattresses are immense affairs, sometimes being nearly one hundred feet in length and thirty or forty feet in width. The branches are put on in bunts, and when the mattress is finished it is bound around the edge with wire rope, then placed against the water side of the levee, being partly out of the water and partly submerged. It is held in place by covering it with huge stones, and when it is properly done it offers a barrier which the water cannot break through.

• • • •

British subjects are forewarned by their newspapers that they will probably have to pay higher prices for their boots and shoes before they are much older. Their Shoe and Leather Record explains the situation to them as follows: "Prices are too low, having regard to the value of leather. It is true that the war in the Far East has helped to put up the price of leather, and while the war lasts there is no chance of it being cheaper. The Japanese, especially, have been heavy buyers of leather from America. Moreover, trade is very active in America, and the beef trust has no difficulty in holding up the price of hides in Chicago."

• • • •

London lays out for poor relief $22,000,000 a year, and 28 out of every 1,000 of the population receive relief as paupers. In one district, in West Ham, 40,000 persons were recently reported as on the edge of starvation. There is not work enough there for all the workers, but a large proportion of the destitute are incapable of performing labor. They are human wrecks and must be supported by charity or starve. Throughout England at large there is considerable poverty, but it is most pressing and visible in the capital, and students of social phenomena and symptoms say it is mainly due to drink.

MONEY GIVEN FOR INDIA

Wealthy American Gives $150,000 to be Spent by Curzon for Hindoo's Good

TO TEACH MODERN FARMING

Agricultural College to be Established With the Money—Natives Hard to Teach

Calcutta, May 30.—Americans are taking a great interest in the affairs of India since Lord and Lady Curzon have made it specially attractive for them at their semi-American home and semi-English court. Mr. Phipps, a wealthy American, who visited the Curzons some time ago, became greatly interested in India, and offered Mr. Curzon $150,000 to be applied in such manner as the Viceroy should think best for the advantage of the Indian people. The result was the foundation of a central laboratory of agricultural research, the foundation stone having just been laid by Lord Curzon at Pusa, in Behar, on April 2.

The idea of an institution for the promotion of Indian agriculture is not new to the Government of India. As Lord Ibbetson puts it, they were saturated with ideas of agricultural improvement, the English officials in India, and it only needed the addition of Mr. Phipps' gift to crystalize these ideas into a solid mass.

FARMER CONSERVATIVE.

There have been agricultural departments in India for a good many years, but they can hardly claim to have attained any great measure of success. The Indian farmer, saturated with traditions of many generations of hereditary cultivators of the soil, content to carry on his occupation on the lines of the past, is a difficult person to move. He would have no truck with deep plowing projects, this cultivator of the soil, he could not afford the heavy plow, he knew that if he did have it his cattle would not work it, and his knowledge of the soil convinced him that deep plowing would do more harm than good. On the other hand, when a simple iron sugar mill was invented for him, he saw its superiority over the old-fashioned stone mill. He saw that it extracted more juice from the cane, that it could be worked with less expenditure of animal force, and that it was cheap enough for him to buy or hire. Less than thirty years since its introduction the new-fashioned mill has almost entirely superseded the old-fashioned machine in great tracts of sugar-growing country.

SPEND HALF A MILLION.

It will not be easy to teach the cultivators of the soil of India to make changes, but it is recognised as a necessity for the country's good. The institute at Pusa is regarded as only the beginning, to be followed in due course of time with the establishment in all of the different Provinces of similar institutions. Meanwhile the institute at Pusa is to be made as complete as possible. In addition to the money given by Mr. Phipps, another large sum, at least $500,000, is to be expended in the building of an agricultural college and the construction of laboratories and farm buildings. These will be located near the center of a farm of 1,300 acres, on which the theories of the scientific staff will be subjected to the test of practical application. The location in the midst of large estates owned by intelligent native gentlemen, as well as by Europeans, is favorable to the spread of knowledge, and the adoption on a large scale of methods proved to be good.

PERSONALLY CONDUCTED TOUR

To California and Lewis and Clark Exposition, Portland, Oregon

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From here the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days ten days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $165.50 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. C. Bowler, General Agent and Conductor, Room 306, Union Station, Toronto.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $300.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least two thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western "union" telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it the shares are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

☞NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

BEFORE TREATMENT

AFTER TREATMENT

Peter E. Summers, of Kalamazoo, Mich., relates his experience. "I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

DRS. KENNEDY & KERGAN.
148 SHELBY STREET, DETROIT, MICH.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each
200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1,000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK-HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties:—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Morse, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Carr, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company is the Wilcox, Murphy, Dome, Rock-Hill, Ben Burb, Columbia, Reindeer Annex, John Thompson, Frank, and Parnell, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the condition resembling that of coal formation; consequently, the direction and trend of the ore bodies are readily followed and determined, and by preliminary exploration, their courses have been found to underlie the surface ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $316,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1,000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent Stock at Twenty-Five (25c) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profit. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,
35 Congress Street, Boston, Mass.

SWEDEN AND NORWAY AT DAGGERS DRAWN

Tension is Running High Over the Consular Question

WILL NORWAY BREAK DOWN

According to Letter Received in London Norway is Preparing for War

London, May 30. — "Norway has made every preparation to insure the success of the scheme for separate consuls, even though Sweden should attempt to thwart them by force," writes one of the most conservative and best informed men in Norway to a press correspondent. The Consular bill has passed both sessions of the Storthing and will be presented for the signature of the King today. Should His Majesty veto the measure the Storthing will appoint a temporary committee, which will assume the reigns of power in Norway pending the election of a president or king. In connection with this post, Prince Waldemar, of Denmark, is mentioned. What the Swedish Government will try to do it is impossible to say, as confusion and dissension reign in Sweden over the question. As far as Norway is concerned everything is clear. The people, the Storthing and the ministry are of one mind. They will have their separate consuls unless beaten in war.

ARMED FORCE FEARED.

"The contingency of armed interference by Sweden is apprehended by the national authorities. Enormous quantity of provisions have been secured and stored. The importation of grain has been under the management of Conrad Mohr, German Consul at Bergen, a personal friend of the Kaiser. A ship load of ordnance has been received from England. Hundreds of soldiers, disguised as common workmen, have been and are now at work in border fortresses. Ammunition and supplies of every description have been sent to all strategical points. Torpedo boats are patrolling Christiana Fiord day and night to guard against surprise. The fortress artillery has been ordered for service six weeks earlier than usual, in order that men may be at their posts before the Consular bill is laid before the King.

THE MILLS ARE BUSY.

"Cotton and woollen mills have received large orders from the Government. The preparations are so complete that nothing would be wanting in the event of an immediate outbreak of war. Everything is conducted so quietly and coolly and so little is said about preparations for defence, that what is taking place escapes the notice of the ordinary observer."

One hundred million kroner ($28,000,000), is available for defensive purposes. Prior to the securing of the latest Government loan, French officers were secretly sent up here to see for themselves whether the country was sufficiently prepared for defence to warrant the lending of 40,000,000 kroner ($10,720,000), to Norway.

TORONTO CHILD MURDER CASE

Little Josephine Carr will Tell Her Own Story

Ottawa, May 30. — Josephine Carr, the child murderess will probably be placed on the witness stand by her lawyer and tell her own story. Her counsel intimated as much. Dr. Beamer, of Mimico Asylum, has examined her. The defence will be that the child was confused and frightened by passing trains and let the baby fall, and then concealed it to get rid of the evidence of her misdeed. There will be no denial of the main circumstances.

FRENCH DAMAGES

France is Asking $1,825,000 for Her Fishery Rights

London, May 27. — I understand that France asks $1,825,000 in lieu of her claims on the west shore of Newfoundland. If the claims were assessed actuarially on their present value to their French owners, they would not probably be worth $250,000. On this basis one and a half millions roughly represents France's estimate of the sentimental and political value of her Newfoundland rights. An amicable agreement is expected on some such basis.

—Mr. John Craig has sold the last of his lots on Stewart street next to the one purchased by Mr. William Pringle at the corner of Brock and Stewart streets, to Mrs. West. Mrs. West has sold her property on George street, and will put up a fine residence on her recently acquired lot.

Davis & Lawrence Co., Ltd., Montreal.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Postal Station "F" Toronto, Ont.," will be received at this office until Tuesday, June 20, 1905, inclusively, for the construction of Postal Station "F" Toronto, Ont.

Plans and specification can be seen and forms of tender obtained at this Department and on application to H. E. Hamilton, Esq., Resident Engineer, Examining Warehouse, Toronto, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary

Department of Public Works,
Ottawa, May 27, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

BETTER THAN GOLDFIELDS NEVADA

The East Pacific Mining Co.

OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at the mines; to install an electric power line; a large compressor and hoist capable of sinking the property at least one thousand feet deeper; and to build a concentrating mill to treat the 23,000 tons of second class ore now already out on the dumps.

CONCENTRATING MILL IS NOW IN PROCESS OF ERECTION

and is expected to be completed and in full operation inside of sixty days, when stockholders can be assured of receiving regular monthly dividends of from 2 to 5 cents per share.

For any further information address

You ake It Mixed With Air

A Powerful Destroyer of Disease Germs Which Cures Every Type of Catarrh Bronchitis and Throat Trouble.

Ever since Adam the air of the Pine woods has been known to possess marvellous healing properties. In fact doctors claim that people living in the balsamic atmosphere of the woods never contract consumption or catarrh.

A new remedy that embraces all the healing curative powers of the pine woods has at last been realized. It contains the balsams, the ozone and many other antiseptics that make it an absolute cure for all catarrhal diseases.

For years doctors have been looking for just such a remedy and claim the newly discovered Catarrhozone is the most effectual, the most scientific cure for catarrh, bronchitis and winter ills, they have ever met.

So powerfully healing is Catarrhozone that simple colds in the head and coughs can be cured in less than an hour. Chronic catarrh is eradicated from the system in the most thorough manner. It doesn't matter whether the catarrh affects the nose, throat or stomach, it can be completely driven from the system by using fragrant healing Catarrhozone.

The remotest parts of the lungs and air passages often contain germs of catarrh and consumption which cannot be reached by ordinary treatments. But the searching vapor of Catarrhozone carries its antiseptic healing power direct to those isolated spots. So thoroughly does Catarrhozone reach all diseased surfaces that it cures for all time, and no relapse need ever be feared.

"My nose was so stuffed up from catarrh that I could not breathe except through my mouth," writes John D. Perkins, a well known merchant in Hamburg. "My breath was horribly offensive and my digestion was completely knocked out. I used Catarrhozone and was cured in two weeks. I wouldn't take five thousand dollars for the benefit and good health I received from Catarrhozone which I can recommend as a certain, absolute cure for catarrh."

Two months treatment costs $1.00; sample size, 25c. At druggists or by mail from N. C. Polson & Co., Hartford Conn., U.S.A. and Kingston, Ont Catarrhozone always cures—refuse a substitute, and insist on getting Catarrhozone when you ask for it.

To Let.

The house at present occupied by the undersigned, corner Barnardo and Bennett streets. 2wd

GEO. BROWN,

Boarders Wanted.

Six gentlemen can be accommodated with first-class rooms and first-class board, from 1st of June, by applying to J. C Craig, 29 Queen street, opposite St. John's church. m 31

O.C.F.C. to Resume Parades

Ottawa, May 31.—The parades of the Governor-General's Foot Guards, which were cancelled for the season, are now ordered to be resumed, and it is believed that Col. Gordon, who was here investigating is responsible for the order, and that some move towards patching up the difficulty is under way. "This will be good news for the boys of the 57th who aregoing to take in the Ottawa trip."

Presbytery Meets Friday.

A special session of the Presbytery of Peterborough, will be held at Millbrook on Friday afternoon next to consider a call from Centreville, South Monaghan, to the Rev. J. M. Whitelaw, M.A., B.D., pastor of Omemee Presbyterian church. Rev. J W. Macintosh, M.A., was the late pastor at Centreville, and was released from his charge about a year ago to pursue a post graduate course in one of the German Theological Schools.

Peterboro' Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

P. P. Park Discontinued.

The Peterborough Pleasure Park is no more. It has run its course. The show was a good one but it appears the patronage extended the attraction has not been sufficiently generous to warrant Prof. Ryan continuing. He is making arrangements to hold a tent exhibition, with equally as good an attraction, and some fine United States speciality actors, on a more easily accessible spot, nearer town

Smith Street Bridge Closed

That civic adoption of Osterism has not been adopted by the local authorities is proved by the fact that Smith street bridge has been closed to traffic in order that an examination may be made as to necessary repairs. The floor timbers will have to be taken up in order that any defects underneath might be remedied. The bridge has shown signs of sagging and this requires immediate attention. The life of the structure, about twenty years, has almost run, but repairs can be made which will preserve its usefulness for a couple of years at least.

7th Day Adventists' New Church.

The Seventh Day Adventists contemplate building themselves a new church in the near future. For some days past there has been considerable talk to this effect, as this body, which has grown to some size during the last few years, and is still progressing, is looking forward to having a suitable edifice, in the near future. The house of Mrs. S. Hurdon, 162 Antrim street, in which services have been held for some time past, is to be abandoned for the new edifice. The increasing membership has outgrown the house's capacity.

Lift Lock Holds up a Yacht

Mr. Herbert Brundrette, of Port Hope, recently purchased a steam pleasure yacht at Lindsay. He had been led to think that he could get his new purchase over the lift-lock and take it down to Rice Lake where he has a summer residence. He left Lindsay with this end in view. On arriving at the lift lock he could not get over. His craft is in the canal near Mr. John Carlisle's place, where it will likely remain until the lift lock is ready for use. Mr. Brundrette greatly enjoyed the trip through the Kawartha Lakes, which are looking at their best just now.

Allen's License Extended.

A meeting of the West Peterborough License Commissioners was held yesterday morning for the purpose of considering the transfer of license for the Lakefield House, Lakefield, from Isaac Eastwood to James Allan, formerly of the C.P.R. Hotel, town. A two months' extension was granted, by which time the Commissioners will have had an opportunity of knowing whether the applicant is entitled to a full license. It appears that Allan purchased the house without first ascertaining whether a license would be granted. The Commissioners will meet again at the call of the chairman.

The Engineering Magazine

In The Engineering Magazine for June there are some new and highly interesting suggestions concerning the development and extension of the gas engine. Professor Reeve, one of the leading experimental investigators in the field, outlines the mode of construction and working which will make the gas turbine a practical success, and Dr. Adolf Gradenwitz discusses the application of the gas producer and engine to the propulsion of vessels, showing interesting illustrations of the result already accomplished in this direction on the Continent. Mr. W. Pollard Digby takes up a study of the engineering export trade of Great Britain, Germany, and the United States, and uses most effectively a graphic method of charting the relative supremacy and present tendency of the three great industrial nations in the world's outside markets. Mr. Alton D. Adams' article on utilising the power of the Niagara rapids will attract attention, especially because it proposes a scheme by which further inroads on the Falls themselves might be averted. Three other illustrated articles are presented—by Mr. R. M. Neilson, on "The Effect of Vacuum on Steam-Engine Economy"; by Mr. W. S. Standiford, on "Roll Turning"; an Important Mechanical Factor in the Iron and Steel Industry"; by Mr. E H. Brownine, on "The General Stores System of the Browning Engineering Co." The number concludes with the usual full Review and Index of the Engineering Press.—The Engineering Magazine, New York.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—The Board of Works met last evening.

—The open air car service was much appreciated yesterday.

—A meeting of the Supervision Committee was held yesterday evening.

—The Easter collection at St. Peter's Cathedral amounted to $1,220.

—The C.P.R. switch, from the spur line, into the Peterborough Cereal Company's mills, is nearly completed.

—Yesterday was an off day for sucker fishing. Decoration Day in the U.S., so no bucket shop quotations.

—Rojestvenski is a prisoner. The Japs can give the Russians a roast, just venski They getski good and ready.

—There was not a quorum of members of the Central Charity Board present Monday evening, and consequently there was no meeting.

—Friends will regret to learn of the very serious illness of Mrs. Stabler, George street, who suffered a paralytic stroke last Thursday.

—There is plenty of work for teamsters in town and contractors report that they experience considerable difficulty in securing teams to take care of all the jobs in hand.

—The Methodist church at Claremont, Ont., has unanimously invited the Rev. T. W. Jolliffe, of Bowmanville, to become their pastor for the ensuing conference year.

—There are strong indications that the first sod for the new opera house will be turned next week, and that constructive operations will be proceeded with as speedily as possible.

—Mr. J. L. Maude has bought a fine brick house on Weller street which was erected by the Toronto Savings and Loan Company. He will move into his new home next week

—Mr. William Langford leaves for Gooderham to-day where he will adjust the loss sustained by the burning of the Union House, owned by Robinson Bros., formerly of Peterborough

—The Hiawatha Tennis Club will hold their first tournament at the Nicholls oval on Friday evening, when all the members are asked to be present. Tea will be served at the oval at six o'clock.

—Mr. P. M. Patterson, founder and grand organizer of the Canadian Order of Home Circles, will attend a meeting of the local society on Thursday evening. All members are requested to be present.

—Mr. Bert McCollum of McCollum Bros., was in Lindsay, Saturday, and made the purchase of a fine roadster for the firm's stables here. It is understood that a number of good saddle horses have also been secured.

—GRUMBLING AND COMPLAINING will not take out the pain of an insect's sting, but Perry Davis' Painkiller will do so every time. Apply it with your finger to the sore spot. Price 25c. and 50c.

—For the past couple of weeks the Grand Trunk has been hauling blue clay from Lilly Lake to the cement works at Lakefield. This is the spring delivery, so to speak, and it will keep the big cement concern well supplied with raw material until the early fall.

—As an indication of the extensive building operations now going on in Peterborough, Mr. Thos. Ritchil, the ice man, has already sold double the usual quantity of lime he has ever handled, in the same time, before. The lime comes from Kelso on the Credit Valley.

—A great number of interested listeners yesterday, entered Arthur Rountree's grocery (E. Brown's & Co's old stand) to hear the Columbia Graphaphone in display window, and given away with soap wrappers. It is, although a small instrument, one of the clearest talking machines in town.

—On Monday, July 3rd, several members of the Sons of England lodge in Lindsay, will visit Lansdowne lodge No. 25 when the White Rose degree will be conferred on the visitors. Supreme Grand Vice President James Boxall, of Lindsay, will also pay a visit to Lansdowne lodge the same evening.

—Thomas Perdue, the little son of Wm. Perdue, of Ennismore, who cut open his knee on Saturday night, and was brought to St. Joseph's Hospital, is in a very serious condition to-day. The draw knife, with which the wound was inflicted, was very rusty and there is very great danger of blood poisoning setting in.

—There was no Bible study last night, nor will there be a prayer service on Thursday evening of this week, at Bethany Tabernacle. The congregation is invited to attend the services conducted by Evangelist Russell at St. Andrew's. The meeting announced for Auburn on Friday evening will be postponed for one week.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrography Work. Studio 124 Brock Street, Peterborough.

SOCIAL AND PERSONAL
SOCIETY EVENTS OF INTEREST

—Mr. A. G. McAvity, of St. John's N.B., is in town.

—Mr. R. R. Rogers, of St. John's, N. B., is visiting in town.

—Mr. P. R. Johnson, of Omemee, is a guest at the Snowden House.

—Mr. Will Ackerman and Miss Edna Ackerman are visiting friends in Port Perry.

—Dr. Carmichael was in Cannington yesterday attending the funeral of his brother-in-law, the late Hugh McKay.

—Messrs. W. Watt, J. Kynoch, Geo. Madden and J. W. Campbell, of the General Electric Company are guests at the Oriental.

—Mrs. Carter and Mrs. Esler, of Buffalo, arrived Monday evening on their way to Stony Lake, where they will spend the summer.

—Mr. Melville Elliott, who has been visiting at the Campbell family, 252 Charlotte street, returned home yesterday.

—The Lindsay Post says; Mr. H. C. McCallum of Peterborough, was a guest at the Benson, Saturday. Miss M Morrison, of Peterborough, was in town to-day, a guest at the Simpson House.

The Lemon Bros.' Shows

Connected with the Great Lemon Bros. Shows there is in all probability, the grandest and greatest Hippodrome ever seen on any ellipse since Rome exploited the first. Scores of fearless horsemen and horsewomen, teams of horses, blooded and in their prime, Arabian and Kentucky thoroughbreds, fleet of foot and handsome. There are Roman, Standing and Chariot races, two and four horse; there are Steeplechases, Hurdle Races; Flat Trotting, Racking and Running Races; there are Pig and Pole, Sack and Wheelbarrow, Man vs. horse; Whippet Dog, Indian vs Indian Pony, Obstacle, Pony and Monkey, Clown, Mule and Goat Races, Elephant and Camel, Deer and Hound, Man vs. Man, and Woman vs. Woman Races. In a word, all kinds of races ever run will be duplicated and many novel ones introduced at The Great Lemon Bros. Shows at Peterborough on Thursday, June 1.

BIRTH.

FRENCH DAMAGES

France is Asking $1,825,000 for Her Fishery Rights

London, May 27. — I understand that France asks $1,825,000 in lieu of her claims on the west shore of Newfoundland. If the claims were assessed actuarially on their present value to their French owners, they would not probably be worth $250,000. On this basis one and a half millions roughly represents France's estimate of the sentimental and political value of her Newfoundland rights. An amicable agreement is expected on some such basis.

—Mr. John Craig has sold the last of his lots on Stewart street next to the one purchased by Mr. William Pringle at the corner of Brock and Stewart streets, to Mrs. West. Mrs. West has sold her property on George street, and will put up a fine residence on her recently acquired lot.

EVERYBODY READS THE TIMES.

The crowning joy of womanhood is motherhood and the crowning joy of motherhood is to have healthy children. But there can be no joy in motherhood without health, and without health for the mother there can be no health for the child.

$500 REWARD! FOR WOMEN WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, Buffalo, N. Y.

Mrs. W. J. Kidder, of Hill Dale Farm (Enosburg Center), Enosburg, Vt., writes: "During the past year I found myself expecting maternity, and in rapidly failing health. I suffered dreadfully from bloating and urinary difficulty. I was growing perceptibly weaker each day and suffered much sharp pain at times. I felt that something must be done. Took twelve bottles of Dr. Pierce's Favorite Prescription, and also followed your instructions. I began to improve immediately, my health became excellent, and I could do all my own work. I had a short, easy confinement and have a healthy baby boy."

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of 21 one-cent stamps for the paper covered book, or 50 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 128 PETERBOROUGH ONTARIO, THURSDAY JUNE 1 1905 PRICE TWO CENTS

EVERY ARMORED VESSEL SUNK OR CAPTURED, AND RUSSIA IS POORER BY OVER $70,000,000.

The destruction of the Russian fleet has been complete. Every one of the fourteen armored vessels was sunk or captured, and of the six fast vessels known as protected cruisers only one has reached Vladivostock. Two are reported sunk, one is missing, and no mention has been made of the other two as having been seen in the conflict. The total value of the destroyed fleet, according to figures gleaned from the Naval Annual, must be at least $70,000,000.

The entire list of the larger Russian vessels, and the fate that overtook them, along with their estimated cost of construction, is given below. The statement, which does not include a score of torpedo boat destroyers and special service boats, a large proportion of which were destroyed, is as follows;

	Displacement	Weight of Broadside Fire.	Cost of Construction.
Battleships.			
Knisz Souvaroff, sunk	13,516	4,426	$7,000,000
Alexander III., sunk	13,516	4,426	7,000,000
Borodino, sunk	13,516	4,426	7,000,000
Orel, captured	12,674	2,672	6,000,000
Osslabia, sunk	9,700	3,400	3,000,000
Nicholas I., captured	8,880	3,186	3,951,665
Sissoi Veliky, sunk	9,476	3,104	4,000,000
Navarin, sunk			
Coast Defence Ironclads.			
Admiral Oushakoff, sunk	4,126	2,600	2,050,000
Admiral Segiavin, captured	4,126	2,600	2,050,000
Admiral Apraxime, captured	4,126	2,600	2,100,000
Armored Cruisers.			
Dmitri Donskoi, sunk	5,893	444	2,500,000

Total value of ships in fleet			$68,041,665

THE NAVAL BATTLE PROMISES TO FREE RUSSIA FROM SLAVERY OF BUREAUCRACY

Disaster Rouses Ire of All the Russias--The Government, Not the People Defeated--Demand Immediate Convocation of a National Assembly--Those Guilty of Russia's Disgrace Should be Overwhelmed with Shame--The People will Speak.

St. Petersburg, June 1.—A series of conferences is proceeding at Tsarskoe-Selo to determine not only the question of peace, but whether it is advisable to yield to the popular demand for the immediate convocation of a national assembly.

St. Petersburg, June 1.—The catastrophe which has overtaken the Russian fleet has given a tremendous impetus to the demand upon Emperor Nicholas for the immediate convocation of a national assembly without awaiting action, upon the report of the Bouligan Rescript Committee. The reactionary Sviet, the press pours out indignation and wrath upon the bureaucracy, which is held responsible for all the misfortunes of the war. Only the Novosti and the Bourse Gazette, however, declare that peace should be concluded.

PRICE OF REACTION.

The Russ, now the widest read paper in Russia, says; "Those guilty of Russia's disgrace should be overwhelmed with shame."

"The death of half a million of men," the Russ continues, "and the loss of billions of money is the price of the rejection of progress and western civilization. Sebastopol struck the shackles from the serfs, and Port Arthur, Mukden, and Tau Island should free Russia from the slavery of the bureaucracy."

PEOPLE WILL SPEAK.

The Slovo, another popular paper, is even more bitter. It says;

"Enough! Blindfolded for two hundred years, the Russian people have been marching to the brink of destruction, but the bandages are now torn from the eyes of 130,000,000 of Russians, and they will neither be led nor driven over the precipice. Let the people speak! The bureaucracy has had its say, and has crowned its work of national shame and humiliation. Let it now listen to what those who have suffered in silence and who have supported it in luxury have to say.

"From this moment a convocation of the people has become necessary as the air we breathe. If bureaucracy this time stands between the Emperor and the nation, let it beware. Let it remember the lessons of Russian history—the history of the Zemsky Sobor of 1649. The Japanese are not fighting the Russian people but the Russian bureaucracy, which has rejected with energy the talent of the nation for a host of sycophants and time-serving courtiers.

Setback for Unions

Money in Treasury Liable for Union's Obligations

Toronto, May 31. — Mr. Justice Anglin has reversed on appeal the decision of the Master in Chambers in the case of the Metallic Roofing Company versus Local Union No. 30, Amalgamated Sheet Metal Workers' International Association.

The motion made by the company was to attach the sum of $490 in a bank to the credit of the union, for the purpose of paying the costs of an appeal for which the court held the defendants liable. The defendants were the three executive officers of the union, Alex. Kay, president; W. C. Brake, secretary, and R. Russell, treasurer. While individual defendants, the court held that for the purposes of the action they represented all the members of the union. It is also held that while in form the action is against the individuals, in substance it is against the union, and the same facts which prevent it from suit render it incapable of holding the property. Therefore, concludes Justice Anglin, the property that stands in the name of the union is the joint property of its individual members, and as such is eligible for their debts to plaintiffs.

This judgment is in direct contraception of the decision of the Master in Chambers, who held that funds of the union were trust funds, and could not legally be liable for any other purpose than that for which they were contributed.

RUMORS AFLOAT OF STRIKE

G. T. R. Telegraphers Said to Be Going Out--Company Doubt It

Toronto, May 31. — The G. T. R. telegraphers are likely to strike. It is understood that they have given the management until today to comply with the order of the board of arbitrators. If there is a strike the men will have the support of the Order of Railway Telegraphers, Chief Grand Despatcher Perham, of the international order, came to the city this morning from Buffalo.

At the office of the General Manager of the Grand Trunk here, it was stated that no communication had been received from the telegraphers.

Cheered the Japanese

Togo's Victory Celebrated in Vancouver, B.C.

Vancouver, B. C. June 1.—The Japanese colony of Vancouver celebrated the naval victory of Togo last evening by a big lantern parade, music and fireworks. The Japanese Consul was the central figure in the parade. Citizens all along the line of march cheered the Japanese.

THE JAPANESE WORK WONDERS

Remarkable Advance Made in Korea in a Year

COUNTRY IS PROSPERING

The Whole Country is Rapidly Being Transformed

London, May 31. — Dr. Morrison, the well known Pekin correspondent of the London Times, has been paying a visit to Korea, where he was greatly impressed by the transformation effected by the Japanese. He reports that the Japanese are paying liberally for everything, and that their conduct is exemplary. Civilian Japanese, he says, are pouring into the country, coming largely by families. It is estimated that 60,000 of them are there already, and they are arriving daily. There is practically an uninterrupted chain of Japanese settlements from Fusan in the south to the Yalu in the north. Railroad construction shows remarkable extension. With the exception of one bridge at Anju, there is now complete railroad communication from Fusan to the Yalu. The Seoul-Fusan Railroad, with its 276 miles of solid permanent way, is already paying working expenses, though it is not yet formally open. The Seoul-Yalu Railroad, 300 miles in length, has been entirely constructed by the military since April of last year, and all the trestle bridges will later be changed into permanent structures. A branch is also under construction at Masampho, while another trunk line is about to be constructed across the peninsula from Seoul to Gensan and the Tumen river. All the railroads are of standard gauge. Simultaneously extensive reclamation of land and harbor improvements are in progress at Chemulpo and Fusan, while the work of lighthouse construction by the customs continues without interruption. Order, Dr. Morrison observes, is kept with the smallest possible display of force. A Japanese gendarmerie has taken the place of the worthless Korean police. "Japan now controls all the communications of Korea with the outside world. She has by agreement, taken charge of the posts and telegraphs, she has secured the right to fish in the territorial waters round the whole coast of the empire, and she has obtained the opening of the inland and coast waters to the navigation of Japanese vessels."

LITTLE HOPE OF PEACE

RUSSIAN CONSUL AT MONTREAL SAYS WAR WILL GO ON

Czar Will not Give up the Hopeless Struggle Until Land Armies are Beaten

Montreal, June 1. — Mr. N. de Struve, the Russian Consul in the city, told a press representative that he had received no official communication whatever with reference to the defeat of the Russian fleet in the Corean Straits. He was further, he said, not in a position to give out any official statement on the subject.

Answering the suggestion that his personal opinion on the situation at this juncture would be interesting, Mr. de Struve smiling replied: "You may have it for what it is worth, and now.

"Let it be assumed that the Russian fleet has been defeated by Togo, as the latest telegrams have stated, what effect would it have on the issue of the war?"

"None whatever, except that it would make the Russians still more persistent in prosecuting it to its bitter end. We cannot admit our defeat—never."

Continuing, he said: "The Japanese seemed to have done their work with their torpedoes, reserving their battleships for another occasion. We were at a great disadvantage in that respect, because we could not take none with our fleet over the long sea route to the East. But, granted that Rear-Admiral Nebogatoff has been captured and nineteen of our ships have been put out of action, my hope is that the greater part of the fleet has still been able to proceed through the Pacific to Vladivostok, where they will effect a juncture with the squadron there, and it may be that Rojestvensky is with it."

He would offer no opinion whether the reinforced squadron would leave Vladivostok to meet Togo, but he confidently stated: "Whilst Japan's naval defeat would end the war so far as they are concerned, with Russia it is not so."

"What then will the Russian Government do?"

"Why, their next step would be to throw two or three more army corps in Manchuria and go on with their land operations interminably. It may not assume the aspects of a national war as it was in 1812."

"But Russians were a united people then. You do not seem to regard the discontented element which forms part of the population today."

"I can assure you that what I know of my own people, the reports circulated about them through news agencies are absolutly without foundation and the people are entirely misrepresented. They love the Czar and the army and will stand by them through tick and thin.

"Upon the news of the defeat in the East will in no way influence domestic questions in Russia?"

"Certainly not. The people are getting their reforms gradually and the news of their defeats in the East only tend to strengthen them in their resolve to crush their opponents."

Then he concluded: "In my opinion there is no hope of peace. To talk about it now would be an idle dream. Russia may be defeated on sea, but on land, never."

The Bye-Elections

The Premier is Expected to Speak at a Meeting in Woodstock Next Week

Woodstock, June 1. — What promises to be the most notable election contest in the political history of this constituency, and one of the most important ever conducted in Canada, is now in progress in the north riding of Oxford, the seat which the late Hon. James Sutherland occupied for nearly twenty-five years. Certain it is that both parties will prosecute a vigorous campaign. The Conservative candidate, Mr. James G. Wallace, of this city, has given its entire attention to the contest since he received the nomination ten days ago, and the indications are that the Conservatives will organize the riding as it has never been organized before. Already arrangements have been completed whereby Mr. Borden, Mr. George E. Foster, Dr. Sproule, Premier Houltain, of the North-West Territories, and R. B. Bennett, M.P.P., of Calgary, will address meetings in this city and throughout the constituency.

Russia's Troubles

Revolutionists Will Act in all Parts of Empire

London, June 1. — Fully attended meetings of the British group of revolutionists last night resolved that Rojestvensky's overthrow was "evidence of the wisdom and necessity of pushing the Russian Liberal movement to a climax." It was decided to employ at least all the resources of the revolutionary organization to spread the news of the disaster throughout Russia and to spur the workers and peasants to fresh efforts against the bureaucrats.

"Responsibility for the horror in the Corean Straits rests with the Czar and his officials," said the president of the meeting, a man of great experience, who in fighting the Czardom has sacrificed his every possession. "If these men did not know that Rojestvensky was no match for Togo, they were criminal fools. They sent thousands of Russians to death and plunged the land into disgrace and mourning. If they knew that Rojestvensky and his crews were the merest excuses for sailors and the fleet lacked every element of homogeneity. They had seen the proof of Russian helplessness in dozens of battles on sea and land. This great crime in the light of the slaughter in St. Petersburg in January will hasten the end of the autocracy. The Russian people are represented by a cruel and weak caste that prevents the sound part of the nation from finding expression. The Czardom is violently rocking toward the final crash."

Ends in Death

Walter Perdue Succumbs to Injuries Made with a Drawing Knife.

A very sad case is that of the late little Walter Perdue. As noted in Tuesday's issue, the lad, a ten-year-old son of Mr. W. Perdue, of Emily, had been brought, early Sunday morning, to St. Joseph's hospital, after a long and painful drive from the scene of his accident.

The terrible gash cut under his knee, by the drawing knife, resulted in severe blood poisoning setting in. He passed away yesterday afternoon at 3.30 in the hospital.

On Sunday morning after the wound was dressed, he rested quietly, but that afternoon he became delerious and his conditions rapidly became serious. Dr. Halliday was called in and he with Dr. McGrath and Dr. Coughlin, did their best to save his life, but their efforts proved unvailing.

The deceased boy was the eldest son of Mr. Perdue, and his mother died just eleven months ago.

The funeral will take place tomorrow morning from the family residence, to the Ennismore cemetery. The body was taken home last night.

Miss Burnham Honored

Valuable Tokens of Esteem Presented by Members of St. Luke's Church

Miss Edith Burnham, one of the most valued and energetic workers of St. Luke's Church, was yesterday afternoon, made the recipient of a handsome salad bowl, which is of English oak, beautifully silver mounted, and has the following inscription upon a shield;—"Presented to Miss Edith Burnham, by her co-workers of St. Luke's church, Ashburnham, May 31st, 1905."

Upon the accompanying silver salver is a similar inscription. The gift is of most exquisite design and workmanship.

In addition to the presentation of yesterday, Tuesday night at the residence of Miss Ruby Quartermaine the members of the Bible class, taught by Miss Burnham, presented her with a beautiful golden crow, as an evidence of their regard and affection. A pleasant social evening was afterwards spent.

The immediate occasion for presentation of these handsome tokens of esteem, is Miss Burnham's approaching marriage. A feeling address by Rev. Mr. Lanufeldt, accompanied yesterday's gift, in which the rev. gentleman congratulated her on the approaching marriage and conveyed hopes for her future happiness.

Cadet Corps.

Collegiate Institute Cadet Corps will Visit Crawford's Grove, June 12th

A body of our growing youth that should be, and is, regarded by all citizens with pride is the Collegiate Institute Corps. The fostering of this kind of thing among the nucleus of our coming manhood, is deserving of every support and encouragement.

The lads will, on Monday, June 12th, under the direction of their instructor, Sergt.-Major Brittain, of the 57th Regiment, spend the day at Crawford's Grove. The morning exercises will doubtless attract many of their proud parents, whose minds will revert thereby to their own younger days; dinner will be enjoyed at the grove, and in the afternoon there will be sports and games, including a baseball match.

The Collegiate Institute Cadet Corps, is drilled by Sergt.-Major Brittain, and is composed of about forty sturdy lads, who have attained great proficiency in the work. B. Miller is the cadet captain, K. Lech is first lieutenant, and C. Arnott second lieutenant. They will be inspected at an early date by the D.O.C. of Military District No. 3.

Little Lake Cemetery

Annual Inspection of this Beautiful Resting Place of Our Dead

The annual spring meeting of the Little Lake Cemetery Company, was held Tuesday afternoon. Among those present were; W. H. Moore, president; E. A. Peck, secretary; J. Stevenson, T. A. S. Hay, C. Stapleton, B. Shortly and Mayor Best, and Superintendent Frank Wise.

A careful inspection of this beautiful spot was made, and several improvements decided upon. These include that block "R" should be opened out upon a plan and offered for sale in lots to the public. The last on the iron railings around the graves is to be removed and the attempt is being made to have the hedges around several of the lots removed.

The cemetery was found in excellent condition. It is expected by Decoration Day, on June 15, the cemetery, will excel, in both appearance and system, even its past good record.

Czar Will Continue War

Russian Emperor Said to Be Still Inflexible

St. Petersburg, June 1.—"The war must go on. I cannot betray Russia's future merely for the sake of pleasing an unruly minority of my subjects." Thus the Czar is said to have spoken when the report reached him that Rojestvensky had been killed.

The Czar expressed belief that such a great catastrophe as Rojestvensky's death was impossible. He was deeply affected by the report and expressed his inflexible resolution to continue the war until the Japanese are defeated.

Boundary is Wrong.

Mr. J. P. Maybee Discovers That at Certain Points on the Detroit River the Line is within Canadian Waters.

Toronto, June 1.—Mr. J. P. Mabee, K.C., chairman of the Canadian Section of the International Waterways Commission, which met a few days ago in Washington, says that while he was in that city he looked over some boundary maps prepared by the American authorities, and noticed that at certain points in the Detroit river, the American boundary is indicated as being from 200 to 400 feet within Canadian waters, the line being, in one instance, withing 50 feet of the Canadian shore. In these Canadian waters the American Government had spent millions of dollars in public works.

MAY AGREE WITH CANADIANS.

The chairman said he had received a message from the secretary, Mr. Thomas Cote, to the effect that Mr. Loomis, acting Secretary of the United States War Department, had informed him that the Canadian interpretation of the Act of Congress defining the scope of the waterways inquiry would probably be accepted. President Roosevelt, Mr. Mabee added, had also expressed the desire that the widest possible scope should be given the investigation, as requested by the Canadian authorities.

Carr Girl Found Guilty

Appeared Before a Coroner's Jury and Seemed Oblivious to Her Position--Jury Discarded the Theory of the Baby Being Rolled Down the Embankment.

Toronto, June 1.—"That Harry McHarg Murray came to his death on the night of May 19 or the morning of May 20, by drowning, and that Josephine Carr, by her criminal neglect and ill-treatment caused the death," was the verdict of the corner's jury in O'Neill's Hall, Tuesday night, when the inquest was resumed in connection with the stealing of the Murray child from Eaton's premises, and its subsequent murder.

The girl Josephine Carr was present, and was the center of interest. To those who had only read of her she was a distinct revelation. There was absolutely nothing in the features or expression of Josie to suggest that she was anything approaching a criminal. She looked the essence of happiness and contentment, and obviously failed altogether to realize the serious nature of the charge which was hanging over her. The girl can, without undue flattery, be called pretty. She has a profusion of blonde hair neatly parted on the left side, and it was covered with a large high hat straw hat. She wore a white blouse and a fawn coat.

Josie, who was in charge of Mr. Lee Williams, of the Children's Shelter, was not at all impressed by the seriousness of the Coroner's Court. She seemed more concerned in her little brother Earl, who has figured prominently throughout the case, and who was her constant companion while a string of witnesses related their story. Then the boy went to sleep in her arms, other children in court caught the contagion, and it seemed almost a pity to sit so late under such circumstances, for ten o'clock had passed. As it was, Josie herself, who had got through the ordeal well, showed signs of dozing shortly before eleven, and she was wisely taken back to the Children's Shelter before the verdict of the jury was reached. She was more amused than distressed during the greater part of the evening.

THE LORD'S DAY ACT

Preparations for the Argument of the Case Before the Privy Council

The Ontario Government, the Dominion Government, and the Lord's Day Alliance are moving to secure a settlement of the question of jurisdiction in the matter of the Lord's Day Act. They have allied forces for the purpose of securing this settlement, and will send a representative next month to England to apply to the Privy Council for leave to appeal from an unsatisfactory judgment of the Supreme Court of Canada upon a set case prepared by the Dominion Government, after the Privy Council in 1903 had declared that the Ontario Lord's Day Act "as a whole" was ultra vires.

This appeal should bring the question down to a basis where amending legislation will be possible. As the matter now stands the Lord's Day Alliance and the two Governments are at sea upon the question of Provincial or Federal jurisdiction. Mr. I. U. McPherson of Toronto will likely cross the water to argue the matter at hte Privy Council.

A Large Attendance.

Park Street Pap ist Church Mission Circle Elect Officers.

The Rev. A. H. Brace, if it might be pardoned using such a title toward a gentleman of his respected cloth, would, in any other calling be termed a hustler. He takes hold of his parish in a way that admits of no defeat.

On Tuesday evening the Mission Circle, in connection with his church, held a meeting, and as might have been known, it was largely attended to. The first order of business was election of officers, which resulted as follows;

Hon. President—Mrs. (Rev.) A. H. Brace.
President—Miss Maggie Mann.
Vice-President—Mrs. Wright.
Secretary—Mrs. Johnston.
Treasurer—Mrs. Gillespie.
Collector—Mrs. Jewitt.
Organist—Mrs. Tranter.

Miss Mann, the retiring President, was in the chair.

Next came an address on the "Mission Circle Character," by Rev. A. H. Brace, pastor of the church.

The rev. gentleman gave a most interesting and instructive talk to those present, making an acrostic reference to the letters contained in the word "circle."

A duet was then given by Mrs. Wright and Mrs. Jewitt, which was very much enjoyed by those present.

Refreshments were then served, the ladies kindly providing something very taking in the way of coffee and cake.

The meeting closed with the benediction by the pastor.

During the year the society contributed the following;—For Home Missions, $12.25; Foreign Missions, $12.30; other expenses, $3.00.

May Borrow British Ships

Ottawa, May 31.—The Minister of Marine and Fisheries, after the session, hopes to be able to spend several weeks in the Maritime Provinces, investigating the fisheries and aids to navigation. Later on he may proceed to England to confer with the Admiralty authorities regarding the naval reserve scheme and to secure one or more warships for instructional purposes.

BANK'S NEW QUARTERS

SENATOR COX'S PURCHASE OF MONTREAL PROPERTIES

Bank of Commerce, Canada Life and National Trust to Have Fine New Offices--Emanuel Church Property Transfer

Montreal, May 31.—A short time ago the block at the corner of Windsor and St. Catharine streets, known as the Hamilton property, was bought, presumably by Senator Cox of Toronto, and it is now said that it will be used as a site for the uptown quarters of the Bank of Commerce, The Canada Life and the National Trust. Senator Cox is credited with having bought $750,000 worth of property in Montreal within the last year. The biggest deal was the transfer of the Temple Building on St. James street which was a big elephant on the hands of the St. James' Methodist church. It is to become the site of an imposing Bank of Commerce building.

Another big real estate deal here is the purchase by Mr. W. H. Weir for James Reid & Son, for $160,000, of the Emanuel church property at the corner of St. Catharine and Peel streets, which the church bought in 1875 for $12,000.

All Saints' Church

To be Greatly Enlarged--Tenders will be Called for at Once.

As noted in a previous issue, All Saints' church, is now inadequate to house its rapidly increasing congregation. The advisory Board have had under consideration the contemplated improvements, and have finally decided, after a careful inspection of plans submitted by Mr. J. E. Belcher, having found them, in every way, satisfactory, to call for tenders at once.

The prospective drawing of the new edifice shows a very handsome building which will be capable of holding about four times as many people as the present one. The addition is to be on the south side of the present building along Rubidge street and also for some distance back of the present structure. The enlarged structure will seat 700 persons and a central tower will be erected. The estimated cost is about $15,000

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO. Toledo, O.

Sold by Druggists, 75c.

Baby's Birth a Trying Time

Made Easy if the Mother Prepares Her System With a Bracing Treatment of

FERROZONE

A Womanl Tonic that Uplifts, Vitilizes, and Strengthens.

You immediately experience a real gain in power and strength by using Ferrozone, which is a true nerve and blood tonic. It effects permanent cures unparalleled in the history of medicine.

Ferrozone supplies the essentials of life that are exhausted by over-work worry, indigestion or high living. It contains just what every run-down system lacks.

By instilling new strength into the blood, Ferrozone benefits the whole body. Digestion improves, the eyes sparkle, the cheeks glow with girlish beauty. Normal powers are restored to the regenerative organs, the nerves are recharged with energy, making the sufferer conscious that direct benefit is resulting from Ferrozone.

There is no greater boon to suffering women than Ferrozone. It charges the system with the snap and fire of youth, builds up firm tissue, rounds out the form until perfect womanhood is attained.

Ferrozone is the one safe tonic for ladies to use, because it contains no alcohol or dangerous drugs. Growing girls, young women, expectant mothers—every female will derive unquestionable benefit from this grand restorative. Prepared only in tablet form, 50c. for a box of fifty tablets or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, JUNE, 1 1905

SCHOOL STRIKES

A phase of the Chicago strike more serious even than the rioting in the streets lies in the so-called strikes in two of the Chicago schools.

In one school "business agents" of from 12 to 14 years of age ordered "pickets" to surround the building and intimidate other pupils who attended or tried to attend. At the other school all but 100 out of 1,700 pupils took part in the strike. An attempt to deliver coal by a "non-union" driver resulted in a riot in which the school boys injured the teamster, cut his team's harness and broke the wagon.

It is easy to see to what such spirit as this, tolerated in the schools, must necessarily lead. Open and organised defiance of government, under the delusion that such defiance is right, is sheer anarchy.

Even adult members admit that the government and its various agencies must be free from molestation, no matter with whom it deals or from whom it purchases its supplies. The Chicago school children may by intuition have caught the real spirit of the strike, but they certainly have come far from catching the spirit of good citizenship.

The whole effect of these juvenile demonstrations against constituted authority is to inculcate a contempt for all law and order. It is a good time for Chicago parents to get busy with the shingle.

EDITORIAL COMMENT.

The Russian Government has bought a new breastplate which is impenetrable to rifle bullets and swords, and a number of officers going to the Far East have been equipped with this new protection against Japanese bullets. The breastplate, which is the invention of an Italian, Giorgiano, is made of soft elastic material, about one-fourth of an inch thick, and weighs four pounds. Experiments made at St. Petersburg show that bullets fired at the breastplate remained in it and were flattened, without penetrating the inner surface, though a severe shock was distinctly felt by the wearer when shots were fired at a short distance.

• • • •

The Iowa State Board of Health is considering the proposition urged by many medical men to abolish the whisker habit. Since the whiskered foreigners have been found to propagate disease germs through their Mirate ornaments, the slogan has gained strength, "whiskers must go." The doctors are to set the example.

John D. Rockefeller, jr., son of the world's wealthiest man, is a victim of dyspepsia, which, in a way, will be interesting to the horny handed son of toil who can dispose of a couple of pounds of cold corned beef at each sitting. The N. Y. Herald invites all the sundry to digest this.

A Peterboro Journalist

Mr. J. B. Giroux, Well Known Here Has Started a Successful Kansas Paper

Peterborough talent is being acknowledged in far-away Kansas. Mr. G. H. Giroux, of the T.V.C. yesterday received a paper that renewed old links of fraternal memory.

It is a copy of the Kensington Republican, the first issue of which appeared recently in Kensington, Kansas. The editor is his brother, Mr. J. B. Giroux, who left Peterborough twenty-one years ago, and who will be remembered by old-timers as the goal-keeper for the local lacrosse team in the days when Harry LeBrun used to rush round the field, lacrosse stick in hand, hurling French and English after his boys, should they let up for a minutes breath.

Mr. Geo. Giroux states that the paper is the first communication of any kind he has received from his brother in ten years.

This is from the Smith-Center Journal: "The new Kensington paper, the Republican, made its appearance at this office last week. It is neat in appearance and appears to be well patronized. The editor is J. B. Giroux, a man of no mean ability along political lines. The paper will advocate the interests of the Republican party and of course will get in line with the machine crowd. The basement organ which presumes to own the republican party in this country, put's a chip on it's shoulder and sails out to meet the stranger last week with the claim that the editor has been a hotter of the regular nominees of the party. Well it is no fight of this paper, and the Journal will continue to be the county newspaper, which gives the news without fear or favor. The Journal wishes the new enterprise success in every way."

10 PER CENT. PER ANNUM

Peterboro Fuel & Cartage Company Declares Substantial Dividend

The annual general meeting of the shareholders of the Peterborough Fuel and Cartage Company, was held at the office of the company, 162 Charlotte street. The president, Mr. Wm. Irwin, occupied the chair. The financial statement for the past year was presented, and it was of a very satisfactory character, the shareholders being greatly pleased with the record and the outlook. It was decided to declare a dividend of five per cent. for the half year, making ten per cent. per annum. In addition to this a nice balance was carried to the rest fund. The following officers and directors have been appointed:

President—Mr. Wm. Irwin.
Managing-Director—Mr. Wm. Buller.
Directors—Messrs. F. D. Kerr, A. Parker, and R. McWhinnie.
Secretary—Mr. A. J. McClellan.
Treasurer—Mr. J. M. White.

A Peterboro Prophecy

Mr. Russell Thinks Peterboro will Become Another Chatauqua

Mr. Russell the evangelist has publicly expressed his opinion in St. Andrew's church that there was every reason to believe that Peterborough being the general city between Montreal and Windsor, and so beautifully located, would become a Canadian Chatauqua or Winona. Tens of thousands in money were actually spent each year in attending these assemblies for special conference in Bible truths and Christian work. While the winter season presents the best time for revival work, the summer months might well be used for the deepening of spiritual life by conference and fellowship. The class in the Y.M.C.A. hall each afternoon at 4.15 is especially designed to help Bible students and teachers and to stimulate a greater love for research in the Scriptures. The evening meetings in St. Andrew's give an opportunity for all to get greater encouragement in receiving and giving the Gospel. The meetings are open to the public and will be continued every night this week.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

REFUSED NEW TRIAL

Mrs. Rogers to Hang Unless Pardon Arrives

Montpelier, Vt., June 1.—The petition of Mrs. Mary M. Rogers, convicted of the murder of her husband, for a new trial, has been denied by the Supreme Court of Vermont.

A reprieve granted by Governor Bell the day before Mrs. Rogers was to have been hanged last February, will expire June 2. Under Vermount laws only commutation by the Governor can now avert the hanging of the woman on the date named.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations nd private firms in Western Canada.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning? Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

☞ No Names Used Without Written Consent.

O. W. Rowe, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of 8 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

DRS. KENNEDY & KERGAN
148 SHELBY STREET, DETROIT, MICH.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each
200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1,000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties:—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Morse, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Carr, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company is the Wilkes, Murphy, Dome, Rock-Hill, Ben Hur, Columbia, Reindeer-Annex, John Thompson, Frank, and Parenos, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the condition resembling that of coal formations; consequently, the direction and trend of the ore bodies are readily followed and determined, and by preliminary exploration, their courses have been found to underlie the surface ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $240,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1,000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent Stock at Twenty-Five (25c) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profits. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,
25 Congress Street, Boston, Mass.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the
MONAROH MINING DISTRICT
CHAFFEE COUNTY COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Fuller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 600 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $30 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $20 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $6.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Other improvements can be made to reduce sale expenses.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $730.00 per ton and for gold $205.60.

With an average value of $82.60 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 375,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

For further particulars apply to

W. F. MORPHY, President,
320 Board of Trade, Omaha, Neb.

Transvaal Constitution

General Botha Issues Manifesto Criticizing Many Points

Pretoria, May 31.—General Botha on behalf of the Constitutional committee has issued to the Dutch member of Het Volk a short resume of the Constitution rendered necessary by the non-publication of an official Dutch version. This resume is followed by a concise criticism of the chief points which, he says, will cause universal dissatisfaction and even indignation owing to the evident deep distrust of the Transvaal public, and particularly of the Boers, which is revealed by them. Among the chief points which General Botha selects for criticism is the fact that under the Constitution the Government is entirely independent of the Legislature, even in regard to salaries of officials. Moreover a quarter of the Legislature being nominated, the scale will always turn on the side favored by the Government, and disastrous proposals will easily be carried out, such as the $150,000,000 contribution. The powers of the Legislature are so limited that it will be more of a debating society than a serious Parliament, financial proposals emanating from the Government which is totally independent of the people's representatives. He objects to the Government's attitude on the subjects of Asiatics and natives, of railways, and the use of the Boer language.

General Botha then refers to the fact that men raising large families of prospective citizens under great trials are placed on the same footing as single men temporarily fortune-hunting in the colony."

The proposed quadrennial redistribution, General Botha continues, is calculated to give the ruling party a further lease of office. The stipulation of a deposit of $500, from Parliamentary candidates is denounced as a bar to working men, whilst the absence of a limit to election expenses favors rich candidates, two provisions demonstrating the one-sidedness of the Constitution and the distrust entertained by the masses, which is deplorable in a country like the Transvaal where the majority are poor and capitalists consequently wield unusual power.

The manifesto concludes with the expression of a hope for a speedy change in the Constitution.

RUSSIAN PRINCE SUICIDED

He Had Lost Fortune of $225,000 at Gambling Tables

Nice, May 30.—It is now known that the person who jumped into the sea out of a boat off this place recently and was drowned was Prince Charles Bakunin, son of the Russian revolutionist. The Prince had been for the last two years at Nice. He was married to a rich Italian lady, and had three children. The Prince had lost $225,000 at the gaming tables and was utterly ruined. He committed suicide by tying a heavy stone around his neck on board a boat which he had hired, and from which he dived into the sea and sank.

A Splendid Program

Many Pleasures Ahead Supplied by George St. Epworth League.

The following program was been arranged by the George street Epworth League, and tells its own story of coming literary and social treats. It is well worth cutting out for future reference;

June 1st—Consecration. "An Interior View of a Great Soul." Mrs. D. W. Dumble.

June 12th—Literary.

June 19th — Missionary, "What Hath God Wrought." Miss E. Miller.

June 26th—Social.

July 3rd—Consecration. "The Christian and Sin." Mr. A. O. Kidd.

July 10th—"The Righteousness of Faith."

July 17—"The Evangelistic Work Among the Indians. Miss Scott.

July 24th—"Christian Liberty—Its Basis and Application."

July 31st—"A Christian Among Men."

August 7th—Consecration. "Paul's Testimony before Kings." Miss C. McClennan.

August 14th—Floral Evening.

August 21st—"A Ministry in Words and its Results." Miss A. Steep.

August 28th—"The Pre-eminence of Christ.

September 4th — Consecration, "Christian Warriors." Miss N. Smith.

September 11th—Social.

September 18th—"Losses and Gains for Christ." Miss Eva Bennett.

September 25th—Literary.

October 2nd—Consecration, "The Moral Power of the Gospel.

October 9th—"The Native Ministry." Miss E. Hill.

October 16th—"The Satisfaction of a Good Life."

October 23rd—"Drawing Near Unto God." Miss A. Crafts —

October 30th—Social.

Nov 6th—Consecration, "The Making of Heroes." Rev. F. J. Scott.

November 13th—Literary. "The Prospector.

November 20th—Missionary, "More Recent Years." Mr. A. Mann.

November 27th—"Christ Criticising the Churches."

The officers of the League are;—

Hon. President—Dr. Crothers.

President—Mr. G. Galley.

1st Vice-President Christian Endeavor Department—Miss Eva Bennett.

2nd Vice-President, Missionary — Miss Lena Waters.

3rd Vice-President, Literary — Miss Edna Armstrong.

4th Vice-President Social — Miss Clarice McClennan.

Secretary—Miss Amy Crafts.

Treasurer—Mr. A. Mann.

Corresponding Secretary — Miss Ethel Miller.

Pianist—Miss Evelyn Christy.

Assistant Pianist—Miss M. Crothers.

QUEEN VICTORIA DEIFIED

Peculiar Belief Among Hindoos About Late Queen

Bombay, May 31.—The Allahabad Pioneer, one of the leading newspapers of India, is responsible for the statement that the belief is widely held throughout India that the deification of Queen Victoria's statute in Bombay is responsible for the present plague epidemic. It is well known that the late Queen was deified by the Hindus even in her lifetime, owing to her long and brilliant reign, the extent of her power and the veneration in which she was held. Her statue therefore came to be regarded as an idol, and the insult to it some months, when it was damaged by vandals, has caused her, in Hindu belief, to visit the land, as an avenging deity, with a terrible pestilence. The result has been to bring Bombay into bad odor with the rest of India.

The Canadian Magazine

It may surprise those not thoroughly acquainted with the circumstances, to know that The Canadian Magazine from month to month is written entirely by Canadians. There is no other publication in this country which is so representative of all that is best in native literature — articles, stories, poems and sketches. The June number, just to hand, is a splendid example of what a magazine should be, in both appearance and contents. The opening article is an illustrated sketch of Winnipeg, written in a manner that is quite quite out of the ordinary. "Public House Trusts," by Russell E. Macnaghten, is opportune, both because this movement was inaugurated in England mainly through the support given to it by our present Governor-General, and because the control of the liquor traffic is a problem much discussed at the present moment. "The Story of the Simplon Tunnel" is a whiff of information from the outside world. The stories are by Cy Warman, Eric Bohn, Rev. W. C. Gaynor, Theodore Roberts, and A. C. Smith. A charming character sketch by Professor Maemechan, of Halifax, is entitled "The Nova Scotia-ness of Nova Scotia." The book department is devoted mainly to a discussion of Canadian books and a chat about Canadian authors.

A WIDOW'S PATHETIC LETTER.

One of Hundreds of Letters Received at Muskoka Free Hospital for Consumptives—Pleads for the Life of an Only Son.

The following is one of hundreds of letters received at the office of the National Sanitarium Association:—

Coaticook, Que., June 3rd, 1904.

Dear Sir,—I hope you will pardon my writing to you. I am Charles Brown's poor mother, that is heart-broken about my one and only son, and longing for your kind letter to arrive to say you can find a place for him soon in the Muskoka Free Hospital for Consumptives. He is the only son I have and I am depending on him for support, and he has a wife and one baby depending on him also for their support. . . . He is the Charles Brown that Judge Brisson's daughter spoke to you about. . . . Dear Sir, for God's sake hasten the time for him to get there, as the longer it runs on him the harder it will be for him to get well and back to his former health and strength again. . . .

Mary Brown.

Coaticook, Que., June 6th, 1904.

Dear Sir,—I received your kind and most welcome letter to-day. Very glad I was to hear the good news that my dear son can go to the Hospital any time this week. Thank God for the good news. He will leave Montreal on Monday, the 13th, or Tuesday, 14th, at the latest. . . . It has given him new life to hear the glad news that you have sent to me, his mother.

Mary Brown.

It is to meet just such cases as this that the Free Hospital for Consumptives has been built. Less than three years opened, nearly 400 patients have been cared for, and not a single patient has ever been refused admission because of his or her poverty.

Sir Wm. R. Meredith, Kt., Chief Justice, 4 Lamport avenue, Toronto, or W. J. Gage, Esq., 84 Front street, will receive and acknowledge any subscriptions our readers will send.

Town Engineer.

WE HAVE STRUCK IT!

A Little of the Stock Still Offered at the Old Price

We take pleasure in recording a development at our property which has materially increased its intrinsic value and enhanced the holdings of every stockholder in our Company. We have known all the time that we were in the great tungsten belt of Boulder County, the belt which has surprised the mining world lately by the showing it is making in the production of this metal. WE DID NOT KNOW THAT WE HAVE MANY TONS OF MOLYBDENITE ALREADY OPENED IN OUR MINE. We have just made this discovery, and while it is early yet to estimate exactly, we can say positively, that our strike is of much consequence as it means a material increase in our revenues. In addition to the precious metal values in our ores, we have molybdenum, which, it should be stated, IS WORTH MORE THAN GOLD. This is certainly a most important development, as you will admit, and as we have decided not to advance our stock just yet, you will certainly want to avail yourself of the opportunity to secure a block while you can. The future of our property is now assured beyond the question of a doubt. DO NOT FORGET WE HAVE BESIDES, THOUSANDS OF TONS OF GOLD ORE READY FOR SHIPMENT. We have miles of veins, and hundred of acres of ground, enabling us to sustain our production for an indefinite period.

No bonds, No preferred stock. No debts. Money in the treasury. Par value of stock $1 per share. Stock full paid and absolutely non-assessable For a limited period we can offer treasury stock for the purpose of raising funds for larger equipment, to facilitate the shipment of our ore early in the spring. You certainly want some of this stock while it is yet purchasable at the present low price It is very certain that our treasury stock will be entirely withdrawn in the early future, If you are wise you will act at once. Do not forget, we have molybdenite as well as thousands of tons of gold ore. Where can you equal such an ideal proposition?

Full particulars cheerfully furnished upon application we have nothing to hide. Kindly ask us for full information.

FREE . . . .

For the financial and commercial standing of the business men who stand back of this enterprise we refer you to the First National Bank, Boulder, Colo, or Bradstreets Commercial Agency

The publication of our History of Boulder County has been delayed a little through our decision to make it larger in size and more comprehensive in character. The work will be a splendid one in every respect, and well worth preserving by people throughout the country, who are interested in the romantic and fascinating history of the mines of one of the richest and most famous of the Colorado counties. Our booklet should be read by every American who takes interest in the marvelous records of the industries of the west. A History of Boulder County, Colorado, will be sent free to any address

Edward Monroe, Pres. and Gen. Mgr. BOULDER, COLORADO

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Postal Station "F" Toronto, Ont.," will be received at this office until Tuesday, June 20, 1905, inclusively, for the construction of Postal Station "F" Toronto, Ont.

Plans and specification can be seen and forms of tender obtained at this Department and on application to H. E. Hamilton, Esq., Resident Engineer, Examining Warehouse, Toronto, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary

Department of Public Works,
Ottawa, May 27, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

Lung, Throat and Catarrhal Troubles

Cold in the Head Cured Quickly if You Breathe Fragrant, Healing

Catarrhozone

The ordinary method of treating catarrh by the stomach is a very indirect way and, as experience has demonstrated, a very useless method to employ.

Fragrant, healing Catarrhozone, is breathed, the air, laden with minute particles of this healing balsamic liquid, spreads itself over the whole area of inflammation.

It reaches the very root of disease instantly destroying by its antiseptic properties the germ life which excites and maintains the disease. Its soothing and healing action is at once apparent to the whole diseased surfaces. It cures quickly and it cures permanently.

We affirm that no proprietory medicine has ever brought forth from the people as many voluntary testimonials as Catarrhozone has received.

MRS. M. J. WHITNEY, Clay Street, Topeka, Kan., was cured of nasal catarrh, and say, "I owe Catarrhozone an immense debt of gratitude. It cured me of the most disagreeable catarrh after many doctors had pronounced my case incurable. I do not cough any more, my breath is sweet, and my respiration regular since using Catarrhozone."

MRS. JAMES TWEEDIE, of Jay Bridge, says; "For years my daughter doctored for catarrh. She had dropping in the throat, hawking, nausea, and could not sleep at night. The first day a puff of Catarrhozone benefitted and it cured so the catarrh never returned."

MR. R. SHELDON, of Leamington, Ont., says; "For two years I unsuccessfully sought a remedy to cure my son of catarrh but permanent results were not attained until Catarrhozone was used. It cured my little boy like magic and he has been quite free from catarrh ever since."

REV. D. B. SMITH, of Whitehead, N.S., says; "Catarrhozone permanently cured me of chronic catarrh of the nose and throat from which I suffered for many years. I heartily recommend Catarrhozone."

MR. R. McCALLUM, of Spring Brook, Ont., says; "A sample of Catarrhozone benefitted me more than years of treatment with doctors, and by using the dollar outfit I was completely cured in a few weeks. I recommend Catarrhozone as the most satisfactory cure for catarrh on this market. Every word said for it is true."

MR. S. T. WRIGHT of Steeds Mills Ont., says; "I had a bad attack of sore throat, with inflamed tonsils and sore chest. I inhaled Catarrhozone and it cured my trouble. I greatly admire its pleasant and soothing effect."

MR. JAMES FERGUSON, of Perth, Ont., writes:—"I have used Catarrhozone for sore throat and cold in the head and find it a good remedy. I highly recommend it."

MISS CLARA B. COLBY, of Lorne, Ont., writes:—"I had a continuous cold in the head for years, and never used anything giving such quick results as Catarrhozone. I am delighted at last to find a remedy that positively cures colds. I strongly advocate Catarrhozone; it cures every time."

Catarrhozone cures without drugs and disagreeable medicine. It is Nature's cure—soothing, healing and pleasant to use. You simply inhale the medicated vapor of Catarrhozone through a Catarrhozone Inhaler and get cured quickly. Two months' treatment costs only one dollar. It can be sent by mail and used right at home any time during the night or day. Sold by druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

Cavan Cavalry Go To Kingston

C Squadron of the 3rd Prince of Wales Dragoons, Major G. Hall, commanding, will go into camp at Kingston, on June 27th. There are vacancies for a few good men—to furnish their own horses—farmers' sons preferred. The squadron will entrain at Peterborough, at the C.P.R. station on the morning of the 27th.

Ascension Day Services

To-day being Ascension Day, Holy Communion will be celebrated in St. John's church at 10 o'clock, in St. Luke's church at 11 o'clock. In St. Peter's cathedral, mass will be celebrated at 5, 6, and 8 o'clock, and High Mass at 10 o'clock, with a sermon at each mass. In the evening at 7.30 the men's mission will be continued.

Rutherford Bros., Contractors, Busy

Rutherford Bros., are very busy with several contracts and expect to receive a number of additional ones within the next few days. They are completing a handsome house for Mr. Dodds at the corner of Antrim and George streets and are also building a $3,000 house for Mr. Harry Thompson on Hunter street, near Park street. Rutherford Bros., have also been given the job of altering and raising the Sunday school building of Charlotte street Methodist church.

C.P.R. Change in Time

On and after the 4th of June, passengers, per C.P.R., for Toronto and the west, can take a few minutes more slumber, and one more roll between the sheets, than formerly. The train that now leaves here at 7.12 a.m., will on and after that date, leave at 8 a.m. The early train that now leaves at 5.12, will on the above mentioned date pull out at 5.15. This extra 48 minutes, on this most frequently patronized train, will just make the difference between gulping down and drinking in comfort the early coffee.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—The Finance Committee met last night.

—For a good hammock at a moderate price come to Times Bookstore.

—A special meeting of the Board of Education will be held on Friday night.

—To-day Ascension Day, Divine service will be held in All Saint's church at 10 o'clock.

—The regular meeting of Firwood Circle, Woodmen of the World, was held yesterday evening in the S.O.E. hall.

—This is the bright spot in the small boys year. He was in evidence as we go to press, awaiting the long looked for circus.

—The retail druggists will close at 7 p.m. during June, July and August. One drug store will remain open each evening for the accommodation of the public.

—Mr. G. E. Whiten has sold his handsome residence, 264 Aylmer street, to Mr. Wm. Madill, who is to be congratulated on securing a home so convenient to his business.

—The Customs receipts for Peterborough last month fell far behind those of the corresponding month of last year. Canadian manufacturers are now supplying more of the demand.

—Since July 1st falls on a Saturday this year, and consequently the stores will be closed, the market day will be held on Friday, June 30th. All farmers should remember this fact.

—Mr. J. G. Graham has erected a handsome colonial verandah on Mr. D. Conroy's house, Fifth Ward, and also in front of the Maple Leaf hotel, of which Mr. G. Lipsett is the proprietor.

—The members of the Canadian Order of Foresters of Peterborough, will attend divine service in St. Andrew's church on Sunday evening, June 4th. Rev. J. G. Potter will deliver the annual sermon.

—The many friends of Mr. James A. Tully, who has been contemplating going west, will learn with pleasure of his decision to remain in town. Mr. Tully has accepted an important position with Messrs. Grafton & Co.

—Mr. Morrison, the Water street tailor has closed up his business, and will leave shortly for New York. A local jeweller purchased the fine grille work, curtains and other ornamental fixtures that decorated his display window.

—The Peterborough Radial Railway Co., has a number of men at work on Lansdowne street, where a track will be laid running from Lock St. to the western gate of the exhibition grounds. This should prove of great service.

—Beware of pick-pocketed Ladies will do well to-day to leave their wrist satchels in the refrigerator, unless they only contain, the frequently found, assortment of ribbon samples, one glove, that old powder-puff, and three street car tickets.

—The last meeting of the season of St. Luke's W.A., will be held this afternoon, at 2.30 o'clock. After the meeting the members will be entertained at the rectory at tea. Members of the Sunnyside Branch have also been invited.

—Game Warden Geo. W. Fitzgerald states that, under the new game-law of the province no person is allowed to have the skin of a deer in his possession between January 1st, and November 1st of each year. A heavy fine can be inflicted.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrography Work. Studio 124 Brock Street, Peterborough.

—It is within possibilty that the strength of our local regiment may be reduced. As despatches received yesterday from Ottawa have reference to the reduction in the establishment of certain infantry regiments, and local military men state that the 57th is included.

—The Canadian Electrical News says—"The Canadian General Electric Co. will supply the electrical apparatus and equipment, including the car motors for the electrification of the Lulu Island railway between Vancouver and Steveston—a distance of seventeen miles.

—Mr. J. G. Graham is completing a very handsome colonial verandah for Mr. H. LeBrun, at his residence, corner of Park and Simcoe streets. The verandah is a very wide one and extends not only in front, but also around to the Park street side of Mr. LeBrun's dwelling.

—Mr. James Bogue has been awarded the contract for laying about 150,000 feet of granolithic sidewalk in Arnprior. He received work yesterday that his tender was accepted. The contract will be over $20,000 and the work has to be done this summer.

—The Star of the East Gold Mining Company are arranging for a visit to their property of a large party of prominent gentlemen in Belleville, Hastings, Norwood, Havelock and Peterborough, on June 5th and 6th. A large project is on foot to install electrical machinery and to equip the mine with 90 more stamps.

—A warning has been issued by the Ontario Bank, cautioning the public to beware of a rather dangerous counterfeit ten dollar note on the Ontario Bank, which has made its appearance within the last few days. It has a dull, greasy look and might deceive those not accustomed to handling paper money.

—The Brantford Trades and Labor Council wants the city assessment roll published. The members think that the workingmen pay too much on their dwellings, while the wealthier people do not pay enough. They want to see the rolls printed so that they will be better able to judge. The leaven is working.

—The residents along Patterson and Sherbrooke streets are complaining loudly about cattle being allowed to run at large, to the inevitable destruction of their gardens. They mentioned one citizen who allows five cows to graze on the streets. Unless this is remedied the police will be called on to take a hand in the game.

—Yesterday quite a crowd, during part of the morning, gathered in front of the Ontario Bank. Passers by made many enquiries as to the reason for a crowd in that vicinity, and a wag in the party, caused some temporary excitement by saying a man had just passed a bogus draft for $10,000 on the bank. The crowd was composed of farmers interested in the cheese sales, discussing prices.

SOCIAL AND PERSONAL
SOCIETY EVENTS OF INTEREST

—Mr. Jas. S. Cook, of Belleville, is staying in town.

—"Mull" Douglas left yesterday afternoon for Toronto.

—Mr. T. H. Cook, of Kingston, is registered at the Snowden House.

—County Councillor Webster, of Warsaw, was in town yesterday.

—Warden Buck, Norwood, was in town yesterday attending the Cheese Board meeting.

—Mrs. Gardiner of Peterborough, is visiting her father, Mr. William Gardiner.—Woodstock Express.

—His Lordship Bishop O'Connor will attend the funeral of the late Bishop Macdonel at Alexandria.

—Rev. E. A. Langfeldt has been appointed examiner in German at Trinity College school, Port Hope.

—Mr. J. A. Macdonald, M.A., who has been occupying a position as specialist in classics for Canon City, Col., Collegiate Institute, is in town for a few days visiting relatives.

—The Lindsay Post says; Mr. R. Webber of the Ford dress goods department, left for his home in Berlin on Saturday night, where he intends to open up in business for himself. Mr. Mogridge, of Cressman's, Peterborough, will be his successor.

—Rev. A. H. Brace, pastor of the Park street Baptist church, spent last Sunday on one of his old fields of labor, and preached to three very large congregations, at Salem, in the morning, at Peniel in the afternoon, and at Manila in the evening.

Police Court
OFFICIALS
Chief of Police, G.I. Hood
Magistrate, D.W. Dumble

Yesterday may well be described as "scavengers' day," at the police court, since a majority of the time and most of the witnesses were engaged in unravelling a tangle as to responsibility of these gentlemen, who, whilst not occupying the highest pinnacle in society's estimation, nor of the most immaculate cleanliness in person are a most necessary and useful cog in the wheel of a town's health and decency.

The first case called was that of Geo. Simpson, who was charged with having a dog on which this year's tax had been neglected.

Mrs. Stevenson, 179 Harvey street, a neighbor of the defendant, swore that Simpson had had two dogs this month, one white and one brown, the one of which, to her knowledge he has now, and one of which he had a few days ago. This she remembered as the dog had torn a sheet belonging to her.

A Heart to Heart Talk

The Hon. Amos P. Atkins, who is one of the most prominent men in New Albany, Ind., and Treasurer of Floyd County, has this advice to give to those who are shut up within the narrow confines of office or shop:

"Dr. Pierce's Golden Medical Discovery seems to take the place of hard training in developing strength, vigor and endurance of the system and expelling all impurities, with which the blood sometimes gets clogged. I have found by personal experience that it enables me to do more hard work, and at the same time endure more physical strain and partake with greater relish in outdoor sports than anything I know of. It can always be relied upon to increase the appetite, induce healthful sleep, and tone and refresh a worn-out system.

"A number of my friends who have used it speak in the same high terms, and we have reason to consider it an office man's friend."

Dr. Pierce's Golden Medical Discovery is a blood-purifier and health-giving tonic that contains no alcohol, opium, or other narcotic. It is a purely vegetable compound, made from roots and herbs in an up-to-date pharmaceutical laboratory, and has been used and recommended by thousands of people during the past thirty-seven years.

$3,000 FORFEIT will be paid by the World's Dispensary Medical Association, Proprietors, Buffalo, N. Y., if they cannot show the original signature of the individual volunteering the above testimonial, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

Simpson swore he had one dog of his own on which he had paid the tax, but the other one, he claimed, had come to his place unasked, and it was not fed by him. The case was dismissed.

The next case was a charge of allowing a cow to run at large. The accused in this case however died yesterday morning, before the court was in session.

Arthur Penne was charged with depositing offensive matter in Spaulding bay, at Townsend street, to wit, four barrels in which he had carted filth. Norman Robinson, an employe of Pennes, deposed that he had thrown the four barrels in the water, leaving them partially covered, and partly out of water. He said that he had taken the barrels to the town dump, and Williams, the man who rents his property to the town as a dumping ground, would not allow him to leave them, after the contents had been deposited, so to dispose of the empties, had thrown them into the bay. Several other scavengers' evidence was taken, which contained nothing material. Mr Williams, the dump owner, had a passage of arms with his Worship as to his refusal to leave empties, he claiming that his opinion ruled in the matter, which his Worship could not believe. "If you forbidden them bottom from leaving such barrels hom the dump," said Mr. Williams.

His Worship said that the town's health must be protected, that he had before this, remarked, from the bench, that this town was away behind the age in not imposing a license fee on scavengers, so as to have a check over their actions. He further remarked that he would always heavily punish those scavengers who paid no heed to health or decency and fined the defendant $5, with $3.75 costs as a warning. Mr. Dumble said that in places where people were civilized the scavengers were licensed, mentioning St. Catharines and other towns.

The court was cleared of all but actual witnesses and press representatives, when James Scriber was charged with having committed an offence against morality and decency.

The evidence, his Worship, admitted was strongly against the prisoner, but as it was simply circumstantial, he would give him the benefit of the doubt, and dismissed the case.

Obituary.

Many of our oldest settlers have recently been paying the debt of Nature, and now they are joined by a respected citizen, Mr. William Frith. The late Mr. Frith had lived in the Fifth Ward for thirty years and was widely known and respected. He was born in Albany, N.Y., in 1835. In religion he was a Methodist. He is survived by his wife and four children William in the North-West, Joseph and Clara at home, and Mrs. Charles McColl, Otonabee. Joseph Frith, of California, is a brother, and there are several sisters in Toronto and in the United States. The funeral will take place from the family residence, Norwood road, 5th ward, at 3 o'clock to-morrow afternoon to Little Lake cemetery.

HOW GERMS ENTER THE SYSTEM

Have No Bad Effect Upon People With Good Digestion.

Like a thief in the night, unheralded and unsought, the disease germ steals into the system under cover of the air we breathe, or our food and drink.

If this germs finds a weak stomach and digestive system, he at once sets up housekeeping, with the result that his landlord has a serious illness.

On the other hand, if the stomach where the germ finds lodgment is strong and healthy through the use of Mi-o-na, the injurious effect of the disease germ is at once neutralized, or the germ itself is driven out of the system. Keep the digestion good by strengthening the stomach and intestines with Mi-o-na, and there need be no fear of what disease germs will do.

If you suffer from headaches, indigestion, flatulency, specks before the eyes, vertigo, heart-burn, dizziness, or have a variable appetite, and a general feeling of despondency and weakness, you should at once strengthen the stomach and digestive system by the use of Mi-o-na. There is no liquid, no alcohol, no spoonful doses with this remedy. Just one small tablet out of a fifty cent box, before each meal, and your stomach will soon become so strong and healthy that you can eat anything you want to without fear of distress, and you will be germ proof.

Ask Wm. Madill to show you the guarantee under which he sells Mi-o-na. It costs nothing unless it cures.

NAVIGATION

RICE LAKE AND THE OTONABEE WATERS

Calcutt's Line of Steamers

Time Table for June, July and August, 1905

Commencing Thursday, June 1st the

STR. CITY OF PETERBOROUGH

will run as follows:

MONDAYS, TUESDAYS, WEDNESDAYS and FRIDAYS to Jubilee, Gore's Landing, (Harwood on flag) and Idyl Wyld. On the above days the steamer will leave the Peterborough wharf at 9 a.m.; returning, will arrive in Peterborough at 8 p.m.

THURSDAY and SATURDAY AFTERNOONS the "City of Peterborough" will leave the Peterborough wharf at 1.30 p.m. for Jubilee and Gore's Landing; returning will arrive in Peterborough at 9 p.m.

STR. WATER LILY

will leave Harwood every Saturday morning at 6.30 a.m., calling at Gore's Landing and Jubilee, and all points on the river; returning, will leave Peterborough at 3.45 p.m.

Russian Gunners Could not Get At Togo's Ships

Description of the Great Sea Fight Which Has Astonished the World--The Fearful Cannonade of the Japanese.

New York, June 1.—A naval expert says that with the arrival of the captured Russian battleships Orel and Nicholas First and the coast defence ironclads Admiral Seniavin and Admiral Apraxine in Japanese harbors, and the arrival of fuller despatches from Admiral Togo, the tremendous one-sidedness of the battle has become apparent. The wonderful completeness of Japanese plans, the precision with which they were carried out, and the consummate ability of Togo, his admirals and his captains is the talk everywhere.

JAPS LAY IN WAIT.

On Saturday morning the Japanese main fleet was riding at anchor in the roadstead outside Sir Harry Parkes' Sound, which leads to the harbor of Masampho. From this point the Admiral commanded a view of hte western channel of Corsaan Strait. For weeks he had watched there, resolved to force the great battle in his own waters. Notwithstanding considerable advice to the contrary, south-west of Tau Sounds, which separates the eastern and western channels, a squadron of fast scout ships, torpedo boats and destroyers waited and watched for the great Russian fleet. Early in the morning the first squadron of the approaching enemy was sighted passing the Quelpart Island, away to the south-west. Destroyers and torpedo boats were despatched to Togo with the news. Steam was gotten up, and at 10.20 a.m. the Japanese squadron began to move to the east, around the northern end of the upper Tau Island. At the same time one of Togo's despatch boats was hurried away with the first of the commander's message to the Emperor. Admiral Kamimura, commanding a light squadron, led the line, which, once past Tau... ima, turned south, moving slowly down the western coast of the eastern chan...

VENSKY SIGHTED.

Roje... y, when sighted by main lin... of Japanese, was south, south-west of Hirodo Island, heading for the eastern channel in two lines. The Russian Admiral showed no intention of shirking battle ahead of him. After it had become evident that he must have seen the Japanese squadrons stripped for battle, he kept on, neither increasing nor lessening his speed. Smoke from his thirty-six vessels hung in big black clouds across the southern horizon, south-east of Tsushima Togo turned. The Russian fleet was approaching rapidly, and Russian scout boats hurried back to the protection of heavier craft.

THE ENGAGEMENT OPENS.

Time for struggle had come. After a turning movement of Togo the two grand fleets were ploughing along on parallel lines, the Japanese to the west and the Russians to the east. The sea was choppy, the air cool, and the sun part of the time obscured by a fog which rose and fell like a curtain, seeming to be at the disposal of a light wind. The cleverness of the Japanese Admiral in choosing his time and position immediately became evident. The battle opened with a heavy gun contest between the cruisers Seniavin, Apraxine and Izumrud, and the Japanese light squadron under Kamimura. The water line itself danced and was half obliterated by fierce yellow light which shone in the faces of Rojestvensky's marksmen. marksmen. The Japanese gunners were put in advantage at the very start. To the Japanese gun crews the Russian ships stood out clear and distinct as fine targets as could be imagined. To the Russians were presented strings of half visible blurs to see which burned their eyes.

FEARFUL CANNONADE.

The fearful cannonading opened by the cruisers were taken up by the heavier ships of the inner line. To the north and south Togo sent his squadron of torpedo boats and destroyers to close in on the Russian fleet and to prevent attempts to escape. The attack of Togo's heavier ships was concentrated from the first on the big battleships, which formed the starboard column of the Russian line of battle.

The result of this soon became apparent. As the mist lifted at intervals of several minutes two of these battleships were seen to be afire. The marksmanship of all grew worse and worse as the setting sun shone more directly in their eyes and terrific damage was being done by carefully-placed shells from Togo's warships.

When the battle proper had been raging less than thirty minutes, Rojestvensky's flagship, Kniaz Suvaroff, was seen to be in trouble. A vain attempt was made to get her out of the range of the Japanese guns. Admiral's flag was hurriedly run down and boats were lowered, but in vain.

The the big battleship began to disappear, at 5.29 p.m. no vestige of the flagship was visible to the officers of the Japanese fleet. By this time the parallel fleet had moved up abreast of Iki island, and the detonation had become terrific. The yellow glare made by the sun shining through a cloud of mist was intensified by battle smoke.

RUSSIANS SHOT WILD.

The frightful inaccuracy of the Russian aim seemed to have as much effect in frightening the Russians as it had in increasing the spirits of their opponents. On every one of the great warships from the Baltic shot and shell were falling like hail, doing damage that was truly terrific and making the ultimate result of the contest already evident. Russian shells were too high or too low. Few landed, and those which did effected as little damage as possible. Instead of puncturing the sides of Japanese battleships and cruisers, Rojestvensky's shot tore up their superstructures, dislodged a few guns and blew to pieces gunners and sailors to the number of about three hundred.

Camel Saves Life.

A Terrible Loss of Life Averted Yesterday by a Camel Stopping a Runaway.

Yesterday, there is no doubt but for a camel in the circus parade being in the way of, and stopping, a flying runaway team on Brock street, many people would have been killed or seriously injured.

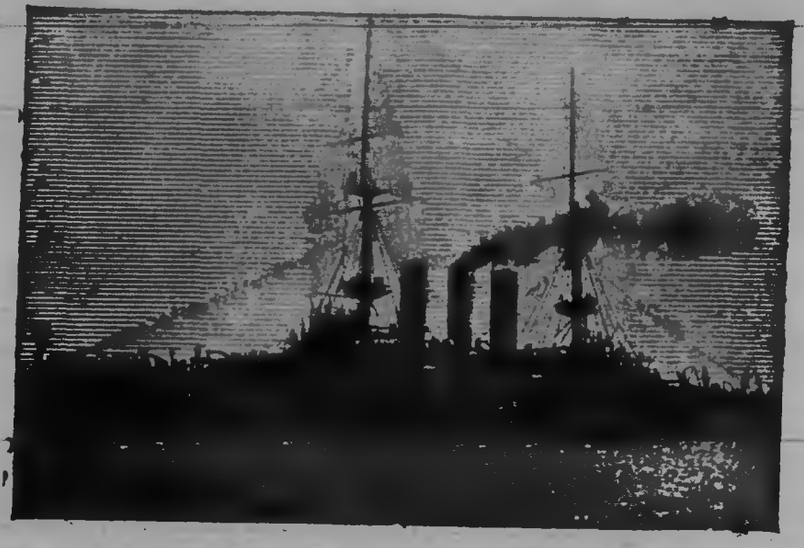
As the circus parade entered Brock from Water street, the north side of Brock street was black with people feasting their glances on the various features on exhibition. When the elephants and camels were passing Alexander and Millers' electric light store on Brock street, a heavy team came, at a wide gallop, northwards from the alley between Geo. Fitzgerald's carriage works and the Commercial house. The team, were harnessed, but not attached to any vehicle, and had become frightened by the passing show. As the horses, running at full gallop, crossed Brock street, in their blind frenzy, they ran into a large camel on which was sitting a young lady performer, striking its hind quarters.

The sudden and unexpected momentum of the runaways, caused the camel to spin round like a top, but did not unseat its rider. This sudden check in their wild career caused the horses to stop a moment. Their the excitement was conveyed to the other camels and the elephants, and, for a few seconds, there was every appearance of a sudden stampede, by these large animals. The crowds lining the streets were seized with a sudden panic, and flew in all directions, men, children and women with baby carriages, most of the hundreds of sightseers making east towards Water street. One lady, who was driving her baby in a carriage, took, with the super-human strength of fear, the carriage, with its precious contents and threw both bodies over Dr. Carmichael's fence, and then vaulted the fence herself. Had the horses not been temporarily arrested by the camel in their wild flight, there is no saying what the loss of life would have been, had they reached the closely packed pavement. The camel and elephant driver fortunately, kept both their presence of mind and their respective animals under control.

After striking the camel, the horses made another break for liberty and landed on the pavement, in front of Alexander & Miller's. Fortunately most of the crowd had dispersed from the spot, during their momentary delay by the camel, however, Mrs. Oron Campbell, of Nassau, was squeezed between Alexander & Miller's store front, and had a leg badly bruised. One of the crazy horses plunged both front legs through the basement window, below Alexander & Miller's display window, driving in both sash and glass.

It is providential that the camel happened to be in the way, and also deserving of commendation that the elephant and camel drivers, kept their charges from taking fright, otherwise scenes would have hung from several doors in Peterborough to-day.

THE RUSSIAN BATTLESHIP OSLYABYA



heavily damaged in the early part of the fight on Saturday, going down at 3 o'clock in the afternoon. The crews of Japs auxiliary cruisers rescued 915 of the crews of the sunken Russian ships.

NO COERCION FOR THEM.

Orange Grand Lodge Condemns the Northwest Autonomy Proposals, Despite a Protest By a Brandon Man.

Owen Sound, Ont., June 2.—The report of the Committee on Correspondence, as expected, aroused lively interest in the proceedings of the Orange Grand Lodge this morning. In referring to the Grand Master's address, the committee made special reference to the splendid service of Dr. Sproule on the Autonomy Bill question, and heartily endorsed the statements made in the address. Mr. F. C. Potts, of Brandon, made a vigorous defence of the proposed legislation, but his sentiments were not in harmony with the views of the delegates. Rousing speeches were delivered by Messrs. John Hewitt, Toronto; E. T. Emery, London; E. H. Crandell, Grand Master of the Northwest Territories, and Col. Sam Hughes, M.P., Lindsay.

The statements in opposition to the adoption of the report were completely refuted by the speakers, and the Grand Lodge, by a standing vote, and amid great enthusiasm, gave an expression of opinion opposed to the educational clauses of the bills.

Ontario's Sentiment on Autonomy Bill.

Rev. Dr. Potts Says the Question Is a Dominion One and Ontario Stand for Provincial Rights--Liberals Angry.

Winnipeg, June 2.—In an interview yesterday with Rev. Dr. Potts, who is now en route east to Toronto, he said; "Our position in Toronto and in Ontario generally is that the Provinces should not be coerced. The whole question of education should be left to the new Provinces. If this were done they would deal fairly with the minority.

"All through Ontario there is a tremendous feeling on this question. We regard it in the broad sense of a Dominion question as it is. It has been said that the agitation has been confined to Tories, but I will tell you now that the Toronto Liberals have taken a very great part in the indignation campaign and that Mr. Stapleton Caldecott, a prominent Liberal, was the chairman of the great meeting held in Massey Hall.

"The average man in Ontario feels very strongly on this matter, and only await an opportunity to express an opinion on it."

PROGRESS IN THE SOUDAN

Under British Rule Country is Prospering

ITS WONDERFUL GROWTH

Vast Increase in the Government Revenues From all Sources

London, June 2.—The Chronicle says: They are getting along in Africa. Lord Cromer's annual report upon the Soudan is a record of progress almost equal to that which has been made in Egypt, in spite of the difficulties caused by the size of the country and the lack of means of communication. The distance from Wady Halfa to Kondokoro is about 1,200 miles as the crow flies, and from the borders of Darfur to the Abyssinian frontier is a distance of nearly 1,000 miles. The province of Kordofan alone, governed by some thirty English and Egyptian officials, covers an area greater than the whole of France, and yet the only present danger to travelers in any part of the country comes from wild beasts. The growth of revenue has exceeded all expectations. From £51,000 in the year that followed Omdurman it has risen to £576,000 for 1904 — exceeding all estimates. The deficit shrunk last year to £53,000. This result is all the more gratifying in view of the adopted policy of low taxation. Equally satisfactory is the increase of child population and the gradual disappearance of the slave trade. Applications for loans with which to buy cattle or to construct waterwheels are frequent; and last year the area of land under cultivation increased by 102,578 acres, of which 54,585 are artificially irrigated. Education, starting from the Gordon college as a center, is beginning to produce some effect, and in some localities the inhabitants have expressed their willingness to pay a school rate. A local police force is in process of organization. Lord Cromer urgently calls for a large expenditure for irrigation, which, he holds, will work miracles in the Soudan, and prove of great ultimate benefit to Egypt also.

G. T. R. MACHINISTS' STRIKE

Eighteen Workmen Have Returned to Their Places

Montreal, June 2.—The strike among the machinists on the G. T. R. did not amount to much. Very few men went out at the inception of the trouble and these were almost exclusively confined to Montreal and Toronto. Mr. W. D. Robb, the company's superintendent of motive power, is now in the West conferring with the men, and the first result of his efforts is seen in the fact that 18 of the strikers at Fort Gratiot have returned to their places. Mr. Robb will not return to the city until early next week.

At a joint meeting of the Machinists Union and the Amalgamated Engineers held in Stratford, a resolution was unanimously passed to be forwarded to the Grand Trunk Railway Company, which it was hoped would be acceptable. What the resolution contained is not known.

Cheese not Sold

Although 4257 Boxes Were Offered 9 1-16 Cents not Accepted

Wednesday morning the Peterborough Cheese Board met in the Ontario Bank Chambers, when 4,257 boxes were boarded, and 9 1-16 cents were offered by Mr. Fitzgerald, but before any cheese was sold it was decided to adjourn for one week, the buyers not being desirous of buying the cheese, even at that price.

It was finally decided to adjourn the Board for one week, when the cheese boarded Wednesday will be sold.

The factories boarded the following number of boxes;

Keene	175
Warminster	140
Shearer	115
Central Smith	180
North Smith	190
Villiers	110
Warsaw	120
Westwood	230
Oakdale	112
Missing Link	75
Daisy D	70
Lakefield	130
Pine Grove	160
Peterborough	75
Otonabee Union	60
Maple Leaf	135
Myrtle	155
Omemee	200
Young's Point	70
Fraserville	90
Indian River	145
North Dummer	85
East Emily	100
Trewern	165
Ballyduff	55
Bensfort	140
Cedardale	51
Stony Lake	55
Mount Pleasant	98
Norwood	120
Brickley	83
Shamrock	108
Fleetwood	155
Dartford	110
Buckhorn	112
South Burleigh	23

The buyers present were; Messrs. Squires, Kerr, Fitzgerald, Cook, Whitton, Rollins, Wrighton, Martin, Gilleapie. Mr. Jones, representing Jones and Marshall, Montreal, was also present. Mr. Squire represents this firm here.

The bidding started at 8 1-2 cents by Mr. Kerr. Mr. Squires raised to 8 5-8 cents, and Mr. Wrighton to 8 3-4 cents. Mr. Whitton bid 9 cents and Mr. Fitzgerald raised to 9 1-16 cents.

No further bids were forthcoming and the discussion then arose as to the advisability of adjourning the Board for one week. A motion to adjourn was made, and was carried, on a vote of 17-15.

A Large Increase.

Weights and Measures Inspection Fees About Trebled.

When, a few years ago, Mr. R. W. Errett was appointed Inspector of weights and measures for this county, the total receipts, from the whole county totalled about $200.

Already this year the Inspector, who has not yet touched any of the East Riding business, has, up till last night, taken in $427.

Mr. Errett anticipates collecting from East Peterborough, before the close of this fiscal year, between $200 and $300 more. On Monday next, he leaves for Keene, Norwood, Havelock and other villages, including the intervening cheese factories, dairies, and other places using weights or measures, subject to Government inspection.

His trip will include a territory as far north as twenty miles back of Apsley.

Child Badly Hurt

Little Johnnie Hubbell, Knocked Senseless by a Horse's Kick.

Yesterday, at noon, as the circus parade was approaching the corner of Water and Brock streets, a horse driven by a lady, sitting, with several children, in the phaeton attached, was standing in front of F. Mason's green house on Water street.

Mrs. Thos. Hubbell, of Smith, with her small children, was standing on the corner awaiting the parade.

Her little boy, Johnnie, a child of perhaps five years of age, with the excitement of his age, ran out into the street, and gazed eagerly towards the approaching head of the procession, and, running towards it, did not see the horse standing in front of him.

He ran right into, and between, the horses front legs, causing the animal to rear and plunge forward. As the horse was regaining its footing it brought one of its hind feet down with great force on the child's head. The little fellow was knocked senseless, with blood pouring in torrents from the severe scalp wound.

Amid the screams and ejaculations of the surrounding crowd, a young man present, who does not wish his name mentioned, picked up the small inert body, and, followed by the mother and other children, rushed across the street, child in arms, to Dr. Halliday's surgery. The doctor here gave the case due attention, and it is hoped that no very serious results will follow, the wound, although emitting a profusion of blood, being more of a scalp wound nature. The young man, who played at the part of good Samaritan, had his collar, clothes and boots covered with blood.

GRAND OPENING.

Riverside Park to be Opened with Grand Formalities--First Home Game of the Midland League, Cobourg vs. Peterborough.

On Saturday afternoon the newly refurnished and beautifully laid out Riverside Park will be formally opened. Arrangements are now in completion for a grand procession, headed by the 57th Band, and composed of the visiting Cobourg team, the local Midland league team, officers of the club, prominent citizens and others. The game between Cobourg and Peterborough opens the Midland league series here, and great ball will be served up to the spectators. Every accommodation has been made for ladies and their escorts, ample grand stand accommodation being provided. Messrs. R. R. Hall, M.P., will deliver the first ball over the plate, and Thos. Evans Bradburn, M.P.P., will be behind the bat. President R. E. Layfield will be on hand to prevent any heated political argument arising.

The procession will start from The National Hotel at 2.30. Mr. Hamly of Port Hope will officiate.

A Monkey Chase.

Four Simians Escape from a Cage, Giving an Exciting Chase.

Yesterday afternoon, whilst the performance in the main tent was in progress, four monkeys escaped.

The monkey cage was kept in the large side show, and during the main performance, their keeper, as is customary went to feed these Darwinian progenitors of man. In some way the keeper happened to forget to close the door, after completing his task. Four of his charges, small, lively, little South American long tailed monkeys born with an eye open for any snap or fun going, seized their golden opportunity, and, ere the keeper could prevent it, made for the woods, sic, the exhibition grounds. In the twinkling of an eye, every man and small boy, assisted by the circus employes was after the fleeing monks.

After a long chase, in four different directions, the monkeys, by dint of quick motion, were netted under coats hastily shucked off.

REV. MR. JOLLIFFE THE CHOICE.

The Popular Pastor of Charlotte St Church Elected President

Yesterday during the morning session of the Bay of Quinte Conference, held in Picton, an honor was paid to one of our most popular clergymen, Rev. W. J. Jolliffe, B.C.L., that of being elected president on the first ballot. The vote was practically a unanimous endorsation of the rev. gentleman's merits and ability, the vote being Jolliffe, 101; Drew, 27; Rae, 13.

The announcement of Mr. Jolliffe's election was received with warm applause by his brethren.

Rev. W. J. Jolliffe, B.C.L., who has been elected yesterday to the highest office in the gift of the Conference, is pastor of the Charlotte street Methodist church, Peterborough, where he has been for the last three years, and is slated to return for a fourth year in response to an invitation from his church.

He has been a minister in the Methodist church for about forty years, during which time he has filled most acceptably pulpits in Oshawa, Cobourg, Picton, Bowmanville, and Peterborough, in the Bay of Quinte Conference, and at Stanstead, Quebec, Quebec City, Coaticook Quebec, Montreal, Cote Ste. Paul, Gananoque, Ont., and Vankeek Hill, Ont., as well as other places in the early days of his ministry.

He was born in Linkeard, Eng., and came to Canada at the age of 21 years. Last year, Rev. J. P. Wilson, of George street, was elected president, and yesterday a second Peterborough divine was given that honor.

A Clean Show.

Lemon Brothers Give a Good Show, Devoid of Grafters or Other Objections.

Yesterday was circus day, and every man and his wife, not to mention children were in town.

Some unavoidable delay, which caused some little discontent, delayed the procession until 12.30. The parade, was neither good nor bad; it was short of music, and it is not unkind to say that it was not representative of the actual show.

A marked feature of the circus was the happy contented looks and manners of both officials and men, and the well cared for appearance of horses and animals. The menagerie is not as large as those carried by Forepaugh's, Ballie's, or Sells' shows, but what they had were good specimens, and well kept. Much attention was paid to the two baby lions, who first saw the light, a week ago in Windsor, Ont.: the cubs, about the size of full grown cats, were as playful, and teased their majestic looking mother, as kittens do their domestic feline maternal relatives. Side shows and circus are all run under the one management, thus avoiding the usual objectionable forcing process about entering the sideshows. The two rings with a good company of performers, kept the immense audience in good humour. The seating capacity furnished was about comfortably filled. The show exhibits in Tweed to-day, and, will, on Monday, make a long jump to St. John, N. B., and then play through New Brunswick and Nova Scotia.

Mr. Hewitt, one of the proprietors is an old Toronto boy, and is a brother-in-law to Mr. R. Cavanagh of town. He is an old circus man of 20 years' experience, including all the largest shows but Ringling Bros. One animal that drew many sightseers was a genuine Philipino bull, a long drawn animal that is among cattle what a thorough-bred Dachsund is among dogs.

WEATHER NOTES.

Fine and warmer.

A Malicious "Father."

Rev. "Father" Zilles Has a Poor Opinion of the Times.

Yesterday, Rev. "Father" Zilles, the Redemptionist Missionary, Zilles, the Redemptionist Missionary, who is assisting in the special services now going on at St. Peter's cathedral, paid his respects to this great family journal. He evidently got into our office by mistake, for he at once asked for a copy of the Examiner, and on being told that this was not the Examiner officer, he then asked for the Review. He was then informed that The Times was the only local paper on hand. Instantly his face clouded, and he said; "If you stick to The Times you'll get left, it is the meanest sheet in town." He then departed.

We are not aware of having offended the Missionary. Certainly nothing has appeared in these columns that was intended for offense. The attitude of this journal on the Separate School question was actuated by the highest and most patriotic motives. We would be sorry to say one word against Roman Catholics as Roman Catholics. We believe it would be immensely better for all of our children were taught in one school, and until this is done, we will have a divided people and much religious strife. Because we discuss this public question in this way, we have apparently brought down upon us the ill-will of such men as "Father" Zilles, who would rule Protestants as well as Catholics. It appears to us that Father Zilles is in much need of the divine grace of charity which he is so anxious that others should possess.

DISTINGUISHED "WOODMEN."

Head Executive of Order of Woodmen to Visit Our Town.

No Circus Exhibition Last Night.

There will be something doing in Sherwood Forest Camp, No. 50, Woodmen of the World, in Peterborough, on June 28th.

The Head Executive of the Order, accompanied by other distinguished Woodmen, from all parts of the province, are expected to pay a fraternal visit to the Peterborough Camp.

In honor of the event, the local camp have made special preparations for a big excursion on that day. The steamer Stony Lake, has been chartered for the excursion, and the route will be over the lift lock, up the river to Lakefield, and on to the thousand islands in Stony Lake, and return. Arrangements are now in hand to make the event a notable one.

The New Collegiate

Board of Education will Consider Whether to Use the $50,000 or

To-night the School Board will have to play Oliver Twist and ask for more or do the grateful and be content with the $50,000 already voted them.

The property has now been purchased and has been legally transferred to the proper persons and that difficulty has now been removed.

The present situation however, is that while the ratepayers have voted $50,000 to pay for the land and building, it has been found that to erect the building planned will cost at least $20,000 more than that amount and if the intention to erect that building is carried out it will be necessary to ask the ratepayers to vote an additional $20,000.

There is a division among the members of the Board on the question. The members of the Building Committee are of the opinion that the building as planned should be erected even at the additional cost, while other members of the Board, express themselves as believing that the ratepayers will not vote the extra money, and some of them are not backward in saying that the thing has been bungled.

To-night when the Board meets the matter will probably be thoroughly discussed in all its bearings.

Two Rigs Stolen.

From Front of St. Peter's Cathedral Yesterday Morning.

Circus day generally gets the credit of being a good day to keep a good hold on all property, neither too hot nor too heavy, to be picked up.

Yesterday morning, Mr. Hogan, the cheese dealer, left his horse and rig outside St. Peter's cathedral, whilst he attended a Redemptorist Mission service within. On completion of the service, Mr. Hogan came out of church, but could not find horse or rig; some one, presumably boys, had coveted a drive, and taken the outfit. During the afternoon two boys were seen driving the rig and horse, but the party recognising them, thinking Mr. Hogan must have given them permission, did not stop the boys. It is altogether likely the outfit will turn up all right.

Mr. Phil Crough, of Ennismore, had his horse also taken from the cathedral, by some unknown person, but the turnout was afterwards found near where it was taken from. This, in fact both thefts, are attributable to boys, with a larger bump of mischief than common sense.

MIDLAND'S NEW ELEVATOR

Grand Trunk Let Contract for Million-dollar Structure

Montreal, May 31.—The G. T. R. have let a contract to the E. R. Baker Company of Chicago and Midland for the erection at Midland of a gain elevator to have a capacity of a million bushels. It is to be built in time for this year's western crop.

May Be a Postponement

Ottawa, June 2.—The possibility is now being discussed of the postponement of the celebrations at Regina and Edmonton in honor of the creation of the new provinces, in view of the uncertainty as to whether the bills now before the House will come into force sufficiently early for the celebrations to take place on July 1.

ADVERTISE IN THE TIMES.

Thin-Blooded, Tired Nervous, Unhappy

I Was Sick, Broken Down, No Strength, Couldn't Sleep, No Appetite

FERROZONE

Gave Me Energy, Force, Vim, Comfort Made Me Well.

Because Ferrozone gives instant effect and steadily builds up new flesh it is used by thousands in poor health.

No other tonic in the world is like Ferrozone. No other medicine accomplishes such marvelous results.

Its wonderful merit in building up and strengthening is acknowledged by every physician.

It makes you feel better at once like Mrs. Charles Benny, of Cloyne, Ont.

HER STATEMENT:

"I was sick.

"I was broken down, had no strength, couldn't eat, I was sleepless.

"My nerves were irritable. I was thin-blooded and continually unhappy.

"I tried Ferrozone.

"It gave me new energy, force, vim. It brought me comfort, strength —it made me well."

To get new vital energy, renewed youth, use Ferrozone. It makes the blood rich and red, fortifies the system with reserve strength, puts new life into all that use it. Greatest tonic and rebuilder known. 50c. per box, or six boxes for $2.50, at all medicine dealers, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, JUNE, 1905

A VAST COUNTRY

In an article on Western Canada the Chicago Inter-Ocean gives its readers a very good idea of the vastness of the Canadian wheat region. It says:

Searchers for wheat lands found what they sought for in the Dakotas, but beyond, in the Canadian North-West, in the newest North-West, were 250,000,000 acres of good but cheap wheat lands, and in the last eight years 150,000 American farmers have gone into Canada to secure and improve large farms. In the same years 80,000 English farmers, 10,000 Scotch, and many Germans and Scandinavians have gone to the wheat lands of Canada.

However, in all the eight years the immigrants from the United States have taken the lead, and in each of the last three years a million acres of land have come into the possession of American farmers. In the same years the population of the Saskatchewan Valley has increased 300 per cent., and yet in all the Canadian North-West there is only one person to every nine square miles of land area.

Fancy one lone person in the middle of nine square miles of land, and you will have a very good idea of the present condition of the great Canadian wheat area.

Unwise Prudery.

The Press Should Not be Muzzled Through Solicitation of Individuals.

Whatever faults the press of this town may have, our newspapers are not often accused of sensationalism or "yellow" journalism. Frequently requests are made to the press representatives, particularly after or during police court trials, not to publish names of prisoners or defendants. This is carried so far that it isgetting not uncommon for even plaintiffs in certain cases to wish to with-hold their names; this latter style of request is, of course beyond all reason, and should not be given serious attention. In the case of men charged with minor offences and non-criminal deeds, there are cases presentde where judgment is used by the editors and reporters; such for instance as a young man, heretofore of good character and spotless record, who may have tarried too long with the unaccustomed bowl of comfort and stimulation. In such a case, the public has no particular interest, and the publication of the young man's name may establish a record against him, that will, not only undo his previous good reputation, but may take him years to outlive. Here is where a polite request, by such a young man, his relatives or employers, is never made to deaf ears.

There are however cases, without any necessity for explanation, where publication of both feats and names will, nor can hurt the defendant, nor tarnish a record already, perhaps, none too good, in such cases for the future, The Times will consider the public's right to possession of news that may either interest or guard them against the parties who have gotten into troubles of their own making, in preference to maudlin appeals for shelter.

On the other hand there have been two cases lately in which the press of this town have been summarily excluded from hearing evidence that should, by rights, be public property. One was an inquest, where, by desire of the deceased's relatives, the proceedings were practically carried on in secret session: the next case was a police court trial where a foolish young girl had involved herself in difficulties, from this latter case the press were also excluded.

In neither of these cases need the relatives have feared that the press of this town would have published any sensational details nor said aught to unnecessarily wound the feelings of the most sensitive relation. Such has not been the distinguishing characteristic of Peterborough's newspapers. It is not uncommon for the papers. It is not uncommon for the Magistrate to ask the press representatives, in certain trials, to spare the feelings of people by withholding certain names or facts. Whilst this would, in very few instances, have been an unnecessary request, as the reporters of Peterborough, are gentlemen possessed of some little common sense, yet such requests have always been honored.

In the case of the young woman's trial on Monday, the relatives could have rested easy, and not dreaded to pick up the next copy of a town newspaper lest it should shock their feelings.

There is however a broader reason why it is inadvisable to permit this dictation to coroner or court, by interested relatives. This system must not be allowed to rest on such precedents, the liberty of the public press must be respected here as elsewhere. Again in such cases, in all probability, great discretion would be used as to printing names, but such of the evidence, as could or would have been published, would help, by its very publication, to scare off such foolish girls from indiscretions like that under trial, where parental authority or moral perceptions, have no influence. Just such a case was that on Monday, which the parents were so anxious to keep out of the papers. The possible salvation of many young girls must not be blocked by preventing the publication of such facts and warnings as might save them, to spare the delicate sensibilities of the erring one's relations. There are many young people, who practically defy parental authority, but who would be influenced by a wholesome dread of their short-comings being blazoned before the reading public.

AN INSURED SUCCESS

An Unique Investment, Guaranteed by a Securities Company's Gold Bonds

In these days of many and varied speculative propositions, offered the public, it is refreshing and assuring to find an opportunity for investment, with limitless chances for betterment and wealth, which is actually backed up by a gold Bond issued to guarantee soundness and payment of dividends. With the numerous metal stocks now offered the investing public, there are good and bad chances for ultimate success, the find of ore may, or may not, recoup those expending enormous sums for development and working expenses, which are necessarily concomitant on such mining operations.

In the case of oil, when once the locality has been proven to produce the coveted oil, there is the comparatively small expense of boring, to a greater or less depth, until it is struck, then the underground forces of nature do the rest. The oil when reached spouts forts its riches in a veritable steady stream of gold, should the flow at any time be sluggish or arrested, a torpedo is dropped down the pipe, and, hey presto, the child once more gets to its business of enriching those owning or leasing the property.

In another column is the advertisement of the Dillon Oil, Mining and Development Co., of Caney, Kan., in which a limited amount of stock is offered at 20 cents per share, non-assessable.

This company evidently appeals to careful and conservative investors, as they do not ask the public to take any chance whatever; but have made arrangements with the Granite Securities Co., of Los Angeles, Cal., for a gold Bond to be issued to each investor, guaranteeing such investor, not only that the stock is good, but ensuring payment of future dividends.

This is a new and encouraging bid for public support and should attract keen attention from persons looking for a sound investment with great chances of wealth in the future.

The Dillon Company offer undeniably good references, as to standing and reliability, in the Home National Bank, Caney, Caney Valley National Bank, and Northrup National Bank, Iola, Kansas.

For particulars, address C. L. Carriher, Secretary-Treasurer, Caney, Kansas.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrographic Work. Studio 134 Brock Street, Peterborough.

Ayer's Hair Vigor. Does four things and does them well. Restores color to gray hair, stops falling hair, makes the hair grow, cures dandruff. Isn't this enough for one preparation? J. C. Ayer Co., Lowell, Mass.

THE ANNUAL UNION FARMERS' INSTITUTE EXCURSION

Of East Durham, East and West Peterborough Farmers' Institutes, will be run to the Agricultural College, Guelph, on Thursday, June 8th, 1905, via Canadian Pacific Railway; special train service. This trip is intended to give all an opportunity to see what is being done at the farmers' own farm and school. Many attractions have been added: The McDonald Institute, where domestic science is taught; the Massey building, poultry, plants and horticultural building, and many other things will be particularly attractive to our lady friends. The Guelph Horse Show will be going on from the 7th to 9th June, so that all lovers of the horse will have a chance to take in a first-class equine exhibition. Arrangements have been made for sale of horse show tickets at a specially [illegible] for the excursionists on the train. For particulars of fares and time tables see large posters.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a Homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 30 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least two thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN,

148 SHELBY STREET, DETROIT, MICH.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each

200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1,000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK-HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties:—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Morse, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Gunn, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company in the Wilkes, Murphy, Iloma, Rock-Hill, Ben Bolt, Colombia, Reindeer-Annex, John Thompson, Frank, and Parsons, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the condition resembling that of coal formation; consequently, the direction and trend of the ore bodies are readily followed and determined, and by preliminary exploration, their courses have been found to underlie the surface ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $310,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1,000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent Stock at Twenty-Five (25c) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profits. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,

25 Congress Street, Boston, Mass.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 600 feet in length with a depth of 500 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying later mosiate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $40 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $60 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $6 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $288.00.

With an average value of $60 00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 375,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

For further particulars apply to

W. F. MORPHY, President,

325 Board of Trade, Omaha, Neb.

LITTLE HOPE OF PEACE

RUSSIAN CONSUL AT MONTREAL SAYS WAR WILL GO ON

Czar Will not Give up the Hopeless Struggle Until Land Armies are Beaten

Montreal, June 1. — Mr. N. de Struve, the Russian consul in the city, told a press representative that he had received no official communication whatever with reference to the defeat of the Russian fleet in the Corean Straits. He was further, he said, not in a position to give out any official statement on the subject.

Answering the suggestion that his personal opinion on the situation at this juncture would be interesting, Mr. de Struve smiling replied: "You may have it for what it is worth, and now.

"Let it be assumed that the Russian fleet has been defeated by Togo, as the latest telegrams have stated, what effect would it have on the issue of the war?"

"None whatever, except that it would make the Russians still more persistent in prosecuting it to its bitter end. We cannot admit our defeat—never."

Continuing, he said: "The Japanese seemed to have done their work with their torpedoes, reserving their battleships for another occasion. We were at a great disadvantage in that respect, because we could not take some with our fleet over the long sea route to the East. But, granted that Rear-Admiral Nebogatoff has been captured and nineteen of our ships have been put out of action, my hope is that the greater part of the fleet has still been able to proceed through the Pacific to Vladivostok, where they will effect a juncture with the squadron there, and it may be that Rojestvensky is with it."

He would offer no opinion whether the reinforced squadron would leave Vladivostok to meet Togo, but he confidently stated: "Whilst Japan's naval defeat would end the war so far as they are concerned, with Russia it is not so."

"What then will the Russian Government do?"

"Why, their next step would be to throw two or three more army army corps in Manchuria and go on with their land operations interminably. It may yet assume the aspects of a national war as it was in 1812."

"But Russians were a united people then. You do not seem to regard the discontented element which forms part of the population today."

"I can assure you that what I know of my own people, the reports circulated about them through news agencies are absolutly without foundation and the people are entirely misrepresented. They love the Czar and the army and will stand by them through tick and thin.

"Then the news of the defeat in the East will in no way influence domestic questions in Russia?"

"Certainly not. The people are getting their reforms gradually and the news of their defeats in the East only tend to strengthen them in their resolve to crush their opponents."

Then he concluded: "In my opinion there is no hope of peace. To talk about it now would be an idle dream. Russia may be defeated on sea, but on land, never."

Russia's Troubles

Revolutionists Will Act in all Parts of Empire

London, June 1. — Fully attended meetings of the British group of revolutionists last night resolved that Rojestvensky's overthrow was "evidence of the wisdom and necessity of pushing the Russian Liberal movement to a climax." It was decided to employ at least all the resources of the revolutionary organization to spread the news of the disaster throughout Russia and to spur the workers and peasants to fresh efforts against the bureaucrats.

"Responsibility for the horror in the Corean Straits rests with the Czar and his officials," said the president of the meeting, a man of great experience, who in fighting the Czardom has sacrificed his every possession. "If these men did not know that Rojestvensky was no match for Togo, they were criminal fools. They sent thousands of Russians to death and plunged the land into disgrace and mourning. They knew that Rojestvensky and his crews were the merest excuses for sailors and the fleet lacked every element of homogeneity. They had seen the proof of Russian helplessness in dozens of battles on sea and land. This great crime in the light of the slaughter in St. Petersburg in January will hasten the end of the autocracy. The Russian people are represented by a cruel and weak caste that prevents the sound part of the nation from finding expression. The Czardom is violently rocking toward the final crash."

Setback for Unions

Money in Treasury Liable for Union's Obligations

Toronto, May 31. — Mr. Justice Anglin has reversed on appeal the decision of the Master in Chambers in the case of the Metallic Roofing Company versus Local Union No. 30, Amalgamated Sheet Metal Workers' International Association.

The motion made by the company was to attach the sum of $400 in a bank to the credit of the union, for the purpose of paying the costs of an appeal for which the court held the defendants liable. The defendants were the three executive officers of the union, Alex. Kay, president; W. C. Brake, secretary, and R. Russell, treasurer. While individual defendants, the court held that for the purposes of the action they represented all the members of the union. It is also held that while in form the action is against the individuals, in substance it is against the union, and the same facts which protect it from suit render it incapable of holding the property. Therefore, concludes Justice Anglin, the property that stands in the name of the union is the joint property of its individual members, and as such is eligible for their debts to plaintiffs.

This judgment is in direct contravention of the decision of the Master in Chambers, who held that funds of the union were trust funds, and could not legally be liable for any other purpose than that for which they were contributed.

The Bye-Elections

The Premier is Expected to Speak at a Meeting in Woodstock Next Week

Woodstock, June 1. — What promises to be the most notable election contest in the political history of this constituency, and one of the most important ever conducted in Canada, is now in progress in the north riding of Oxford, the seat which the late Hon. James Sutherland occupied for nearly twenty-five years. Certain it is that both parties will prosecute a vigorous campaign. The Conservative candidate, Mr. James G. Wallace, of this city, has given its entire attention to the contest, since he received the nomination ten days ago, and the indications are that the Conservatives will organize the riding as it has never been organized before. Already arrangements have been completed whereby Mr. Borden, Mr. George E. Foster, Dr. Sproule, Premier Rutherford, of the North-West Territories, and R. B. Bennett, M.P.P., of Calgary, will address meetings in this city and throughout the constituency.

A WIDOW'S PATHETIC LETTER.

One of Hundreds of Letters Received at Muskoka Free Hospital for Consumptives—Pleads for the Life of an Only Son.

The following is one of hundreds of letters received at the office of the National Sanitarium Association:—

Cookshire, Que., June 3rd, 1904.

Dear Sir,—I hope you will pardon my writing to you. I am Charles Brown's poor mother, that is heart-broken about my one and only son, and longing for your kind letter to arrive to say you can find a place for him soon in the Muskoka Free Hospital for Consumptives. He is the only son I have and I am depending on him for support, and he has a wife and one baby depending on him also for their support. . . . He is the Charles Brown that Judge Britton's daughter spoke to you about. . . . Dear Sir, for God's sake harden the time for him to get there, as the longer it runs on him the harder it will be for him to get well and back to his former health and strength again. . . .

Mary Brown.

Cookshire, Que., June 6th, 1904.

Dear Sir,—I received your kind and most welcome letter to-day. Very glad I was to hear the good news that my dear son can go to the Hospital any time this week. Thank God for the good news. He will leave Montreal on Monday, the 13th, or Tuesday, 14th, at the latest. . . . It has given him new life to hear the glad news that you have sent to me, his mother.

Mary Brown.

It is to meet just such cases as this that the Free Hospital for Consumptives has been built. Less than three years opened, nearly 400 patients have been cared for, and not a single patient has ever been refused admission because of his or her poverty.

Sir Wm. R. Meredith, Kt., Chief Justice, 4 Lamport avenue, Toronto, or W. J. Gage, Esq., 54 Front street, will receive and acknowledge any subscriptions our readers will send.

P. O. BOX 122, HELENA, MONTANA.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Postal Station "F" Toronto, Ont.," will be received at this office until Tuesday, June 20, 1905, inclusively, for the construction of Postal Station "F" Toronto, Ont.

Plans and specification can be seen and forms of tender obtained at this Department and on application to H. E. Hamilton, Esq., Resident Engineer, Examining Warehouse, Toronto, Ont.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary

Department of Public Works,
Ottawa, May 27, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

Tubecuosis of The Lungs Cured

World's Greatest Physician Eulogo Catarrhozone, which killsall theGerm Heals the Membranes, Cures Th roughly.

That consumption is due to the presence of germs in the air passages is now admitted by all physicians. Before the disease can be cured of course these germs must be killed. Liquid medicine taken into the stomach can't possibly reach the air cells of the lungs, and is therefore useless.

Catarrhozone never fails to kill the bacilli of consumption for the following reasons, which are plain to every thinking person;

First—Each breath of medicated ab pon draw through Catarrhozone Inhaler is at once sent through every air cell and air passage in the throat, bronchial tubes and lungs; it is thus sure to reach the seat of the consumption germs.

Being a powerful antiseptic Catarrhozone at once kills these germs and establishes such a healthy condition in the lungs that microbes can't live there. Once the cause of the disease is removed it is only a matter of time till you get well and strong again.

That Catharrhozone does permanently cure Tubercular Trouble can no longer be doubted. Ample evidence of its marvellous merit is witnessed every day. Thousands have been cured after all else has failed by this great germ destroyer, which is inhaled to the very source of the disease.

Mrs. G. P. McCluskly, writing from Salt Lake City, U.S., says; "My doctor ordered me to Colorado, where I first used Catarrhozone. I inhaled it probably twenty times a day. In one week it stopped my cough completely, and it was not very long in taking every bit of soreness and hoarseness out of my throat. The antiseptic vapor of Catarrhozone must certainly have killed All the germs of consumption in my lungs, for I came home in seven months a cure. My doctor says Catarrhozone is a marvel. It is of the greatest assistance in lung trouble, and cured me permanently."

Not only consumption but every form of catarrh and throat trouble is easily cured by Catarrhozone. Two months treatment costs $1.00. At druggists or by mail from N. C. Poson & Co., Hartford, Conn., U.S.A., and Kingston, Ont. For a quick and certain cure use only Catarrhozone.

GEO. BROWN,

A Hint That Might be Followed

There is a prospect that Peterborough will have two representatives on the Bisley team this season. Col-Sergt. W. H. Mount has qualified for the team by his shooting at the D. R. A. matches last summer, and Pte. Geo. Fitzgerald, who also did remarkably well at the D. R. A. matches, has received a letter from Major Charles F. Winter, secretary D.R.A., notifying him that he is first waiting man for the Bisley team, and that he will have first chance if a vacancy occurs.

Pte. Fitzgerald will make the trip if a vacancy takes place.

BIRTHS.

ARCHBOLD—At Leamington, Ont., on June 1, to Rev. and Mrs. Archbold, a son.

COUNTY MAPS

Only a few copies left of the new map of the County of Peterborough: Price $2.50 each. Secure one before they are all sold For sale at the Times Bookstore.

Peterboro' Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

W. J. ELLIOTT, PRINCIPAL

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. A. S. Maguire was in Lakefield yesterday.

—Mr. D. Hughes Charles left yesterday night for Galt to attend the Horse Show.

—Lindsay Post says; Mr. Joseph Halpany, of Peterborough, was in town to-day.

—Mr. G. B. VanBlaricom was in Burrit township yesterday, visiting the Star of the East Mine.

—Mr. Gerald Rackham left for Stony Lake yesterday morning where he will spend several days.

—Mr. James Brown, clerk of the scales, who has been in the hospital for the past five weeks is recovering satisfactorily.

—Mrs. G. B. VanBlaricom and daughter, Eileen, who have been spending the last three weeks in Ottawa, have returned home.

—Mrs. R. E. Wood returned home Wednesday night after a fortnight's sojourn at Preston Springs, very much benefitted by her stay there.

—Mrs. W. H. Greenslade, of Midland, formerly well known in Peterborough musical circles, has again taken up her residence in Peterborough.

—Port Hope Guide says; Mrs. Alex. Miller and daughter, Maud, of Peterborough, spent the 24th in town the guests of Mrs. R. J. Edmunds, John street.

—Hamilton Herald says; Miss M. Gardner has returned to her home in Peterborough, after spending a few days with Miss O'Connor, at 139 Dundurn street.

—The many friends of Miss Armine LaPlante, will be pleased to learn that she has sufficiently recovered from her recent severe illness as to enable her to be out.

—Mr. and Mrs. E. C. Rice have returned from a two weeks' vacation spent at Detroit, Wyoming and other towns in the west. Mr. C. McHugh of Mount Forest, is relieving here at the C.P.R. Telegraph office in Mr. Rice's absence.

—The many friends of Dr. Marshall, who has been confined to the house with a severe attack of blood-poisoning, resulting from an injury to his hand last week, will be pleased to learn that he has recovered sufficiently to enable him to be out.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Charlotte street shoots had a practice last night.

—The Medical Society met last night at 8.15 o'clock, in the apartments over the Ontario Bank.

—Ascension Day was observed yesterday by services in all local churches of England, and by high mass in St. Peter's Cathedral.

—The Iron Moulders have arranged to run an excursion to Cobourg on Civic Holiday, which is to be Cobourg's Old Boys' day.

—The Salvation Army ran the circus a close race for supremacy in interest last night. They had out two sep arate bands, which collected a large attendance.

—Our very limited circle of crooks and grafters must have gone to the circus yesterday looking for, but failing to find, business. Nothing doing in police circles.

—The town was filled with our country neighbors yesterday. The merchants say that people who come to see the show have not time or desire to buy goods.

—Messrs. J. J. Turner & Sons, yesterday morning received an order from Lemon Bros. for a large tent, with fancy stripe and side curtains. The tent was made and delivered by last night.

—Ensign Bloss, of Toronto, conducted special meeting in the S.A. Barracks last night. The Ensign is a fine singer and plays several stringed instruments. He is also an interesting speaker.

—The members of the Canadian Order of Foresters of Peterborough, will attend divine service in St. Andrew's church on Sunday evening, June 4th. Rev. J. G. Potter will deliver the annual sermon.

—The regular meeting of the Ladies' Aid Society of St. Andrew's church, will be held this afternoon at 2 o'clock at the residence of Mrs. E.L. Robinson, Charlotte street. A full attendance is requested.

—The best lot of porkers on the market this year were brought direct by the Matthews Packing Company on Wednesday from Mr. Robert Weller—the first shipment from his farm, "Maple Lodge," Otonabee. The seven hogs weighed 1,500.

—An agitation is in progress among the local merchants for closing, during the summer months at 5 p.m. This is a move in the right direction, but if instituted, steps should be taken to see that outlying small stores should fall in line.

—Yesterday was a kind of New-year's resolution breaking day. Many people who intended to wait for Sells-Bell Down's circus could not stand the pressure, the ring's attractions overcame their good intentions. Perhaps they will take in the big show later.

—Lindsay Post says; A farmer and wife driving into town on Lindsay street, this morning did not notice the 9.15 Peterborough train coming along, and a catastrophe was only averted by a pedestrian running out from the pavement and checking the horse in time.

—Lindsay Post says; Mr. M. Thornhill, of Janetville, brought in several very fine head of cattle this morning. They were purchased by Mr. McIlharghey, at a good sum of money. Mr. McIlharghey shipped a consignment of hogs to Peterborough and cattle to Toronto to-day.

—A number of improvements are in progress to the front of the Tooley House, which will add much much to House, which will add much to the handsome interior of this popular hostelry. The eve-troughing has been entirely torn off and will be replaced by new ones, while the mansard roof is being treated to a coat of paint.

—Mr. L. W. Cameron, ledgerkeeper of the local Bank of Commerce, has been advanced to a more important position in the service of the Bank in its Toronto branch, and left last night to enter upon his new duties. Mr. Cameron will be succeeded by Mr. Searles, of Belleville, son of the

DUTTON'S MARKET.

Strawberries, quart box - 15c
Malta Vita, per package - 10c

R. A. DUTTON
Phone 304. 419-420 George street.

—Mr. David Beavis met with a slight accident Wednesday evening. He was leading his team through the yard and in some way the horses, which are both rather wild, became frightened and tore around rather freely. Mr. Beavis was used rather roughly and his face and head shamefully.

A June Bride.

Miss Ethel Moorehouse Married to Mr. Fred Holmes in St. John's.

Yesterday morning at St. John's church, at 9.30, the wedding of Miss Ethel Mary Moorehouse, and Mr. Fred Holmes was solemnized, by Rev. J. C. Davidson, rector of the church, in the presence of the relatives of the contracting parties. The bride, who is the daughter of Mrs. Moorehouse, late of Hone, Frith, Yorkshire, England, was given away by her mother. She was very becomingly attired in a dress of cream silk voile, over green and wore a chiffon hat. She carried white carnations and lillies of the valley.

The bridal party was unattended, the wedding being quiet. After the ceremony a wedding breakfast was served at the home of the bride's mother, Carlisle avenue, where Mr. and Mrs. Holmes will reside in future.

Tytler-Burnham.

Yesterday Peterborough's society and fashion were all excitement over an early June wedding in the 5th ward. Miss Edith Burnham, eldest daughter of the late John Burnham, M.P., and Mr. P. Boyd Tytler, plighted their troth in the presence of a number of relatives and friends at St. Luke's church, Ashburnham.

The ceremony, was performed by the rector, Rev. E. A. Langfeldt, at ten o'clock, when, the bridal party entered the church, the bride upon the arm of her eldest brother, Mr. Harold B. Burnham, of St. Catharines, who gave her away.

The bride looked charming in a gown of white homespun, trimmed with ecru lace and silk, with tulle hat, with plumes, and carried a bouquet of white roses and lily-of-the-valley.

Her travelling dress was of black mohair, strapped with taffeta, with black hat of straw and net. The bridesmaid, Miss Abigail Revell, was beautifully attired in a blue gown, trimmed with Chantilly lace, and white lace hat, with roses, and carried pink bridesmaid's roses. The groom was supported by Mr. Frank W. Burnham, a brother of the bride.

Among those present at this very pretty ceremony were; Mr. and Mrs. C. H. Geale, of Toronto; Mrs. John Burnham, mother of the bride; Misses Carrie, Nellie and Emma, and Mr. E. A. Peck; Mrs. Revell; Miss Flossie Burnham; Mr. and Mrs. R. B. Rogers; Mr. S. R. and Miss Price; Col. J. Z. Mrs. and Miss Rogers; Mr. and Mrs. H. T. and Miss Strickland; and Mrs. (Rev.) E. A. Langfeldt.

The chancel was beautifully decorated for the occasion with white lilacs and apple blossoms.

After the ceremony the party adjourned to the residence of the bride's mother, Mrs. J. Burnham, where the wedding breakfast was served. Mr. and Mrs. Tytler were the recipents of a large number of handsome wedding gifts.

The happy couple left on the noon train for a honeymoon trip to Detroit and points West, and after June 15th, will reside in Montreal, where Mr. Tytler is engaged with the Merchants Bank of Canada.

Rev. H. Walker for Cordova.

Rev. Harry Walker, a recent graduate of Knox College, has been appointed to the pastoral charge of Marmora and Cordova Presbyterian churches. Mr. Walker preached last Sunday and his sermons were so highly appreciated that his appointment was sought for.

Interesting Service in St. Peter's

The special services for men now being held by the Redemptorist Fathers, in St. Peter's Cathedral, are being very largely attended, and exciting much interest in all attending. Tonight special atonement services will be held, when the altar will be elaborately decorated. A procession of boys will take place. An atonement will be made at the end of the service to the sacrament for any outrage, irreverence, or indifference showed in the past. The close of the renewal of the Mission will take place on Sunday evening, when the service will be even more elaborate and attractive. About 1,300 men, renewing their Baptismal promises with lighted tapers in their hands, will be present.

Mr. G. Fitzgerald For Bisley

The Lindsay Post says: Mr. F. Armstrong, liveryman, York street, is a man of ideas. Having waited all spring for the Council to order the removal of some ponds of stagnant water on the narrow thoroughfare he has now given up all hope of that being done, and has hit upon a happy plan to improve the situation. He has bova out collecting ,000 young frogs, which he will set free in the ponds nearby. He feels that the resultart flood of melody—not to mention the advantage of having bait close at hand in the fishing season—will compensate him for his trouble.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & CO. Toledo, O.

Sold by Druggists, 75c.
Hall's Family Pills are the best.

"I wrote to Doctor Pierce, who sent me a very kind letter and advised me."

Thousands of weak and sick women can trace the beginning of a new life of perfect health to that letter written to Dr. Pierce.

Sick and ailing women are invited to consult Dr. Pierce, by letter, *free*. All correspondence held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription cures weak and aching backs, headaches, nervousness and other womanly ailments by curing the womanly diseases which cause them.

"In the spring of 1900 I became very ill," writes Mrs. Alvinna Scholtz, of Lake Washington, Lancaster Co., Minn., "my back was very weak and ached so that I could do no work at all, so I was obliged to take to my bed. I felt a constant desire to urinate and the pains in abdomen were almost unbearable. I wrote to Dr. Pierce, who sent me a very kind letter, and advised me to take his 'Favorite Prescription' and 'Golden Medical Discovery.' I took six bottles of each and am a well woman now. I cannot say enough in favor of Dr. Pierce's medicines."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets are the most desirable laxative for delicate women.

Togo May Come

May be Invited to Visit Canada in September

Toronto, June 2.—The offer of the Japanese Government to erect a building at the Exhibition grounds for the display of the products of Japan has suggested to Dr. Orr, manager of the Exhibition, another plan to make the Exhibition of 1906 equally as attractive as the Exhibition of this year will be, with Lord Roberts the chief guest. The doctor suggests that Admiral Togo, the man of the hour, be invited to perform the double duty of opening both the Exhibition and the new Japanese building.

Concert in South Dummer

On Friday evening, June 16th, Enniskillen Lodge, No. 522, will hold their annual concert and entertainment in the Orange Hall, South Dummer. There will be an excellent musical program, to which the Choate orchestra of Warsaw, and other musicians, will contribute. There will also be addresses by among others, Dr. T. E. Sproule, M.P., East Grey.

No Circus Exhibition Last Night

Many hundreds of people last night were disappointed to find that the circus tents were down and in process of being packed up at the very time the "barker" should have been announcing; "the greatest show on earth." Money was refunded to those holding tickets. The management explained that the seeming likelihood of rain was the cause of their "folding their tents and like the Arab, etc;" it was rumored in town last night that the show would not fill their Ontario engagements, but jump straight through to New Brunswick. If so, "there's a reason."

OVER 7,000 RUSSIANS DROWNED.

Tokio, June 2.—The necessity for secrecy no longer existing, the Navy Department confirms the reports of the loss of the Japanese battleship Yashima off Port Arthur in May, 1904, and announces other naval losses heretofore withheld. The list is as follows.

Battleship Yashima, sunk by a mine, May 15, 1904, while engaged in blockading Port Arthur.

The torpedo boat destroyer Akatsuki, sunk by a mine, May 17, 1904, while taking part in the blockade of Port Arthur.

The gunboat Oshima, sunk in collision May 17, 1904, while co-operating with the army off the Liao Tung Peninsula.

The torpedo boat destroyer Hayatori, sunk by a mine, Sept. 3, 1904, while taking part in the blockade of Port Arthur.

The gunboat Atago, struck a rock and sank November 6, 1904, while taking part in the blockade of Port Arthur.

The protected cruiser Takasago, sunk by a mine, Dec. 12, 1904, while taking part in the blockade of Port Arthur.

Tokio, June 3.—Rough estimates made of the Russian losses in the battle fought in the Sea of Japan, exclusive of nearly 6,000 prisoners, vary from seven to nine thousand. It is feared that the majority perished. Calculating on the complements of the sunken and captured ships at upwards of ten thousand, seven thousand men remain unaccounted for.

It is possible that the ships which escaped rescued some of the members of the crews of the less fortunate ships. Many bodies have been washed ashore on the islands and on the shores of the neighboring coasts near the scene of the battle.

THE SECOND TO REACH PORT.

St. Petersburg, June 2.—The Russian cruiser Izumrud has arrived at Vladivostock. The Izumrud is the second out of twenty large Russian vessels to reach port.

RETAKE A VESSEL.

Nagasaki, June 3.—Russian torpedo boats from Vladivostock captured the Japan steamer Daishen, of 700 tons, off Hokkaido, and placed a prize crew of thirteen men on board, with orders to take the vessel to port. By mistake the Russian commander of the Daishen headed for Gensan, Korea, and met a Japanese transport. The latter, seeing the Russian flag flying from the Daishen, intended to recapture the vessel, when the Japanese captives aboard the steamer, on seeing their comrades, attacked the prize crew, recaptured the vessel, and eventually took her to Gensan. The Russian prize crew have been taken captives to Sasebo.

Crew of the Battleship Orel Reported to Have Shown Desperate Courage--Dying Sailors were Thrown Into the Sea.

Tokio, June 3.—It is planned to bring the battleship Orel to Yokosuka, where the Emperor will visit her.

A remarkable story is in circulation concerning the wounded on the Orel. It is said that at the opening of the fight 300 men were killed and wounded, and that the groans and shrieks of the wounded exercised so harmful an effect that it was decided to throw the mortally wounded into the sea.

One hundred and forty, it is said, were thrown overboard. Those slightly wounded were then fastened to the mast to prevent their interference with the fighting of the ship. It is impossible to obtain any confirmation of this story, but later reports indicate that the crew of the Orel fought with desperate bravery throughout the day previous to their surrender. The hull of the vessel is shell-marked, and many of her guns are smashed and dismounted.

DID SAILORS THROW ADMIRAL OVERBOARD?

New York, June 3.—A St. Petersburg despatch to the Times from its correspondent there says,

"Details communicated to me from a trustworthy source leave little room for doubt that Admiral Nebogatoff's sailors mutinied during the battle in the Japan Sea, and either threw the Admiral and many officers overboard, or, according to another version, bound them in their cabins and hoisted the white flag.

"I am assured that eight men in Nebogatoff's squadron, were hanged for mutiny while still in the Red Sea.

"Many people well versed in affairs at the front declare that something similar is likely to happen in Manchuria when the armies learn the truth in regard to the naval disaster.

"They will doubtless learn the truth, as usual, from the Japanese."

CZAR NOW KNOWS EXTENT OF DISASTER

With Ruin Staring Him in Face He Hesitates

RUSSIA NOW IN FERMENT

Terrible Condition of Baltic Fleet Made Manifest for the First Time

New York, June 3.—The New York American's St. Petersburg correspondent says that at last the Czar has awakened to the full horror of the situation.

He now knows that the Japanese reports of the battles of Tau Shima are cold-blooded and that his fleet has been wiped out.

He knows that the Admiral of the fleet is a prisoner of war in the Naval Hospital of Sasebo, wounded by Japanese shells and to be operated on by Japanese surgeons. He knows that out of all his fleet three crafts have reached Vladivostok and that the Japanese navy is enriched by his captured battleships.

He knows that the money-lenders of Europe have closed their strong boxes against any loans for carrying out the losing and murderous war; that the state of his armies is perilous, and the attitude of his people is one of revolt. In the extremity of his despair, he has called together all the members of the Imperial family at Tsarskoe-Selo and has put to them the desperate question off whether shall be sue for peace, shall be fight on, or, more humiliating still, shall be listen to the people, grant them a national assembly, and lay the burden of the decision on them.

Now swayed this way and now that, the vacillating, yet obstinate, half-crazed with grief and anger, he is today the most unhappy man in Russia.

This is saying much, for Russia is full of miserable and grief-stricken people who demand the downfall of the bureaucracy and the end of the war.

In St. Petersburg crowds of weeping women have surrounded the bulletins and read or listened to the reading of pitiful details of the Tau Shima tragedy.

The papers have broken away from restraint and are clamoring for the close of the war. Revolutionaries are gathering the troops and are revolting everywhere in anger and grief, the most rabid enemies of Czardom.

Even the Czar's ministers have turned against him and demand that steps shall be taken to secure peace. London stories of survivors of the battle in the Corea Straits which are being cabled, reveal an almost incomprehensible state of affairs in the Russian fleet when it went into action. The utter rout of Russians and the insignificant damage to the Japanese is easily understood in light of these amazing stories.

The story of their defeat dates back to the time when still in European waters Rojestvensky's ships spread consternation and death among the English fishing fleet in the North Sea.

With the possible exception of the few highest ranking officers there was not a man on the Armada trained for an service or even able to step sprightly on the ship's deck.

Raw recruits from field and factory were pressed into service and shipped to give battle to Japan.

Officers to command were taken from the ranks of the dissolute aristocracy.

Lock Roy, the former Minister of Marine of France, says that half the crews never saw the sea before embarking, and that many cavalrymen were transferred from the saddle to the quarterdeck to fill gaps.

The men behind the guns were afraid of their own guns more than of the Japanese. No effort was made to fire the shotted guns, even if the vokels at the laniards knew how. Ports were deserted, engines left unguarded, held turned at will and the men raced for the boats.

In naval circles Rojestvensky's handling of the fleet is said to have been a most hopeless display of naval tactics in history.

Housekeepers

have been vexed when using cream of tartar and soda to find their work uneven. If sometimes good, at others the biscuit and cake will be heavy or sour or full of lumps of soda that set the teeth on edge. Flour, eggs and butter wasted. This is because the cream of tartar is adulterated or cannot be used in the proper proportions.

Food always sweet and light can be assured only by the use of Royal Baking Powder exclusively. Royal is absolutely pure and healthful and does even work at every baking.

ROYAL BAKING POWDER CO., NEW YORK.

A FASHIONABLE WEDDING

DR. T. H. BELL AND MISS MINNIE DARLING MARRIED

An Event of Interest to Many in Peterborough--Many Guests Were Present

A pretty and fashionable wedding took place Thursday afternoon in St. Margaret's church, Spadina avenue, Toronto, when Miss Minnie Darling, only daughter of Mr. and Mrs. Richard Darling, was married to Dr. Thomas Herbert Bell, L. R. C. P., only son of Mr. F. J. Bell, of Peterborough.

A mass of palms were banked in front of the pulpit and reading desk, cut flowers ornamented the communion table. Mr. Loode played the wedding marches. Rev. R. J. Moore performed the ceremony. The bride was given away by her father, and wore a gown of cream point d'esprit, a coronet of orange blossoms, holding the long tulle veil, which fell almost to the end of the train, being caught up with lily of the valley. A large shower of bridal roses were carried.

The maid of honor was Miss Kola Evans, who wore a pearl grey silk oelienne over taffeta. The large white hat was trimmed with pink roses and a cluster of pink roses were carried. The bridesmaids were Miss Violet Loney, Merlin, Ont., and Miss Beatrice Strand, who wore cream gowns and large white picture hats and carried clusters of cream carnations. The little flower girls were Miss Mary Hitchman and Miss Edna Washburn, cousins of the bride. They were in cream silk frocks with wreaths of lily of the valley on the heads, and carried baskets of lily of the valley.

The best man was Dr. Duncan Anderson, and the ushers were Dr. Edwards, J. R. Code, and Dr. J. A. Cereswell. Mrs. Richard Darling, the bride's mother, was in black net over black satin, and a toque of white chiffon and tea roses. She carried a large bouquet of crimson roses.

THE RECEPTION.

A reception was held afterwards at the residence of the bride's parents, 114 Robert street. Carnations, palms and roses banked the mantels in the drawing-room. A string orchestra played during the reception, and the presents which were numerous and beautiful were duly inspected in the hall upstairs. The gift of the bride's father was a piano, of the bridegroom's father, a cheque. Dr. and Mrs. Bell left on the 7.20 train for the East, and will return to the city for a few days ere they leave for the West, where the Doctor is practicing.

The bride's going-away gown was smart brown broadcloth, the blouse-coat with green panne velvet trimmings, opening over a white silk waist. The New York sailor, with green trimmings to match, was of fine cream straw.

Among the 130 invited guests were: Dr. and Mrs. H. B. Anderson, Mr. and Dr. Ida Byrd, Miss Hollingshead, Mr. and Mrs. E. F. Hitchman, Mr. and Mrs. Washburn, Sudbury; Dr. and Mrs. T. H. McConnell, Col. and Mrs. Evans, Dr. E. V. Frederick, Rev. and Mrs. Broughall, Mr. A. A. Bradley; Mr. and Mrs. W. P. Coyell, Dr. Harry Watson, Winnipeg; Mr. A. H. Robinson, Nova Scotia; Miss A. Guest, Brampton; Miss Estella Foy, Peterborough; Miss Walker, Utica, N.Y.; Mr. and Mrs. James Crawford, Mr. and Mrs. R. Hyslop, Mr. and Mrs. Andrew Wilson, Miss Marks, Miss Bradshaw, Mr. and Mrs. A. H. Richardson, Mr. and Mrs. A. B. Barry, Miss Remington, Misses Maxwell, Miss Ida Middleton, Minneapolis; Misses Staunton, Mr. Lloyd Blackmore, Montreal; Mr. and Mrs. D. Percila.

JAPAN TO BRING PRESSURE TO BEAR

A Financial War Will Complete Russia's Wreck

NOT TO BLOCKADE BALTIC

Banking Credit Will Be Withdrawn and Russia Will Be Compelled to Sue For Peace

London, June 3.—Alfred Stead, whose connection with high Japanese authorities at present is closer than that of any other Englishman, declared to your correspondent this morning that Japan would never send a fleet to the Baltic to force Russia to conclude peace.

"The rulers in Tokyo," he said, "invariably put moral consideration before material, believing that herein is the course of permanent success. They wish above all else to be morally impregnable. They hold that no fleet without coaling stations of its own can cover the distance by sea between Japan and the Baltic unless it violates the spirit of neutrality.

"Moral considerations aside, the Japanese do not think any important benefit would arise to them from carrying the war into western waters. They could bombard Libau and Cronstadt, but would have no base in the Baltic, and could not persist in operations sufficiently long to compel Russia to make peace.

"This can be done, assuming that the internal crisis will leave the present regime intact, only by financial compulsion. Russia will shortly feel this pinch. The Credit Lyonnais, which has been striving for a long time to keep the Russian bonds from collapsing, is tiring of the struggle. Once its powerful influence is withdrawn, Russia will be stranded. Of course, French investors would lose huge sums on account of such a debacle. Therefore France's pressure on its ally to get it to stop the war has become steadily stronger.

"Meanwhile, Japanese military plans are rapidly developing. The army is being strongly reinforced, and the navy is ready to give all needed aid in the direction of Vladivostok.

"It is safe to predict that the Russians will be driven back to Siberia and that the Russians will so dispose of matters in the vacated territory as suits their own interest and convenience.

During the wait monetary pressure will bring Russia to terms. Japan can either fight or stand guard over what it has won more effectively and cheaply than Russia can fight or maintain troops stationary.

Already civilization is appearing behind the Mikado's armies and current history is sweeping on while the proud Czar vainly tries to grasp the effect and meaning of this year's supreme events."

KAISER WANTS PEACE

Pleads With Czar to Make Terms With Japan

Berlin, June 3.—It appears that at Tsarskoe Selo a great conflict is in progress between the peace party, headed by M. Witte, and Count Lamsdorff, and the war party, which is led by the Grand Dukes. The Czar apparently favors the latter.

St. Petersburg advices received here from Berlin declare that Kaiser William yesterday forwarded an urgent despatch to the Czar to make peace.

The message was followed by a long autograph letter from the Kaiser pointing out why Russia should give up the present struggle.

Hoboes, Beware!

Ontario Government Intends to Make It Interesting for Weary Wanderers

The Chief of Police yesterday handed The Times a communication received by Magistrate D. W. Dumble, in which the Deputy-Attorney-General, requests that things be made extremely sultry for vagabonds "and such."

Should the suggestions made be carried out this Province will soon, to her great betterment, be blacklisted by the tramping fraternity. The letter reads;

Department of Attorney-General of Ontario.

It is once more necessary to call your attention to the law with regard to tramps and vagrants. Men of this class are believed to be responsible for a large number of burglaries and other crimes of violence and it has been found that the best results are obtained by imposing the full term of imprisonment in Central prison, allowed by law. The practice of giving them the option of a fine or leaving the municipality, has been found most unsatisfactory and I am directed to say that when any men of this kind are brought before you, you should administer the law strictly and rigorously, as in this way alone can serious crime be prevented. Yours, etc.

(Sgd.) J. CARTWRIGHT

Stabbed for Five Cents

The Italian Stabber from Lakefield is Committed.

Dominique Barcastro, charged with wounding with intent to do grievous bodily harm, a brother Italian, Dominique, Murdoque, on May 22nd last in Lakefield, was given a preliminary hearing yesterday morning before County Police Magistrate Edmison. Only one witness was examined and it was decided to drop the case for awhile. Mr. G. N. Gordon, of Osgoode Hall, Toronto, who is acting in the place of Mr. D. O'Connell, during his absence in California, who is counsel for the prisoner, refused to elect, and consented to let the case come up at the sessions on June 13 before county Judge Weller.

Only one witness was called Dominique Murdoque, the man who was wounded in the mix-up. By his evidence he had been on the beat of terms with the prisoner up to the night of the catastrophe when they were indulging rather freely. After they had left the hotel the witness and the prisoner got into trouble over the paltry sum of five cents, and during the altercation that followed the witness was stabbed three times in the back and once in the shoulder.

Mr. R. E. Wood, Crown Attorney, appeared for the plaintiff.

OPPOSING ADMIRALS IN THE RECENT BIG NAVAL BATTLE

Togo	Rojestvensky.
Is 55 years old.	Is 56 years old.
Was educated at Naval College, Greenwich, Eng.	Was educated at Russian Marine Academy.
Was diligent and hard student.	Distinguished himself as junior officer in Turko-Russian war in 1877-78.
Commanded cruiser Naniwa in 1894, and precipitated war with China by sinking transport Kowshing, flying British flag.	Was attached to Czar's suite in 1902.
Subsequently saw much fighting and won promotion by his ability.	Was made Chief of Staff at Ministry of Marine in 1903.
Won brilliant victory over Russians at Port Arthur.	Was Czar's last hope after disaster to Russian fleets.
Is superior to opponent in knowledge and experience.	Noted as disciplinarian and organizer.
	Fired upon British fishermen in North Sea soon after starting on present cruise, thinking them Japanese torpedo fleet.

Russian Army in State of Revolt

More Disquieting Reports Received at St. Petersburg From the Manchurian Army

St. Petersburg, June 3.—The news of the naval defeat is spreading throughout the army in Manchuria, and the commanding officers have great difficulty in suppressing disloyal demonstrations. Fully thirty per cent of the whole army consists of either openly declared revolutionists or those of revolutionary tendencies, to say nothing of the tens of thousands who are unwilling soldiers. Movements are on foot, throughout all the commands, indicating an aggressive attitude, clearly planned, to divert attention from the naval catastrophe by keeping the men busy; but it will not be strange if in the next land battle mysterious surrenders should take place.

The Czar has been fully informed of the rebellious feeling in the ranks.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

FOOTBALL.

The Quaker Football team will go to Norwood this morning on the 11.35 train to play a league game with the team of that place this afternoon. The Quakers have been strengthened considerably and will present the strongest line-up against the Norwood bunch that they have yet placed in the field. Following will be the players;— Goal, McFadden; backs, Doris, Simpson, capt; half-backs, Whitlow, Maine, Moore; forwards, Huston, Brooks, Lyons, Snider, Cullen; spares, Coons and MacDonald.

Mr. Henderson, of the Old Country Wanderers, will referee.

The game, which starts at three o'clock sharp, will be well worth seeing.

To-day's Opening

A Grand Time Expected This Afternoon in Riverside Park.

Before making arrangements for spending this afternoon, remember the grand opening of Riverside Park. A big procession headed by the 57th Band and composed of the Cobourg and Peterborough players, officers of the Peterborough Club, and prominent citizens in carriages, will leave the National Hotel at 2.30 sharp and proceed to the new grounds via George and Hunter streets.

At the grounds the local Midland League season will be formally opened. Mr. R. R. Hall, M.P., will throw the first ball over the plate and Mr. T. E. Bradburn, M.P.P., will do the receiving. Mayor Beat will be at the bat, and Mr. R. E. Layfield, president of the club will be on hand to see that no political arguments arise.

A Golden Opportunity.

A Gold Mine Stock That Bears the Marks of Unlimited Prospects of Wealth.

Our readers, and especially those among them desiring a speculative investment that holds good prospects for the future, will read with interest an advertisement in another part of this issue.

The Montgomery Mountain Mining Company, Bullfrog, offer to the public, for a limited time only, an opportunity for investment in a sound proposition, that excels, in well founded chances, most of the many mining offers now on the market.

It is a well-known fact, in mining and financial circles that the Montgomery Shoshone Mine, recently opened, is one of the richest payers ever operated, as it is now shipping ore which assays $2,300 per ton. The Montgomery Mining Company, Bullfrog, is on Montgomery Mountain, adjoining the Shoshone Mine.

They have now a limited number of shares in the Treasury worth $1 per share, but which, will for a short period of time be allowed to be placed at 75 cents per share.

As will be noted in their adv. both their officers and references are gentlemen and corporations whose very name inspire faith among financiers, and consequently will guarantee a conservative and desireable investment.

The eastern representatives of this promising mine are gentlemen of sound standing in New England States, Messrs. W. A. Mears & Company, 425 Land Title Building, Broad and Chestnut streets, Philadelphia, Pa.

BOARD OF EDUCATION WILL ASK FOR AN ADDITIONAL GRANT OF $50,000

By-Law to This Effect to be Submitted to the People on June 29th--The Total Cost of the New Collegiate Institute, Should the By-Law be Carried, will be $100,000.

The Board of Education last night, by a vote of nine to two, decided to go to the people for a further grant of $50,000 towards a new collegiate institute. This will bring the total cost of the institute up to $100,000.

At a special meeting of the Board of Education held last night, those present were; Messrs. Dr. Burnham in the chair, Rogers, Kennedy, Hill, Hayes, Jamieson, Hartley, Pringle, Eastwood, Crane, Morrison, Ackerman and Stevenson. Mr. Morphet acted as secretary in absence of Mr. Morrow, who is in Europe.

The chairman explained that the meeting was called to consider whether the Institute would be built with money already voted or ask the town for an additional grant.

Mr. Morrison said the position of the board is that they have the site already bought and $40,000 on hand, the lowest tender for the new building is $70,000.

The question is to go ahead and spend what they have and then ask for more of ask this now. The Supervision Committee find a very congested state in the public schools. If the Institute is not built, other public schools will have to be built. A third alternative would be to throw up the whole idea of a new Institute. Galt is spending $70,000, Calgary $125,000, if these places can spend this amount, Peterborough should do so. He favors a by-law making the building as per the present plans and specifications.

Mr. Stevenson asked if, and was answered affirmatively that the ground had been paid for. He said sarcastically, that the Board was a smart crowd, as they had not even settled the amount to be paid to the architect.

He understood that he was going to ask five per cent. for his work, whilst the Catholics only paid him 2 1-2 per cent. for similar work. The general reply was that no bargain had been made, but Mr. Eastwood explained if Mr. Belcher's plans were not acceptable he was to get $200, otherwise 5 per cent.

Mr. Stevenson objected to paying the architect more than other people paid him, and then throw away $3,000 or $4,000.

Mr. Kennedy thinks that if the Board went before the people they would be turned down. Advocates going ahead with what they have, and in a year or so ask for more.

Mr. Hayes thinks the people would not give the money. Thinks they should go ahead at once, and begin building, and ask more later.

Mr. Stevenson said the Board could make up its mind the job would cost $100,000 before finished. He also said the heating should be outside for safety, i.e., in a separate building.

Mr. Crane is opposed to starting without knowing what the people want, whether they want a $40,000 building or more. He thinks the public schools are a disgrace to the town. Would support asking the Council to put the matter to the people.

Mr. Stevenson asked the Board how much the town owes on school debentures, but no one knew. He explained, including the present building, it would be $280,000.

Mr. Hayes suggested that each member give his opinion, and eliminating their reasons, they were;

Mr. Hartley thinks it will take $500 00 more, and prefers going to the people now, and taking them into the Board's confidence.

Mr. Ackerman favors going to the people.

Mr. Jamieson favors going to the people.

Mr Eastwood favors going to the people, but thinks our public schools are a disgrace to the town. would like to combine the Institute vote with one for a public school in the south of the town, thinking that the combined vote would catch votes for the Institute.

Mr. Kennedy would like the Board to go ahead and spend the money with out asking the Council for a vote.

Mr. Pringle wants more school accommodation in the south end of town. Thinks it is only right to go to the people now, instead of beginning a building and perhaps leaving it half finished.

Mr. Rogers knows that the Collegiate Institute cannot be built, according to the plans submitted, under $100,000, thinks that the Board should go to the Council.

Mr. Hill will have no hand in deceiving the people, but should let them know that the building will cost $100,000. Strongly in favor of submitting a by-law to the people.

Mr. Hill moved that the Council be asked to submit a vote to the people on the 29th of June, on the question of whether the people will grant an additional $50,000 to the $50,000 already given. Seconded by Mr. Ackerman.

Mr. Hayes said he would support Mr. Hill's resolution, and thought the vote could be carried.

Mr. Stevenson raised the question again as to what was to be paid to the architect.

Mr. Eastwood vehemently protested that the people were not suffering for the want of Collegiate Institutes, but that the public schools were absolutely needed. Would only work for carrying this Collegiate vote if an amount was included for public schools. Will do all he can against the Institute unless better public school accommodations were included.

Mr. Stevenson said as this was a special meeting it had no right to submit the question, until the regular Board of Education meeting on Monday next. The chairman, however, put the question which was voted on in the affirmative, by all but Messrs. Stevenson and Eastwood.

A Cowardly Blow.

Mr. F. Hudson, of the Royal Hotel, the Victim of an Emily Farmer.

Circus day will be remembered for some time by Mr. Fred Hudson, proprietor of the Royal Hotel on Hunter street, as that evening he was felled to the floor by the cowardly and vicious blow of an inebriated farmer from Emily. It appears that there were quite a crowd of farmers and others, many of whom had visited and too freely patronized various barrooms, collected in and about the Royal Hotel, between nine and ten o'clock. A man named Shannon was the indirect cause of the mix-up. He was under the influence of liquor and his language was far from parliamentary. Mr. Hudson asked him to desist as there were a number of ladies in the sitting room.

Another man, whose name, by request of the Chief, is withheld, undertook to settle the argument. Shannon, whose jag had started the ball rolling, slipped out and went home. Mr. Hudson, finally manged to get the farmer out of his house, and was standing in the doorway, with his back to the street. The drunken farmer approached him from behind and struck Hudson over the head with some hard object, just what it was no one seems to know. However, it did it's work very effectively. Hudson dropped like a log, with his blood pouring freely over his clothing and the floor; an intense excitement prevaded all present, they thinking at first that the cowardly blow had killed the hotelman, and immediately, in the midst of the excitement, the former escaped.

Dr. McNulty was summoned and dressed the injury. He was found to have a bad cut on his head which required five stitches to close.

Yesterday morning when P. C. Stewart called to make inquiries, he found Mr. Hudson in bed. The officer learned the identity of the assailant, but as above noted his name is suppressed. He lives in Emily about five miles from town.

As this is a mine that cannot, from its very location, but command attention from people interested in mining investments, and as everything points towards a rapid rise in quotation of prices, it would be well for intending investors to seize the present chance of obtaining such stock as they may desire at once.

Sons of England.

A Large Deputation from Lindsay to Fraternize with Members of Lansdowne Lodge.

Next Monday night, June 5th, will be a memorable epoch in the history of our local Sons of England.

Supreme Vice-President, James Boxall, a well-known merchant of Lindsay, accompanied by some 25 members of Westminster Lodge, Lindsay, will pay a fraternal visit to Lansdowne Lodge, here. Several of the Lindsay brethern will be initiated to the mysteries of the White Rose Degree.

On completition of the regular business in the Lodge room, all present will proceed to McCallum's restaurant, where a banquet will be served. About sixty guests will partake of this dinner, for which ample and excellent arrangements have been made. Speeches and songs will doubtless assist in making the banquet a huge success.

The Sons of England are now a very prominent body in Canada, and their influence cannot but arouse and keep constantly fresh patriotic ambition for close relationship with the Mother Country. As such they are deserving of every encouragement and endorsation.

Park Street Baptist Church

The pastor commences his third year to-morro Subjects for the special sermons; 11 a.m.—"Taking Possession;" 7 p.m., "Man of Metal and How They are Made." Special music. The ordinance of the Lord's Supper will be observed at morning service. Sunday school with pastor's Bible class at 3; subject "The Resurrection."

ALLEN'S LUNG BALSAM

will positively cure deep-seated COUGHS, COLDS, CROUP.

A 25c. Bottle for a Simple Cold.
A 50c. Bottle for a Heavy Cold.
A $1.00 Bottle for a Deep-seated Cough.
Sold by all Druggists.

Sullen Discontented, Morose, Low Spirited

Brace Up—Vitalize Nerves and Blood With

FERROZONE

The Effect is Instant—Makes You Snap and Dance With Vitality

Your appetite is gone.

What little you eat brings no satisfaction.

You're getting blue and melancholy—you can't rest or sleep.

Nervous prostration is staring you in the face.

Your unstrung nerves can only be nourished back to health by a nerve tonic like Ferrozone. It cures weakness of the inner nerves, gives vitality and strength to the blood and nervous system, makes all the organs work in harmony.

The following experience of Mrs. D. P. Courtland, of Myrtle, proves the prompt action of Ferrozone.

"I had no nerve strength.

"My appetite was poor and my system was out of order.

"I felt weak and dispirited, was tired out the whole day long.

"Did Ferrozone help me?

"It gave me strong nervous system, a good appetite, and abundance of health."

Ferrozone contains concentrated nourishment you can't get in any other way. No other medicine benefits so quickly. 50c. per box or six boxes for $2.50, at all dealers in Medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

PETERBOROUGH, JUNE 3, 1905

RUSSIA AFTER THE OVERWHELMING DISASTER

Whether or not the St. Petersburg bureaucracy and the war party in the court circles will now realize the hopelessness of further resistance to victorious Japan, the chances are that with regard to the internal situation the reactionaries will be constrained to admit defeat before liberal and progressive Russia, the Russia that has, through zemstvo congresses, meetings of engineers, physicians, lawyers, journalists, and even student strikes against the autocracy, been demanding constitutional government, or at least promising steps in that direction.

It is no secret that the Bourbon absolutists, in the event of Rojestvensky's victory, would have boldly attempted to nullify the whole program of reform conceded by the distrusted and discredited autocracy. There have been signs of a untoward change in the control of Russia in the last few weeks, and very little encouragement would have been needed to satisfy the reactionaries that pretended reforms would do just as well as real ones.

That the liberal elements were alive to the danger, not only foreign correspondents but editorial comments in the leading St. Petersburg papers have amply indicated. "There have been men," said The Novoe Vremya recently, "who have dreaded Russian triumph because that might entail reaction at home."

Nothing can be more significant and illuminating than the statements in current dispatches from the Russian capital as to the effect on public opinion of the terrible news from the scene of the Togo-Rojestvensky conflict in the Korean Straits. "The radical liberals," we read in the full Associated Press cable, "are openly rejoicing in this hour of their country's humiliation. They declare that the disaster means peace and a constitution." A special cable to the Chicago Daily News says that the feeling in St. Petersburg is that a Russian victory might have retarded progress in internal affairs half a century.

Such sentiments may seem extraordinary and unnatural to outsiders, but we must bear in mind that in liberal Russian circles the defeat is considered to be not so much national as governmental. It is the inefficient, ignorant, obscurantist bureaucracy that has failed so ignominiously, not the Russian people, who did not want or expect war, who cared nothing about Manchuria, and who would gladly have kept the peace on Japan's terms. It is the policy of repression, a policy that has meant illiteracy, famine stagnation, that has inevitably led to the unprecedented blow to Russian prestige. The liberals believe that the Czar will be compelled to make a direct appeal to the people and their representatives, and that will mean liberty, prosperity and progress.

The Sailing of Rojestvensky

The following lines were found on the table of the War Reporter of this g. f. j., after he had retired for the night:

We polished our guns and we scrubbed our decks;
And we sailed;
We climbed the masts and we craned our necks,
And we sailed.
Oh, we headed out to the wild North Sea,
Scared half to death, and we shot, did we,
At the fishermen there, when they failed to flee,
And we sailed.

We fooled a while on the shores of Spain,
And we sailed;
The Japs were far o'er the ragin' main,
And we sailed.
We hovered long by the black man's coast,
We clinked our glasses in many a toast
Where the sun was busy enough to roast,
And we sailed.

We loitered around in the Frenchman's bays,
And we sailed;
We thought of home and of happy days,
And we sailed.
We kept the vodka a-flowin' free
As we rounded up in the Yellow Sea,
A-wonderin' where the Japs could be,
And we sailed.

We cleared the decks and our prayers were said,
And we sailed;
A little old strait lay straight ahead,
And we sailed.
Oh, we met the Japs where they lay in wait,
And they hammered some and we found, too late,
No way to sail but to sail down straight,
And we sailed.

THE ANNUAL UNION FARMERS INSTITUTE EXCURSION

Of East Durham, East and West Peterborough Farmers' Institutes, will be run to the Agricultural College, Guelph, on Thursday, June 8th, 1905, via Canadian Pacific Railway; special train service. This trip is intended to give all an opportunity to see what is being done at the farmers' own farm and school. Many attractions have been added: The McDonald Institute, where domestic science is taught; the Massey building, poultry, plants and horticultural building, and many other things will be particularly attractive to our lady friends. The Guelph Horse Show will be going on from the 7th to 9th June, so that all lovers of the horse will have a chance to take in a first-class equine exhibition. Arrangements have been made for sale of horse show tickets at a specially reduced price to our excursionists on the train. For particulars of fares and time tables see large posters.

NAVIGATION

RICE LAKE AND THE OTONABEE WATERS

Calcutt's Line of Steamers

Time Table for June, July and August, 1905

Commencing Thursday, June 1st the

STR. CITY OF PETERBOROUGH

will run as follows:

MONDAYS, TUESDAYS, WEDNESDAYS and FRIDAYS to Jubilee, Gore's Landing, (Harwood on flag) and Idyl Wyld. On the above days the steamer will leave the Peterborough wharf at 9 a.m.; returning, will arrive in Peterborough at 8 p.m.

THURSDAY and SATURDAY AFTERNOONS the "City of Peterborough will leave the Peterborough wharf at 1.30 p.m. for Jubilee and Gore's Landing; returning will arrive in Peterborough at 9 p.m.

STR. WATER LILY

will leave Harwood every Saturday morning at 6.30 a.m., calling at Gore's Landing and Jubilee, and all points on the river; returning, will leave Peterborough at 3.45 p.m.

Parties desiring to spend Sunday at Idyl Wyld or intermediate points may leave town on afternoon boat on Saturday and return Monday at 9 a.m. Special arrangements will, however, have to be made in advance at Mr. Calcutt's office for return steamer.

FARE to Jubilee, Gore's Landing, Harwood and Idyl Wyld, 50c., good to return same day only. Children half fare. Books of Family Tickets $5.00 for points between Peterborough and Idyl Wyld.

Special arrangements made for Sunday School and other excursion parties on application.

H. CALCUTT,
Telephone 98. Peterborough.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1 00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least two thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crew Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

The Stubbs Investment Company
Albuquerque, New Mexico

AFTERMATH OF THE BATTLE

Three Russian Vessels Drift Ashore—Admiral Rojestvensky's Wound Serious

Nagasaki, June 3.—Fully 3,000 Russian naval prisoners have been landed.

Three damaged Russian vessels have drifted ashore off the coast of the Province of Nagato. These may be the cruisers Aurora, Oleg, and Jemtchug, hitherto the only vessels unaccounted for. Should this be so the cruiser Almaz will be the only one of twenty large Russian warships to escape being sunk or captured.

LITTLE HOPE FOR ROJY.

Nagasaki, June 3.—A report reaches here to the effect that little hope is entertained of the recovery of Admiral Rosstjvensky, who is now in an hospital at Sasebo.

A Tokio despatch says: "The serious wound of Admiral Rojestvensky, who was taken to Sasebo on a Japanese battleship, is a bruise on the forehead, and a slight fracture of the skull. The nature of his internal injuries is not known. The Admiral's temperature and pulse are normal, and there is no sign of brain trouble. He has other wounds, but they are not serious."

VOELKERSAM WAS KILLED.

Tokio, June 3.—Rear-Admiral Voelkersam, who was commander of the battleship squadron of the Russian fleet, was, it was announced to-day, killed the first day of the battle, May 27, in the conning tower of his flagship, the battleship Osilabya, one of the vessels sunk by the Japanese.

Rear-Admiral Voelkersam was appointed commander of the battleship squadron of the Russian fleet 7th July last, and left Cronstady, Aug. 25, with the other vessels commanded by Admiral Rojestvensky.

Of the four Russian admirals, one is dead and three are prisoners. Two of the latter, Admirals Enquist and Rojestvensky, are seriously wounded, while Nebogatoff is unharmed. The death of the fourth, Admiral Voelkersam, is reported in the above despatch.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

Before Treatment.

After Treatment.

☞ NO NAMES USED WITHOUT WRITTEN CONSENT.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." W. H. S.

We treat Nervous Debility, Impotency, Stricture, Vital Weakness, Blood and Skin diseases, Urinary, Bladder and Kidney complaints of men and women.

DRS. KENNEDY & KERGAN

Cor. Michigan Ave. and Shelby St., Detroit, Mich.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each

200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1,000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK-HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties.—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Morse, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Carr, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company is the Wilkins, Murphy, Iowa, Rock-Hill, Ben Burt, Columbus, Reindeer Annex, John Thompson, Frank, and Parrena, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the condition resembling that of coal formation; consequently, the direction and trend of the ore bodies are readily followed and determined, and by preliminary exploration, their courses have been found to underlie the surface ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $310,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1,000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent Stock at Twenty-Five (25c.) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profits. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,

25 Congress Street, Boston, Mass.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Fuller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 800 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three to four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over 50% per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $80 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $208.00.

With an average value of $60.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.00 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to climb and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 575,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

For further particulars apply to

W. F. MORPHY, President,

328 Board of Trade, Omaha, Neb.

PROGRESS IN THE SOUDAN

Under British Rule Country is Prospering

ITS WONDERFUL GROWTH

Vast Increase in the Government Revenues From all Sources

London, June 2. — The Chronicle says: They are getting along in Africa. Lord Cromner's annual report upon the Soudan is a record of progress almost equal to that which has been made in Egypt, in spite of the difficulties caused by the size of the country and the lack of means of communication. The distance from Wady Halfa to Kondokoro is about 1,200 miles as the crow flies, and from the borders of Darfur to the Abyssinian frontier is a distance of nearly 1,000 miles. The province of Kordofan alone, governed by some thirty English and Egyptian officials, covers an area greater than the whole of France, and yet the only present danger to travelers in any part of the country comes from wild beasts. The growth of revenue has exceeded all expectations. From £51,000 in the year that followed Omdurman it has risen to £576,000 for 1904 — exceeding all estimates. The deficit shrunk last year to £53,000. This result is all the more gratifying in view of the adopted policy of low taxation. Equally satisfactory is the increase of child population and the gradual disappearance of the slave trade. Applications for loans with which to buy cattle or to construct waterwheels are frequent; and last year the area of land under cultivation increased by 102,378 acres, of ginning to produce some effect, and in some localities the inhabitants have expressed their willingness to pay a school rate. A local police force is in process of organisation. Lord Cromner urgently calls for a large expenditure for irrigation, which, he holds, will work miracles in the Soudan, and prove of great ultimate benefit to Egypt also.

CZAR WANTED TO AVOID WAR

But He Would not Discuss the Evacuation of Manchuria With Anyone

St. Petersburg, June 2.—It is learned that Admiral Abasa, president of eastern affairs, in January, 1904, telegraphed to Alexieff, then viceroy in the far east, an epitome of the Emperor's views as expressed to Admiral Abasa in numerous audiences. The Emperor considered that every year of peace gained, was of enormous importance to Russia, and therefore, though not yielding on essential points, Alexieff should do his utmost to avoid war, and that he should be firm but courteous, while not stickling for unimportant details. There could however, the Emperor said, be no discussion with Japan or any other power about Manchuria. Russia would not regard Japanese occupation of Korea as a casus belli. On the contrary, such occupation, would be advantageous to Russia, because it would convict Japan of the violation of all international law.

JAPS READY FOR WAR.

In connection with Admiral Alexieff's audience of the Emperor Wednesday, an interesting correspondence is published, showing how Alexieff, beginning in January, 1904, warned his Majesty that the Japanese were preparing to occupy Korea, that they had a whole fleet and army ready constituting a grave danger for Russia. He warned his Majesty that the Japanese would thereby ruin all Russia's plans and force her to centralize any eventual operations northward of the Yalu River, and leave Port Arthur to its fate.

Alexieff also pointed out that a Japanese occupation of Korea, even with small numbers of troops, would place Russia in a bad strategic position, and he therefore urged mobilization in the far Eastern districts and other warlike preparations, including the occupation of the mouths of the Yalu, as being absolutely imperative.

ONLY A LAST RESORT.

The Emperor telegraphed authorizing these general preparations for war, with the exception of the occupation of the mouths of the Yalu, which his Majesty considered as being undesirable except as a last resort.

In the middle of January Alexieff. In the middle of January Alexieff again warned the Emperor that owing to Japan's provocative attitude the negotiations would probably end in rupture.

G. T. R. MACHINISTS STRIKE

Eighteen Workmen Have Returned to Their Places

Montreal, June 2. — The strike among the machinists on the G. T. R. did not amount to much. Very few men went out at the inception of the trouble and those were almost exclusively confined to Montreal and Toronto. Mr. W. D. Robb, the company's superintendent of motive power, is now in the West conferring with the men, and the first result of his efforts is seen in the fact that 18 of the strikers at Fort Gratiot have returned to their places. Mr. Robb will not return to the city until early next week.

At a joint meeting of the Machinists Union and the Amalgamated Engineers held in Stratford, a resolution was unanimously passed to be forwarded to the Grand Trunk Railway Company, which it was hoped would be acceptable. What the resolution contained is not known.

MIDLAND'S NEW ELEVATOR

Grand Trunk Let Contract for Million Dollar Structure

Montreal, May 31.—The G. T. R. have let a contract to the E. R. Baker Company of Chicago and Midland for the erection at Midland of a grain elevator to have a capacity of a million bushels. It is to be built in time for this year's western crop.

May Be a Postponement

Ottawa, June 2.—The possibility is now being discussed of the postponement of the celebrations at Regina and Edmonton in honor of the creation of the new provinces, in view of the uncertainty as to whether the bills now before the House will come into force sufficiently early for the celebrations to take place on July 1.

WE HAVE STRUCK IT!

A Little of the Stock Still Offered at the Old Price

We take pleasure in recording a development at our property which has materially increased its intrinsic value and enhanced the holdings of every stockholder in our Company. We have known all the time that we were in the great tungsten belt of Boulder County, the belt which has surprised the mining world lately by the showing it is making in the production of this metal. WE DID NOT KNOW THAT WE HAVE MANY TONS OF MOLYBDENITE ALREADY OPENED IN OUR MINE. We have just made this discovery, and while it is early yet to estimate exactly, we can say positively, that our strike is of much consequence as it means a material increase in our revenue. In addition to the precious metal values in our ores, we have molybdenum, which, it should be stated, IS WORTH MORE THAN GOLD. This is certainly a most important development, as you will admit, and as we have decided not to advance our stock just yet, you will certainly want to avail yourself of the opportunity to secure a block while you can. The future of our property is now assured beyond the question of a doubt. DO NOT FORGET WE HAVE BESIDES, THOUSANDS OF TONS OF GOLD ORE READY FOR SHIPMENT. We have miles of veins, and hundred of acres of ground, enabling us to sustain our production for an indefinite period.

No bonds. No preferred stock. No debts. Money in the treasury. Par value of stock $1 per share. Stock full paid and absolutely non-assessable For a limited period we can offer treasury stock for the purpose of raising funds for larger equipment, to facilitate the shipment of our ore early in the spring. You certainly want some of this stock while it is yet purchasable at the present low price It is very certain that our treasury stock will be entirely withdrawn in the early future. If you are wise you will act at once. Do not forget, we have molybdenite as well as thousands of tons of gold ore. Where can you equal such an ideal proposition?

Full particulars cheerfully furnished upon application we have nothing to hide. Kindly ask us for full information.

FREE . . . .

Before Treatment.

After Treatment.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 3 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." — W. H. S.

We treat Nervous Debility, Varicocele, Stricture, Vital Weakness, Blood and Skin diseases, Urinary, Bladder and Kidney complaints of men and women.

DRS. KENNEDY & KERGAN.

Cor. Michigan Ave. and Shelby St., Detroit, Mich.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each

200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1,000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK-HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties.—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Morse, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Carr, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company is the Wilcox, Murphy, Dome, Rock-Hill, Ben Bark, Columbia, Reindeer-Annex, John Thompson, Frank, and Pamona, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the condition resembling that of coal formation; consequently, the direction and trend of the ore bodies are readily followed and determined, and by preliminary exploration, their courses have been found to underlie the surface ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $250,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1,000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent Stock at Twenty-Five (25c.) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profits. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,

25 Congress Street, Boston, Mass.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 600 feet in length with a depth of 800 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $80 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teams ore the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $288.00.

With an average value of $60.00 and transportation and treatment expenses of $13.00 a ton, the net value of our ore has been $37.00 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 575,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

For further particulars apply to

W. F. MORPHY, President,

220 Board of Trade, Omaha, Neb.

PROGRESS IN THE SOUDAN

Under British Rule Country is Prospering

ITS WONDERFUL GROWTH

Vast Increase in the Government Revenues From all Sources

London, June 2. — The Chronicle says: They are getting along in Africa. Lord Cromer's annual report upon the Soudan is a record of progress almost equal to that which has been made in Egypt, in spite of the difficulties caused by the size of the country and the lack of means of communication. The distance from Wady Halfa to Kondokoro is about 1,200 miles as the crow flies, and from the borders of Darfur to the Abyssinian frontier is a distance of nearly 1,000 miles. The province of Kordofan alone, governed by some thirty English and Egyptian officials, covers an area greater than the whole of France, and yet the only present danger to travelers in any part of the country comes from wild beasts. The growth of revenue has exceeded all expectations. From £51,000 in the year that followed Omdurman it has risen to £576,000 for 1904 — exceeding all estimates. The deficit shrunk last year to £53,000. This result is all the more gratifying in view of the adopted policy of low taxation. Equally satisfactory is the increase of child population and the gradual disappearance of the slave trade. Applications for loans with which to buy cattle or to construct waterwheels are frequent; and last year the area of land under cultivation increased by 102,378 acres, of ginning to produce some effect; and in some localities the inhabitants have expressed their willingness to pay a school rate. A local police force is in process of organization. Lord Cromer urgently calls for a large expenditure for irrigation, which, he holds, will work miracles in the Soudan, and prove of great ultimate benefit to Egypt also.

CZAR WANTED TO AVOID WAR

But He Would not Discuss the Evacuation of Manchuria With Anyone

St. Petersburg, June 2.—It is learned that Admiral Abasa, president of eastern affairs, in January, 1904, telegraphed to Alexieff, then viceroy in the far east, an epitome of the Emperor's views as expressed to Admiral Abasa in numerous audiences. The Emperor considered that every year of peace gained, was of enormous importance to Russia, and therefore, though not yielding on essential points, Alexieff should do his utmost to avoid war, and that he should be firm but courteous, while not sticking for unimportant details. There could however, the Emperor said, be no discussion with Japan or any other power about Manchuria. Russia would not regard Japanese occupation of Korea as a casus belli. On the contrary, such occupation, would be advantageous to Russia, because it would convict Japan of the violation of all international law.

JAPS READY FOR WAR.

In connection with Admiral Alexieff's audience of the Emperor Wednesday, an interesting correspondence is published, showing how Alexieff, beginning in January, 1904, warned his Majesty that the Japanese were preparing to occupy Korea, that they had a whole fleet and army ready constituting a grave danger for Russia. He warned his Majesty that the Japanese would thereby ruin all Russia's plans and force her to centralize any eventual operations northward of the Yalu River, and leave Port Arthur to its fate.

Alexieff also pointed out that a Japanese occupation of Korea, even with small numbers of troops, would place Russia in a bad strategic position, and he therefore urged mobilization in the far Eastern districts and other warlike preparations, including the occupation of the mouths of the Yalu, as being absolutely imperative.

ONLY A LAST RESORT.

The Emperor telegraphed authorizing these general preparations for war, with the exception of the occupation of the mouths of the Yalu, which his Majesty considered as being undesirable except as a last resort.

In the middle of January Alexieff again warned the Emperor that owing to Japan's provocative attitude the negotiations would probably end in rupture.

Not Only Relief, but Lasting Cure

Is What You Get From Catarrhosone Which Eradicates Every Trace o Catarrh From the System.

Relief is a good thing, but we soon get tired of it and look for a remedy that will drive the seeds of Catarrh right out of the system. It is only a waste of time to trifle with internal dosing. You must treat Catarrh locally because it is a local disease.

The most sensible treatment is Catarrhosone which really does reach the diseased membranes in a most thorough way. Every case of catarrh can be cured if Catarrhosone is used. It unquestionably penetrates every air cell and air passage of the breathing organs. It completely destroys the catarrh germs and heals all the inflamed surfaces.

Every requirement of an ideal catarrh cure is embraced in Catarrhosone. Other treatments may have failed to even bring relief, but one trial is sufficient to prove merit in Catarrhosone not found in the ordinary snuff or wash that unscrupulous people sometimes recommend for catarrh.

If you are subject to colds, catarrh or throat trouble you will find quick relief and lasting cure in fragrant, healing Catarrhosone. Mrs B. F. Fairbanks, of Durham, was cured of chronic catarrh by this remedy and endorses it in the following letter, which speaks for itself;

"I suffered continually from catarrh which affected my throat. My nostrils were usually inflammed and I was greatly bothered with droppings in the throat which made me sick at my stomach. I had a bad taste in my mouth, and felt a ringing in my ears. I read of Catarrhosone and commenced to use it. In a few days it helped me more than I ever expected. I used it four times daily and in two weeks most of the disagreeable symptoms disappeared. I continued the Catarrhosone treatment for six weeks and was perfectly cured. This catarrh has never returned."

Every complete outfit of Catarrhosone sufficient for two months' use is guaranteed to permanently cure; trial size 25c. Sold by druggists or by mail from N. C. Polson & Co. Hartford, Conn., U.S.A., or Kingston, Ont.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Desirable House to Rent

110 Dickson street, apply to Mrs. Walsh, 84 Murray street.

To Let.

The house at present occupied by the undersigned, corner Barnardo and Bennett streets. 2wd

GEO. BROWN,

Cavanville Church Anniversary.

The anniversary services of Cavanville Methodist church will be held on Sunday, June 18th and the 19th. On Sunday Rev. Dr. Crothers, of Peterborough, will preach morning and evening, and on Monday, the annual garden party and entertainment will be held on the church grounds. This annual event will be, this year, tinged with regret, because it is the parting gathering for Rev. Mr. Mountaner, the very popular pastor, who leaves on July 1st.

Farmers' Institute

It is anticipated that there will be a large attendance on Saturday, June 17th, in the council chamber, when the West Peterborough Farmers' Institute will elect officers and transact business, as per the following program; President's report, discussion thereon; report of the Executive Committee and financial statement by secretary-treasurer; auditors' report; suggestions of points at which to hold regular and supplementary meetings; election of directors and of auditors; suggestions as to how the institute can be improved or made useful.

COUNTY MAPS

Only a few copies left of the new map of the County of Peterborough: Price $2.50 each. Secure one before they are all sold For sale at the Times Bookstore.

Peterboro' Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. Harry Bletcher, principal of the Winnipeg College of Pharmacy, is in town.

—Omemee Mirror says; Mrs. C. F. Bent spent Saturday with Peterborough friends.

—Mr. Joseph Harrison, Gain, of Victoria University, Toronto, is visiting friends in town.

—Miss Loucks of Marmora, is the guest of her sister, Mrs. Meredith, 616 Aylmer street.

—Mrs. Rubidge, of town, has been visiting her sister, Mrs. Drayton at Gore's Landing.

—Miss Sarah Hawken, of town, is visiting her sister, Miss John Hawken at Gore's Landing.

—Mr. and Mrs. R. Graham, Lakefield, celebrated yesterday the 50th anniversary of their wedding.

—Mrs. J. R. Stratton yesterday attended the Golden wedding of Mr. and Mrs. R. Graham, in Lakefield.

—Mr. D. O'Connell, barrister, has gone upon a short trip to California. Mr. G. N. Gordon, of Osgoode Hall, is in the meantime in charge of his office.

—Mr. Dickson Hall, of Richard Hall & Son, returned yesterday from the city, where he has been selecting some special lines for the summer trade.

—Omemee Mirror says; Mr. J. Richardson made a large shipment of cattle, sheep and hogs to Peterborough on Tuesday. One fellow in the above town thought it was the big circus getting there ahead of time, and that the gentleman in charge was the "Manager of the Menagerie."

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrographic Work. Studio 134 Brock Street, Peterborough.

—A flower service will be held at Trinity church, Millbrook, on Sunday, June 4th, at 7.30 p.m., and on the Tuesday following a tea will be given on the church grounds, followed by a musical program, for which in addition to local talent, the services of Mr. Halpany, of Peterborough, have been secured.

—Mr. T. E. Wade, the well known local contractor, yesterday received a telegram from E. A. Evans, of Quebec. It is said that Mr. Wade had been recommended to the writer, and informed him that he was wanted to superintend the construction of a concrete dam, 35 feet high. Mr. Wade will leave at once for Quebec.

Local Incidents

BY THE THIRD MAN ON THE STREET.

—4,500 people were carried by the street railway on circus day.

—A meeting of the Supervision Committee will be held to-night at 7.30.

—Board of Education met last night. For particulars see front page.

—The June session of the county council will begin on Tuesday, June 20th.

—An Ontario township is to be named "Carnegie," after Mr. J. H. Carnegie, M.L.A., for East Victoria.

—The evangelistic services conducted in St. Andrew's church by Evangelist Russell, terminated last night.

—The congregation of Christ church Bailieboro, Will hold their annual excursion on Rice Lake on Thursday, June 8th.

—Is the high price of labor and materials responsible for the dilly-dally lack of system in completing the Post Office additions?

—The sum of $250 has been passed by the Dominion Government for building a wharf at Burleigh Falls; $1,200 for dredging the Otonabee at Peterborough.

—Mr. W. J. Lloyd, an employee of the C.G.E., had his left hand painfully burned by an electric flash on Thursday. He will not be able to work for a couple of weeks.

—Night working scavengers should be compelled to carry bells on their horses at night. Another deposit of objectionable matter has been dumped on Water street near Goose Island.

—The first band concert of the season was held last night in Victoria Park. A large number of pleased citizens turned out to listen, and incidentally discuss their neighbors.

—At a special meeting of the Millbrook council this week it was decided to have the streets watered, the price to be paid by the council for the services to be not more than $10 a week.

—The annual meeting of the East Durham Farmers' Institute will be held in the town hall, Millbrook, on June 6th, 1905. Mr. Nash, of Toronto, will give an interesting address at both sessions, 2 and 7.30 p.m.

FIVE LITTLE MINUTES are all the time Perry Davis' Painkiller needs to stop a stomach-ache, even when it is sharp enough to make a strong man groan. Don't be fooled by imitations 25c. and 50c.

—Next Sunday afternoon pastor Stenemagel and a band of workers will begin the summer series of Gospel services at Inverlea Park. The meetings will begin promptly at 3.30. The public generally is cordially invited.

—Mr. J. M. Brooks, proprietor of the Palace Restaurant, yesterday sold his splendid trotting stallion, Gentry, who has a mark of 2.21 1-4, to Mr. W. Robinson, the well-known horseman of Gonderham, Ont. The consideration paid was a big one.

—A communication from Birdsall's says; The steamer Rainbow was successfully launched last Thursday after being greatly improved. Last year's crew will again be in charge and we understand she will make the usual Saturday trips to Peterborough.

—The Norwood Register says; Mr. James Cumming has returned from a business trip through Western Ontario in the interests of the Peterborough Cement Roofing Company. Mr. Cumming has completed his tour for the present and for the next few weeks will give his attention to the wool trade.

—Many people who claim to have bought tickets for the circus in the afternoon, intending to attend at night, state that the man from whom they bought their tickets was not "at home" to guests. They might have put their money to some more philanthropic use.

—Omemee Mirror says; Mr. J. Richardson made a large shipment of cattle, sheep and hogs to Peterborough on Tuesday. One fellow in the above town thought it was the big circus getting there ahead of time, and that the gentleman in charge was the "Manager of the Menagerie."

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrographic Work. Studio 134 Brock Street, Peterborough.

—A flower service will be held at Trinity church, Millbrook, on Sunday, June 4th, at 7.30 p.m., and on the Tuesday following a tea will be given on the church grounds, followed by a musical program, for which in addition to local talent, the services of Mr. Halpany, of Peterborough, have been secured.

—Mr. T. E. Wade, the well known local contractor, yesterday received a telegram from E. A. Evans, of Quebec. It is said that Mr. Wade had been recommended to the writer, and informed him that he was wanted to superintend the construction of a concrete dam, 35 feet high. Mr. Wade will leave at once for Quebec.

Popular Steamers.

The Calcutt Liners, City of Peterborough and Water Lily, Kept Busy.

That the Calcutt line of steamers is not only keeping up their past record for safety and good management, but are rapidly growing in popular favor is demonstrated by the many engagements already made, and in process of completition, for their services.

The City of Peterborough is, undoubtedly, our most commodious and fastest local boat, and its success during the present season is already assured.

The record of this line of steamers for many years has been an enviable one; during the lifetime of a generation the Calcutt steamers have carried countless thousands of passengers from Peterborough wharf, to points along the river and Rice Lake, not only without causing no considerable complaints, but singularly free from accidents to life or limb of their patrons.

A passenger on one of the Calcutt line boats is safer than walking the streets, and their treatment of those patronising the steamers is well worthy of emulation by other lines of similar craft. This season The Calcutt line has already concluded arrangements for the following excursions, per steamers City of Peterborough, Water Lily and palace scows;

June 8th—Plainville baseball team from Bewdley and Gore's Landing per Steamer Water Lily and palace barge to Peterborough. These boys expect to capture the scalps of the local ball team.

June 12.—South Monaghan Sunday school by City of Peterborough to Lakefield.

June 16.—The M.D.'s and their guests to Rice Lake, by City of Peterborough, at 1.30 in afternoon.

June 20.—Centerton and Fenella S.S., per City of Peterborough; objective point not yet decided.

June 21.—Moonlight excursion under auspices of C.D.A. by City of Peterborough.

July 1, Dominion Day — T.A.S. by City of Peterborough. Water Lily and palace barge to Jubilee Point.

July 3—Excursion of Lakefield Methodist S.S. to Sandy Point, Clear Lake, by City of Peterborough.

July 8—Bewdley and Gore's Landing—Cobourg base ball team, to Peterborough by Water Lily and barge.

"Never once bitten" is the report from the Cape by a user.

Sabbath Observance in Campbellford.

The ministers of the Anglican, Presbyterian, Baptist and Methodist churches in Campbellford are contemplating entering into an agreement to conduct no funeral services on Sunday. This is a step in the right direction, says the Herald, and it might be extended to society parades headed by the band. These parades as a rule, demoralize the Sunday schools of the town and serve more as an advertisement for societies than as a real benefit to the people or even the fraternity concerned.

Police Court

OFFICIALS
Chief of Police. G.I. Reed
Magistrate, D.W. Dumble

Seeing that Thursday was a circus day, with hundreds of visitors from the country and nearby towns here, it is a remark significant proof of our town's morality and good management, that yesterday's police docket was comparatively light.

The first case to occupy his worship was that of a Weary Willie, whose surname belies his chosen vocation, Mr. Vincent Sturdy.

Sturdy was captured at the C.P.R. depot by a C.P.R. detective, in the act of not only having ridden from the direction of the rising sun, without having purchased a ticket, but trying to proceed towards the setting thereof regardless of either free pass or a document to prove to the conductor that the railway had been enriched by his fare.

The prisoner was handed over to our local police who promptly locked him up. His Worship, fearing perhaps that Sturdy might be injured whilst dodging brakies and conductors, or take cold, these June nights, riding on the blind baggage, gave him an order on Castle Nesbitt, good for six long weary months.

The two boys charged with having stolen Mr. Hogan's horse and buggy, from in front of St. Peter's Cathedral, were on trial. One of them who seem ed to have not been responsible for the theft, but who admitted having drank the milk, stowed away under the seat, as a light refreshment to be taken by the owner's relatives after the service was over, was discharged with a warning. Harold Fowler, the boy charged with responsibility of taking the horse and buggy, was remanded until this morning.

J. Hagerman, charged with stealing Mr. Hogan's whip, from the aforesaid buggy was also held over until to-day.

Pacific Coast Excursion.

During June, July, August and September the Chicago and North Western Railway will sell from Chicago, round trip excursion tickets to San Francisco, Portland, Ore, (Lewis Clarke Exposition), Seattle, Victoria and Vancouver at very low rates. Corresponding cheap rates from all points in Canada. Choice of routes, best of train service, favorable stop-overs and liberal return limits. Rates, folders and full information can be obtained from B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

—Wm. Detcher has purchased the Dredge lot and intends erecting a terrace of four houses on Victoria avenue and a terrace of four houses facing on George street. This is a desirable situation and will be appreciated by those who are looking for moderate priced houses to rent at the north end.

"I sleep well enough at night,
And the blamedest appetite
Ever mortal man possessed."

Riley's farmer is the very picture of a man advanced in years, yet in the enjoyment of perfect health. A good appetite, good digestion and sound sleep, are the chief factors in a vigorous old age.

Life is sustained by food, when it is properly digested and assimilated. When digestion fails, there is a loss of nutrition which soon shows itself in physical weakness, nervousness, sleeplessness, etc.

Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It strengthens the body in the only way possible,—by enabling the assimilation of the nutrition extracted from food.

[illegible] used ten bottles of Dr. Pierce's Golden Medical Discovery and several v[illegible] 'Pleasant Pellets' a year ago this spring, and have had no trouble with kidney disease, writes Mr. [illegible] Thompson, of Bowmanville, Ont. "I thought my health was gone for the winter, as I had suffered so much with a pain across the small of my back, it seemed that the pain in the back would never leave me. I was unable to work, and was not able to walk to eat, [illegible] scarcely ate and was do a day's work on the farm. I have recommended your medicine to several, and think it is the best I ever used to say for Dr. Pierce and his medicines."

The Common Sense Medical Adviser, 1008 pages, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

"We Had Grape-Nuts for breakfast and never before did I know what a charming flavor a breakfast food can have."

The concentration of nourishment and a certain health-maker

Get the little book, "The Road to Wellville" in each pkg.

MONTREAL HOUSEWIFE CAN NOW PERFORM HER USUAL DUTIES—THANKS TO PE-RU-NA.

Josephine Lupien, Hotel Dieu, Montreal, Can., writes:

"Four months ago I commenced to take your Peruna. I can tell you with entire truth that I do four times as much work this spring as I did before. I have done washing and house-cleaning without becoming much fatigued. I have received great benefit through your medicine and recommend it to every one.

"I have not had a cold or bronchitis this winter. The constipation has entirely disappeared, also the rheumatic pains."

One such case as that of Josephine Lupien ought to be all the evidence any one needs to be convinced of the priceless benefit of Peruna.

This lady was changed from an invalid into a busy housewife. She asserts that through Peruna she is able to do four times as much work as before, that she does not take colds any more, and that the rheumatic pains and constipation which had troubled her have disappeared.

Any medicine that brings about these changes needs no further recommend.

THE
Montgomery Mountain Mining Company
BULLFROG

promises to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD or BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining.
This Company is a legitimate Mining enterprise, managed by honest, capable mining men.
The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are
President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange
Vice-President, Hon. JOHN SPARKS, Governor of Nevada.
Directors: D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys at-Law, Goldfield, Nevada.

The Company refers by permission to
McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank, Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share, if orders for same are received at once. You may telegraph your order to us at our expense and follow same with certified check or Bank draft for the amount of subscription

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 131 PETERBOROUGH ONTARIO, MONDAY JUNE 5 1905. PRICE TWO CENTS

Nebogatof's Surrender Styled Contemptible.

Had Lots of Ammunition and Ship Little Damaged--Crews Were Drawn Up in Parade Order on the Decks and Sailors Waved White Flags.

St. Petersburg, June 5. — Private letters from Manchuria to friends here state that recently General Linevitch had 25 officers and 300 men executed for mutiny. The Government suspects the temper of the troops in Manchuria.

In the recent execution the officers were shot and the men hanged. Proclamations and revolutionary literature found in the possession of the men were proved to have been distributed by the officers.

Recently at Riga large numbers of bombs and revolvers were seized and a number of revolutionists were captured.

The general distrust grows.

MUTINY ON SECOND SQUADRON.

London, June 5.—A St. Petersburg despatch to The Times from its correspondent there says:

"Details communicated to me from a trustworthy source leave little room for doubt that Admiral Nebogatoff's sailors mutinied during the battle in the Japan Sea, and either threw the Admiral and many officers overboard or, according to another version, bound them in their cabins and hoisted the white flag.

"I am assured that eight men in Nebogatoff's squadron were hanged for mutiny while still in the Red Sea, while people well versed in affairs at the front, declare that something similar is likely to happen in Manchuria, when the armies learn the truth in regard to the naval disaster.

They will doubtless learn the truth as usual from the Japanese.

RUSSIA DOUBTS ITS SAILORS.

St. Petersburg, June 5. — Ugly stories are circulating in this city of the demoralization and even treachery of the crews of several of the Russian ships during the battle, and it is even said that the crew of the battleship Orel bound their officers and hoisted the white flag.

The origin of these stories which are discredited by all naval men here cannot be traced, as only indirect information comes from Japan, but they are doubtless based on the trouble among the crew of the Orel before she departed for the Far East. She was sunk at her dock before she left Cronstadt and later at Libau the crew were mutinous.

Indignation against Rear-Admiral Nebogatoff is growing. The epithets "coward" and "traitor" are coupled with his name, especially since the receipt of the Tokio despatches showing that his surrender was not in the heat of battle, but with the land close under his lee, to which his crews could have escaped after the destruction of the ships.

Conservative Russians are alarmed at the possibility of disorders in various parts of Russia on the news of the disaster and a feeling of disquietude for the future is manifested everywhere.

SUBMARINES GAVE TOGO THE VICTORY

French Experts Claim it Proves Use of the New Arm

WEATHER CONDITIONS GOOD

Admiral Fournier Says Togo Will Live in History as First User of Submarines

Paris, June 5.—"Until otherwise officially assured, our opinion will be that the destruction of the Russian fleet was due to submarines," said Admiral Fournier this morning, speaking in the name of the leading spirits of the French navy.

"The battle in the Sea of Papan," he continued, "was no struggle between squadrons capable of easily manoeuvering and inflicting mutual damage on each other. It was simply a powerful attack on the Russian fleet by a swarm of torpedo boats and submarines. No other explanation exists of the wholesale smash up of such powerful vessels. Projectiles can disable and disarm steel battleships, but can hardly sink them, moreover the spot was admirably suited for the use of the smaller craft. Togo is too astute not to have seen this immediately. The Russian's only hope lay in a strong wind, which might have prevented the approach of the torpedo fleet, at the same time making impossible the manipulation of submarines and sweeping away the fog.

"This hope was not realised and the Russian vessels became the prey of the Japanese."

Togo's greatest claim to fame, according to Admiral Fournier, will be the fact that he was the first naval leader in the world to demonstrate beyond a doubt the tremendous efficiency of submarines.

TWO JAPANESE VISITORS

Two Merchants From Tokio Now at Montreal

Montreal, June 5.—Two Japanese from Tokyo—Mr. K. Kosu, a merchant, and his interpretar, Mr. W. Iijima—arrived at the Windsor hotel this afternoon. They have just completed a tour through the United States, having landed at Seattle. Interested in the butter and cheese trade, which has latterly grown to some considerable proportions in Japan, they intend to take back with them between forty and fifty Jersey and Ayrshire cows, which will be the first batch of cattle ever exported from Canada to Japan for commercial purposes. Formerly, Mr. Kosu said, the Japanese obtained their cattle from England and Switzerland, but on the outbreak of the war they were forced to look to the United States.

Mr. Kosu is of the opinion that the Japanese will prosecute the war until they have driven the Russians not alone out of Manchuria and Corea, but until they have cleared every Pisific port of the Czar. The Japanese, he maintains, look upon this consummation as absolutely essential to the continued existence and prosperity of their island kingdome. They are willing that both Port Arthur and Vladivostok should be free ports, but they are determined that neither these nor any other Pacific ports shall be capable of fortification by the Czar.

NATURAL GAS, FORTY CENTS

The Town of St. Catharines, Ont., is Now Using It

St. Catharines, June 5.—St. Catharines is using its first natural gas, the work of piping the city being completed. Most of the streets have been piped, and there is a rush of applicants for the service.

Artificial gas here is a dollar and a half a thousand, but the natural gas is sold at forty cents, with ten per cent. discount for prompt payment.

CHINESE YOUTH HAS LEPROSY

Has Lived in Filthy Condition for Several Years

Vancouver, B. C., June 5. — Last week a Chinaman came to Vancouver from Yale. Today the youth, who is but twenty-one, will be taken to Darcy Island to end his days. He has lived in a shack for several years in filth and eating fish, almost entirely. The health officer, Dr. Underhill, made a microscopic examination of the humor from the pustules on his body and found them filled with the bacilli of the dread disease, leprosy.

BOER WAR SCANDAL

Officers Said to Have Been in Collusion With Contractors

London, June 5.—According to the Daily Mirror the report of a War Office committee on the improper disposal of naval stores at the conclusion of the South African war, reveals a huge scandal. The report, the paper says, censures a number of officers, whose names are given, and who are alleged to have worked in collusion with contractors. The latter bought stores at absurdly low prices and afterwards resold them to the military authorities at enormous profits, entailing a loss to the Government of $5,000,000.

SULTAN REFUSES DEMANDS

Morocco is Defying France and Informs Powers

Tangier, Morocco, June 5. — The Sultan has definitely informed St. Rene Taillandier, the French Minister, that he is unable to accept the French proposals for the reform of the administration of Morocco. His decision will be communicated to the representatives of the powers here in an official note from Mohammed El Torres, Minister of Foreign Affairs, together with an intimation that the Sultan desires that any reform introduced shall have the consent of the powers.

The Foreign Minister will ask for the views of each of the powers with the object of holding a conference on the subject.

JAPAN TAKES FIRM STAND

Russia Must Take First Step in Peace Negotiations

London, June 5.—"Russia must give up all idea of Japanese inferiority before peace will be possible," said Baron Suyematsu, the Mikado's confidential financial agent here to a press correspondent.

"While our opponents cling to any vestige of the notion that yellow is the badge of racial dishonor compared to white, we cannot expect the Czar to consent to terms of peace which Japan can accept. Justice will be done us through the world. The parade is going on in Europe and America. I can tell Russia it will help the Czar's cause no more than did the mythical army in Manchuria, or the far spread fleet of Rojestvensky. There may be those who wish to rally against us in this cry, but happily there are other and more powerful, who will have none of it. Japan is ready to make peace on the merits of the situation the moment Russia shall abandon its aloofness and propose negotiations. In the absence of such action on Russia's part the war will be prosecuted."

Fraternal Condolences

Nassau Orange Lodge Tenders Sympathy to Brothers in

The following resolution of condolence to Brother William King, was passed by Nassau Orange Lodge.

Dear Brother; We the officers and members of Nassau, L.O.L., No. 457, desire to express our heartfelt sympathy in the sad loss you have sustained by the death of your beloved sister. God in His infinite wisdom has called your loving sister from the troubles of earth to Himself, and though we are sometimes apt to murmur when He afflicts, we should not forget that the Lord reigneth and He doeth all things well. May the memory of this dear sister, who is gone before call our thoughts from earth to heaven and help us to prepare for the great change that awaits us.

JOHN ARMSTRONG,
ANDREW R. ROBSON.

The following resolution of condolence to Brother Robert Campbell, was also passed by Nassau Orange Lodge;

Dear Brother — Whereas it has pleased Almighty God in His infinite wisdom to remove from your family circle, your beloved son, be it therefore resolved that the officers and members of Nassau L.O.L. No. 457, place on record their sympathy with you in your hour of affliction. May we, dear brother, be enabled so to love that when we are called to obey the summons of the Grand Master of Heaven, we shall with joy go from our labor on earth to enjoy the eternal Paradise prepared for us above.

JOHN ARMSTRONG,
ANDREW R. ROBSON.

KAISER WILLIAM MASTER OF EUROPE

Only Sovereign Desirous of Continuing the War

WAR PARTY IS UNDAUNTED

Think Continuing the War is Cheaper Than Paying Japan An Indemnity —No Fleet for Baltic

St. Petersburg, June 5. — Fearing that the immediate election of a national assembly will result in the return of a radical majority, the Czar's counsellors are postponing the publication of the Imperial decree until the excitement is over.

The war party has not weakened. It argues that the worst has happened, and that as there is nothing more to lose, resistance to the end will exhaust the Japanese and will be cheaper than paying an indemnity. It does not believe that Japan will send a fleet to the Baltic, and assert that the climate of the Siberian desert will prove an effectual check to the further advance of Oyama.

Foreign mediation is the hope of the peace party.

Prince Obolensky said to your correspondent today: "French investors cannot afford Russia's further exhaustion. America and England do not want Japan's further increase. Germany alone is gaining by the war. The strikes have obliged Russia to buy everything from Germany on the worst terms.

"The Kaiser has also profited by our misfortunes to acquire a species of suzerainty in Turkey. He will soon absorb Austria and is even trying to win over Japan from England. On the very day the Russian fleet was destroyed by the Japanese, William decorated Prince Arisugawa, Japan's deputy to the Imperial wedding in Berlin.

"The Kaiser is against mediation. He wants the war to continue because the Baltic fleet being gone and the Polish frontier undefended, Russia is at the mercy of Germany. The Kaiser is Europe's master without the shadow of a douht. England, France and America are likely to urge the Czar to conclude peace."

It has now been ascertained that the docks at Vladivostok would have been incapable of offering a refuge to all the Russian fleet had Togo spared it.

Boys Played Dangerous Game

Brockville, June 5.—Robert Baird a thirteen-year-old lad of Hopetown, was found dead in his mother's barn, hanging by the neck. He had been practising a game where the rope was put around the player's head and and the player hanging longest without becoming dizzy was declared the winner. The game had become very popular with the boys at school but it will probably prove not so fascinating now. Baird was quite dead when his mother made the gruesome discovery.

Japan Preserves Her Equanimity

Still Generous to the Captured Russian Sailors

Tokio, June 5.—English journals in Japan comment on the remarkable self-control of this people.

There was more excitement over Dewey's victory, and there often is more excitement over a baseball match in America than there is in Japan over Togo's remarkable achievements. The Japanese are earnest in their expressions of gratitude to the illustrious virtues of the Emperor to the influence of which, with occult justice, they ascribe the happy result of the battle on the Sea of Japan.

At the same time they are profoundly grateful to their gallant navy. This sense of relief and gratitude, however, shows no signs of merging into intoxication.

The Emperor's command that consistent generosity be shown the vanquished and his immediate granting of indulgence to Admiral Nebogatoff and his surrendered officers has reassured the Russian prisoners.

By its considerate treatment of its foes Japan is giving the world a very material proof of its progress and the lesson will not be lost. If Japan is winning epoch-making victories by means of arms, it is also conquering the world's prejudices by its moderation and magnanimity. It is hard to say which is the greater success.

Leading Japanese papers affirm that if the Russian mood is really pacific, peace is now within measurable distance; but that if it should prove too obstinate to accept the situation, Russia, not only in Asia, but also in Europe, will be virtually obliterated from the political firmament.

Japan is greatly pleased with the cordiality of the reception accorded Prince Arisugawa in Germany. It is hoped that the most pleasant relations may spring up between the two countries.

Followed by Fate.

Steamer King Edward Meets Slight Mishap and Ran on the Rocks

The steamer Sovereign, put on these waters last season, it will be remembered had the misfortune to sink last fall. This year she changed ownership and name, being now called the King Edward. By a strange coincidence, this fine steamer, lately improved, on Friday night met with another mishap and ran aground in the new channel near Jubilee Point. Not only did she run aground but she struck aground all night. Her load was a party of local gentlemen who had been to Healey's Falls, viz., Messrs. R. R. Hall, M.P., K. Kardley-Wilmot, J. D. Collins, W. G. Meldrum, J. H. McClellan and Mr. Arnold, of Ottawa.

Saturday morning the steamer Water Lily came to the assistance of the King Edward and soon succeeded in releasing her, none the worse for her mishap.

Donna Bell Gone.

Dec. Johnston Has Taken His Speedy Mare to New Hamburg

Every horseman in town knows Donna Belle, Dr. Johnston's flyer, so do some of the Ottawa bunch. The mare will enter the Western Racing Circuit, which opened a few days ago at Seaforth. Mr. Steele will be found in doc's office ready to heal the afflicted and look after Mr. Johnston's interests.

The meet in New Hamburg will open upon June 6th, the following being the succeeding racing dates: London, June 13th to 16th; Listowel, June 20th to July 1st; Hamilton, July 3rd to 5th; Preston, July 14th to 15th; Windsor, July 17th to 21st.

"Donna Belle" will be entered in the 2.25 class at New Hamburg. She is by Robert McGregor, a half-brother to Cresceus. Her dam is Lucy, by Leo, and grandam Lady Walsh, by Jupter. She was secured by Dr. Johnston from James Parker, of Ottawa. The doctor will himself handle the ribbons. He was accompanied by Benny Dunford, who will act as groom.

Obituary.

Sad Death of Rev. J. McEwen, a Gentleman Known and Respected Here.

In the death, on Friday, at Lakefield, of the Rev. J. McEwen, the Presbyterian church loses a valued and respected pastor and a large circle of friends throughout this part of the country lose a beloved friend. The cause of his death is undoubtedly traceable to the effects of a serious accident sustained in Toronto some four weeks ago, when he fell heavily from a moving street car.

The late Mr. McEwen had been in the ministry of the Presbyterian church for more than forty years. He was for a number of years pastor of a church at Pembroke, from which place he went to Ingersoll. After he left Ingersoll, he became secretary of the Sabbath School Association of Ontario, and took up his residence in Toronto. He held the position for a number of years, with great credit to himself and utility towards the Association.

In 1885 he became pastor of the Lakefield Presbyterian church, remaining with them for eight years. At, and for some months previous to, the time of the accident which finally helped terminate this useful career, he was minister to the Toronto Hospital.

He is survived by an only daughter. A step-daughter of the late Mr. McEwen married Mr. Sherin, of Lakefield.

The funeral will take place this afternoon, at 2.30 o'clock, at Lakefield.

Mr. Kidd Manager.

Star of the East Mining Company will be Thoroughly Systematized.

Mr. A. O. Kidd has been appointed general manager of the Star of the East Gold Mine, in Harris township, Frontenac county, and is devoting his attention to systemizing the work on the premises.

At a recent meeting of the directors and some of the principal shareholders, they subscribed for further large blocks of stock. The Star of the East Mine is now a decidedly going concern. At a clean-up not long ago, at the conclusion of one day's run, the proceeds were $90. The expenses were $60, making a clear profit of $30, which is beyond all expectations at the present time. The superintendent of the mine is at present pushing east and west from the main shaft, and in a short time will have on hand about 25,000 tons of ore, which well selected will undoubtedly prove to be of a very high grade. The mine's prospects are of the brightest. There is a ten-stamp mill now in full operation doing good work, and thirty men are constantly employed. About 30 tons of ore a day is being put through the stamp mill.

Quinlan Runs Amuck.

Thos. Quinlan, Crazed by Drink, Terrorizes People with a Revolver.

Yesterday a very penitent man spent a long weary day behind bars in the police station, intermingling loud and long prayers with vehement assertions of mental oblivion concerning Saturday night's events.

Thomas Quinlan, a resident of Union street, who has been employed in the American Cereal Company's works, on Saturday held a liquor party of one, and did full justice to the liquid refreshments in both capacity of host and guest. He spent the afternoon going from bar to bar with disastrous effect to his mental equilibrium, in plain English, Quinlan got hopelessly and dangerously drunk. In the early evening he went to his home and frightened his wife and family almost into hysterics, by drawing a revolver and brandishing the deadly weapon in threatening manner.

Word was sent to the police for protection, but before assistance could arrive, the frenzied man left for further scenes of conquest.

On George street, near London, he again drew his revolver and fired it off several times into the air, his actions being more those of a maniac than a mere drunk. P. C. McGinty took up a hot trail and followed after the temporary lunatic, getting a sight of him as he reached the bridge over the new Cereal Co. dam, or, as it used to be called, Dickson's dam.

The officer saw that Quinlan held a revolver in his hand, but nothing daunted by thus nearing possible death, kept resolutely on after his man, shouting to him to put the gun away.

Quinlan ran to a house, near the dam, occupied by his mother, followed closely by the officer. It was getting dark by this time and the man ran round behind his mother's house, and, with the proverbial cuteness of a crazy man, managed, in almost no time, to place his gun in some place of concealment, where the fast falling darkness prevented its being discovered.

Quinlan next pulled off his coat, flinging it towards the house, for a minute or two, struck an offensive and defensive attitude, as though he was going to try conclusions with the policeman; this however he gave up before the officer could grapple with him and fled into the night again.

The local sleuth once more discovered the trail and followed on after his victim, finally running him to ground at the Smith street bridge.

When captured, this time, Quinlan made no further show of resistance, but came quietly to the station.

Quinlan seemed to have been laboring under greater excitement than is generally caused by simple or even mixed drinks, his actions being more those of a man mentally unbalanced or loaded with some kind of terrible drug. He will appear for examination this morning. Shortly before trying his revolver practice Quinlan tried, despite repeated refusals, to force his way into a local bar, after 7 p.m. The proprietor had to use summary means to induce him to move on.

OLD WARSHIPS GETTING UNEASY

Those Sunk in 1812 Just East of Port Henry Shift Into a Dangerous Place

Kingston, June 3.—During the winter there has been a shifting of the wrecks of the men-of-war ships sunk in 1812 in Dead Man's Bay, just east of Fort Frances. Major H. E. O. Hewitt, of the Royal Military College, out boating yesterday, came across the ribs of an old wreck at the entrance to the bay. It had moved several hundred feet from its place of burial, and is now a menace to navigation, for further shifting would bring it into the routes of the river steamers. Major Hewitt is asking that the danger spot be buoyed. The timber of the wreck is in good state of preservation.

PRIZE SHIP TAKEN FROM RUSSIA

Japanese Free a British Steamer Captured by Rojestvensky

Tokio, June 3.—It now appears that the report of the sinking of an American vessel by the fleet of Admiral Rojestvensky grew out of the seizure of the British steamer Olhamia, bound for Japan, which was later retaken by Japanese war ships.

A STRONG APPEAL

Letter From the Board of Education to the Council Anent Collegiate Institute.

In our issue of Saturday appeared an account, in detail, concerning the intention of our Board of Education to ask for submission to the people of a by-law, by which $50,000 additional will be given the building fund of the Collegiate Institute. In this account, as the letter to the Council had not, up to the time of going to press, been manifolded, we were unable to give it in full. The letter is now given below, and contains very many strong and convincing arguments why the people should give this further grant of $50,000. It is on this building has invested in prime a subject involving as it does such a huge addition to our burden of taxation for years to come, and, on the other hand, enabling the Board to erect a building that will fully comply with all the requirements of its being for still a longer term of years, that it should command the deepest reflection, and the exercise of vast judgment as to both pros and cons.

The intelligence of this community is so well known, as to enable our readers, within the time mentioned as the polling day, to thoroughly attain a concise opinion.

If it is absolutely necessary for this town to erect a Collegiate Institute at all, it would be unwise to put up a building, that by the saving of a few thousand dollars now, will leave as a heritage to our children, a comparatively useless institute, coupled with the necessity of them spending an amount that we shirked.

As this matter is one of immense importance to every man, woman and child in town, and also materially affects every tax payer, to enable every one to cast a fully intelligent vote by reason of full comprehension of the details, it might be advisable that persons who seek a full knowledge, not only of what we are asked to pay, but of what they will get in return, to express or ask for opinions in the local press.

The letter is as follows:

Peterborough, June 2, 1905.

To the Mayor and Council of the Town of Peterborough:

Gentlemen,—I am directed by the Board of Education of the Town of Peterborough to enclose a copy of a resolution, passed at a meeting of the Board held on the 2nd day of June, 1905, requesting your honorable body to raise an additional sum of $50,000 for the erection of a Collegiate Institute, and further requesting that if in your opinion this question should be submitted to the vote of the ratepayers that you will have it voted on at the earliest possible opportunity, and the 29th day of the present month is suggested as a suitable day for taking the vote.

The reasons which have influenced the Board of Education to make this request are many, and I am instructed by the Board to place a few of them before you, trusting that the good judgment and business capacity of the ratepayers will supplement the reasons given in many particulars.

When the Board of Education requested you to raise the sum of $50,000.00 one year ago they were undecided as to the site of the proposed building and had received no tenders for the erection of a suitable edifice. Since the by-law was voted on an opportunity presented itself of securing a site for the building in what was formerly known as Central Park combined with the property formerly occupied by the Separate school. This site has been secured at a cost of $10,000.00, and with the proposed Armories to be erected by the Dominion Government will furnish a handsome and attractive addition to our public buildings.

Having procured a site the Board have now to consider the erection of a suitable building, and have had plans prepared after the best models which could be found in Canada and the United States, paying strict attention to the requirements of our town upon the most economical basis. The plans which have been submitted to us, the Board believe, are the most suitable, modern and adapted in every particular to the needs of the community. The estimates which have been made for the construction of the building far exceed what was originally thought sufficient. Several reasons may be given for this, but in the first place the cost of building in addition to that the building itself, the Board are convinced, must be made to answer the requirements for many years to come, and to erect a building which is sufficient for the needs of the present day only, would be a short-sighted and expensive policy which everyone would regret within a very few years from this date.

The erection of a Collegiate Institute at a cost of $90,000.00 as now proposed, will by no means impose the burden upon the ratepayers which at first sight might appear, for the following reasons: If the Institute be not built it will become necessary to erect a Public school at a cost of probably $30,000.00 forthwith. The buildings which are now used as a Collegiate Institute will answer the needs of the Public school without any further building for some years to come when vacated by the pupils of the Institute.

For some years past the Board of Education has been obliged to rent the Menzies property at a cost of over $600.00 a year including taxes. This property is not suited for school purposes and is an expensive investment. The rental of this property will be saved by the erection of the new Institute. Further, the present Collegiate Institute building has been condemned by the Government Inspectors as unfit for the work which is called for by the Department of Education, and the Government grant which is paid the Board is much less than will be received when an up-to-date building is substituted. While the sum of $90,000.00 may at first appear large, it has been ascertained by the Board of Education that several places with populations much smaller than the Town of Peterborough now claims, have erected buildings for Collegiate Institute purposes costing sums in the neighborhood of $75,000.00; and it is submitted that if the Town of Peterborough forty-six years ago was able to expend the sum of $35,000.00 upon the erection of the present building when our population did not exceed 4,000 persons, we are now better able to afford the sum of $90,000.00 if we are to keep pace with our increased population, the improvements which have taken place in buildings of this character and the increased cost of labor and material.

The additional $50,000.00 asked only means a tax of .47c. on every $1,000.00 of the assessment. The large majority of our ratepayers will therefore pay less than this sum per annum for a splendid building which will afford opportunities for the higher education of our children much greater than they now possess.

The Peterborough Collegiate Institute is possessed of an excellent staff of teachers, who are unanimous in stating that they are unable to produce the best results under present conditions, but who look forward to making the Collegiate Institute known as one of the best in the Province if the request of the Board is complied with and the money furnished for the proposed building. This question concerns the welfare of the children of the whole community. It appeals to all alike, and should be approached in a liberal spirit by all our citizens.

Yours truly,
(Sgd.) W. G. MORROW,
Secretary.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

Formal Opening of the Riverside Park Athletic Grounds on Saturday Afternoon--Cobourg Defeated Peterborough in the First Home Game of the Midland League Series.

The Riverside Park, Peterborough's new athletic grounds, were formally opened Saturday afternoon with due formalities. The weather man's predictions were carried out and were all that could be desired, it being an ideal day for the opening of the much needed sporting and pleasure grounds.

A procession was formed at the Balmoral, headed by carriages in which were seated Mr. T. E. Bradburn, M.P.P., Mayor Best, and Mr. R. E. Layfield, President of the Peterborough Baseball Club; and the managers of the Cobourg and local baseball teams, Mr. Hamly, official umpire, of Port Hope, and Mascot Galvin, following on foot were the Cobourg ball team and the Peterborough ball team. The route of the procession was along Charlotte to George, across Hunter to the Park.

About 300 people gathered at the grounds to witness the formalities and the first home game of the Midland Baseball League between Peterborough and Cobourg, which was won by the latter by 8 runs to 5.

After the teams had their usual work-outs, Manager McEwen escorted the big guns from the grand stand, namely, Mr T. E. Bradburn who took his stand in the box, followed by the slab artist, Mayor Best, and catcher R. E. Layfield.

Promptly at 3:10 Umpire Hamby calls the game. Peterborough takes the field. Twirler Bradburn, with an up shoot, sent a hot one over the plate, Mayor Best fanning the wind. The batter wiped at the next two, and was counted out on strikes. The game proper then started.

The visitors are "tooted" up to be the best strikers in the league but found it difficult to hammer Quinlan who, although he had not as good control as usual, pitched good ball, striking out eight men, allowing two to walk and two bases on dead balls. He received poor support at times. Downs, in the box for the visitors, handled himself well, although he was hit freely by those considered the weaker batters; Stayne and Shea, who usually put them out out of the lot being unable to touch him up. He fanned five and allowed two to walk.

The visitors have a good bunch of fielders and their basemen, especially Brown on first, played their bags well; Burgess, at short, played a snappy game, and took in every opportunity offered; Floyd, behind the bat, had a bad arm, as was evidenced by his wild throws. The locals made some costly errors and were certainly off color. Sheridan, on second bag, went bad and made some costly errors; Pilling, at first, also made a loose play; Stayne held down third well, and Shea, at short, played a good game. Rattray, behind the bat, held Quinlan better than a week ago, and played a good game.

(Continued in tomorrow's issue.)

WEATHER NOTES.

Fine and warm.

Limbs Ached With Weakness

Cheeks Were Sunken and Pale—Appetite Poor—Sleep Hard to Obtain

FERROZONE

Made a New Woman of Mrs. Clarence Agustus of Walkerville

When you want to get over weakness and sleeplessness without stopping work, use Ferrozone. It is the one sure remedy that brings bracing health at once.

Try Ferrozone and notice how much better you will feel. Mrs. Clarence Augustus, of Windsor, writes:

"My weakness was chronic.

"It seemed to invade every organ of my body.

"My cheeks were sunken and pale.

"I had no appetite, and slept very poorly.

"Since using Ferrozone I am like a new being. I am strong, have no more aches or weak spells.

"Ferrozone is indeed a grand tonic."

It's the nourishment in Ferrozone that makes you feel good. It puts life into the blood, energy into the nerves, makes you dance and snap with new found health; try Ferrozone, 50c. per box, or six boxes for $2.50; at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, JUNE 5, 1905

BRITAIN, JAPAN AND FRANCE

The gains which the leaders of both the British parties are taking to make it clear that they are in favor of a renewal of the Japanese alliance gives to this union the character of one of the permanencies of the international situation. For Japan, the British alliance is an assurance that it will not be interfered with by any other power or any combination of powers. The British and Japanese navies can absolutely dominate the Pacific Ocean, and prevent hostile operations of any character in that quarter. Prior to the present war, Russia might have intervened from the landward side; but Russian intervention is now over for some time. Consequently, Japan is certain to renew the alliance which guarantees it absolute peace with honor.

The British-Japanese alliance also settles the future of China for some time. There will be no partition of China with Russia paralysed, and the British and Japanese navies united to protect its integrity. We shall see rather Chinese development under Japanese inspiration in political matters and British leadership in the field of trade. It will be the policy of the "open door" and the opening minds. The Chinese people will be brought out from the lotus land of lethargy in which they have lived so long, and taught to take their places in the world. They will learn from their next-door neighbors the high wisdom of national solidarity which they have long fancied themselves to have outgrown; and free contact with the traders of Britain and America will show them that there are many benefits to be purchased in this world which have not been dreamt of in their communist philosophy.

There will be no "yellow peril" under such leadership. The only nation at all likely to drill the Chinese into a menace to European civilization was Russia, and Russia will not have any perceptible influence at Pekin under the new regime. The Japanese will probably teach the Chinese the noble art of self-defence, with a few jiu-jitsu wrinkles, but neither Japan nor Britain are likely to build up a military power in China which would become an especial terror to India and Corea, to say nothing of Japan. No harm will be done the world if the Chinese wake up and get into the market of general trade. They will be great producers, but that will shower benefits upon the consuming classes all over the earth. And the day will soon come when, having earned an offensive purchasing power by their ability to produce, they will want to live better and will develop into one of the great consuming nations of the world. Chinese cheap labor is today a direct outcome of Chinese poverty at home. Remove the poverty by making the Chinese an industrial race, and they will no longer be willing to work any cheaper than anybody else.

It is comforting to note that, coupled with this readiness to renew the British-Japanese alliance, there is a tendency to lay great stress on the importance of the understanding with France. France is the other great naval power of the world, and, if we may include the United States in the group, we will have in the four navies an impregnable guarantee of peace on the ocean highways. Any aggressor must move by land, and no aggressor can move by land outside of Europe, unless we accept the rather fanciful theory that crippled Russia is thinking of attacking India. There may, of course, be aggressions in Europe, but if the Latin Union can be brought up behind France and Britain, even this will become exceedingly improbable.

EDITORIAL COMMENT.

The great increase in cigarette smoking among school pupils in Philadelphia has aroused the Board of Education to action, and a special committee has been appointed to take steps to put an end to the habit. It is recognised that the task will be a difficult one, but educators have declared that something must be done. The use of tobacco in cigarette form has, it is stated, taken a hold on the pupils to such an alarming extent that it must be stopped. This, it is said will be done by the adoption of stringent rules. It is stated that the enforcement of these rules may eventually lead to the expulsion of quite a number of pupils. Of the 82,000 boys in the Public schools it is estimated that 20,000 use cigarettes. It is also said that of the three thousand students at the University of Pennsylvania more than two-thirds are cigarette smokers.

The Czar wept when he heard about it. What he ought to have done was to take a club to Alexieff, who fooled him into this war.

TO EDUCATE THE HORSE

Toronto Automobile Club to Try Humane Methods on Farmers

Toronto, June 3.—The Toronto Automobile Club, following the example set them by several organizations in the United States, are sending professional drivers with automobiles to Richmond Hill, Aurora and Newmarket, the object being to permit farmers and others owing horses not yet broken to the automobile to have an opportunity of bringing them together, when both of them have time and opportunity to accustom the horse to the new transportation vehicle.

This scheme has worked very successfully in the United States, and if horse owners appreciate the club's action they are prepared at later dates, to repeat the instructions in the various towns throughout the district.

OLD WARSHIPS GETTING UNEASY

These Sunk in 1812 Just East of Fort Henry Shift Into a Dangerous Place

Kingston, June 3.—During the winter there has been a shifting of the wrecks of the men-of-war ships sunk in 1812 in Dead Man's Bay, just east of Fort Frances. Major H. E. O. Hewitt, of the Royal Military College, out boating yesterday, came across the ribs of an old wreck at the entrance to the bay. It had moved several hundred feet from its place of burial, and is now a menace to navigation, for further shifting would bring it into the routes of the river steamers. Major Hewitt is asking that the danger spot be buoyed. The timber of the wreck is in good state of preservation.

NO LIQUOR FOR MINORS

Hotelkeepers Must not Sell to Them on any Excuse

Warning that the new regulations regarding the sale of liquor to minors was now in force, has been sent to the licensed dealers. Henceforth it is an offence to sell intoxicating liquors to persons under 21 years of age, even though they produce an order from some person known to the hotelkeeper. The statement that the purchaser was apparently of age will not be accepted as a defence, and the onus of finding the correct age of the applicant will rest on the hotelkeeper.

ARMY BOODLERS ARE EXPOSED

Grave Scandal in South Africa Made Public—Officers Pilloried

London, June 4.—According to the Daily Mirror the report of a War Office Committee on the improper disposal of military stores at the conclusion of the South African war reveals a huge scandal. The report, the paper says, censures a number of officers whose names are given, and who are alleged to have worked in collusion with contractors. The latter bought stores at absurdly low prices, and afterwards resold them to the military authorities at enormous profits, entailing a loss to the Government of $5,000,000.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO. Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

Ayer's Pills. The dose is one, just one pill at bedtime. The result is a gentle laxative the day following. They cure indigestion, biliousness, constipation, for they act directly on the liver. J. C. Ayer Co., Lowell, Mass.

NAVIGATION

RICE LAKE AND THE OTONABEE WATERS

Calcutt's Line of Steamers

Time Table for June, July and August, 1905

Commencing Thursday, June 1st the

STR. CITY OF PETERBOROUGH

will run as follows:

MONDAYS, TUESDAYS, WEDNESDAYS and FRIDAYS to Jubilee, Gore's Landing, (Harwood on flag) and Idyl Wyld. On the above days the steamer will leave the Peterborough wharf at 9 a.m.; returning, will arrive in Peterborough at 8 p.m.

THURSDAY and SATURDAY AFTERNOONS the "City of Peterborough will leave the Peterborough wharf at 1.30 p.m. for Jubilee and Gore's Landing; returning will arrive in Peterborough at 9 p.m.

STR. WATER LILY

will leave Harwood every Saturday morning at 6.30 a.m., calling at Gore's Landing and Jubilee, and all points on the river; returning, will leave Peterborough at 3.45 p.m.

Parties desiring to spend Sunday at Idyl Wyld or intermediate points may leave town on afternoon boat on Saturday and return Monday at 9 a.m. Special arrangements will, however, have to be made in advance at Mr. Calcutt's office for return steamer.

FARE to Jubilee, Gore's Landing, Harwood and Idyl Wyld, 50c., good to return same day only. Children half fare. Books of Family Tickets $5.00 for points between Peterborough and Idyl Wyld.

Special arrangements made for Sunday School and other excursion parties on application.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores so far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

G. E. WRIGHT, Lansing.

DRS. KENNEDY & KERGAN

Cor. Michigan Ave. and Shelby St., Detroit, Mich.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each

200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1 000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties:—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Morse, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Carr, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company in the Wilma, Morning Star, Silver Shekel, Big Burk, Columbia, Reindeer Annex, John Thompson, Frank, and Parenos, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the conditions resembling that of coal formations; consequently, the direction and trend of the ore bodies are readily followed and determined, and by preliminary exploration, their courses have been found to underlie the surface ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $210,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1,000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent Stock at Twenty-Five (25c.) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profit. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,
25 Congress Street, Boston, Mass.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1 00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900 00, and so on down the list.

OONSIDER FOR A MOMENT

What this company offers—It controls to-day as actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least a thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

E STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

CZAR NOW KNOWS EXTENT OF DISASTER

With Ruin Staring Him in Face He Hesitates

RUSSIA NOW IN FERMENT

Terrible Condition of Baltic Fleet Made Manifest for the First Time

New York, June 5.—The New York American's St. Petersburg correspondent says that at last the Czar has awakened to the full horror of the situation.

He now knows that the Japanese reports of the battles of Tsu Shima are cold-blooded and that his fleet has been wiped out.

He knows that the Admiral of the fleet is a prisoner of war in the Naval Hospital of Sasebo, wounded by Japanese shells and to be operated on by Japanese surgeons. He knows that out of all his fleet three crafts have reached Vladivostok and that the Japanese navy is enriched by his captured battleships.

He knows that the money-lenders of Europe have closed their strong boxes against any loans for carrying out the losing and murderous war; that the state of his armies is perilous, and the attitude of his people is one of revolt. In the extremity of his despair, he has called together all the members of the Imperial family at Tsarskoe-Selo and has put to them the desperate question off whether shall he sue for peace, shall he fight on, or, more humiliating still, shall he listen to the people, grant them a national assembly, and lay the burden of the decision on them.

Now swayed this way and now that, the vacillating, yet obstinate, half-crazed with grief and anger, he is today the most unhappy man in Russia.

This is saying much, for Russia is full of miserable and grief-stricken people who demand the downfall of the bureaucracy and the end of the war.

In St. Petersburg crowds of weeping women have surrounded the bulletins and read or listened to the reading of pitiful details of the Tsu Shima tragedy.

The papers have broken away from restraint and are clamoring for the close of the war. Revolutionaries are gathering the troops and are revolting everywhere in anger and grief, the most rabid enemies of Czardom.

Even the Czar's ministers have turned against him and demand that steps shall be taken to secure peace. London stories of survivors of the battle in the Corea Straits which are being cabled, reveal an almost incomprehensible state of affairs in the Russian fleet when it went into action. The utter rout of Russians and the insignificant damage to the Japanese is easily understood in light of these amazing stories.

The story of their defeat dates back to the time when still in European waters Rojestvensky's ships spread consternation and death among the English fishing fleet in the North Sea.

With the possible exception of the few highest ranking officers there was not a man on the Armada trained for sea service or even able to step sprightly on the ship's deck. Raw recruits from field and factory were pressed into service and shipped to give battle to Japan.

Officers to command were taken from the ranks of the dissolute aristocracy.

Lock Roy, the former Minister of Marine of France, says that half the crews never saw the sea before embarking, and that many cavalrymen were transferred from the saddle to the quarterdeck to fill gaps.

The men behind the guns were afraid of their own guns more than of the Japanese. No effort was made to fire the shotted guns, even if the rockets at the laniards knew how. Ports were deserted, engines left ungreased, held turned at will and the men raced for the boats.

In naval circles Rojestvensky's handling of the fleet is said to have been a most hopeless display of naval tactics in history.

"Moral considerations aside, the Japanese do not think any important benefit would arise to them from carrying the war into western waters. They could bombard Libau and Cronstadt, but would have no base in the Baltic, and could not persist in operations sufficiently long to compel Russia to make peace.

"This can be done, assuming that the internal crisis will leave the present regime intact, only by financial compulsion. Russia will shortly feel this pinch. The Credit Lyonnais, which has been striving for a long time to keep the Russian bonds from collapsing, is tiring of the struggle. Once its powerful influence is withdrawn, Russia will be stranded. Of course, French investors would lose huge sums on account of such a debacle. Therefore France's pressure on its ally to get it to stop the war has become steadily stronger.

"Meanwhile, Japanese military plans are rapidly developing. The army is being strongly reinforced, and the navy is ready to give all needed aid in the direction of Vladivostok.

"It is safe to predict that the Russians will be driven back to Siberia and that the Russians will so dispose of matters in the vacated territory as suits their own interest and convenience.

During the wait monetary pressure will bring Russia to terms. Japan can either fight or stand guard over what it has won more effectively and cheaply than Russia can fight or maintain troops stationary.

Already civilization is appearing behind the Mikado's armies and current history is sweeping on while the proud Czar vainly tries to grasp the effect and meaning of this year's supreme events."

JAPAN TO BRING PRESSURE TO BEAR

A Financial War Will Complete Russia's Wreck

London, June 3.—Alfred Stead, whose connection with high Japanese authorities at present is closer than that of any other Englishman, declared to your correspondent this morning that Japan would never send a fleet to the Baltic to force Russia to conclude peace.

"The rulers in Tokyo," he said, "invariably put moral consideration before material, believing that herein is the source of permanent success. They wish above all else to be morally impregnable. They hold that no fleet without coaling stations of its own can cover the distance by sea between Japan and the Baltic unless it violates the spirit of neutrality.

KAISER WANTS PEACE

Pleads With Czar to Make Terms With Japan

Berlin, June 3.—It appears that at Tsarskoe Selo a great conflict is in progress between the peace party, headed by M. Witte, and Count Lamsdorff, and the war party, which is led by the Grand Dukes. The Czar apparently favors the latter.

St. Petersburg advices received here from Berlin declare that Kaiser William yesterday forwarded an urgent despatch to the Czar to make peace.

The message was followed by a long autograph letter from the Kaiser pointing out why Russia should give up the present struggle.

BETTER THAN GOLDFIELDS NEVADA

The East Pacific Mining Co.

OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at the mines; to install an electric power line: a large cow pressor and hoist capable of sinking the property at least one thousand feet deeper; and to build a concentrating mill to treat the 25,000 tons of second class ore now already out on the dumps.

CONCENTRATING MILL IS NOW IN PROCESS OF ERECTION

and is expected to be completed and in full operation inside of sixty days, when stockholders can be assured of receiving regular monthly dividends of from 2 to 5 cents per share.

Air Carries Healing Medicine

THAT CURES COLDS, CATARRH AND DISEASES OF THE THROAT LUNGS AND BRONCHIAL TUBES

About the healing power of the air of the pine woods everybody knows, but to supply it in the form of medicine seemed almost beyond realization. After many years of careful study a scientific remedy now known as Catarrhozone has been produced which enables the sufferer to breathe into his lungs all the healing properties of the balsamic pine woods air. This marvellous remedy has conquered catarrh. It unquestionably does cure it permanently.

You cannot fail to be cured by Catarrhozone, because it reaches and destroys the cause of the disease. You simply inhale the antiseptic vapor. It instantly spreads to every part of the breathing organs. The microorganisms infesting the diseased tissues of your nose, throat and lungs die instantly. There is nothing left to cause inflammation. Any spots that are raw and sore are quickly healed by Catarrhozone and you are soon completely cured.

It is impossible to breathe through a Catarrhozone inhaler without at once feeling better. Your head is cleared of mucous discharge, your nostrils are cleansed of all putrid matter, the phlegm is removed from your throat. Every trace of catarrh is searched out of the system by Catarrhozone, which thoroughly disinfects and purifies every organ of the body.

Catarrhozone is the only natural remedy for catarrh. It cures by cleansing and purifying all diseased tissues, not by deadening the stomach by drugs. It is a clean, simple and satisfactory remedy that is endorsed by the clergy, and universally prescribed by the medical profession because it is scientific and absolutely certain to effect lasting cures.

Don't be misled into accepting a substitute for Catarrhozone, which alone can cure thoroughly. It is so powerfully healing that colds disappear in an hour, coughs in two hours and even chronic catarrh in a comparatively short time. Two months' treatment $1, sample size 25c. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A. and Kingston, Ont.

GEO. BROWN.

Peterboro Man Robbed

Toronto, June 4.—H. Patterson, of Peterborough, reported to the police yesterday morning that somebody robbed him of $18 yesterday on a down-town street. His story is being investigated.

Mr. R. M. Hamilton on Committee.

In the beautifully gotten up prospectus of the Royal Canadian Golf Association's tenth annual meeting, held in Toronto during the four days beginning June 28th, and under the patronage of the Governor-General, among the names of the Executive committee appears that of Mr. R. M. Hamilton, as representing the Peterborough Gold Club. It is expected that quite a number of our local golfers will attend this meeting, at which valuable prizes, for both professional and amateur players, are given. To prevent amateurs being debarred from the most important event, through playing for money prizes, those winning any of the first three, of $75, $50, and $40 respectively, amateurs will receive a proportionate value in plate.

COUNTY MAPS

Only a few copies left of the new map of the County of Peterborough: Price $2.50 each. Secure one before they are all sold For sale at the Times Bookstore.

Peterboro Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. and Mrs. W. E. Williams, of Manchester, Eng., are registered at the Oriental.

—Miss V. Hunter has returned home from Toronto, where she has been attending college.

—Messrs. J. D. and A. H. Flavelle, of Lindsay, were in town on Saturday to see the ball game.

—Mrs. Drennan and children are in Peterborough on a visit to her sister, Mrs. A. McPherson.—Marmora Herald.

—Mr. J. C. Marsh, representing the Canadian Municipal Journal, who is transacting business here, gave The Times a friendly call on Saturday.

—Mr. and Mrs W. H. McCall drove from Peterborough to spend a few days with her parents, Mr. and Mrs. S. R. Simpson, Toronto Road.—Port Hope Guide.

—Dr. T. Herbert Bell and bride, who have been visiting in town, will leave today for Toronto, and after spending a few days they will go to Roseanville, Assa., where they will in future reside.

—It is expected that Capt. Jack Fessenden, of the Imperial Army Service Court, will arrive here early this week to spend a holiday at his old home. He will be accompanied by Mrs. Fessenden.

—Mr. Ryerson Ritchie, an old Peterborough boy, now secretary of the Chicago Board of Commerce, is spending some weeks in town. He will visit our summer resorts, taking in Rice Lake and its vicinity.

—Mr. and Mrs. Eustache Grubbe, who have been spending a portion of their honeymoon with Mr. R. W. Grubbe, of town, left last night for Montreal, where they will visit with friends, preparatory to returning to Vancouver, B.C., their home.

—Her many friends in Peterborough will read the following with interest from the Ottawa Free Press: "Mrs. Ernest W. Story, contralto soloist of St. George's church, sailed on the 'Canada,' May 27th, for London, Eng., to receive studies at the Guildhall School of Music, principally Oratorio work. Mrs. Story will continue her duties in St. George's choir on her return, Sept. 1st."

Local Incidents

BY THE THIRD MAN ON THE STREET.

—No Police Court on Saturday.

—Lakefield has organized a lawn tennis club.

—The City Council of Belleville has decided to build $20,000 worth of granolithic walks.

—The Street Railway Company is contructing a loop at the end of the Jackson Park line.

—The Cobourg baseball team and the Trinity College School cricket team put up at the Balmoral Hotel on Saturday.

—The Belleville Board of Trade is endeavoring to make the bay bridge, which connects that city with Prince Edward County, free.

—Messrs Darcy are hustling forward work on their new hotel at Burleigh Falls, and expect to be able to accommodate visitors by 1st July.

—Peterborough Council, Chosen Friends, will visit Lakefield Council this evening, June 5th. Buses will leave the post office at 7 o'clock sharp.

—Miss Laura Ranton, of Havelock was recently presented with an ormolu gold clock by the Methodist choir, on the eve of her departure for Medicine Hat.

—It will be good news for our local disciples of Isaac Walton to learn that there has been less spearing of fish this close season than during any former season.

—Lakefield seems to have something doing. The Lakefield News says: The shipment of freight during the past month, from the Lakefield station, averaged eighteen cars per day.

—On Monday last the Lakefield Canoe Building and Manufacturing Co., received a large order for canoes from the Zambezia Transportation Co., of Livingston, North-West Rhodesia, Africa.

—Mr. Geo. W. Fitzgerald, game warden, was down to Rice Lake last week. He says maskinonge fishing, which is permissible in the lake, has resulted in some large catches. The lunge appear to be plentiful.

—The large crowd attending Saturday's ball game at Riverside Park were greatly tickled over the first three balls sent over the home plate. Mr. E. Bradburn, M.P.P., threw the ball wildly, Major Best struck blindly at it, and Mr. R. R. Ball, M.P., the catcher, missed it wisely.

—Nomination to fill the vacancy in the Otonabee Township Council caused by the resignation of Mr. John Carey, who is running against John Lancaster for representative in the Otonabee division of the County Council, will be held at Keene this afternoon.

—"Hey Chimmie what did yer git," yelled the small boys at Saturday's ball game, after a ball, in the second Peterborough inning, had been knocked clear over the grand-stand and into the river. "Didn't git nawthin," answered the small boy who lounged boldly, up to his waist, in the wet Otonabee to save the sphere, and who was evidently disappointed over not receiving a tip for returning that important factor in the game.

Get the little book, "The Road to Wellville" in each pkg.

A Saturday Runaway

Mr. Sam Mitchell's Team Create a Panic on George Street.

Saturday afternoon the crowd on George street were treated to some excitement, all but a few of them have reason to thank Providence for several narrow escapes from accident to life or limbs. A team of horses belonging to Mr. Sam. Mitchell, a farmer residing near Omemee, standing in front of Mann's planing mill, on Dublin street, became frightened, it is supposed, by a large piece of flying newspaper, and stopped not on the order of their going. They went at a faster pace than they probably know was in them. Down George street they flew, the waggon jumping, bumping, and swaying from side to side, until the corner of Hunter street was reached. Here the hind wheels seemed to have caught the car track, and were jerked loose from the rest of the outfit, they flew towards one side of the street and the waggon box was thrown to the other.

The frightened animals, trembling and covered with sweat, were captured near King street, but were not seriously hurt.

One lady with a baby carriage had a fright that will last her for some time.

Now Call "Kenora," Out.

The C. P. R. announce the change in the station name of Portage, Ontario, to Kenora, Ontario. This change, effected by the Government, took place last week, and the company wishes to direct the attention of the public to the new name of a station on its line. But Portage has become as widely known, perhaps, as any name in Canada because of its unusual character.

Large Excursion from Norwood.

The Calcutt line of steamers still continue to hold their share of public patronage. In addition to a long list of engagements for the coming months, noted in Saturday's issue, the steamer City of Peterborough has since been engaged for another large picnic excursion. The Norwood Methodist church Sunday school intend holding a joint rail and steamer excursion on Wednesday, June 14th. The three hundred and more excursionists will leave Norwood by C. P. R. for Peterborough and here take the City of Peterborough for McCracken's Landing, via the Lift Lock. This should make a very pleasant outing, breaking the journey by the agreeable transfer from the cars to a comfortable steamer.

NO LIQUOR FOR MINORS

Hotelkeepers Must not Sell to Them on any Excuse

Warning that the new regulations regarding the sale of liquor to minors was now in force, has been sent to the licensed dealers. Henceforth it is an offence to sell intoxicating liquors to persons under 21 years of age, even though they produce an order from some person known to the hotelkeeper. The statement that the purchaser was apparently of age will not be accepted as a defence, and the onus of finding the correct age of the applicant will rest on the hotelkeeper.

ARMY BOODLERS ARE EXPOSED

Grave Scandal in South Africa Made Public—Officers Pilloried

London, June 4.—According to the Daily Mirror the report of a War Office Committee on the improper disposal of military stores at the conclusion of the South African war reveals a huge scandal. The report, the paper says, censures a number of officers whose names are given, and who are alleged to have worked in collusion with contractors. The latter bought stores at absurdly low prices, and afterwards resold them to the military authorities at enormous profits, entailing a loss to the Government of $5,000,000.

TO EDUCATE THE HORSE

Toronto Automobile Club to Try Humane Methods on Farmers

Toronto, June 3.—The Toronto Automobile Club, following the example set them by several organizations in the United States are sending professional drivers with automobiles to Richmond Hill, Aurora and Newmarket, the object being to permit farmers and others owing horses not yet broken to the automobile to have an opportunity of bringing them together, when both of them have time and opportunity to accustom the horse to the new transportation vehicle.

This scheme has worked very successfully in the United States, and if horse owners appreciate the club's action they are prepared at later dates, to repeat the instructions in the various towns throughout the district.

Pacific Coast Excursion.

During June, July, August and September the Chicago and North Western Railway will sell from Chicago, round trip excursion tickets to San Francisco, Portland, Ore. (Lewis Clarke Exposition), Seattle, Victoria and Vancouver at very low rates. Corresponding cheap rates from all points in Canada. Choice of routes, best of train service, favorable stopovers and liberal return limits. Rates, folders and full information can be obtained from B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrography Work. Studio 134 Brock Street, Peterborough.

Cavanville Church Anniversary

The anniversary services of Cavanville Methodist church will be held on Sunday, June 18th and the 19th. On Sunday Rev. Dr. Crothers, of Peterborough, will preach morning and evening, and on Monday, the annual garden party and entertainment will be held on the church grounds. The annual event will be, this year, tinged with regret, because it is the parting gathering for Rev. Mr. Mountcer, the very popular pastor, who leaves on July 1st.

ADVERTISE IN THE TIMES.

ENGAGED.

Marriage is very largely an accident. In few cases do men or women set up a standard of manly or womanly excellence and choose by it. In most cases people become engaged as the result of propinquity rather than because of any deep rooted preference.

And so it often happens that the wife enters upon the obligations of maternity just as thoughtlessly as she entered on the marriage relation, because no one has warned her of the dangers she faces.

Thousands of women become invalids for lack of knowledge of themselves. It is to this large body of women that Dr. Pierce's Favorite Prescription comes as a priceless boon, because it cures womanly ills.

Dr. Pierce's Favorite Prescription establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

"After my first child was born," writes Mrs. Jordan Stout, of Fawcettgap, Frederick Co., Va., "my health was very poor for a long time, and last winter I was so bad with pain down in back I could hardly move without great suffering. My husband got me a bottle of Dr. Pierce's Favorite Prescription and a vial of his 'Pleasant Pellets,' which I used as directed. In four days I was greatly relieved, and now, after using the medicine three months, I seem to be entirely well. I can't see why it is that there are so many suffering women when there is such an easy way to be cured. I know your medicines are the best in the world."

Dr. Pierce's Pleasant Pellets the favorite family laxative. One 'Pellet' a laxative, two 'Pellets' a cathartic dose.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & CO. Toledo, O.

Hall's Family Pills are the best.

A WIDOW'S PATHETIC LETTER.

One of Hundreds of Letters Received at Muskoka Free Hospital for Consumptives—Pleads for the Life of an Only Son.

The following is one of hundreds of letters received at the office of the National Sanitarium Association:—

COOKSHIRE, QUE., June 3rd, 1904.

DEAR SIR,—I hope you will pardon my writing to you. I am Charles Brown's poor mother, that is heart-broken about my one and only son, and longing for your kind letter to arrive to my you can find a place for him soon in the Muskoka Free Hospital for Consumptives. He is the only son I have and I am depending on him for support, and he has a wife and one baby depending on him also for their support. . . . He is the Charles Brown that Judge Britton's daughter spoke to you about. . . . Dear Sir, for God's sake hasten the time for him to get there; as the longer it runs on him the harder it will be for him to get well and back to his former health and strength again. . . .

MARG'T BROWN.

COOKSHIRE, QUE., June 6th, 1904.

DEAR SIR,—I received your kind and most welcome letter to-day. Very glad I was to hear the good news that my dear son can go to the Hospital any time this week. Thank God for the good news. He will leave Montreal on Monday, the 13th, or Tuesday, 14th, at the latest. . . . It has given him new life to hear the glad news that you have sent to me, his mother.

MARG'T BROWN.

It is to meet just such cases as this that the Free Hospital for Consumptives has been built. Less than three years opened, nearly 400 patients have been cared for, and not a single patient has ever been refused admission because of his or her poverty.

Sir Wm. R. Meredith, Kt., Chief Justice, 4 Lamport avenue, Toronto, or W. J. Gage, Esq., 54 Front street, will receive and acknowledge any subscriptions our readers will send.

EVERYBODY READS THE TIMES.

THE

Montgomery Mountain Mining Company

BULLFROG

promises to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD or BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining.

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange

Vice-President, Hon. JOHN SPARKS, Governor of Nevada.

Directors: D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys at-Law, Goldfield, Nevada.

The Company refers by permission to

McCornick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank, Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopan immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share, if orders for same are received at once. You may telegraph your order to us at our expense and follow same with certified check or Bank draft for the amount of subscription.

Japs Army For the Siege of Vladivostok.

A Japanese Army is Being Taken to the Siberian Fortress--Officers of the Steamer Lyra Passed 18 Japanese Transports Headed for the North.

Chicago, June 6.—The Chicago Record-Herald today prints the following despatch from Tacoma, Washington:

"Officers of the steamship Lyra, which has arrived in port, say they sighted during the voyage 18 Japanese transports bearing an army for the siege of Vladivostok."

African Natives Destroy Warmebad.

Natives Report That the Garrison Has Perished at the German Headquarters--But No Further News is Obtainable.

London, June 6.—A despatch to a news agency from Cape Town says native reports have been received in official quarters to the effect that Warmbad, the German headquarters in South-West Africa, has fallen and that the garrison has perished. No news is obtainable except from native sources.

A Sound Proposition

A Cuban Investment Well Worth Investigation, and Strongly Recommended

As is well known to the reading public, Cuba, since being released from the blighting yoke of Spain, is attracting the attention of settlers and capitalists from every financial center of the world.

One of the greatest drawbacks to Cuba's progress and rapid development by desirable settlers has been its inadequate system of transportation; this difficulty is now being removed by both railways and automobile stage and freight lines.

The West Indies Transportation Company, has now in operation a line of automobile stages, from Havana to other towns and cities. The business of this company has several times been so great that they found it necessary to call in the local police to regulate the crowds who insisted on crowding the machines beyond their capacity.

Mr. J. Condit Smith, who obtained the franchise for the company, and who has lived in Cuba for some years, is a son-in-law of Gen. Leonard Wood, whose great work in the sanitary improvement of Havana and other Cuban cities is too well known to require notice here; Mr. Smith is on the executive of the company.

Until the 16th of June the company are offering, as per adv. in another column, a limited number of shares of treasury stock at par, for necessary development purposes. As this stock has paid 14 per cent. dividends since the company began business, it means a good investment. For particulars address Emerson & Co., Dept. "E," 41 Broadway, New York.

A Serious Proposition.

(To the Editor of The Times.)

Dear sir,—I see by your valuable paper that the School Board intends to ask our Town Council to submit a by-law to the public asking them to grant $50,000 in addition to the $50,000 already granted towards erection of a collegiate institute.

Now I have always wanted a good collegiate institute in Peterborough, but there should be, in my opinion a reasonable limit placed on the amount added to our already high taxes. The matter of expenditure of $100,000 is a serious proposition in itself, but there is another matter in connection with this vast grant of money that should be taken into account. That is the yearly amount not only of interest on the $100,000, but the additional expense in running so large a building. Can we ascertain before voting on this grant how many more high priced teachers will be required to run this large building; how much a year extra will heating and incidental expenses cost us, and thirdly, how much more will the out-of-town pupils who do not pay the taxes spent on the building be charged?

The answer to the last question asked, will greatly affect my vote and possibly those of other tax payers, who do not intend to pay for a merely philanthropic ornament to our town.

Yours truly.

ENQUIRER.

NO SHIPS TO BALTIC

Alfred Stead Says Moral Considerations Will Avert Invasion

London, June 6.—Alfred Stead, whose connection with high Japanese authorities at present is closer than that of any other Englishman, declared to-day that Japan would never send a fleet to the Baltic to force Russia to conclude peace.

"The rulers in Tokio," he said, "invariably put moral considerations before material, believing that herein is the source of permanent success. They wish above all else to be morally impregnable. They hold that no fleet without coaling stations of its own can cover the distance by sea between Japan and the Baltic unless it violate the spirit of neutrality.

"Moral considerations aside, the Japanese do not think any important benefit would arise to them from carrying the war into western waters. They could bombard Libau and Cronstadt, but would have no base in the Baltic and could not persist in operations sufficiently long to compel Russia to make peace."

A Large Investment

Senator Cox Offers $4,200,000 for Montreal Cotton Co. Stock

We understand that at the general meeting of shareholders of the Montreal Cotton Co., held yesterday at noon, an attempt has been made to merge that corporation with the Dominion Textile Co.

It is understood that Mr. E. R. Wood, of Toronto, on behalf of Senator Cox, made a cash offer of $140 per share for the three millions of stock of the Montreal Cotton Company.

Mr. David Yuile, who has been active in the attempt to get the Montreal Cotton stockholders into line, has been offering large holders $100 in cash, $25 in preferred and common stock, in proportion of one share in four, for each share of Montreal Cotton held.

OUTRAGEOUS INTERFERENCE

The Dominion Government Turning Back the Hands of Progress

The Dominion Government seem to be hard up for a grand stand play to the people, when they descend to such acts as arresting and deporting a few respectable and respected railway officials, as is being done with a few officials of the Pere Marquette Railway at St. Thomas.

These officials in no way come under the spirit of the Canadian law regarding alien labor, and the Government's action in this case seems in the nature of a petty persecution for political ends.

It is short-sighted policy that should and will be resented not only by thousands of Canadian workers, who buy their bread with money honestly earned daily in the United States, but by the whole people as a mean act unworthy the lofty statesmanship of great Government.

Without even taking into consideration the not only possible but probable retaliation that will be stirred up against Canadian wage earners who work across the border, but from the very triviality of the handful of good citizens persecuted, the Government should stay, if not apologise for, their action. It would have been fully as justifiable had the Government arrested and deported Mr. Hays of the Grand Trunk.

The statesmen at Ottawa might find more profitable employment attending to government of and for Canada's betterment in the eyes of both the fiscal and political world at large, than condescending to chase after a small bunch of men engaged in advancing Canada's railroads.

BOBCAYGEON IN PETERBOROUGH.

Excursionists From 'Caygeon Will Stay Two Nights in Town.

Today Bobcaygeon will be "The Deserted Village." An excursion from that burg, under the auspices of the Reeve of Bobcaygeon and Councillors of nearby townships accompanied by several leading C. P. R. officials, will arrive in Peterborough en route for Hastings.

The party, which is composed of some 35 of Bobcaygeon's leading citizens, will arrive this evening, via the Lift Lock, per Trent Navigation steamer "Majestic," and will stop over here all night. Tomorrow morning they will proceed by the same steamer to Hastings, returning to town the same evening.

We will have the visitors from that pretty little village-on-the-rocks with us for Wednesday night also; the excursionists will return home Thursday morning by their chartered boat.

With their well known hustling policy, where either business or their patrons' interests are concerned, the Canadian Pacific Railway Company officials are taking this opportune time for inspecting our system of back lakes and other summer outing spots, in relation to the proposed Burketon connection service, by which Toronto excursionists would be able to leave Toronto Saturday morning, spend their Sunday on, and amid the beautiful scenery of the waters surrounding Peterborough, and then be back to Toronto Monday morning in time for work.

The consummation of this idea would be a strong link in the best chain of advertising that Peterborough and its environments could get among the wealthy business men and pleasure seekers from the Queen City. It is to be hoped that the trip of these officials will bear the fruit of adoption of the Burketon connection with Bobcaygeon and Peterborough via the Lift Locks. Mr. J. H. McClellan, superintendent of the T. V. C., will accompany the party.

Board of Education.

No One Knew Who Sold or Obtained the Murray St. School Grounds Grand Stand, Property of the Town.

A meeting of the Board of Education was held last night.

Those present were Messrs. Ferguson, in the chair, Crane, Rogers, Stevenson, Burnham, Hartley, Hayes, Ackerman, Morrison, Hill Pringle. Inspector Walker was present.

Minutes of last regular meeting read and confirmed, as were those of special meeting held 2nd June.

COMMUNICATIONS.

For renewal of situations from teachers of various schools in town were read. Applications for raises in salaries by several kindergarten teachers were read. An application from a student named Stubbs, in Normal School, Toronto, for position as teacher was read. Application was made by a lady living in Calgary, as to what salary is paid in Peterborough for singing teacher. S. D. Davidson applied for sick leave during month of June, accompanied by medical certificate. Miss Davidson's request was granted.

Property committee reported and recommended certain repairs in Central, South Central, North Ward and Fifth Ward Schools.

Mr. Crane presented a report, which he prefaced by saying he had been looking about and studying the Public schools much of late, and the conditions he found surprised him most unfavorably. The Property committee had not sufficient funds to do repairs as needed, making it very difficult to know how to expend the money. He had an estimate then in hand which would require over $800. He then presented the report of the committee, which showed that expensive repairs were absolutely required.

Mr. Hill moved that Mr. Sehrigley be appointed examiner, it being his turn.

Mr. Hill moved that a committee be appointed to draft and send a circular letter to every elector entitled to vote on the bylaw concerning the Collegiate Institute, the committee to consist of Messrs. Hayes, Pringle, the mover, and the chairman.

A considerable discussion arose about the fence and grand stand being removed from the property recently purchased by the town for school purposes. Great exception was taken by Mr. Hartley to the mysterious manner in which the property was removed. No one present knew who gave authority for taking the stuff. Mr. Hartley explained that when he was in Ottawa the Government intimated that the Board could have the Separate school building, and one or two members asked if the building was still there or had it disappeared also.

The general opinion was that since the grand stand and fences had disappeared, without any authority from the Board, during such time as the town owned or had an option on the ground, it was a mighty mysterious proceeding, and will probably be investigated.

No one acknowledged knowing who had given the authority for removing the town's property, or who took it away. A member insinuated that part of the property might be found on Riverside Park.

Note.—We understand, in the matter of the grand stand, that the town's option had expired, and on the day following the expiration thereof, the Town Council gave His Lordship, Bishop O'Connor, the grand stand for renewing the option.—Editor.

RUSSIANS POOR SAILORS

They Would Have Been Beaten 4 Ten Times as Strong

Washington, June 7.—A naval officer of high reputation said to-day that if France had proposed to Russia six months ago to lend her ally, the Czar, the entire French navy, battle ships, cruisers, torpedo boats, submarines and all, and Russia had accepted the offer, the French officers and sailors leaving the ships and Russian officers and men taking their places, and then the entire remanned navy of France, the second navy in the world, had been sent to far eastern waters to fight the Japanese, the result would have been the same. Togo would have smothered and destroyed them as completely as he annihilated Rojestvensky. There would have been just so much more additions to the Japanese fighting strength. This would have been true, because the Russians have not the rank and file that can properly fight ships. And without men of the right stamp ships and guns are alike mere food for a valiant and efficient foe.

A SURPRISE PARTY

How the Authoress Turned the Tables on Her Friends

A distinguished authoress with her husband moved to a California fruit ranch to get free from stomach and nervous troubles. She tells her food story as follows:

"The change to outdoor life, abundance of fresh fruit, etc., did help us some, but the necessity of cutting out all indigestible foods and thus striking at the root of the trouble, had not sufficiently impressed itself on our minds, we continued to indulge our appetites, till at last I was prostrated for a long time with a serious illness, during which I was simply starved on 'gruel and things. One day while in this condition I demanded Grape-Nuts, merely because I wanted something I could chew. My wish was complied with, under protest at first, however, and then as no bad results followed, the crisp, nutty grains were allowed me in the way of humoring a harmless whim.

"To the surprise of everyone, the stomach which had persistently refused to retain the sloppy messes usually fed to sick folk, readily assimilated the Grape-Nuts, and I was soon able to take two spoonfuls three times a day, and when I got to that point my health and strength came back to me rapidly. On recovery, and taking up my work again, I adhered to Grape-Nuts food for breakfast and supper, eating a good plain dinner at noon. In four weeks I gained 10 pounds in weight. I have constantly used Grape-Nuts food ever since and greatly to my advantage.

"My faith in Grape-Nuts was a matter of much jesting to my family, and once when my birthday came around, I was told that a special dinner would be prepared to honor the anniversary. When I entered the dining room I was surprised to find it decorated with Grape-Nuts boxes, some empty, some full, and some filled with flowers, etc., etc., and the joke was hilariously enjoyed. My time came, however, when I returned the surprise by producing a delicious Grape-Nuts pudding, and dates stuffed with rolled Grape-Nuts and cream. Then 'those who came to scoff remained to gorge themselves,' if I may be pardoned the expression. It has not been difficult since that day to win converts to Grape-Nuts."

Name given by Postum Co., Battle Creek, Mich.

Ten days' trial is proof.

Mr. Peter Thompson Appointed Inspector of Plumbing

And Inspector of Sewer Connections--Civic Holiday will be the Second Monday in August--Ratepayers will be Asked to Vote Another $50,000 for the Collegiate Institute.

The Town Council met in regular monthly session last night, when there were present Mayor Henry, Best and Aldermen Johnston, Begley, Hicks, Mason, Crowe, Leary, Hall, Tovey, McIntyre, Batten, Scott and Adams.

The minutes of the preceding meeting were confirmed.

PLUMBING INSPECTOR.

The vexed question of who should be the Inspector of Plumbing and Sewer Connections again came up, and for a time it looked as though there would be once again the same old deadlock which has resulted in all previous meeting, with Messrs. Sturgeon, Thompson and Bartlett in the field. The same arguments were used by the supporters of the different candidates, as has been published from time to time, until Ald. Adams poured oil on troubled waters in withdrawing his candidature of Mr. F. Bartlett, providing Mr. Peter Thompson received the appointment as "assistant" to the Engineer, Mr. T. A. S. Hay, who is, under the by-law appointing him to his office, at present Inspector of Plumbing. This was acquiesced in by Ald. Johnston and a majority of the Council, and Ald. Johnston argued that Mr. Thompson, under Mr. Hay, would really have a free hand, be doing all the practical work. It was understood that Mr. Thompson will devote his full time to the Town, doing any other work that may be required of him by the Town Engineer, and which he is capable of attending to.

Ald. Mason once more presented his bylaw dealing with the above question, and strongly urged that an inspector (a practical plumber) be appointed without may further delay.

Ald. Hall asked that, being a master plumber, he be privileged to refrain from voting. This the Mayor acceded to.

Ald. Mason moved, seconded by Ald. Scott, that Mr. R. G. Sturgeon receive the appointment. Mr. Sturgeon's price for the duties required by the office was $400 a year. He might still fill in his time when not needed at other employment.

Ald. Johnston moved, seconded by Ald. Crowe, that Mr. Peter Thompson be appointed at a salary of $500, his whole time to be at the Town's disposal.

Ald. Adams moved, seconded by Ald. Hicks, that Mr. F Bartlett receive the appointment on the same terms and conditions as offered by Mr. Sturgeon.

The voting for Mr. Bartlett resulted as follows:

Yeas—Ald. Hicks, Begley and Adams.

Nays—Ald. Johnston, Mason, Leary, Tovey, McIntyre, Crowe, and Mayor Best.

Before taking any further action, Ald. Adams here withdrew his support of Mr. Bartlett in favor of Mr Thompson, as above specified, when the voting for Mr. Thompson was proceeded with, and resulted as follows:

Yeas—Ald. Johnston, Begley, Hicks, Crowe, Leary, McIntyre, Batten, Adams and Mayor Best.

Nays—Ald. Leary, Scott and Mason.

Mr. Peter Thompson thus secured the appointment for this year, at a salary of $500.

Above voting was taken in Committee of the Whole, with Ald. Hall in the chair.

MORE LIGHTS FOR PARKS.

In connection with Ald. Johnston's recommendation that the town pay for the installing and wiring of 24 incandescent lights in Victoria Park which was adopted, Ald. Leary suggested that Central Park be also better lighted, and on motion of Ald. Leary, six incandescent lamps will be placed in this park at the Town's expense, providing the Peterborough Light and Power Co. furnish the current for same free of charge, which they agree to do in the Victoria Park.

Ald. Mason thought that Jackson Park should be likewise illuminated.

It was generally understood, Ald. Hall pointed out, that if Messrs. Hall and McGill, trustees of this park, will pay for installing the lamps, and the wiring of same, the Peterborough Light and Power Co. will furnish current free.

CIVIC HOLIDAY.

Mr. Thos. Stenton, representing the Moulders' Union, asked the Council not to change the date of Civic Holiday from the first Monday in August to any other date, as contemplated, as the Moulders had arranged for an excursion to Cobourg on that date, and would be materially affected by any change from the Council's decision in this respect at last meeting.

Ald. Adams pointed out that the Council were in receipt of a communication from the Grand Trunk City Passenger Agent, stating that as Toronto and Hamilton Civic Holidays fall on the first Monday in August and all available rolling stock contracted for, it would be impossible for this company to furnish accommodation for excursions out of Peterborough on that date.

Mr. Stenton replied that Mr. Bunton had assured his committee that he could give them accommodation to Cobourg on the first Monday in August, although it might not be up to the Grand Trunk's usual standard of comfort and efficiency.

Mr. John Sawers, representing Canadian Order of Foresters, said that should Civic Holiday be on August 7, this Order could not possibly secure accommodation for their excursion to Niagara Falls and Buffalo. This has been an annual event for the past eighteen years, which warrants earnest consideration at the Council's hands.

After due deliberation, the Council considered that it would not be wise, in the general public's interest, to hold Peterborough's Civic Holiday on the same day as that of Toronto and Hamilton. They further decided that a Monday would be the most acceptable day for this holiday, and

A bylaw fixing the date of Civic holiday for the second Monday in August passed its several readings.

BYLAWS.

A bylaw fixing the salaries of the engineer and drivers of the Fire Department, as recommended by the Fire, Water and Light committee, passed its several readings.

The salaries of these men are increased $25 per year.

Bylaws to authorise the Ottonabee and the Auburn Powers to erect poles and wires on certain streets passed their several readings.

A bylaw to authorize the construction of granolithic sidewalks on certain streets passed its several readings.

A bylaw to fix the assessment of the new opera house at $3000 for 10 years, and the license fee at $10 per year, passed its several readings.

A bylaw to regulate the exposure of food stuffs was fathered by Ald. Hall. This provides that no person shall expose for sale on the market, outside stores, or at open windows, any carcas of meat, game, poultry, fish, fruit, etc., unless the same is properly protected from the contaminating influence of dust or other agencies liable to convey disease to consumers.

A bylaw authorising an agreement with Jas. Bogue for the construction of an outfall sewer and sedimentation tank in Ward 5, at the sums of $6,210 and $3000, respectively, passed its several readings.

A bylaw, fathered by Ald. Hicks and Scott, regulating the weighing of coal, was given its first and second readings.

Ald. Johnston thought this bylaw should also provide for the measurement of wood offered for sale on the market being legibly marked on each load.

Ald Adams remarked that as a rule the measurement of wood is marked on each load. If any deception occurred at all, it would be found in the matter of quality rather than the quantity of such wood.

The Council decided that not only was this question totally distinct from that of coal, but it is thoroughly provided for in the market bylaw.

This bylaw provides for the name of purchasers of coal, the exact quantity and quality of same being marked on individual tickets.

This bylaw will be again considered by committee before its final reading.

MONEY GRANTS.

Bylaw authorising grants of $500 to the 57th Band and $550 to the Horticultural Society passed its several readings.

ANOTHER $50,000.

A bylaw to provide for the borrowing of an additional $50,000 was introduced by Ald. Mason at the School Board's demand, and passed its first and second readings. This will be submitted to the ratepayers on June 29th.

(Continued in tomorrow's issue.)

Historic Naval Battles of Modern Times

ABOUKIR (Battle of the Nile), Aug. 1, 1798—French fleet under Brueys defeated by the English under Lord Nelson. Nelson's men captured nine French men-of-war and burned two. The French ship L'Orient was blown up with Brueys and 1,000 men on board, only seventy or eighty escaping.

ALEXANDRIA, Egypt, July 11th, 1882—Bombarded by the British fleet and fortifications destroyed.

BAY OF GIBRALTAR, April 25, 1607—Dutch gained a bloody victory over the Spanish.

CAMPERDOWN, Oct. 11, 1797—Dutch fleet defeated by the British.

CARDENAS, Cuba, May 11, 1898—American ships entered the harbor and bombarded the town and Spanish boats. Ensign Bagley and four other Americans killed.

CAPE FINISTERRE, May 3, 1747—French fleet of thirty-eight ships taken by the British under Anson.

CIENFUEGOS, Cuba, May 11, 1898—Bombardment and cable cutting by American war ships.

CONSTITUTION AND GUERRIERE, Aug. 19, 1812—Latter ship British destroyed by the American frigate.

ENGLISH CHANNEL, June 2, 1653—Dutch and English fleets under Van Tromp and Blake respectively engaged in a decisive battle with 100 sail on either side. The Dutch lost seventeen ships; their fleet was dispersed. The engagement was completed off Holland a few days later, when Van Tromp was killed, after losing thirty more ships.

KEASARGE AND ALABAME, off Cherbourg, France, June 19, 1864—Alabama, confederate cruiser, sunk after an hour's fighting.

LEPANTO (near Corinth), Oct. 7, 1571—Don John of Austria commanding the fleets of Spain, Venice, Genoa, Malta and Pius V., utterly defeated the Turks. The Turks lost most of their fleet and 36,000 men.

LAKE ERIE, Sept. 10, 1813—Americans under Perry with nine vessels captured a British squadron of six vessels under Barclay.

LA HOGUE, May 19, 1692—French fleet under Admiral Tourville destroyed by the British and Dutch under Russell and Rooke. The French lost twenty-one men-of-war.

MESSINA, July 31, 1718—Spanish fleet of twenty-nine sail totally defeated by the British.

MOBILE BAY, Aug. 5, 1864—Farragut forced his way into the harbor and defeated the confederate fleet.

MANILA BAY, May 1, 1898—American fleet under Dewey utterly destroyed the Spanish fleet.

NEW ORLEANS, April 24, 1862—Farragut attacked and silenced the forts, and city was occupied by Union forces next day.

OFF SCOTTISH COAST, Sept. 23, 1779—Captain Paul Jones with the Bonhomme Richard and the Pallas captured the Serapis and the Countess of Scarborough after eleven hours' fighting.

OFF JAPAN, Aug. 14, 1904—Russian Vladivostock squadron defeated by the Japanese, the cruiser Rurik sunk and the other Russian ships reaching Vladivostock in a disabled condition.

OFF HARWICH, June 3 1665—British defeated the Dutch, the latter losing thirty-two ships.

OFF BORDEAUX, Dec. 4 1564—British and French fleets, numbering 120 sail in all, engaged, the French being utterly defeated.

SAN JUAN, Porto Rico, May 12, 1898—Forts bombarded by Admiral Sampson's squadron.

SANTA CRUZ, Canary Islands, July 25-26, 1797—English and French fleets fought; Admiral Nelson lost his right arm.

SANTIAGO, July 3, 1898 — Spanish fleet under Cervera destroyed by the American fleet under Schley.

SINOPE, Nov. 30, 1853—Turkish fleet destroyed by the Russians.

SPANISH ARMADA, July 19-29, 1588—Fleet consisting of 132 large ships and a number of smaller ones, manned by 24,000 men, engaged by a British fleet under Howard, Drake and Hawkins. The Spanish lost thirty-five ships and 13,000 men and their fleet was dispersed.

TAGUS, Sept. 3, 1808—Russian fleet surrendered to the British.

THAMES, July 25-26, 1666—British defeated the Dutch, the latter losing twenty-four men-of-war and 4,000 men.

TRAFALGAR, Oct. 21, 1805—British fleet under Lord Nelson defeated the combined French and Spanish fleets under Villeneuve. There were eighteen French and fifteen Spanish ships against twenty-seven British men-of-war. The French and Spanish lost nineteen ships.

YALU RIVER, Sept. 17, 1894 — The Chinese fleet was destroyed by the Japanese.

ROYAL BAKING POWDER

ABSOLUTELY-PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder produces food remarkable both in fine flavor and wholesomeness.

ROYAL BAKING POWDER CO., NEW YORK.

Ever look at it that way?

Some folks go on slugging their bodies and dragging their Brains day after day with coffee and tea half sick all the time, weakly wondering 'what is it that halts my plans and keeps me down. I have mighty hard luck———,'

Suppose You

Stop the coffee for 10 days and take on well made

POSTUM

Food Coffee

and learn what a difference it makes to health and Brain to use a FOOD drink in place of a DRUGdrink.

Tremendous reason for the change. Trial proves it.

Get the little book, "The Road to Wellville," in each pkg.

Awful Palpitation, Dizzy, Faint, Weak

You Have a Weak Heart and Poor Nerves — Instant Death May Overtake You.

With weak heart and exhausted nerves, you are living in the very shadow of death.

Risk what it would mean to your family if you were to be taken today!

You can't afford to risk it any longer. Get Ferrozone at once and make your heart strong and well.

Ferrozone has helped many a man to live a strong, useful life, and will do likewise for you.

Mrs. E. J. Brooks, of Berlin, says:

"My nerves were weak and I was irritable and cross.

"My heart palpitated like an engine and everything faded away.

"I was subject to dizziness and fainting.

"After using Ferrozone I gained strength. My appetite improved. I slept well. The heart trouble disappeared.

"Ferrozone made me well."

You will never know what real good health means until you take Ferrozone. It gives strength, endurance and energy to every organ of the body; try Ferrozone, 50 cents per box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 65 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, JUNE 6, 1905

TOTAL ABSTINENCE AND THE DEATH RATE

There has been considerable recent discussion as to whether or not the drink habit shortens life. A writer on insurance themes not long ago, in touching upon this subject, pointed out that the safe limit of risk, theoretically at least, is not over three ounces of whisky or its equivalent per day. A contemporary recently called attention to the declaration of Sir Frederick Treves, a distinguished English medical authority and surgeon to King Edward VII., that alcohol is a poison and that it is an injury to the system when taken even in a moderate degree. In view of all this the paper by Joel G. Van Cleo, actuary of the Equitable Life Assurance Society of The United States, on the "pEffect of Total Abstinence on the Death Rate," printed a short time ago in pamphlet form, becomes particularly interesting and pertinent. In the opening portion of his paper Mr. Van Cleo refers to some figures derived from the experience of the Mutual Life Insurance Company of New York, as cited by Mr. Emory McClintock in a paper prepared by him in 1898, entitled "On the Rates of Death Loss Among Total Abstainers and Others."

In the matter of longevity those who are total abstainers appear to have the best of it, since, according to Mr. Van Cleo, the percentage among abstainers of the actual death loss to the expected death loss was 79, while the corresponding percentage among the non-abstainers or moderate drinkers was 98. These figures will be cordially welcomed by those who are looking for arguments in favor of total abstinence and prohibition.

The question of indulgence in alcoholic beverages is one of world-wide interest, and as high an authority as the late William E. Gladstone has declared that intemperance has been productive of more evil than war, pestilence and famine combined. The lessening of such an evil may well seriously engage the attention of the officers of any life insurance company.

Drunkenness is universally condemned and deplored but all drunkenness began with moderate drinking. Mr. Van Cleo states that the effect of total abstinence is to lower the death rate and to increase the average duration of human life. He appears satisfied that it is so, and he logically closes his argument with a plea for total abstinence which may well be most carefully considered and heeded, even if he may not have absolutely proven his case. In this connection the following table ought to be a trifle startling to the "moderate drinker."

DEATHS AMONG DRINKERS AND NON-DRINKERS.
(From Statistics Compiled by Life Insurance Actuaries.)

	Drinkers	Abst'n'rs
In 26 years...	11,241	6,300
Between the ages of 20 and 70... ...	57,891	44,956
Between the ages of 40 and 50... ...	10,881	6,246

The last figures show an excess of 74 per cent. Between the ages of 20 and 30 it was 11 per cent; from 30 to 40, 66 per cent; from 50 to 60, 42 per cent, and from 60 to 70, 18 per cent. The period from 40 to 50 is regarded by the insurance men as the "prime of life."

EDITORIAL COMMENT.

Vice Admiral Birileff, who started from St. Petersburg, May 25 to take charge of the Baltic fleet on its arrival at Vladivostock, is returning to the Russian capital, and would be glad to hear from somebody who is willing to hire a vice-admiral at living wages.

• • • •

Perhaps Kouropatkin could win back command of the Russian army by hinting to it his willingness to lead it against St. Petersburg.

It looks as if Togo had in his enthusiasm fought himself out of a job.

• • • •

Russia still has a large supply of admirals, vice-admirals and rear-admirals, but if they have any sense of the fitness of things they will quit hanging around for the purpose of signing the pay roll.

• • • •

As a curious effect of the war, the China Review notes, sharks have migrated from the far east to European waters, having been frightened. It is thought by submarine explosions.

CZAR WANTED TO AVOID WAR

But He Would not Discuss the Evacuation of Manchuria With Anyone

THAT PORT ARTHUR ATTACK

Telegrams Show it was not Unexpected by Russia—Czar Gave Orders

St. Petersburg, June 6.—It is learned that Admiral Abas, president of Eastern affairs, in January, 1904, telegraphed to Alexieff, then Viceroy in the Far East, an epitome of the Emperor's views as expressed to Admiral Abasa in numerous audiences. The Emperor considered that every year of peace gained was of enormous importance to Russia, and therefore, not yielding on essential points, Alexieff should do his utmost to avoid war, and that he should be firm but courteous, while not sticking for unimportant details. There could, however, the Emperor said, be no discussion with Japan or any other power about Manchuria. Russia would not regard Japanese occupation of Korea as a casus belli. On the contrary, such occupation would be advantageous to Russia, because it would convict Japan of the violation of all international law.

JAPS READY FOR WAR.

In connection with Admiral Alexieff's audience of the Emperor Wednesday an interesting correspondence is published, showing how Alexieff, beginning in January, 1904, warned his Majesty that the Japanese were preparing to occupy Korea, that they had a whole fleet and army ready, constituting a grave danger to Russia. He warned his Majesty that the Japanese would thereby ruin all Russia's plans and force her to centralise any eventual operations northward of the Yalu River, and leave Port Arthur to its fate.

Alexieff also pointed out that a Japanese occupation of Korea, even with small numbers of troops, would place Russia in a bad strategic position, and he therefore urged mobilisation in the Far Eastern districts and other warlike preparations, including the occupation of the mouths of the Yalu, as being absolutely imperative.

ONLY A LAST RESORT.

The Emperor telegraphed authorising these general preparations for war, with the exception of the occupation of the mouth of the Yalu, which his Majesty considered as being undesirable except as a last resort.

In the middle of January, Alexieff again warned the Emperor that owing to Japan's provocative attitude the negotiations would probably end in rupture.

EXPECT NAVAL ATTACK.

In view of the Japanese surprise at Port Arthur, the following two telegrams from the Emperor to Alexieff will be of considerable interest:

"January 25 (old style) — Seeing that diplomatic relations with Japan have been broken off, you can prevent, if you consider it necessary, a Japanese descent on Korea."

"January 26 (old style)—It is desirable that the Japanese and not the Russians should commence hostilities. If they begin the war you should not prevent their descent on Southern Korea, or near Gensan, but if their fleet, with or without invasion, passes the 38th parallel, you have the right to attack it without waiting for the first shot. I place my trust in you. May God help you."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tenopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

DRS. KENNEDY & KERGAN

148 Shelby Street, - DETROIT, MICH.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each

200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1 000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties.—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Morse, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Carr, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company is the Wilkins, Murphy, Dome, Rock-Hill, Ben Burb, Columbia, Reindeer-Annex, John Thompson, Frank, and Parsons, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the condition resembling that of coal formations; consequently, the direction and trend of the ore bodies are readily followed and determined, and by preliminary exploration, their courses have been found to underlie the surface ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 25 years it has produced upwards of $210,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1,000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent Stock at Twenty-Five (25c.) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profits. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S, G, COLLINS & COMPANY,

35 Congress Street, Boston, Mass.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least o thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

E STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

KAISER WILLIAM MASTER OF EUROPE

Only Sovereign Desirous of Continuing the War

WAR PARTY IS UNDAUNTED

Think Continuing the War is Cheaper Than Paying Japan An Indemnity —No Fleet for Baltic

St. Petersburg, June 5. — Fearing that the immediate election of a national assembly will result in the return of a radical majority, the Czar's counsellors are postponing the publication of the Imperial decree until the excitement is over.

The war party has not weakened. It argues that the worst has happened, and that as there is nothing more to lose, resistance to the end will exhaust the Japanese and will be cheaper than paying an indemnity. It does not believe that Japan will send a fleet to the Baltic, and assert that the climate of the Siberian desert will prove an effectual check to the further advance of Oyama.

Foreign mediation is the hope of the peace party.

Prince Obolensky said to your correspondent today: "French investors cannot afford Russia's further exhaustion. America and England do not want Japan's further increase. Germany alone is gaining by the war. The strikes have obliged Russia to buy everything from Germany on the worst terms.

"The Kaiser has also profited by our misfortunes to acquire a species of supremacy in Turkey. He will soon absorb Austria and is even trying to win over Japan from England. On the very day the Russian fleet was destroyed by the Japanese, William decorated Prince Arisugawa, Japan's deputy to the Imperial wedding in Berlin.

"The Kaiser is against mediation. He wants the war to continue because the Baltic fleet being gone and the Polish frontier undefended, Russia is at the mercy of Germany. The Kaiser is Europe's master without the shadow of a doubt. England, France and America are likely to urge the Czar to conclude peace."

It has now been ascertained that the docks at Vladivostok would have been incapable of offering a refuge to all the Russian fleet had Togo spared it.

TWO JAPANESE VISITORS

Two Merchants From Tokio Now at Montreal

Montreal, June 5.—Two Japanese from Tokyo—Mr. K. Kosu, a merchant, and his interpreter, Mr. W. Iijima—arrived at the Windsor hotel this afternoon. They have just completed a tour through the United States, having landed at Seattle. Interested in the butter and cheese trade, which has latterly grown to some considerable proportions in Japan, they intend to take back with them between forty and fifty Jersey and Ayrshire cows, which will be the first batch of cattle ever exported from Canada to Japan for commercial purposes. Formerly, Mr. Kosu said, the Japanese obtained their cattle from England and Switzerland, but on the outbreak of the war they were forced to look to the United States.

Mr. Kosu is of the opinion that the Japanese will prosecute the war until they have driven the Russians not alone out of Manchuria and Corea, but until they have closed every Pacific port of the Czar. The Japanese, who maintains, look upon this consummation as absolutely essential to the continued existence and prosperity of their island kingdome. They are willing that both Port Arthur and Vladivostok should be free ports, but they are determined that neither these nor any other Pacific ports shall be capable of fortification by the Czar.

JAPAN TAKES FIRM STAND

Russia Must Take First Step in Peace Negotiations

London, June 5—"Russia must give up all idea of Japanese inferiority before peace will be possible," said Baron Suyematsu, the Mikado's confidential financial agent here to a press correspondent.

"While our opponents cling to any vestige of the notion that yellow is the badge of racial dishonor compared to white, we cannot expect the Czar to consent to terms of peace which Japan can accept. Justice will be done us through the world. The parade is going on in Europe and America. I can tell Russia it will help the Czar's cause no more than did the mythical army in Manchuria, or the far spread fleet of Rojestvensky. There may be those who wish to rally against us in this cry, but happily there are other and more powerful, who will have none of it. Japan is ready to make peace on the merits of the situation the moment Russia shall abandon its slumfness and propose negotiations. In the absence of such action on Russia's part the war will be prosecuted."

OLD WARSHIPS GETTING UNEASY

These Sunk in 1812 Just East of Fort Henry Shift Into a Dangerous Place

Kingston, June 5.—During the winter there has been a shifting of the wrecks of the men-of-war ships sunk in 1812 in Dead Man's Bay, just east of Fort Frances. Major H. E. O. Hewitt, of the Royal Military College, out boating yesterday, came across the ribs of an old wreck at the entrance to the bay. It had moved several hundred feet from its place of burial, and is now a menace to navigation, for further shifting would bring it into the routes of the river steamers. Major Hewitt is asking that the danger spot be buoyed. The timber of the wreck is in good state of preservation.

CHINESE YOUTH HAS LEPROSY

Has Lived in Filthy Condition for Several Years

Vancouver, B. C., June 5. — Last week a Chinaman came to Vancouver from Yale. Today the youth, who is but twenty-one, will be taken to Darcy Island to end his days. He has lived in a shack for several years in filth and eating fish, almost entirely. The health officer, Dr. Underhill, made a microscopic examination of the humor from the pustules on his body and found them filled with the bacilli of the dread disease, leprosy.

NATURAL GAS, FORTY CENTS

The Town of St. Catharines, Ont., is Now Using It

St. Catharines, June 5.—St. Catharines is using its first natural gas, the work of piping the city being completed. Most of the streets have been piped, and there is a rush of applicants for the service.

Artificial gas here is a dollar and a half a thousand, but the natural gas is sold at forty cents, with ten per cent. discount for prompt payment.

PRIZE SHIP TAKEN FROM RUSSIA

Japanese Free a British Steamer Captured by Rojestvensky

Tokio, June 5.—It now appears that the report of the sinking of an American vessel by the fleet of Admiral Rojestvensky grew out of the seizure of the British steamer Olbamia, bound for Japan, which was later retaken by Japanese war ships.

NEW JUNK BUSINESS IN PETERBOROUGH

C. Goldman

History and Production of the Goldfields of Boulder County, Colorado, Portraying Economic Conditions Which Predict the Coming Goldfields of Colorado and Presenting the Stock Offering of a Great Gold Mining Enterprise of the United States Gold Corporation

FREE

Our booklet on the gold fields of Boulder County is off the press, and is being distributed free to investors. We have prepared this book to advertise the gold fields of Northern Colorado and our great gold mining enterprise. The books will be free for the asking while they last. It will tell you of how over fifty millions have been added to the world's wealth in production of gold, silver and copper under primitive methods and from surface workings of an average depth of not to exceed 250 feet. It will tell you of its great tungsten belt, the largest in the world. It will tell you of the existence of a diversity of precious and rare minerals, unrivaled by any other gold fields on this continent. It will tell you of a mineral area of twenty-five square miles literally covered with a network of veins, practically undeveloped, with only one shaft below the thousand foot and half a dozen below the six hundred foot level. It will tell you of a gold field nearer to the Denver smelters than any other in Colorado; of a change of economic conditions, in this section, which will enable the miner to ship ore to the smelters, at a net profit, that is now being thrown over the dumps in other sections of Colorado; it will tell you of a field so attractive that it resulted in the construction of two railways from one end of the field to the other. It will tell you of the substitution of modern and up-to-date mining methods, in place of the primitive ones of the past; in short, it will tell you of all those conditions which predict for the gold fields of Boulder County the coming gold fields of Colorado.

It will also tell you of our great gold mining enterprise in the western part of the gold fields of Boulder County, near the continental divide, where nature has deposited her largest and richest treasure vaults; it will tell you of our economic development tunnel, driven to drain and develop a mineral estate almost a mile long and half a mile wide; of the thousands of tons of gold ore now blocked out and ready for shipment in the five different veins cut by this tunnel in driving it eight hundred feet, the result of two years' steady development work night and day; of our wonderful discovery of molybdenite—a rare metal—in large commercial quantities, foretelling for us the first molybdenite mine in Colorado that is producing, as well as a large and permanent source of revenue, of our project to drive this tunnel, long before the end of this year, into the famous Fourth of July dyke or "Mother Lode," from which the far famed Caribou group of mines produced twenty million dollars in gold, silver and copper from 1869 to 1893; of the tremendous possibilities for ore production which will follow the cutting of a mineral dyke from 50 to 100 feet wide at a depth of a thousand feet, and the great probability of our opening the first great copper mine in Colorado when we reach this dyke with the tunnel. In short, it will tell you of a gold mining enterprise that will go on a large producing basis long before the end of 1905; of an enterprise with possibilities second to none in Colorado, the developments of which have already shorn it of any element of risk or speculative features, rendering the investment offered a safe and attractive one.

For the financial and commercial standing of the business men who stand back of this enterprise we refer you to the First National Bank, Boulder, Colo, or Bradstreets Commercial Agency

The edition will not last long. If you would be sure of securing a copy, write to day, or your name and address on a postal card, with the word "Booklet," will do the work.

CATARRH

RUINS HEALTH AND BEAUTY CAUSES THE WEAK TO DIE YOUNG INVARIABLY LEADS TO CONSUMPTION.

Thousands Annualy Cured by Catarrhozone

MR. ARCHIBALD BASS, of New Harbor, writes: "Catarrhozone proved itself a remarkable remedy in my case. I suffered terribly from catarrh in the throat and my nose was so stuffed up every morning I could hardly draw my breath. The mucous dropped back into my stomach, upset my digestion and kept me sick all the time. Catarrhozone relieved in a short time and cured perfectly."

MRS. W. F. BREACH, of Chapman, writes; "I have used a great many catarrh remedies but none of them ever helped like Catarrhozone. It cleared out my nose and throat and stopped a ringing noise in my ears. Catarrhozone is very pleasant and simple to use and many times better than any other catarrh remedy."

MR. LAWRENCE KENNEDY, of New West Annan, says; "For three years I tried doctors but my catarrh grew worse and worse. I got no relief till I used Catarrhozone. It was not very long in curing me so perfectly that the disease has never returned."

MR. JOSEPH De ROCHE, one of the most prominent and highly respected citizens of Loggieville, N.B., says; "I used Catarrhozone for a sore throat, cold in the head and headache. I always felt relief immediately. It cured the discharge from my nose and restored my sense of smell lost through the effects of catarrh."

Catarrhozone is simple, convenient and pleasant. It is warranted to instantly relieve and permanently cure.

Complete outfit consists of a beautiful polished hard rubber inhaler and sufficient liquid for recharging to last two months. Costs $1.00 or sample size 25c. Sold by all druggists, or sent by mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford Conn., U.S.A.

To Let.

The house at present occupied by the undersigned, corner Barnardo and Bennett streets. 2wd

GEO. BROWN.

Unusual Receptacle for Tobacco.

Jim Dolan, the George street cigar man, was somewhat startled yesterday afternoon. A rural patron walking up to the counter said "Give me some chewing tobacco please," at the same time holding up, with its mouth wide open, an empty two bushel bag.

"Great Cæsar," said the cigar man, "how many cases do you want?" The customer replied that $2 worth would do him till he came into town again.

Lindsay Water Contains Snakes

The Lindsay Watchman-Warder says that local residents will do well to examine their drinking water before using it. On Tuesday Mr. L. Williamson discovered in a glass of fresh drawn water a "horse-hair" snake, measuring about eighteen inches. The snake was promptly placed in a bottle of water, is still alive and may be seen by anyone who cares to call at Mr. Coad's drug store. Parties intending to take the gold cure might procure a specimen of Lindsay water and keep a bottle on the bedroom table. It would be cheaper.

COUNTY MAPS

Only a few copies left of the new map of the County of Peterborough: Price $2.50 each. Secure one before they are all sold. For sale at the Times Bookstore.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of our graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. W. H. Hill took a trip up the Lakes yesterday.

—Hon. J. R. Stratton went up the Lakes yesterday morning.

—Mr. R. B. Rogers went up to Stony Lake yesterday morning.

—Mr. Alex. Elliott went up to Stony Lake yesterday morning.

—Jas. Argue, Elgin, Manitoba, is visiting friends in town.

—Mrs. W. J. Johnston, Norwood, is visiting friends in town.

—Mr. and Mrs. C. W. Dooley, London, Eng., are at the Oriental.

—Mrs. John Jayes left yesterday evening for Toronto on a visit.

—Mr. David Philips, of Winnipeg, Manitoba, is registered at the Oriental.

—Mr. and Mrs. Leander A. White, Denver, Colorado, are in town, visiting with friends.

—Mr. A. A. Hollingshead, Manager of the Bank of Ottawa, left yesterday morning for Stony Lake.

—Mrs. McQueen and Miss McQueen, of Owen Sound, who have been visiting with Miss Belleghem, Hunter street, have gone to Montreal, where they will remain for awhile.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Port Hope has another industry —a Culverwell paper mill.

—The annual Flower Service at St. Luke's church, will be held on Sunday evening, June 25th.

—For genuine bargains see south window of Times Bookstore. All articles, choice for 25 cents each.

—A meeting of the Decoration Chapter of St. Luke's church was held last night at eight o'clock in St. Luke's rectory.

—A special meeting of St. Andrew's Ladies' Aid Society is called for Wednesday evening after prayer meeting.

—The two weeks' special mission mission services, by the Redemptorist Fathers, in St. Peter's cathedral, are now a thing of the past, but the results of their strenuous endeavors will live on and long.

—The regular meeting of St. Andrew's Y. M. C. will be held this evening, when Mr. Kenner will give his illustrated lecture on "A Ramble Through the City of the Seven Hills." All interested will be welcome.

—Mr. Archie Weir has sold his fine new brick house, corner of Rogers and Hunter streets, Fifth Ward, to Mr. G. L. Hay. The price paid was in the neighborhood of $3,200. Mr. Weir and his wife are going to the Pacific Coast, where they will reside in future.

—Few fancy china pieces consisting of cups and saucers, trays, cream pitchers, sugar bowls, tumblers, mugs, vases, etc., with view of Jackson park and St. John's church on each. These make a handsome souvenir—see them. Price only 25 cents each. Times Bookstore.

—One hundred and forty C. O. F. brethren, belonging to Courts Peterborough, No. 29, Langton, No. 344, and Littlejohn, No. 92, on Sunday night listened to an impressive sermon by Rev. J. C. Potter, in St. Andrew's church. The marshalls were Messrs. R. E. Layfield and W. Kempt.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrography Work. Studio 134 Brock Street, Peterborough.

—A Lindsay paper tells of a good Christian brother, at a mid-week religious meeting in one of the churches, handing a stranger a five dollar bill, asking him to go out and get it changed. The stranger returned with the money. It is easy to believe the man was a stranger. He couldn't have been a native.

—The residents of the Fifth Ward living west of Mark on Hunter street, are caused great annoyance by a crowd of boys and young men who make a practice of loafing round that part of the town. These gentlemen went so far as to break one or more windows, and particularly those of the Chinaman who lives there. Some of the more prominent citizens threaten to call the the police.

All Aboard for Europe!

Think of it! The British Isles spread out before you in the form of the three-leaved clover, Scotland representing the top leaf, and England and Ireland corresponding to the lower leaves on either side. Such is the mind's-eye picture which fancy draws for those who seek recreation novelties, and with just such a picture is summer beckoning you away to other climes. Scotland is noted for the abundance of historic features which its territory encompasses. Here will be found the venerable and majestic cathedrals around which Scotia's traditions linger, the famous castles of romantic and chivalrous associations, the birthplace of the lovable and nature-knowing bard, Robert Burns, and the poet Sir Walter Scott, the picturesque and beautiful capital of ancient Scotland—Edinburgh—"Europe's Holiday City," together with the Giant's Causeway, the grandest and most sublime work of nature, as a prelude to the pleasures which a trip to Europe by the Anchor Line route embraces, besides being within easy reach of the eloquent Blarney Castle, Bells of Shandon, and unrivalled Lakes of Killarney, the never-failing attractions of Ireland. That such a trip is not the exclusive privilege of the rich, but a delightful and practical expedient for persons of moderate means, is demonstrated by the Anchor Line which affords the means at the minimum expense. The new twin-screw steamships of that line have at a bound given the line additional fame because, which, together with the excellent service and solicitude for the comfort and welfare of all classes of passengers, have made for it a following peculiarly its own. An entertaining book of tours can be had free by addressing the general agents, Henderson Brothers, 17 and 19 Broadway, New York.

Obituary.

Miss Clouston of Montreal Drops Dead

A young lady well known by many people in Peterborough, in the person of Miss Oda S. Clouston, Montreal, is dead. The young lady was the elder daughter of Mr. E. S. Clouston, general manager of the Bank of Montreal, and died last Friday evening suddenly at the residence of her father, No. 362 Peel street.

Mrs. Clouston, accompanied by Miss Clouston and Miss Marjory Clouston, only returned Friday morning from Europe, having arrived in New York the day before on the Oceanic. Friday evening the young ladies were preparing to attend the dinner Lady Allan was giving for Miss Evelyn Mackenzie and the attendants at her marriage, when Miss Clouston became suddenly ill, and expired almost immediately.

Miss Clouston and her sister were to have acted as bridesmaids this week at the marriage of Miss Mackenzie to Mr. Lissant Beardmore, of Toronto, and had returned home from Europe especially to attend the wedding.

Mr. E. S. Clouston, who was in England with his family, is still abroad, it being originally planned that he would sail for home on the 9th inst.

Miss E. Henderson Dies in Toronto.

The many friends in Peterborough of Miss Edith Henderson, a niece of Mr. Jas. Henderson, Keene, will learn with regret of her death in Toronto on Saturday. Miss Henderson has been attending Westminster Ladies' College, in that city, and contracting typhoid fever was removed to the General Hospital, where she died. Rev. J. G. Potter drove to Keene late Friday night to acquaint Miss Henderson's friends with her precarious state. Her father arrived in Toronto on Saturday just as she passed away.

2,000 Excursionists Coming.

The Lindsay Basenalt team will be here Wednesday, and it is up to the locals to take another fall out of them. This is the date of the Thornton, Ivy, Barrie, and Orillia joint excursion, and the excursion committee have requested Manager McEwen to arrange for a big crowd to see Wednesday's game. Get into the game and enjoy yourself.

Police Court

OFFICIALS

Chief of Police, G. L. Reed

Magistrate, D. W. Dumble

Yesterday morning's session of the police court was a short one. On Saturday evening a peaceful Acadian drama was being enacted on Water near Simcoe street. The dramatic personae were a local Damon and Phythias. Damon mounted on his bicycle, was slowly wheeling along the pavement, his arm thrown in friendly embrace about the neck of Pythias, the two engaged in close conversation.

From the rear appears the avenger in the plot, P.C. McGinty; slowly, softly, with heart hardened as to his victim's pocket book, forward crept the officer, until he reached the friends buried in conversation, and forgetfulness of local by-laws.

The firm hand of the law fell upon the rider's shoulder, then he dismounted.

Officer and victim retrace their steps towards the town clerk's office. They enter. Exit the victim, $2 to the bad, the officer with a face covered with the smile that won't come off, the town's bank account $2 to the good.

His Worship, seeing that the law-breaking wheelman has so promptly paid the usual fine for this offence on Saturday night, allowed the matter to rest there without haling the rider before justice, or imposing any further expense costs.

Thos. Quinlan, of Union street, was charged with having, on Saturday night, discharged a fire arm, a revolver to wit, within the town limits. On being asked whether he was guilty or not, Quinlan said "I do not know, I was too drunk to remember." The Chief explained the absence of his witnesses, to his Worship, by saying Quinlan had told Officer McGinty he intended pleading guilty. The case was enlarged until this morning to enable the Crown to produce their witnesses. The prisoner was allowed to go on his own recognisances, he agreeing to be on hand for trial.

Mr. Braund's Denial

A Malicious Lie Affecting a Local Grocer Emphatically Contradicted.

Mr. R. C. Braund, the well known grocer, 55 Park street, is much vexed over rumors that have circulated of late, particularly in the south end of the town, to the effect that he had contracted with the Canadian General Electric Company's officials, to supply them with laborers at $1 per day.

We are in a position to know that there is no foundation whatever in the rumor, and that Mr. Braund is the last man who would be guilty of trying to introduce cheap labor in town, and particularly in that portion of it on which he is largely dependent for his trade.

To originate or assist in circulating so unfounded and malicious a charge against any one is below contempt, especially so when such a report would tend to injure a business man among his customers.

Mr. Braund would much prefer seeing the working man paid five dollars a day than one.

Lindsay Coming.

The Lindsay Baseball team will be here Wednesday, and it is up to the locals to take another fall out of them. This is the date of the Thornton, Ivy, Barrie, and Orillia joint excursion, and the excursion committee have requested Manager McEwen to arrange for a big crowd to see Wednesday's game. Get into the game and enjoy yourself.

WEATHER NOTES.

Fine and warm.

HOW GERM DISEASES START

People with Weak Stomachs in a Continual State of Danger.

Nearly all disease germs that find lodgment in the system gain entrance with the air we breathe, or through our food and drink.

If the stomach and digestive organs be weak, so that food does not readily digest, they will contain a sour, slimy fermenting mass, an ideal spot for the disease germs to grow and spread through the whole system.

People with a weak stomach are in a continual state of danger, and they should use the best means, Mi-o-na, to strengthen that organ and tone up the whole digestive system. This remedy is a certain cure for all diseases of the stomach excepting cancer. Used before each meal it so strengthens the whole digestive system that you can eat what you want and all you want without fear of indigestion. There will be no fermentation of food, and the stomach and intestines will be so clean and pure that disease germs cannot possibly live, when Mi-o-na is used.

If you suffer with headache, backache, variable appetite, nausea, gnawing at the pit of the stomach, sallow skin, heart-burn, furred tongue, sleeplessness, any general debility, it shows that the stomach has been overworked and weakened. A fifty cent box of Mi-o-na tablets give quick and speedy relief.

Ask Wm. Medill, one of the most reliable druggists in Peterborough, to show you the strong guarantee under which he sells Mi-o-na.

CHILL WINDS

Are the dread of those whose lungs are "weak." Some fortunate people can follow the summer as it goes southward, and escape the cold blasts of winter and the chill airs of spring. But for the majority of people this is impossible. Family cares and business obligations hold them fast.

"Weak" lungs are made *strong* by the use of Dr. Pierce's Golden Medical Discovery. It cures the obstinate cough, heals the inflamed tissues, stops the hemorrhage, and restores the lost flesh to the emaciated body.

"I am a railroad agent," writes J. B. Staples, Esq., of Barclay, Osage Co., Kans., "and four years ago my work keeping me in a warm room and stepping out frequently into the cold air gave me bronchitis, which became chronic and deep seated. Doctors failed to reach my case and advised me to try change of air, but, fortunately for me, a friend also advised me to try Dr. Pierce's medicines. I commenced taking your 'Golden Medical Discovery,' and by the time I had taken the first bottle I was better, and after taking about four bottles my cough was entirely gone. I have found no remedy for seeking another climate."

Sometimes a dealer, tempted by the little more profit paid on the sale of less meritorious medicines, will offer the customer a substitute as being "just as good" as the "Discovery."

You get the People's Medical Adviser, the best medical work ever published, *free* by sending stamps, to pay expense of customs and mailing *only*. Send 31 one-cent stamps for book in paper covers, or 50 stamps for cloth-bound volume, to Dr. R. V. Pierce, Buffalo, N. Y.

NOTICE.

NOTICE IS HEREBY GIVEN

That the following By-laws were passed by the Council of the Corporation of the Town of Peterborough on the sixteenth day of May, A.D., 1905:

By-law No. 1148, providing for the issue of debentures to the amount of $7897.41, secured by local special rates, on the properties fronting or abutting on parts of streets in the Town of Peterborough, therein set out and described for the purpose of paying the property owners' share of the cost of granolithic sidewalks constructed thereon during the year 1904.

By-law No. 1149, providing for the issue of debentures to the amount of $5026.60, for the purpose of paying the proportion of the cost of granolithic sidewalks, payable by the Corporation of the Town of Peterborough on parts of streets in the Town of Peterborough, therein set out and described, constructed during the year 1904.

By-law No. 1150, providing for the issue of debentures to the amount of $1771.05, for the purpose of paying the part of the cost of sewers constructed during 1904 on parts of streets in the Town of Peterborough, therein set out and described, payable by the Corporation of the Town of Peterborough.

By-law No. 1151, providing for the issue of debentures to the amount of $7614.02, secured by local special rates on the properties fronting or abutting on parts of streets in the Town of Peterborough, therein set out and described, for the purpose of paying the property owners' share of the cost of sewers thereon, constructed during the year 1904.

Further that such By-laws were registered in the registry office of the County of Peterborough on the twenty-second day of May, A.D., 1905.

Any motion to quash or set aside the said By-laws or any of them, or any part of any of such By-laws must be made within one month from the date of registration thereof, and cannot be made thereafter.

Dated at Peterborough, this 22nd day of May, 1905.

S. R. ARMSTRONG

THE

Montgomery Mountain Mining Company

BULLFROG

promises to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD or BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining.

This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are

President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange

Vice-President, Hon. JOHN SPARKS, Governor of Nevada.

Directors: D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys at-Law, Goldfield, Nevada.

The Company refers by permission to

McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank, Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.

We can supply orders for a limited number of shares at 75 cents per share, if orders for same are received at once. You may telegraph your order to us at our expense and follow same with certified check or Bank draft for the amount of subscription.

Delcasse Resigned, Kaiser is Victorious.

France's Minister of Foreign Affairs Leaves the Cabinet as Result of Morocco Situation --Rouvier Assumes Duties of the Office.

Paris, June 6.—M. Delcasse today presented his resignation and definitely retired from any further direction of the foreign affairs of France. His resignation was presented at a meeting of the Council of Ministers after he had ordered it to be desirable in the interest of the Ministry and country to place his resignation in the hands of the President. The meeting held at Elysee Palace under the presidency of President Loubet. The Council opened at 1.10 p.m., and lasted nearly two hours. The meeting aroused deep interest owing to the belief that the Moroccan situation would result in a Ministerial crisis.

THE REASONS GIVEN.

M. Delcasse, in submitting his resignation, explained the reasons leading up to his action. He said he recognized that differences of view had arisen between himself and his colleagues relative to the execution of the foreign policy of France, particularly concerning the direction of the negotiations with Morocco. There

THE FORMAL REGRETS.

Premier Rouvier, in responding, expressed the regret of his colleagues, adding a tribute to M. Delcasse for his past services. M. Rouvier thereupon announced that he would take, ad interim, the duties of the Minister of Foreign Affairs.

Found A Bomb Plant.

Russian Police Uncovered a Factory at Riga and Seized Fifty Bombs Besides Revolvers Daugers and Other Arms.

St. Petersburg, June 7.—The police of Riga have discovered a bomb factory in the Phoenix foundry there. Fifty bombs were seized, besides many revolvers, daggers and other arms. A number of persons were arrested by the police. The prisoners fought desperately before they surrendered.

VISITING SHANGHAI.

Shanghai, June 7.—Two Japanese destroyers, the Murasame and Sazanami, with Vice-Admiral Uriu's squadron, off Gutzlaff Islands, are coming to Woosung today. They have promised to remain only twenty-four hours.

LUXURY IN TRAVEL

Lord Hawke's High Opinion of the Canadian Pacific Railway.

"Lord Hawke is a judge of comfort in travel if any man is," says the London, England, Canadian Gazette, which adds;—"Last week he returned from India and Japan by way of the Pacific and Canada, and we can well believe how every Canadian Pacific Railway official will blush as he reads what the famous cricketer has to say in the Sheffield Daily Telegraph. "I have never known such a company as the Canadian Pacific Railway," says he; "the travelling is luxury. Everyone on the whole line is civil, kind and willing to do everything to do everything to add to one's comfort. As to the journey across the Rockies, it was superb. Once we had a rare experience of one engine at the front of a second, with a third pushing its hardest at the rear. We shouldn't have got up otherwise. I was with Lord and Lady Castlereagh on that part of the trip, and we couldn't have had a finer time of it. The scenery is wonderful, and the weather was grand. I was riding on the engine part of the way across." Writing to a friend, Lord Hawke says;—"Everyone in Canada, was goodness itself, and I should like to add how much I admired the wonderful management of the Canadian Pacific Railway."

Mr. J. A. Morrison, Tailor Assigns

Yesterday Mr. J. A. Morrison, who has for some months conducted a merchant tailoring business at 285 Water street, yesterday made an assignment to Mr. O. LaPlante, for the creditors. It is understood that the cloths, linings, buttons and sundries on hand, are worth about $600. The liabilities are not yet made public. We understand that Mr. Morrison is going to New York to reside. The shop fittings were disposed of by private sale.

Local Medicos Successful

Among the list of successful candidates in the recent Trinity medical examination, published in yesterday's Toronto papers, appear the names of two gentlemen well known here. Mr. R. R. B. Fitzgerald, of Lakefield, son on Mr. John F. Fitzgerald, takes the gold medal in the final M.D.C.M. examination, and in the same examination Mr. G. H. Carlisle, son of Mr. John Carlisle, of Fifth Ward, has passed in Class B. Both these young men are deserving the highest commendation, and are tendered the Times' congratulations.

THE absolute purity of the ROYAL BAKING POWDER makes it pre-eminently the most useful and wholesome leavening agent known. It contains no lime, alum, phosphate or ammonia, leaves no acid or alkaline residuum in the food, and its use always insures pure, light and sweet bread, biscuit and cake which are perfectly digestible and wholesome, whether hot or cold, fresh or stale.

Royal Baking Powder has been analyzed by the Chief Health Officers of Great Britain, Canada and the United States who recommend it for its wholesome and economic qualities.

FIELD MARSHAL OYAMA

Who is being strongly reinforced preparatory to the big land engagement with General Linevitch which is expected to take place within a few days.

Will Hear the People.

The Germ of Responsible Government in Russia is Sown--Establishment of a Legislative Assembly Consisting of Two Houses is Likely.

St. Petersburg, June 7.—The details of the epoch-making battle of the Sea of Japan, which are drifting in here through the foreign press, and even the question of peace or war are almost ignored in contemplation of the more absorbing internal situation, created by the sudden elevation of Governor-General Trepoff to the office of Assistant Minister of the Interior, making him virtually dictator, with the dark vision of a policy of reaction and repression. Yet the Associated Press was informed on high authority today that Trepoff's appointment only tells half the story, and that there is a brighter side to the story. As intimated in these despatches last night, it will come in the shape of an Imperial manifesto which will possibly be issued tomorrow, the Empress' birthday or on Thursday, the festival of the Ascension, and will immediately realize the popular demand for a Parliamentary regime by creating a Legislative Assembly, consisting of two Houses.

Obituary.

Yesterday this town lost a good citizen in the person of Mr. John Robertson, a resident of Fifth Ward for some five years. Mr. Robertson was 66 years of age, and died at the residence of his son, Mark, on Euclid avenue, Fifth Ward. He leaves to mourn his loss his four sons, Mark, James, Thomas and William, and one daughter, Mrs. Mitchell Veloyce, of Smith. The funeral will take place on Thursday, June 8th, from Mr. Mark Robertson's residence, Fifth Ward, at 10 o'clock, and proceed to 3rd Line cemetery in Dummer.

BOOK OF BOOKS

Over 30,000,000 Published.

An Oakland lady who has a taste for good literature, tells what a happy time she had on "The Road to Wellville." She says;

"I drank coffee freely for eight years before I began to perceive any evil effects from it. Then I noticed that I was becoming very nervous, and that my stomach was gradually losing the power to properly assimilate my food. In time I got so weak that I dreaded to leave the house—for no other reason whatever but because of the miserable condition of my nerves and stomach. I attributed this trouble to anything in the world but coffee, of course, I dosed myself with medicines, which in the end would leave me in a worse condition than at first. I was most wretched and discouraged—not 30 years old and feeling that life was a failure!

"I had given up all hope of ever enjoying myself like other people, till one day I read the little book "The Road to Wellville." It opened my eyes, and taught me a lesson I shall never forget and cannot value too highly. I immediately quit the use of the old kind of coffee and began to drink Postum Food Coffee. I noticed the beginning of an improvement in the whole tone of my system, after only two days use of the new drink, and in a very short time realized that I could go about like other people without the least return of the nervous dread that formerly gave me so much trouble. In fact my nervousness disappeared entirely and has never returned, although it is now a year that I have been drinking Postum Food Coffee. And my stomach is now like iron—nothing can upset it!

"Last week, during the big Conclave in San Francisco, I was on the go day and night without the slightest fatigue, and as I stood in the immense crowd watching the great parade that lasted for hours, I thought to myself, "This strength is what Postum Food Coffee has given me!"

Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Get the little book, "The Road to Wellville," in each pkg.

Opposes By-law.

Retail Merchants Protective Association Against Package Removal By-Law.

On Monday night the Council, in Committee of the Whole, met previous to regular session of the Council, and, among other subjects, considered the promulgation of a bylaw compelling merchants to open and remove from the pavement, before 10 a.m., all packages consigned to them.

Mr. Robt. Fair, President of the Peterborough Retail Merchants Protective Association, appeared on behalf of his organization and addressed those City Fathers present. He represented that, whilst in sympathy with keeping the pavements clear, it would be next to impossible for merchants to comply with provisions of the law in its entirety.

He explained that it is impossible to get goods cleared from the Customs House, get them delivered at the various stores, unpacked, and boxes put away by ten o'clock in the morning. Sometimes dry goods men get as many as 60 to 70 packages in one consignment, in such cases, it would be beyond reason to ask that the consignment should be delayed for days, as would be the case if merchants had to carry out this bylaw. He asked that the time limit be struck out, and that the police be instructed to use their discretion as to compelling consignees to remove their goods from the walks.

The matter was held over for future discussion.

"Taxpayer" Answered

(To the Editor of The Times.)

In last night's Review appears a letter, signed "Taxpayer," which surprises me, not so much from its cowardly blow, delivered beneath the shelter of a nom de plume, as by its being given publication by a respectable paper.

Its publication proves the thanklessness of politicians. With whatever misfortunes or faults that may have characterized the last pages of Mr. Jas. Stevenson's history, he has done as much for the Conservative party and this town as any man in it, and that a respectable Conservative journal should have become a vehicle for conveyance of such a letter disgusts an old Conservative.

Taxpayer sneaks under cover of a signature concealing his identity to hurt a man that is old and unable to defend himself. Taxpayer's letter blames Mr. Stevenson for his attempt to "load me with taxation," inferentially because of his action in the Institute demand for money.

Mr. Stevenson, of all the School Board, is the only man who has consistently opposed the great expenditure, the only watch dog of the people and their taxes in the Collegiate Institute question. Mr. Eastwood, at the last meeting, with Mr. Stevenson, opposed the $50,000 asked for, unless the Public Schools get some of the public money, the latter opposed it simply because he thought the grant too big. If "Taxpayer" must stab a man under cover, let him do it when telling the truth.

The man must indeed be green who writes on a subject without knowing the facts. Yours truly,

FAIR PLAY.

'Caygeonists Arrive.

Bobcaygeon Leading Citizens Stop Over En Route to Hastings

Last night our local population was augmented by a party of the leading citizens of Bobcaygeon, and with them came Mr. G. Spencer, Divisional Superintendent C. P. R., Toronto and others.

As noted in yesterday's Times these gentlemen are taking the all water route from Bobcaygeon to Hastings and return. The party will break their journey by stopping over here for tonight, and are putting up at the Snowden, National and Munro Hotels. They will leave by the splendid T. V. N. Co.'s str. "Empress" this morning and return from Hastings this evening, when they will spend another night in Peterborough, returning tomorrow morning.

The party includes Messrs. G. Spencer, Toronto, W. Mellmoyle, C. P. R. Ticket Agent, Peterborough, Capt. Cartwright, J. T. Robinson, Capt. A. E. Bottom, W. J. Reid, W. C. Moore, J. P. Davis, W. Kennedy, Rev. Mr. Creighton, John Henderson, and John Bick, of Bobcaygeon, E. P. Young, Pittsburg, Pa., Capt. Burgoyne, and Geo. McGee, of Fenelon Falls, Alex. Fisher, Lindsay, and others, including several local gentlemen. The travellers express their admiration of the scenery passed by and of our wonderful Lift Lock.

Season Open.

Steamer Stony Lake Has Begun Her Regular Trips for This Season

In another column, appears an advertisement containing the Trent Valley Navigation Company's summer time table.

To this should be added their Lakefield-Stony Lake points—Burleigh Falls schedule from June 5th to 17th, inclusive. Steamer Stony Lake or Empress will leave Lakefield daily on arrival of Peterborough train for Stony Lake Points and Burleigh Falls; returning in time to connect with 4.30 train for Peterborough.

Epworth League Convention, Denver Colorado, July 5th to 9th, 1905.

The Official Route selected by Canadian Epworthians and their friends is via the Chicago, Union Pacific and North Western Line, the only double track railway between Chicago and the Missouri River. Low rates open to all. Liberal time limits. Write for Epworth folder and other Colorado literature, including Denver hotels and boarding houses. Special train of tourist sleepers carrying Canadian Delegation will leave Chicago, 10.30 p.m., Monday, July 3rd. Diagrams of sleepers, now ready for assignment of space, on application to H. B. Bennett, General Agent, 2 East King street, Toronto, Ont.

Josephine Carr Committed for Trial.

Will be Confined in a Separate Cell Till Autumn --Mr. Robinette will Plead That She Did Not Appreciate Nature of Act.

Toronto, June 6.—Josephine Carr was this morning committed for trial at the Autumn Assize on the charge of murdering the Murray infant. Magistrate Denison directed that she be confined in a separate cell at the jail until she is brought up in September. Since her arrest she has been at the Children's Shelter.

Mr. T. C. Robinette, K.C., the accused girl's counsel, stated this morning that his defence would in all probability be based upon section 10 of the Criminal Code, which says;

"No person shall be convicted of an offence by reason of an act or omission of such person when of the age of seven, but under the age of fourteen years, unless he was competent to know the nature and consequences of his conduct and to appreciate that it was wrong."

Dr. John Caven testified this morning that the baby met its death by drowning, and that he found sand and water in the deepest parts of the lungs. There were no marks of violence on the body whatever.

Mr. Robinette is having Dr. John Caven associated with Dr. Beamer in the examination of Josephine Carr on behalf of the defence.

Stony Lake.

Many Local Gentlemen Visit Their Summer Cottages.

Many local "Regulars" on Monday took advantage of the fine steamer "Stony Lake" having commenced her regular trips for this summer. They were mainly interested in finding out how their respective cottages had survived the wintry blasts and the months of lack of their inmates' protection.

Quite a number of floating wharves and tops of wharves were seen along the shore, where the ice had got in its destructive work, while here and there a boat placed various quantities of lumber where cottagers were about to make improvements, enlargements, etc. One of the islands that has changed hands this season is "Grassy Island," Mr. Robt. Graham having disposed of this beutiful spot to Mr. Rice, of Perkins, Ince & Co., Toronto.

"Viamede" opened yesterday for business, under the management of Mr. Graham, who went up on Monday to make arrangements for the season.

The Victoria House, at McCracken's Landing, has been opened for the reception of guests, and the proprietor anticipates a good season. A boat will connect with each train from Peterborough, both going and coming, throughout the season.

Ran on a Spike.

Steamer, City of Peterborough, Meets with a Accident.

Yesterday morning the fine steamer City of Peterborough met with what might have been a serious mishap, but by good management and prompt action by her officers, no evil results accrued. When, on her down trip, as she was nearing the locks, the boat touched against the swing boom between the bridge and the upper lock. From that portion of the boom grazed by the steamer projected a sharp spike, which was forced completely through a plank in her bottom. This caused the good ship to spring a leak, but not sufficiently bad to prevent her locking through. When below the lock, the pumps were set in operation, and she was soon pumped dry, and the puncture brought above the water line.

The injury to the steamer is only of a temporary nature and a few hours' work will be sufficient to make her perfectly seaworthy again. Of course it was no fault of the boat that the accident occurred, and the efficient way she was handled, after the accident, proved that the public confidence, for so many years, given to the boats of the Calcutt Line is well founded.

Post Office Addition.

Visible Evidence That Work May be Pushed Forward.

We must congratulate the Dominion Government on the substantial proof, yesterday in evidence, that they do intend, within this generation possibly, to complete the long promised, and long since begun, repairs to the Post office.

Whilst it may hardly be credited, we take pleasure in announcing, for the benefit of those who have not already heard the news, that yesterday, as a result of pressure now being brough to bear, that a long ladder has been placed in the Post office yard, right near the proposed scene of operation. This was thought to be a long step towards actual business. The ladder had holes between the rungs, so it cannot be designed as a shade for future labors; it is too long to be used for lifting mail bags into a waggon. It must be for use in building operations.

Credit to Whom Credit is Due.

There is one man in this town whose efforts to promote, and do so successfully, the pleasure of all classes of citizens, whilst appreciated in the abstract, gain him little personal praise or congratulation. We refer to Mr. Cooney, the caretaker and gardener of our two central parks. These parks now present a feast for the most aesthetic eye, and are the cynosure and admiration, not only of local citizens, but of thousands of summer visitors. They are a credit to the town and reflect honor on the man in charge, who, with comparatively limited supplies, gives so much towards the general enjoyment. It is only fair that the hundreds, who weekly throng Victoria Park, to enjoy both the floral beauties and hear the band play, should do their best to preserve the flowers and good work done by Mr. Cooney.

—For genuine bargains see south window of Times Bookstore. All articles, choice for 25 cents each.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

The Peterborough Turf Club at their last meeting, on Saturday, met Col. Smart, Secretary of Midland Circuit, and Mr. Hagerman, of Port Hope, in reference to the proposed racing circuit to embrace Port Hope, Belleville, Campbellford, Barrie, Orillia, Cannington, Lindsay and Peterborough. Letters of regret were received from Belleville, Campbellford and Lindsay representatives, who were all unable to attend, but who promised to attend the meeting to be held this week. Everything now seems to make the circuit as most likely to be fixed.

Prominent horsemen in the various towns named all speak in warmest terms of the idea, and promise their support.

BASEBALL.

The Toronto-Providence game did not take place owing to rain.

A great game is assured for this afternoon when Peterborough meets their old time rivals, the Lindsay baseball nine. The visitors will have a transh of rooters and will be reinforced by 1,200 Thornton, Ivy, Barrie and Orillia excursionists. They are coming down to win. The locals and the visiting team are the two strongest nines in the Midland League. It will be a great struggle for supremacy.

FOOTBALL.

The champion Galt football team defeated the Quakers last night by 4 goals to 3.

Lakefield—Stony Lake Points—Burleigh Falls

From June 5th to 17th, Inclusive

Str. "Stony Lake" or "Empress" will leave Lakefield daily after arrival of morning train from Peterborough, for Stony Lake Points and Burleigh Falls; returning in time to connect with 4.30 train for Peterborough.

REPORTED DEATH OF CZAR OF RUSSIA.

A report comes today from Berlin that his Czar of Russia has been assassinated.

Whether true or false, it is certain that affairs in Russia are in a desperate state. Internal conditions have been bad enough for a year past, but the utter destruction of the Baltic fleet by the Japanese must have overborne all those who sought to restrain popular anger. If the mass of the Russian people have really entertained any thought of revolution, the colossal disaster of the Tsu naval battle must bring that revolution on. The Czar may still be alive, but there is no safety for him anywhere in an empire so misgoverned that tens of thousands are willing to go to death if they can send their ruler or any of his chief advisers ahead of them.

Toiled to Hard and Broke Down

Nerves Went to Smash—Could not Sleep—Work was Impossible

FERROZONE

Gave Me New Vital Energy—Nourished Me Back to Good Health

Perhaps you are in poor health? But work must be done, and there is no chance to take a rest.

Never mind the rest—it won't be necessary if you use Ferrozone. It builds up the system, enriches the blood, strengthens the nerves, makes you feel like new at once. No medicine in the world is so powerful in restoring health writes C. F. Sommerville, of Weymouth.

"I was weak and miserable.

"I toiled too hard at my business and broke down.

"My nerves went to smash. I couldn't sleep, and simply had to give up everything.

"Did Ferrozone help me? It gave me new vital energy, nourished me back to permanent good health. No better tonic is made than Ferrozone."

All physicians recommend Ferrozone because it is absolutely certain to give strength to those that use it. 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 7 o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

MANY PERMANENT IMPROVEMENTS

RECOMMENDED OF THE BOARD BY WORKS

Reports of Committees Presented at Monday's Council Meeting—Finance Report—City Fathers to be Photographed.

At the Town Council's regular monthly meeting, Monday night, the city fathers decided to act on the request of the Board of Council that the ratepayers be asked to vote another $50,000 for the new collegiate institute. A by-law in this direction will be submitted to the people on June 29th.

Ald. Hicks suggested that the School Board pay the expense of submitting this bylaw. This suggestion will be acted on.

NOTICES OF MOTION.

Ald. Hicks gave notice that on or before October 1st next, he will submit a motion that it is expedient that the Board of Public School Trustees and the Board of High School Trustees or Board of Education for the City of Peterborough should be amalgamated, and that a Board of Education be elected in lieu thereof, to be styled the Board of Education for the City of Peterborough.

Ald. Crowe gave notice that at the next meeting he will submit a by-law governing the moving of buildings on the streets.

A COMPLAINT.

Ald. Johnston complained that the Peterborough Light and Power Co. had not made the changes in street lights and erected the additional lamps called for by the Council some time ago, and he moved, seconded by Ald. Begley, that they be instructed to do so at once.—Carried.

COMMUNICATIONS

An application from A. H. Webb, town, for the position of inspector on the outfall sewer, was referred to the Board of Works.

Property owners petitioned for a pipe sewer on Parry street, from Aylmer to Stewart streets, and on Stewart street from Perry street to the bend on Stewart street, where it turns west toward Park street.—Board of Works.

From James J. Goodwin, asking that the plank walk on south side of Sherbrooke street be extended 100 feet to the west of the present ending.

From property owners, petitioning that a pipe sewer be constructed on Hunter street west, from Rogers to Mark streets.—Board of Works.

The Board of Education, in a lengthy communication, asked the Council to raise by assessment an additional sum of $50,000 for the construction of the proposed new Collegiate Institute, and requested that the question be submitted to the ratepayers, if the Council refuse to pass the necessary bylaw without the consent of the ratepayers.—Received.

From owners of real property, praying that a pipe sewer be constructed on Charlotte street, from the end of the present sewer to the the boundary.—Board of Works.

From John Chinn, Secretary International Convention committee of the Typographical Union, which convention meets at Toronto next August, soliciting an advertisement from the Town in the handsome book being published in connection therewith.—Received.

From W. S. Northey, complaining that the boundary road between the Jones and Smith township, west of Water street, is in a bad condition, and asking that said highway be put in good condition.—Board of Works.

From the District Passenger Agent of the Grand Trunk to Mr. W. Bunton, C.P.A., stating that they had found it necessary already to decline to handle excursions on Monday, August 7th, Peterborough's Civic Holiday, all their equipment being contracted for, and he hoped a change would be made whereby the date for Peterough would be changed to the second Monday in August.—Received.

From the Peterborough Light & Power Company, stating that somebody was making a practice of climbing their poles and deliberately cutting out the lights. Those interfered with are corner Rubidge and Park, corner Rubidge and Sherbrooke, and corner of Stewart and Townsend. Better protection from the police department was asked for.—Fire, Water and Light Committee.

From the Salvation Army Band asking for an additional grant of $100.—Finance Committee.

From George Tyer asking that a board sidewalk and driveway on a short street at the north end of Barnardo avenue, and leading to a new frame house owned by him.—Board of Works.

From A. Edmunds objecting to the construction of a granolithic walk on the west side of Rogers street, 5th road.—Received.

From Mrs. M. Brownlee stating that she was opposed to the construction of a granolithic walk on Rogers street, opposite her property.—Received.

From Mrs. Lynch stating that she had signed a petition asking that the sidewalk on the east side of Aylmer street from McDonnell to London street, be not built, but she wished to withdraw her name. A similar notice was received from Mrs. Sarah A. Davey. Both of these property owners wish the sidewalk built.—Received.

From J. L. Richmond, photographer, saying as this meeting would be the last session of the Council of the "Town" of Peterborough before inauguration as a "city," he would be pleased to take a picture of the City Fathers in group, free of charge, and present the same to the town. He proposed to picture the Council at their desks in the Council Chamber. This offer was accepted with thanks, and a view of the last civic board of the "Town" of Peterborough will shortly grace the future "city" council chamber.

From Town Solicitor E. H. D. Hall, saying that he has been unable so far to get the solicitor for the Canadian Pacific Railway to obtain from the Board of Railway Commissioners the orders authorizing the construction of the Rink and Wolfe Sts. sidings. He also pointed out that the C.P.R. have put in a siding to the Peterborough Cereal Mills, which appears to occupy the reserve on the river bank. This may only be the part agreed to eb conveyed to the Cereal Company, but the Cereal Company are not yet owners of the land, and the consent of the Council should have been secured before this work was commenced.—Received.

From Angus MacMurchy, solicitor, C.P.R., in reference to the above, explaining delay in issuance of said orders, which will be issued at once, and forwarded to the Town Solicitor.—Received.

From owners of real property, petitioning for a granolithic walk on the north side of Sherbrooke street, from Rubidge to Reid streets.—Board of Works.

From property owners praying that a granolithic walk be constructed on the west side of Jackson avenue, from Albert street to the C.P.R.—Board of Works.

From property owners asking that a granolithic sidewalk be built on the east side of Reid street, from Simcoe to Charlotte streets.—Board of Works.

From owners of real property, petitioning that a pipe sewer be constructed on Reid street, from Charlotte to King streets.—Board of Works.

From ratepayers, asking that a pipe sewer be constructed on Stewart street, from Perry street south to opposite the center of block H.—Board of Works.

From owners of property asking that the sidewalk on east side of Aylmer street, north from MacDonnell street to Dublin street, be laid outside the trees.—Board of Works.

BOARD OF WORKS.

Ald. Adams submitted the following report;—

Gentlemen,—Your Board of Works beg leave to report as follows;

1. The following tenders were received for the construction of the outfall sewer, outlet pipe and sedimentation tank in ward five;

	Outfall sewer and pipe	Tank.
Jas. Bogue	$6,210.00	$3,200.00
Murphy & Lowrey	6,534.00	2,900.00
John F. Connolly	7,468.00	
Wm. Newman	9,986.00	2,980.00
T. E. Wade	9,998.56	5,000.50

We recommend that the tender of James Bogtue for the sewer, outlet pipes and tank, being the lowest, be accepted.

2. We recommend that crossings be laid at G. Curtis' on Downie street, at W. H. Curren's on Homewood avenue, and at the corner of Smith and Reid streets.

3. We recommend that the Peterborough Radial Railway Company, be notified to relay the planks on crossings which were taken up by them last year, to raise the track at Sherbrooke and Parks streets, to conform to the grade of the crossing, and to put the roadway on Park street, McDonnell street, and the boundary north of McDonnell street in proper condition.

4. We recommend that a concrete crossing be constructed on the south side of Hunter street at Queen street.

5. The town engineer having reported that the Smith street bridge was in a dangerous condition, and had been closed to traffic, we recommend that he be authorized to have the bridge repaired as speedily as possible.

6. We recommend that the land needed for the extension of George street north to Hilliard street be purchased from Wm. Detcher at a cost not to exceed $900, the land purchased to include all that part of the Dredge lot west of the eastern line of George street produced to Hilliard street, and that the Special Committee on street coaping be authorized to issue a cheque for a sum not exceeding $900 for this purpose on the certificate of the Chairman of this Board.

7. We recommend that the Bell Telephone Company be permitted to

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 60 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in ore year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

The Stubbs Investment Company
Albuquerque, New Mexico

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 20 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON NO NAMES USED WITHOUT WRITTEN CONSENT. W. H. PATTERSON

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Before Treatment After Treatment

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 24 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over ... years, and if they made a ... I could ... treated the worst case. ... but I took his advice. They agreed to treat me under a guarantee or ... investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

CURES GUARANTEED OR NO PAY.

Consultation Free. Books Free. If unable to call, write for a Question Blank for Home Treatment.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each

200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1 000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties:—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Morse, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Carr, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company in the Wilcox, Murphy, Dome, Rock-Hill, Ben Burb, Columbia, Reindeer Annex, John Thompson, Frank, and Parsons, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of rich work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the condition resembling that of coal formation; consequently, the direction and trend of the ore bodies are readily followed and determined, and by preliminary exploration, their courses have been found to underlie the surface ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $310,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1,000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent Stock at Twenty-Five (25c.) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profits. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,
25 Congress Street, Boston, Mass.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least o thousand acres more. In all nearly five thousand acres, which will not be ined out in two hundred years.

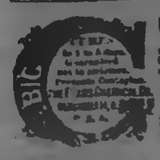
I STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W K. HALL, Fiscal Agent, Peterborough.



MEN AND WOMEN. Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles, $2.75. Circular sent on request.

MANY PERMANENT IMPROVEMENTS

(Continued from page two.)

put up the following poles;—Three on the north side of Edinburgh street between Water and George streets; three on the south side of Smith street, between Water and George streets; six on the north side of Cedar streets between Park and Cross streets, three on the south side of Dalhousie street between Stewart and Rubidge streets, and one on the north east corner of George street near Edinburgh street, and to change poles on the following streets; east side of George street, between Smith street and Barnardo avenue, south side of London street between Water and George streets, south side of Gilmour street between Park and St. Joseph streets, south side of Dalhousie street between Bethune and Perry street, between George and Aylmer streets, the poles to be put in and change subject to the approval of the town engineer.

8. We recommend that no action be taken on the request of L. D. Letellier to have a ditch filled in at the corner of Aylmer and Rink streets.

9. We recommend that no action be taken on a petition asking that Westcott street be opened to Lock street.

10. We recommend that no action be taken on the request of F. L. Robinson to be paid $4 on account of expenses in excavating for a sewer connection.

11. We recommend that no action be taken on the letter from Misses H. and M. Griffith regarding the grade of a sidewalk on the south side of Antrim street.

12. We recommend that no action be taken on the application of the Peterborough Radial Company for permission to connect with the sewer through a private connection being put in by Mr. J. J. Lundy.

13. We recommend that the sidewalk on the west side of Park street near Albert street be laid four feet east of the line of the sidewalk north of Rink street.

14. We have examined the following petitions for local improvements and found them to be sufficiently signed and recommend that they be granted;

A granolithic sidewalk on the north side of Sherbrooke street from Rubidge to Reid street.

A granolithic sidewalk on the east side of Reid street from Simcoe to Charlotte street.

A sewer on Reid street from Charlotte to Rink street.

15. We recommend that on Murray street, east of Dickson street, the street be water-tabled, holes filled in with stones and gravel, and pipe drains be laid under the road at Dickson street and Line.

16. We recommend that no action be taken at present with regard to cutting down Dickson street at summit between Murray and McDonnell Sts., but that the intersection of Murray and Dickson streets be improved by filling holes with gravel.

17. We recommend that the new concrete walk petitioned for on the east side of Dickson street be four feet wide and built inside the tree line where present plank walk is, and that the proposed walk on the west side be not built until the property owners on that side agree to allow the ground to be cut down to a practicable depth for that purpose. Also that the ditch on west side be graded to allow passage of water and that the brush and weeds on bank be cut away.

18. We recommend that the ditch and culverts on south side of Mallon-nell street between Dickson and College streets be cleaned out and renewed when necessary with pipe.

19. We recommend that the proposed concrete walk on the north side of London street between Aylmer and Reid streets be built on the outside of the tree line and that a concrete gutter be built on the steep part of Hill. Also that the culvert at Stewart street be renewed in cement pipe.

20. We recommend that the owners of property on the south-west corner of London and Bethune streets, be notified to remove shrubs off the streets.

21. We recommend that a 12 inch pipe culvert be laid across Cedar St. on the west side of Park street.

22. The proposed extension of Cambridge street between Cedar and Elm street having been examined, it is recommended that Mr. Dumble's offer be accepted on condition the extension be the same width as Cambridge street, and that Mr. Dumble's offer be modified to read that the new street be graded and rolled.

23. We recommend that the grade of sidewalk on face of hill on Bonnecord street be improved by lowering the walk.

24. The Peterborough Radial Railway having constructed a loop at the Jackson Park terminus, part of which occupies the ditch on the south side of Smith street, and obstructs the flow of water from the higher levels of road, it is recommended that the company be required to provide for drainage by laying a 12-inch cement pipe from the ditch on south side of Smith street and west of Monaghan road diagonally across Smith street to the ditch on the north side of Smith street east to entrance to park, 70 feet long, and to have a sufficient fall to carry off the water.

25. We recommend that the culvert under park entrance be cleaned out and repaired.

26. At corner of Charlotte and Bethune streets a complicated system of wooden box culverts at this point caused flooding during heavy rains by the flow of water from Charlotte street west, and from Simcoe street along Bethune intercepted by the tracks of the Grand Trunk Railway and the crossing gates. It is recommended that a pipe drain with catch basins be laid from this point eastward to the creek, a distance of 750 feet, with a branch at Bethune street to the south side.

27. We recommend that Bethune St. west side, be water tabled between Simcoe and Charlotte streets.

28. We recommend that the construction of concrete walks on north side of King street, be deferred until disposal of drain is arranged for as this drain has been found to be partly under where the new walk is intended to be laid.

29. We recommend that the walk on the south side of King street be not constructed until the property owners come to an understanding with regard to the part between the bridge and George streets.

30. We recommend that the proposed concrete walk on the north side of Townsend street, petitioned for by M. J. Bell be extended to Park street, instead of 70 feet west of Rubidge street, and that it be built inside the tree line. Mr. Bell who owns all the property fronting on it to be requested to amend petition.

All of which is respectfully submitted.

Ald. Hall submitted the following report:

Adopted as read.

Gentlemen,—Your Supervision Committee beg leave to report and recommend as follows;—

1. That 12 baskets for waste paper be procured and laced at street corners in the center of the town on posts about four feet from the ground.

2. That a policeman be detailed for duty at Victoria Park on each night of a band concert and that he remain there during the time of the concert to keep order.

3. That three suits for the policemen at $24 each and three extra pairs of pants at $6 each be ordered from Merrell & Meredith in accordance with their sample No. 1 and one suit for the Chief of Police at $30, and an extra pair of pants at $6 and three suits for the driver and engineer of the fire department of sample No. 3 at $24 each, all the clothes to be hand made in Peterborough.

All of which is respectfully submitted.

Adopted as read.

FINANCE REPORT.

Ald. Mason submitted the following report of his committee;—

Gentlemen,—Your Finance Committee beg leave to report as follows;

1. Your committee was interviewed by Mr. Marsh representing the Canadian Municipal Journal regarding a proposed special number of that journal giving an illustrated description of Peterborough, and we recommend that the Council order 150 copies of the special number at a cost of $25, and that the chairman of this committee be authorized to increase the order to $50 worth if he considers the description of such a character as to make the additional copies useful.

2. We recommend that the Mayor and chairman be authorized to sell the debentures for $3,000 for the Public School heating apparatus, and the debentures to pay for the local improvements constructed last year.

3. We recommend that the request of S. Mulligan for the refund of $1 dog tax be not granted.

4. We recommend that no action be taken regarding the request for a grant to the Laura Secord Memorial fund.

5. We cannot recommend the purchase of Ramsey's map of the town at the price quoted.

6. We recommend that a grant of $550 be made to the Peterborough Horticultural Society, the same as last year.

7. We recommend that no action be taken on the request of the Young Women's Christian Association for the remission of school taxes.

8. We recommend that a grant of $500 be made to the 57th Regiment Band, the same as last year.

9. We recommend that the following accounts be paid;

J. J. Turner & Sons	7.25
D. McKercher, when certified by chairman of committee	36.50

All of which is respectfully submitted.

Adopted as read.

TO LIGHT THE PARKS.

Ald. Johnston submitted the following report;

Gentlemen,—Your Fire, Water and Light Committee beg leave to report and recommend as follows:

1. That the salaries of the engineer and the two drivers of the fire department be increased $25 a year, each to date from June 1st, 1905, and that the salaries as thus fixed be the maximum salaries for these offices.

2. That no action be taken on the matter from the Peterborough Light & Power Co., regarding street lights being out on April 29th and May 1st and 2nd.

3. That 24 incandescent electric lights be ordered to be placed in Victoria Park, the town to pay for the wiring and the lamps and the Peterborough Light and Power Co., to furnish the current without charge, and that the lights be placed as directed by the chairman of this committee.

All of which is respectfully submitted.

The Council adjourned at midnight to McCallum's Restaurant, where the Mayor entertained them at supper.

Catarrh Cannot be Cured by Dosing

IT IS A LOCAL DISEASE AND IF CURED MUST BE LOCALLY TREATED.

Seven people out of ten suffer from catarrh. There is no lack of medicines, and if dosing would cure, very few cases of catarrh would be found. You probably have it yourself. How much benefit have you obtained so far from medicine-taking? A little relief is all that you have derived. You have spent lots of money and yet the catarrh is growing worse all the time.

Has it ever occurred to you how desirable and how successful a treatment would be that you could breathe to where the disease existed. Perhaps you have thought about this form of cure but you have been unable to find a remedy that could be pleasantly and safely used.

Try Catarrhozone, it can be broken up by the air and carried in small drops to every part of the breathing organism. It touches the catarrh with healing, that is why it cures.

This healing, balsamic, vegetable substance is so volatile that the air greedily takes up from the inhaler, so antiseptic that it instantly destroys the microbes which produce disease of the breathing organs, and so soothing that it relieves congestion subdues inflammation, and stops mucous discharge.

Plainly Catarrhozone is an ideal remedy for diseases of the throat, lungs and nasal passages. If you have catarrh, bronchitis or asthma all are equally curable by Catarrhozone. You have been told why this is so. These diseases are all modifications of an inflammatory condition of the lining membranes of the throat and nasal passages.

Now, bear in mind, you breathe Catarrhozone. Do you not think this is a rational treatment—a certain way of reaching the diseased surfaces which lie so far in the cavity of the body or in the head that they can be reached in no other way.

You cannot possibly fail to obtain quick cure from any of these maladies if you use Catarrhozone.

All dealers in medicine sell Catarrhozone. Trial, 25c., complete outfit, $1.00, which will last two months and is guaranteed to cure permanently. Sent postpaid to any address by N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Peterborough Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Miss D. Grant, Athol, Mass., is visiting with friends in town.

—Mr. S. A. Ferguson, B. A., Glenavin, is at the Snowden House.

—Mr. A. H. Stration was in Toronto yesterday on a business trip.

—Mr. J. W. Kilbourne, Owen Sound, is a business visitor in town.

—Mr. C. Carl, St. Catharines, was a business visitor in town yesterday.

—Mr. R. G. Williamson, superintendent of agencies of the National Life of Canada, was in town yesterday.

—In the published reports of the results of the examinations in Arts at Toronto University, Mr. T. P. Campbell's name appears as one of the successful contestants.

—Mr. and Mrs. J. S. Knapman celebrated the 15th anniversary of their wedding day Monday evening. Invitations were sent out to a number of friends, and a very pleasant evening was spent.

—Mr. Geo. Davidson, of Nelson, B. C., is in town for a visit. He reports times as good and money plentiful in the Pacific province, as it needs to be, for the cost of living is much higher than in Ontario.

—Mrs. Herbert B. Collier, 315 Rubidge street, will receive each Friday afternoon during June, and thereafter 1st and 3rd Fridays of each month.

—The following members of the Galt Football Club were at the Snowden House last night: E. Linton, J. Gourley, G. Ducker, R. Lane, A. Johnston, Alex. Noble Hill, J. Quilah, W. Finlayson, Geo. D. Hunt, Wm. Douglas, John Brady.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Tonight a garden party will be held at All Saints' Rectory grounds.

—Tonigut after the prayer meeting, a meeting of the Ladies' Aid of St. Andrew's church, will be held.

—As yet the burned station at Millbrook has not been rebuilt, and the Railway Company are using one of their cars as a depot.

—Local drygoods men report that yesterday's rumors, concerning the Czar's assassination, did not largely increase the demand for crape.

—The Lindsay Post says; Messrs. McIlhargney and John Bell each shipped a consignment of stock to Peterborough and Toronto this morning.

—A week from Thursday, June 15th, the first excursion to the Lakes, that under the auspices of St. Paul's Young Men's Guild, will be held.

—A long line of well clad children, mostly in dark blue coats, each holding a large old fashioned school bag, went, two by two, up George street to the Barnardo home.

—The 57th, with Regimental and Fife and Drum Bands, had a large turn out last night. They made a brave showing, and many a maiden's heart went pit-a-pat, as they marched past.

—The regular meeting of St. Andrew's Y. M. G. will be held this evening, when Mr. Kenner will give his illustrated lecture on "A Ramble Through the City of the Seven Hills." All interested will be welcome.

A PLAIN QUESTION: Do you really get the only Painkiller — Perry Davis' — when you ask for it? Better be sure than sorry. It has not, in 80 years, failed to stop bowel pain and pain in the bowels.

—The water was on Monday night let into the section of the Trent Canal immediately above the Lift Lock, and the latter is now in operating condition. The steamer Beaver, and Mr. H. C. Burdett's steam yacht from Port Hope, which have been waiting for several days, locked through yesterday.

—A local citizen yesterday met a friend, off George street, who had a downcast look. "What is the matter old man, sorry to hear about the Czar's fate?" he asked. "Czar, nothing!" was the reply. "Some one killed our cat last night, and she was a fine mouser too!"

—Lindsay Post says; Mr. G. E. Whiten, photographer, of Peterborough, has sold out, having made his "pile," and will remove to Keewatin. Mr. Whiten has been in business less than ten years, and the fact that he has made a fortune in that space of time would seem to indicate that Peterborough citizens are a vain lot.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrography Work. Studio 134 Brock Street, Peterborough.

R. A. DUTTON

Phone 304. 418-420 George street.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO. Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

BY LAW NO.

A By-Law to provide for borrowing a further sum of Fifty Thousand Dollars to pay for the erection and equipment of a Collegiate Institute in the City of Peterborough.

Passed the day of 1905.

WHEREAS By-Law Number 1077 of the Corporation of the Town of Peterborough passed by the Council thereof on the 20th day of May, 1904 after having been submitted to and having received the assent of the duly qualified electors of the Town of Peterborough authorised the borrowing of the sum of fity thousand dollars, for the purchase of a site and to pay for the erection of a collegiate institute in the town of Peterborough and the said site has been purchased for the sum of ten thousand dollars, but the Board of Education for the said town has represented to the Council that in order to erect and properly equip a suitable collegiate institute a further sum of fifty thousand dollars will be required and has by resolution of the said Board requested the said Council to submit a by-law for the purpose of authorizing the borrowing of such additional sum to the votes of the duly qualified electors of the said town.

AND WHEREAS under the provisions of the High Schools Act the said Council is required to comply with such request and it is therefore necessary for the said Council to pass this by-law to be submitted to the votes of the duly qualified electors of the said Town of Peterborough to authorise the borrowing of the said additional sum of fifty thousand dollars for the purposes aforesaid which is the amount of the debt intended to be created by this by-law.

AND WHEREDS in order to raise the said sum of fifty thousand dollars, it will be necessary to issue the debentures of the Corporation of the City of Peterborough for the said amount as the said town will be incorporated as a city on the 1st day of July, 1905, and before this by-law can be finally passed.

AND WHEREAS the amount of the whole rateable property of the municipality liable for collegiate institute rates according to the last revised assessment roll being for the year 1905, is the sum of five million eight hundred and seventy-four thousand, two hundred and sixty-four dollars ($5,874,264).

AND WHEREAS the amount of the existing debenture debt of the municipality, exclusive of local improvement debts, but including the debt of two hundred and ninety-two thousand dollars ($292,000) incurred for the purchase and improvement of the waterworks system and the amount of the debentures authorized, but not yet issued, is the sum of six hundred and sixty-nine thousand and fifty-six dollars, and eighty-one cents ($669,056.81), and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of two thousand dollars ($2,000) to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this by-law to pay the interest of the said debt and the sum of nine hundred and sixty-eight dollars and sixty cents ($968.60) to be raised annually during the said period as a sinking fund for the payment of the said debt, such last mentioned sum being sufficient with the estimated interest on the investment thereof to discharge the said debt when the same becomes payable, making in all, the sum of two thousand nine hundred and sixty-eight dollars and sixty cents ($2,968.60) to be raised annually as aforesaid, by a special rate upon the whole rateable property of the municipality liable for Collegiate Institute rates.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF ENACTS AS FOLLOWS;—

1. This by-law shall take effect on the day of the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of fifty thousand dollars for the purposes aforesaid, and to issue the debentures of the said corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within thirty years after the issue thereof, and to bear interest at the rate of four per centum per annum, payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year, and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the municipality, liable for Collegiate Institute rates, the sum of two thousand dollars ($2,000) for payment of the interest, and the sum of nine hundred and sixty-eight dollars and sixty cents ($968.60) as a sinking fund for the payment of the said debt at the maturity thereof, making together the sum of two thousand nine hundred and sixty-eight dollars and sixty cents ($2,968.60) to be raised annually as aforesaid.

4. The proceeds of the said debentures when sold shall be handed over to the Board of Education for the City of Peterborough to be applied in paying for the erection and equipment of the Collegiate Institute in the Town of Peterborough.

5. The votes of the electors of the Town of Peterborough qualified to vote upon by-laws for creating debts shall be taken upon this by-law on Thursday, the 29th day of June, 1905, commencing at the hour of nine o'clock in the forenoon and closing at the hour of five o'clock in the afternoon of the same day, at the following polling places, and before the following deputy returning officers, respectively, that is to say;—

WARD NO. 1.

Polling Subdivision No. 1—At M. H. Halpin's shop, No. 39 George street;

Time seems most untimely when he brings a woman to the turn of life. Life is or should be at its ripest and best for her, and she approaches this change with a dread of its effect born of her knowledge of the sufferings of other women at this season.

There is not the slightest cause for fear or anxiety at this period if Dr. Pierce's Favorite Prescription is used. It gives health of body and cheerfulness of mind, and by its aid the pains and pangs of this critical period are prevented or cured.

Dr. Pierce's Favorite Prescription is woman's medicine with a wonderful record of cures of womanly diseases. Diseases that all other medicines had failed to cure, have been perfectly and permanently cured by the use of "Favorite Prescription."

"I feel it my duty to write you as I have received so much benefit from the use of your medicine," says Mrs. Lizzie A. Bowman, of New Matamoras, Washington Co., Ohio. "I have taken four bottles of 'Favorite Prescription' for female weakness and change of life. Before I began taking it I could not do anything. I had such pains in my head and in the back of my neck that I thought I would lose my mind. Now I can work every day. I recommend 'Favorite Prescription' to all females suffering in the period of change of life. It is the best medicine I have found."

"Favorite Prescription" has the testimony of thousands of women to its complete cure of womanly diseases. Do not accept an unknown and unproved substitute in its place.

Keep the bowels healthy by the timely use of Dr. Pierce's Pleasant Pellets.

Angus Williams to be Deputy Returning Officer.

Polling Subdivision No. 2—At Lewis Spry's shop, No. 210 Stewart street; Joseph Lundy to be Deputy Returning Officer.

WARD NO. 2.

Polling Subdivision No. 3—At the Town Council Chamber; Richard W. Errett to be Deputy Returning Officer.

Polling Subdivision No. 4—At Greene Bros. store, No. 352 Charlotte street; J. M. Greene to be Deputy Returning Officer.

WARD NO. 3.

Polling Subdivision No. 5—At J. & W. Metheral's shop, No. 464 Aylmer street; Joseph Metheral to be Deputy Returning Officer.

Polling Subdivision No. 6—At Wm. McCall's shop, No. 329 McDonald St.; John Irwin to be Deputy Returning Officer.

WARD NO. 4.

Polling Subdivision No. 7—At Wm. Lee's shop, Smith street; William Lee to be Deputy Returning Officer.

WARD NO. 5.

Polling Subdivision No. 8—At the former village hall, John Malone to be Deputy Returning Officer.

Polling Subdivision No. 9—At Mrs. Swanson's shop Hunter street east; James McDonald to be Deputy Returning Officer.

6. The 30th day of June, 1905, at the hour of 12 o'clock noon and the Town Clerk's Office are hereby fixed as the time when and the place where, the Clerk will sum up the number of votes given for and against the by-law.

7. The 28th day of June, 1905, at the hour of twelve o'clock noon, and the office of the Town Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places, and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in, and promoting or opposing the passing of the by-law, respectively.

NOTICE

Take notice that the foregoing is a true copy of a proposed by-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in The Morning Times newspaper, the date of which first publication is the seventh day of June, 1905, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

VOL XXXIII NO 134 PETERBOROUGH ONTARIO, THUR-DAY JUNE 8 1905 PRICE TWO CENTS

Togo's Flagship in Thick of the Fight.

Received Many Hits but Little Damage Done--Lieutenant Standing Beside Admiral, in Conning Tower, Struck by a Splinter in the Side.

London, June 8.—The Tokio correspondent of the Telegraph says that the Mikasa, Admiral Togo's flagship, was in the thick of the battle. The Mikasa received most of her hits on the starboard side and on the conning tower. Little damage, however, was done. The masts and funnels were hit more than any other part of the ship, showing that the fire of the Russians was high. The Mikasa is now ready for action again.

At the beginning of the battle Lieut. Matsumura was wounded in the head. Two other officers and 13 non-commissioned officers were also wounded. The Mikasa approached nearer to the Russian fleet than any of the other large warships. While Admiral Togo was in the conning tower giving orders, a splinter from a shell wounded a lieutenant by his side. Admiral Togo went on his knees and tenderly lifted the young officer. Throughout the battle he quietly and solemnly watched the state of the Russian fleet, as well as his own. After the victory was won he carefully attended to all details, especially with reference to searching for the remnants of the Russian fleet. He never left the bridge, and seemed tireless. When he returned to Sasebo he gave strict orders that no officers or men were to leave their ships. All business was transacted through the admiral in command at Sasebo. Admiral Togo only quitted his ship for the first time since the victory on June 2. He then went ashore solely to visit Admiral Rojestvensky. The fleet simply loves Admiral Togo. His restraint adds to that genuine sentiment. He is ready at any moment to resume work.

Police Court

OFFICIALS

Chief of Police, G. I. Reed
Magistrate, D. W. Dumble

Yesterday's court was well attended, the Sun Fish Club preferring the excitement of struggles between justice and her opponents to stopping out in a drizzle.

Mr. E. A. Micks, a George street plumber, whose shop is in the town market building received a tangible hint, in fact $4.40 worth of it, that he must not obstruct the market building by passageway with his goods. He paid his fine on the spot.

The small boy Fowler, convicted of taking two different horses and rigs, from St. Peter's cathedral on circus day, and enjoying several hours free riding, was in the dock. William Fowler, his father, a well dressed elderly little son of Britain, was present, and asked by his Worship if he would promise, on condition of the boy being discharged, to give him a sound flogging, in cool blood, not in passion. With seeming reluctance, Fowler agreed to this, and added that he had children 30 years old, and this was the first child of his to come before a police court. Mr. R. E. Wood, Crown Attorney, asked that the boy be taken out of court. And then the lawyer ran against a snag, and a mighty sharp pointed snag at that.

He undertook to lecture Fowler, the boy's father, on the way he brought up his family, saying "I am told that your family is a nuisance to the neighborhood where you reside."

The little Englishman, like an enraged bantam, who flaps his wings and, in clarion voice, crows out defiance to the whole world of cocks, sprang to his feet, with index finger pointed at the law's representative, hurled out burning terms of disapprobation of the slander against Mm and his family, adding that as no charge had been laid against him, Mr. Wood had no right to make such an accusation in public. "You might do this sort of thing in Russia, but not under the British flag," said the irate parent, who appealed to the Magistrate for protection. Mr. Wood gracefully subsided.

TWO LICENSE CASES.

Mr. G. Cochrane laid information against Mr. T. Cavanagh for selling liquor during prohibited hours.

Mr. Cochrane, in evidence, said he was in the police station as the clock struck 11 on the evening of June 1st, went to Cavanagh's hotel about five minutes after 11, and found three men, unknown to him, in the bar, with glasses in front of them. Cavanagh and his son, he thinks, the one who wears glasses, were behind the bar. The bar doors were open. Mr. Cavanagh was coming, behind the bar, from the adjoining office, with a glass containing what he (Cochrane) thought was beer. Under cross-examination by Mr. James Haverson, Cavanagh's counsel, and lawyer for the Ontario License Holders' Protective Association, Toronto, Mr. Cochrane said Cavanagh told him, when he went into the bar, that he did not know it was 11 o'clock. Told Cavanagh to close his bar.

Mr. Haverson asked Cochrane what right he had to do this, as he had no power under the present law to do so. Mr. Cochrane admitted that he had made a mistake in doing so, not knowing the law had been amended.

John Hooten, a Cavan farmer, said he was outside Cavanagh's hotel when Cochrane came out. It was exactly 11 by his watch when Cochrane was in bar. He chatted with Cochrane and asked him casually whether he would prosecute Cavanagh; Cochrane asked him if he was a temperance man, to which he replied no. Had seen no one in the bar. Mr. Wood then said, "That is the case your Worship."

Mr. Haverson soon convinced the Magistrate that no case had been proven against his client.

The case was dismissed, after some talk as to the two town clocks striking the same hour, with several minutes intermission between when they struck. This had bearing on the very close manner in which the inspector ran Mr. Cavanagh's case, only some five minutes in which to try to secure a conviction.

The next case was a charge against Mr. Ott Dunn, of the Southern Hotel, for having blinds over his bar window, against provision of the local license commissioners' regulation. Mr. Haverson defended Dunn, in his customary suave and convincing manner.

Mr. Cochrane deposed that, after leaving Cavanagh's hotel, he went to Dunn's, and found the bar window opening on to George street, completely covered with an inside blind. There were two other bar windows, slightly frosted over, opening on to a grass plot to the north, but no blinds were on these, but a fence round the plot shut him out from proper inspection. Mr. Haverson showed that the whole trouble lay in this ambiguous terms of the regulations, which say, concerning licensed hotels and shops, "All windows must not be covered by blinds, etc., etc." This might mean that a hotel man may keep the law by leaving one window, in the garret uncovered, and cover up every other window in the house, including those of the bar. Mr. Haverson asked Mr. Wood, prosecuting attorney, to adjourn the case sine-die, and he agreed to get the hotelmen together and have an understanding for the future. The attorney, with consent of his Worship, withdrew the charge and also another one that had been laid on the same basis against another hotel keeper.

Secretary Hay to Sail for Home

London, June 9.—United States Secretary of State Hay has arrived in London from Paris, looking better than when he left New York, but still far from well. He will sail for New York on the Baltic, leaving Liverpool June 7th.

Trouble Brewing in the Balkans

Vienna, June 8.—It is reported that a serious engagement has taken place between Servian and Bulgarian bands near Kitabewo, Macedonia. Twenty Bulgarians and 12 Servians were killed, and many on each side wounded. The Servians captured the Bulgarian leader, who is alleged to be a captain in the Bulgarian army.

Boston Man Drowned in Mountains

Utica, N.Y., June 8.—Edward Royal, an extensive lumber dealer, of Boston, was drowned in Cranberry Lake, in the Adirondacks, by the capsizing of a boat. C. W. Manning, of New York, a companion, and a guide escaped after clinging to the upturned craft for an hour. The body has been recovered.

To Make Pure

Biscuit, cake, rolls, muffins, dumplings, etc., a pure leavening agent is indispensable.

While the Royal Baking Powder is reported absolutely pure and healthful, the official reports show most other baking powders, as well as the cream of tartar of the market depended upon by many housekeepers for raising biscuit and cake, to contain either alum, ammonia or sulphuric acid.

The Government Analyst of Ontario says:

"As a result of my investigation, I find the Royal Baking Powder far superior to the others. It is pure, contains none but wholesome ingredients, and is of greatest strength."

ROYAL BAKING POWDER CO., NEW YORK.

HAS A FEW SHIPS LEFT

Outside of Black Sea Fleet Russia Has Three Battleships, Ten Cruisers and Some Gunboats

London, June 8.—The Czar now has three organized fleets left but one of them is not available for service in this war. It is the Black Sea fleet, which is bottled up in the Black Sea by treaty stipulations.

This fleet is composed of the battleships Kniaz, Potemkin, Tri-Sviatitelinia, Pobjedonotsell, Rostislav, Sinop, Ekarterina II., Tchesma, Dvienadatat, Apostoloff; the cruisers Otchakoff, Czar, Czarevna, Czaritsa, Grand Duke Alexis, Grand Duke Constantine, Grand Duke No. 1, Emperor Nicholas II., Kagul, besides a number of small gunboats.

The fourth Baltic squadron is made up of the new battleship Slava, cruisers, Vitiaz, Pamiat, Admiral Kornikoff, the latter three of little value.

The Vladivostock squadron is composed of the cruisers Rossia, Gromoboi, Almaz and Bogatyr.

Interred in neutral ports until the war is over are the battleship Czarevitch, at Taingtau, China; the Askold at Shanghai and the Diana at Saigon.

There is one other battleship building at St. Petersburg, besides a number of gunboats and old cruisers scattered around. These latter are of no use. Of torpedo boat destroyers and torpedo boats there are probably twenty or twenty-five left.

Sir. Wm. Hingston on Roosevelt.

What Press Describe as Finest Tribute Ever Paid Roosevelt.

New York, June 9.—What the New York press describes as one of the finest tributes ever paid to President Roosevelt, was made on Decoration Day in New York by Sir William Hingston, who was visiting that city.

Discussing President Roosevelt and the influence he wields by force of his personality, as well as his position, Sir William said;

"I regard Mr. Roosevelt as perhaps the greatest living power for good in the world. Pope Leo during his lifetime exercised a greater influence than any other man, by reason of his position and his personality; the present Pope has the same opportunity, but has not yet been long enough in evidence for the world at large to have taken his measure fully and for the influence to have made itself fully felt. Your President's power is felt and respected by all the world."

The widespread respect entertained for President Roosevelt, Sir William ascribed to his strength of character, combined with absolute honesty of purpose. It is these qualities also, he said, which now move the European press to name him as the man who could best bring about peace.

THE MAN TO BRING PEACE.

"He is using the power which his position gives him in a way that is for the good of the whole world. If any man can make peace between Russia and Japan, it is he; he seems to be by fortuitous circumstances the arbitrator to whom each side will probably logically turn when the psychological moment arrives. And his verdict will be accepted, because all the world knows it will be rendered with absolutely honesty.

Sir William expressed his entire agreement with President Roosevelt's stand in combating race aufside.

CRUISE FOR GERMAN PRINCESS

Will Tour the World With Squadron for the Honor of the Fatherland

New York, June 8.—The Tribune says: Prince Henry of Prussia, in command of a German squadron, and accompanied by his nephew, Prince Eitel Frederick, the second and soldier son of the Emperor, will start in the fall on a cruise around the world, and will visit South Africa, Australia and Canada. Both the eastern and western parts of the United States will be included in the itinerary. The object of the cruise is to keep the German flag and Germany's importance as a naval power before foreign nations.

JAPAN TAKES FIRM STAND

Russia Must Take First Step in Peace Negotiations

London, June 8.—"Russia must give up all idea of Japanese inferiority before peace will be possible," said Baron Suyematsu, the Mikado's confidential financial agent here to a correspondent.

"While our opponents cling to any vestige of the notion that yellow is the badge of racial dishonor compared to white, we cannot expect the Czar to consent to terms of peace which Japan can accept. Justice will be done us through the world. The parade is going on in Europe and America. I can tell Russia it will help the Czar's cause no more than did the mythical army in Manchuria, or the far spread fleet of Rojestvensky. There may be those who wish to rally against us in this cry, but happily there are others and the very powerful, who will have none of it. Japan is ready to make peace on the merits of the situation the moment Russia shall abandon its aloofness and propose negotiations. In the absence of such action on Russia's part the war will be prosecuted."

EIGHTY MILLION BUSHELS

ESTIMATE OF THE WESTERN WHEAT CROP

Over Four and a Half Million Acres Seeded to Wheat and Over a Million to Coarse Grains--Mr. Castle's Report.

Winnipeg, June 8.—C. C. Castle warehouse commissioner, will shortly issue a report on the acreage sown in Manitoba and the Northwest Territories this year. To-day Mr. Castle said he estimated the total acreage under all crops in the Canadian west would be 5,800,000. Last year's acreage approximated 4,500,000, so that this year will show an increase of over 1,000,000 acres. Allowing 1,300,000 acres for coarse grains, this leaves 4,500,000 acres seeded to wheat, which is a most conservative allowance. Taking this four and a half million acres at twenty bushels to the acre, would give this west a crop of 90,000,000 bushels, or a very conservative estimate, all being well, would be 80,000,000 bushels. From this it will be seen that should the west be favored with the right kind of weather the largest crop in its history will be reaped this year.

Convicts Killed by Dynamite

Biscayne, Fla., June 8.—By the explosion of 150 pounds of dynamite last night, five negro convicts at the county camp at Ojus were blown to atoms.

Rushing to the West.

Yankees are Simply Pouring In This Season--Twice as Much Land Under Cultivation as Last Year.

Winnipeg, June 8.—J. A. McRae, of Saskatchewan Valley Land Company, said to a press correspondent yesterday afternoon: "I have not the least hesitation in saying that we have had fifty per cent. more settlers into the West this summer than last. This is by long odds the best season the West has ever had. People are simply pouring in from the States."

A. H. Hainsen has returned from the country south of Battleford. Last year much of the country was unsettled; this year settlement is visible on every hand, as far as 125 miles from the railway. "It is truly remarkable," he added, "the way the new settlers are from the States, and well supplied with stock and implements to immediately start farming. The district all along Prince Albert is growing very fast. There is fully twice as much land under cultivation this year as last, and, according to the present prospects, farmers are going to have large crops of small grains."

Doukhobors Now Dying

Winnipeg, Man., June 8.—C. F. K. Marokchenoff and W. Makasoff, two of five Doukhonors sent to the Stony Mountain penitentiary for burning harvesting machines near Yorkton last year, were brought back to the city, and are now lying in the General Hospital in a critical condition from self-starvation. Their diet since going to the frigid Stony Mountain has consisted only of raw potatoes

Severely Injured in Bad Fire

Ogdensburg, June 9.—About two o'clock yesterday morning fire broke out in the residence of Mrs. M. J. Storm at Plessis, near here, totally destroying the house and contents. Mrs. Storm and her daughter and Harry Penn, who roomed at the Storms' home, were terribly burned in making their escape from the burning house, and all three may die.

Survey Parties Starting Out

Fredericton, N.B., June 9.—Within the next few days there will be several survey parties start out from here to make more surveys for the Grand Trunk Pacific route. One party, in charge of Mr. David Maxwell, is to be sent out for the purpose of making several improvements on the lines already laid out in preliminary surveys. There will also also be several parties starting out, probably for location work. At the local G.T.P. offices nothing further could be learned.

CHILD BATS A RAT BISCUIT

Six Year Old Boy Found It in Out-of-Way Place

Ogdensburg, June 8.—The six-year-old son of Mr. and Mrs. Thomas Wood of Potsdam, found a rat biscuit, which had been placed in an out of the way place to rid the premises of troublesome rodents. He ate the entire biscuit, and was taken violently ill. He will probably die.

IN PRIVATE HOUSE

Russian Zemstvos Meet in Spite of the Police

Moscow, June 8.—In spite of the official prohibition the all-Russian Zemstvo Congress assembled here to-day, but the delegates met in private houses.

About 2,000 delegates from various Zemstvos and municipalities, including the Mayors of 25 of the larger cities, arrived in Moscow yesterday to attend the congress. It is proposed to introduce resolutions calling for the immediate cessation of hostilities. The order prohibiting the meeting arrived at Moscow only late last night and aroused the greatest indignation and resentment.

—The Chief has a lady's chatelaine and requests the owner to call and get it.

Canoeists are Kicking.

Danger to Small Craft at the Lock "Lift-Over."

There is considerable "kicking" being done by local canoeists and oarsmen about the danger threatening every small boat portaged over the locks below Little Lake.

It seems that some one, whether the contractor or whoever it may be, has left some very ugly dangerous blocks and timbers in the water just to the east of the lock lift-over, and as the course of the current has been somewhat changed at this particular, and frequently used, spot, they are a lurking menace to all small boats.

Let us hope that whoever is responsible for the public safety in this part of the river, will have the matter attended to before someone is drowned or valuable canoes are destroyed.

If these dangerous snags are not removed, local canoes then purpose getting up a petition to the proper officials, asking them to give the matter attention before the season is advanced or some accident is caused.

Another June Bride

Miss May Fitzgerald is Wedded to Mr. Wm. Lang.

Yesterday afternoon, despite the inclement weather, a happy party assembled at 32 Sheridan street to witness a pretty sight and a joyous ceremony. Miss May, eldest daughter of Mr. George Fitzgerald, fulfilled her life's destiny by becoming the bride of Mr. William Lang, of the local Custom House.

The ceremony was performed by Rev. J. C. Davidson, rector of St. John's church. The drawing room, in which the wedding was solemnized, was richly decorated with flowers, and a charming scene was presented as the bridal party assembled, the knot being tied beneath a large floral bell. The wedding march was played by Miss Kate Graham, and the bride was given away by her father. She wore a neat gown of cream basket cloth trimmed with lace insertion, and carried a bouquet of white roses. The bridesmaid, her sister, Miss Pearl Fitzgerald, was attired in cream canvas cloth and carried a bouquet of pink roses. The bride's going-away gown was a shirt waist suit of navy blue basket cloth, with hat to match.

After the wedding feast had been disposed of a pleasant time was passed. The happy young couple left by the evening train for Niagara and Buffalo, and will, on completion of the honey moon, settle down at 23 Gilmour street.

Another June Wedding

Miss Laura Lynch Becomes the Bride of Mr. P. Boland

Yesterday morning in St. Peter's Cathedral, at eight o'clock, Rev. Father McColl joined together in the lasting happy bonds of wedlock, Mr. Fred Boland and Miss Laura Lynch, eldest daughter of the late Mr. John Lynch.

The bride was becomingly attired in cream lustre de chine trimmed with cream embroidered chiffon and silk applique, her travelling dress being fawn with blue shadow spot, with lace and silk trimmings. The bridesmaid, Miss Lena Lynch, sister of the bride, wore a charming gown of spotted colienne, trimmed with all-over lace. The bride was given away by Mr. Thomas Lane, the groom being supported by his cousin, Mr. Thomas Boland, of Asphodel. The wedding march was played by Miss Doherty.

The happy couple, who were the recipients of many beautiful and costly presents, left yesterday evening for Rochester. On completition of the first stage of their honeymoon they will reside in town.

ME TOO

The "Tail Enders" That Follow Genuine Articles

It is sometimes interesting to watch the curves imitators make to get the public to buy imitations of genuine goods.

Every now and then some one will think there is a splendid opening to fix up something like Postum Coffee and advertise the same way and take some of the business.

An imitator is naturally ignorant of food values and how to skilfully make a cereal coffee, on "scientific lines."

Some men first think of preparing something that looks and tastes like the original, with no knowledge of how the grains should be treated to prepare them so that the "starchy part is transformed properly and the valuable nourishing elements made digestible.

Such imitations may be foisted on the public for a short time, but the people are critical and soon detect the attempt, then the imitators go out of business.

Something like 400 of these little factories have been started in various parts of this country in the past 9 years, and practically all of them have gone the "long journey." Just lately a new one has come to life, and evidently hopes to insert itself in public favor by copying the style of the Postum advertising in the papers.

This is a free country and every man who makes an honest product and honestly labels it, has reason for some recognition, but the public has the right to know the facts.

Postum is the one original and genuine Cereal Coffee, made skilfully and for a definite purpose. It has stood through all the wars of the imitators, has won the approval of the Physicians and the people.

People who really seek to free themselves from the coffee habit and at the same time to rebuild the soft gray matter in the nerve centers and thus construct the nervous system, broken down by coffee, can rely on Postum.

There's a reason.

Name given by Postum Co., Battle Creek, Mich.

Get the little book, "The Road to Wellville." She says:

Norway Out of Federation, Want New King

Ask Deposed Ruler to Appoint a Young Prince of the House of Bernadotte as His Successor--Will Not Have Oscar to Rule Over It

Christiania, Norway, June 7. — The Storthing today declared the union between Norway and Sweden under one King to be dissolved, and that the King has ceased to act as King of Norway. The Storthing further empowered the present State Council to act as a Government of Norway until further notice, and to exercise the power heretofore appertaining to the King.

An address to the King was adopted declaring that no ill-feeling was entertained against him, his Dynasty or the Swedish nation, and asking his Majesty to co-operate in the selection of a youthful prince of the House of Bernadotte to occupy the throne of Norway.

Touched for $52.25.

Mr. Windover Partakes Too Freely and is Relieved of His Coin.

Yesterday morning, after the Police Court session was over, Mr. George Windover, of town, called in to the Police Station to lay a complaint and ask for assistance.

His story, as related, is that on Tuesday afternoon he had been indulging somewhat freely, and, whilst sleeping off the effects had been "touched" for $52.25.

He had been in the company of a man, whose name, for obvious purposes, is omitted, and claims that, feeling "tired," he had a "snooze," and awakening found that three $10 bills, four $5 bills, two $1 bills and a 25 cent shin-plaster had been removed from his vest pocket.

Windover states that he had, in Clancy's yard, that afternoon, lent a certain man one dollar, the person borrowing it having no money of his own. His reason for suspecting the party he lent the $1 to, be the thief, is based on the fact, that that man who the day previous, had no money, yesterday morning changed a new Bank of Toronto, red-backed $5 bill in the Munroe House bar, and the $5 bills he had lost were of this kind. He requested the Chief to send a man to watch the different bars and other places, so as to try and catch the culprit changing money. The Chief firmly, but politely, declined to undertake the job saying Windover was the interested party and should play detective himself. The robbed man yesterday morning saw the man he suspected, but instead of having him arrested at once, and thereby being able to catch him with the money in his possession, if he had really stolen it, let him go, and told the police afterwards he could not find him again. The Chief told him, if he would swear out a warrant he would have the man arrested. The police seem sceptical about the man's story, as he acknowledged to have been drunk.

SAFETY FOR THEATRE GOERS.

The New Opera House will be Provided with Escapes.

That the public have become afraid of possible danger from fire or panic in the old opera house, is an open secret.

It will be good news, for those who love the drama, to learn that the new opera house, shortly to be built on the lot immediately north of Messrs. J. J. Turner & Sons' factory, will be provided with ample fire escapes. The exits will be so numerous that the building, in case of conflagration, can be emptied in a few seconds.

There will be plenty of escapes on every floor. There will be six exits from the auditorium alone. There will be the wide main entrance on George street, the stage door at the rear and two exits on either side, leading to lanes on the north and south sides, respectively.

From the balcony, or first gallery, there will also be two exits on either side, leading out on landings, which connect with a broad stairway on the north and south.

From the second gallery the plans show the same number of escapes, four in all—separate stairways leading to this department of the play house and communicating with the lane on either side. The new building will have in all, fourteen exits.

Jackson Park.

Will be Improved by a Band Stand and Attractions Added by Street Railway Company

Jackson Park will now be the best feeder of the local street railways, as the Trustees of the Nicholls' Estate, will combine with the Street Car Company in introducing improvements that will inevitably draw large crowds of people.

Mr. Rick Hall yesterday stated that the Trustees were willing to erect a band stand in the Park, provided the Peterborough Light and Power Company supplied the light. It is understood that the town will furnish the lamps for this purpose. An effort will be made to have the 57th Band play in the Park on certain evenings. Mr. Larmouth, superintendent of the Street Railway Company stated yesterday that other attractions, such as moving pictures, would be provided, if permission could be obtained to exhibit them in the park.

WEATHER NOTES.

Fine and warm.

Fishery Inspection

A Party of Citizens, with the Ontario Fishery Commissioner Take a Trip.

On Tuesday Mr. T. S. Bastedo, Fisheries Commissioner for Ontario, accompanied by Messrs G. W. Fitzgerald, D. Johnston and J. Watt; Messrs. T. E. Bradburn, M.P.P., G. W. Bennett, A. Stevenson, R. A. Morrow, T. H. G. Deane, J. Crane, W. Thompson, W. H. Bradburn and R. M. Roy, had a pleasant sail in Mr. Roy's "Rob Roy" to Rice Lake.

The Commissioner wisely considers that to learn the waters under his charge is best done by personal inspection. The steamer started from Peterborough about nine o'clock in the morning and returned late in the afternoon, the trip having been an enjoyable one, as well as beneficial to those gentlemen who have to do with the enforcement of the laws, made and provided for the protection of game and fish.

Street Car Accident.

Mr. J. W. Doughty Seriously Injured in Forehead, Shoulder and Hands.

On Tuesday night Mr. J. W. Doughty, the well known agricultural implement dealer, had an accident that might easily have proved fatal.

He was driving along North George street towards town, when, about 9.45 a north bound car came along. His horse became very restive and excited by the strong glare of the car's head light, and just near Allison's grocery store the car passed him. Mr. Doughty says the motorman, although his horse shyed across the street with fright, made no effort to stop or reach the car's speed, nor did the car stop when he was thrown out.

Just as the car passed, the horse jumped for the sidewalk, and Mr. Doughty was thrown clear out of the rig, striking the boardwalk with his head and shoulder. His shoulder is badly bruised and his right temple and eyebrow, last night, show bad bruises.

Mr. Doughty, although thrown out, and for a few minutes almost insensible, managed to hold on to the lines, thus keeping his horse from running away.

The fingers of his right hand show great blood blisters from friction of the lines, as the horse tried to run away; one line was broken and a shaft was smashed, the horse however escaped without injury. Mr. Doughty considers that the motorman, even if he would not stop the car, to prevent accident, when he saw the horse so frightened, might have stopped for a minute to see whether he had been killed or not. Fortunately, a friend of Mr. Doughty's happened along shortly after the accident, and helped him fix up his rigs so he could go home.

Governor-General's Western Trip

Ottawa, June 9.—A deputation from the Central Canada Exhibition Association waited upon the Governor-General and invited him to formally open the Ottawa Fair next September. His Excellency, while expressing his appreciation of the invitation, said he was afraid he would have to decline, as he expects to be in Manitoba that month.

Just the Time to Visit New York.

Lehigh Valley Railroad special 15-day excursion, Friday, June 16th. Tickets only $9.00 from Suspension Bridge to New York and return. Tickets good on regular express trains leaving Suspension Bridge on June 16th at 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, sleeping car berths, apply at station ticket office, Suspension Bridge, or of Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto.

Charged Upon Entire Estate

Toronto, June 8.—A judgment that may create a precedent in deciding the claim of a beneficiary to an estate from exemption from succession duties was decided by Mr. Justice Teetzel. The late Lancelot Bolster, former manager of the Crown Bank, left an estate of $80,000, and willed that his sister, Sarah Bolster, should have the interest on $15,000 during her lifetime. The woman claimed that she should not be compelled to pay succession duties on this sum that the duties should come out of the residue of the estate, Mr. Justice Teetzel refused to allow this, and held that the duties should be paid by the entire estate.

Weary Shop Girls Pale, Tired Women

You Feel "Draggy," Lifeless, Nervous, Never Rested

FERROZONE

Will Make You Feel Like New—It Vitalizes, Tones and Strengthens

The best medicine for restoring vitality and strength is Ferrozone.

The time to take Ferrozone is when you first feel tired, and when appetite fails, when nerves get irritated.

Its record is marvelous—it makes you feel strong and sturdy, brings health that outlasts old age. Mrs Mary Melong, of Harbor Bouche, Nova Scotia, writes:

"Ferrozone built me up.

"Before using it I scarcely knew what good health meant.

"I was just as miserable and weak as any woman could be.

"Tired from morning till night, bothered by trifles, unceasingly nervous.

"The first box of Ferrozone improved my blood, gave me appetite. In a short time I was like a new person. Now I rejoice in abundant good health."

Get Ferrozone. It will make an unexpected improvement in your looks, your feeling, your health. 50c. per box, or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, JUNE 8, 1905

Douro Council

Meets as Court of Revision and Afterwards as Council

The Douro Council met on Monday, May 29th at ten o'clock, a.m., as a Court of Revision on The Assessment Roll of 1905. All the members were present.

After having taken the usual declaration of office, the reeve occupied the chair.

The following appeals were heard and disposed of as follows:—

R. M. Dennistoun, to have part of lot 2, concession 12, assessed to the Golf Club, an incorporated company.—Appeal granted.

George Dartnell complained of over assessment on real estate.—Assessment confirmed.

E. G. Patterson, General Superintendent of the Canadian General Electric Company, complained of over assessment on part of lot 5, con. 11, assessment reduced $1000, and eight acres, part of lot 6 con 11, placed on roll at a valuation of $240.

James Condon, overcharge on real estate and buildings, assessment on buildings reduced $100.

As this was all the business before the court, it was moved and carried that the roll be adopted, and that the clerk attach the necessary certificate and corporate seal thereto.

After the Court of Revision the court resolved into council for other transactions of ordinary township business.

Moved by Messrs. Allen and Quinlan—That John Young be a committee to expend the sum of $50 in cutting down hill on line of road, con. 5 and 6, in front of lots 2, on condition that the county council grant a like amount.—Carried.

Moved by F. Leahy and Allen—That Stuart Miller be a committee to expend $150 in cutting down McCuss hill on condition that the county council grant a like amount.—Carried.

Moved by F. Leahy and Allen—That Albert Darling be a committee to expend $30 in cutting down hill on Young's Point in front of lot 21.—Carried.

Moved by F. Leahy and Allen—That William Bradfield be a committee to expend $20 in corded road con. 8, in front of lot 3.—Carried.

Moved by Messrs. Quinlan and Allen—That the reeve and councillor B. Leahy be commissioners to have a bridge built over creek between con. 9 and 10, in front of lot 1, cost not to exceed $60.—Carried.

Moved by Messrs. Allen and B. Leahy—That $700 be appropriated for roads and bridges to be expended as follows.

In each ward	$110
On Dummer road	90
On Telephone road	50
On Young's Point road	15
On North Douro road	20
On boundary Douro and Dummer	20
On Dentro and Otonabee	75
On side road between lots 5 and 6, and road used in lieu thereof ...	300

ORDERS ON TREASURER.

To Jeremiah Hayes, work on road	$5.00
To Wm. Bonkaday, re Young's Point road	10.00
To Robert Allen, salary as assessor	50.00
To Jeremiah Maher, work on Dummer road	7.00
Reeve and clerk, re township business, each	10.00
To clerk, part of salary	15.00
To Michael Mahoney, repairing road, con. 6 and 7...	1.00

Moved by F. Leahy and the reeve—That the council purchase a road grader, and that a portion of the statute labor be commenced, as in our opinion the present system of road making is expensive and undesirable.

The yeas and nays were taken on this resolution. Yeas—The reeve and councillor F. Leahy. Nays — Councillors Allen, B. Leahy and Quinlan.

Moved by Messrs. Quinlan and Allen—That George Russell be a commissioner to expend $4 on road, con. 3 and 4 in front of lot 8.—Carried.

Moved by Messrs. Allen and Quinlan—That the clerk instruct the county treasurer to strike off his books the arrears of taxes charged against part of lot 9 con. 9, income tax of 1900.

Moved by Messrs Allen and B. Leahy—That F. Leahy and Quinlan be a committee to inspect the allowance for road between lots 15 and 16, in con 4, and report at next meeting of council.—Carried.

On motion the council adjourned to a call from the reeve.

Chandos Council.

Council met at Foster's School house, May 27, 1905. Members all present. Reeve in chair. Minutes of regular and special meetings read and accepted.

Moved by John Trotter, seconded by Geo. Campbell—That William Bullied get $10 for building crossing between J. G. McFaddens corner and boundary.

J Bullied to oversee.—Carried.

Moved by Geo. A. Bullied, seconded by Geo. Campbell—That John Trotter see that non-resident statute labor is properly done on road div. 42.—Carried

Moved by Geo. Campbell, seconded by J. Trotter—That W. K. Carmon be allowed to work out $4.32 of his taxes. J. Bullied to see that work is properly done.—Carried.

Moved by J. Bullied, seconded by J. Trotter—That this council accept from S. L. Purdy, $25, in full for trespass.

George A. Bullied moved in amendment—That this Council hold to the original price $2.50 per thousand. The Reeve, J. Hales, seconded amendment. The yeas and nays were asked on amendment, the vote resulting as follows, Yeas—G. A. Bullied, John Hales, Nays—Trotter, Campbell and J. Bullied.

Moved by John Trotter, seconded by G. A. Bullied—That clerk notify S. L. Purdy to pay amount of trespass to the treasurer by August 15.—Carried.

Moved by Geo. A. Bullied, seconded by Geo. Campbell—That this council meet in two different places instead of four as formerly, viz., Caldwell's and Foster's school houses.—Carried.

Moved by Geo. A. Bullied, seconded by Geo. Campbell—That the clerk be authorized to post up notices each side of the Douro bridge, notifying the public that it is not safe.—Carried.

Moved by Geo. A. Bullied, seconded by Geo. Campbell—That the reeve be appointed to attend land sale.—Carried.

Moved by Geo. Campbell, seconded by John Bullied—That the reeve and Geo. A. Bullied be a committee to wait on county councillor to have him use his influence in having the county take over the Douro bridge as a county bridge or to help towards building a new one.—Carried.

Moved by John Trotter, seconded by John Bullied that following orders be paid:

John Monogue, $4 salary as auditor 1904.

John Trotter, $4 salary, as auditor 1904.

Wm. James, $15, Mrs. Tumbilton, indigent.

J. G. McFadden, $4.32, W. K. Carmon's tax to be worked out.

A. Andrus, $2, Thos. Peacells statute labor, 1904.

A. Andrews, $2 postage,

Peter Hamilton Co., $15, two road scrapers.

A. Andrus, $25, part salary as clerk

Moved by Geo. A. Bullied, seconded by John Trotter that council adjourn to meet at call of reeve.

A. ANDRUS, Clerk. J. HALES, Reeve.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & CO. Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

—Now fancy china piece consisting of cups and saucers, trays, cream pitchers, sugar bowls, tumblers, mugs, vases, etc., with view of Jackson park and St. John's church on each. These make a handsome souvenir—see them. Price only 25 cents each. Times Bookstore.

Ayer's Cherry Pectoral.

Doctors have used it for over sixty years. We are willing, anxious that you should ask your own doctor about your using it for coughs, colds, bronchitis.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales at 18cts is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $31 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE AGED MEN—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for our honest opinion free of CHARGE. BOOKS FREE—"The Golden Monitor" (illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

DRS. KENNEDY & KERGAN

Cor. Mich. Ave. and Shelby St., Detroit, Mich.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each

200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1 000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $15,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties:—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Mares, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Carr, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company is the Wilson, Murphy, Lizzie, Rock-Hill, Ben Burt, Columbia, Reindeer-Annex, John Thompson, Frank, and Parsons, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the condition resembling that of coal formation; consequently, the direction and trend of the ore bodies are readily followed and determined, and by preliminary explorations their contents have been found to underlie the surface ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $210,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1,000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent Stock at Twenty-Five (25c.) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profit. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the benefit of the property of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,
35 Congress Street, Boston, Mass.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAO RDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be ninth among the greatest copper districts in the world. This company will control at least a thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

I STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

MEN AND WOMEN. Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles, $2.75. Circular sent on request. Big G CHEMICAL CO. CINCINNATI, U.S.A.

Police Court

OFFICIALS
Chief of Police, G.L. Reed
Magistrate, D.W. Dunsto

Tuesday's court included in its docket a horse borrowing (on the "French leave" plan) case, which convinced not only the Sun Fish Club, but His Worship, that all the English immigrants that come to this country are not as honest or truthful as the law or country would have them.

The first case called was that of Thomas Quinlan, charged with shooting off a revolver inside the town limits. The case had been enlarged from Monday, when Quinlan said he could not plead guilty or not, as he had been too drunk to remember what he had been doing.

Harold Otram, the nine and one-half year old sprightliness, of a good big grass hopper, saw prisoner, Saturday night on George street. Saw him, when drunk, shoot off a revolver at the ground; followed prisoner, who held a gun in his hand until he was arrested. After he been following him as far as the river, prisoner put his gun in his pocket. A witness, by name Thompson, gave substantially the same evidence. His Worship said to Quinlan "You were drunk and disorderly, and used a revolver against provisions of the bylaw prohibiting such action. The public must be protected. If you had been captured with a gun in your pocket, the penalty would have been heavier. $5 and $5.25 costs, to be paid in 10 days. Quinlan produced a few green backs and handed them to his Chief, but that potentate refused to take fines on the installment plan.

Rich. Bullen pleaded not guilty to being D. & D. W. Thorndyke and P. C. Stewart gave evidence that showed prisoner could easily have been considered drunk, and in any event concurred in saying, that when he had been ordered out of Clancy's yard, had picked up a hammer and holding it in threatening manner, used such loud and vile language a crowd collected. His little denied drunk cost Bullen $5.40.

Frank Meyers has a dog of the female persuasion on which the town's levy of $3 had not been paid. He now has to pay $4.00, which does not include the tax. Every day after this that the dog lives with its tax unpaid will help pay interest on town debentures at its owner's expense.

Pat McCauliffe lives in Emily, and was charged with having committed an assault (garnished with some high sounding legal adjective) on Fred. Hudson, the Hunter street hotelman, on June 1st.

McCauliffe's case involved a 24 mile drive for P. C. Stewart on Monday. The policeman, in plain clothes, drove 12 miles out into Emily to arrest McCauliffe.

McAuliffe's residence commands a view of some miles of the road by which P. C. Stewart was nearing his man; behind the house lies a swamp. McCauliffe, although he had been in the house ten minutes before the law's representative arrived, was not to be found. The officer advised McCauliffe's people that it would be wiser for him to come in and stand his trial. He came in himself on Tuesday morning, and engaged the services of Mr. R. M. Dennistoun as counsel. Mr. Dennistoun offered to plead guilty to a technical assault, but Mr. Wood, County Crown Attorney, would not stand for this, as Mr. Hudson is still in bed owing to the assault. The case was enlarged till Friday, with bail, furnished by Mr. Kearns, a town property owner, in $200 and the prisoner in $200.

Harold Fowler, a very small English boy was charged with having stolen two horses, the property, respectively, of Messrs. Hogan and Orough, from St. Peter's cathedral, on 1st June. His mother was present. It appears the young scamp took one horse away for an hour's drive, returned it and took another. The boy's mother admitted he had taken one horse but said he did not intend stealing it. His Worship remarked that there are a lot of small boys in town who are making themselves a public nuisance by this horse stealing business.

Mrs. Fowler explained her husband's absence (the boy's father) by stating he had said he would not come to save the boy from the penitentiary. Several English boys, who had driven with the prisoner, gave evidence showing the Fowler, small as he is, is an unmitigated little liar; in fact as many contradictory stories were told, His Worship asked to see witness "Are you English?"

The Magistrate told the prisoner's mother, that if he (the father) came to the Court this morning and "promised faithfully to give him a good hiding in cool blood, not in passion, and lay it on well," he might discharge him.

One of the witnesses, Canadian, an employee of a local merchant, was charged with stealing a whip from one of the borrowed rigs, in which he had ridden, by little Fowler's request. When asked whether guilty or not, he instantly said "guilty" before his counsel, Mr. Dennistoun, could speak.

His Worship gave him some kindly advice as to growing up to be an honest man and let him go. The whip has been returned to the police.

LUXURY IN TRAVEL

Lord Hawke's High Opinion of the Canadian Pacific Railway.

"Lord Hawke is a judge of comfort in travel if any man is," says the London, England, Canadian Gazette, which adds;—"Last week he returned from India and Japan by way of the Pacific and Canada, and we can well believe how every Canadian Pacific Railway official will blush as he reads what the famous cricketer has to say in the Sheffield Daily Telegraph. "I have never known such a company as the Canadian Pacific Railway," says he; "the travelling is luxury. Everyone on the whole line is civil, kind and willing to do everything to do everything to add to one's comfort. As to the journey across the Rockies, it was superb. Once we had a rare experience of one engine at the front of a second, with a third pushing its hardest at the rear. We shouldn't have got on otherwise. I was with Lord and Lady Castlereagh on that part of the trip, and we couldn't have had a finer time of it. The scenery is wonderful, and the weather was grand. I was riding on the engine part of the way across." Writing to a friend, Lord Hawke says;—"Everyone in Canada, was goodness itself, and I should like to add how much I admired the wonderful management of the Canadian Pacific Railway."

COCOA

The Most Nutritious and Economical.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Toronto Island Breakwater Extension," will be received at this office until Tuesday, July 4, 1905, inclusively, for the construction of an extension of the Breakwater on South side of Toronto Island, City of Toronto, in the County of York, Ontario, according to a plan and a specification to be seen at the office of the Resident Engineer, Confederation Life Building, Toronto, at the office of C. Desjardins, Esq., Clerk of Works, Post Office, Montreal, and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for seven thousand dollars ($7,000.00), must accompany each tender. The cheque will be forfeited if the party tendering declines the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary

Department of Public Works,
Ottawa, June 2, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

History and Production of the Goldfields of Boulder County, Colorado, Portraying Economic Conditions Which Predict the Coming Goldfields of Colorado and Presenting the Stock Offering of a Great Gold Mining Enterprise of the United States Gold Corporation

FREE

Our booklet on the gold fields of Boulder County is off the press, and is being distributed free to investors. We have prepared this book to advertise the gold fields of Northern Colorado and our great gold mining enterprise. The books will be free for the asking while they last. It will tell you of how over fifty millions have been added to the world's wealth in production of gold, silver and copper under primitive methods and from surface workings of an average depth of not to exceed 250 feet. It will tell you of its great tungsten belt, the largest in the world. It will tell you of the existence of a diversity of precious and rare minerals, unrivaled by any other gold fields on this continent. It will tell you of a mineral area of twenty-five square miles literally covered with a network of veins, practically undeveloped, with only one shaft below the thousand foot and half a dozen below the six hundred foot level. It will tell you of a gold field nearer to the Denver smelters than any other in Colorado; of a change of economic conditions, in this section, which will enable the miner to ship ore to the smelters, at a net profit, that is now being thrown over the dumps in other sections of Colorado; it will tell you of a field so attractive that it resulted in the construction of two railways, from one end of the field to the other. It will tell you of the substitution of modern and up-to-date mining methods, in place of the primitive ones of the past; in short, it will tell you of all those conditions which predict for the gold fields of Boulder County the coming gold fields of Colorado.

It will also tell you of our great gold mining enterprise in the western part of the gold fields of Boulder County, near the continental divide, where nature has deposited her largest and richest treasure vaults; it will tell you of our economic development tunnel, driven to drain and develop a mineral estate almost a mile long and half a mile wide; of the thousands of tons of gold ore now blocked out and ready for shipment in the five different veins cut by this tunnel in driving it eight hundred feet, the result of two years' steady development work night and day; of our wonderful discovery of molybdenite—a rare metal—in large commercial quantities, forestalling for us the first molybdenite mine in Colorado that is producing, as well as a large and permanent source of revenue, of our project to drive this tunnel, long before the end of this year, into the famous Fourth of July dyke or "Mother Lode," from which the far famed Caribou group of mines produced twenty million dollars in gold, silver and copper from 1869 to 1893; of the tremendous possibilities for ore production which will follow the cutting of a mineral dyke from 50 to 100 feet wide at a depth of a thousand feet, and the great probability of our opening the first great copper mine in Colorado when we reach this dyke with the tunnel. In short, it will tell you of a gold mining enterprise that will go on a large producing basis long before the end of 1905; of an enterprise with possibilities second to none in Colorado, the developments of which have already shorn it of any element of risk or speculative features, rendering the investment offered a safe and attractive one.

For the financial and commercial standing of the business men who stand back of this enterprise we refer you to the First National Bank, Boulder, Colo, or Bradstreets Commercial Agency

The edition will not last long. If you would be sure of securing a copy, write to-day, or your name and address on a postal card, with the word "Booklet," will do the work.

The Catarrhozone Dry Air Treatment

THE ONLY RATIONAL, SURE CURE FOR CATARRH AND DISEASES OF THE NOSE, THROAT AND LUNGS.

The only natural cure for catarrh is the dry air treatment which effects startling cures without resorting to drugs, dangerous snuff and cocaine mixtures.

Catarrhozone kills the catarrh germs, soothes and heals the sore mucous membrane, clears the air passages of the nose and throat, cures chronic catarrh that has resisted all other treatments.

The reason why Catarrhozone cures is because it really gets at the cause of the disease. No matter how remote or long standing your catarrh may be you can place perfect faith in Ferrozone. It is Nature's Cure composed of the most healing balsamic antiseptics known to medical science. Read the following;

MR. L. MURPHY, well known in West Medford, Mass., writes: "Catarrhozone cured my catarrh, after a score of doctors failed. I used to hawk and spit, my nose was continually stuffed up, and often I was sick at my stomach. Catarrhozone has removed every trace of catarrh from my system."

MISS EMMA PETERS, Highland Grove, N.S., writes: "I am more than pleased with the results from Catarrhozone. It cured me of the worst kind of nose and throat catarrh. Other friends using Catarrhozone are greatly pleased with it and agree that it is the only sure remedy for catarrh they ever used."

Mr. LAWRENCE KENNEDY, of West New Annan, says; "For three years I suffered from catarrh and throat trouble. I tried many remedies but they were of no avail. I got no relief till I tried Catarrhozone. Too much cannot be said of so valuable a medicine. I shall always recommend Catarrhozone to anyone troubled with catarrh; it is a positive cure."

MR. W. W. BEACH, of Chipman, Ont., who suffered for years from hysematic catarrh says: "Catarrhozone is the best remedy I have ever used for catarrh and I have used a lot of them. Catarrhozone was exactly suited to my case."

No intelligent person can doubt the merit of Catarrhozone which receives more praise from Medical Journals, doctors and the public than any other remedy; it is certain to cure every type of catarrh, lung and throat trouble. Two months' treatment, $1.00; sample size 25c. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S., and Kingston, Ont. Refuse a substitute for Catarrhozone.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. SHAPLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mrs. B. Stewart, Orillia, is visiting her parents, Mr. and Mrs. G. E. Whiten, Aylmer street.

—Mr. Connor, of the Cordage Works, left yesterday for a weeks' business trip to Ottawa.

—Mr. J. J. Turner leaves today to join the Manufacturers Association in their trip to England. We wish him bon voyage.

—Mrs. G. E. Whiten will receive this afternoon from three to five, for the last time before leaving for Keewatin. Her daughter, Mrs. Stewart, Orillia, will receive with her.

—The Lindsay Post says: Senator McHugh was in Peterborough yesterday. Mr. Percy McLean, traveller for the Geo. Matthews Co., of Peterborough, was in town yesterday on business.

—Mr. Jas. Tully, formerly of Tully, Merrel and Meredith, leaves for Toronto this morning, where he has accepted a situation as assistant manager of Gough Bros. store. Mrs. Tully and children will leave in a few weeks.

Local Incidents

AT THE TIMES MAN ON THE STREET.

—The Chief has a ladies handbag, containing a small sum of money, for which he wants an owner.

—The steamer Empress passed over the lift lock yesterday with a party of Bobcaygeon citizens on their way to Hastings.

—Two boards and another ladder were brought to the Post office yard yesterday. The Government must intend business.

—Peterborough Lodge, No. 14, of the Benevolent and Protective Order of Elks, met in Foresters' Hall, Simcoe street, yesterday evening.

—The Canadian Pacific Railway may erect a summer hotel somewhere on the Kawartha Lakes, which will have a capacity of 400 guests.

—The Olympic Club's annual excursion will be held up the lakes today. The steamer Stony Lake will leave Wolfe street at eight o'clock sharp.

—Allie Edminson, a nine year old boy, living on the third line of Smith, a few days ago, had his collar bone fractured during play in the school ground.

—The Lindsay Post now appears as an eight page daily. The change in the make-up is a decided improvement, and The Post looks well in its new garb.

—Harold Cobus, of Bridgenorth, a young man, working in Kelly's mill, on Tuesday, had his leg badly crushed, by a waggon, from which he fell, passing over it. Dr. Scott attended him.

—Yesterday afternoon some young men had an improvised football game in the market building arcade. The football was an empty lager beer keg. The players took it in turn to watch for the cops.

—The annual excursion of the East Durham and East and West Peterborough Farmers' Institutes, will be held to the Agricultural College, Guelph, today. A special train leaves the C. P. R. station at 7.40 in the morning.

—The heating system of George street Methodist church is being changed, and a thorough up-to-date system introduced. There are three furnaces in the basement of the edifice, an old wood furnace will be replaced by a Kelsey warm air generator, of the latest pattern.

—The election for the vacant County Councillorship in Otonabee division takes place on Monday next. The contest between Messrs. John Lancaster and John Carey is a keen one. Both candidates are working hard and the result will be a close finish.

—The firemen held their first drill of the present season on Tuesday night. The hook and ladder and the branch men turned out. Water was thrown on the Y.M.C.A. building, and the ladders were run up in front of the G. N. W. telegraph office. The firemen afterwards held a regular meeting.

—The Lindsay Post says: Peterborough fair authorities are after Lord Aylmer, Inspector-General of the Militia Forces in Canada, to open their exhibition next fall. Peterborough is attracting many excursions to that town. Two or three excursions are booked for Peterborough this week.

—A social evening will be spent on Friday, June 9th, by the three Courts of the Canadian Order of Foresters at the hall of Court Peterborough. Refreshments will be served during the evening and a good time for all members availing themselves of this opportunity of getting better acquainted, will be enjoyed.

—Public sympathy will extend towards the Council in their by-law prohibiting the reckless exposure of edibles to all kinds of contamination. Merchants who persist, after passage of the law, in placing flesh, fish or fruit on low stands on the public pavement to be covered by germ laden dust and other objectionable agents, should receive little mercy.

—New fancy china piece consisting of cups and saucers, trays, cream pitchers, sugar bowls, tumblers, mugs, vases, etc., with view of Jackson park and St. John's church on each. These make a handsome souvenir—see them. Price only 25 cents each. Times Bookstore.

Conference Over.

Changes Made by Bay of Quinte Methodist Conference as to Stations.

The annual meeting of the Bay of Quinte Conference is over. Although the location of next year's conference has not yet been determined, everything points to a very large assemblage.

The following changes were made in the second draft of stations: W. S. P. Boyce, B.D., goes to Adolphustown; R. L. Edwards, to Baltimore; Newtonville, J. W. Bunner; Seagrave, W. J. Young; Woodville, W. D. Harrison; Beaverton, S. T. Tucker; Omemee, R. W. McCullough; Janetville, Jos. Ward; Bobcaygeon, C. H. Coon; Wesley, D. R. Clare; Havelock, Jos. Locke; South Dummer, D. E. Johnson; Warkworth, W. Johnston; Hastings, Wm. Elliott; Flinton, James R. Bick; Cayne, H. C. Garbutt. Two new chairmen were elected, D. O. Crossley, of Whitby district; N. A. McDiarmid, of Madoc district.

Inclement Weather.

Visiting Orangemen Encountered Inclement Weather.

Some 650 visitors from Thornton, Cookston, Barrie, Orillia, Lindsay, and other points, arrived in town yesterday, by an excursion organized by Thornton and Ivy Local Orange Lodges. Though it was raining in all of those places early yesterday morning, between six and seven o'clock, it is stated that the attendance was undiminished by the bad weather, and that a large number of ladies ventured upon the trip.

Although seen under the unauspicious view of a continuous downfall of rain, the visitors seemed to have enjoyed themselves, and those interviewed expressed great admiration for the lift lock and town in general. A visiting gentleman informed The Times that Ivy L. O. L., No. 450, has a membership of about 85, and Thornton L. O. L., No. 16, has about 70.

Messrs. Geo Bartley, D.M.; John A. McWilliams, P.C.M.; James Trew, H. T. Everett, J. H. McWilliams, P. C.M.; R. B. McGill, P.M.; Robert Weir, P.G.M., and Robert Wilson, P.D.M., a Reception committee, appointed by Peterborough Lodge, No. 80, attended the excursion train, which arrived about half an hour late.

The committee welcomed the visiting brethren and their friends and did the honors by showing the strangers the lions of our town.

A baseball match between Lindsay and Peterborough nines had been arranged for the afternoon, but weather would not permit.

The excursion train left at seven p.m., on the return journey.

Go to New York.

On Lehigh Valley Railroad Special New York excursion Friday, June 16th. Tickets only $9 from Suspension Bridge to New York and return. Tickets good 15 days, good on regular express trains leaving Suspension Bridge 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. The date, June 16th. For tickets and further particulars call on or address, Robt. S. Lewis, Canadian Passenger Agent, L.V.R., 19 King street east, Toronto.

Police Should Interfere.

Yesterday evening, George street, at the corner of Hunter, was covered with hundreds of dodgers, advertising the business of a local dry-good merchants. A gentleman, whose office overlooks this corner, told The Times, last night, that he saw a young man, presumably paid to distribute these bills, take a large bundle of them and deliberately fling them into the air, so the wind could scatter them broadcast.

This may seem a small matter to refer to in a daily paper, but should a horse, or several horses, have been frightened by this mass of flying paper, and several peoples' lives have been endangered, if not lost, this breach of a local bylaw would not seem so trivial a matter.

Many a horse that will stand quiet in the face of street cars, or guns being fired off, will become terrified at a piece of flying paper, and at this corner, hundreds of pieces were distributed broadcast.

DUTTON'S MARKET,
Strawberries, quart box - 15c
Malta Vita, per package - 10c
R. A. DUTTON
Phone 304. 418-420 George street,

THE GRAND STAND.

(To the Editor of The Times.)

Dear Sir,—Some one told me yesterday that his Lordship, the Bishop of Peterborough, had sold the grand stand, which was on the grounds of the property to be sold by the town, for $300. Is that so? Does not this money belong to the town, or is it another sample of our Council's peculiar way of doing business?

A LOOKER ON.

In our issue of yesterday's date, appended to our report of the Board of Education's Monday session, in which the matter of the grand stand had been discussed, was an explanation of the affair that was practically correct. At a meeting of the Council, in Committee of the Whole, Mr. E. H. D. Hall, town solicitor, told the committee that the option on the Roman Catholic property expired next day That his Lordship Bishop O'Connor had always considered the option merely covered the ground, and that he, the Bishop, having lent the T.A.S. money to build the grand stand, thought it but fair he should have the disposal of it. Mr. Hall also explained that the Bishop could have charged interest on the money involved by the frequently renewed option, but had not done so, nor asked it, so, as town solicitor recommended that the Council give the grand stand to his Lordship. Whilst the Council passed no actual resolution to this effect, there was a tacit agreement with the solicitor's suggestion. It seems that the main difficulty in connection with this matter, was the Council's not treating the subject in a business like way, and rendering their acquiescence by a resolution voted on in a regular way; this would have saved the rumors and innuendos raised by the Board of Education's professed ignorance of where the property had gone.—Ed. Times.

A MAN CAN'T swim in shackles. It isn't a question of his winning a race, but a question of being able only to keep afloat. The man who is suffering from malnutrition is like the fettered swimmer. His stomach and its allied organs of digestion and nutrition are diseased. It is not a question with him of winning in the race for business but of simply keeping up under any circumstances.

Whenever disease affects the stomach it is affecting also the blood and the health of every organ of the body. For blood is only food converted into nutrition and nutrition is the life of the body and every organ of it.

Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood and enables the perfect nutrition of the body which means perfect health.

"For six long years I suffered with indigestion and my liver and kidneys, which baffled the best doctors in our country," writes E. L. Rawls, Esq., of Woolsey, Prince William Co., Va. "I suffered with my stomach and back for a long time, and after taking a 'cart-load' of medicine from three doctors I grew so bad I could hardly do a day's work. Would have death-like pains in the side and other places. I began taking Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' Before I had taken half of the second bottle I began to feel relieved. I got six more bottles and used them, and am happy to say I owe my life to Dr. Pierce."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

The Common Sense Medical Adviser, 1008 pages, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Sad Drowning Accident Yesterday Evening at Dickson's Dam

Little Five-Year-Old Daughter of Thos. Quinlan Falls From the Old Bridge, Near the Peterborough Light and Power Company's New Power House, and is Drowned.

Yesterday evening a sad accident marked the sunset of a beauteous day in Peterborough. Little did Mr. Thomas Quinlan think yesterday evening, when he took his little daughter out to enjoy the glorious evening, by a pleasant walk by the shores of the Otonabee, that the outing would send his little daughter home silent in death. He took the child, aged some five or six years, on the old bridge, just above the Light and Power Company's new dam, commonly called the Dickson dam bridge.

His attention being diverted, for a few minutes, from his child, sad to say, when he once more sought her company to complete their stroll, the little one had disappeared. Knowing she had not been long enough out of his sight to have reached either shore, by the bridge, the dreadful truth immediately presented itself to the distracted father.

No glimpse could he gain of her struggles for life, the girl having, accidently been drawn under, by the eddying currents. Mr. Quinlan, rushed here and there, calling for assistance, and striving to see some trace of his daughter, but in vain.

About 7.30 Mr. Matt. Young, caretaker of the Power Company's dam discovered the body of the poor child in the flume of the old dam, where the current had washed it. Life was completely extinct, and the almost crazed father had to convey the sad intelligence to his home on Union street.

It is not known whether the child fell through a hole in the walkway or, approaching too near the edge, had become dizzy from sight of the swirling waters and, losing her balance, fell to death. Particulars as to interment will appear in tomorrow's issue.

Mana Their Motto.

Why Do Not the Council Act in Reference to Victoria Park?

It seems as though, in some matters, our City Fathers' actions are characterized by a choice between a lady-like change of mind, and a thoroughly Spanish system of putting off till tomorrow what should be done today.

The question of properly lighting Victoria Park has been discussed and an opinion finally attained that the present vicious darkness and danger making this pretty spot, by night, a portion of the town to be shunned by every decent lady unless in company of a protector, is wrong. A resolution has been passed by the Council that the park shall be lighted, the town to do the wiring and the Light and Power Company to supply the light. Well and good! Our Counsillors are right in their good will, but if morality, decency and safety in Victoria Park are to receive safeguard, why delay action from day to day, until the summer nights are half gone? We are not southern lotus-eating procrastinators who take as our watchword the Spaniards' "Manana." Every night that this light is delayed, is a menace to the womanhood of Peterborough. No offence is intended by this strong way of putting things, but those acquainted with the locality in question, know that strong and immediate action is most desirable.

Not only is light needed from the grounds of safety, etc., but hundreds of children and ladies, were this place as it should be, would enjoy every evening of the week there, in place of having to stay at home or confine their outing to the pavements.

Let the proper parties have the place wired, and we will find that the Light and Power Company will do the rest, and not wait until October to do it.

Museum Curiosities.

A Hint Given Gratis to Inverlea Park Museum.

The family journal, always interested in local items, and particularly in the mammoth aggregation of world's wonders housed in the Museum at Inverlea, would offer a suggestion, for which no charge is made, that might, just as cheaply, increase that already remarkable collection. If the curator or proper officer, preferably some one in the natural history section, would take a large glass receptacle, fill it with the fluid, which comes through the waterwork's mains, denominated "drinking" water, allow said fluid to rest, at even temperature, for a few hours, and then with a scoop net or toy fork, fish out some of the living creatures therein collected, he would have quite an addition added to his treasures.

The new addition might possibly include new and hitherto unclassified specimens of fish, reptiles, frogs and beetles. A local citizen and a temperance advocate yesterday afternoon on drawing a glass of "drinking" water from his kitchen tap, was somewhat startled to find in the glass a worm, of unknown (to him) genus, about 11 inches long, and as thick as a lead pencil. Another citizen a few days ago drew a good sized piece of raw fish in the Peterborough Water Works lottery. There is no telling but what one may, any day, draw a tarnished strip of brass embellished, in water worn characters "Our Fido."

NICE TO

FORGET YOUR STOMACH

You know anyone in perfect health never "feels" at the stomach; its forgotten like any other part of a perfect running machine. No jar, no shock, no sensations at all; just easy, pleasant, restful work—duty well done

THE WAY

lies in the proper selection of food and drink, getting down to Nature's principles, plenty of good air, good water, and particularly plenty of good food that will easily digest, and nourish and rebuild, not clog up.

A Food Expert

understanding how the body worked upon food and what kind of elements it required to rebuild itself, used this knowledge in a skillful way to produce a perfect food and called it

Grape-Nuts

There is the natural Phosphate of Potash and Albumen, from which the life forces make the soft gray filling of nerve centres and brain, so brain fag and nervous prostration disappear for the user of Grape-Nuts.

Then again, in Grape-Nuts the starchy part of the Wheat and Barley has been changed into sugar by cooking at the factory, and, as that is exactly the condition which starchy food, bread, cake, oatmeal, potatoes, etc, assumes after the first act of natural digestion has taken place, so we find Grape-Nuts has passed through this process, outside the body and is therefore properly termed pre-digested, a tremendous help for those who are a bit weak in digestive power, and so comes

The Old Joy

of health, with its youthful glow and warm, keen pulse of vigor and energy will come back. The years are forgotten, and so is the stomach, but you'll KNOW you have a strong, sturdy, well-fed Brain, for all the important brain-building elements are there in GRAPE-NUTS. Dozens of choice recipes for fascinating dishes found in the pkg.

Trial 10 days of GRAPE-NUTS proves.

"There's a reason."

GREAT BRITAIN AND OLD SPAIN

Diplomatic Importance of King Alfonso's Present Visit

CONTROL OF SPANISH NAVY

Spanish Sea Power May Be Aligned on the British Side—New Spanish Warships

London, June 9.—King Alfonso's visit to England, which began with the young monarch's arrival at Portsmouth this afternoon, is expected to strengthen an important link in Lord Lansdowne's chain of diplomacy This link consists of Spain's adhesion to the Anglo-French Italian concert representing the East Atlantic the Mediterranean and particularly the future of Morocco. The British Government hopes to see Spain rise to an influential position in Europe under Alfonso.

BRITAIN AND THE SPANISH FLEET.

Lord Lansdowne is anxious that he power of the regenerated state hall be aligned on the side of Great Britain. This desire is especially keen just now when Germany is pursuing a policy in Morocco that must be altered or lead to trouble. It is calculated that Spanish loyalty to British purposes will mean in the end the addition of eight battleships with their complements of cruisers and torpedo boats to King Edward's Mediterranean fleet. It is true that Spain at present has only one battleship; but the demand for a larger navy is abroad in Madrid. Britain counts on building Alfonso's new battleships.

DOWNING STREET IN COMMAND.

With the Spanish Government docile under the lead of Downing Street, the command of the new Spanish fleet will be practically in British hands for the furtherance of British diplomacy. While such will be the fact in theory the ships will be Spanish. The German navy leaguers cannot use them effectively, as an argument for a bigger fleet at Kiel to cope with the British navy.

Great efforts will be made during the next few days to imprint on Alfonso's mind an indelible impression of the grandeur of the British Court and of the naval and military might of the Empire.

Alfonso will hear the big ships thunder, he will see the heavy battalions in motion. He will move about London in the midst of civic and military company. The streets will be packed with cheering masses. All this is intended to win him to Britain's cause from the fierce rivalry of the European States. It is hoped Alfonso will go back to Spain to sympathize with his people, minimize anarchism, limit the powers of reaction, and thus build up a strong and spirited nation.

HAILS NEW NAVAL ERA

Sea Power of the World Has Great Lesson in Battle of Sea of Japan

GIANT SHIPS LOSE FRIENDS

Destructiveness of Torpedo Vessels, Shown in Fight, May Revolutionize Policies

Washington, June 9.—Now that the smoke of the greatest naval battle of modern times has cleared away, and the secretive Japanese are lifting the veil which has hitherto concealed important facts, it becomes apparent that the naval development of the nations is to be vastly changed as a result of the lessons taught by the little brown men of Nippon. Some of these lessons may be thus recounted:

1. It is not so much a big navy a nation needs to maintain its sea power as it is a navy of moderate size, but of the very highest possible efficiency.

2. This means that the personnel is of more importance than the ships and armor and armament—"the man behind the gun" is the first consideration.

3. The great floating fortress called a battleship is going down in the scale of relative importance, and the little torpedo boat is coming up. So much is this true that it is already well-nigh assured that the future naval policy of the United States will be the building of few if any more battle ships and the construction of a large number of torpedo boats and destroyers. There is also a possibility that the submarine is coming to the front, that the French have been on the right track in that line, though as to this more light is needed.

Now that most of the facts have come out, naval men and government officials, from President Roosevelt down, are more than ever amazed at the results attained by the Japanese. The men of Nippon are now the naval leaders of the world. The experts of all countries are sitting at their feet. Incidentally the American navy is at fault, and liable to severe criticism because it has not sent men to the far east to study the action on the sea and to profit thereby. Some other nations have been forehanded in this and have gained a distinct advantage over the United States.

Perhaps the most astounding fact involved in the war is this; Since the outbreak of hostilities the Japanese have neither built nor bought war ships, yet their fighting line is now stronger than it was at the beginning of the war. In other words, they have taken from their enemy more in tonnage, in guns, in actual value, than they have lost from all causes during the war. And meanwhile they have annihilated the naval power of their enemy. Such an achievement as this eclipses everything known to naval annals.

Accordnig to official statements made yesterday in Tokio, the Japanese have lost since the war began one battle ship, one cruiser, two gunboats and five torpedo boats or destroyers. All but three of these craft, and these small boats belonging to the torpedo flotilla, were lost in the series of blockades at Port Arthur. Not one was sunk, destroyed or captured by the guns of the Russians, unless the three destroyers lost last Sunday and Monday fell before the gun fire of the foe. Mines and accidents account for all the casualties, with the possible exception of these three. In other words, the Japanese navy has practically wiped the Russian navy off the face of the waters. The Russian navy, mines excepted, have inflicted mere trivial injury and loss upon the Japanese. It is not surprising that naval experts the world over sit in amazement when they contemplate the achievements of the Japs.

For the one battleship they have lost the Japanese have gained from the Russians two first-class modern battle ships, one of them as fine a ship of the line as there is afloat. They now have possession of two coast defense ships which the Russians were kind enough to sail into Japanese waters as a contribution to the fighting force of the Mikado. They have captured one good cruiser, one valuable special service ship and at least two and probably several more destroyers. The balance, it can readily be seen, is heavily in favor of the Japanese. Their navy is stronger now than it was when the war broke out. The Russians have played nicely into their hands.

The office of naval intelligence yesterday issued a statement showing in detail the effect of the war up to date upon the naval power of the combatants. When hostilities began Russia had nineteen first-class battle ships, with a tonnage of 230,000. Now she has seven such ships, with tonnage of only 82,000.

Eleven coast defense vessels, with a tonnage of 65,000, have shrunk to seven, with a tonnage of 43,000.

Armored cruisers numbering seven at the outbreak of the war, with 59,000 tons, have dropped to three, with 31,000 tonnage.

Cruisers of above 6,000 tons numbering six when the war started, with 40,000 tons, are now only four, with 30,000 tons.

Of fourteen smaller cruisers the Russians have lost three, and would have lost more if they had sent them to the far east. Of forty-one torpedo boat destroyers, they have lost at least eight, and of eighty-five torpedo boats they have lost at least three, and probably more. The naval intelligence office includes only craft known to have been lost.

How have the Japanese fared meanwhile? According to the same official report, at the outbreak of the war the Japanese had four first-class battle ships, with a tonnage of 57,000. Now they have five with a tonnage of 70,000.

Their two coast defense ships, with a tonnage of 11,000, have been increased to five, with a tonnage of 29,500.

They have the same number of armored cruisers, eight.

They have the same number of cruisers above 6,000 tons, eleven.

They have lost one small cruiser.

They have gained three torpedo boat destroyers to add to the nineteen they originally had, and they have lost four torpedo boats.

A Canadian Cruiser Sinks A Poacher.

Lake Erie the Scene of a Daring Attempt to Escape the Vigilant Which Ends Disastrously—Two Men Were Drowned.

Port Stanley, Ont., June 9.—Yesterday morning about 9.15 the Government cruiser Vigilant, Captain Dunn, sighted a fishing tug about six miles east of Middle Island, in Lake Erie, and about five miles north of the boundary line. The captain changed his course and made towards the tug, which proved to be the Grace M., of Lorain, Ohio, Captain William Galbraith. The tug came towards the Vigilant, and when quite near her Captain Dunn signalled with his whistle for her crew to check. No attention was paid to the signal. Then Captain Dunn whistled to stop, but the tug shot past the Vigilant with full steam.

Captain Dunn turned and soon overhauled her, but the tug continued to dodge the Vigilant, notwithstanding the fact that Captain Dunn had fired across her bows several times. The Vigilant was again coming up on the tug when she again attempted to cross the Vigilant's bow. Captain Dunn, seeing there was likely to be a collision, stopped and backed full steam.

He had his boat well stopped when they came together, but the momentum of the Vigilant was sufficient to roll the Grace M. over and she sank. Captain Dunn rescued Captain Galbraith, Engineer William Rulleson, and D. Poppelwell, a fisherman. Two fishermen named Martin Olesen of Cleveland and William Anderson of Lorain were drowned.

Captain Galbraith admits that Captain Dunn was in no way to blame, and now to his sorrow realizes he should have obeyed Captain Dunn's signals and stopped his boat when ordered to do so.

WEDDING BELLS.

Wedding Bells Ring Merrily in the Month of June—Several Peterborough Couples Made Happy at the Altar.

Chapman-Foster.

A pretty wedding was Wednesday solemnised at 22 Gilmour street, the residence of Mr. Thos. Chapman, when his daughter, Miss Maude Chapman, became the bride of Mr. George Nelson Foster, son of Mr. Wm. Foster, of Smith township. There were about forty guests in attendance. The ceremony was performed at 8 o'clock by Rev. Freeman J. Scott, pastor of Murray street Baptist church. The bride was given away by her father, and the bridesmaid was her sister. Miss Bertha Chapman, while Mr. Fred Dummitt was best man. The bride was the recipient of many beautiful wedding gifts.

Worboy-Heatherington

A pretty wedding was that solemnized Wednesday evening at 601 Rubidge street, when Miss Alice Worboy was united in marriage to Mr. John Heatherington, of town. The ceremony was performed by Rev. J. C. Davidson, rector of St. John's church, in the presence of a large number of friends of the young couple.

The bridesmaid was Miss Annie Worboy, sister of the bride, and the groom was assisted by Mr. Norman Fowler, of town. Little Misses Stella and Edna Worboy, sisters of the bride, acted as flower girls. Mr. and Mrs. Heatherington will reside at 46 Elm street, town.

Hetherington-Ferguson.

The home of Mr. and Mrs. S. G. Hetherington, in North Monaghan, was, on Wednesday evening, the scene of a pleasing event, when their eldest daughter, Miss Lottie B. Hetherington, was united in marriage to Mr. John Stewart Ferguson, of North King, who is at present ledger keeper in the local Bank of Toronto, and has been a resident of Peterborough for the past few years. It was a quiet home wedding and only immediate relatives were present. The ceremony was performed by the Rev. J. G. Potter, pastor of St. Andrew's church, as the bridal party stood beneath an arch of white lilacs and syringa. The bride wore a becoming travelling suit of ladies' cloth, and carried a bouquet of lilies of the valley. The bridesmaid, Miss A. Frise, was gowned in nile green crepe de chene, and her bouquet was of pink carnations. The groomsman was Mr. W. P. Hetherington. Among the beautiful wedding presents received by the bride was a silver cake dish, the gift of the B. A. C., with which Mr. Ferguson was connected.

Czar Has Only One Fleet Left.

All that remains of Russia's naval power is the Black Sea fleet, which is made useless for the present war by the treaty agreement with the powers that it shall not pass the Dardanelles. This fleet is made up as follows;

Ships and class.	Tons.
Kvatafi, battle ship	12,480
Ivan Zlatoust, battle ship	12,480
Tria Sviatitelia, battle ship	12,480
Knias Potemkine Tavritchesky, battle ship	12,480
Catherine II., battle ship	10,180
Dviemedzat Apostoloff, battle ship	8,076
Otchakoff, cruiser	6,670
Czar, cruiser	2,340
Czarevna, cruiser	2,340
Czaritza, cruiser	2,340
Grand Duke Alexis, cruiser	2,350
Grand Duk Constantine, cruiser	2,400
Grand Duke No. 1, cruiser	2,400
Emperor Nicholas II., cruiser	
Roumantseff, cruiser	760
Captain Sacken, gunboat	742
Cheremmoretz, gunboat	1,224
Kazarsky, gunboat	400

There are in addition a number of smaller gunboats and dispatch vessels ranging from 90 to 236 tons each.

Emperor Nicholas Decides on Peace.

If Terms Are Reasonable—Ending of War Depends on Whether Japan will Accept Terms Not Too Humiliating to Russia.

St. Petersburg, June 8.—It now transpires that United States Ambassador Meyer's audience of Emperor Nicholas yesterday had been preceded by a family council at Tsarskoe-Selo, at which it is understood the decision was reached that peace was entertainable if Japan's conditions were not too onerous.

Mr. Takahira with a full knowledge of the attitude of the neutral powers had intimated to M. Jusserand, the French ambassador, at luncheon to-day and learned that France would willingly aid other neutral powers in a movement to induce Russia to ask for peace. Baron von Sternburg, the German ambassador, discussed Germany's attitude with him last night and said his country was most anxious that he should act as mediator.

Mr. Oberine, first secretary of the British embassy, saw him yesterday and again to-day. Great Britain is not as desirous for peace as the other neutral nations, but if it is to come will welcome American intervention. Baron Mayor des Planches, Italian ambassador, enthusiastically favors the mediation of Mr. Roosevelt.

Austria-Hungary is the only power which has not sent its representative to the White House to talk with the President. Its interests are such that it has little concern in far eastern affairs.

As a result of these conferences it may be stated that all neutral nations diplomatically are urging Russia to make peace and are advocating that President Roosevelt be used as a channel by which Japan shall be approached.

FEAR IMMEDIATE UPRISING.

The state department has been keeping in close touch with the situation in Russia, not only because of any change bound to affect seriously American interests, but because of its influence upon an early termination of the war. While Rojestvensky's fleet was in the Pacific there was a noticeable cessation of the revolutionary agitation, so much so that reports were received indicating that the government had gotten the situation well in hand.

Private letters from owners of large estates in the provinces wrote that they were sending their wives and children to Berlin. By judicious distribution the government troops kept down the uprising, but it is feared in the districts remote from points where garrisons are stationed will use the torch and club as a protest against the terrible conditions by which they are oppressed and which they hold responsible for their country's defeat.

It is to cope with this situation that General Trepoff, who was made Governor of St. Petersburg during the January riots, has been appointed assistant minister of the interior. His promotion means that he will be dictator of Russia just as he has been dictator of the Russian capital.

PROTESTS TREHOFF'S METHODS

It is regarded probable that it was as a protest against the employment of such methods as Trepoff applied to St. Petersburg that M. Bouligan sought to retire from the office of minister of the interior. Before he was named Von Plehve, who was assassinated last August, occupied the post of assistant minister and had control of the police. His successor, the liberal Prince Mirski, refused to have anything to do with the police section, but it was restored to the ministry of the interior when he retired, and since has been administered in a half-hearted way under Bouligan.

There will be no half heartedness now that Trepoff has come into power. Officials who know the situation in Russia fully expect that he will endeavor to ride rough shod over every person who may be suspected of entertaining advanced views regarding the government.

It is possible that faith in Trepoff may cause the Czar to decide to continue the war. But this possibility is regarded as slight in view of the cry for peace which is being raised not only by the families of 20,000 sailors who either lost their lives or have been captured, but by the widows and parents of 200,000 men who have been sacrificed on the battlefields of Manchuria.

RUSSIA'S PLIGHT LIKE CHINA'S

A diplomat who was in Peking during the war between China and Japan remarked to-day that the situation in Russia resembled that in China after the succession of defeats suffered by the Chinese. There was no decision in Peking, as there is no decision in St. Petersburg. Everything was confusion, and the only salvation was in peace.

It is significant that China recognizes the terrible plight into which her ancient despoiler has fallen. It was learned to-day that the Chinese government has joined other neutral powers in expressing to President Roosevelt its opinion that he is the one man in all the world to act as peacemaker. China wants peace, because it is her territory which is being used as a battlefield.

It would be thought that she would be invited by both Japan and Russia to participate in peace negotiations when they begin. Manchuria, whose fate will be determined, is a Chinese province. The Transmanchurian road is an enterprise built under a Chinese concession. In spite of this, however, there is not the slightest doubt that China will not even be consulted by the belligerents.

RUSSIA STUNNED; REVOLT IMMINENT

Defeat of Rojestvensky Puts Fresh Heart in the Agitators, Who Advise Use of Torch and Club

TREPOFF TO BE DICTATOR

New Minister Will Ride Rough Shod Over the People and May Influence the Czar to Continue the War

Washington, D.C., June 9.—Official Russia has been thrown into such a condition of chaos by the defeat of Vice-Admiral Rojestvensky's fleet that it is utterly impossible to obtain a definite statement from the Czar or any one of influence in his entourage in regard to President Roosevelt's suggestions concerning peace. The men who direct the nation absolutely are stunned. The internal situation has developed dangerously towards an outbreak and is giving the gravest concern to the authorities.

This is practically the text of an official cablegram received by one of the foreign embassies here to-day, and it is believed that its contents have been communicated to the President. It throws a flood of light upon the question of Russia's attitude toward peace in spite of the suggestion of helplessness on the part of her rulers. It proves that Rojestvensky was the last desperate venture to snatch victory from defeat.

Success would have meant discouragement for the malcontents at home and greater ease in dealing with them. The destruction of the Russian fleet has put fresh heart in the agitators, and they vigorously began spreading throughout Russia the news that Rojestvensky and his thousands of men had been captured or drowned as a consequence of the glaring incompetency and corruption of the Emperor and his cumbersome bureaucracy.

JAPAN DECIDED IN DEMANDS.

While official Russia is in such a state of demoralization Japan is clear headed and decided and knows exactly what she wants. Mr. Takahira, Japanese minister, called at the White House last night and presented to the President several Japanese naval officers who had participated in the operations off Port Arthur.

He discussed the war and peace situation with the President, making it plain that his government will welcome peace, but still insisting that overtures must come first from Russia. He also declared that a large indemnity will be one of the principal demands which his government will make.

ALL COMBINE ON ROOSEVELT.

The President was able to talk with Mr. Takahira with a full knowledge of the attitude of the neutral powers. He had M. Jusserand, the French ambassador, at luncheon to-day and learned that France would willingly aid other neutral powers in a movement to induce Russia to ask for peace. Baron von Sternburg, the German ambassador, discussed Germany's attitude with him last night and said his country was most anxious that he should act as mediator.

Mr. Oberine, first secretary of the British embassy, saw him yesterday and again to-day. Great Britain is not as desirous for peace as the other neutral nations, but if it is to come will welcome American intervention. Baron Mayor des Planches, Italian ambassador, enthusiastically favors the mediation of Mr. Roosevelt.

Austria-Hungary is the only power which has not sent its representative to the White House to talk with the President. Its interests are such that it has little concern in far eastern affairs.

As a result of these conferences it may be stated that all neutral nations diplomatically are urging Russia to make peace and are advocating that President Roosevelt be used as a channel by which Japan shall be approached.

FEAR IMMEDIATE UPRISING.

The state department has been keeping in close touch with the situation in Russia, not only because of any change bound to affect seriously American interests, but because of its influence upon an early termination of the war. While Rojestvensky's fleet was in the Pacific there was a noticeable cessation of the revolutionary agitation, so much so that reports were received indicating that the government had gotten the situation well in hand.

Private letters from owners of large estates in the provinces wrote that they were sending their wives and children to Berlin. By judicious distribution the government troops kept down the uprising, but it is feared in the districts remote from points where garrisons are stationed will use the torch and club as a protest against the terrible conditions by which they are oppressed and which they hold responsible for their country's defeat.

It is to cope with this situation that General Trepoff, who was made Governor of St. Petersburg during the January riots, has been appointed assistant minister of the interior. His promotion means that he will be dictator of Russia just as he has been dictator of the Russian capital.

PROTESTS TREHOFF'S METHODS

It is regarded probable that it was as a protest against the employment of such methods as Trepoff applied to St. Petersburg that M. Bouligan sought to retire from the office of minister of the interior. Before he was named Von Plehve, who was assassinated last August, occupied the post of assistant minister and had control of the police. His successor, the liberal Prince Mirski, refused to have anything to do with the police section, but it was restored to the ministry of the interior when he retired, and since has been administered in a half-hearted way under Bouligan.

There will be no half heartedness now that Trepoff has come into power. Officials who know the situation in Russia fully expect that he will endeavor to ride rough shod over every person who may be suspected of entertaining advanced views regarding the government.

It is possible that faith in Trepoff may cause the Czar to decide to continue the war. But this possibility is regarded as slight in view of the cry for peace which is being raised not only by the families of 20,000 sailors who either lost their lives or have been captured, but by the widows and parents of 200,000 men who have been sacrificed on the battlefields of Manchuria.

RUSSIA'S PLIGHT LIKE CHINA'S

A diplomat who was in Peking during the war between China and Japan remarked to-day that the situation in Russia resembled that in China after the succession of defeats suffered by the Chinese. There was no decision in Peking, as there is no decision in St. Petersburg. Everything was confusion, and the only salvation was in peace.

It is significant that China recognizes the terrible plight into which her ancient despoiler has fallen. It was learned to-day that the Chinese government has joined other neutral powers in expressing to President Roosevelt its opinion that he is the one man in all the world to act as peacemaker. China wants peace, because it is her territory which is being used as a battlefield.

It would be thought that she would be invited by both Japan and Russia to participate in peace negotiations when they begin. Manchuria, whose fate will be determined, is a Chinese province. The Transmanchurian road is an enterprise built under a Chinese concession. In spite of this, however, there is not the slightest doubt that China will not even be consulted by the belligerents.

MOTHERHOOD WEAKNESS

Is Promptly Overcome — Health and Vigor Permanently Restored

FERROZONE

Cures all Ailments From which Women Suffer

Many women suffer untold torture from nervous debility caused by disorders of the feminine organs. Day by day they grow worse, but from a false sense of modesty they shrink from using a good remedy like Ferrozone. And it would cure them.

Nothing renews weak woman like Ferrozone. It brings back lost nerve force, supplies new vitel energy, increases the blood supply.

No restorative so potent and prompt as Ferrozone has ever been discovered. You feel its uplifting effect at once. Your spirits rise, you gain in power and cheerfulness, feelings of weakness and despondency disappear.

No woman can remain sick or miserable if she uses Ferrozone. It goes direct to the seat of trouble, puts a stop to functional irregularities, and establishes buoyant, robust health. Being free from alcohol, and dangerous drugs, Ferrozone can be used by young and old with absolute safety. Prepared in tablet form, fifty to the box; price 50c., or six boxes for $2.50, at all dealers, or N. C. Poison & Co., Hartford, Conn., U.S.A., and Kingston, Ontario.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

PETERBOROUGH, JUNE 9, 1905

THE CZAR'S REPORTED "DETERMINATION"

There is inherent probability in the St. Petersburg report that all but two of the Czar's ministerial advisers favor immediate peace on whatever terms may be had at this juncture. It is not easy to credit the accompanying rumor that the Czar himself is "resolutely determined on the prosecution of the war," but if it be well founded, the unavoidable inference is that the absolute hopelessness of the situation, the utter futility and criminal folly of further resistance has not been brought home to the sullen autocrat with due candor and plainness, not even at the extraordinary council at Tsarskoe-Selo occasioned by the unparalleled disaster in the Korean Straits.

Russia is practically without a navy. All talk of fitting out another squadron may be dismissed as idle and absurd. If Russia is to retrieve her moral loss, she must do it on land. But what chance has Linevitch in the light of Port Arthur and Mukden, not to refer to earlier reverses—a whole unbroken series of them!

He is said to have about 400,000 troops under his command, but the Japanese are stronger even numerically, according to all accounts, while concerning their superior organization and equipment, their choice-justified confidence in themselves, their enthusiasm and valor, it is hardly necessary to speak at all.

It is certain as anything can be in human affairs that if the war continues Vladivostock will share the fate of Port Arthur—for it has not even the constructive support of a crippled squadron—and Harbin the fate of Mukden. The army is reported to be in open revolt; ignoring this for the moment, and assuming that the soldiers will obey orders, how will they fight, with what spirit?

Moreover, it takes money to continue the war. Where will Russia obtain it? Her creditors are not eager to float additional loans, knowing that her masses are impoverished and her tax resources exhausted. An indemnity will have to be paid too, and the demands of Japan will increase as time passes on. The creditors would rather furnish funds for the indemnity than for futile and foredoomed campaigns.

The situation is desperate, and peace is the only way out. If the Czar does not realise this, all he has to do is to read the comments of his own press and consult his independent and enlightened subjects.

ANOTHER RESULT OF THE WAR

What war is, and especially Russia's cruel and needless war, is illustrated by the news from Vladivostock which indicates that the inhabitants of the whole maritime region of eastern Siberia, including the Island of Sakhalin and the Kamchatka Peninsula, are facing starvation on account of the situation produced by war. Word has been brought to Vladivostock from Okhotsk, eastern Siberia, that the fish supply of Sakhalin was exhausted last winter and that the inhabitants ate their dogs. There is no flour on the island. A similar situation exists at Kamchatka, where the people are practically left to their fate. No work is going on in the Amur district, beggars are roaming about everywhere, and the Orochons, a Siberian tribe which lives on the shores of the Gulf of Tartary, are dying of starvation. The dispatch concludes: "Should the war continue six months longer starvation will be universal in all this remote region."

These poor creatures haven't been thought of by anybody, and they must feel as if God himself had forgotten them.

MAY ABOLISH ALIEN LAWS

Canada and the United States May Both Remove Restrictions on Intercourse

Ottawa, June 9.—Should the United States authorities adhere to their desire for a resumption of the Joint High Commission with Canada, and should the tribunal resume consideration of the unsettled matters of dispute between the two countries, your correspondent has good ground for saying that the Canadian Ministers will do all in their power to reach an understanding whereby the Alien Labor Laws now enforced against one another will be withdrawn.

Sir Wilfrid Laurier has never made any secret of his opinion that these restrictions on mutual intercourse are vexatious and unstatesmanlike. The Canadian law was only passed because Uncle Sam shut the door against Canadian labor. If our neighbors were prepared to exempt Canadians from this obnoxious legislation, the Dominion would no doubt gladly respond.

FOR PUBLIC OWNERSHIP

Philadelphia's Mayor Makes Statement on the Vexed Question

Philadelphia, June 9.—Mayor Weaver, who until now has maintained silence regarding municipal ownership in the campaign that has been begun for new Philadelphia, in an interview to-day, said he believed the city should obtain control of all its public works, and said that he had been credibly informed that within the past month a plan was on foot among politicians to turn the waterworks, on whose filtration plant the city has expended millions of dollars, over to a corporation just as they did in 1886 with the gas works.

"I will fight such a move with all the power I can. I think municipal ownership, with politics out of it, is entirely feasible, and in fact the only condition for city public utilities. They can be run by cities with success, but politics must be kept out."

Strike a Blessing in Disguise

Toronto, June 9.—The bakers' strike is likely to prove a blessing in disguise. While some will suffer, the toiling bread-eaters will be treated to a drop in the price of bread. Toronto prices at present are 37 1-2 per cent. in advance of the Hamilton prices. Within the last few days the bakers have held meetings, with a view of keeping up the price, and the strike has broken the compact. A boycott is sure to follow, and in most cases the firms interested in fighting the union will make a big cut as an inducement for people to buy their bread. The present rate for bread is 10 cents for a three-pound loaf, while in Hamilton, forty miles away, it is but eight cents.

Go to New York.

On Lehigh Valley Railroad Special New York excursion Friday, June 16th. Tickets only $9 from Suspension Bridge to New York and return. Tickets good 15 days, good on regular express trains leaving Suspension Bridge 3.50 and 7.15 a.m., 3.20 and 10.15 p.m. This date, June 16th. For tickets and further particulars call on, or address, Robt. S. Lewis, Canadian Passenger Agent, L.V.R., 10 King street east, Toronto.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & CO., Toledo, O

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of cultivation.

2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses 2, 3 or 4 must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up, the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—the many vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

BEFORE TREATMENT AFTER TREATMENT

Peter H. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and fully. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

DRS. KENNEDY & KERGAN.

140 SHELBY STREET, DETROIT, MICH.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each

200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1,000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties:—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Morse, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Carr, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company is the Wilcox, Murphy, Down, Rock-Hill, Ben Butler, Columbia, Reindeer Annex, John Thompson, Frank, and Parowan, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the condition resembling that of coal formation; consequently, the direction and trend of the ore bodies are readily followed and determined, and by preliminary exploration, their courses have been found to underlie the portion occupied by our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $310,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1,000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent Stock at Twenty-Five (25c.) per share, for the purpose of continuing the shafts already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profit. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,
35 Congress Street, Boston, Mass.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $500.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be ninth among the greatest copper districts in the world. This company will control at least a thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

I STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

EVERYBODY READS THE TIMES

Canadian Soldier Oyama's Scout

Lieut. Callaghan With the Mikado's Army--An Exciting Career

Toronto, June 8.—Lieut. Tom Casey Callaghan, whose widowed mother resides at the corner of Wuthrow and Pape avenues, is at present filling the responsible position of chief scout to General Oyama in the Mikado's grand army in Manchuria. He has had a career alike interesting and adventurous. As a boy Tom was well known as an expert baseball player in Riverdale, but he soon started roughing it in the West. He succeeded so well that it was not long ere he was able to purchase a ranch for himself, and in pursuance of his calling he developed into an expert horseman, rifle shot, and trapper of big game, qualifications which should serve him in good stead as Oyama's chief scout.

WAS NOT TALL ENOUGH.

On the outbreak of the Boer war Callaghan endeavored to enlist in the Canadian Mounted Rifles, but his short stature disqualified him. He was not to be daunted, however, and asked permission to give an exhibition of horsemanship. His skill so impressed the recruiting sergeant that all rules and regulations were discarded, and he was accepted and sent to South Africa. After serving for a time with the Mounted Rifles, Callaghan joined the well known Howard's Scouts, most of whom were Canadians. He subsequently formed a corps of his own, which came to known as Callaghan's Scouts.

WITH LORD KITCHENER.

The members of the new corps, with the dashing young Canadian at their head, was associated with Lord Kitchener in his sweeping manoeuvres. Callaghan's favorite device for detecting the enemy was by reclining prone on his back on the ground. Lord Kitchener on one occasion missed capturing a body of Boers because he declined to believe in scouting of this nature. Callaghan did not get off scathless by any means in his South African experiences. On one occasion he was shot through the body and given up for dead; he was dressed for burial, and was already lying beside a newly-dug grave intended for him, when a chum named Drawry thought he detected signs of life and succeeded in reviving him with a cup of green tea. He was so lively afterward that he carried an important despatch seventy miles, and two horses died under him in accomplishing the task for which he was given the distinguished service medal.

When the South African War was over, Callaghan paid a visit to his mother in Canada, and with the breaking out of the contest between Japan and Russia, he asked Col. Evans, of Winnipeg, to use his influence in enabling him to enlist as a scout in the Intelligence Department of the Japanese army. He was successful, and his high position today is the result. Mrs. Callaghan hears from her son occasionally, and the latest account was that he was fit and well.

Trading Stamps Further Limited

New By-law Prepared by Retail Merchants--Placed on Packages

Toronto, June 8.—As a result of legislation obtained by the Retail Merchants' Association at the recent session of the Legislature, Mr. E. M. Trowern, secretary, has prepared for the city, town and village councils of Ontario a draft by-law for the regulation and restriction of the use of trading stamps and coupons by merchants. The measure which he recommends for adoption is as follows:

"No person shall, in the city of Toronto, give, sell, distribute or receive trading stamps, coupons, or other similar devices, and no person, firm or corporation engaged in trade or business shall give, sell or deal in such trading stamps, coupons, or other similar devices. Provided, however, that this bylaw shall not apply to any merchant or manufacturer who places in or upon packages of goods, or delivers to purchasers of goods, sold or manufactured by him, at the time of such purchase, tickets or coupons, which bear upon their face the place of delivery thereof, together with the cash or merchantable value of the same, and are redeemable at any time, and only by the merchant or manufacturer giving them, and only at the store or factory where such goods were sold or purchased."

The penalty for breach of the by-law is to be $50 and costs for each offence, or in case of default, imprisonment for a period not exceeding six months.

Wife Murderer's Fate

Hoch, Suspected of Many Crimes, Sentenced for One

Chicago, Ill., June 8.—Johann Hoch, convicted wife-murderer and confessed bigamist, was sentenced by Judge Kersten today to be hanged June 23. Only a few persons were in court when the sentence was pronounced. The passing of the sentence came after a dramatic scene in court. Hoch forgave the prosecutors, the police, the jurors, and the many witnesses who testified against him, and asked that God have mercy on their souls. He said: "I am convinced that my poor, dear wife was murdered, but I am not her murderer."

Judge Kersten said: "This court has no doubt that this man put that poor, confiding woman to death; the woman you, Hoch, had sworn to protect, the woman who gave you her all."

Formal sentence was passed and Hoch was taken back to jail.

Regulars to Stay For Another Year

Taking Over of Halifax and Esquimalt Postponed--Sir F. Borden Too Sanguine

Ottawa, June 8.—To use a rather homely expressing, the Minister of Militia has discovered that he has bitten off more than he can masticate. During this session he has been repeatedly told that it was a mistake to withdraw the British troops from Halifax and Esquimalt, that it would be difficult to find good men to take the places of British regulars, and that the better policy to pursue would be to allow things to continue as they have for some years, but Canada to pay the bills.

Sir Frederick would not listen to advice of this kind. By his scheme he saw great possibilities for political patronage, and accordingly it was announced that on the 1st of July the two forts would be taken over, and that Canadian troops would take possession on that day. Recruiting has not come up to the expectations of the Minister, with the result that a communication has now been sent to the Imperial authorities, requesting them to continue the Royal Engineers and Royal Marines at Esquimalt for another year, the Dominion undertaking to pay the bill.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Toronto Island Breakwater Extension," will be received at this office until Tuesday, July 4, 1905, inclusively, for the construction of an extension of the Breakwater on South side of Toronto Island, City of Toronto, in the County of York, Ontario, according to a plan and a specification to be seen at the office of the Resident Engineer, Confederation Life Building, Toronto, at the office of C. Desjardins, Esq., Clerk of Works, Post Office, Montreal, and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for seven thousand dollars ($7,000.00), must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary

Department of Public Works,
Ottawa, June 3, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

Catarrh eads to Consumption

he Experience of a Lady in Sydne Who was Cured of Consumption by Inhaling Catarrhozone — This Case Should Warn Others.

"The beginning of my trouble was cold, just a single cold," writes Mrs. A. V. Thorburn, of Sydney. "I neglected this cold and then I got catarrh. When it became troublesome I took some medicine but it didn't help me. I began to cough a great deal and then consulted a doctor. I was horrified to find I must have had tubercular irritation in my lungs for a year or more. A friend strongly urged me to use Catarrhozone. I conferred with my doctor and he said that lots of fresh air and the frequent use of Catarrhozone would be the proper treatment. I used to cough for at least half an hour in the morning but after using Catarrhozone a few days my cough was much easier. The irritation gradually left my throat and I commenced to get better. I kept up the Catarrhozone treatment and inhaled the medicated air five minutes every hour. I believe this was the means of saving my disease, for I got quite well again in a few months. I have since advised other sufferers from catarrh and lung trouble to use Catarrhozone, and in each case good results were obtained. I attribute my recovery entirely to Catarrhozone, which I can honestly recommend in the strongest way."

The foregoing experience should convince everybody of the evil of allowing colds to develop. To neglect catarrh is even worse. Carry a Catarrhozone inhaler in your pocket and use it occasionally it prevents colds, permanently cures every type of catarrh, and is known to be the only remedy that actually kills the germs of consumption.

Catarrhozone is used by all intelligent physicians and is endorsed by thousands of doctors, because it can be relied upon to absolutely cure catarrh, bronchitis, throat and lung trouble. Catarrhozone is simplest, surest and best remedy. Two months treatment guaranteed to cure. Price $1.00, trial size 25c. at druggists or N. C. Polson & Co., Kingston, Ont., U.S.A., and Kingston, Ont. Refuse substitute for Catarrhozone and insist on getting it when you ask for Catarrhozone.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. SHAPLEY

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. J. O. McCarthy, Toronto manager of the Great West Life Assurance Co., was in town yesterday on business.

—Mr. F. Hudson, who was painfully injured in an assault at his hotel on Hunter street, a few days ago, is in a serious condition at St. Joseph's Hospital.

—Mr. W. B. Bomford, Travelling Freight Agent of the C. P. R., Mr. W. Dockerel, T. P. A., and Mr. C. B. Foster, D. P. A., of Toronto, went to to Stony Lake on the Olympic excursion

—Mrs. Fowler, of Tunbridge, Wells, Kent, Eng., has taken the residence of Mrs. Hatton, Charlotte street, proximo. Mrs. Hatton is spending the summer with friends in Toronto, and will on her return next winter reoccupy her lately leased residence.

—The Peterborough members of the Canadian Manufacturers' Association who have engaged passage on the steamer Victorian which sails from Montreal Friday on a trip to England are: Messrs. B. E. Ackerman, Hugh Waddell and R. M. Waddell and J. J. Turner, sr., who will be the only representative in their line of business in the party. Mr. and Mrs. C. B. Routley, of town, and Mr. and Mrs. W. C. Routley, of Toronto, will also take the trip by the Victorian, though not forming a part of the Manufacturers' party. Mr. J. D. Flavelle and family, of Lindsay, are also sailing by the Victorian, true also sailing by the Victorian

Local Incidents

AT THE TIMES MAN ON THE STREET.

—No Police Court yesterday.

—St. John's confirmation class was held yesterday evening instead of tonight.

—The George street Epworth League has arranged for a moonlight excursion on June 19th per City of Peterborough.

—The Quaker Football team had a practice yesterday evening on the Oval in preparation for Saturday's game with Norwood.

—Pastor Steuernagel and a band of workers will conduct a gospel service tonight in the little church at Auburn. The public generally is cordially invited.

—Mr. P. M. Patterson, grand organizer of the Canadian Home Circle, was present at the meeting of the Circle in the Foresters' Hall, George street, yesterday evening, and delivered an address.

—The steamer Water Lily and barge brought an excursion of about 150 people yesterday from Bewdley, Plainville and other places on Rice Lake. The Plainville football team accompanied the visitors.

—St. Catharines people are enjoying a snap. The city has been piped for natural gas, which is being sold at 40c. per 1000 ft. with 10 per cent. discount, as compared with $1.50 heretofore charged for artificial gas.

—Mr. B. F. Reesor, of Lindsay, was presented with an address and a solid leather suit case recently by the Light, Heat and Power Co. of that town, of which he has been manager. He goes to accept an offer by the Georgian Bay Power Co.

—Mr. Duncan Cameron, the well known tailor, has opened a new business at 385 Water street, in the store recently occupied by Mr. Morrison in the same line. Mr. Cameron is laying in a splendid line of cloths and tweeds, and will do his own cutting.

The "Genesee" one of the fastest naptha launches on Chemong Lake, will not be seen on those waters this season. She was brought down yesterday morning from Chemong, by her owner, Mr. Radolph, of Rochester, who intends to take her to the other side.

—Near Lil. Lake a number of men are still busily engaged in loading blue clay and conveying the same to the Lakefield Cement Works. A quantity of first-class clay is to be found in that vicinity and is being formed into cement blocks.

—A large number of gentlemen, who are interested in the preservation of fish and game in Ontario, met on Wednesday afternoon in Toronto for the purpose of forming an organization with the object in view of securing the better protection of game and fish in this Province. Peterborough will endorse their action and wish them every success.

Huge Safe Arrived.

Bank of Ottawa Have Placed a Large Safe in Their Premises.

Mr. A. A. Hollingshead, manager of the newly located Bank of Ottawa, is evidently not letting the grass grow under his feet, or his future opportunities become moss-grown. The new premises, of the bank, on George street, are being pushed ahead as fast as skilled artisans can hustle.

Yesterday evening a large safe, weighing over five tons, brought here from Montreal, was successfully located in the new bank, by the Peterborough Fuel and Cartage Co. The safe is one of Goldie and McCulloch's, of Galt, latest and most complete burglar proof creations, standing about seven feet high. There is still another safe on the way for this bank, so they will be able to give ample safe security for deposits and treasure.

Off For Guelph.

500 People Go To The Royal City on Farmers' Institute Excursion.

For weeks past, the farming community of this neighborhood have laid out yesterday as a holiday. The Farmers' Institute excursion has now become an annual festival, and is always well patronized. Yesterday, the many attractions just now held out by the City of Guelph, and the kindly treatment accorded by the weather bureau, induced about two hundred stalwart farmers, with their wives, children or sweethearts to take train westwards.

The special train started at Tweed, and it was comparatively filled when it reached here about 7.40. There were nine coaches and it was expected that a large party would be added at the stations between here and Toronto.

William Mitchell was in charge of the special train, and last night every one spoke in highest terms of their day's outing.

In Good Shape.

The Lock in Good Order, and Reflects Credit on the Management

Within the past two days the Lift Lock has been weighed and not found wanting. Three of our largest steamers, all well laden with excursionists, have been locked over without experiencing the least unnecessary delay or experiencing any trouble.

One was the Empress, with a party of Bobcaygeon citizens on their return trip from Hastings; one was the King Edward, on her way to Stony Lake to do some towing; and the other was the Stony Lake, with a large party of Peterborough business men on the annual Olympic Club excursion.

Many people think the Council should take steps, in the immediate future, to have Hunter street extended through to the Lift Lock. This would be a great convenience to visitors, who have otherwise to go about one mile out of their way. This would tend towards attracting more visitors to Peterborough, and will have to be done sooner or later.

The splendid way in which this vast lock complys with the demands made upon it reflects vast credit on Mr. R. B. Rogers, for his admirably performed construction of work, and upon both Mr. McClellan and himself for the manner in which everything is kept in good working order.

Mr. J. Harris McClellan, Superintendent of the Trent Canal, has a rosy future pointed out for the Kawartha Lakes and he is sure that they will boom as a popular summer resort in the near future. American capital is being attracted in that direction and one millionaire is thinking of building a palatial cottage.

KEENE.

The Sons of Rest.

The Sons of Rest met as usual on Saturday night last. Of course, Minney Wale, opened the meeting, feeling confident that every this was O.K., but imagine his surprise when Fighting Archy brought in a charge of bribery against him. He said that he could prove that Minney Wale gave Tom Ducackey a chew of tobacco for his vote, and Poney Moore a pipe, and Paty Drummond an orange, and I consider that is proof enough that his election was won through corruption. Now brethern, I am in the field, and feel confident that I can defeat Minney Wale. Minney Wale now divested himself of his coat and vest, and made an elegant speech, and ordered the ballots to be distributed amongst the brethern. Scotchy Brumnel passed the ballots, and Mufraw Elmhirst counted them, with the following result; Minney Wale, 678; Fighting Archy, 677. Minney Wale was declared elected by one of a majority, a decrease of 677 votes. Fighting Archy tossed his hat in the air, and intimated that he was becoming more popular every day, while Minney Wale was losing popularity every hour. Minney Wale thanked the brethern for again electing him to the honorable position of President, and took his seat. Howden Doris charged Poney Moore with breaking the rules by working on the Government dredge. He was fined $50 to be paid in two days, or 100 days imprisonment. Scotchy Brumnel then rose and informed the brethern that he intended to have a canoe race on the 1st of July, and wished all the brethern to be present to witness the race. Hosier Rosch asked him where he could get two canoes. Scotchy said he didn't want two, one was sufficient. Hosier laughed at him. Scotchy said that he and Archibold of Peterborough, had a practice last Saturday night. Hosier asked how they could practice with only one canoe. Scotchy said that was an easy matter. We both got into the canoe with our backs to each other, and we both paddled for all we were worth, and the strongest puller won the laurels, and I was the champion of that race. The brethern all laughed, and Scotchy got mad and called them a set of giggling apes. Babe Elmhirst moved that a foot race be run here next Saturday night between Paty Drummond and Poney Moore, and that Gingerale Kennedy and Flat Roach be the judges. Wolf Howson seconded the motion. It was carried unanimously. Pete Newton rose and said that it only wanted one minute to Sunday morning, and the meeting should be closed. Minney Wale asked Squire Scriver and Squire McIntyre to sing the closing ode and you can bet your boots they frightened all the dogs and cats in our village. The meeting was then declared closed until 7 o'clock next Saturday night. God Save the King.

—The Chief has another pocket book, containing a small sum of money, on hand. Who owns it?

—Bracebridge is having trouble and lots of it with their town water supply. The water itself is the very best, but the springs from which it rises are not large enough to supply the town. Only enough water is flowing now to supply six hundred and fifty people, and the population is four times that much. Ere long Bracebridge will have to purchase a new pump at a cost of $2000. Willis Chipman, a Toronto

$500 REWARD FOR WOMEN

WHO CANNOT BE CURED.

So uniformly successful has Dr. Pierce's Favorite Prescription proven in all forms of Female Weakness, Prolapsus, or Falling of Womb, and Leucorrhea, that, after over a third of a century's experience in curing the worst cases of these distressing and debilitating ailments, Dr. Pierce now feels fully warranted in offering to pay $500 in cash for any case of these diseases which he cannot cure.

IT STANDS ALONE.—The "Favorite Prescription" stands alone, as the one and only remedy for these distressingly common forms of weakness, possessed of such positively specific curative properties as to warrant its makers in proposing, and binding themselves to forfeit, as we, the undersigned proprietors of that wonderful remedy hereby do, to pay the sum of $500 in legal money of the United States in any case of the above diseases in which after a fair and reasonable trial of our treatment, we fail to cure. No other medicine for the cure of woman's peculiar ailments is backed by such a remarkable guarantee; no other medicine for woman's ills is possessed of the unparalleled curative properties that would warrant its manufacturers in making such an offer; no other remedy has such a record of cures on which to base such a remarkable offer.

Therefore, insist on having Dr. Pierce's Favorite Prescription and turn your back on any unscrupulous dealer who would insult your intelligence by attempting to foist upon you some inferior substitute, under the plea that "it is just as good." Insist on having the article which has a record of a third of a century of cures and which is backed by those willing to forfeit $500 if they cannot cure you.

In cases attended by a leucorrheal drain a solution of Dr. Pierce's Lotion Tablets should be used conjointly with the use of the "Favorite Prescription." They are sold by all druggists, or sent post-paid to any address, on receipt of 25 cents in stamps. Send 50 cents in stamps for Dr. Pierce's Common-Sense Medical Adviser. Address WORLD'S DISPENSARY, Buffalo, N. Y.

Weak and sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pellets cure biliousness.

THE OLYMPIC EXCURSION.

The Annual Great Outing of Peterborough's Professional and Mercantile Men.

Yesterday Old Sol seemed to sympathize with, and assume his prettiest on, Peterborough's most popular annual excursion. For years past the Olympic excursion, usually held on the first Thursday in June, has always been characterized by large attendance and good management.

The great majority of our leading merchants and professional men, for years past, have always managed to steal a day off from the cares of humdrum life to take in this red letter day. This annual event is invariably marked by a pleasant time enjoyed by a jolly crowd of good fellows: business jealousies, political differences, and sectarian bigotries are always buried under a universal commingling of big-hearted, overgrown boys, who for one day in the year are boys again and out for the fun to be found, and found it always is.

Yesterday's excursion was no exception to the Olympic's precedents as good a day was enjoyed by all, who, in the morning, took the good ship "Stony Lake," as the party had ever spent. The majority of the party embarked at the Wolfe street wharf, while others, who took a second cup of coffee, managed to catch the boat at the Lift Lock. As the Olympic never does things by halves, the 57th Band accompanied the crowd, and helped to make a pleasant outing perfection. The trip up the canal was enjoyed by all on board, and was particularly interesting to the C. P. R. officials, and other strangers, guests of the day.

At Lakefield a few friends, who had been honored with invitations, were welcomed aboard. All present were enchanted by the fresh loveliness of summer's garb, so newly donned by trees and plants decorating the banks along their route. Burleigh was reached in good time, where mine host T. Darcy had a splendid dinner ready for the hungry visitors. Mr. Darcy was congratulated on the evident signs that his new hotel is being rapidly pushed forward towards completion. After dinner the party once more embarked and were rapidly taken about about from place to place of interest in Stony Lake, until hunger once more, drove them to Darcy's hospitable board for supper.

A special train was waiting at Lakefield and brought the party home by a little after 10 o'clock. Everything passed off smoothly. Mr W. E. Lech, having as usual, attended to every detail that could tend towards comfort and pleasure of the Olympic excursion. The C. P. R. officials were greatly pleased with the beauties of this canal and Stony Lake round trip from Peterborough, and it is possible that their experience of yesterday may result in their company building the large hotel spoken of in yesterday's issue. A word of praise is due the management of the "Stony Lake," all the officers of this fine steamer seeming to vie with one another in making everybody on board feel at home and comfortable.

Epworth League Convention, Denver Colorado, July 5th to 9th, 1905.

The Official Route selected by Canadian Epworthians and their friends is via the Chicago, Union Pacific and North Western Line, the only double track railway between Chicago and the Missouri River. Low rates open to all. Liberal time limits. Write for Epworth folder and other Colorado literature, including Denver hotels and boarding houses. Special train of tourist sleepers carrying Canadian Delegation will leave Chicago, 10.30 p.m., Monday, July 3rd. Diagrams of sleepers, now ready for assignment of space, on application to D. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 136 PETERBOROUGH ONTARIO, SATURDAY JUNE 10 1905 PRICE TWO CENTS

Russians Now Expect Peace with Japan.

Official Circles Believe End of War Near and Look for Armistice Soon--Czar Prepares Public for News.

London, June 10.—Much satisfaction is expressed in official and diplomatic circles here at the apparent success of President Roosevelt in bringing Russia and Japan together for the purpose of ending the war. Since his arrival here, Whitelaw Reid, the American Ambassador, has been in close and frequent communication with the Foreign Office. The Ambassador is not willing at the present juncture to disclose the result of his visits, but apparently he is well pleased with the progress of the negotiations, as, after a busy week socially and officially, the Ambassador and Mrs. and Miss Reid, leave London tomorrow to spend the week-end with Earl Egerton of Tatton and his wife, the Duchess of Buckingham and Chandos (widow of the third Duke), at Tatton Park, Knutsford, Cheshire. The other Embassies are without any information.

NEGOTIATIONS DIRECT.

Russian official circles now think that peace is probable, or at least that a cessation of hostilities is pending in an endeavor to bring about a meeting of representatives of the two powers. It is pointed out in these circles that from the first Russia declared her preference to negotiating with Japan direct, and President Roosevelt, apparently acting on that line, is arranging the preliminaries for direct negotiations between Japan and Russia.

Organizing Norway's New Government.

Emblems of Union Are Eliminated From the War Flag--Perfect Calm Reigns Throughout the Country.

Christiania, June 10.—Perfect calm reigns throughout Norway along with immovable resolutions. Crowds acclaim the liberated kingdom, but their demonstrations are devoid of feeling against King Oscar or Sweden. Flags are flying from the tops of buildings, and the air is charged with the spirit of nationality. Messages are arriving from every section of the land laden with the sympathy and assurance of a united people, but these things would not convey the quiet thoughts of thinking men if there were flippancy or incompetence or irresponsibility at the helm. Happily the helm is in strong hands.

ALL SETTLED IN SECRET.

The Storthing and the Government are clear-headed and thoroughly instructed as to the facts and inspired with the determination to advance and safeguard Norway's historic position among the nations. Harmony has prevailed throughout all the proceedings, of the Storthing and the Government. Their conferences have frequently lasted till late at night. The press has known exactly what has been happening but have loyally told nothing, the climax consequently came more quickly than Swedes expected. The absence of debate in the Chamber was due to the fact that everything had been settled in secret.

THE NEW SITUATION.

This is the situation; Norway will continue a kingdom only the throne will be provisorily vacant. The old constitution prevails, and only the union articles, which were inserted in 1814, are invalid. The Storthing will not be dissolved and no National Assembly will be elected to create a new constitution. Everything rests as the former plan, except King Oscar and the union.

THE NEW GOVERNMENT.

Christiania, Norway, June 10.—The Council of State, following the action of the Storthing in dissolving the union of Norway and Sweden, is proceeding with the reorganization of the Government. The Department of National Defence has issued a decree to the army, intimating that the army must comply with the new conditions, rendering allegiance to those now conducting the Government.

Minister of State Loveland has been appointed Foreign Minister, and the Council of State has decided to diverse the Foreign Office from the Department of Commerce, Navigation, etc., with which heretofore it has been amalgamated.

The council also resolved to eliminate the emblems of the union from the war flag of Norway.

KING OSCAR'S TELEGRAM.

Stockholm, June 10.—The request that the King receive the deputation was sent by the President of the Storthing, M. Berner, who received a telegram from his Majesty reading as follows:

"As I do not recognize the revolutionary steps which the Storthing—in violation of the constitution and act of union, and in revolt against its King—has unfortunately taken, I decline to receive the deputation."

The King is receiving very many telegrams expressing sympathy and devotion from all parts of the Kingdom.

MOST STUBBORN FIGHT IN HISTORY

Washington People Understand the Gaynor-Greene Proceedings

RECORD EXTRADITION CASE

The Good Faith of Canadian People and Courts is Fully Understood by Americans

Montreal, June 10.—Naturally there is deep interest taken in the Gaynor and Greene case in Washington, but notwithstanding the delay, there is every confidence in the good faith of the Canadian courts and Canadian people. The Washington Post, After giving a resume of the case, says;

"Under the treaty and extradition act of Canada, after defendants are committed for extradition, they may within fifteen days make an application for a writ of habeas corpus to any one of the judges of the Superior Court or Court of King's Bench in the district of Montreal.

"There are about fifteen of these judges, and the prisoners have the right to elect to which one of them the application shall be made.

"The function of the judge on habeas corpus, however, is not to review the finding of the commissioner as to the weight of the evidence, and under the Canadian decisions, which agree with those of our own courts, the finding of the commissioner as to probable cause of guilt is not disturbed, if there is any competent evidence to support it. The judge on habeas corpus, however, has the right to examine into the jurisdiction exercised by the commissioner over the subject matter and the parties, and to discharge the defendants if it be found that the commissioner has acted in the case without jurisdiction, or otherwise to commit them for surrender.

"However, the jurisdiction of Extradition Commissioner Lafontaine has been four times sustained in this case—once by Mr. Justice Andrews at Quebec, once by the Privy Council of Great Britain overruling Mr. Justice Caron's decision at Quebec, once by Mr. Justice Davidson at Montreal denying the application of the defendants for a writ of prohibition to prevent Judge Lafontaine from proceeding, and lastly by the Court of King's Bench, by a unanimous opinion delivered by Sir Alexander Lacoste, chief justice, in which the five justices of that court of appeal concurred in sustaining the judgment of Mr. Justice Davidson.

"The sentiment of the people of the Dominion seems to be strongly in favor of having full effect, in good faith, given to the provisions of the treaty extended to effectuate the suppression of crime committed in the respective countries, where asylum is sought in the other country by fugitives from justice, and the Government of the United States has every confidence that there will be no failure of justice in this case. It was unavoidable, however, that, with the large available resources, at the command of these defendants, they have, with the aid of skilled counsel, made the most stubborn fight, both in the United States and in Canada, to avoid a jury trial, that has ever been made in the history of extradition proceedings.

"With the termination of the habeas corpus proceedings, however, extradition in fact will then be in order."

MIKADO THANKED BY POPE

For Liberty Granted to Catholic Missionaries in Far East

Rome, June 10.—The Pope yesterday addressed an autograph letter to the Emperor of Japan, thanking him warmly for the liberty granted to Catholic missionaries in allowing them to establish their houses. The letter was sent through the Congregation of the Propaganda.

IN MIDST OF LIFE, DEATH

American Girl, Married in Montreal a Few Weeks ago, Now a Widow

Lachmont, N.Y., June 10.—Bride and widow within five weeks, is the experience of Mrs. Armand De Lorris, formerly Miss Cora Fowler, of Larchmont Manor, although her most intimate friends knew nothing of it.

Mrs. De Lorris is of striking appearance and lives with her parents in Grove avenue, near the Larchmont Yacht Club. She is well known in the Manor, but not even her most intimate friends suspected until now that she had been married.

About two weeks ago Mrs. De Lorris appeared in mourning, and as the neighbors had not heard of a death in the Fowler family it set them to talking. Mrs. De Lorris' mother having heard some of the gossip that had been going the rounds, persuaded her daughter to announce her marriage. After much talking, Mrs. De Lorris finally agreed to do so. Aside from the bare announcement that Armand De Lorris, of Paris, and Miss Cora Fowler, of Larchmont Manor, were married in Montreal on April 16, and that Mr. De Lorris died suddenly on May 20, no further information was given.

Mr. and Mrs. Fowler are well known, having moved here three years ago and erected two cottages. Mr. Fowler is a retired merchant, who is reputed to be wealthy.

NO STREET CARS IN KINGSTON

City Notifies Company to Remove its Power Generators

Kingston, June 10.—The civic authorities have given the bondholders notice that the Street Railway generators in the electric power house must be removed before July 1st as the space occupied by them is required for extension to the lighting system. This means that the city has no intention of further supplying power to the Street Railway. It means also that there will be no cars operated here this summer, as a power plant could not be erected in less than three months, and one must be erected before the cars can run again. The chances are that the railway will remain closed until next spring, as operating the cars in the late autumn and during the winter is other than profitable.

POISONS DOGS AND CATTLE

Operations of Unknown Miscreant Endanger Kingston Military Camp

Kingston, June 10.—A large number of dogs and cattle have been poisoned at Barriefield during the past week, and the residents scarcely know what to do. The authorities at Ottawa have been notified of the presence of poison over the reserve across Cataraqui bridge, which will make the Kingston military camp soon to be held dangerous to men and horses, and some vigorous action is anticipated. The residents of the vicinity are trying to discover the poisoner, but the extent of his working ground is large.

Shall the West be Free?

The West—the West, it shall be free;
Echoing from sea to sea.
Such the mighty shout that fills,
All our valleys and our hills.

WHEAT A FOOT HIGH

The Canadian Pacific Railway Company's Annual Crop Report

Winnipeg, June 10.—To-day's crop report of the Canadian Pacific Railway notes rapid growth during the week, some points stating that the grain has risen three inches in about as many days. A liberal supply of moisture and favorable weather continue to contribute to the vigorous maturing of the crop. In only scattered instances are untoward conditions reported. Yorkton branch shows the most advancement, the wheat being reported as eight, ten and twelve inches high at Birtle, Russell and Yorkton.

Old Time Politics

Interesting Political Appeal Made to Peterborough's Electors in 1855

Yesterday afternoon a well-known local citizen, looking through some of his old papers, ran across a document that is of interest as showing the florid style of language used in appeals for political support in days gone by.

The paper is a bill or "dodger," issued in connection with an election between Messrs. Conger and the late Mr. Ferguson of this town, for the County of Peterborough, and is dated Nov 26th, 1855.

In comparison with political matters appertaining to sectarian differences, as, notably, in connection with newspaper articles of to-day concerning the Separate school system, which are now termed "Firebrand literature, and "bigotry," this bill, referring to political differences between Protestant and Catholic, uses terms and language that the most rabid sectarian paper of to-day would refuse to insert. Eliminating this part of the argument, this old time election address says in part.

"Are we to exercise the rights of free born Britons, who hail from the heath-covered mountains, where no slave ever trod, whose past history is written in the blood of her martyred sons! The history of our adopted country is written in blood, shall that blood be shed in vain! The blood of you murdered brethern cryeth to heaven for expiation, visit the administraton of our Government with righteous displeasure. Tell Mr. Conger the nominee of the Government, you will have none of him."

Then referring to an ancestor of a gentleman now holding a political office in the county, the address continues;

"Alas that men should be so base as to sell themselves, their principles, their country, and their all, for place and power. Their triumph must be short. Tell the doughty Knight of Hamilton and all his Bacchanalian crew to retire in favor of an honest crew to retire in favor of honest men. Although Mr. Ferguson may not be all that we could wish, support him with all your might," etc, etc.,

(Sgd.) JAS. HAWEY.

November 25th, 1855.

OPERATIONS OF THE G. T. PACIFIC

Their Specifications Have Been Approved by the Government

NO WESTERN TERMINUS YET

Man Who Thinks Road Will Cross Mountains Though Salmon River Pass

Montreal, June 10.—The Government has approved of the specifications for that portion of the Grand Trunk Pacific Railway which is to be constructed by the company. These specifications are quite voluminous, covering, as they do, over sixty pages of foolscap.

After they have been printed — a process that will consume about a week—tenders will be called at once for the construction of the first section of the Thunder Bay branch, commencing at Fort William. This branch is 220 miles in length, and will doubtless be divided into several sections unless, as may happen, a figure so low that it cannot be overlooked is submitted for the entire branch.

The specifications in question are general in their character and apply to the entire line from Fort William to the Pacific coast, and provide, as called for under the contract with the Government, for the construction of a line of track equal to that of the Grand Trunk system between Toronto and Montreal. There is a prospect of the grading being made, at the outset, of sufficient width to admit of the line between Fort William and Winnipeg being double tracked as soon as the demands of the traffic call for such an addition to the capacity of the line.

The agreement between the company and the corporation of Fort William has not yet been approved by the latter, and no pronouncement has been made by the G.T.P. here as to the western terminus. Out in Fort William, a Mr. J. W. Moxley, who has spent two years in the northern interior of British Columbia, inclines to the opinion that the Pine River Pass will not be the one selected for the G.T.P. On the contrary he thinks that a pass south of that will be taken which he thinks would be known as the Salmon River Pass. The advantage in favor of the latter is, he says, that the descent on the British Columbia side is easier than any of the others. The approach from the eastern side of the Rockies is very similar to the others, being a long easy ascent. The Salmon River Pass, which he refers to has the advantage of being somewhat equally easy on the western side of the mountains.

First Contract Let.

Mr. Rehill Given Contract for Excavation and Foundation of a New Opera House.

Lovers of the Muse in Peterborough can congratulate themselves that the first tangible proof of work being proceeded with immediately on the new Opera House, is now in evidence.

Yesterday Mr. Bradburn let to Mr. T. A. Rehill, the well known contractor, the contract for excavation and foundation of this fine new home of Thespis.

Mr. Rehill will commence work on Monday morning, and men are now engaged in clearing the lot in readiness. That the Opera House is to be first class, in every respect, is foreshadowed, by the strict terms of even the foundation contract, which demand that only the best class of cement and other materials will be accepted. In letting this contract to Mr. Rehill, the promotors have made no mistake, as he is known to be a thoroughly reliable man in every class of dealing.

STRANGE BABES FOUND IN FOREST

Eight Tots Acting Like Animals Discovered Alone in a Hut

COULD SPEAK NO TONGUE

A Remarkable Case in Wisconsin—Who are They, or Where did They Come From?

Appleton, Wis., June 10. — Eight children, who, when captured, looked and acted more like wild animals, have been placed in the children's receiving home in this city.

The tots, who are doubtless brothers and sisters, ranging in ages from 3 to 16 years, were discovered in a thatched hut in the dense woods near Tigerton, Wis., by a hunter who was lost in the woods, and were brought to this city by the Rev. Fred Brayton, trustee of the home, who located them after a long search.

None of the children can speak a word of any intelligible language, although they appear to be of human parentage. They grunt and squeal to each other, but do not understand German, English, Polish or any of the other languages which are spoken in Wisconsin.

When found in their little home in the woods the children were huddled together in a corner of the rude hut, a pile of dead grass and leaves being their bed. Their clothing consisted of skins.

Woodsmen state that a few years ago a wild or insane man was seen in the woods in the vicinity of the thicket, near Tigerton, but no human being could get close to him, and it is now believed that he was the father of the eight children who have been rescued. The children will be kept at the home until educated, and then will be placed in private German families.

Mr. Leary Home.

An Old Peterborough Boy, Mr. J. E. Leary, is Now Visiting Friends Here.

The many friends of Mr. John E. Leary, of Cheyenne, Oklahoma Territory, are now extending "the glad hand of welcome to this old Peterborough boy. Mr. Leary is making a short visit with his father, Mr. Christopher Leary, 182 McDonnel street. It is just thirteen years ago since he went upon a visit to Texas. The rush to Oklahoma Territory occurred while he was there, and he was among the thousands who settled in that district. He was one of the first probate judges of that country, and down south he is still known as Judge Leary. He was formerly a large rancher, but now operates an extensive fruit farm.

Ald R. H. Leary, who himself has not made life altogether a financial failure, is doing the honors to his returned brother, and not sparing horseflesh in the doing.

The Judge, yesterday, told a Times representative that Peterborough should be proud over the progress it has made in the past few years, as he was quite surprised at the growth and evidence of prosperity everywhere.

Last Sad Rites.

Little Margaret Ann Losey Laid to Rest in Little Lake Cemetery

Yesterday afternoon the little daughter of Mrs. Thos. Quinlan, who, previous to her second marriage, was Mrs. Milton Losey, was borne to her rest in the Little Lake cemetery.

It seems, owing to some incorrect details furnished us, by professedly eye witnesses of the sad occurrence, that our issue of yesterday, concerning the event, was partly incorrect in some particulars.

It appears that Mr. Quinlan is step-father to the little girl, her own father, Mr. Milton Losey, having lost his life a year ago last December, the result of a severe fall he had on the icy pavement near the packing house. Immediately previous to the accident of Thursday night, the child, who had been walking in company with Mr. Quinlan, her mother and sister, in childish fun, said she would race her mother across the bridge, to Mr. Quinlan's mother's residence: she bounded forward, and, when just ahead of a baby-carriage pushed by her step-father, fell through the board walk, which is in very dangerous condition. This sad accident should be a warning to mothers of small children, who, too often, are to be seen playing about this very dangerous spot. The owners of this bridge cannot be held accountable for any accidents, as placards warning the public are posted in plain view of everyone. Children should keep away from this bridge.

CEREAL COMPANY TO RE-OPEN.

American Cereal Company's Head Office Now Shipping Oats to Peterborough.

It will be good news to every man in Peterborough, including, in particular, employees of the American Cereal Company, and the mercantile community, to learn that the prospects are bright for an early resumption of work in the large mills operated here by this company. Yesterday it was learned, from fairly reliable sources, that the head offices of the American Cereal Company, located in Chicago, are now completing arrangements for shipping large consignments of oats to their mill here. This indicates an early reopening of the plant now lying practically idle.

We have good reason to believe that by June 19th, or not later than June 26th, the plant will, once more, be running on full time.

The Cereal Company, as is well known to our readers, for their present cessation from work, that the Canadian freight rates discriminate so seriously against the shipping of their produce from Peterborough, as compared with rates quoted by American railroads, to their factories in the United States, that they are debarred from supplying the foreign markets, which form the largest percentage of their customers.

The fact that the Peterborough mills will soon begin work again, is not dependent on any adjustment attained over the vexed freight rate question, the freight question is still in statu quo; but it is to be hoped that the Railway Commission may soon assist in settling the matter satisfactorily and for all time.

The real reason for the impending resumption of work is dependent on the fact that the United States factories, operated by this company, although now running full time, are unable to meet the foreign demand for Quaker Oats and other products of the company.

There is good reason to believe that when the mills, here, once more reopen, that no further contre-temps will arise to necessitate any more closing down.

It must stand to reason, with the vast amount of capital tied up in the Peterborough plant, that there must be good substantial reasons actuating the company when they decide to shut down for even one week, as the interest lost on their investment in Peterborough alone, amounts to a good sum every day they are not earning money.

The alleged portrait of a local ticket agent, in an evening contemporary of yesterday evening, is dangerous in the extreme, and should be resented by mine host of the Oriental. Corporations have no souls, but they fill waistcoats snug.

The Morocco Situation is Very Grave.

High French Officials Regard Dispute with Germany as Almost Menacing--Kaiser is Openly Behind Sultan's Appeal to Powers.

Paris, June 9.—Germany's note to the powers proposing an international conference on the subject of Morocco is regarded in the highest quarters as renewing the gravity of the situation almost to the point of making it menacing.

France has received a copy of the note, showing that Germany acted openly in appealing to the powers, notwithstanding the official statement from Berlin that Morocco invites the conference. The officials here interpret the German note as showing that Germany is the real upholder of the conference.

In Mimic War.

Armour's Hill the Scene of Yesterday's Attack and Defence

Yesterday Peterborough had good cause to be proud of the local troops. The 57th Regiment, about five o'clock, in full strength, gathered at the drill shed, augmented by both Regimental and Bugle Bands. At 5.30, the visiting officers of inspection, Col. Gordon, of Kingston, an old Peterborough boy, and Lieut.-Col. Young, of London, were gratified by the veteran-like manner in which the 57th, among the trees of Central Park, performed company and squad drill. Not a hitch or blunder marred the proceedings.

On completion of the manoeuvers in the park, the right half of the Regiment, led by the Regimental Band, in quick step, marched to Armour's hill and took up a defensive position, encircling the west front of the elevation. The inspecting officers drove over in a cab, and occupied a position commanding a good view of the situation. Shortly afterwards the left half of the Regiment, with bugle and drum accompaniment, marched over and proceeded to lay siege to the defended eminence. After the fierce, but bloodless, contest was over, the attacking party, fraternizing with their opponents, marched in company with them to the drill shed. The sergeants rewarded the hungry warriors after the roll had been called, by taking along the lines baskets of refreshments, both solid and liquid, which were greatly appreciated.

When the formalities were over, the visiting officers were invited to the local officers' quarters, where an excellent repast was provided. Whilst no set address was made to the Regiment, the Inspectors congratulated the 57th on the strength, appearance and excellent drill of both Regiment and Bands.

Happy Fathers Bear in Mind

Not only among the happy fathers of first-born hopefuls, but among seasoned family veterans, there is a misunderstanding with regard to the registration of births which the Provincial Registrar desires to correct. The notification of a birth made by a physician is not the registration required by law, which can only be made once by the child's parents. Thirty days are allowed to perform this duty, which is not complete until the child's name is added to the record. A great deal of trouble is occasioned by the omission to furnish the name, without which there is technically no registration.

Go to New York.

On Lehigh Valley Railroad Special New York excursion Friday, June 16th. Tickets only $9 from Suspension Bridge to New York and return. Tickets good 15 days, good on regular express trains leaving Suspension Bridge 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. The date, June 16th. For tickets and further particulars call on, or address, Robt. S. Lewis, Canadian Passenger Agent, L.V.R., 10 King street east, Toronto.

WEATHER NOTES.

Warmer, with thunder showers.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

The Circuit Complete.

Last night Mr. J. M. Brooks returned from Belleville, where he had been as representative from the local Turf Club, at the annual meeting of leading horsemen of Eastern Ontario, held in that city yesterday.

As noted in recent issues of this journal, negotiations have, for some time, been under way, for arranging a fixed circuit, including towns of this district, of weekly race meeting. Yesterday the culmination of these endeavors was attained, by establishment of the Eastern Ontario Racing Association, with Messrs. Wilmot, of Port Hope, as President, and Carnew, of Belleville, as Secretary-Treasurer.

The circuit will start with the first races at Port Hope, 1st week in July, with meetings each week following at Peterborough, Picton, Belleville, and Kingston, respectively, in the order as given.

PETERBOROUGH RACES.

The first day's races at Peterborough will be:

2.40 class, trot or pace, for $150.
2.19 class, trot or pace, for $200.
Three-quarter mile running race, for $150.

Second Day.

2.28 class, trot or pace, for $150.
One-half mile heat, running, for $150.
Free for all, trot or pace, for $200.

The terms for prizes are 50, 25, 15 and 10 per cent., according to place. Entrance fee, 10 per cent.

In mixed races four seconds' allowance will be made to trotters.

It is not fully decided yet whether the judges will be local or chosen for the entire circuit. If the latter plan can be arranged, much possible misunderstanding and disputing would be lessened, if not avoided.

The following is a recent issue of the Winnipeg Free Press will be read with interest; Carberry won the first game in the Central League by defeating Neepawa here this evening 15 to 6. The game was not so loose as the score would indicate. The visitors went up in their three first innings, and the locals hammered out ten runs off Davidson and McBain. With the exception of this innings Neepawa divided the batting honors evenly, but were weak in the field. Owing to Pirt being out of business with an injured hand, Crittenden and Scollan were on the slab for the home team. Bell, of Carberry, officiated as umpire very satisfactorily. The teams were: Neepawa—McBain and E. Davidson, p; Baxter, c; Daidson, 1b; J. McKee, 2b; Fraser, ss; Brown, 3b; D. McKee, lf; Towden, cf; Hamilton, rf.

Carberry—Crittenden and Scollan, p; Boyle, c; Gibbons, 1b; McIntosh, 2b; Smith, ss; Whiteroft, 3b; H. Armstrong, lf; C. Armstrong, cf; Horton, rf.

Whiteroft's playing pat third was the feature of the game.

Broken and Sad Weary of Life

Ground to the Dust With Weakness—Too Nervous to Sleep—A Pitiable Wreck

FERROZONE

Braced — Invigorated, Toned and Strengthened

Men and women, married or single, whether old or young, will find abundance of health in Ferrozone. It completely vitalized Mrs. F. Levise, a well-known resident of Point Alexander, Ont., who writes:—

"I was on the verge of nervous prostration. When I got up in the morning I had to force myself to go to work.

"I felt blue and depressed, took no real comfort out of life.

"Dragging weakness and lack of spirit seemed to be killing me.

"How I wished for strength!

"Kind Providence brought Ferrozone to my notice and I commenced to take it. The change was wonderful. I picked up every day. Strength developed, appetite increased, I grew cheerful and strong. Ferrozone made me feel like a woman. My cure is complete and I recommend it as an unsurpassed."

The one medicine that's sure to lift you from a weak, miserable condition is Ferrozone. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 6 o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, JUNE 10, 1905

THE RETIREMENT OF DELCASSE

The final retirement of M. Delcasse from the French Foreign Office is generally interpreted to mean a more conciliatory policy toward Germany in the Moroccan affair. But it is difficult to tell from the outside what hidden currents have been flowing inside the new Ministry. The Premier, M. Rouvier, is credited with an ambition to play a potent part in foreign politics; and it is significant that it is he who takes over the vacant portfolio. M. Delcasse has been exposed to some fairly fierce criticism for some time back, and it was thought that his opponents had him on the hip when he retired a few weeks ago. But that looked too obviously like a "coup" for the Emperor of Germany, and his enemies feared to let him go out on that issue.

One thing is unmistakable in the general course of French foreign politics recently; and that is that the commercial and mercantile classes of the Republic are the ruling classes and that they want peace. The day when Paris was France is over forever. The wealth-producing French provinces are now France — as they always were to the tax-collectors—and they are neither hot-headed nor aggressive in a military sense. This does not mean that France can be affronted with safety. It merely means that she has so far recovered her respect since the Franco-Prussian war, that she is not thinking first of the danger of an affront, but of the advantages of continued peace. It is the confidence of conscious strength which does not imagine that any one will challenge its enmity without good reason and careful thought.

Unless the Kaiser—as some of his enemies charge—is bent upon war while the balance of power in Europe seems to be inclined his way there should be no reason why the different interests of France and Germany should not be adjusted without appealing to the final abitrament of force. Germany seems to have been ignorant to begin with in Morocco; but now that can be corrected by permitting her proposed council of the powers to be held. German interests—such as they are—certainly should not be overlooked in the Mediterranean simply because the Germans lack a powerful fleet. They have demonstrated in this affair that under some circumstances a strong army is a good substitute.

What Britain will do remains to be seen. It has already proven its willingness to see France take charge in Morocco, and it will probably pursue the same policy as far as the new French Minister of Foreign Affairs deems it prudent for France to proceed herself. Britain is apparently trying to keep the peace of Europe by giving to France a friendly support which will take the place, in a measure of the lost support of her crippled ally, Russia. It is a curious sight to see the British Government taking up the task of Russia; but the true meaning of the spectacle is that Britain is playing her historic role of man-at-the-center keeping the great "seeter" of European politics from dipping down too far on either side.

BRITISH AND AMERICANS RAIL WAYS

American and English railroads are operated under different conditions. The American track mileage is 200,000, the English 22,152. The American railroads carried more than 656,000,000 passengers, the English roads fully 1,200,000,000. The traffic revenue of the American roads was $1,720,814,900, and of the English $500,061,164. The net traffic receipts of the American roads were $580,000,000, and of the English roads $200,000,000. The American roads employ 1,189,315 persons, and the English roads 575,834. The working expenses of the American roads are 67 per cent. of the gross receipts, and the working expenses of the English roads 62 per cent. The cost of operating a mile of American road is $5,180, of the English road $13,636. The American roads clear $2,800 a mile on operations, and the English roads, $2,000. The American roads have six employees for every mile of track, and the English roads have 28.

ON GUARD IN THE EAST

After Russia's experience, no land-grabbing European power will be likely to repeat the experiment of 1895. The day when such powers can seize Chinese territory and ignore native rights is past. Those who had an appetite for such practices may think that the Yellow Peril has arisen. But a truer statement is that the White Peril for the east is dispelled.

Chandos.

The Rev. Mr. Lord held service at St. Stephen church, Sunday, June 4th, The congregation was discouraging, but owing to the wet morning Mr. Lord will excuse them, hoping all will attend service, Sunday, three weeks from the above date.

Donald's friends join in giving him their sympathy in the time of trouble. We also advise change of air, when the heart is affected, His is not a case of long standing, so he may recover in time, but anyone to see him Sunday night would give the case up as hopeless.

Mr. Joseph E. Roberts has returned from town bringing with him a new driver, now is the time the girls will wish Mr. Roberts was single again, either that or a widower.

Fred's foot is a great deal better, and with the aid of a crutch he can walk some. By the way we heard he walked as far as the school the other day, Guess Jennie thought nobody knew about that, but news will travel.

Mr. G. A. Bullied has commenced working at his barn again, a dance is expected when it is completed. Please don't disappoint us Mr. Bullied.

Mr. Wm. Ellerton is also finishing his new barn. Billy needs a helpmate badly; fancy the poor fellow coming in from work in time to cook his dinner, he has some cooking receipts worth knowing. Ladies we advise you to call.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & CO. Toledo, O.

Sold by Druggists, 75c.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, headfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

No Names Used Without Written Consent.

O. W. Rowe, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of 8 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture there was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart.

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

DRS. KENNEDY & KERGAN

140 SHELBY STREET; DETROIT, MICH.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each

200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1,000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK-HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties:—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carber, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Mores, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Case, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company is the Wilcox, Murphy, Dome Rock-Hill, Ben Hark, Columbia, Hunter-Annex, John Thompson, Frank, and Parsons, all of which are now managed in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this wealth.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically flat material, the condition resembling that of coal formation; consequently, the direction and trend of the ore bodies are readily followed and determined and by preliminary exploration, their courses have been found to underlie the surface ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $250,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1 000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent. Stock at Twenty-Five (25c.) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profit. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is the cash for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,

25 Congress Street, Boston, Mass.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be ninth among the greatest copper districts in the world. This company will control at least a thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W K. HALL, Fiscal Agent, Peterborough.

MEN AND WOMEN. Use Big G for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles, $2.75. Circular sent on request.

A Personal Interview

The Times Talks With a Gentleman Just From, and Acquainted With Russia

Mr. Enos. O. Wilson, a Chicago business man, who has recently returned from a trip to Russia in the interests of his firm, a railroad contracting concern was yesterday a guest at the Snowden House.

The Times had an interview with Mr. Wilson, and asked his opinion as to what the Russians are doing and thinking about the Russo-Japanese war, and what is the opinion, in that country as to the final result of the great struggle.

"St. Petersburg is outwardly calm and there is no more likelihood of a revolution in Russia, except by the slow process of evolution from barbarous conditions, than there is in this country," said Mr. Wilson.

"As to the war, the Russians are discouraged and disgusted. Everything was depending upon the inevitable clash of the fleets of Rojestvensky and Togo, and the children of the Czar, were feverishly awaiting news of a battle.

"I had it straight from a man who is almost daily in business communication with several leading departmental chiefs of the Government, who all concurred in agreeing that the coming sea fight would end the war."

Mr. Wilson's Russian friend said that, "If the Russians were victorious they would be in a position to demand the very best terms. If defeated they would be absolutely compelled to sue for peace."

Mr. Wilson said that "The talk of the ministers and nearly everybody whom I met in Russia is that they could continue the war for at least two years with the large indemnity demanded by Japan, and that it is shrewd policy for them to fight on rather than submit to what they call the outrageous terms proposed by the Japanese Government.

BUILT SHIPS HIMSELF.

"It is well known throughout Europe that the big job which Admiral Rojestvensky at that time had on his hands was not of his selection. He built the ships with which he must fight, and concerning which there have been such scandals. His fleet comprises the ships which are said to have been put together with wooden rivets, etc. But the admiral was told to fight, and fight he must, although he tried his best to get out of it.

"When he was engaged in the preliminaries of the business, he showed much ability. His gunners practised shooting, and he did everything possible to bring his ships up to the highest point of efficiency.

"If Rojestvensky had won, the Japs would have been in a most unfortunate position, as they have a tremendous army in the field which must be fed and accoutered from Japan, and if they had lost command of the sea their soldiers must face starvation in Manchuria.

"I was surprised to hear the bitter imprecations launched at the royal head of Emperor William of Germany. The Russians declare that he more than any other man is responsible for the war. He kept close to the Czar's ear with stories of Japan's monumental bluff in proposing to fight Russia, and ridiculed the idea that Japan could offer serious resistance to the Russian arms. He appealed to the Czar as a great Christian ruler not to allow the Asiatic hordes to overrun Europe, and in that way encouraged him to procrastinating methods with the Japanese. We all know the result, but Emperor William is execrated in Russia.

FRIENDLY TO AMERICA.

"To my very great surprise, I found the Russians generally friendly to America. In a long interview I had with Kokotseff, minister of finance, he agreed with me that Russians and Americans were natural allies. He said he appreciated the energy, ability and financial greatness of my country and of the inestimable assistance they would be to his country in her scheme of development.

"He said; 'Let your people come over and make us propositions. We will meet them more than half way in any industrial plans they have. If they want to build railroads through our country we will give them every encouragement; in fact, our government will guarantee their bonds if it considers the projected roads desirable improvements.'

TOOK WITTE'S PLACE.

"This minister of finance is about the biggest man in Russia. He took M. Witte's place, and as first statesman had during his incumbency of the office contrived to have about everything of importance to the empire pass through it, what Kotoseff says is of supreme importance, because what he says 'goes.'

"Russia is in a bad way from an industrial viewpoint. They have a high protective tariff and the poor peasants are in a most deplorable condition. Americans generally suppose that these peasants have at least an abundance of land. Why, they have four or five acres apiece, and are expected to raise from them enough to live on. They are also paying for these lands, or trying to. For the things they cannot produce they must pay frightful prices.

"American suffers from a 30 per cent. additional duty placed on our goods in retaliation for our placing an embargo on their sugar.

"But tariffs, business conditions, every obstruction will be removed or modified if Americans will enter Russia for the purpose of aiding in the development of the country. I was given every encouragement, and if the promises of so great a man as the minister of finance mean anything Russia offers a glorious field for American enterprise.

"Of particular interest to our own part of the country is the tremendous amount of grain which is raised in southern Russia. I understand that nearly all of this grain is handled in sacks, great elevators, such as we couldn't possibly do without, being practically unknown. Now, if some of the elevator interests cared to undertake the handling of that wheat in vast quantities the proposition would be gladly received, and, I am confident, would prove a remarkably successful financial venture.

"I went to Russia both in the interests of my own employers, as well as those of other American manufacturers, and I repeat I met with all possible encouragement. I am now awaiting advices from them as to the best method of introducing American industries in that country with particular reference to railway materials.

Mr. Wilson concluded the interview by expressing his opinion, now Russia has met with decisive defeat, in the recent naval engagement, and Japan consequently mistress of the seas as far as her opponent is concerned, coupled with the internal upheaval and probable revolution against the Grand Ducal Cabal, that the Emperor will have to hearken to wholesome advice of the Great Powers, and submit to the inevitable.

Mr. Wilson says, from personal acquaintance with the Russian system of Government, and the determined front assumed, for the first time in history, by the newspapers, that the Czar will have to turn a deaf ear to his Grand Ducal crowd of grafters, by submitting to universal public sentiment.

KILLED TRYING TO SAVE CHILD

Mother Struck Down by Runaway Team--Little One Unhurt

Sherbrooke, Que., June 10.— Mrs. Lucius Bussel, of Cherry River, lost her life yesterday while trying to save her child, which was in the path of a runaway team. She was struck on the head with the wagon pole and and died almost immediately. The child was unhurt. Deceased leaves a family of six children, the youngest but a few months old.

History and Production of the Goldfields of Boulder County, Colorado, Portraying Economic Conditions Which Predict the Coming Goldfields of Colorado and Presenting the Stock Offering of a Great Gold Mining Enterprise of the United States Gold Corporation

FREE

Our booklet on the gold fields of Boulder County is off the press, and is being distributed free to investors. We have prepared this book to advertise the gold fields of Northern Colorado and our great gold mining enterprise. The books will be free for the asking while they last. It will tell you of how over fifty millions have been added to the world's wealth in production of gold, silver and copper under primitive methods and from surface workings of an average depth of not to exceed 250 feet. It will tell you of its great tungsten belt, the largest in the world. It will tell you of the existence of a diversity of precious and rare minerals, unrivaled by any other gold fields on this continent. It will tell you of a mineral area of twenty-five square miles literally covered with a network of veins, practically undeveloped, with only one shaft below the thousand foot and half a dozen below the six hundred foot level. It will tell you of a gold field nearer to the Denver smelters than any other in Colorado; of a change of economic conditions, in this section, which will enable the miner to ship ore to the smelters, at a net profit, that is now being thrown over the dumps in other sections of Colorado; it will tell you of a field so attractive that it resulted in the construction of two railways from one end of the field to the other. It will tell you of the substitution of modern and up-to-date mining methods, in place of the primitive coal of the past; in short, it will tell you of all those conditions which predict for the gold fields of Boulder County the coming gold fields of Colorado.

It will also tell you of our great gold mining enterprise in the western part of the gold fields of Boulder County, near the continental divide, where nature has deposited her largest and richest treasure vaults; it will tell you of our economic development tunnel, driven to drain and develop a mineral estate almost a mile long and half a mile wide; of the thousands of tons of gold ore now blocked out and ready for shipment in the five different veins cut by this tunnel in driving it eight hundred feet, the result of two years' steady development work night and day; of our wonderful discovery of molybdenite—a rare metal—in large commercial quantities, foretelling for us the first molybdenite mine in Colorado that is producing, as well as a large and permanent source of revenue, of our project to drive this tunnel, long before the end of this year, into the famous Fourth of July dyke or "Mother Lode," from which the far famed Caribou group of mines produced twenty million dollars in gold, silver and copper from 1869 to 1893; of the tremendous possibilities for ore production which will follow the cutting of a mineral dyke from 50 to 100 feet wide at a depth of a thousand feet, and the great probability of our opening the first great copper mine in Colorado when we reach this dyke with the tunnel. In short, it will tell you of a gold mining enterprise that will go on a large producing basis long before the end of 1905; of an enterprise with possibilities second to none in Colorado, the developments of which have already shorn it of any element of risk or speculative features, rendering the investment offered a safe and attractive one.

For the financial and commercial standing of the business men who stand back of this enterprise we refer you to the First National Bank, Boulder, Colo, or Bradstreets Commercial Agency

The edition will not last long. If you would be sure of securing a copy, write to-day, or your name and address on a postal card, with the word "Booklet," will do the work.

Address all communications to Thos. Patterson & Co, Fiscal Agents, Peterborough, Ontario.

CATARRH

Don't Drug the Stomach — Breathe Nature's Remedy, Catarrhozone — Both Pleasant and Easy to Use. A Guarantee of Cure goes with it.

Catarrhozone always cures because it reaches the source of the disease quickly and thoroughly. Its healing vapor penetrates the minutest air cells of the nasal passages, throat and lungs. It attacks the cause of the disease direct, and doesn't work in a round about way through the stomach.

The antiseptics in Catarrhozone kill the germs that cause catarrh. It clears the nostrils, cures headache and foul breath. It prevents droppings in the throat, allays inflammation. Catarrhozone now

Be certain in Catarrhozone to remove and use that doctors, ministers and public speakers keep it as their standby for coughs, colds, catarrh and throat trouble. Because it lasts so long it is cheap, and as it is sure to cure often the poorest can afford to buy it.

Mrs. J. A. Morris, of Perth, Ont., writes: "I cannot withhold my testimony for Catarrhozone. It cured my daughter of chronic catarrh and I therefore heartily recommend it to all sufferers. No house should be without Catarrhozone."

Why not use Catarrhozone? It cures colds in a few hours, and no case of catarrh can withstand it. Catarrhozone cures by the inhalation of medicated air which goes to all parts of the lungs, throat and breathing organs. A pleasant, certain, quick cure follows the use of Catarrhozone, which is guaranteed under all conditions to cure catarrh in any part of the system.

Two months' treatment, hard rubber inhaler and extra liquid costs only one dollar; sample size 25c. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A. Ormation, heals sore spots and running at the nose.

Just the Time to Visit New York.

Lehigh Valley Railroad special 15-day excursion, Friday, June 16th. Tickets only $9.00 from Suspension Bridge to New York and return. Tickets good on regular express trains leaving Suspension Bridge on June 16th at 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, sleeping car berths, apply at station ticket office, Suspension Bridge, or of Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto.

KEEP YOUR EYES OPEN and be sure that when you ask for Perry Davis' Painkiller you get just that and nothing else. Use it promptly to cure cramps, diarrhoea and all other bowel complaints in summer.

COUNTY MAPS

Only a few copies left of the new map of the County of Peterborough: Price $2.50 each Secure one before they are all sold. For sale at the Times Bookstore.

Peterborough Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

WM PRINGLE

Rathbun's Drive at Campbellford.

The talk, so often heard of late, that lumbering in this section is played out, is substantially negitived by the fact that the Messrs. Rathbun Company's drive of 100,000 pieces is now being run through the slide in Campbellford, on way to Trenton and thence to Deseronto, where every foot of it will be manufactured into lumber, ties, shingles, laths, etc. A portion of the drive was cut in Stanhope Township, and shipped via the Otonabee, Rice Lake and Trent River.

2 000,000 Pickerel

The Havelock Standard says; On Friday last Mr. Parker, of the Sandwich hatchery, arrived on the noon train, in charge of 2,000,000 pickerel fry. 900,000 were deposited in Round Lake, 900,000 in Belmont Lake, and 200,000 in the Trent River. Last year 500,000 were placed in Round Lake, and next year an effort will be made to obtain more from the Government, after which this particular edible fish may be depended on to self-propogate. The large quantity of fry were obtained, mainly through the efforts of Dr. Holdcroft, of town, and the good offices of Mr. John Finlay, M.P., of Norwood.

The Rocky Mountain Cyclone

The first number of an American paper, the Rocky Mountain Cyclone, has reached us, contained the following heroic announcement; "The type phounder phrom whom we bought the outphit phor this printing orphis phailed to supply any ephs or eays, and it will be phour or phive weex bephore we get any. We have ordered the missing letters, and have to wait until they come. We don't lique the idea ov this variety ov spelling any better than our reader, but mistax will happen in the best regulated phamilies, and, iph the e's and x's hold out, we shall ceep (sound the 'c' hard) the 'Cyclone' whirling aphter a phashion till the sorts arrive. It is no joque to us—it is a serious aphair."

Fishermen will be Interested

The many visiting tourists and fishermen passing through Peterborough en route to the lakes, can now find a place, making a specialty of their required articles, where they will now be able to procure everything wanted, not only in tackle, but in live bait. Mr. F. C. Cubitt, who recently purchased the picture business at 206 Charlotte street, has made a considerable change, giving prominence, through the summer months, to every class and variety of sporting and fishing goods.

He is now making arrangements to supply parties going a-fishing with live worms, at a reasonable price; this will be greatly appreciated by strangers particularly, who have neither time nor place to dig the bass-luring worm. Mr. Cubitt's advertisement appears in another column.

To License Bartenders

The proposition is made in Toronto to license bartenders. And a good deal can be said in favor of it. The bartender handles the liquor, and if he were licensed and liable to lose his license, if he disobeyed the law, the proprietor could not trespass upon his good nature and induce him to work during illegal hours. Only men of good character would be licensed, and the result would be a class improvement. The bartender's responsibility would be increased, and it would be to his interest to obey the law. But who is to decide when a man is a fit and proper person to be licensed to tend bar? Are the commissioners to put the applicants through a course of tumbler washing, the drawing of beer, the drawing of corks, the serving of plain drinks, and the scientific manufacture of mixed drinks? Will every board of commissioners have a member qualified to decide upon the flavor of a cocktail or the excellence of a John Collins?

"Daddy" Haskill's Story

Mr. Fred Haskill, the popular G.T.R. Conductor, was in town the other day. "Daddy" always puts up at the Snowden when in town. The other night Mr. Haskill was in a reminiscent mood, while comfortably seated in the back parlor of that well known hostlery, worked off the following on a bunch of the boys; "It was away back when Baron Van Hugel, of Port Hope, was President of the Midland, and when cordwood was used in the firebox of the locomotive. When wood ran out sometimes our trains were almost stalled between stations. Many times I have known the farmers' rail fences to furnish material for steam to help us over. On one occasion the train left Port Hope for Peterborough, and crawled along at a four-mile-an-hour gait. As the train was approaching Peterborough, an old man with a long white beard rose feebly from a corner seat and tottered toward the door. He was, however, stopped by me, as conductor, I said;

"Your fare, please."

"I paid my fare."

"When? I don't remember it."

"Why, I paid you when I got on the car."

"Where did you get on?"

"At Port Hope."

"That won't do! When I left Port Hope, there was only a little boy on the car."

"Yes," answered the old man, "I know it. "I was that little boy."

The story was fully corroborated by the genial proprietor of the Snowden who said he was the only other passenger on that train, and remembered the incident well.

—Mr. P. M. Patterson, founder and organizer of the Canadian Order of Home Circles, attended a meeting of the local circle and delivered an address on the subject of "Second Assessment." He proved conclusively that the above mentioned was the correct form of assessment

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. L. R. McCrae, Toronto, was in town yesterday.

—Mr. J. Eastwood, Hall's Bridge, was in town yesterday.

—Rev. T. C. S. Markham, Toronto, was in town yesterday.

—Mr. W. Harstone, Cobourg, is a business visitor in town.

—Mr. and Mrs. A. H. Fair and child, Toronto, are at the Oriental.

—Mr. W. E. Ferguson, of West Lorne, is in town on business.

—Mr. and Mrs. F. W. Stirling, Toronto, are in town visiting friends.

—Messrs. Edwin Arden and Wm. C. Smith, New York city, are at the Snowden House.

—Miss Edna Rogers yesterday left for a visit with her friends, the Winslows, at Ida.

—Messrs. Chas. C. Park and Chas W. Tait, Vancouver, B.C., are registered at the White House.

—Hastings Star says: Mrs. McCarthy, of Peterborough, is visiting her sister, Mrs. (Dr.) Coughlan

—Millbrook Reporter says: Mrs. John Crane, of Peterborough, was the guest of Miss Russell over Sunday.

—Dr. W. A. McFall went to Toronto yesterday afternoon, where he is to act as one of the examiners for the Ontario Medical Council.

—Mrs. John Allan, who has been visiting the last two weeks with Mrs. T. Anderson, 213 London street, left yesterday morning for Napanee, Newburgh and points west.

—Mr. and Mrs. John Nugent, of Brock street, accompanied by Mrs. W H. Robertson, yesterday went to Mr Nugent's cottage on Stony Lake, preparatory to preparing the place for this season's occupation.

—Mr. Josh. Dawson, who for the last 23 years has been away from town, arrived yesterday morning from Montreal. He has lived for the last fifteen years in Grooton, New Hampshire, where he has carried on a very successful business.

—Lindsay Post says; Mr. D. J. McDonnell, of Peterborough, was in town yesterday. Mr. Harold Jobbitt and sister, Edna, of Peterborough, formerly of Lindsay, are visiting friends in town.

—Yesterday a letter was received from Mr. G. V. Clementi, an old Peterborough boy, written from Charleston, S.C., saying he would be in Peterborough, on or about the 1st of July. After spending some days here and at Stony Lake, he will return to Chicago.

—Mr. A. C. Turpin, Buffalo, general agent, Canadian District, of the Rock Island Railway system, accompanied the Olympic excursion on Thursday. Mr. Turpin yesterday paid The Times' sanctum a friendly call, and, in conversation, expressed his admiration of the beauty and easy access to our summer outing locality.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Property committee met in the Council chamber last night at eight o'clock.

—The Primary and Junior Union of Sunday school teachers met as usual last night at the Y.M.C.A.

—Mrs. W. J. Morrow was in Toronto on Thursday, where she secured two Cabinet Grand Pianos for her forthcoming recital.

—The Post office addition was hustled ahead yesterday. Two pieces of T iron and a claw hammer were brought to the yard.

—The choir of the Charlotte street Methodist church intend giving a strawberry social at an early date on the church grounds.

—Get your fishing tackle in trim. Next week you can fish for bass without using a field glass to watch the Inspectors movements.

—Owing to the Band having to be in attendance on the Regimental inspection last night, there was no band concert in Victoria Park.

—Mr. James Bogue took a gang of men, on the midnight, on Thursday, to Arnprior to fulfill his contract in connection with the cement sidewalks.

—Hammocks today at genuine bargains. See our Scotch plaids; full length and best make for $3.00 Prices from $1.00 up. Times Bookstore.

—Who lost his coat? The Chief yesterday added to his museum of articles a coat picked up on Aylmer street, between King and Sherbrooke streets.

—People who are recently short of the following articles, apply at the police station—bell of the top of a bicycle bell, a black hand satchel with chain, and pocketbook without chain.

—Best value on the market for the money is our German china articles, with view of Lift Lock, Jackson's Park, or St. John's Church on each piece. Price only 25 cents. Times Bookstore controls these lines.

—Yesterday afternoon the owner of check No. 81412, which, as noted in The Times of a former issue, had been handed the Chief by a man finding it, claimed his property and thus secured his baggage.

—Havelock Standard says: Mr. George Cochrane, High County Constable, of Peterborough, was in town on Monday investigating the conduct of certain local parties, which may lead to serious charges.

—The Bell Telephone Company will place its wires underground in the main business portion of Stratford The Company estimates that the necessary expenditure to complete the work will be in the neighborhood of $11,000.

(Lewis Clarke Exposition), Seattle, Victoria and Vancouver at very low rates. Corresponding cheap rates from all points in Canada. Choice of routes, best of train service, favorable stop-overs and liberal return limits. Rates, folders and full information can be obtained from B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

SYSTEMIC CATARRH

IS LITTLE UNDERSTOOD.

It Claims Thousands—A Prominent Canadian Cured.

WARM weather, poor appetite, ice cold drinks and foods cause a general derangement of the entire system. Stomach troubles follow. Biliousness, indigestion and general derangement of the stomach are caused by a diseased condition. This is generally, if rightly termed, catarrh of the stomach.

Catarrh will attack that organ of the body which is the weakest. If it be the stomach—Peruna cures catarrh of the stomach Peruna cures catarrh wherever located.

CATARRH is a systemic disease, curable only by a systemic treatment. A remedy that cures catarrh must aim directly at the depressed nerve centers. This Peruna does.

Catarrh affects the liver and kidneys and is more often the direct cause of all the suffering endured of the back, liver and kidneys, that is supposed to be something else. In fact, when doctors disagree, and you have found no cure, try Peruna.

Mr. Arthur Perks, late of England, writes from 80 Cathcart St., Montreal, Can., as follows:

"I have used your Peruna for indigestion and kidney trouble and find it an excellent remedy for these complaints. I cheerfully recommend Peruna for indigestion and kidney disease."—Arthur Perks.

Pe-ru-na—A Systemic Catarrh Remedy.

Mr. E. C. Pinsonneault, box 64, Prescott, Ont., member Order of the World, of Holyot, writes:

"Peruna is a most excellent preparation, especially for *stomach troubles, constipation and catarrh. It acts as a stimulating tonic for the entire system, induces good appetite and regulates the bowels.*

"I have found it very pleasant to take and very effective and one of the very few medicines which deserve endorsement.

"It is often a serious question to know what medicine is reliable, and I am therefore glad to give my experience with Peruna, believing that it will continue to give general satisfaction."—E. C. Pinsonneault.

Peruna will be found to effect an immediate and lasting cure in all cases of systemic catarrh. It acts quickly and beneficially on the diseased mucous membranes, and with healthy mucous membranes, catarrh can no longer exist.

Completely Cured by Pe-ru-na.

Mr. J. E. Lacombe, 1013 Chaussi, Montreal, Can., writes:

"I suffered for a long time with liver trouble and after having used several remedies without good results, I resolved to try Peruna. After a comparatively short treatment, I am completely cured."

Pe-ru-na for Indigestion.

Mr. Joseph D. Guyette, 12 Vitre St., Montreal, Can., writes:

"For more than a year I have been troubled with indigestion and most agonising headaches. I doctored continually, but got no help until I took Peruna.

"I have taken four bottles and can truthfully say that it has entirely cured me."

Pe-ru-na Recommended for Dyspepsia.

Mr. H. Lafupre, 381 Amherst Street, Montreal, Can., writes:

"I have used Peruna for a severe case of dyspepsia and am feeling very much better. To all that suffer from dyspepsia, I highly recommend Peruna."

The above testimonials cite the experience of thousands of people who have been cured of obstinate and severe cases of catarrh by taking Peruna.

A reward of $10,000 has been deposited in the Market Exchange Bank, Columbus, Ohio, as a guarantee that the above testimonials are genuine; that we hold in our possession authentic letters certifying to the same.

During many years' advertising we have never used, in part or in whole, a single spurious testimonial. Every one of our testimonials are genuine and in the words of the one whose name is appended. All correspondence held strictly confidential.

Mrs. McCollum Leaves

Regretted Departure of a Lady and Her Daughter Whose Loss will be Greatly Felt.

The Gilmour street residents are greatly grieved to learn that Mrs. McCollum and her daughters have left town, not only for the summer, which they will spend at their cottage, Paterson Island in Stony Lake, but unfortunately for an indefinite period. They will, at the end of this summer's season, move to Toronto, and will occupy their residence at 125 Dekeman avenue.

In the town generally their absence will be felt and regretted, and, especially, in St. John's church, in which all the family have been faithful workers. Miss Alice having taught in the Sunday school for seven years. Miss Alma McCollom was also a zealous assistant in connection with the work of the Girls' Guild and Mission Band—in connection with the latter in the composition and arrangement of plays for local entertainments, and in connection with the Guild in training the members for entertainments. In slight recognition of these services, and as an expression of love and esteem, the members of the Guild and Mission Band forwarded to her on Thursday a beautiful enlarged photographic picture of St. John's church, richly framed, in ecclesiastical style, in weathered oak. It was accompanied by this note; "With best wishes of members of the Girls' Guild and Mission Band, and other friends of the congregation, in appreciation of your work in St. John's."

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work. Lessons in Painting and Pyrography Work. Studio 134 Brock Street, Peterborough.

$3,000 Forfeit

The above will cheerfully be paid in lawful money of the United States, by the undersigned, proprietors of Doctor Pierce's Golden Medical Discovery, if they cannot show the original signature of the individual volunteering the testimonial below, and also of every testimonial among the thousands which they are constantly publishing attesting the superior curative properties of their several medicines, and thus proving the genuineness and reliability of all the multitude of testimonials volunteered by grateful people, in their behalf.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, Buffalo, N. Y.

THE REASON.—There is no medicine equal to Doctor Pierce's Golden Medical Discovery, for purifying the blood. It carries off the poisons which contaminate the life fluid. It increases the activity of the blood-making glands and gives the body an increased supply of pure, body-building blood. It builds up the body with sound, healthy flesh instead of flabby fat, promotes the appetite, feeds the nerves, and so gives to weak nervous people vitality and vigor.

"This is to certify that I have used Dr. Pierce's Golden Medical Discovery and think it's the greatest medicine in the world," writes Mrs. H. Young, of Wade, West Va. "I took down sick six months ago and called in our physician and he gave me medicine but I grew worse. He said I had dyspepsia in its worst form. I decided to try your medicine and began to improve. I used five bottles, two of the 'Golden Medical Discovery' and three of 'Pierce's Prescription,' and now I am doing my own housework. A number of my lady friends also are using Dr. Pierce's medicine and they pronounce it mighty. May God bless you and prosper you in your grand work."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 cents in stamps for paper-covered, or 50 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 137 PETERBOROUGH ONTARIO, MONDAY JUNE 12 1905 PRICE TWO CENTS

Russian Fleet Was Seven Months on Its Voyage From Reval.

It was Thought Baltic Squadrons Could Arrive Before Port Arthur Had Fallen--Many Stirring Incidents were Crowded Into the Seven Months of Rojestvensky's Progress.

It was in October, more than seven months ago, that the Russian fleet of seven battleships, twelve cruisers and thirty-six torpedo boat destroyers, besides colliers and supply ships, left the port of Reval to take their slow course down the Baltic on the way to meet the victorious armada of Japan under Togo.

Rojestvensky's start was made before the fall of Port Arthur. It was expected in Russia that the warships would reach Port Arthur in time to prevent that catastrophe. That it would consume more than seven months was not even thought of in St. Petersburg, where great results were looked for from the total collection of warships representing a naval power one-fifth greater than that of Japan.

STIRRING TRIP TO EAST.

Many stirring incidents were crowded into the seven months of Rojestvensky's progress. His trip through the North Sea was signalised by his firing on the British fishing fleet of sixty vessels, which he supposed was a squadron of torpedo boats, which it had been reported, Japan had purchased in England. One of the boats was sunk, a number crippled, and some of the crews killed and wounded.

Great Britain was prompt in demanding reparation. Russia was by no means quick to grant it, and a crisis was only averted by a court of arbitration which met in Paris and decided against Russia. The damages were paid.

Meantime part of the fleet had been detained at Cherbourg, for it looked for a time as if all the Czar's warships would be needed to protect the Russian coast against the English.

The fleet was later divided at Cherbourg, Rojestvensky proceeding around the Cape of Good Hope with most of the vessels and sending the others through the Mediterranean, the Suez Canal and the Red Sea to the Indian Ocean. The fleets were united off Madagascar and after another long delay to make repairs, caused by storms at sea and to coal up and take on the take on provisions.

He had no inkling apparently of what the wily Japanese Admiral had been doing or how he was preparing to meet the last hope of the Czar at sea. The whereabouts of the Japanese warships was a mystery to the entire world about this time, but it was shrewedly suspected that Togo managed to get the under bodies of some if not all of his ships cleared sea growths.

The disappearance of the Japanese fleet dated from March 19, and on April 19, just one month later and April 19, just one month later and eleven days after Rojestvensky's warships passed Singapore, three of the Japanese warships were seen off Formosa, and word was received that the Mikado had ordered Togo to advance and give battle.

On that day, too, it was learned that the Russian warships, so far from seeking battle of their Japanese foes, after passing Singapore, had headed straight for Saigon, in French Cochin-China, and had anchored in Kamranh Bay. Japan had protested to France that they had been there beyond the time limit. Matters were nearing a crisis in this regard, when, on April 22, the Czar cabled to Rojestvensky, ordering him to sail. The Russian fleet left Kamranh Bay at once, but returned there a week later to await Rear-Admiral Nebogatoff with the second squadron.

Vice-Admiral Togo had in the meantime begun a systematic campaign in cutting off the Russian's coal supply. He captured and sunk a number of Russian colliers.

Nebogatoff arrived off Saigon on May 10, according to advices, and on May 18, it was reported that Russia's reunited squadrons had departed from the coast of Annam to meet the Japanese. Togo's ships were then said to be awaiting battle off Formosa.

G. T. P. Survey.

Several Parties will be Sent Out in New Brunswick.

Fredericton, N.B., June 12.—A number of surveying parties are being sent out on the Grand Trunk Pacific survey in New Brunswick to do some work in connection with the surveying of the route for the Transcontinental road through this province. Three parties in all are to go out within the next few days and their work will consist of making surveys for proposed improvements on the line through the center of the province.

Party Number 3, in charge of D. F. Maxwell, C.E., goes to Plaster Rock, whence their outfit has already been shipped by the Canadian Pacific Railway. Party number 4 is going to Boiestown, in charge of Archibald Foster, C.E. Party number 5, in charge of C. H. Balloch, is probably going to Chipman, although it is said that they may remain here and do some local work.

At the local offices of the Grand Trunk Pacific to-day, Chief Engineer Dunn said that the above named gentlemen would take out survey parties but at the time he could not tell where they would go to. He knew, however, that their work was to be making improvements on the route of the preliminary survey the center of the province.

THE C. P. R. AND STRATFORD

Have Not Come to Terms for the Railway's Entrance

Mr. J. W. Leonard, the manager of construction for the C.P.R., has written to Mayor Ferguson, of Stratford, to say that the C.P.R. cannot accept the terms outlined by Stratford, for the entrance of the railroad into that city. The company was prepared to enter on condition of receiving free right-of-way, and terminal facilities within the city, to go under two streets the city to pay all expenses of raising street grades as well as damages. A freely expressed opinion in Stratford, is that the C.P.R., are asking more than will be granted. A special meeting of the council, according to a despatch from Stratford, to consider Mr. Leonard's letter. The city's proposition to the company was to submit a by-law for $300,000 to purchase the right-of-way and pay for the railway damages.

COUNTIES TO ADOPT SYSTEM

Will Take Advantage of Terms of Good Roads Act

At conferences of County Councillors which A. W. Campbell, Deputy Minister of Public Works, addressed in Perth and Lennox and Addington counties, it was decided to take advantage of the amendments to the Good Roads Act. These counties will pass by-laws adopting systems of roads, and plans of these will be submitted to the Government, which will, if it approves of them, pay one-third of the cost. A meeting will be held in Kingston next Thursday to consider the question further.

CONSTRUCTION OF TRANSCONTINENTAL

Mr. Hays Tells Something of Work and Where it Begins

TERMINUS IS NOT DECIDED

Taking Over the Canada Atlantic—All the Old Employes Will be Retained

Montreal, June 12.—General Manager Hays, of the Grand Trunk Railway, who returned to the city, after having traversed the western branches of the system, is quite satisfied with the conditions which he found while making the inspection.

Sir Charles Rivers-Wilson, who accompanied Mr. Hays on the tour, has quite recovered from his recent indisposition, and accompanied by Lady Rivers-Wilson, will sail from New York for England to-morrow.

"Sir Charles," remarked Mr. Hays in conversation with a reporter, "did not go to Winnipeg this time. He has reserved a tour of the North-West until next year, when he hopes to have the construction of the Grand Trunk Pacific under way at a number of points."

Speaking generally of the Grand Trunk Pacific project, Mr. Hays, who is the president of that company, said that construction would commence almost immediately.

"Where will the first sod be turned?" was asked.

"Somewhere about twenty miles north-west of Port Arthur," replied Mr. Hays, "at a point, I believe, called Kakabeka. Starting at that point, the construction will continue without interruption until we have made our connection between Fort William and Winnipeg."

"Is there any truth in the rumor that the company will select contractors to construct the first sections, rather than submit them to open tender?"

"None, whatever," replied Mr. Hays, emphatically. "The entire work will be submitted to tender."

"Have you determined upon the western terminus."

"Not yet. We have not even determined upon the pass we shall utilize through the mountains. But our expectation is that we shall secure a low grades as have been secured by the Government over the eastern division. Several passes through the mountains have been located, all of which must be minutely examined before a decision is reached.

"And about the Canada Atlantic?" asked the reporter. "When will you take that line over?"

"Any delay that occurs now is due to the financing," replied Mr Hays. "The new securities are now being engraved, and so soon as these are available the transfer will take place."

"And how long will that be?"

"I should say not more than sixty days."

"What will you do with the employes of the Canada Atlantic?"

"We hope to retain the services of all of them," said Mr. Hays, "as we understand that the organization of the road is a good one. There may be some transfers but no dismissals. There will be no change in the shops or facilities on account of the change in control. The date of the actual transfer is likely to be September 1st."

MIKADO TO COL. DOMVILLE

Reply Received to a Message of Congratulation

Ottawa, Ont., June 12. — Senator Domville, on May 29, sent the following cable to the Emperor of Japan;

"Congratulations unparalleled bravery and intelligence," (Signed) Senator Domville.

Under date of Tokio, May 30, he received the following reply:

"Emperor is much satisfied with your kind telegram," (Signed) Minister Imperial Household.

RECEIVED BY THE SULTAN

British Minister and Monarch Discussed Political Situation at Fez

Fes., Morocco, June 12.—Gerald A. Lowther, British Minister to Morocco, had an hour's private audience of the Sultan this morning, and the political situation was fully threshed out. The cordiality of the Sheriffian ruler noticeably differed from his attitude at the official reception of the British Minister. It is still hoped here that an agreement will be reached directly between France and Germany, as otherwise a long diplomatic struggle disadvantageous to all is foreseen.

ALFONSO DEPARTS

Spanish King Has Had Busy Week as England's Guest

London, June 12.—Yesterday King Alfonso ended his stay in London. He left Saturday morning for Spain. His Majesty spent Friday morning in witnessing a drill of the fire brigade, inspecting the national gallery of pictures, and seeing the zoological gardens. Subsequently the young King, accompanied by King Edward, went to Windsor. A state ball at Buckingham Palace Friday night ended the program for King Alfonso's entertainment.

NOTE TO THE POWERS

Germany Proposes Conference to Discuss Moroccan Affairs

London, June 12.—It is learned that Germany has sent an identical note to all the powers signatory of the Madrid convention proposing an international conference on the question of the Morocco. This action followed on the receipt of the Sultan of Morocco's decision refusing to accede to the French demands and expressing a desire for an international agreement relative to the affairs of Morocco. It is understood that none of the powers have yet replied.

WILL PAY DISBURSEMENTS

Provided Japan Claims no Russian Property

Cologne, June 12.—The St. Petersburg correspondent of the Madgeburg Gazette claims that he has excellent authority for saying that the Czar is willing to enter into peace negotiations, providing that Japan shall limit her demand for indemnity to the sum of her actual disbursements, and claim to Russian territory. Also that Russia shall be placed on an equal footing with Japan as regards commercial facilities in Corea and Manchuria.

THE SHAH AND HIS DEBTS

He Cannot be Forced to pay Liabilities Incurred in France.

Paris, June 12.—The court has decided that the Shah of Persia cannot be compelled to pay debts incurred in France, because he is a sovereign, and, therefore, not amendable to French laws. The architect who erected the Persian pavilion at the Paris Exposition sent a bill to the Shah some time ago and received a decoration for himself and medals for the workingmen. The men rejected the medals and demanded cash for their labor. They sued the architect, who was compelled to pay them. This caused his bankruptcy. He subsequently applied to the court for authority to distrain the Shah's baggage on his forthcoming visit, but the court refused to issue such an order, deciding as above stated.

Mr. T. Coughlin Dead

Sudden Death by Heart Failure, in Hastings, of Man Well Known Here

The many friends in Peterborough, of Mr. Timothy Coughlin, Hastings, will regret to hear that he died unexpectedly on Saturday morning at one o'clock.

Mr. Coughlin was a wealthy man, and highly respected in Peterborough, Hastings and all this part of the county. He owned much property and real estate, including several business blocks, a large hotel and a fine general store business in Hastings. For years he was proprietor of the Coughlin House, Hastings, but, at the time of his death, was engaged in a general mercantile business in Hastings.

Mr. Coughlin, on Friday night retired at about 10.30, seemingly in good health, but towards midnight, Mrs. Coughlin, awakening, noticed that his breathing and general deportment was not as it should be; medical assistance was at once summoned, but he passed away, presumably by heart failure, at one o'clock in the morning.

Besides a host of friends who will mourn his loss, Mr. Coughlin leaves a wife and large family, most of whom are grown up.

Fine New Offices

Metropolitan Life Insurance Co. Now Settled in Their New Quarters

The Times, on Saturday, by courtesy of Mr. John Rothwell, Superintendent of the Metropolitan Life Co., was shown through his company's fine new offices above the Bank of Toronto.

Mr. Rothwell has at last got settled down, and has a suite of offices, that bear favorable comparison with any in town. The entrance is from Hunter street, and at the first landing one meets with the cashier' department. This is partially screened off by handsome grill work; here the cashier and stenographer meet the company's clients. Passing on, the next room entered is Mr. Rothwell's handsomely furnished private office. This is a bright and well lighted spacious room over looking both George and Hunter streets, and its floor is covered by a beautifully tinted large Turkish rug.

From the private office, by doors from it, as well as from the landing, one enters a very large room with several roal top desks, devoted to the staff of agents and their work. On the wall hangs a large black board used for various purposes, including notices, bulletins, etc.; here is also the large vault, directly over that of the Bank of Toronto, below. In short the offices are light, large, and "comfy."

TO CARRY MESSAGE TO CZAR

French President Will Urge Emperor to Conclude Peace

Paris, June 12.—M. Bompard, the French Ambassador to Russia, returns to St. Petersburg to-morrow, after a lengthy conference with President Loubet at the Foreign Office, in which it is understood the peace situation was fully considered. This will place the Ambassador in a position to strongly co-operate in the pacific efforts of the United States, and it is intimated that he may carry an autograph letter from M. Loubet to Emperor Nicholas along lines similar to President Roosevelt's message. The general feeling here continues hopeful, the officials considering that the Emperor's hesitation and Japan's military aims are the chief obstacles remaining.

RAILWAY SUES CROWN

Canada and Atlantic Asks for Million and a Half Dollars

Ottawa, June 12.—The Exchequer Court to-day heard the claim of the Atlantic and Lake Superior Railway Company against the Crown for a million and a half dollars. The company claims that twelve years ago the Dominion Government guaranteed an issue of railway bonds, but that in 1895, when the bonds were offered in London, the guarantee was repudiated.

C. N. Armstrong, the promoter of the road, which was originally known as the Baie des Chaleurs Railway, was examined this morning. He held that the company had fulfilled its bargain with the Government, and that the withdrawal of the guarantee destroyed its chances for the sale of its securities. The Crown, which was represented by the Deputy Minister of Justice, denies that any guarantee was ever given by the Government. Negotiations had been begun, but no final contract made.

Ancient Coins Sold in London

London, June 10.—A collection of Greek and Roman coins, the property of the late Harlan P. Smith, of New York, to the number of 1250, was sold at Sotheby's by auction yesterday, and realized a total of $15,929. A Sicilian tetradrachm was sold for $850.

Succumbs to Injuries

Mr. Hudson, the Unfortunate Hunter Street Hotelkeeper, Passed Away at St. Joseph's Hospital, the Result of a Blow Received on the Night of June 1st--M'Aulliffe Charged with Assault.

The fears, prevalent throughout town, for several days past, as to Mr. Fred. J. Hudson's chances of recovery were unfortunately too well founded. Medical skill and good hospital nursing were unable to retain the spark of life, so nearly snuffed out on Circus day.

Mrs. Hudson, who was taken to St. Joseph's hospital three days after the assault had been made, has been under the care of Doctors McNulty, Greer and several other local physicians, who performed several operations upon the unfortunate man, and did for him all that lay in medical knowledge and skill. On Saturday evening between 7 and 8 o'clock Mr. Hudson passed peacefully away in the hospital, retaining consciousness almost to the last.

His brother, Mr. Daniel J. Hudson, of Perth, who came to Peterborough last Wednesday, was with him at the end.

Shortly after the not unexpected end had come, subpoenas were at once issued, by Coroner Dr. Gray's orders, to local men nominated as the Coroner's jury, instructing them to assemble, next afternoon at 2 o'clock at St. Joseph's Hospital.

The inquest was commenced yesterday about 2.30, with Dr. J. W. Gray, Coroner, presiding. The following gentlemen composed the jury Messrs. F. W. Miller, foreman, W. Clancy, Chas. Dunn, R. J. G. Sutherland, W. Shea, J. W. Butcher, Robt. Hamilton, Thos. J. Wilson, W. Batterby, C. W. Vanzent, T. C. Elliott, Jos. Maher, M. J. Hickey, W. J. Morgan, M. W. Porter. The body had been removed to the doctors' assembly room, where the proceedings were held.

Among the medical men present were Doctors Gray, coroner, McNulty, the deceased's physician, Greer, Halliday, Young and McCullough.

After the jury had been duly instructed and sworn in, they, in accordance with law and custom, viewed the body.

Dr. McNulty gave a lurid synopsis of the case, being rather non-committal as to details of actual causes and possible complications, leaving these to be investigated by the local physicians. Dr. McNulty explained the symptoms and briefly the operations performed, showing that considerable pus had collected at the seat of the fatal blow. The wound was a comparatively small one, just over the left eyebrow, but had evidently been caused by a terribly heavy blow, as the skull, and inner lining had been completely knocked in, for a diameter about the size of a silver half-dollar, of an oblong shape, obliquely situated as to the eye-brow.

Doctors McNulty, Young, Halliday, Greer and McCullough, by request and instruction of the Coroner, on adjournment of the inquest, made a minute and thorough postmortem examination of the remains, lasting until nearly 7 o'clock. This was to learn as far as possible the symptoms and possible complications present either previous to the traumatic injury, or as a result of the same. The condition of the internal organs and general state of the deceased physically will have important bearing on the trial of the accused man, P. McCauliffe, as showing whether death resulted solely from the alleged blow or whether other complications may have helped to induce the fatal result. The decision of the medical men will not be made public until next Wednesday at 8 p.m., when the adjourned meeting of the Coroner's jury will be held in the Council Chamber.

Dr. Gray, the Coroner, will today send by express a sample of blood, taken from the deceased yesterday, to the Provincial Analyst, Dr. Ampott, Toronto, for microscopical and bacteriological examination, to determine whether blood poisoning or other complication was present, the result of this examination may or may not, be ascertained by Wednesday night.

By consent of the Coroner, Mr. Hudson's body was removed last night to Messrs. Lane and Kane's undertaking establishment, from which it was to have been removed, and accompanied on the midnight train by his brother, Daniel, to Perth for burial.

Mr. Fred J. Hudson was an unmarried man. His father and mother are dead, but he leaves several brothers, Daniel J., of Perth; Edward, of Chicago; Henry, of Perth; Charles, of Winnipeg, and Robert, of Gold Rock, Rainy River District.

As regards the prisoner, McCauliffe, charged with having committed the assault, that seems to have caused, or helped to cause, Mr. Hudson's death, there is almost a unanimity of public sentiment tending towards sympathy. All accounts of his past history agree in saying that, except-ing on occasional spree, he has always been a peaceful, law-abiding citizen. Those who know him, including both local citizens and accidently been caused by a terrible pie from Fowler's Corners and Emily, were all greatly surprised when the news spread of his trouble and arrest, for a diameter about the size of rest.

Armistice to All Intents Now in Force.

Japan Has Agreed to President Roosevelt's Suggestion to Appoint Plenipotentiaries to Meet Russian Plenipotentiaries.

Tokio, June 12.—Japan has agreed to President Roosevelt's suggestion to appoint plenipotentiaries to meet Russian plenipotentiaries.

St. Petersburg, June 12.—It was stated at the Foreign Office this afternoon that Russia is ready to appoint representatives to hear the Japanese proposals, as being informed that Japan is nominating representatives for this purpose.

Practically, although not formally, an armistice can now be said to exist. Russia awaits Japan's notification of the name of her plenipotentiary and this place of meeting, as upon the place will depend the appointment of Russia's representative. With the naming of the plenipotentiaries a limited suspension of hostilities will be formally declared.

BRITISH PRINCE MAY RULE NORWAY

Prince Arthur of Connaught and the Vacant Throne

DESIRABLE IN MANY WAYS

His Sister Will Some Day Occupy the Throne of Sweden—Gossip of the Embassies

London, June 12.—Prince Arthur of Connaught is discussed in court circles in connection with the vacant Norwegian throne.

If Norway should invite this cultivated young man to assume the Kingship, King Edward, Queen Alexandre, their entourage, and the British Government, would be highly pleased.

Prince Arthur is a prime favorite with the King and is generally esteemed. King Edward employs him in the royal service on every occasion of interest and importance. The Prince's latest mission was to represent the British throne at the German Crown Prince's wedding.

Prince Arthur is an officer of hussars, and an ardent student of the profession of arms. He lives quietly in St. John's Wood, the well-known resident quarter of London. It is thought that his markedly simple habits and democratic temperament would commend him to the Norwegian people.

If Prince Arthur should become King of Norway, England should be particularly gratified, since his sister, Princess Margaret, is shortly to become the wife of the future King of Sweden. Such an arrangement would put England's influence in Scandinavia ahead of that of all other outside Powers, and make good what this country felt it might have lost as the result of the Swedish 'Crown' losing hold of Norway.

Englishmen feel that King Oscar's unyielding attitude toward the Christiania Government is likely to anger the Norwegians and cause them to repudiate the Bernadotte Dynasty.

CZAR EXPECTS A LONG WAR

Does not Think the Time to Consider Peace Has Arrived

St. Petersburg, June 12.—Members of the Imperial Court of Tsarskoe-Selo who are visiting friends here circulate an account of the Czar's reception of President Roosevelt's communication which is accepted as accurate by military society. In effect it is that the Czar thanked the President for his consideration, adding that when the time to consider peace arrived, which is not at present, he would remember this opportunity afforded by the offer of the President's services. These officers also said that the Czar has unshaken faith in the might of his army. He expects a long war, but as shown by his reception of Ambassador Meyer, he does not refuse to recognize the attitude of the powers, who are desirous of early peace.

CONFIDENT OF VICTORY

Why Russians Essayed to go Through Tsu Strait

Tokio, June 12.—A member of the Russian staff, being asked why the Russian ships took the risk of essaying the Tsu strait, said; "We were confident of victory, Reaching Vladivostock was not the only object of our fleet. The Emperor commanded us on leaving the Baltic to fight and defeat our enemy, and we were anxious to obey his order. We were confident and ready to fight from the start. Our mission is ended.

Of the captives brought to Sasebo the battleship Nicolai I. is the most seriously damaged. There are many holes in her port side over there feet in diameter, and the majority of her quick-firing guns on the port side were destroyed. Her forward funnel is partly shot away and one hole along the water line measures ten feet.

A dispatch from Malsura says that the Japanese battleship Asahi was largely engaged with the Russian battleship Borodino. After the Borodino took fire and began sinking the Asahi astern of the starboard side, killing Lieutenant Morishita and seven other men. Morishita's leg was shot off, but, using his sword as a crutch, he managed to reach the deck, where he died. A dying officer ordered our paper on which to write a farewell message to the Japanese navy. He wrote; "Banzai! I die a glorious death."

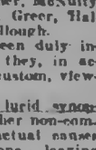
To Protect Burmese Oil Industry

London, June 12.—A despatch to the Daily Mail from Simla says that the Government of Burmah, with a view to protecting the British Burmah oil industry, has refused the Standard Oil Company a license to establish a petroleum store on the Rangoon River.

Police Court

OFFICIALS

Chief of Police, G. L. Reed
Magistrate, R. W. Dundas



Saturday evening the Chief was telephoned by the House of Providence that there was something doing" at that philanthropic institution, and something unpleasant at that. P. C. McGinty at once girded on his trusty baton and started eastward; on arriving at the House of Providence, the latter found that John Power, an inmate, who has lived on the charity of this place for years, had evidently come to consider himself, not only a fixture, but the head panjandrum, and poohah-in-general. Powers had tried to run the place, and made himself so obnoxious they had to forcibly fire him out. McGinty collared his man, and on arrival at the station, a special session of the Police Court was held. Mr. Powers, as a result, will practice that old ballad "Linger-longer-Loo," and saw corporation firewood for six months from Saturday night.

Saturday morning's police court was short but paid expenses.

Michael Heffernan, who showed tangible signs of the effect of hatter, was charged with having taken part in a fight on Simcoe street, against the peace and dignity of the town. It appears that Michael had come out second best in the battle, but his opponent not being found, he had to do his share in paying towards the town's finances.

Michael was assessed the small sum of $2, which he paid up.

William Leahy contributed a fine of $2, with $4.06 costs, for allowing his cattle, to wit four head of young bovines, to run at large. As four cows can do $6.06 worth of damage to every garden or lawn, they tackle, every five minutes of the time they are loose, William was let down light.

THE TURF.

Toxgorder ran second to Oxford in Buffalo Derby. Beaten by half a length by Odom's great riding.

LACROSSE.

Oshawa defeated Peterborough on Saturday by a score of 5 to 3.

The Body of Paul Jones.

Paris, June 12.—The French Government has indicated its willingness to assign a torpedo boat to carry the body of Paul Jones down the River Seine from Paris to Havre, where a French squadron will deliver the body to the American Squadron.

Go to New York

On Lehigh Valley Railroad Special New York excursion Friday, June 16th. Tickets only $9 from Suspension Bridge to New York and return. Tickets good 15 days, good on regular express trains leaving Suspension Bridge 3.50 and 7.15 a.m., 4.20 and 10.15 p.m. This date, June 16th. For tickets and further particulars call on or address, Robt. S. Lewis, Canadian Passenger Agent, L.V.R., 10 King street east, Toronto.

Plenipotentiaries To Meet in Washington.

Washington, June 12.—From an authoritative official source it is learned that it has been practically determined that the plenipotentiaries of Japan and Russia for the determination of peace terms will hold their sessions in Washington.

U S. Colonel Cured of Rheumatism

So Crippl d H Couldn't Walk—Absolutely Helpless Till He Took the One Sure Cure.

FERROZONE

elieved at Once—Cured Permanently—Well Ever Since

Colonel H. M. Russ, of Edwards, St. Lawrence county, N.Y., is one of the fine old heroes of the Civil war.

"I couldn't get around without a cane, and then only with difficulty.

"Rheumatism took complete control of my limbs.

"The suffering was more intense than the hardships on the battlefield.

"When my doctor had done his best I got Ferrozone.

"Then came a quick change.

"Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles.

"I am well to-day. Ferrozone cured me completely. I can jump and run like I did forty years ago."

No matter how long you have suffered Ferrozone will bring you prompt relief. It will increase your strength, renew your vitality, drive out every trace of rheumatic pain. Never known to fail; 50c. per box, or 6 for $2.50, at all medicine dealers, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 4 o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

PETERBOROUGH, JUNE 12, 1905

A MINISTER OF HEALTH

The proposal of Dr. Hodgetts, Secretary of the Provincial Board of Health, that Ontario should have a Minister of Health, might seem at first to be radical, yet when one remembers the large number of insane who fill the asylums of the province; the men, women and children who fill the jails of the province as the indirect result of hereditary taints both mental and physical, the suggestion assumes an important aspect, says the Ottawa Journal. The Provincial Board of Health has done splendid work in preventing and ameliorating disease in all parts of the province, but it is questionable whether the functions of the Provincial Board of Health go deep enough. Possibly if the province had an official whose special and only business would be to study medico-mental questions in their bearing on the health of the people, much good might accrue. The expectancy of life is increasing in Ontario, and with special study of health and social progress it might be further increased materially. Yet as the province grows insanity is increasing alarmingly. Why? This is a question—practical question—which an expert mind should busy itself with.

As Dr. Hodgetts says, the work of public health does not end with the "disposal of sewage and manufactured wastes." There are deep and vital social problems which bear on the health of the people which should be studied systematically.

THE PEACE PROSPECTS

Contradictory reports continue to come from St. Petersburg as to the attitude of the Russian Government toward peace; but the general indication is that the Czar and his advisers are willing to consider terms. The American President seems to be the most likely medium through whom they will be submitted. There will be two limitations beyond which the terms cannot go in either direction—they must be wide enough to guarantee Japanese safety in the future, and they must not be so heavy as to press harder upon Russia than 'it would to merely withdraw into Siberia and refuse to sign a treaty of peace at all.

Japan is certain to ask for the suzerainty of Korea, and is about as certain to ask for a status for Manchuria which will absolutely bar out Russian intrigue. It will surely demand a heavy indemnity, too; but upon this point there may be room for bargaining. The chief thing will be to bind Russia to keep out of her sphere of influence in the far east. There must be no Russian naval station there; no gradual creeping back into Manchuria; no continued attempt to control China. If Russia will agree to turn her attention elsewhere, peace will be easily reached; but, in that case, Europeans will ask where next will the Russian nation seek access to Southern waters. Certainly until Russia gets a free southern port somewhere, the defenders of such ports must always expect to be prepared.

EDITORIAL COMMENT.

The late legislative assembly of British Columbia enacted a law requiring the judges of the provinces to take off their judicial wigs. It also unanimously passed for the fourth time (the Dominion having thrice interposed its veto) a bill containing this provision. "The immigration into British Columbia of any person who, when asked to do so by an officer, fails to write at dictation, in the characters of some language of Europe, and sign in the presence of an officer, a passage of fifty words in length, in a European language directed by the officer, is hereby prohibited."

In fifteen years a policy of persistent pushing and advertising, New Hampshire has increased the number of summer visitors from 81,000 to nearly 200,000 each year. The value of summer homes improvements since 1890, summer hotels and improvements, boarding house and farm house improvements on account of summer board has reached a total of $11,921,975.

* * *

The utilization of Niagara for electric energy is to be rivaled by the utilization of the Falls of the Rhine for a similar purpose. The governments of the Republic of Switzerland and the Grand Duchy of Baden will grant the concession to the cable works of Veiten & Guillaume, Muhlheim, near Cologne, and to the Swiss Electrical company of Berne, Switzerland. The works will be gigantic.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, Manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

PETERBOROUGH MAN DEFRAUDED

A Man Employed by H. Engel, of Peterborough, Has Spree in Lindsay.

The Lindsay Post says: The following court case, which was omitted from our issue at the time, will be of interest to many citizens. It is that of Lethangue, who some time ago was employed by a man named Hymen Engel, of Peterborough. Lethangue spent a week in Lindsay and made lots of money selling fancy rugs, etc., and not returning the proceeds to his employer, was brought up on Thursday and Friday of last week before Judge Dean.

It was shown that he was an old bird, having served a term in Central Prison, Toronto, for stealing $135. However, he was allowed to go on suspended sentence on giving security that he would refund his employer's good money. Stewart & O'Connor acted for the defence. A. P. Devlin, for the crown, and Hugh O'Leary, K.C., for private prosecution.

In the court it was brought out that Lethangue had a good time on the money, having in the company of a young man named Graham, of town, enjoyed three days at the Toronto horse show and returned with empty pockets.

Happy Fathers Bear in Mind

Not only among the happy fathers of first-born hopefuls, but among seasoned family veterans, there is a misunderstanding with regard to the registration of births which the Provincial Registrar desires to correct. The notification of a birth made by a physician is not the registration required by law, which can only be made once by the child's parents. Thirty days are allowed to perform this duty, which is not complete until the child's name is added to the record. A great deal of trouble is occasioned by the omission to furnish the name, without which there is technically no registration.

Go to New York.

On Lehigh Valley Railroad Special New York excursion Friday, June 16th. Tickets only $9 from Suspension Bridge to New York and return. Tickets good 15 days, good on regular express trains leaving Suspension Bridge 3.50 and 7.15 a.m., 4.20 and 10.15 p.m. The date, June 16th. For tickets and further particulars call on, or address, Robt. S. Lewis, Canadian Passenger Agent, L.V.R., 10 King street east, Toronto.

Ayer's Hair Vigor. Hair turning gray? Why not have all the early, rich color restored? Ayer's Hair Vigor will do this every time. Not a single failure. Stops falling hair also. J. C. Ayer Co., Lowell, Mass.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion land in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 40 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cure—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN

148 SHELBY STREET, DETROIT, MICH.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each

200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1 000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of each contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK-HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties:—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Morse, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Carr, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company is the Wilcox, Murphy, Home Rock-Hill, Ben Hurt, Columbia, Reindeer Annex, John Thompson, Frank, and Panama, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the condition resembling that of coal formation; consequently, the direction and trend of the ore bodies are readily followed and determined, and by [illegible] their courses have been found to underlie the various ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into [illegible] under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $210,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1 000,000 per month.

This Company is now offering 100,000 Shares of its Preferred 8 Per Cent. Stock at Twenty-Five (25c.) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the purchaser; that is, dividends are to be paid to the holders thereof until such same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profits. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,

25 Congress Street, Boston, Mass.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day as actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least a thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

'WARE THE LAW

Hotel Men of Peterboro Should, and Must Keep the Laws

It is now up to the hotelmen of Peterborough, as a class, to decide whether they will all, without any favored or chance-taking few exceptions, keep the license law in its entirety, and thereby gain this local branch of business men a better name and a raised position in popular estimation, or whether those, among them who do not seem to understand that public opinion endorses the law, will one by one be compelled to quit business.

The Times, as is well known, is not a crank on the subject of temperance, but, now that the license inspector understands that his office is to enforce law and not intimidate hotelmen who do not vote his ticket, we would like to see all hotelkeepers come to a universal understanding concerning breaches of the liquor laws.

The majority of the Peterborough license holders are now observing the law as far as they can, and it is very unfair that a minority, paying nothing extra for the privilege, should, for the sake of a few cents extra during prohibited hours, not only take away customers from men who refuse to supply liquor against the law, but who bring the onus of a bad name on a class of men who in many cases do not merit it. If the inspector will only treat all alike, irrespective of "pull" there will be no ill feeling created by refusals to sell out of hours.

The hotelkeeper who cannot earn a living with six days' work each week, from early morning until 11 p.m., had better turn to some other channel of business for their living. Those hotelmen who are keeping the law conscientiously are very bitter against competitors who gain customers with the bait of forbidden fruit out of hours.

Friday's Police Court

Yesterday's session of the court was short but disastrous for Patrick McCauliffe, the Emily farmer, who on circus day, June 1st, on connection with a drunken brawl at the Cluxton House, Hunter street, hit the proprietor, Mr. Fred Hudson, on the head with some implement, which blow has ever since confined the injured man to bed.

When McCauliffe's name was called for trial yesterday morning, Mr. R. M. Dennistoun, his counsel, appeared with, and for him.

McCauliff had been out on $400 bail, and as Hudson was still unable to appear in court, an enlargement was suggested. Mr. R. E. Wood, for the prosecution, objected to further bail being allowed, stating that Hudson is in a precarious condition; several operations have been performed and his physicians say that even if he lives, Hudson will not be able to appear in court for at least two weeks, in fact the case is so serious that Hudson has, it was said, made his will. Mr. Dennistoun asked that bail be allowed, as no evidence had been taken to show that any serious offensive weapon had been used, adding that McCauliffe, a man with hitherto good character and of inoffensive disposition was accompanied by his father, a substantial farmer, prepared, and willing, to put up a large amount of bail.

His Worship, however, claimed if Hudson's case was so serious as represented, no amount of bail could be accepted. The prisoner was then taken down stairs and placed in custody. The case has been enlarged until a week from yesterday, in order that Hudson's condition, may then be ascertained.

In reply to a question put by the Magistrate, it was not known whether Hudson's skull had been fractured, but several operations had been necessary.

RUSSIA TOO INCOMPETENT

To Build Own Navy, so Orders go Abroad

St. Petersburg, June 10.—The committee appointed by the Imperial Technical society on the capacity of the Russian yards to execute the proposed orders for new construction, has sent in its report. It considers that it is high time to discard the old system for building abroad, the chief motives of which are to renew if possible, the fleet in a three year's term and distrust in the Russian yards.

The committee points out the fact that no good arguments can be advanced in favor of such a hurry, as it is hardly to be expected that the war with Japan will last so long, and it is extremely unlikely that the new fleet can have any influence on the result; while, if it is admitted that such haste is rendered necessary by the danger of political complications with other powers, it should be remembered that such an eventuality would make the delivery of foreign-built ships an impossibility.

The committee reports that the new naval program includes the construction of ten first-class battleships, fifteen armored cruisers, twelve protected cruisers, and twelve second-class cruisers. The Russian yards cannot, of course, execute this tremendous program in ten years, but they are capable of carrying out a yet larger order if given ten years.

The question of engines, boilers, torpedo armament, electric and signalling equipment is easily resolved, but that regarding artillery remains open, as neither the Obukhov nor the Notovilikhisk works furnished any data on working capacities.

The only serious difficulty felt is in regard to armor, all it appears that the annual output of the Government works will not suffice for more than two to two and one-half first-class battleships. Should the shipbuilding orders be placed in Russia, several large firms have expressed their willingness to construct new ships for ironclads on the Baltic shore, so as to enable this whole program to be completed in five years, but they naturally refuse to incur the expense without the Government guarantee of work for a [illegible] number of years.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

A meeting of the Midland and Eastern racing circuit, comprising Belleville, Port Hope, Lindsay, Peterborough, Kingston, Gananoque and Picton, will be held in the Quinte hotel, Belleville, tomorrow, to make arrangements for an active season. The Peterborough delegates are R. J. Munro, A. Rountree and J. M. Brooks. The dates upon which the races will be held in the different places are:

The first week in July at Port Hope.

The second week in July at Peterborough.

The third week in July at Lindsay.

The fourth week in July at Belleville.

The first week in August at Kingston.

The second week in August at Gananoque.

The third week in August at Picton.

* * *

John Aldous, of Fenelon Falls, has brought his well known trotting "Dan Pinder," to Peterborough, and will at once put him into training at the Turf Club's track. This horse whilst having no mark yet recorded, gives promise of stepping fast.

Mr. Arthur Rountree, secretary of the Peterborough Turf Club, yesterday was in receipt of a letter from Mr. Geo. Curtis, the well known Lindsay horseman, saying he will bring his horse, "Minnie Keswick," 2.19 1-4, and two other fast ones to Peterborough next week, and will train them on the track.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Toronto Island Breakwater Extension," will be received at this office until Tuesday, July 4, 1905, inclusively, for the construction of an extension of the Breakwater on South side of Toronto Island, City of Toronto, in the County of York, Ontario, according to a plan and a specification to be seen at the office of the Resident Engineer, Confederation Life Building, Toronto, at the office of O. Desjardins, Esq., Clerk of Works, Post Office, Montreal, and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for seven thousand dollars ($7,000.00), must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary

Department of Public Works,
Ottawa, June 3, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Post Office at Vancouver, B.C.," will be received at this office until Friday, June 23, 1905, inclusively, for the erection of a Post Office building at Vancouver, B.C., according to plans and specifications to be seen at the Department of Public Works, Ottawa, Ont., and at the Vancouver Armoury, Vancouver, B.C.

Tenders will not be considered unless made on the printed form supplied and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED GELINAS,
Secretary.

Department of Public Works,
Ottawa, May 16, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

Try to Escape Bright's Disease

Look Well to Your Kidneys—Keep Them Healthy and Thus Avoid Incurable Diabetes and Bright's Disease

If you would avoid Bright's disease take Dr. Hamilton's Pills at once—no delay about their action which is swift and thorough. In every case complete cure attends their use.

Read the following symptoms—they tell if your kidneys are sick or well—whether or no you require a medicine such as Dr. Hamilton's Pills:

WATCH YOUR WATER!
Does it smell bad?
Is it red bloody?
Painful and too frequent?
Does it drip?
Discolor the linen?
After standing 24 hours, if the urine is cloudy, highly colored, stingy, contains sediment like brick-dust then
YOUR KIDNEYS ARE DISEASED.

To protect your system against the further inroads of kidney complaint rely on Dr. Hamilton's Pills. They give instant relief to the backache, those dragging sensations, desire to urinate too often or too seldom. You'll feel invigorated and braced, your appetite will improve, sleep will be restful. No medicine on earth will do you more lasting good. Price 25c. per box, or five bottles for $1, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Bisley Team Leave This Week

The Bisley team will leave for England on Thursday of this week. Col.-Sergt. W. H. Moore, of the 57th, is on the team, and as Pte. George Fitzgerald is first waiting man, it is probable that he also will make the trip. He has received word from the secretary of the D. R. A., stating that he would be notified by telegram if a vacancy occurred and telling him to be all ready to go.

Who Stole the Ham?

—On Saturday night as the driver of the George Matthews Co., Ltd., was delivering orders in the west end of the town, who evidently appreciated the well known brands of this packing establishment? took advantage of his absence, whilst in a kitchen leaving an order, to help himself to the complete load of pork products contained in the delivery waggon.

COUNTY MAPS

Only a few copies left of the new map of the County of Peterborough: Price $2.50 each Secure one before they are all sold. For sale at the Times Bookstore.

Peterborough Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. PRINGLE

Cordage Co's. Excursion To-morrow.

Tomorrow will be almost a holiday noon at the fine new Cordage Company's plant. Their employees' annual excursion is on for that day, and will doubtless draw a large attendance, as usual. Their objective point is Jubilee, where a fine program of sports of all kinds will be carried out: the prizes, contributed by local merchants, are numerous and of a desirable class.

Just the Time to Visit New York.

Lehigh Valley Railroad special 15-day excursion, Friday, June 16th. Tickets only $9.00 from Suspension Bridge to New York and return. Tickets good on regular express trains leaving Suspension Bridge on June 16th at 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, sleeping car berths, apply at station ticket office, Suspension Bridge, or of Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto.

Mr. Halpany Appreciated in Cayguon

The Bobcaygeon Independent, speaking of a well known Peterborough gentleman says; "Mr. Jos. Halpany, of Peterborough, sang in Christ church on Sunday morning and in the Presbyterian church in the evening. He possesses a voice of power and of large compass. Mr. Halpany was for many years musical expert with the Dominion Organ and Piano Company and also with the Heintzman Company. He is now covering the Midland portion of Ontario as a tuner, and by his satisfactory work is procuring an extensive clientele.

Is Mr. McWilliams in Danger?

The Toronto Telegram of Thursday, June 8th, says: There is a rumor in well-informed circles here, that J. B. McWilliams, crown timber inspector, at Peterborough, is to be retired, and that his position will be taken by Charles Lemaresh, who resigned his seat for East Nipissing in the House to make way for Hon. Frank Cochrane. The members of the Government, however, decline to discuss the affair. Mr. McWilliams took the platform against the Conservatives in the last election, in the interests of his son, who was the Liberal candidate in Peterborough.

Murray Street Church Decorated

The congregation of Murray street Baptist church were agreeably surprised when they attended worship yesterday. The interior walls of the edifice have been re-decorated in a very pleasing shade of robin's egg blue, with frescoed border. The ceiling has been recalcimined in white and the principals or beams spanning the roof have been grained. The seats have also been polished, and altogether the interior of the church presents a most inviting appearance. The vestibule has been also re-decorated, the mural shade being a terra cotta marked off in blocks. The pastor and people of Murray street church are to be congratulated upon the very handsome appearance of their church, both inside and out.

A Snap in Good Reading Matter

Now is the time of year to procure good, clean, instructive and interesting reading matter. We now present a proposition in literature appealing to the intelligent reading community, at a price that places many months' reading within the reach of everyone for a trifle. We have concluded arrangements with the Family Herald and Weekly Star, of Montreal, whereby we now offer this finest of Montreal's weekly papers, and in addition the Weekly Times, until January, 1906, for the small sum of 75 cents. This is the best offer of first class reading matter for a trifling sum, now before the public. As each day lost in accepting this offer means cheating yourself out of part of a good bargain, subscribe today.

Local Incidents
BY THE TIMES MAN ON THE STREET.

—Meeting of the Whole Council tonight at 8 o'clock.

—The Chief has a Post office key on hand. Who lost it?

—The Dominion Railway Commission will hold a sitting in Lindsay today.

—Board of Works will meet tonight instead of Tuesday as notices stated.

—Yesterday being the Festival of Whitsunday, Holy Communion was celebrated at St. John's church, at 8.30 a.m. and 12.15 p.m.

—The farmers report that the crops are in excellent condition, the recent rain has started the growth and the prospects are good.

—The Girls' Guild of St. John's will hold their annual lawn social on the church grounds, Hunter street, on Wednesday, June 21st.

—In Lindsay the distance that a house must be built from the sidewalk is thirty feet. That would apply to houses in new blocks.

—Saturday morning some little excitement was caused on Aylmer street, by a team attached to a Dickson Co. lumber wagon running away. No damage.

—St. Paul's Young Men's Guild will run their third annual excursion to Stony Lake, per G.T.R. and steamer Stony Lake, on Thursday, June 15th. Tickets for round trip, 75c. 3d

—Mr. E. C. Serigley, of the Collegiate Institute, has passed his examination successfully, for entrance into membership of the Chartered Accountants Association of Ontario.

—There is a prospect of a handicap pool tournament being held in the near future under the auspices of the Young Conservative Club. This should prove an interesting event.

—The improvements to the auditorium of the Murray street Baptist church have been completed and services were held there as usual yesterday. The interior presents a greatly improved appearance.

—Still they come! The Chief has another pocket book on hand for which he wants an owner. The purse contains a letter in which the addressee's name is illegible, but it was clearly posted at Bolton, Ont.

—The commissariat department in connection with Macdonald's gang now engaged in running three drives of logs down the river, arrived in town Saturday morning. They report a very successful season and lots of sport.

—Complaints have been made to the police about boys and young men assembling in the old P.A.A. grounds, fifth ward, and using foul language. If the practice is not stopped there will be trouble. Playing in the grounds is permissable, but the profanity must cease.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work. Lessons in Painting and Pyrography Work. Studio 134 Brock Street, Peterborough.

The June number of the Canadian Magazine has a dainty, illustrated little poem "Forest Voices," by Miss Alma Frances McCollum, with a dainty and well balanced photogravure picture representing a forest scene. Miss McCollum is a regular contributor to this magazine and her undoubted literary and poetic talent is continuously receiving from competent authorities enlarged and deserved recognition.

SOCIAL AND PERSONAL
SOCIETY EVENTS OF INTEREST

—Major Byers, Millbrook, was in town on Saturday.

—Mrs. C. E. Thompson, Toronto, is in town visiting friends.

—Mr. and Mrs. John Fiske, Pittsburg, Pa., are visiting in town.

—Miss Mamie Foote, of the Kingston General Hospital, is home for a visit.

—Bobcaygeon Independent: Dr. H. O. Wood, of Peterborough, is at the Rockland.

—Mr. Wm. Beattie, of the Scotish Canadian, Toronto, was in town on business Saturday.

—Mrs. John Campbell, Montreal, and her little son, Ralph, are the guests of Mrs. Thomas Campbell, Gilmour street.

—The Campbellford Despatch says: Mrs. Wright, of Peterborough, is visiting at the home of her son, Mr. F. W. Weed.

—Mr. and Mrs. R. M. Roy left on Saturday night for an extended trip down the St. Lawrence, and will be away for a week or more.

—The Galt Reformer says: Mr. Bert May, of Peterborough, formerly a conductor on the G. P. & H., is visiting friends here.

—The Cobourg World says: Mr. G. H. Brown, of St. Louis, who is visiting his mother here, was in Peterborough on Saturday with the baseball team.

—Mr. Peter Moffat, of Otonabee, who last Friday met with a painful accident in the yards of the Maple Leaf Hotel, breaking his collar bone, is able to be out again, and a complete recovery is hoped for at an early date by his numerous friends

Mr. Irwin Retires.

Mr. John Hogan, of Toronto, will Now Make Peterborough's Gas.

The output of our local gas house has, of late, greatly increased, there now being manufactured about 54,000 feet a day, as compared with only some 30,000 per diem, at the corresponding time of year previous to this summer.

This large increase is mainly due to demands put upon their supply by the C. G. E. Co., who do most of their brazing by this form of heat the new Peterborough Cereal Company will also be very large consumers, as gas will be the medium for cooking the largely advertised and toothsome "Canada Flakes." Mr. Andrew Irwin, who has been an employee of the Gas Company for nearly 30 years, and gas maker for over nine, made his last run of gas yesterday. He will now change from the comparatively unhealthy occupation of gas making to that of ozone surrounded agricultural pursuits, and will farm a property he purchased a few years ago, at Fraserville.

Mr. John Hogan, an expert gas maker, on the staff of the Consumers' Gas Company, Toronto, arrived in town Saturday evening, and this morning takes hold of the local works. He will not stay here permanently, but "break-in" a local man, and initiate him into the mysteries of making this loud-smelling but useful article. It might not be out of place to say here, notwithstanding complaints sometimes heard as to our gas supply being bad, that the gas of Peterborough ranks higher, both as to candle and illuminating power, than that of most Canadian towns.

A Former Citizen Dead

Death of Mr. William Swayne, Formerly of Peterborough, in Alameda, Cal.

Many of the older citizens, who remember Mr. Swayne, many years ago, a citizen of Peterborough, will regret to hear of his death, at his residence, Morton street, Alameda, Cal., on Saturday.

Mr. James Stevenson, on Saturday, received a telegram from San Francisco, conveying the sad intelligence that his brother-in-law, Mr. Swayne, had just died.

Mr. Swayne, who left here about thirty years ago, resided in Alameda, just across the bay from San Francisco. He was a gentleman of considerable wealth and position in his adopted city, and, until about a year previous to his death, conducted an extensive commission business.

He leaves, to mourn his loss, his wife, a sister of Mr. Stevenson's, one son, Mr. Robert H. Swayne, a large property owner in San Francisco, and who, in connection with an extensive Custom House brokerage business, was agent for the Chinese Government at the time of Chicago's World's Fair, and two daughters, Mrs. James, and Miss Helen Swayne, both of Alameda.

Mr. Swayne was about 75 years of age, and always took great interest in personal or local news of Peterborough, his old home.

Turn Them Out of Church

Ottawa, June 10.—His Honor Judge Rochon will have an interesting case before him at the Circuit Court in Buckingham, on Monday next, when the suit for $100 damages against Rev. Walter Kavanagh, P.P., of St. Malachi's will come up for hearing. Father Kavanagh turned Mr. McAlinden's children out of church, saying that their house was infected with diphtheria. Mr. McAlinden now claims damages, declaring that his family was not affected with diphtheria or any contagious disease. Father Kavanagh's defence will be that he acted in the best interests of his parish in taking precautions against the spread of contagion, he having heard from what he considered a reliable source that the McAlinden home was infected.

Dowie Will Cleanse Paris.

New York, June 12.—A Chicago despatch to the Tribune says that John Alexander Dowie will try to drive sin from Paris, and is now engaged in gathering in Zion City the legions for his "French restorstion host," which will descend on the French capital. The invasion will begin as soon as Dr. Dowie can raise $200,000 and get together 3,000 men. The invasion will be similar to the one in New York, but no women will be taken with the party.

Russian Red Cross Scandal

Kazan, European Russian, June 12.—Another red cross scandal has developed through the discovery that a donation of 5,000 pounds of tobacco intended for distribution among the soldiers in the fields is now on sale at Harbin.

BARGAIN BABIES.

If babies were for sale the most inveterate bargain-hunting woman in the world would not look for a bargain baby. She would want the best baby that could be bought, regardless of price.

Every woman naturally craves a healthy, handsome child, and her craving can be gratified if she will but remember that the child's health is her own gift, and to give health she must

have it to give. Mothers whose babies have been weak and puny have nursed in strength their first strong child after using Dr. Pierce's Favorite Prescription. It is the best preparative for maternity, encouraging the appetite, quieting the nerves and inducing refreshing sleep. It gives the mother strength to give her child, and makes the baby's advent practically painless.

"My wife had been sick nearly all her life," says Mr. R. E. Pricke, of Petersburg, Menard Co., Illinois, Box 367, "and after trying everything I could think of I made up my mind to try 'Favorite Prescription.' I got six bottles, which my wife took a tablespoonful three times a day, until the baby came. She felt bad at first after taking the first bottle, and when baby was born he weighed nine and a half pounds. To-day he is six months old and weighs twenty-two pounds. He is as good a child as any one could wish. The doctor says he is as healthy as any baby could be, and also says the use of your 'Favorite Prescription' was the cause of such a healthy baby."

Dr. Pierce's Pleasant Pellets are the best and safest laxative for the use of delicate women.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 138 PETERBOROUGH ONTARIO, TUESDAY JUNE 13 1905 PRICE TWO CENTS

No Duplicity On the Part of the Russians

Russia Said to be in Earnest, Without Duplicity --Japan Has Sent an Official and Favorable Reply to President Roosevelt.

St. Petersburg, June 13. — Russia's official reply is now on its way to Washington.

Foreign Minister Lamsdorff transmitted it to Ambassador Meyer, and later the Ambassador had an interview with the Foreign Minister at the Foreign Office.

NO DUPLICITY ON THE PART OF RUSSIA.

St. Petersburg, June 13. — All the attempts to create an impression that there is the slightest hitch in the preliminary negotiations are absolutely without the shadow of foundation. Foreign Minister Lamsdorff has formally notified several of the Continental powers that a meeting of plenipotentiaries to see whether it is possible to agree to terms of peace is assured. Now that Russia has made [illegible] that Japan has sent an official and favorable reply to President Roosevelt, the Russian official reply will be forwarded, and the Associated Press feels it is in a position to state positively that it will fully respond to the President's message.

Russ Caught in Nap.

Admit Togo's Attack was Surprise and Found Them Unprepared--Rojestvensky, Not Suspecting Presence of Enemy, Failed to Have Guns Manned.

Manila, June 13.—From the stories told by the Russians who escaped from the sea fight in the Korean Straits it appears that the Japanese completely surprised the Russian fleet. The Russians were steaming peacefully along, not cleared for action and with batteries not manned. The attack came with a suddenness that made the unpreparedness of the Russians a glaring mistake that never could be corrected.

Two lines of torpedo boats suddenly appeared and encircled the Russian fleet. The rapid-fire batteries were turned loose, but with apparently little effect on the Japanese boats. Over the approaching torpedo boats came a hail of ten and thirteen inch shells from the Japanese war vessels in the distance. The torpedo boats advanced at full speed, one division going in a westerly and another in an easterly direction. The Russian cruisers and battle ships prepared to repel the attack. The cruisers manned their port batteries and the battle ships their starboard batteries. No attempt was made to prepare the batteries on the other side of the ships, and it was here the Russians blundered.

MANOEUVER BRINGS CONFUSION.

When the Japanese torpedo boats came within range the Russians opened fire. Then it was the Japanese executed a manouver that threw the Russians into confusion. The two encircling lines met south of the Russians, but instead of continuing in their direction they turned at a signal from Togo and at full speed charged between the three lines of Russian ships, one division passing between the cruisers and the line of hospital ships and transports, and another division passing between the transports and the battleships on the other side.

The Russian ships were unprepared for an attack of this character, and for a time were helpless against the discharge of Japanese torpedoes. Hardly a cruiser or battleship remained unscathed. The Russians were completely demoralized, and during the last dash of the torpedo boats not a shot was fired to stop them.

In the meantime Togo, with his battle ships and cruisers, encircled the Russian fleet and with his big guns completed the work of destruction.

ADMIT LOSS OF 15,000 MEN.

Gunshu Pass, Manchuria, June 13.—According to reports received by Gen. Linevitch from naval officers who have arrived at Vladivostock the losses of Admiral Rojestvensky's fleet were from 9,000 to 10,000 officers and men killed or drowned and about 5,000 prisoners.

Finer Cake

and biscuit are made with Royal Baking Powder than in the old-fashioned way, with cream of tartar and soda, or saleratus and sour milk. The ingredients of Royal Baking Powder are most highly refined and absolutely pure. Royal is always uniform in strength, making the food evenly good and wholesome. No spoiled or wasted materials where it is used.

ROYAL BAKING POWDER CO., NEW YORK.

HYMN TUNES CLASH

Choir Drowned out by Congregation in Waukegan War on Pastor

POLICE READY FOR FIGHT

Deposed Minister Spoils Coup and Says He Will Refuse to Give Up Old Place

Chicago, June 13.—Hymn pitted against hymn, the choir piping at one song and the congregation roaring out the other, furnished a lively novelty in devotional music at Sunday morning's services at the Christian church in Waukegan. Policemen stationed in the church to keep order, in anticipation of possible physical violence in the solemn war that threatened to disrupt the organization, stood by and laughed while the congregation, after a contest that lasted fifteen minutes, figally drowned out the choir by sheer force of numbers and lung power.

"Let us now sing hymn No. 33," announced Rev. E. N. Tucker, who was deposed as pastor of the church several weeks ago, but who intends to hold the place willy-nilly. It was just after he had preached the sermon.

BETTER START FOR CHOIR.

"No, let us sing hymn No. 65," said the leader of the Sunday school, who is prominent in the anti-Tucker faction.

The choir obeyed the minister's direction and got the better start. The others, led by the Sunday school man, took up the other hymn, and the choir's start was offset by the faster tempo of the congregation's hymn. Whenever the congregation paused between verses the choir could be heard. It was doing its best, but after three of the verses of the pastor's song had been finished, the choir gave way, drowned out completely.

"The services are ended," announced Rev. Mr. Tucker after the singing was over.

"No, stay for the business meeting and Sunday school," shouted a trustee of the anti-Tucker faction, and the minister and his followers left the camp in the hands of the enemy, which was in a heavy majority.

MINISTER SPOILS COUP.

A clash had been expected, and the faction that is interested in a new job for Rev. Mr. Tucker had looked the church before anyone arrived, in the hope of executing a coup. But Mr. Tucker is said to have got in through a window, with Elder Hutchinson to back him up, and when the worshippers arrived the minister was in charge.

Rev. W. H. Frairum, a student at the University of Chicago, had been secured by the dissatisfied element to do the preaching, and when he arrived, in tow of his retainers, he refused to make trouble by any effort to oust the other minister from the pulpit. There was no skirmish, but one was in prospect when Mr. Tucker read the names of seven prominent members of the church, announcing that they were deposed from membership. No one took up the announcement, and the real clash came with the calls for the rival hymns.

STRATEGY IS PLANNED.

At the business meeting afterward a council on strategy was appointed to blockade Mr. Tucker if he again seeks to enter the pulpit or the church. By way of depriving him of the sinews of war, it was voted that no more salary should be paid him. The dissenters claim a victory, but the Tuckerites declare the trouble is as far from the end as ever. One of their number posted a notice on the door of the church after the meeting declaring the trustees had closed the building until further notice.

The row has been brewing for several weeks. Pastor Tucker is called puritanical by his foes. He is said to sniff at card playing and dancing, but the Waukegan girls and young men like those diversions. The dispute grew until the minister finally was voted out.

A Reliable Endorsation

A Rare Opportunity for Investment That Will Bear Golden Fruit

The Times, on June 12, was in receipt of personal letter from the well known brokerage firm of Cappes & Miller, 505 Ferguson Bld., Pittsburg, Pa., in which the Russell Mining property at Russell Gulch, Gilpin, Co., Col., is highly recommended in every respect. The mine holds out every prospect of being rich in gold, showing as high as $200 per ton of gold. The shares the company offer, for a limited time, at $1 each, are sure to be large dividend payers in the near future. This firm who recommend this conservative proposition rank very high in commercial circles of the United States, and when they pledge a mining or other investment as holding out safe and lucrative chances, it is wise to seize the opportunity so endorsed.

The Russell mining claims are patented, and are easy of access by railroad crossing the property. Their mine is within one hundred feet of the "Old Town Mine," which has paid and will for an indefinite time, pay large dividends.

Persons wishing a safe and lucrative investment in a gold mine stock that must make a fortune for its owners, should apply at once to Thos. Patterson & Co., Fiscal Agents, Peterborough, or if in doubt, write to Messrs. Cappeau & Miller, whose address is given above. The Russel Mining Company's stock appears on page 3.

RUSSIAN SOLDIERS MUTINY

Returning Men Hold Revolutionary Meeting on Ship at Ceylon

Colombo, Ceylon, June 13.—Revolutionary meetings, at which the Russian Government was denounced, were held to-day by the mutinous Russian soldiers, who are being conveyed home as invalids by the American ship Garonne. A riot over imprisonment of one of their number by the American captain was quelled with some difficulty. The meetings were accompanied with violent disputes and the crippled soldiers used their crutches freely.

Remonstrances by the Russian consul were of no avail. The ringleaders were then arrested and detained.

Three hundred of the best-behaved of the soldiers promised to maintain order, and the steamer then sailed for Odessa, the crew having been heavily armed by the captain.

CHARGED WITH MURDER

Union Sluggers Must Pay the Penalty of Law

Chicago, June 13.—The local police were last night advised of the arrest, in Sterling, Col., of Edward Shields, recording secretary of the Carriage and Wagon Workers' Union, who is wanted here for alleged complicity in the assault of Carl J. Carlstrom.

Six men have been arrested in connection with this affair which caused the death of Carlstrom.

He was a non-union man and was beaten by men hired by the officials of the union for the purpose. His death ensued from pneumonia resulting from the wounds received.

Several of the officials of the union already placed under arrest have confessed their share in the crime.

FEED YOU MONEY

Feed Your Brain, and it will Feed You Money and Fame

"Ever since boyhood I have been especially fond of meals, and I am convinced I ate too rapidly, and failed to masticate my food properly.

"The result was that I found myself, a few years ago, afflicted with ailments of the stomach and kidneys, which interfered seriously with my business.

"At last I took the advice of friends and began to eat Grape-Nuts instead of the heavy meats, etc., that had constituted my former diet.

"I found that I was at once benefited by the change, that I was soon relieved from the heart-burn and the indigestion that used to follow my meals, that the pains in my back from my kidney affection had ceased, showing that these organs had been healed, and that my nerves, which used to be unsteady, and my brain, which was slow and lethargic from a heavy diet of meats and greasy foods, had, not in a moment, but gradually, and some the less surely, been restored to normal efficiency. Now every nerve is steady and my brain and thinking faculties are quicker and more acute than for years past.

"After my old style breakfasts I used to suffer during the forenoon from a feeling of weakness which hindered me seriously in my work, but since I have begun to use Grape-Nuts food I can work till dinner time with all ease and comfort."

Name given by Postum, Co., Battle Creek, Mich.

There's a reason.

Read the little book, "The Road to Wellville," in each pkg.

FEATURES OF 16 MONTHS OF WAR NOW CLOSE TO PEACE PROPOSALS

War began	Feb. 5, 1904
Continued to date (days)	449
Cost to Russia (estimated)	$1,875,000,000
Cost to Japan (estimated)	$1,500,000,000
Russians in the field, present time	400,000
Japanese in the field, present time	420,000
Russia's casualties in battle	245,000
Japan's casualties in battle	170,000
Russian warships lost or captured	62
Japanese warships lost	9
Value of Russian ships lost	$150,000,000
Value of Japanese ships lost	$15,000,000
Siege of Port Arthur lasted (days)	317
Russian losses at Port Arthur (men)	30,000
Japanese losses at Port Arthur (men)	52,000

LEADING BATTLES

YALU, May 1, 1904—Kuroki's army of 60,000 men crossed Yalu river; first invasion of Manchuria; Russians retreated to Feuwangcheng.

NANSHAN, May 22-26, 1904—Oku with 80,000 men drove Russians into Port Arthur; marked beginning of siege.

VAFANGOW, June 14, 15, 1905—40,000 Russians under Stakelburg sent to rescue of Port Arthur, defeated by Oku with 80,000 men.

MOTIEN PASS, June 17, 1904—Count Keller defeated in effort to check Kuroki's advance on Liaoyang.

LIAOYANG, Aug. 26, Sept. 4, 1904—Kuropatkin with 200,000 men defeated by Oyama with 220,000; Russians driven back to Mukden with loss of 21,000 men; Japanese losses, 17,500 men.

SHAHO RIVER, Oct. 11-21 1904—Kuropatkin's only attempt to drive Oyama southward; Russians defeated after losing 55,000 men; Japanese loss, 18,000; both armies held ground all winter.

HEIKOUTAI, Jan. 27, Feb. 4, 1905—General Gripenburg with 30,000 men attempted to turn Oyama's left flank; defeated after losing 15,000 men; Japan lost 5,000; most important but not greatest of the war.

MUKDEN, Feb. 12, 1905—Greatest battle in history; Kuropatkin with 400,000 men in 16 day contest, losing 110,000 men and immense quantity of supplies; Japanese losses, 60,000; Russian army driven 160 miles northward.

NAVAL BATTLES AND DISASTERS.

PORT ARTHUR, Feb. 9, 1904—Japanese surprised Russian fleet, torpedoed two battleships, one cruiser.

CHEMULPO, Feb. 9, 1904—Japanese fleet attacekd and destroyed Russian cruiser Variag and gunboat Korietz.

PORT ARTHUR, April 13, 1904—Russian battleship Petropavlovsk sunk, with Admiral Makaroff, Painter Vereatchagin, and nearly 600 men.

PORT ARTHUR, May 15, 1904—Japanese battleship Hatsuse destroyed by mine; 400 men lost; cruiser Yoshino sunk by collision.

PORT ARTHUR, May 28, 1904—Japanese battleship Yashima, struck mine and sunk with all on board.

PORT ARTHUR, Aug. 10, 1904—Russian fleet tried to escape from Port Arthur, Czarewitch and two destroyers reached Tsingtau; Askold reached Shanghai; Diana at Saigon.

COREAN STRAIT, Aug. 16, 1904—Kamimura defeated Vladivostock fleet, sinking the cruiser Rurie.

SAKHALIEN, Aug. 20, 1904—Uriu's fleet destroyed Russian cruiser Novik.

PORT ARTHUR, Dec. 1 to 31, 1904—Nogi's siege guns, directed from 203 Meter Hill, sank 5 battleships, 2 large cruisers, and many smaller ships in harbor.

SEA OF JAPAN, May 27-28, 1905—Togo's fleet practically annihilated Russian fleet, sinking or capturing 23 battleships, cruisers, and destroyers; 14,500 Russians perished, 3,200 captured. Togo lost three torpedo boats.

The West Protests.

Leading British Columbia Liberal Appeals to His Fellows to Oppose the Coercion of the New Provinces.

Victoria, B. C., June 13.—Mr. R. T. Elliott, of the law firm of Elliott & Higgins, a prominent Liberal, has bolted from the ranks on the school question, and has written a letter to The Colonist, stating that after "a careful consideration of the educational clauses in the proposed Bill and of Mr. Fitzpatrick's statement, it is proposed to enforce upon the people of the two new Provinces the blighting influence of the Separate school system in its widest and most harmful form."

He points to the fact that the measure has the hearty support of Senator Templeman and all the British Columbian representatives, and calls upon the local Liberals to hold a convention and protest, and do all in their power "to avert the crime, as our representatives at Ottawa appear to be devoid of all sense of duty, right or justice in the premises."

SECRECY COSTLY TO ROJESTVENSKY

Vladivostok Unable to Assist Him in Battle Because of Ignorance of His Plans

UNDER JAP SURVEILLANCE

From the Time Admiral's Fleet Entered Eastern Waters its Movements Were Always Known to Togo

Vladivostock, June 13.—The failure of the Vladivostock squadron to put to sea and effect a diversion in favor of Admiral Rojestvensky at the time of the recent battle is explained to have been due to the utter absence of knowledge on the part of Rear Admiral Jessen as to whether Rojestvensky intended to circle Japan or to attempt to force a passage through the Straits of Korea.

Jessen at no time was informed of the Russian commander's plans and was unable to co-operate with him.

The officers of the Russian cruisers Rossia and the torpedo-boat destroyers which reached Vladivostock say the Russian fleet was constantly under Japanese surveillance after it reached far Eastern waters and when ever it was not at anchor suspicious ships were seen on the horizon.

It was only May 23 that Admiral Rojestvensky announced that he intended to break through to Vladivostock, but he gave no orders, and did not indicate the manner in which he proposed to accomplish the task, whether by the eastern or western channel of the Straits of Korea.

The Russian torpedo-boat destroyer Bravi owes its escape to taking the western channel.

Arrived Too Late.

Mr. McIndoo, From California, Finds His Mother Had Passed Away on Sunday.

Mr. William McIndoo, of Prince Cal., arrived in town yesterday afternoon. He came to visit his brother, who lived in Cavan, near Mount Pleasant, but found to his great grief that she had died last Sunday; he arrived in time, however to pay his respects by attending the last rites.

Mr McIndoo was born and raised in Cavan, but left for his present home in California about 25 years ago. He is now a large orange planter, and has dairy interests at Prince.

Another New Industry For Peterborough.

The Manning Wood Fibre Company will Probably Locate Here--The Steam Fire Engine Again Out of Business--Flues Burnt Out and Crown Plate Cracked.

The City Fathers met in Committee of the Whole last night, when there were present Mayor Henry, Best and Aldermen Scott, McIntyre, Crowe, Begley, Butler, Hicks, Johnston, Adams, Mason, Hall and Leary.

Mr. Manning, of the Manning Wood Fibre Co., Toronto, proposed to the Council that his company would operate here a factory in which will be manufactured "Excelsior" for packing purposes, providing the town grant them a site on which to erect their building and store raw material, free of taxes, and power at a nominal cost. This company are perfecting a new machine which will manipulate wood 25 inches long and 8 1-2 inches broad. The wood used will be basswood, poplar and white birch, which Mr. Manning has been informed by Mr. Thompson, of the Dickson Co., is prolific in the back country adjacent to the Kawartha Lakes. A building 100 feet long would be erected, constructed of wood or concrete and sheet iron, and the factory would consume from eight to ten cords per day. While but ten or twelve men would be employed, only two being skilled mechanics, Mr. Manning contended that the factory would prove a benefit in converting into "Excelsior," for Canadian markets, wood which is of no value for other purposes, the men's wages being spent in town. A gang of men would be employed felling the necessary timber which timber would be brought down to Peterborough via the canal. His company would require a site as near the canal and a line of railway as possible. As the wood is manufactured in a dry state, some four or five acres of land would be needed to store some 8,000 or 10,000 cords of the raw material. There are some eight or ten fibre factories at present in the Dominion, and Mr. Manning estimated that there is plenty of room for five or six more to meet the Canadian demand for this commodity. His proposed Peterborough concern would be the company's No. 1 factory. The Council offered Mr. Manning five acres of the town's property opposite the waterworks dam on the opposite side of the river, free of rent and taxes for 10 years, the company having an option to buy the property at the expiration of such time should they feel so disposed. This was satisfactory to Mr. Manning, who will, in company with Ald. Hicks, chairman of the Manufacturers' committee, visit the back country today to see if the timber necessary for the manufacture of "Excelsior" is available. Ald. Hicks' expenses will be charged up to the town. Should no unforseen hitch in the proposed arrangements occur, work on this factory will be commenced very shortly.

TELEPHONE SYSTEMS.

Sir Wm. Mulock, chairman of the Telephone committee of the Dominion Parliament, has written the Council for information as to the number of subscribers carried by the local telephone system or systems, the charges for service and the character of the local and long distance services furnished. The Franchise committee will reply to this.

In this connection it was incidentally mentioned that the Bell Telephone Co. are conducting a much needed rural service at from $15 to $18 a year, while it is uncertain when the Canadian Machine Telephone Co. will be in operation.

FIRE ENGINE OUT OF BUSINESS.

Ald. Johnston, chairman of the Fire, Water and Light committee, drew attention to the fact that the steam fire engine, which was thoroughly repaired and guaranteed in good working condition early this year by the Wm. Hamilton Mfg. Co., at a cost of $500, is again out of business. The flues are burnt out and the crown plate cracked, which unfortunate condition was discovered by Mr. Maine, of the Wm. Hamilton Mfg. Co., to whom the engine had been sent the other day for overhauling. It appears that when the "City of Peterborough" sunk last Tuesday just below the locks, the result of an accident, her people asked for the loan of the engine to pump her out. Ald. Johnston acquiesced on condition that the steamer's owners would be responsible for the engine while engaged in pumping the boat dry. It played out, however, after 20 minutes' pumping, and investigation showed that this elephant on the town's hands to be once more a-hungering for another $500 or $1000 in the shape of repairs. Mr. Maine, a thoroughly expert boiler maker, reports the flues to have been heated to a white heat with no water in the boiler, in evidence of which two heavily ornated flues were exhibited by Ald. Johnston. Engineer Wainwright, on the other hand, claims that the crown plate was cracked when repaired by the Wm. Hamilton Mfg. Co., causing a leakage, which resulted in the engines present condition. This matter will be thoroughly investigated by the Fire, Water and Light committee, and should culpable negligence be proved against any person, the punishment made to fit the crime.

On motion of Ald. Hall, no person in future will be permitted the loan of any town property.

QUESTION OF BONDS.

Council decided to accept from Tax Collector W. J. Green, the guarantee bonds of the United States Guarantee Company, for $12,000, and relieve him of any personal bonds.

BAND IN THE PARK.

Ald. Crowe thought some of the Aldermen should see that the 57th Band play on the park once every week. Should they be out of town any Friday, they should render a program on Wednesday or Thursday. No definite action was taken in this matter.

(Continued in tomorrow's issue.)

BALKAN WAR CLOUD

Prince Ferdinand Wants to Wear Real Crown

Odessa, June 13.—The Odessa agency of the Russian Ministry for Foreign Affairs, which was originally established as a contiguous wire pulling center for the Balkans, is said to be in possession of information leaving no doubt as to the intention of Prince Ferdinand of Bulgaria to raise the principality to the status of an independent kingdom on the next anniversary of his accession.

As King of Bulgaria the Coburger will be in a position to assume a different attitude toward Turkey. He will formally appeal to the Western powers to assist him in establishing an autonomous government in Macedonia, under a Christian governor jointly elected by the consignatories of the Berlin treaty of 1878.

This scheme, we the statement runs, is to be supported by an Anglo-French naval demonstration in the Turkish ports of Asia Minor.

In discussing the report the local press says that such an "alleged scheme would have been promptly scouted twelve months ago, but under existing circumstances anything may happen, and there is no inherent improbability in the statement. It was in this connection that Prince Ferdinand recently visited London and Paris.

Prominent Journalist Coming to Canada.

Through the courtesy of the Grand Trunk Railway System, Ontario and Quebec is to be favored with a visit from an influential body of journalists, known as the "Washington Correspondents" and which comprises some of the best known newspaper men on the continent of America. The majority of the party are members of the exclusive organization known as "The Gridiron Club," of Washington, D.C., and represent the leading journals of the United States. Their trip to Canada is made under the auspices of the Western Canadian Immigration Association with a view of giving these well informed writers some conception of the resources and developments of the farming and commercial industries of the Dominion and the unlimited possibilities that are in store for the future in Canada. There will be about twenty-five in the party leaving Washington on June 21st, over the Baltimore and Ohio Railroad to Philadelphia, Pa., Philadelphia and Reading Railway to South Bethleham, Pa.; Lehigh Valley Railroad to Suspension Bridge, and thence over the Grand Trunk Railway System's double track route through the "Garden of Canada" to Toronto, where a stop of a couple of hours will be made for a drive through the "Queen City" tendered by the Toronto Press Club. Leaving Toronto about eleven o'clock on the morning of the twenty-second the party will proceed over the Grand Trunk to Montreal, arriving there about eleven o'clock in the evening. After remaining in Montreal until the following afternoon the correspondents will leave for Ottawa and Western Canada.

The original intention was for the correspondents to proceed from Washington to Western Canada, but through the good offices of the Grand Trunk, whose guests they will be while travelling over their railway, were induced to see a portion of Older Canada, and to travel over the only double track railway in the Dominion and one that compares second to none on the continent. A special train of Pullman sleepers and dining cars will be at their disposal from Washington to Montreal.

Fire at McAllister's Mill.

A serious conflagration was averted last night, by the blaze being discovered before gaining much headway, and the prompt response of the fire brigade to the alarm rung in from McAllister's large flour mill, on Hunter street, about 10.30 o'clock. Had the flames been allowed a few minutes more play, it is not unlikely that the mill would have been completely destroyed. The origin of the fire is not known.

Girdling the Globe in Wake of Elopers

Australian Has Been Pursuing Daughter and Man With Whom She Ran Away

Geneva, June 12.—After visiting South Africa, the United States, England and France in search of his missing daughter, Percy Armadale, a resident of Ballarat, Australia, has arrived here.

For nearly seven months he has been occupied in the pursuit of the girl and her suitor, but hitherto without success.

At the age of 17 Miss Armadale eloped with a friend of the family, who is fifteen years her senior. The girl obtained a fortnight's start by saying that she intended visiting some friends in Melbourne.

Her father is pursuing his quest unremittingly. He arrived here only three days after the fugitives had left for Trieste.

GET UP TIRED WEARY ALL DAY

Never Feel Refreshed — Always Played Out, Weak, Languid, Discontented.

FERROZONE

Will Infuse the Vim and Fire of Youth Into Your Veins.

Quick permanent cure follows Ferrozone. It braces at once, makes you feel like new. You rejoice in new found strength, in vital energy, in power to act, to think, to do. No other medicine on earth so beneficial to the weak, the run-down and nervous.

Mr. George E. Stainsburg, of 179 Queen street, Toronto, was completely rebuilt by Ferrozone, and writes:

"I was subject to spells of dizziness and light feeling in the head.

"I broke out in cold sweats.

"My appetite was poor and I lived in perfect dread of a collapse.

"I improved at once by using Ferrozone.

"It braced up my nerves, gave me a good appetite, strengthened my blood, and made me feel young again. I am now in the best of health, just because I used Ferrozone."

It's a shame to live in a half-dead condition. Ferrozone will vitalize you it will give you reserve strength, self-control, surplus vigor. It's the most strengthening medicine made. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Kingston, Ont., and Hartford, Conn. U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 4 o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

PETERBOROUGH, JUNE 13, 1905

PAYING SUNDAY SCHOOL TEACHERS

The wealthy men and women of New York city, who are connected with the churches, have not the time nor the inclination to do duty as teachers or superintendents in the Sunday schools, yet they appreciate the necessity of having the primary training of their children in religious thought properly and carefully attended to, says the Ottawa Journal. They are willing to pay experts to do the work and thus ease their minds and consciences of all responsibility. Now and then some newspaper writer sneers at young Rockefeller's Bible class, yet it does credit to the young man's heart and is productive of good results. This class is composed of young men and women living in the city of New York, and all strangers in the city are invited to attend it, and are thus made acquainted with a class of people that makes them feel at home. A young Hamiltonian, who went to New York three years ago, in telling of the Rockefeller Bible class, says that through his connection with it he was introduced into the society of young people who made it their special duty to make him feel that he was not among strangers. There is no more lonesome spot in the world than in a congregation where every face is strange; and if church members would only appreciate that they would try to make it pleasant for strangers who attend the services. As there is a conference of ministers now in session in this city the suggestion may not be out of place.

In the city of New York a number of the city churches pay liberal salaries to their Sunday school superintendents, and they are now going still further and hiring teachers who are qualified for the work. The salaries run from $500 to $1,500 for men, and from $600 to $750 for women, and yet with such liberal pay the supply is not equal to the demand. The idea was first suggested in a church that had a very competent man as superintendent, and in order to get him to devote his time to it the congregation offered to pay him a living salary. The pay of the teachers rates lower, but the allowance is liberal for the time employed. At the Union Theological Seminary in New York there are now more than eight hundred students engaged in a preparatory course, for Sunday school superintendents and teachers and for parish and mission workers, and the course of study is after the order of normal schools for the training of secular teachers. In Hartford, Conn., there is the School of Religious Pedagogy for the training of specialists in Sunday school work.

To our old-fashioned ideas all this may seem to be an innovation, yet if it accomplishes better results in the training of children on the lines of a religious life than the present system, why not adopt it? The faithful superintendent and teacher come closer to the lives of the children than does the minister, who appears to the average child as beyond reach. Children rarely want to go to church to hear a sermon, for it is far beyond their comprehension, but they are always ready and anxious to attend Sunday school, especially if the superintendent and teachers are interested in the work. People are beginning to realize the importance of religious work among the children, and even parents who may not attend church half a dozen times during the year want their children to attend Sunday school. Drop in to any of the Sunday schools in Hamilton to-morrow and see the hundreds of bring young faces, listening attentively to the teachers, and with what fervor the whole school joins in the singing and in the responses to the questions of the superintendent. It is not every man or woman who has the natural gift fitting them to superintend or teach in a Sunday school, and how much better qualified they would be by taking a course in religious pedagogy.

All of us can look back with pleasant recollections of Sunday school days, and to the kind superintendents and teachers who devoted their Sunday afternoons to helping the children towards a higher and better life. There are scores of men and women in Hamilton to-day who are better citizens than they might have been had it not been for the faithful efforts of John Calvert, the humble shoemaker, who taught a Sunday school class down near the bay and in the Simcoe street Methodist church. There are men in the Methodist ministry in Canada who owe their first religious training to the faithful shoemaker. The superintendents or the Sunday school teachers can never realize how much they have done, for it may be long after they have finished their work and lost sight of the scholars before the seed they have sown will be fully developed. It is a grand work to lead children toward the higher life.

WAS IT A GREAT VICTORY?

Was it a great victory? English-speaking people will be the last to wish to minimise Togo's victory over the Russians. Yet, as the facts come out, we find that Togo's destruction of the Russians will likely give but little more credit to the Japanese than Dewey's destruction of the miserable tugs that constituted the Spanish navy in Manila harbor. It has already been shown that the Russians had a very poor battle formation and allowed themselves to be taken by surprise, but the worst story of the Russian incompetence is now heard from the mouth of no less a person than Admiral Enquist. In an interview at Manila, Admiral Enquist said; "My ships were painted black and white, and stood out large targets against the Japanese ships, which were painted an olive green colour, and which could hardly be seen." Is it any wonder that the Russian fleet was sunk?

From what has come out it is quite evident that the world will have to wait a while yet before it gets any satisfactory idea of what a great modern naval fight really means. The Tau fight was not a battle. It was a slaughter.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & CO. Toledo, O

Sold by Druggists, 75c.

Hall's Family Pills are the best.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion land in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation.

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 20 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads or entitled them to patent on or before the 3rd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

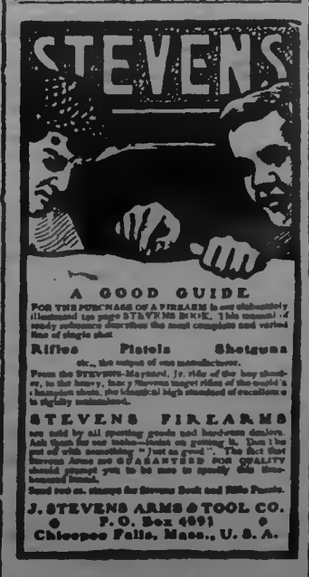
Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.



A GOOD GUIDE

FOR THE PURCHASE OF A FIREARM is our elaborately illustrated 100 page STEVENS BOOK. This manual of ready reference describes the most complete and varied line of single shot

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

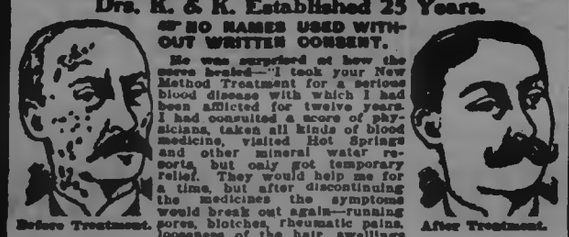
BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

NO NAMES USED WITHOUT WRITTEN CONSENT.



Before Treatment. After Treatment.

He was surprised at how the nerve headed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 8 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." W. H. S.

We treat Nervous Debility, Varicocele, Stricture, Vital Weakness, Blood and Skin diseases, Urinary, Bladder and Kidney complaints of men and women.

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write us for an honest opinion. Free of Charge. Charges reasonable. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men. Sealed Book on "Diseases of Women" Free.

NO NAMES USED WITHOUT WRITTEN CONSENT. Everything confidential. Question list and cost of treatment FREE.

DRS. KENNEDY & KERGAN.

Cor. Michigan Ave. and Shelby St., Detroit, Mich.

The Boston-Leadville Mines Company

(Incorporated under the laws of the State of Colorado.)

Capital Stock $500,000. Divided into shares of $1 each

200 PREFERRED. 300,000 COMMON.

This Company has been organized to take over the following described property:

First—A ten year leasehold, expiring February 14th, 1915, (with right to purchase), covering 28 acres of mining ground.

Second—An option to purchase 160 acres of mining ground, known as the Minnehaha Placer. This property can be had at $1 000 per acre, upon favorable deferred payments which the property should meet from its production. (Copies of such contract may be had on application.)

The above comprises a total of 188 acres. The property is located on Rock Hill within one and one-half miles of the City of Leadville, Colorado, and immediately adjoins the property controlled by the ROCK-HILL MINES COMPANY on the north, these two properties being the intermediate ground between that owned by the Reindeer Mining Company, which latter company is paying dividends of $75,000 per month, and its estimated ore reserve being placed at $25,000,000.

The Boston-Leadville Mines Company being owned and controlled by the same parties as those interested in the Rock Hill Mines Company, these two adjoining properties will be worked as far as possible conjunctively, and the development of the Rock-Hill Mines Company's property will thus prove the Boston-Leadville Mines Company's property. The following are the parties owning and controlling these two properties:—

S. G. Collins, of S. G. Collins & Co., Boston, Mass.
Edwin A. Carter, Springfield, Mass. Simon Davis, Boston, Mass.
W. G. Mayo, Springfield, Mass. J. H. Goodspeed, Boston, Mass.
Lewis F. Carr, Springfield, Mass.

The other mines surrounding the property of the Boston-Leadville Mines Company is the Wilkes, Murphy, Home Rock Hill, Ben Bark, Columbia, Rotodyne-Consort, John Thomas, Sharp, and Parsons, all of which are now engaged in sinking shafts for the purpose of extracting the ore which has been proven by exploration. It will thus be seen that the property acquired by our Company is in the heart of this work.

The ore occurrences in the Leadville District are exceptional in that they lie parallel to the surface, practically horizontal, the condition resembling that of coal formation; consequently, the direction and trend of the ore bodies are readily followed and determined, and by preliminary exploration, their courses have been found to underlie the surface ownership of our Company. The trend of the ore bodies of the Reindeer Mining Company was found to extend into the ground of the Rock-Hill Mines Company, and in turn the ore bodies of the latter company were found to extend into the ground under the control of our Company.

It might be well to state for the benefit of those unfamiliar with the history of the Leadville District that within the past 24 years it has produced upwards of $210,000,000 in Gold, Silver, Lead, Manganese, Copper and Zinc, and is now producing ore to the value of $1 000,000 per month.

This Company is now offering 100,000 shares of its Preferred 8 Per Cent Stock at Twenty-Five (25c.) per share, for the purpose of continuing the shaft already begun to intersect the ore body. These shares are cumulative to the amount they cost the investor; that is, dividends are to be paid to the holders thereof until the same equals the amount paid for the shares with 8 per cent interest for the time their money is outstanding, before the common stock receives any profits. When dividends upon the preferred stock equal the amount of the cost of the stock, it ceases to be preferential, and thereafter becomes common stock and all shares participate alike.

The only capital required to place the property on a dividend paying basis is that asked for, as no equipment is necessary for treating the ore, that finding a ready market at the smelting works of the American Smelting and Refining Company, one and one-half miles distant from the property.

The revenues to be derived from the shares offered will be expended wholly for the business purposes of the Company, no salaries being paid to any officer or director of the company.

For further information, and for shares, apply or call on

S. G. COLLINS & COMPANY,

25 Congress Street, Boston, Mass.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $500 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least a thousand acres more. In all nearly five thousand acres, which will not be used out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

THE WATERWAY SETTLEMENT.

Dominion Government Now Controls Our Otonabee System of Waterways.

The Ontario Government is proving that their recent accession to power means something more than coveted and gained control of the Provincial treasury and patronage. They have now settled a matter affecting a broad question of almost national significance, which the Ross Government, for reasons of their own and easy of solution, so long neglected wilfully, the control of waterways, that should be under disposal of the Dominion authorities. The watershed of the Trent Valley Canal waters has been transferred to Dominion jurisdiction and control.

At a meeting of the Ontario Cabinet, on Thursday last, an order-in-council was passed, to hand over to the Dominion Government the custody and control of the head-waters of the Otonabee River, and connecting waters, and the locks, dams, slides, bridges and other works, if any, formerly under the control of the Toronto Government.

This decision will give to the Dominion Government the full control, management and maintenance of the waters tributary to the Trent Canal system, and the associated works, such as the locks at Young's Point, etc., which have in the past been chiefly a bother and bill of expense to the Province, without any compensating advantage by way of revenue or special service to any interest, except the lumbermen, whose pull and dictation to the Ross Government, made that defunct aggregation of spoilsment neglect the duty they owed the Province in order to attain their own political system of spoliation.

By constant vigilance and honest effort by our local representatives at Ottawa we may hereafter look for greatly improved water conditions, both in the interests of industrial enterprises and of navigation. Of late there has been fairly good management of the waters of the system, and still further improvement may be looked for under the conditions of undivided jurisdiction.

Mr. J. H. McClellan will have charge of the transferred waters and works, in addition to those formerly under his superintendence.

NEW LICENSE SCHEDULE

News of Importance to all Holders of Licenses

Inspector Cochrane has received the following memorandum from the license branch of Provincial Secretary's Department:

Toronto, May 26, 1905.

Sir,—I am directed by the Honorable, the Provincial Secretary, to advise you that by an Act, passed at the last session of the Legislature (a copy of which is enclosed herewith) the fees chargeable for the transfer and removal of licenses have been increased by half the fee chargeable to the Province under section 44 of the Liquor License Act as amended by section 27 of the Act of 1899.

Blank forms for transfers will be supplied by the Department upon receipt of the proper requisition Form B, with the deposit receipt showing that the fee for the same has been deposited in the bank to the credit of the "License Fund" Account for the District.

Transfer and removal forms will not be forwarded until the deposit receipt for the fee has been received by the Department.

The fees chargeable for transfers and removals in the future will be as follows:

Fee for transfer or removal in townships, $25.

Fee for transfer or removal in incorporated villages, $40.

Fee for transfer or removal in towns, $45.

Fee for transfer or removal in cities with a population of 20,000 or less, $60.

Fee for transfer or removal in cities of over 20,000 and less than 40,000, $115.

Fee for transfer or removal in cities of 40,000 and less than 150,000, $137.50.

Fee for transfer or removal in cities of 150,000 population and upwards, $175.

All transfers and removals granted after May 25, 1905, will be subject to above fees.

Your attention is also called to section 7 of the enclosed Act, the effect of which is absolutely to prohibit the sale of liquor to persons under the age of twenty-one years. An order from parent, guardian, or master will hereafter have no effect.

Section 3 provides that in cases in which the inspector or other officer of the Crown under the Act is the prosecutor, the fines are payable wholly to the Province. They are to be deposited to the credit of the license fund account, as heretofore.

I am further directed to instruct you to ascertain if there are any Brewers' warehouses separate from brewery premises in your district, and if so to whom they belong, and to advise this Department without

I have the honour to be, sir,
Your obedient servant,
RUDO SAUNDERS,
Chief Officer.

Steamer Stony Lake Kept Busy.

That the steamer Stony Lake is not letting barnacles collect on her hull is proved by her excursion engagements already secured, which include:

June 15 — St. Paul's Young Men's Guild excursion to Stony Lake.

June 22 — St Andrew's Y. M. C. excursion around the lakes.

June 28 — Sherwood Forest Camp Woodmen's excursion.

June 29 — Bethany Methodist Sunday school excursion.

July 1 — George street Methodist Sunday school excursion.

July 5 — Port Hope Methodist Sunday school excursion.

July 6 — Mark street Methodist Sunday school excursion.

THE SICK DEPORTED

An Instance of the Working of the United States Law Which Does not Tend to Friendship

Winnipeg, June 12. — From time to time the citizens of Emerson, Man., have been furnished with samples of the American immigration laws to the detriment of Canada. Yesterday a glaring case of inhumanity was perpetrated by one of the American immigration officials from Minneapolis. Some twenty-two years ago the victim in question moved from Canada to the United States, and has resided there continuously. Through sickness he was rendered mute, and nine months ago entered a hospital in Minneapolis suffering from an acute attack of rheumatism. Through some channel of communication the department discovered that he had originally come from Canada, and the man was immediately deported to this country. The case will be reported to Ottawa.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Toronto Island Breakwater Extension," will be received at this office until Tuesday, July 4, 1905, inclusively, for the construction of an extension of the Breakwater on South side of Toronto Island, City of Toronto, in the County of York, Ontario, according to a plan and a specification to be seen at the office of the Resident Engineer, Confederation Life Building, Toronto, at the office of E. Desjardins, Esq., Clerk of Works, Post Office, Montreal, and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenderers.

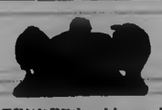
An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for seven thousand dollars ($7,000,000), must accompany each tender. The cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, June 3, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.



SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Post Office at Vancouver, B.C.," will be received at this office until Friday, June 23, 1905, inclusively, for the erection of a Post Office building at Vancouver, B.C., according to plans and specifications to be seen at the Department of Public Works, Ottawa, Ont., and at the Vancouver Armoury, Vancouver, B.C.

Tenders will not be considered unless made on the printed form supplied and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, must accompany each tender. This cheque will be forfeited if the party tendering decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED GELINAS,
Secretary.

Department of Public Works,
Ottawa, May 16, 1905.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it.

History and Production of the Goldfields of Boulder County, Colorado, Portraying Economic Conditions Which Predict the Coming Goldfields of Colorado and Presenting the Stock Offering of a Great Gold Mining Enterprise of the United States Gold Corporation

FREE

Our booklet on the gold fields of Boulder County is off the press, and is being distributed free to investors. We have prepared this book to advertise the gold fields of Northern Colorado and our great gold mining enterprise. The books will be free for the asking while they last. It will tell you of how over fifty millions have been added to the world's wealth in production of gold, silver and copper under primitive methods and from surface workings of an average depth of not to exceed 250 feet. It will tell you of its great tungsten belt, the largest in the world. It will tell you of the existence of a diversity of precious and rare minerals, unrivaled by any other gold fields on this continent. It will tell you of a mineral area of twenty-five square miles literally covered with a network of veins, practically undeveloped, with only one shaft below the thousand foot and half a dozen below the six hundred foot level. It will tell you of a gold field nearer to the Denver smelters than any other in Colorado; of a change of economic conditions, in this section, which will enable the miner to ship ore to the smelters, at a net profit, that is now being thrown over the dumps in other sections of Colorado; it will tell you of a field so attractive that it resulted in the construction of two railways from one end of the field to the other. It will tell you of the substitution of modern and up-to-date mining methods, in place of the primitive ones of the past; in short, it will tell you of all those conditions which predict for the gold fields of Boulder County the coming gold fields of Colorado.

It will also tell you of our great gold mining enterprise in the western part of the gold fields of Boulder County, near the continental divide, where nature has deposited her largest and richest treasure vaults; it will tell you of our economic development tunnel, driven to drain and develop a mineral estate almost a mile long and half a mile wide; of the thousands of tons of gold ore now blocked out and ready for shipment in the five different veins cut by this tunnel in driving it eight hundred feet, the result of two years' steady development work night and day; of our wonderful discovery of molybdenite—a rare metal—in large commercial quantities, foretelling for us the first molybdenite mine in Colorado that is producing, as well as a large and permanent source of revenue, of our project to drive this tunnel, long before the end of this year, into the famous Fourth of July dyke or "Mother Lode," from which the far famed Caribou group of mines produced twenty million dollars in gold, silver and copper from 1869 to 1893; of the tremendous possibilities for ore production which will follow the cutting of a mineral dyke from 50 to 100 feet wide at a depth of a thousand feet, and the great probability of our opening the first great copper mine in Colorado when we reach this dyke with the tunnel. In short, it will tell you of a gold mining enterprise that will go on a large producing basis long before the end of 1905; of an enterprise with possibilities second to none in Colorado, the developments of which have already shorn it of any element of risk or speculative features, rendering the investment offered a safe and attractive one.

For the financial and commercial standing of the business men who stand back of this enterprise we refer you to the First National Bank, Boulder, Colo, or Bradstreets Commercial Agency

The edition will not last long. If you would be sure of securing a copy, write to day, or your name and address on a postal card, with the word "Booklet," will do the work.

HERE IS A CURE FOR

Sleeplessness

Weak, Listless, Sleepless Men and Women Cured Every Day by Dr. Hamilton's Pills.

The physical suffering and mental anguish that victims of sleeplessness endure is indeed a sad story. But in Dr. Hamilton's Pills there is swift relief from this awful condition. Thousands have proved the merit of this grand medicine, among them Mrs. G. T. Lyons, one of the best known residents of Geneva, who writes: "My health ran down and I was unable to sleep. I had headache and pains in different parts of my body. In the morning I was weary and exhausted—no rest or comfort came from the snatches of sleep I got.

Dr. Hamilton's Pills braced me at once. After the first night I got refreshing sleep, that extreme weariness left me and I recovered very fast.

"No medicine I ever used gave such telling results as Dr. Hamilton's Mandrake and Butternut Pills."

Don't let sleeplessness drive you crazy. take Dr. Hamilton's Pills and get well. You will increase in flesh your appetite will be vigorous, forces and energy will be instilled into your nervous system.

By nourishing and purifying the blood and by stimulating the action of the kidneys, liver and stomach, Dr. Hamilton's Pills accomplish wonders. Try a 25c. box, or five boxes for $1, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

A California Mammoth

The Los Angeles Times, in its daily and Sunday editions, continues to print more small "Want" advertisements than any other paper in the whole United States. It seems that the people of the Southwest have become so in the habit of telling their wants of every kind and nature through the great variety of classified advertisements which regularly appear in the Times that it has made the "Liner" department of that paper the medium for the exchange of information concerning almost every business venture, no matter how large or small. The Sunday Times has over 20 pages of this kind of advertising, and the daily editions average nearly four pages. These brief announcements often prove of greater value and interest to readers who have the sagacity to study them than does the news matter itself. Newcomers in California are quick to learn that this class of advertising will give them more actual information about business enterprises and opportunities, vacant positions, chances for profitable land investments, and a thousand and one business topics, than can be obtained from any other source. This in turn prompts people who have anything in the world to offer to newcomers, or to old residents to avail themselves of the classified columns of the Times to get in touch with that active class of people who pursue up-to-date business methods.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

W. H. PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Miss Beatrice Brown, of Lindsay, is the guest of Miss Ada Melville.

—Mrs. R. E. Shera and Miss Ida Shera are guests at the "Hotel Kress," Preston.

—Mrs. F. E. Schneider, 170 Londen street, will receive today, (June 13th) for the last time until autumn.

—Rev. J. G. Porter left for Kingston yesterday to attend the meeting of the General Assembly of the Presbyterian church.

—Mr. and Mrs. W. J. Spence, of Winnipeg, who have been spending their honeymoon in town, left yesterday morning for Chicago, where they will spend the summer.

—Mr. J. L. Hughes leaves on Monday next for a three months' trip to Seattle and Spokane, Washington; Vancouver and Victoria, British Columbia, and the North-West. He will be away about three months.

—Major Hayes, Captain Bennett and Captain Eastwood went to Ottawa yesterday evening to make arrangements for the visit to that city of the 57th Regiment on July 1st. Mr. Thos. Hooper, restaurateur, accompanied the representatives in order to ascertain what accommodation will be available for the commissariat.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The bye-elections in London and North Oxford will take place today.

—Mr. R. W. Errett has up to last night collected $480 inspection fees for weights and measures, this year.

—The Mission Band of Murray street church will hold a picnic at Jackson Park next Saturday afternoon.

—The annual picnic of the Canadian Cordage and Manufacturing Co. will be held down the river to Jubilee Point today.

—Yesterday there was great improvement in the gas, which showed a pressure of 22 candle power, as compared with 18 the average during months past.

—The annual picnic of Rev. Father Fitzpatrick, St. Martin's church Enniscore, will be held at Tara Grove, today. A large number will attend from town.

—The Women's Missionary Society of George street church will meet this afternoon at 3.30 o'clock. The delegate to the branch society will present her report.

—Evangelist F. W. Cox will begin a series of evangelistic services at Bethany Tabernacle on Friday night next. The services will continue each evening until June 27th.

—The new and commodious steamer "Stony Lake" has been chartered by the Auburn union Sunday school for their ninth annual excursion to Stony Lake, on Dominion Day, July 1st.

—A cottage meeting will be held at the residence of Mr. Hugh Mackey, Douro, on Thursday, June 22, at 8 o'clock. Rev. E. A. Langfeldt will conduct the meeting and preach the sermon.

—Mr. Edwin C. Howson, who recently sold his residence, 896 George street, to Isaac Eatwood, has purchased Jas. A. Dawson's new house on Water street. The price paid was $3,600.

—The Lindsay Post says: As we go to press we learn that Col. Deacon has resigned the position of County Police Magistrate, and that Mr. John McSweyn will be appointed in his stead.

—As the Peterborough Horticultural Society has decided not to hold an exhibition this year, the directors of the Peterborough Industrial Fair will offer special prizes for cut flowers and plants.

—The organ of George street church will be thoroughly repaired and overhauled. A representative of the Karn Pipe Organ Co., Woodstock, Ont., will arrive in town this week to inspect the instrument.

—St. Paul's Young Men's Guild will run their third annual excursion to Stony Lake, per G.T.R. and steamer Stony Lake, on Thursday, June 15th. Tickets for round trip, 75c. 3d

—The Cadet Corps of the Collegiate Institute had a field day at Crawford's Grove yesterday, under the direction of Sergt.-Major Brittain. Dinner was enjoyed on the grounds and a baseball match played in the afternoon.

—County Court will open today at two o'clock before His Honor Judge Weller. There are no civil cases, and only one criminal case, that in which the Italian, Dominique Barcoatio, is charged with assaulting another with intent to do actual bodily harm.

—The remains of the late Mr. Fred Hudson, who died in St. Joseph's Hospital last Saturday night as a result of an assault on June 1st, was removed by C. P. R. midnight train Sunday to Perth. His brother, Daniel J. Hudson, accompanied the remains.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrographic Work. Studio 134 Brock Street, Peterborough.

Just the Time to Visit New York.

Lehigh Valley Railroad special 15-day excursion, Friday, June 16th. Tickets only $9.00 from Suspension Bridge to New York and return. Tickets good on regular express trains leaving Suspension Bridge on June 16th at 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, sleeping car berths, apply at station ticket office, Suspension Bridge, or of Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto.

The Englishmen in Canada

London, June 12. — A correspondent of The Daily Mail at Regina says that Englishmen as a class are not popular in Canada. The Englishman suffers for "the quality of his defects and the defects of his qualities. The newly-arrived Englishman is a grumbler and the Western Canadian is intolerant or even legitimate criticism."

Canoeists' Grievance.

Canoe Men Must be Patient and the Lock's Lift-Over Trouble Will be Ended.

The Times has, of late, had both verbal and written complaints about the danger lurking in the waters immediately below the lift-over near the locks, just south-east of Little Lake cemetery.

Owners of canoes and row boats complain that owing to a slight change in the current at this particular spot, the snags and timbers left, presumably by the contractor just where boats and other small craft enter the water after being portaged over, above the locks, are a dangerous menace, both to the boats and their contents.

While we have every sympathy with canoe-men and others, who do not, naturally, like to be wrecked whilst taking an outing down the river, it is only just to the canal authorities to make an explanation.

These dangerous sunken snags were probably left by the canal workmen; but we have it, on good authority, that very soon, probably within the next three weeks, the dredge, now doing work at Keene, will be brought to Peterborough, and will, among other work, remove this trouble.

The canal authorities fully recognise the danger at this spot, but will, as soon as possible, not only remove the dangerous snags, but have in contemplation, improvements at this place, that will be of incalculable benefit to canoeists and boatmen.

Sale of Automobiles

Mr. W. H. Robertson Appointed Agent of Big Concern.

Last night Mr. W. Moore, representing the Canada Cycle & Motor Co., Toronto, was in town and delivered a Ford car to Mr. W. H. Robertson, who has been appointed agent for the sale of their powerful, yet light automobiles, for Peterborough and vicinity.

The Canadian Cycle Co. are the pioneers of this line in Canada, and with their unlimited means and modern plant produce nothing but the best class of automobiles.

Those contemplating purchasing an "auto," run-about or car, should not delay investigating this splendid machine; all information and instruction as to the machines can be had from Mr. Robertson. The wheel now in Mr. Robertson's possession is 10 horse power, and can easily make 35 miles an hour on good roads. The fuel is gasolene, now conceded by all experts to be the most satisfactory: the consumption is only one gallon for 20 miles.

Local Man's Success

Mr. Walter Cottingham Made Manager of the Largest Paint House on Earth.

Most of our middle aged generation in Peterborough, remember, and with kindly feelings, Mr. Walter Cottingham, who was raised here.

Mr. Cottingham was for years with the old established hardware firm of McKee and Davidson, in fact he served his time and learned his business with them. When he had thoroughly learned the hardware business Mr. Cottingham went to Montreal, and after working with several firms in that city, took a position with the Sherwin-William Co., of which he has been made vice president and manager with a salary considerably over $10,000 a year. In the past few years Mr. Cottingham has more than quadrupled the sales of his company, and has extended its business so, that their goods have a world-wide name

Police Court

OFFICIALS

Chief of Police, G. L. Reed
Magistrate, D. W. Dumble

There was no session of the Police Court yesterday.

Yesterday evening P. C. Stewart gathered under the law's protecting wing an elderly man by the name of W. Moore, who gave Cavan as his home, and volunteered the further information that he is a "Cavan Blazer."

Too much eloquence, superinduced by copious draughts of tanglefoot, caused the arrest. Mr Moore, by vehement and continuous bursts of protest against his arrest, commingled with assurances that he was never before behind the bars, made things quite lively in the Hotel des Cops.

J. Hubbins, a private in the Royal Canadian Dragoons, with his pretty khaki uniform and little whip, so frequently seen off late doing the grand on George street, was last night arrested and placed in "durance vile" by P. C. Adams. The cause of his arrest was a telegram received by the Chief from Lieut.-Col. Hemming of that corps, Toronto, asking that the arrest be made and adding that, on receipt of a message noting his arrest, an escort would be sent to take him to Toronto.

Hubbins told a Times representative, after the arrest, that he had left Toronto on the 24th ult., and that his time of 21 days did not expire until today. He said that he had not received leave of absence prior to leaving Toronto, and further that he had written last Saturday for a ticket to take him back to his regiment, which had not yet been sent him.

The Chief immediately wired the Colonel in Toronto that his man had been secured.

CAUSING GREAT ANXIETY

NORWAYS ACTION MAY BRING ON BIG WAR

Russia Unable to Take Advantage of the Situation, Which is Fortunate For Mankind

London, June 13.—The revolution in Norway, though anticipated and practically effected has come to Europe with suddenness. The question is asked with some anxiety whether it will mean international complications.

Had Russia not been involved in a difficult war in the far east it is doubtful whether Norway would have taken the present momentous step, which is not likely to be regarded with approval by the European powers. Emperor William's omission of his customary tour of Norway this year seems to indicate his disapproval of the Norwegian policy, and the fact that the coup d'etat is not unlikely to eventuate in the establishment of a Norwegian republic would alone be a reason why the step should not commend itself to the monarchial powers.

It is not thought that King Oscar will consent to a junior member of his family becoming king of Norway. This proposal is regarded as an attempt to palliate the blow to the deposed king, and the opinion of English newspapers is that the suggestion is quite impractical.

In their editorials this morning's London newspapers comment on the extreme seriousness of the step Norway has taken, many expressing the hope that there yet may be time for the Norwegian people to reconsider their position and endeavor to adjust the difficulty regarding the consular question by arbitration or other means so as to preserve the union, which, it is contended, is necessary for the welfare of both countries. The prospects of such an adjustment, however, appear to be of the slightest.

The consular difficulty is supposed to be only an outward manifestation of the deep seated separatist aspirations of the majority of Norwegians. It is pointed out that the constitution makes express provision for the overruling of the royal veto in cases where it can be proved by three separately elected storthings to be in antagonism to the national will. Therefore, it cannot be assumed that the king exceeded his powers.

British sympathies appear to be strongly on the side of Sweden and King Oscar, more especially as an English princess is about to marry a prince who is in direct line of succession to the Swedish throne.

Should King Oscar consent that one of the princes of the house of Bernadotte become King of Norway and the two countries be able to conclude an offensive and defensive alliance, it would be regarded here as a satisfactory arrangement, but this is little hoped for, and the Morning Post expresses the general view in suggesting that it is eminently a case for The Hague Tribunal.

Skulls of Dead Indians.

What is probably the site of an old Indian burying ground was revealed a few days ago when excavating a mound in the C.P.R. station yard at Myrtle, on the Toronto and Havelock division. The discovery was made by Contractor John Broombh's staff. The ploughs used in reducing the mound uncovered ribs and leg bones and soon sixteen skulls were upturned. Three of the skulls were sent to Ottawa for scientific examination, and one to Dr. Clendennan at Toronto Junction. Seven were retained by a liveryman at Myrtle, but they were stolen from his stable the same night.

No Breakfast Table complete without

EPPS'S

An admirable food, with all its natural qualities intact, fitted to build up and maintain robust health, and to resist winter's extreme cold. It is a valuable diet for children.

Bird Cottam Co., 49 Dundas St., London, Ont.

HOW GERMS ENTER THE SYSTEM

Have No Bad Effect Upon People With Good Digestion.

Like a thief in the night, unheralded and unsought, the disease germ steals into the system under cover of the air we breathe, or our food and drink.

If this germs finds a weak stomach and digestive system, he at once sets up housekeeping, with the result that his landlord has a serious illness.

On the other hand, if the stomach where the germ finds lodgment is strong and healthy through the use of Mi-o-na, the injurious effect of the disease germ is at once neutralized, or the germ itself is driven out of the system. Keep the digestion good by strengthening the stomach and intestines with Mi-o-na, and there need be no fear of what disease germs will do.

If you suffer from headaches, indigestion, flatulency, specks before the eyes, vertigo, heart-burn, dizziness, or have a variable appetite, and a general feeling of despondency and weakness, you should at once strengthen the stomach and digestive system by the use of Mi-o-na. There is no liquid, no alcohol, no spoonful doses with this remedy. Just one small tablet out of a fifty cent box, before each meal, and your stomach will soon become so strong and healthy that you can eat anything you want to without fear of distress, and you will be germ proof.

Ask Wm. Madill to show you the guarantee under which he sells Mi-o-na. It costs nothing unless it cures.

WHEN LIFE'S AT STAKE

The most timid man will take any chance of escape. The slender rope dropped down the precipice, the slippery log over the abyss, anything that offers a chance of life, is eagerly snatched at. The end the man seeks is safety. He cares nothing for the means to that end.

There are thousands of men and women whose lives are at stake, who are hindered from accepting the one means of safety by foolish prejudice.

Doctor Pierce's Golden Medical Discovery has been the means of restoring health to many men and women whose hollow cough, bleeding lungs, emaciation and weakness seemed to warrant the statement of local physicians—"There is no cure possible." Why should prejudice against a put-up medicine hinder you from trying what has cured thousands of suffering men and women?

"Only for Dr. Pierce's Golden Medical Discovery I think I would be in my grave to-day," writes Mr. Moses Miles, of Hilliard, Uinta Co., Wyoming. "I had asthma so bad I could not sleep at night and was compelled to give up work. It affected my lungs so that I coughed all the time, both day and night. My friends all thought I had consumption. My wife had taken Dr. Pierce's Favorite Prescription and it had helped her so much she insisted on my trying his 'Golden Medical Discovery'—which I did. I have taken four bottles and am now a well man, weighing 185 pounds, thanks to Dr. Pierce's Golden Medical Discovery."

The sole motive for substitution is to permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose.

LEARYS

Hack, Livery and Horse Repository

CHANGED HANDS

M'COLLUM BROS

Formerly of Orillia, have pleasure in announcing to the citizens of Peterborough that they have purchased the livery Plant and business of Mr. R. H. Leary, 421 Water Street.

It is our intention to devote our personal supervision to this business, and to conduct it in the same painstaking manner which has made it the best equipped and best patronized livery in the province. We therefore solicit a continuance of the large trade which has been extended to the past to our predecessor.

WOMAN DISCUSSES RUSSIAN AFFAIRS

Mme. Olga Novikoff Explodes Some Popular Beliefs About Her Countrymen

IDEA ON PEACE QUESTION

Russia Wants an Honorable Peace—Her Great Mistake

London, June 14.—The best known and most brilliant of Russian women of the highest class is Madame Olga Novikoff, who makes London her home the greater part of the year.

So popular is she in England that she has been named the "Russian Ambassadress." Madame Novikoff is a goddaughter of the first Emperor Nicholas, and moves in court circles in St. Petersburg as one of the royal family.

The Times correspondent asked her to write an article, giving us a glimpse of Russia from Russia eyes. She said she would not write, but she requested me to call, saying she would grant an interview."

Very soon we entered upon a discussion of the war, and I asked her about peace.

FAVOR AN HONORABLE PEACE.

"We Russians," said Madame Novikoff, "are all in favor of an honorable peace, but to any other sort of peace we are absolutely opposed. I do not think that the Emperor himself could tell you under what conditions peace would be acceptable to us. We shall be guided by circumstances. It may be interesting to your readers to learn that to-day, in some quarters of Russia, a man who speaks of the cessation of hostilities is set down as a traitor."

"What of the much-talked-of grand dukes, Madame Novikoff?" I inquired.

"Everybody in Russia laughs at the rubbish that is being written about the grand dukes. They are not the advisors of the czar."

GOOD WORD FOR SERGIUS.

After referring to other matters, Madame Novikoff showed me a signed photograph of the Grand Duchess Elizabeth, widow of the Grand Duke Sergius, who was lately killed by a bomb.

"The Grand Duke Sergius," said madame, in reply to a question concerning the dead man's character, "was very patriotic, and devoted to his duty as a Russian citizen. His views were moderate, but he was exceedingly firm in putting them into execution, and perhaps he was not over lenient. He had no patient with revolutionary aims. His death was a severe loss to us."

"As to these active assassins in Russia, madame. To what section of the community do they belong?"

RUSSIA'S MISTAKE IS LENIENCY

"They are terrible. As a rule they are half-educated creatures. Russia's gravest mistake is that she is too lenient. For example, we have neither capital nor corporal punishment. This being so, how are we to keep people in order? The lives of those who take life should be forfeited."

"An insight into the personality of the Czar, madame, would be useful especially at this juncture."

"I am very fond of the Czar. He is kindness itself. Indeed, his weak point is that he is too kind. So generous is he that he will not offend if he can avoid doing so. He hesitates to adopt strong measures, which might be expedient.

"He is devoted to his wife and family, and is, perhaps, not sufficiently ambitious. I may add that he is intensely religious and moral."

KAISER WILHELM HAS WHIP HAND

No Longer Deems It Necessary to Work His Schemes Under Cover

GRASPED THE LEADERSHIP

Influence Nicholas, Dictates to Sultan and Backs Gustaf

London, June, 14.—Events entirely beyond the reach of diplomacy have given Emperor William the whip hand in Europe. It is he who most strongly biases the action of Nicholas. It is he who dictates the course of Morocco's ruler. It is he who stands behind Crown Prince Gustaf, of Sweden, whose celebrated declaration of willingness to lead an army to reconquer Norway made inevitable the breach, whose outcome no diplomacy can foretell. In all the capitals the most significant symptom of public opinion is the belief that the German Emperor no longer deems it necessary to work under cover, but has dared to throw off all disguise and to grasp the leadership he has planned to secure.

London assumes that the full extent of President Roosevelt's interposition in the Russo-Japanese conflict is that of the mutual friend who ascertains the outlines of the proposals of the belligerent holding the advantage. It is also believed that the President has been informed by Russia that, when she knows the maximum demands of Japan, she will decide whether to approach her directly or go on with the war. In the purlieus where Fleet street has source of early knowledge of great developments the latest report is that Japan has intimated to the Washington Government that she will accept the assistance of the United States in reaching an armistice provided she is assured that, when final peace terms are reached, Russia will provide adequate guarantees of invulnerability. Such guarantees would be preferably a tripartite stipulation by Russia with the United States, Great Britain and France. If this arrangement could be carried out, the claim for indemnity might be waived and other compensation accepted.

As the Tokyo Government would regard the war outlay up to this point as a small price for absolute national security, London is inclined to think the indemnity matter will be adjusted through Mr. Roosevelt on a basis that will save the face of Russia without loss to Japan. There is no doubt, whatever, that the European international situation has been changed radically by the extraction of the tireless force of Theophile Delcasse. Close observers do not expect M. Rouvier to seek any genuine accord with Germany; but his avowed intention to adjust Franco-German differences in Northwest Africa by conceding to Berlin a sphere of influence in Southern Morocco is an indication of the way the wind is blowing. In the Scandinavian imbroglio the most interesting figure after all is an outsider, William of Hohenzollern. Obviously he has no intentions of being clubbed into settlement between Stockholm and Christiania. His unconcerned desire to bring about the peaceful amalgamation of Holland and Denmark in the German Empire, a result German publicists think could be accomplished by trade agreements, would prevent him from idle contemplation of what is happening in the dual monarchy of the north. He would look with no pleasure upon the establishment of a Norse republic on the lines of the Swiss confederation, which is the ideal of many Swedish and Norwegian patriots.

German agents in the revolting kingdom have been actively promoting the discontent of the Norwegians over the inferiority they have suffered in the union.

WEATHER NOTES.

Warmer, with thunder showers.

JAPAN'S PEACE TERMS

Washington, June 13.—It has been intimated by the Japanese Government that the Mikado will demand a much greater indemnity from Russia than the billion dollars that would have sufficed before the last naval battle.

Japan declares that one of the chief features of the peace protocol shall be the evacuation of Manchuria and Corea by Russia, and the giving of a bond by Russia, with three or more world powers as signatories, that there shall be no future aggression on the part of Russia in either of these countries.

It is intimated that the third condition of the protocol shall be the cession of certain Russian territory in the neighborhood of Vladivostock, the hint being that Vladivostock may be named within the territory to be ceeded to Japan. The Japanese Government is also said to be in favor of opening the whole of Manchuria and Corea to foreign powers for commercial reductions, but not for any other purposes.

Most Unmitigated Gall

A Factory to Employ Eleven Men Asks Concession Equitable for Five Hundred or More.

For once, The Times opposes a proposal made by a possible new factory for Peterborough.

The policy of this town is, in every reasonable instance, to offer fair terms as an inducement to factories contemplating locating here. The very life and prosperity of this town is dependent on her manufacturing industries and the consequent weekly pay sheets, but there is such a matter involved in all such propositions as common horse-sense. A factory that promises, at most, to employ "10 to 12" hands, only two skilled hands, in Peterborough, with a visionary gang of men who will work "in the woods," asks this town, with unblushing gall, to grant them, as the price of obtaining this stupendous aggregation of eleven (we split the difference) men, a free site of several acres, free of taxes, and the power to run their 11 men and machinery practically for nothing.

Now, be it understood, this bashful request only contains a proviso that, of their eleven employees, only two are skilled workmen, in other words, possibly, householders and taxpayers, the other nine may be boys or girls, as far as any guarantee, so far offered, shows.

Whether the two skilled workmen will insist on remission of their dog taxes, is yet to be learned. If such an absurd, such an almost criminal waste of public rights and property be thrown away for so meagre a return, very plain questions may be asked of those Aldermen voting for it, as to why or how much. We cannot believe that so patent a transaction as this will be put into execution by members of a Council representing Peterborough's people and credit for business acumen. The throwing away of so much belonging to the public of Peterborough, for practically nothing in return, will condemn those voting for it as false to their trust and, not only lacking in sense, but well supplied with genius of another financial character. Is this a sample of first fruits to be gathered from incorporation as a city, if so heaven help the City of Peterborough. The factory asking more than would an industry intending to employ several hundred hands, in return for the pay sheet wages of eleven men is the Manning Wood Fibre Co., who propose, at Peterborough's expense, to make Excelsior from certain kinds of small growth trees.

What guarantee has the town to prevent this concern, at Peterborough's expense, cleaning this district of the kinds of wood they use, and then, with fingers to nose, and thanks to the Council, simply seek other sites for their business?

WEDDING BELLS.

Wedding Bells Ring Merrily in the Month of June--Several Peterborough Couples Made Happy at the Altar.

Faux-Holland.

Yesterday to St. Peter's cathedral, Mr. Thomas Holland and Miss Nellie Faux, celebrated one of the important events of their lives, when, under the sanction and benediction of Rev. Father McColl, they joined hand in hand and promised eternal love and fidelity as they walked the rosy paths of married life together.

The wedding was a pretty one, the attendance including a large number of relatives and friends of the contracting parties.

The bride looked charming in a gown of silk organdie over white taffeta, with picture hat to match, and carried a white prayer book The bridesmaid, Miss Ida Coveney, was beautifully attired in cream crepe de chene. The groom was assisted by his brother, Mr. James Holland.

At the conclusion of the ceremony the party drove to the residence of the bride, Munro avenue, Fifth Ward, where a dainty wedding breakfast was served. The contracting parties were the recipients of many congratulatory favors, and will take up residence on London street.

Mr. and Mrs. Ed. Lushs' Wooden Wedding.

After five years of connubial felicity, on Monday evening Mr. and Mrs. Edwin Lush, 586 Bethune street, celebrated the auspicious day by entertaining at their residence, about forty invited guests. They were heartily congratulated on this their "wooden wedding." Mr and Mrs. Lush were made the recipients of many handsome presents, among them being some beautiful gifts in burnt wood-work. Delightful refreshments were served during the evening in a marquee on the lawn.

An Affirmative Answer

The Mayor Asked by the P.M.G. Whether the Local Telephone Service is Good

As our readers are aware, the Dominion Government is now, through the medium of a special committee, trying to get posted as to telephone matters, throughout Canada.

The committee, among other ways of obtaining information, are corresponding with the various mayors throughout the country, asking their opinions.

If all reports as to the Bell Telephone Company's service and system in general, are as favorable as must be the report sent out from Peterborough, the Government will pay scant attention to the various local companies in opposition to the grand old friend of the public, the Bell Company, most of which are inaugurated, simply as means of levying blackmail by intending ultimately to sell out to the Bell, after people in the various places where they are started, have become sick of the unmitigated nuisance of a dual system. The letter received by Mayor Best is as follows:

Telephone Committee.

May 29th, 1905, Ottawa, Ont.

His Worship the Mayor, Peterborough, Ont.

Sir,—I have the honor to inform you that the Parliament of Canada has appointed a committee to enquire into the various telephone systems in operation in Canada, and elsewhere, with a view to considering and reporting what changes in the methods at present in force for furnishing telephone service to the public may seem advisable.

It is desired to obtain information as to the merits of the various systems in existence whether controlled by governments, municipalities, companies or otherwise, and it would be appreciated if you could furnish the committee with views of your council regarding the telephonic conditions in your locality, together with particulars as to the present system, number of subscribers, charges and any other information bearing upon the matter.

The committee wishes to secure, as far as possible an accurate statement as to how far the present system is satisfying the public requirements in your locality, both in regard to local and long distance rates, quality of service, and facilities for inter-communication with the rural districts.

The committee also invites any suggestions or recommendations which in the opinion of your council, are desireable.

I am sir,
Yours truly.
W. MULOCK,
P.M.G., and Chairman.

—The next session of the First Division Court will be held on Friday, June 23rd.

LITTLE ACHES never grow to be big ones if they are promptly treated with Perry Davis' Painkiller. A good thing to remember in the season of diarrhoea, cholera morbus and other bowel complaints that come with summer.

BRITISH PRINCE VISITED SICK

Wales Went About London Hospital, Mistaken for a Physician

London, June 14.—"I am much better now, doctor," said more than one patient in the wards of the London hospital this week to a bearded gentleman who bent over them with a kindly inquiry.

It was not a doctor, however, but the Prince of Wales who was passing unrecognized through the wards.

The royal visit was paid by the prince and Sir Frederick Treves, while Mr. E. Morris, the secretary, acted as conductor.

At 3 o'clock a private brougham drove up to the doors of the out-patient department. It was Wednesday afternoon, and without delay the party went to the lupus department where the Finsen light in which the queen takes so much interest was pouring its healing rays upon a number of patients. The nurses, intent on their tasks, scarcely raised their heads, and the prince passed through almost unnoticed. In the receiving and surgical rooms cases were being treated, and the work went on as usual as the prince looked in.

Two or three wards were next inspected, and the royal visitor spoke to many of the "cases," who were quite unaware of their questioner's identity. A boy in the "Treves" ward, suffering from a contracted foot due to paralysis, had quite a long talk with the prince, who asked him if he were able to walk. "Walk" said the lad, "why, I can swim."

The prince went over to the medical school, the fine museum, with its antique collection of specimens, interesting him considerably as Sir Frederick explained them to him.

Save for the heads of a few departments, scarcely any one in the hospital knew of the royal visit.

STRIKE MATTER OF ENDURANCE

Chicago Employers Will Make no More Propositions to the Teamsters

Chicago, June 14.—No proposals for peace came from either side to the teamsters' strike to-day, and for the present the contest has settled down to a matter of endurance. John V. Farwell, Jr., in whose hands the employers have placed their case as far as peace negotiations are concerned, said this afternoon that no overtures would be made to the teamsters at any time hereafter. The employers are willing, he said, to meet the men at any time, but no more proposals will be made to them.

The teamsters' joint council held a short meeting to-day at which terms of settlement were to be considered, but nothing was done.

John C. Driscoll, formerly secretary of the Team Owners' Association, who has been anxiously sought in connection with the suits brought against President Shea, of the Teamsters' Union, by George R. Thorne, who alleges criminal libel, returned to-day. President Shea declared that he was offered $10,000 by Thorne through Driscoll to call a strike on Sears, Roebuck & Co. Driscoll denied positively to-day that he had any knowledge of the affair. He will appear before the grand jury on Monday.

Secretary Sinsere, of the Employers' Association, declared to-day that as far as doing business is concerned the strike is over. The employers have 2,300 teams in service, and they are doing almost a normal amount of traffic.

Sells His Daughter To Admiring Pasha

German Conjurer Arrested for Treating the Girl as a Human Chattel

Vienna, June 14.—A conjuror and music hall artist named Albert Sauer has been arrested here, at the request of the German Consul-General in Constantinople, on a charge of having sold his sixteen-year-old daughter Margareta to a pasha.

It is alleged that when Sauer, his wife and daughter were performing in various Constantinople music halls this spring the extraordinary beauty of the girl attracted the notice of the pasha.

Eventually Margareta was received into the pasha's harem, and Sauer was paid $5,000.

Sauer's story is that the pasha was so infatuated with Margareta that he insisted on marrying her. The wedding took place according to Mohammedan rites in the middle of April, and Margareta was subsequently treated with great distinction in the harem of the pasha.

Sauer admits that he received the $5000, but asserts that this was merely an advance on a pension promised him by the pasha on condition that he give up his profession as a music hall artist, which the pasha did not consider in accordance with the position of a pasha's father-in-law.

KING'S COME HIGH

Kaiser is Criticised for His Extravagance

Berlin, June 14.—The Kaiser's lavish extravagance in his constant royal tours is causing serious criticism. His civil list, thought the largest in Europe next to that of the Czar, is quite insufficient to cover his expenditure, and the matter has been brought to a head by the intimation that he was unable to make any provision for the Crown Prince's married household.

During his repeated absences from the capital important state business is suspended, owing to his autocratic taste for having a finger in every pie, and the withdrawal of all responsibility in large affairs from his Ministers. Then his health is undoubtedly suffering from the perpetual rushing around; his nervous system is overwrought, and his temper is becoming intolerable.

Hon. Charles Hyman Elected in London by 400 of a Majority Over Gray, the Conservative Candidate--Smith, Liberal, Elected in North Oxford by About 450 Majority.

London, June 14.—The bye-election here yesterday resulted in the election of Hon. Charles Hyman by over 400 majority. There was a large vote polled and the Conservatives were confident of victory until the result was made known. The friends and supporters of Mr. Wm. Gray, claim that the riding was flooded with money, and that substantial proof of the scandalous means resorted to by the Liberal workers has already been obtained, and a protest will follow.

Woodstock, June 14.—The Liberal candidate, Mr. Smith, was elected defeating Mr. J. G. Wallace by a majority of over 450. The returns are not complete, and will probably decrease the majority.

Welcome Home.

Lieut.-Col. Rogers, Postmaster, Home After Three Months Absence in British Columbia

The Times would join his host of friends in extending the hand of welcome to Lieut.-Col. Rogers, our popular postmaster, on the occasion of his return, after three months' absence in British Columbia. Mrs. Rogers is in Victoria, and her friends here will be greatly pleased to know that she is enjoying fairly good health. Col. Rogers has two sons in British Columbia—Mr. D. M. Rogers, of the law firm of Barnard and Rogers, and Dr. H. B. Rogers. His daughter, Mrs. Robertson, is also residing in Victoria.

The Colonel speaks in highest terms of the pleasure experienced during his trip, both from the long looked for reunion with wife and family, and from the gratification afforded by the wondrous sights, climate and experiences encountered during his trip. He is greatly gratified by the success of his sons in the far away Western Province, which he feels ample compensation for a parent's anxiety and expense in training them for the battle of life. Col. Rogers was particularly impressed by two things in particular, the grand combination of Alpine like scenery with almost tropical fertility of soil and the universal loyalty of the people of British Columbia towards the British Empire and our own grand Dominion.

Not Much Loss.

Mr. C. B. McAllister's Loss by Monday's Fire Small.

In the account given in yesterday's issued of Monday night's fire in McAllister's flour mill, 5th Ward, we gave no statement of the losses incurred by the blaze, such information being impossible by time we went to press.

We are now glad to state, from information furnished by Mr. C. B. McAllister yesterday, that the loss is not large, but was not covered by insurance.

The greater part of the damage was by smoke and water. The fire originated mysteriously in the basement of the building, where the terminals of the various shafts are situated. Some slight change in machinery will be necessitated by the fire.

MANY BREWERS MAY BE RUINED

More Than a Million Dollars in Fines Imposed in West Virginia

Wheeling, June 14.—The state, through its tax commissioners in various counties, is pursuing a plan in the enforcement of the new liquor laws that spells ruin to scores of breweries unless the present tactics are abandoned. The Harrison county grand jury meets Monday at Clarksburg, and as the plans are now instituted many thousands of fresh indictments will be brought against breweries and those selling malt drinks under the old schedule.

The Marshall county grand jury last week found 6,102 indictments against half a dozen breweries, each sale to saloonists constituting an offence. Special grand juries have been called in many other counties, and the fines and costs that will be assessed against breweries will run into millions of dollars. The breweries contend that they were not amenable to a law passed some time ago, but the tax commissioners and the supreme court ruled adversely upon their contention, and the state is now proceeding to collect fines that will balance the license taxes for the period in dispute.

In Marshall county the minimum fines means $1,250,000, and if the Harrison county program is followed ten thousand new indictments will result there. The state has secured evidence showing individual sales, and when proceedings are finally taken many breweries will be bankrupt. Their only hope seems to be appeals to the higher courts. Distinguished lawyers have been engaged by the liquor men in all parts of the country and steps taken to fight the indictments to the last ditch. The national organizations will assist materially in sharing the cost of the battle.

Gold in Frontenac.

A Rich Discovery of Quartz Reported to Have Been Made in the Township of Barrie.

Kingston, Ont., June 13.—There is much excitement in the Township of Barrie, in the north of Frontenac County, by the announced discovery of gold quartz, which yields $1,000 to the ton. The quartz is on lot 16 in the 10th Concession, owned by the Big Dipper Mining Company, composed of United States men.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL.

Yesterday a gang of men were busily engaged in getting the Turf Club's track into shape, in anticipation of next month's event and more particularly to have it in condition for the extensive training of numerous local horses now being put into condition. The track this year, from strenuous attention and intelligent management, will be better than ever before.

BASEBALL.

Mr. Geo. Lynch will officiate as umpire at the Oshawa-Bowmanville game today at the latter place.

A Fast Game.

Newmarket Talagoos vs. Peterborough's Tomorrow Afternoon

The first home game of the lacrosse season will be played on Riverside Park tomorrow afternoon between the fast Talagoos of Newmarket and the local twelve. The visitors are a speedy well-balanced bunch and are playing a great game this season. The Young Torontos and Richmond Hill, both fast teams, were beaten by the Talagoos recently, by large scores. The locals are practicing hard for the opening game and have strengthened up considerably. The visitors are coming down on the monster excursion from Newmarket and surrounding district.

The Riverside Park grounds are in fine shape for lacrosse; the grass has grown rapidly and the field presents a fine appearance. Ample accommodation is provided for spectators.

Sportsmen at Keene.

Peterborough Citizens Wend Their Way Keene-ward to See Races.

The sporting blood of Peterborough's population always warms at the name of racing. Yesterday, owing, in part, to the beautiful weather, and, partly, to the inherent love of clean out-doors sport that characterizes the people of this town, quite a number of local people, many of them accompanied by their respective wives and lady friends, drove some eleven miles towards Keene to see the races on Mr. Fife's half-mile private track.

Among those who attended the races were Messrs. W. Hogan and wife, Isaac Eastwood and wife, several of the Elmhirst family, A. Rountree, J. M. Brooks, G. Lipsett and wife, and others.

The races were not for any particular money prizes hung up to attract the swift ones, but more as a "try-out" and social gathering of people who love the ponies. The races were ran on Mr. Fife's admirable half-mile private race track, which was in good condition. No official record was taken of time made by the horses engaged.

The first race, under Class A, was between Jim X. and Miss Paisley, being won by Miss Paisley, by two out of three half-mile heats, Jim X. taking only the first heat. The other race, under Class B, was between Mr. Elmhirst's horse and Fife's mare, half-mile heats, two out of three, which was won by Elmhirst's horse in two straight heats.

The party returned to town in the early evening after a most enjoyable drive. Those who attended these races report that considerable excitement is being aroused among the Keene and country horsemen and sports, over the approaching Eastern Ontario Racing Association's now completed circuit, especially over the grand program announced for Peterborough's week of the racing. The Toronto papers will shortly give some attention to the E. O. R. Association's program, so we can count on having a good bunch of men who generally confine their attention to the O. J. C. and Woodbine racing attractions.

When Baby Comes You'll Need Strength

No Mother Can Rear a Healthy Child Unless She is Stronger Herself.

FERROZONE

mparts New Vigor—Braces Nourishes Strengthens Weak Women.

A woman's anxieties multiply ten-fold about the time the new baby is expected. If her strength is exhausted and her blood weak, it goes hard in the hour of trial. Ferrozone should be used because it makes the blood nutritious and rich. By instilling new strength into every part of the body, it uplifts your spirits at once.

Childbirth is certainly made easier by Ferrozone. The following statement expresses the earnest gratitude of Mrs. M. E Duckworth, of Durham. It is a woman's story—of her own case—told that other women may profit by her experience;

"Before baby was born I was in a miserable, weak, nervous state. I had no reserve strength. I tried to build up, but nothing helped me. I looked upon the coming day with dread, knowing I was unusual to the occasion.

"Ferrozone braced me up at once. It gave me strength and spirits, brought back my nerve and cheerfulness. From my experience with Ferrozone I recommend it to all expectant mothers.'

There is more concentrated nourishment in Ferrozone than you can get from anything else. It supplies what weak systems need. Simply take one tablet at meals and you'll feel uplifted at once. Ferrozone makes healthy virile, vigorous women; try it. 50c. per box of fifty tablets, or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 1or o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, JUNE 14, 1905

AS TO NORWAY AND SWEDEN

The union between Norway and Sweden had something in common with the union between Scotland and England, but the outcome had been notoriously different. The union was forced on Norway as it was on Scotland. The history of the former has been a history of bickerings as was the history of the latter until some years after Queen Victoria ascended the throne. But while Scotland has come to regard her union as the best thing that has happened in the whole course of her existence as a nation, Norway has never during the ninety years of union with Sweden heartily accepted it. This is where the parallel ceases to exist.

The history of Norway's union has been one of bickerings. So doubtless and perhaps even more so was the previous union between Norway and Denmark. But that was in the old days when things did not get into the newspapers for the reason among others that there were no newspapers for things to get into. Now that there are newspapers in which certain politicians can cut some figure one can understand with what success Norwegian demagogues have appealed from the interests of Norway to the sentiments of Norwegians.

The political secession of Norway from the Swedish union seems to be a grave political mistake. A united Scandinavia, including Denmark, as well as the countries of the peninsula, would be strong enough to make itself respected in European politics, and to a considerable extent to make its own terms. But when the separate units insist upon separate nationalities, as Norway has done, those countries become either the shuttlecock of contending powers greater than themselves or else the wards of the "Concert of Europe," a position which no enlightened patriot would desire for his country.

Of course Sweden will not use force to retain the Norwegian connection. That has been made abundantly evident. The question of an independent and separate consular system for Norway was the rock upon which the split occurred. The objection of Sweden and of King Oscar to the establishment of the system was that the joint authority of the countries at the Swedish capital might and would be held accountable for the conduct of the consuls whom that authority could not control.

The separation on the part of Norway has been managed with dignity and even with amiability. It is refreshing to read that Norway has asked the Swedish King to co-operate in the selection of a prince of the house of Bernadotte, the last dynastic relic of the Napoleonic era in Europe, to be the sovereign of the new monarchy. But it remains true that Norway and Sweden will be far weaker apart than they have been together, and that they are beset by powerful enemies. It is to be feared that Norway may have cause ere long to rue the action her counsellors have taken.

AN EFFICIENT REVIVALIST

Early this year there was a great spiritual awakening in many United States cities. Large revival meetings were held and many conversions were made. But from no quarter was there reported an instance of genuine change of heart and manifest repentance equal to the one which occurred at Knoxville, Tenn., a few days ago. A revival is going on there now. A man who attended one of the meetings was so much affected that he repented of his sins and resolved to confess them, which is the best evidence of sincere repentance.

He went into court where a contested election case was being tried and testified that while acting as election officer he had stuffed into the ballot box between 200 and 300 ballots marked for a particular candidate. He also confessed that he had miscounted several ballots so that they were counted for the wrong candidate. In short, he pleaded guilty to penitentiary offenses.

There was more illegal voting in Ontario in proportion to poulation at the last election than in any American city. There was an enthusiasm for cheating. Revival meetings were held in many parts of Ontario after the election and numerous conversions were made. So far as is known nobody who had been concerned in the election frauds of the preceding election was among the converts. If he was he kept the fact to himself.

It may be that Tennessee sinners are not so hard hearted as those of Canada, or it may be that the Ontario revivalists could not sting to life the dormant conscience so effectively as the Knoxville one. He was able to bring under conviction of sin men who had broken no laws of man's making—election laws for instance—but was unable to catch those who had. The Knoxville revivalist is needed ports of Canada.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Electric Light For Victoria Park

Will Be Better Illuminated For the Band Concert Friday Night--The Town Will not Supply Ice for the Drinking Fountains This Year.

Ald. Johnston reported that 24 32 candle power incandescent lamps will be placed in Victoria Park by Friday next. The Peterborough Light and Power Co. will furnish the current free. He thought it would be an expensive operation to pole and wire the Central Park for incandescent lamps, and recommended the erection of one arc light in the centre of the park. He was authorized to carry out this suggestion at the town's expense, providing the Peterborough Light and Power Company furnish the current free.

NO ICE THIS YEAR.

Ald. Batten reported that Messrs. Rebill and Allan each tendered to furnish the two public drinking fountains with ice for $60 the season. As the price paid last year was but $35, the Council considered the tenders excessive, and decided to forego the luxury of ice for these fountains this season.

The Council then adjourned.

Epworth League Convention, Denver Colorado, July 5th to 9th, 1905

The Official Route selected by Canadian Epworthians and their friends is via the Chicago, Union Pacific and North Western Line, the only double track railway between Chicago and the Missouri River. Low rates open to all. Liberal time limits. Write for Epworth folder and other Colorado literature, including Denver hotels and boarding houses. Special train of tourist sleepers carrying Canadian Delegation will leave Chicago, 10.30 p.m., Monday, July 3rd. Diagrams of sleepers, now ready for assignment of space, on application to B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 30 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crew Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

STRICTURE AND KIDNEY DISEASE CURED.

G. E. Wright.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."

G. E. WRIGHT, Lansing.

THANKS DUE TO ROOSEVELDT

Peace Proposals are now Fairly Well Under Way

London, June 13.—The St. Petersburg correspondent of the Times says:—The Admiralty states that not a single officer was saved from the battleships Navarin, Borodino, Alexander III. or Souvaroff. They all broach the subject of peace. The chances of a speedy termination of the conflict are now distinctly promising, but it is premature to speak of them with absolute confidence. The negotiations have not yet begun, and remembering the vacillation hitherto characteristic of Tsarskoe-Selo, it would be foolhardy to say that peace is assured, but everyone at the Foreign Office now admits that the chances are good. For this the world is obliged mainly but not solely to President Roosevelt, who personally initiated and resolutely carried out the efforts to bring the belligerents together.

Faint rumors of impending peace are appearing. The Russian papers turned turtle. Russia appears to have yielded to the inevitable. The unbroken series of repulses on land and sea, culminating in the irreparable disaster at Tsushima, has, notwithstanding the desperate efforts of the war party, moved the Emperor to feel not prepared the public for such a surprise as President Roosevelt's note, and indeed, although the note was published last night, it is doubtful if the majority of people in St. Petersburg realize what has happened. There is not the slightest evidence of public feeling, and the city behaves as if nothing unusual had occurred.

NOT THE FIRST EFFORT.

Information from an authoritative source enables me to trace the history of this memorable feat of diplomacy after the abortive attempt of certain statesmen were made.

After the battle of Mukden, President Roosevelt decided on the first favorable opportunity to take the initiative in bringing about peace. With this object in view he sounded the Governments of Great Britain, France and Germany. The assent of Germany was readily given. France and England, as allies of the belligerents, were precluded from taking a prominent part in the efforts to end the conflict. President Roosevelt's opportunity came after the disaster in the Tsushima. Last Wednesday the American Ambassador asked for an audience at Tsarskoe Selo, and by virtue of clause three of The Hague convention submitted informally to the Emperor the President's friendly counsel to negotiate peace. The Emperor there and then agreed to meet the President's wishes. On the following day the American Ambassador called upon Foreign Minister Lansdorff and verbally communicated the substance of the President's note, to which Count Lansdorff verbally agreed.

Will Stagger Russia

Japan May Demand Eastern Siberia and a Billion Dollars—Terms Hard but Necessary

Washington, June 14.—If the expressed views of diplomats represent the situation correctly, before peace terms can be made Japan must literally whip Russia beyond the power of protest and then alienate forever from her the entire eastern end of Siberia. Unless this is done, distressed diplomats aver, Japan will, in years to come, find it necessary to fight Russia all over again for the same causes which brought on the present war.

The world, therefore, must not be surprised, say diplomats, if Japan, as her most important consideration of peace, demands the cession by Russia of the eastern half of Siberia. This is made necessary by the tremendous influence which Russia exerts in China.

CAN'T LEAVE HER AS SHE IS.

With Russia left with her territory intact from the Atlantic to the Pacific and with Vladivostock as her Gibraltar on the Pacific, Russian influence would constantly be exerted on China with the result that Japan would be in later years placed in the same position as it was before this war, with Russia, better able to resist than she has been.

It is, therefore, a struggle of Japan for existence, which cannot be made secure with Russia left in practically the same position as before the war.

PEACE TERMS FORECASTED.

Summed up the peace terms are forecasted something like this;

Russia to cede to Japan, subject to future disposition, a wide strip of eastern Siberia, including the entire coast line.

The permanent withdrawal of the Russian navy from the Pacific. The interned warships to become Japanese property.

A protectorate over Korea and the permanent occupation of Port Arthur.

The turning over to Japan of all railroad property in China, Manchuria and eastern Siberia.

A money indemnity of from $500,000,000 to $1,000,000,000.

CONSUMPTION WIPES OUT FIRM

Three Members Die of Same Malady in Three Weeks

Rochester, N.Y., June 14.—The three members of the Rochester clay pipe company have died within three weeks and the concern now without executive officers, may pass out of existence. Tuberculosis was the cause of all the deaths. The last death occurred yesterday, when Samuel J. Dolan, aged 32, of 2395 Jane street, South Side, passed away. Edward Willets, senior member of the firm, died three weeks ago and two weeks later James Lavelle, another member of the firm, passed away. All three men were well known on the South Side. Their friends say that the dust from clay products, with which they worked for a number of years, was responsible for the disease.

WOMAN ATTEMPTS MURDER

Cut Husband's Throat While He Slept, Then Ran to River to End Her Own Life

Cumberland, M.D., June 14. — Mrs. Isaac Roomsburg, of Bakers Run, W. Va., is in jail at Moorefield, Grant county, charged with the attempted murder of her husband. While he was asleep, Mrs. Roomsburg cut a long gash in her husband's throat, but before she was able to finish her work Roomsburg rushed from the house to a neighbor's, where a physician was summoned. It is thought he will recover. Constable Park found the woman in the river trying to drown herself. She begged the constable to let her end her life. Her mind is impaired.

A DOUBLE SUICIDE

Youthful Sweethearts Take Strychnine and Die

Kansas City, June 14.—Mabel Gates, aged 18 years, and George Job, Jr., were found in a dying condition from the effects of strychnine poisoning on Kansas avenue, in Rosedale, Kan., at 1 o'clock this morning, and both died before medical aid could be administered.

They both protested when an effort was made to save them, and it is supposed they voluntarily took the poison, having made a mutual agreement to commit suicide. The young couple had been sweethearts for several months.

Orillia's Example Good to Follow

Orillia Council has doubled the tax on dogs, and owners must now pay $2 for dogs and $5 for female canines. After July 1st all untagged dogs shall be destroyed, and females at any time if found at large. Owners of dogs that attack passers-by, or other dogs or horses, shall be liable to a fine of $10.

CHANGED HANDS

M'CollumBros

Formerly of Orillia, have pleasure in announcing to the citizens of Peterborough that they have purchased the Livery Plant and business of Mr. R. H. Leary, 421 Water Street.

It is our intention to devote our personal supervision to this business, and to conduct it in the same painstaking manner which has made it the best equipped and best patronized livery in the province. We therefore solicit a continuance of the large trade which has been extended in the past to our predecessor.

McCOLLUM BROS

C. P. R. HOTEL

CHANGE OF OWNERSHIP

Richerby Brothers have purchased the C. P. R. Hotel, on Simcoe Street. The new proprietors of this well known hotel are now making extensive alterations and improvements in both hotel and yards Special attention and courtesy will be shown to farmers and others patronizing the yards, sheds or hotel. Shedroom free with two men in attendance.

RATES—$1.00 per day

Special cheap rates by the week.
A share of public patronage solicited
Courtesy to guests is our motto.

EXQUISITE COMPLEXION

Quickly Acquired if the System is Regulated by Dr. Hamilton's Pills

The power of Dr. Hamilton's Pills over the complexion is marvellous. As if by magic all blemishes, humors and impbs disappear. A clear, ruddy glow is quickly manifest on the cheeks, and looks that delight the eye come to stay. It is by purifying and enriching the blood, and thereby building up the constitution, that Dr. Hamilton's Pills accomplish so much in a short time.

"I can highly recommend Dr. Hamilton's Pills for the complexion, writes Miss E. M. Porter, of Clear View, Ia. Before using this medicine I had a very pale, murky complexion, and there was no redness of color in my cheeks. But Dr. Hamilton's Pills changed this and my looks have been much improved."

In every case of dull, sallow complexion, wherever, the skin is blotchy and rough, Dr. Hamilton Pills quickly prove their merit. You'll look better, feel vastly improved by relying on this great medicine, which is instant in effect. Price 25c. per box, or five boxes for $1, at all dealers, or by mail, from N. C. Polson & Co., Bartford, Conn., U.S.A., and Kingston, Ont.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Rev. Dr. O'Brien was in Toronto yesterday.

—Mr. Kenny White, of Trenton, is in town.

—Mr. R. H. Kells was in Toronto on business yesterday.

—Mr. W. S. Greensides, of Collingwood, is in town on business.

—Mr. George A. Gillespie was in Lindsay on Monday on business.

—Mrs. John Crane will receive this afternoon for the last time this season.

—Mr. William Johnson, of Belleville, district inspector of weights and measures, was in town on business yesterday.

—Messrs. Dick O'Brien, Victor Hamilton, B. Gilman and R. Dormer left for Ottawa last night, where they will join a surveying party.

—Mr. Fred Lefevre, of Lakefield, Ont., passed through Toronto this week en route to South America, where he will be engaged in his profession of engineering for several years.—Toronto Star.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Grand Lodge of Prentice Boys is in session at Belleville.

—Both of yesterday's elections proved that a full purse surpasseth a righteous understanding.

—Victoria Park will be lighted properly for Friday night's band concert. This is a boon long craved for and badly needed.

—St. Paul's Young Men's Guild will run their third annual excursion to Stony Lake, per G.T.R. and steamer Stony Lake, on Thursday, June 15th. Tickets for round trip, 75c. 3d

—Mr. Allan Wilson, of Otonabee, who was injured last week by his horses running away while being unbitched from the wagon and two wheels of the vehicle passing over him, is progressing favorably.

—The old race way near Mr. McAllister's mill is in a condition that is not calculated to benefit the health of the public. It has become an annoyance and the Board of Health should see that something is done to remedy the existing state of affairs.

—A big excursion under the auspices of the North York Agricultural Society will come to Peterborough tomorrow. They will take in all the sights, including the Lift Lock, and a lacrosse match has also been arranged for the day.

—A meeting of the executive committee of the Woodmen of the World will be held in town on June 27th. On the following day an excursion of the Woodmen will be held to Stony Lake and visitors from Campbellford, Omemee, Port Hope and Lindsay will be present.

—The medical men of Peterborough will entertain the "limbs of the law" to an excursion down the river on the steamer City of Peterborough on Friday afternoon next. The boat will leave the Wolfe street wharf at one o'clock and the Street Railway wharf at 1.30 o'clock.

—Between 300 and 400 persons left yesterday morning on the annual excursion of the Canadian Cordage and Manufacturing Co. The excursionists spent the day at Jubilee Point and went on the steamer Water Lily and palace barge.

—After this date the Town Tax Collector will make monthly returns to the Council instead of weekly, will only keep $50 on hand from day to day instead of $100 and a bond signed by the U. S. Guarantee Co., for $12,000, will suffice in place of personal bonds for $10,000.

Again Afloat.

The City of Peterborough Once More Rides on the Surface of Otonabee's Waters

Yesterday afternoon about three o'clock, the gang of men engaged in raising the City of Peterborough, which fine steamer, a few days ago, met with an accident and partly sunk, just below the locks, had their efforts rewarded by seeing her rise, inch by inch, as the water filling her hull was pumped out by a portable engine and rotary pump.

Now that the steamboat is once more afloat, the supposition prevalent as to cause of her sinking is clearly shown to be correct. In passing the swing boom, just above the locks, she scraped along this boom, from which projected a heavy sharp-pointed iron spike; the immense weight of the boat, carried against the spike by the current, caused it, the spike, to pierce her hull as a nail could be driven through an egg shell.

The plank so pierced now proves to be a perfectly sound piece of wood; had it been a board of sound oak or mahogonee, the spike would have gone through it under similar conditions.

The City of Peterborough is none the worse, excepting requiring a few hours cleaning of the lower deck of the mud and floating debris left during her temporary submersion from the accident, and will at once resume her regular business. On the 15th inst. she will take the excursion, under the auspices of North York Agricultural Society, on advertised trip over the Lift Lock.

Had there been a large excursion on board when the accident occurred, no danger would have threatened the passengers, as the "City" was beached in shallow water long before any danger whatever arose.

Inspection in East Peterborough.

Mr. R. W. Errett, Government Inspector of Weights and Measures, left by the 7.35 C. P. R train last night, on official business, for Havelock. He will inspect the weighing apparatus of the merchants and cheese factories of that portion of East Peterborough which includes Round and Deer Lakes and other outlying districts. The fees collected this year will more than treble the collection of any one year previous to his appointment.

ADVERTISE IN THE TIMES.

Makes 150 Clear Copies

A 20th Century Marvel That was Brought to Peterborough Yesterday.

Mr. A. G. Penman, of Penman & Strang, Toronto, manufacturers of the "P. & S. Dupligraph," was in town yesterday, and made a business call on The Times.

Mr. Penman, is a young man with the strenuous hustler's persuasive ability, and represents an article that must revolutionize office economy and system. He called on a few of our local professional and business men to exhibit and incidentally sell his "Dupligraph."

This is positively a 20th century marvel and supersedes all articles of the same nature as far as gold excels lead. By this wonderful, but absurdly simple, office device, one can, in a very few minutes, make absolute facsimile copies, numbering from one to one hundred and fifty, of any type or pen-written document, from the size of a post card, to any size desired. As the cost is only a fraction of the mimeograph and similar copying machines, both in the initial and subsequent expenses, the dupligraph must appeal to all busy office men.

The Times Bookstore has been appointed agent for Peterborough and vicinity, and will, in a few days, have a complete outfit and samples of this necessary office attachment. Watch for adv. in our columns.

Mr. Cochrane Elected

North Bay, June 13.—Nomination took place at 11 o'clock this morning with Mr. Ferdinand Brunard returning officer. The poll remaining open for an hour and no one else appearing, Mr. Cochrane was declared elected by acclamation.

Jesuit Fathers Sued.

Winnipeg, June 13.—The Jesuit Fathers have been summoned to appear before the St. Boniface Court of Revision for selling candy and soft drinks in the college there. The action is taken by citizens because they do not pay taxes.

Police Court

OFFICIALS
Chief of Police, C.L. Reed
Magistrate, D.W. Dumble

The police court session yesterday morning included only one sad looking Cavan farmer who had celebrated the previous evening by numerous and strong potations. His Worship showed him the folly of taking those many glasses in excess of his natural capacity, and, it being his first offence, allowed him to waft out.

Two ladies yesterday morning brought the Chief a pocket book containg, besides a small sum in silver, a town license for an eating house at 337 1-2 George street, made out in favor of J. D. Mara.

Those of the younger generation of Peterborough's fair sex, whose eyes have lately followed the warlike-looking khaki uniform enclosing, and the smart little whip, held by, Private J. Hubbins, R.C.D., Toronto, will now seek his lately familiar form in vain. Yesterday, by noon train, an escort of the Royal Canadian Dragoons arrived from Toronto and took away George street's pretty soldier on the C. P. R. 5.30 train yesterday afternoon.

We understand the charge will be desertion. Instead of parading the streets of Peterborough, whip in hand, the eyesore of admiring eyes, Hubbins will now, in all probability, be engaged in less heart-breaking occupation, for a few weeks to come.

"WHAT A CRIME"

To Talk Against Coffee.

To an ambitious student an ailment that interferes with school and study is very hard to bear.

A bright young girl in Detroit who has been poisoned by coffee, is now pursuing her studies in perfect health. Probably the coffee champions feel she should have continued to suffer and kept on with the coffee, but now and then there are left-willed creatures who insist on getting well by leaving off coffee, deserting the "tigers ranks" and joining the Postum army.

"From early childhood till a year ago I was in the habit of drinking three or four cups of coffee every day.

"As I grew older, the bad effects began to show themselves, although I had no idea that it was coffee that was doing the mischief. I became very nervous, and suffered so much from severe headaches that I lost much valuable time from my school and studies. The doctor could give me no relief—he probably did not suspect the coffee any more than I did.

"One day I went to visit a friend and the coffee they had on their table tasted so good that I asked what kind it was, and they told me it was Postum Food Coffee. My friend said that her mother had been a nervous wreck from drinking the old kind of coffee, but had been restored to health by quitting it and drinking Postum. The whole family were enthusiastic about Postum and advised me to try it.

"I am glad they did; for it has given me back my health. At first we did not boil it enough and did not like it, but we soon learned how to make it, and now we all prefer it to the old kind. I have discovered that to stir a beaten egg in the warm milk we use instead of cream gives a most delicious flavor to Postum Food Coffee.

"From the first day I began to use Postum Coffee (I quit the old kind altogether) my health began to improve. My headaches ceased on the third day and have never returned, my nervousness has completely disappeared, my brain seems invigorated and strengthened, and I am now able to study from 4 to 5 hours daily, outside of school, and feel no bad effects from it.

"My aunt was sick for five years from coffee poisoning. It was hard work to get her to give up the beverage, but when she did and began to use Postum Food Coffee, she got well almost at once, and is now enjoying fine health."

Ten days' trial proves.

Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Read the little book, "The Road to Wellville" in each pkg.

BY LAW NO.

A By-Law to provide for borrowing a further sum of Fifty Thousand Dollars to pay for the erection and equipment of a Collegiate Institute in the City of Peterborough.

Passed the day of 1905.

WHEREAS By-Law Number 1057 of the Corporation of the Town of Peterborough passed by the Council thereof on the 20th day of May, 1904 after having been submitted to and having received the assent of the duly qualified electors of the Town of Peterborough authorized the borrowing of the sum of fifty thousand dollars, for the purchase of a site and to pay for the erection of a collegiate institute in the town of Peterborough and the said site has been purchased for the sum of ten thousand dollars, but the Board of Education for the said town has represented to the Council that in order to erect and properly equip a suitable collegiate institute a further sum of fifty thousand dollars will be required and has by resolution of the said Board requested the said Council to submit a by-law for the purpose of authorizing the borrowing of such additional sum to the votes of the duly qualified electors of the said town.

AND WHEREAS under the provisions of the High Schools Act the said Council is required to comply with such request and it is therefore necessary for the said Council to pass this by-law to be submitted to the votes of the duly qualified electors of the said Town of Peterborough to authorize the borrowing of the said additional sum of fifty thousand dollars for the purposes aforesaid which is the amount of the debt intended to be created by this by-law.

AND WHEREAS in order to raise the said sum of fifty thousand dollars, it will be necessary to issue the debentures of the Corporation of the City of Peterborough for the said amount as the said town will be incorporated as a city on the 1st day of July, 1905, and before this by-law can be finally passed.

AND WHEREAS the amount of the whole rateable property of the municipality liable for collegiate institute rates according to the last revised assessment roll being for the year 1905, is the sum of five million eight hundred and seventy-four thousand, two hundred and sixty-four dollars ($5,874,264)

AND WHEREAS the amount of the existing debenture debt of the municipality, exclusive of local improvement debts, but including the debt of two hundred and ninety-two thousand dollars ($292,000) incurred for the purchase and improvement of the waterworks system and the amount of the debentures authorized, but not yet issued, is the sum of six hundred and sixty-nine thousand and fifty-six dollars, and eighty-one cents ($669,056.81) and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of two thousand dollars ($2,000) to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this by-law to pay the interest of the said debt and the sum of nine hundred and sixty-eight dollars and sixty cents ($968.60) to be raised annually during the said period as a sinking fund for the payment of the said debt, such last mentioned sum being sufficient with the estimated interest on the investment thereof to discharge the said debt when the same becomes payable, making in all, the sum of two thousand nine hundred and sixty-eight dollars and sixty cents ($2,968.60) to be raised annually as aforesaid by a special rate upon the whole rateable property of the municipality liable for Collegiate Institute rates.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF ENACTS AS FOLLOWS:—

1. This by-law shall take effect on the day of the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of fifty thousand dollars for the purposes aforesaid, and to issue the debentures of the said corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within thirty years after the issue thereof, and to bear interest at the rate of four per centum per annum, payable half-yearly on the thirtieth day of June and the thirty-first day of December in each year, and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the municipality, liable for Collegiate Institute rates, the sum of two thousand dollars ($2,000) for payment of the interest, and the sum of nine hundred and sixty-eight dollars and sixty cents ($968.60) as a sinking fund for the payment of the said debt at the maturity thereof, making together the sum of two thousand nine hundred and sixty-eight dollars and sixty cents ($2,968.60) to be raised annually as aforesaid.

4. The proceeds of the said debentures when sold shall be handed over to the Board of Education for the City of Peterborough to be applied in paying for the erection and equipment of the Collegiate Institute in the Town of Peterborough.

5. The votes of the electors of the Town of Peterborough qualified to vote upon by-laws for creating debts shall be taken upon this by-law on Thursday, the 29th day of June, 1905, commencing at the hour of nine o'clock in the forenoon and closing at the hour of five o'clock in the afternoon of the same day, at the following polling places, and before the following deputy returning officers, respectively, that is to say:—

WARD NO. 1.

Polling Subdivision No. 1—At M. B. Halpin's shop, No. 39 George street; Angus Williams to be Deputy Returning Officer.

Polling Subdivision No. 2—At Lewis Spry's shop, No. 210 Stewart street; Joseph Lundy to be Deputy Returning Officer. Joseph Lundy to be Deputy Returning Officer.

$500 REWARD FOR WOMEN

WHO CANNOT BE CURED.

So uniformly successful has Dr. Pierce's Favorite Prescription proven in all forms of Female Weakness, Prolapsus, or Falling of Womb, and Leucorrhea, that, after over a third of a century's experience in curing the worst cases of these distressing and debilitating ailments, Dr. Pierce now feels fully warranted in offering to pay $500 in cash for any case of these diseases which he cannot cure.

IT STANDS ALONE.—The "Favorite Prescription" stands alone, as the one and only remedy for these distressingly common forms of weakness, possessed of such positively specific curative properties as to warrant its makers in proposing, and binding themselves to forfeit, as we, the undersigned proprietors of that wonderful remedy hereby do, to pay the sum of $500 in legal money of the United States in any case of the above diseases in which after a fair and reasonable trial of our treatment, we fail to cure. No other medicine for the cure of woman's peculiar ailments is backed by such a remarkable guarantee; no other medicine for woman's ills is possessed of the unparalleled curative properties that would warrant its manufacturers in making such an offer; no other remedy has such a record of cures on which to base such a remarkable offer.

Therefore, insist on having Dr. Pierce's Favorite Prescription and turn your back on any unscrupulous dealer who would insult your intelligence by attempting to foist upon you some inferior substitute, under the plea that "it is just as good." Insist on having the article which has a record of a third of a century of cures and which is backed by those willing to forfeit $500 if they cannot cure you.

In cases attended by a leucorrheal drain a solution of Dr. Pierce's Lotion Tablets should be used conjointly with the use of the "Favorite Prescription." They are sold by all druggists, or sent post-paid to any address, on receipt of 25 cents in stamps. Send 50 cents in stamps for Dr. Pierce's Common Sense Medical Adviser. Address WORLD'S DISPENSARY, Buffalo, N. Y.

Weak and sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pellets cure biliousness.

WARD NO. 2.

Polling Subdivision No. 3—At the Town Council Chamber; Richard W. Errett to be Deputy Returning Officer.

Polling Subdivision No. 4—At Greene Bros. store, No. 352 Charlotte street; J. M. Greene to be Deputy Returning Officer.

WARD NO. 3.

Polling Subdivision No. 5—At J. & W. Metheral's shop, No. 464 Aylmer street; Joseph Metheral to be Deputy Returning Officer.

Polling Subdivision No. 6—At Wm. McCall's shop, No. 329 McDonald St.; John Irwin to be Deputy Returning Officer.

WARD NO. 4.

Polling Subdivision No. 7—At Wm. Lee's shop, Smith street; William Lee to be Deputy Returning Officer.

WARD NO. 5.

Polling Subdivision No. 8—At the former village hall, John Malone to be Deputy Returning Officer.

Polling Subdivision No. 9—At Mrs. Swanson's shop Hunter street east; James McDonald to be Deputy Returning Officer.

6. The 30th day of June, 1905, at the hour of twelve o'clock noon, and Town Clerk's Office are hereby fixed as the time when and the place where, the Clerk will sum up the number of votes given for and against the by-law.

7. The 28th day of June, 1905, at the hour of 12 o'clock noon and the office of the Town Clerk are hereby fixed as the time and place for the appointment of persons to attend at the various polling places, and at the final summing up of the votes by the Clerk respectively, on behalf of the persons interested in, and promoting or opposing the passing of the by-law, respectively.

NOTICE

Take notice that the foregoing is a true copy of a proposed by-law which has been taken into consideration and which will be finally passed by the Council of the City of Peterborough (in the event of the assent of the electors being obtained thereto) after one month from the first publication hereof in The Morning Times newspaper, the date of which first publication is the seventh day of June, 1905, and that at the hour, day and place therein fixed for taking the votes of the electors the polls will be held.

S. R. ARMSTRONG
Town Clerk.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 140 — PETERBOROUGH ONTARIO, THURSDAY JUNE 15 1905 — PRICE TWO CENTS

Japs Do Not Seem To Want Peace Yet.

Japanese Propose That Plenipotentiaries Meet in East, Though Russia's ts the Paris Ambassador.

Pekin, June 15.—In German and other circles here the prospects of peace between Japan and Russia are considered remote. It is supposed that Japan intends to inflict a final and crushing blow upon the Russian army of Manchuria before considering any propositions for peace.

JAPAN IS WARY.

Washington, June 15. — Russia's formal response to President Roosevelt's appeal to the Far Eastern belligerents for a cessation of hostilities has been communicated to the Tokio Government by the President. The note written by Count Lamsdorff by direction of Emperor Nicholas, and handed by the Minister of Foreign Affairs to Ambassador Meyer at St. Petersburg, was placed in turn, in the hands of Minister Takahira at Tokio. The President is in hourly expectation that a response may be received from the Japanese Government.

Doubt is expressed in important quarters whether the Russian response is satisfactory to Japan. The Government of the Island Empire is wary of Russia, and has indicated its intention of not sacrificing its dearly fought victories at arms in the conflict of diplomacy which is now being waged.

RUSSIAN STORIES GREAT SEA FIGHT.

Extraordinary Blunders Made By Admiral Rojestvensky.

WERE IGNORANT OF PLANS.

Men Had No Training in Gunnery and Everything was at Sixes and Sevens.

Vladivostock, June 15.—A series of interviews, which a war correspondent has had with naval officers who survived the battle of the Sea of Japan has developed a most sensational story of the causes of the Russian disaster, first of all, and the complete demoralization which followed the sinking of the flagship Kniaz Souvaroff and the wounding of Admiral Rojestvensky. It is explained that not a single officer of the fleet knew the commander-in-chief's plans.

The Admirals of divisions knew no more than the sub-lieutenants and had to rely only on the signals of the flagship.

NO TRAINING IN GUNNERY.

Admiral Nebogatoff, on whom the command developed, had seen Admiral Rojestvensky only once after the juncture of their squadrons, and then only for fifteen minutes. All the stories of target practice in Madagascar, it seems, were false. During the entire voyage there was practically no training in gunnery worth the name, and the big gun practice was confined to three shots per vessel. Ugly stories are told of the happenings at Madagascar. Some of the crews were certainly untrained in gunnery, and exhausted by the eight months' voyage, under trying moral and physical conditions, were no match for the valiant Japanese, whose marksmanship was wonderful.

SKILL OF THE JAPANESE.

The Japanese concentrated their fire on one ship until she was placed out of action and then on another, thus successively sinking the Oslabya, Alexander III. and Kniaz Souvaroff. Some ships developed deplorable structural defects. The Oslabya sank without having a single hole below the water line. Heavy seas entered the vessel above the water line and the water-tight compartments, which were changed several times during the voyage, did not stand the strain they had been calculated to stand 'and burst, flooding and keeling the ship over until she turned turtle.

The lack of homogeniety among the ships made it impossible to manoeuvre in harmony. The Vladimir Monomach, Admiral Oushkoff and Admiral Seniavin laid to lag behind on this account, becoming easy victims. Finally the ammunition was exhausted after the first day's fight.

AN IMPOSSIBLE FORMATION.

Even the very morning of the battle, while the buzzing of the wireless instruments on the Russian ships showed that the Japanese scouts were communicating his dispositions to Admiral Togo Admiral Rojestvensky continued his ceaseless manoeuvering and when the Japanese actually appeared the Russians were caught in an impossible formation and were attacked on three fronts.

Admiral Rojestvensky's position was cramped and his transports were badly placed and caused confusion. While the Japanese were raining projectiles even from machine guns on the Russian ships, the latter were huddled together, blanketing each other's fire. Only the leaders of the columns could bring their guns to bear, and even those the untrained gunners fired wildly. To render matters worse the mines and floating torpedoes sown in the paths of the Russian divisions added to the confusion. The Borodino, Admiral Nakhimoff, and Navarin fell victims to these obstructions.

WHERE THE FAULT LAY.

It is a heartrending narrative that Russia and the world should know. The sailors and officers were not altogether to blame. The main fault lies elsewhere. There were many heroes among the Russians. Captain Berlk, of the Oslabya, committed suicide on her bridge as the ship sank, rather than save himself. There were thousands of other heroes whose names the world will never know.

RECENT SKIRMISHING.

Tokio, June 15.—Official announcement is made at the headquarters of the Imperial army that a detachment of Japanese cavalry succeeded in dislodging Russian cavalry in the vicinity of Hsi-Ying-Tau, six miles south of Loyngwopeng. Hsiling Ling, two miles south-west of Hsi Ying-Tau, was occupied.

Another force defeated the Russians near Siaochengtsu, 18 miles north of Kangping, and Kaochiawopeng.

Two miles northeast of Siaocheutau, an eminence was occupied north of Siapitang, two miles east of Kaochiawopeng, and ten miles west of Liaoyangwopeng.

RUSSIAN SHIP GOING HOME

London, June 15.—Lloyds' agent at Singapore, says that the steamship Sea Lion reports passing a Russian volunteer cruiser in the Straits of Malacca on Saturday. She was on her way home.

Associated Press.

Vladivostock, June 15.—A series of interviews which the correspondent of the Associated Press has had with naval officers who survived the battle of the Sea of Japan has developed a most sensational story of the causes of the Russian disaster first of all, and the complete demoralization which followed the sinking of the flagship Kniaz Souvaroff and the wounding of Admiral Rojestvensky.

It is explained that not a single officer of the fleet knew the commander-in-chief's plans. The admirals in command of divisions knew no more than the sublieutenants, and had to rely only on the signals of the flagship. Admiral Nebogatoff, upon whom the command devolved, had seen Rojestvensky only once after the juncture of their squadrons, and then only for fifteen minutes.

HAD NO TARGARET PRACTICE.

All the stories of extensive target practice in Madagascar, it seems, were false. During the entire voyage there practically was no training in gunnery worthy of the name, and the big-gun practice was confined to three shots per vessel. Ugly stories are told of the happenings at Madagascar. Some of the crews were certainly untrained in gunnery, and exhausted by the eight months' voyage under trying moral and physical conditions, were no match for the valiant Japanese, whose marksmanship was marvellous.

The Japanese concentrated their fire on one ship until she was placed out of action, and then on another, thus successively sinking the Oslyaba, Alexander III. and Kniaz Fouyaroff.

Some ships developed deplorable structural defects. The Oslyabya sank without having a single hole below the water line. Heavy seas entered the vessel above the water line, and the water-tight compartments, which changed several times during the voyage, did not stand the strain they had been calculated to stand and burst, flooding and keeling the vessel over until she turned turtle.

MYSTERIOUS ELECTRICITY.

Strange Effect of Alternating Currents Discovered.

Buffalo, June 15.—Dr. Frederick H. Millener of Buffalo read a paper today before the Medical Society of Erie county on "The pernicious effects of alternating currents of high voltage," in which he presented the results of careful study and investigation of nineteen cases in the different power-houses in the Niagara frontier. These cases demonstrated that continued employment in the immediate presence of high voltage alternating in current generating or transforming machines uniformly results in grave disturbances to the digestive organs, loss of appetite, dizziness after eating, whitening of the complexion to almost the color of chalk.

Dr. Millener's paper frankly stated the facts as constituting a new problem for the medical profession to solve. He believes the cause to be the chemical influence of either well recognized electric rays, or of some ray as yet unknown.

Union Blackmailers

Several Chicago Labour Union Leaders in Trouble.

Chicago, June 15.—With the empanelling of the June grand jury, which will investigate the many scandals involving well-known labor leaders, the state yesterday placed John C. Driscoll, former secretary of the Team Owners' Association, under detective surveillance until such time as the evidence connecting the labor chiefs with an alleged blackmailing conspiracy could be clinched.

At the same time Blanche Morgan, an inmate of a resort at 2317 Indiana avenue, known as "The Kentucky House," was taken in charge by the police, and when interviewed last night by Assistant State's Attorney Fake and Inspector Lavin at the resort she is said to have made revelations which may lead to more startling developments before the grand jury than have been predicted. It was in this resort that the labor leaders met, and there, it is said, they divided the proceeds of blackmail levied on Chicago employers.

THE CZAR MUST CRY "ENOUGH."

Before Japan Lets Big Adversary Get Up.

London, June 15.—The Japanese press unanimously deprecates an armistic pending conclusive proofs of the sincerety of Russia's desire for peace," says the Tokio correspondents of the Times in a special cable today. "Inasmuch as the war party at St. Petersburg may at any moment resumet its influence, the press insists that since Japan was most reluctantly forced to draw the sword she must spare no precaution to guarantee posterity against a similar calamity."

It is pointed out that Russia during the past two centuries has learned to regard its aggressive expansion as the destiny of the empire, and her extraordinary freedom from disastrous obstacles has engendered the belief in its conquering mission. It is impossible to suppose that such a deep-seated conviction can be eradicated by one setback, especially since Japan's victories have been largely due to the strategical difficulties of Russia's situation which will probably never recur. Therefore, after a lapse of two or three decades, Russia will assuredly obey again the dictates of her ambition, which are now only temporarily checked. Against this contingency full precautions must now be taken, so far as its concerns the far east, by imposing terms which will constitute an effective guarantee. Concerning the nature of the terms no definite declaration is made.

The torpedo mines carried by the sunken Russian warships are now floating up and constitute a grave danger to navigation in the Japan Sea.

Indianapolis, June 15.—Charles Denby, foreign adviser to the Chinese Government, arrived here today, and in an interview put a new light on China's attitude.

"While the sympathies of the Chinese are avowedly with Japan," he said, "naturally the Chinese would prefer that neither power gain such a decisive victory as Japan has secured. They naturally would prefer that the parties to the contest be more evenly matched, so that the war should be exhaustive, and neither party should be strong at the close."

Mr. Denby said China had not forgotten her defeat ten years ago at the hands of the Japanese, and naturally the Chinese did not enjoy seeing Japan become a still more dominant factor in the far east.

'China would like to have some kind of international tribunal convene," said Mr. Denby, "and take up many questions that have arisen about Chinese territory. She would like to see a revision of contracts entered into in the last ten years, but I have little hope that a revision could be brought about."

JEWS SHOT DOWN IN POLISH RUSSIA

Anti Semetic Outbreak in the Town of Brostlitovsk

MANY PEOPLE MURDERED

Russia to Make Experiment in Parliamentarism—Muzzling the Newspapers

Warsaw, Russian Poland, June 15.—A serious anti-Jewish riot has taken place in the town of Brostlitovsky. A whole street of shops in the Jewish quarter has been wrecked. Troops fired volleys into the rioters, killing 24 and wounding 38, most of whom were Jews. Soldiers are patrolling the streets to prevent people from entering the ruins of Jewish houses. The Jews used revolvers in self-defence.

A LEGISLATIVE EXPERIMENT.

St. Petersburg, June 15. — The Russian experiment in Parliamentarism will begin in September. A positive announcement to this effect can now be made. The Emperor has already given his approval to the scheme now being finally, but formally reviewed by the Council of State for a bi-cameral legislative body, consisting of a lower house called the "Gosudaratvennaia Duma" "Imperial Duma," and an upper house, "Gosudaratvennaia Sovet," or the present Council of the Empire, with power to formulate legislation, discuss the budget, interpellate ministers, etc., but reserving in the Emperor's own hands the final authority. The elections will take place during the coming summer.

BEGINNING OF THE END.

Although the scheme clings with desperation to the essence of autocracy it marks the beginning of the end. The die once cast there can be no retreat and the quasi-parliamentary regime which will be inaugurated will prove to be only a transitory bridge over which absolutism must cross to constitutionalism. Peace and a constitution appear simultaneously on the Russian horizon. The proclamation of the Parliament either in the form of a manifesto or as a ukase will be promulgated within a few days.

THE RUSSIAN CENSORSHIP.

St. Petersburg, June 15. — The censorship, at the instance of the Council of Ministers, has issued a blanket order forbidding newspapers to mention or publish the proceedings of any congress or meeting held without the permission of the Government. This step was advised by General Trepoff, who, though Assistant Minister of the Interior, was sealed in the Council of Ministers, as precaution against a flood of more radical addresses which the action of the all-Russian Zemstvo Congress at Moscow is expected to inspire.

TO SEE THE CZAR.

The deputation from the All-Russian Zemstvo Congress, which has brought an address from the Congress, which has brought an address from the Congress for presentation to the Emperor, will be received by his Majesty Wednesday.

Will Help Canada

An Organization Formed to Boom Canada, and Give Practical Advice to Immigrants

The Times is in receipt of a most interesting circular from the "Canada General Service and Colonization Co.," with headquarters in Montreal. The aim of this institution, which will shortly be incorporated under a Dominion charter, is by establishing a large headquarters in New York, to thoroughly and in practical manner, advertise the advantages to be gained, by immigrants, more particularly those from the British Isles, in choosing Canada, in preference to the United States, as their best permanent location.

The company will secure consent of the British steamship companies to place, in their vessels such literature and notices as must attract attention of intending settlers on this continent to the New York Canadian Headquarters.

The offices of the company in New York will not only be well furnished with samples of all the best that Canada produces, arranged according to geographical subdivisions, but will furnish Canadian newspapers, reading and writing rooms, together with a private post office for use of immigrants Agents and correspondents of the company will be established in most large American cities who will look not only after Canadian settlers, but after Canadian business in general.

As thousands of British immigrants, and desireable settlers for some other countries, are induced to settle permanently in the United States, mainly from the hitherto badly wanted presence of just such a place where they can be furnished with reliable information about this country, the proposed organization cannot but tend greatly towards developing our resources, by the importation of much needed settlers. The idea is a good one and should be fostered in every way.

Three Little Girls to Save London

Welsh Maidens Carry Evan Roberts' Evangelistic Campaign to the Metropolis

London, June 15.—Evan Roberts, the Welsh revivalist, has announced his intention of coming to London in the autumn. The actual date has not yet been fixed, but he will probably be here some time in September.

Meanwhile three little Welsh girls, still in their teens, Miss Maggie Davies, Miss Mary Davies and Miss Annie Jones, are here. They announce that they have come to pave the way for him. They were closely associated with Roberts in the recent eruption of religious fervor in Wales. Maggie was the sweet singer of the Welsh revival. Mary was one of his first converts and all three are his chosen apostles and friends. The three little maids wear black picture hats and bright summer blouses, and incredible though it may seem, the girls have gained a strange power over the audiences in South and East London, which they have been asked to address by the Welsh clergymen of London.

Similarly as a matter of course they tell inquirers that they have come to save London, and that for this they have left home and friends. Though this is the first time any of the girls have been away from home, they do not appear to wish to do any sight-seeing, and a visit to the Torrey-Alexander mission is the only relaxation they will permit themselves.

During their short stay in London converts have poured in thick and fast as a result of the girls' appeal. "There seems to be a fire about the Welsh in London, even greater than in Wales," explained Mary Davies. "We have had meetings in London filled with the real fire, fifty people praying at the same time for their salvation.

"Yes," Mary went on, "sometimes we feel very homesick and lonely. I have left my father and mother and brothers in Wales, but I cannot rest at home, I must go on doing the work I have been called upon to do."

English Princess Wedding to Swede

She Will be United to Prince Gustavus Adolphus Thursday

London, June 14.—According to the present arrangements the marriage of the Princess Margaret of Connaught with the Prince Gustavus Adolphus of Sweden will be solemnized in St. George's chapel, Windsor castle, to-morrow, June 15, and the prince and princess are to spend a part of their honeymoon in Ireland. The last wedding that took place in St. George's was that of Princess Alice of Albany, with Prince Alexander of Teck.

The Duke of Connaught's daughters, the Princess Margaret and Princess Victoria, are among the few members of the royal family who go out unattended. Their unconventional ways have made them very popular with the people of London and in the children's hospitals the little patients have good cause to remember the visits of the two princesses.

Real Estate Purchased

Mr. P. Hogan, of Albion Hotel, Purchases Property in Fifth Ward.

Mr. Patrick Hogan, mine host of the Albion Hotel, Fifth Ward, yesterday completed a real estate deal by which he has become owner of that fine property situated at the corner of Douro and Mark streets, Fifth Ward.

The transaction was carried through by the well known real estate firm of O'Connell & Co., the price being in the neighborhood of $2,000. This property consists of 156 feet on Douro street by 100 feet on Mark street.

The property consists of three adjoining lots, on which are a well constructed brick, two story residence, with sheds and outhouses, and is supplied with both hard and soft water of good quality.

Turgeon Recaptured

Quebec, June 15.—Word comes from Three Rivers that the young man, Arthur Turgeon, who jumped from the C.P.R. train on Saturday, has been recaptured at that place and was yesterday removed in safety to the penitentiary.

Municipal Electric Lighting

Ottawa, June 15.—Mr. Peter Hall, Canadian commercial agent in Leeds, England, in his latest report, calls attention to the fact that the municipal electric lighting plant there showed total earnings last year of $422,080, of which $280,280, represented profit.

After the Tramp Fraternity

Toronto, June 15.—Provincial Detective Rowe is now on the rampage after the tramp fraternity, and who never he comes across them will give them an interesting time. Their depredations have become abnormally large during the past few weeks, and the authorities intend to put a stop to it.

Fight Will Go On In the Northwest.

Mr. Haultain Will Not Give Up the Struggle for Provincial Rights--Mr. Haultain will Continue the Fight with Splendid Chances of Final Victory.

Calgary, June 15.—Intense interest was manifested in the result of the Ontario elections in Calgary. Opposition to the Autonomy Bill is crystalizing in this section. Mr. R. B. Bennett has given notice of a mass meeting on Saturday night to prepare for the organization in Alberta of a Provincial Rights party to oppose the Liberals.

Winnipeg, June 15. — Groups of citizens gathered around the bulletin boards last night to learn the result of the elections. The feeling was that Mr. Hyman's election was almost certain, bearing in mind the potent influence of a Cabinet Minister in the average constituency. It was felt that North Oxford did very well in getting down the huge majority recorded at the general election. The Tribune draws attention to what happened in Haldimand in 1895, when Hon. Clifford Sifton stumped the riding against the coercion of Manitoba. Dr. Montague was returned by a largely increased majority, but Manitoba did not give up the struggle, and the prediction is made that Mr. Haultain will continue the fight with splendid chances of final victory.

DISSENSION IN AUSTRO-HUNGARY

Another European Dual Empire With Difficulties to Be Settled

THE WORD OF COMMAND

Crown Declines to let Hungarian Tongue Rule in Army

Vienna, June 14.—The bone of contention in the Austro-Hungarian crisis when everything is said and done and when all things have been simmered down, seems to be the "word of command" in the Hungarian army. To all intents and purposes the crown practically says to the coalition leaders:

"Take office and do what you like in Hungary, but drop your demand for the Hungarian language of command in the Hungarian part of the army which cannot and will not be granted, shelve your ideas of customs separation for another ten years at least, and vote the men and the money needed for the army and navy."

Some of the coalition leaders look with disfavor upon this proposal. The coalition leaders are practically the leaders of the extreme doctrines which they themselves have preached to the crowd, and even those deputies who are learning to be wise in time stand in awe of others to whom wisdom and national welfare are secondary considerations.

The outlines of Baron Burian's mission to the Hungarian coalition leaders are becoming perceptible. He has had considerable intercourse with prominent coalition deputies, including M. Kossuth.

Leaving military considerations out of the question in the matter of customs separation the royal commissioner is understood to represent the well-known view of the crown that separation may be effected at some future date providing that in the meantime the economic compact concluded by M. De Szell and Dr. Von Korber on December 31, 1902, be ratified and that the commercial treaties based thereupon be accepted by the Hungarian parliament without modification. In all Hungarian parliament internal affairs an eventual coalition will be promised an entirely free hand except in matters which concern the army.

Despite the friction and the possibilities for friction which are constantly and continually springing up there are powerful forces and factors which make for the peace of southeastern Europe. To say nothing of the emperor, who has long been one of the mainstays of European peace there is Count Agenor Goluchowski, the tenth anniversary of whose accession to the head of the Austro-Hungarian foreign office has just been celebrated. Count Goluchowski and his imperial and royal master have one leading trait in common—that of seeking peace and promoting concord whenever and wherever opportunity offers. The Austro-Russian agreement of 1897, of which the work of reform in Macedonia and the maintenance of peace in the Balkans are direct consequences, the Austrio-Italian understanding concerning Albania; the broad reading of the triple alliance, and the demonstration that its existence is compatible with good relations towards other countries, and the successful preservation of the position of Austro-Hungary as a great power in spite of internal troubles and dissensions, are fruits of the harmonious collaboration of the Emperor Francis Joseph and his foremost adviser. A temperamental reluctance to take things tragically until proof of their tragic nature is forthcoming is perhaps the foremost characteristic of Count Goluchowski, who, however, is quite capable of emitting an audible growl when the sultan or the Balkan provinces err from the path of wisdom.

Another power which makes for peace is Signor Tittoni, the Italian foreign minister who enjoys in Austro-Hungary the reputation of being a man who speaks clearly and frankly and who means what he says. The semi-official "Fremdenblatt" says of Signor Tittoni's recent speeches: "Like his previous declarations they give the impression that the management of Italian foreign affairs lies in sure and steady hands, the hands of a man of far sight and calm judgment. His speech in the chamber is at the same time a new proof that even beyond the frontiers of Italy there is good cause to regard the policy of the Italian government with the confidence which sincere love of peace, loyal sentiments and constancy inspire."

The Adjourned Inquest

Inquest on the Late Fred Hudson Resumed Last Night.

Last night, with Coroner Dr. Gray in the chair, County Crown Attorney Wood, examining witnesses, and Mr. Dennistoun, McCauliffe's counsel, present, the adjourned inquest on death of late Fred Hudson, was continued. The jury occupied the inside seats, and quite a large audience listened attentively.

The first witness was Philip Mahoney, bartender at the hotel where the alleged assault, on June 1st was made. Mahoney's evidence, condensed, practically was that, Hudson and P. McCauliffe's brother had an argument in the bar; McCauliffe interfered and got into a scuffle with Hudson, co-partner in the hotel. They had separated, but the fuss began again between McCauliffe, now a prisoner. McCauliffe (P.) came into the bar a second time and ordered drinks for himself and Hudson. Hudson came in and said to a Havelock man, in the bar, "I wish you had been with me, they were all piling onto me." Hudson told McCauliffe (the prisoner) to throw up his maulies (hands) when McCauliffe began backing towards the door. Witness saw Hudson fall but saw no implement in McCauliffe's hands. No one else close to the two men. When Hudson fell, McCauliffe's back was towards the door. Could not see McCauliffe's actions closely, the bar being high, and he behind it. After the affair was over hunted for the possible implement, but found nothing. The only implement McCauliffe could have used, that might have been supplied in the bar, were some salt casters, etc., on the bar; did not see him take any of them.

Next morning found a stone, the size of fist, under the ice box, behind the bar, when sweeping; the stone he threw out on the street, without noticing any blood or other stains upon it. Does not know how the stone got there.

In answer to a question put by one of the jurors, and also by the coroner, Mahoney said, in his opinion it was possible, that some one in the street might have thrown a stone and struck the deadly blow, over McCauliffe's shoulder.

Mr. Manley Cole, of Havelock, was next witness. Mr. Cole complained when, previous to his examination, it was explained that, although he had to lose his time and travel thirty or forty miles, he would be allowed no expense.

His evidence was somewhat similar to that of first witness. He tells, however, decisively, that McCauliffe in his plain sight, just before Hudson fell, came towards Hudson with his hands behind him, under his coat tails, as though trying to conceal something, and suddenly struck Hudson with something in his (McCauliffe's) hand. Did not see what it was, but looked like a three-cornered lump of something, about the size of a closed fist. The thing, whatever it was, just after the blow was struck, flew out of McCauliffe's hand on the bar, and he did not again see it.

The remainder of last night's inquest will appear in tomorrow's issue.

The coroner's jury will not arrive at a decision for some days yet, as the Provincial Analyst yesterday telegraphed that it would be several days before he could have the blood analysis completed.

Great Game To-day

Everything points for a great game this afternoon when the locals meet the fast Talagons of Newmarket, on the Riverside Park at 2.30. The locals will be represented by a strong line-up, and the spectators will witness lacrosse as it should be played. George Lynch will handle the whistle and that will suffice to say that both teams will have to play ball. The visitors will be accompanied by about 500 supporters. Following will be the line-up;

Goal—Boyle.
Point—Dillon.
Cover Point—Morgan.
Defence—Meagher, Crowley, Ford.
Centre—McGrath.
Home—Edwards, McCabe, Glover.
Outside Home—Cavanagh.
Inside Home—Judd.

A Generous Jury.

Montreal, June 15.—A jury in a civil process here to-day showed a large heart. The case was a suit entered in behalf of the widow of Antonio Trimbull, formerly a carter employed by the Dominion Transport Company, to recover $10,000 damages from that company owing to the death of her husband while on duty. The judge strictly defined the merits of the suit, so that the jury could only allow $600 for the widow and $250 for the child, but the twelve men pooled their indemnity of one dollar a day, and added that amount to the sum obtained through the court.

A Beautiful Woman

Cannot remain beautiful and drink

Coffee

In most cases it tends to conjest the liver. Then comes nervousness, sallow skin, stomach troubles and a variety of aches and ails directly caused by COFFEE. This is true in man as well as woman.

Health is a

Divine Gift

almost ready for us and produces more pleasure than any other one thing. To throw it away for a few cups of Coffee is an exceedingly bad move

It's easy to quit when one can have well-made

POSTUM

and the relief from aches and ails is quick.

10 days' trial is worth while.

A Death From Heart Disease

Overtake those Who Neglect Their Weak Hear and Tired Nerves.

FERROZONE

Is the One Sure Heart Tonic That Always Cures

An attack is liable to come at any time from over-exertion, excitement or emotion.

If blood rushes to your head and palpitation and shortness of breath are noticeable, there's great cause for alarm.

A. P. Beattie, of the Allen Hotel, Bay City, Mich., was cured of heart disease by Ferrozone. See if your case is similar to this;

THE SYMPTOMS:

Nervousness	Palpitation
Trembling	Dizziness
Sinking Feeling	Heart Pains
Short Breath	Weakness

Mr. Beattie says;

"I was weak and miserable.

"I was a subject to heart palpitation and dizziness.

"As I grew worse I began to have trembling and sinking sensations.

"Ferrozone strengthened my heart, gave vigor to my nerves, soon made me well. It's a great builder."

The one medicine for the people with weak heart and poor nerves is Ferrozone, 50c. a box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, JUNE 15, 1905

THE MODERN TYPE OF REVOLUTION

In many ways the Scandinavian countries represent the highest type of modern civilization. It is a far cry from the Vikings who put a girdle of blood and fire around Europe from the North to the Black sea to the students and statesmen who are settling the destinies of two nations as calmly as one works out a problem of mathematics. But the modern sanity is witness of the same vigor of national character as the ancient fury. Civilization has turned talent for war into talent for government.

The peace and prosperity of Scandinavia confirm the testimony of contemporary history that these nations possess in high degree the Teutonic genius for political organization. No countries of Europe have better local government or wiser foreign policy. They have maintained a difficult dual monarchy for near a century with a tact and reasonableness that puts to shame South German pretensions to higher civilization.

Now they are dissolving that relation with a common sense and mutual toleration that Austria-Hungary would do well to imitate when the long reign of Francis Joseph shall come to an end. The calm reason of this revolution shines by contrast with the bloody convulsion that impends for Russia. Indeed England has only lately learned to carry on her age-long conflict of racial temperaments with Ireland in this temperate and rational spirit.

To those who are accustomed to connect revolutions with blood and violence, the Scandinavian separation is almost comic in its good-natured temperance. It recalls in one way the bloodless assault of Manila, arranged to save Spanish honor, and the conquest of Porto Rico by Gen. Miles' picnic party. The King vetoes the consular bill. The ministry resigns. The storthing declares that there is no government and names a provisional ministry.

The King sends a formal protest, but Sweden gives thoughtful notice that no violence is contemplated. The storthing will elect a king like the English parliament in 1688, he will form a government, and the revolution will be complete with less disorder than attends an American labor strike.

A novel feature is that much of this serious business of revolution was done by telegraph as Port Rican towns were surrendered by telephone. Modern invention has surely done its part, as well as modern reason and humanity, to strip political revolutionists of their ancient terrors.

DUTTON'S MARKET,

Hecker's Hominy, per pckg 20c

R. A. DUTTON
Phone 264. 418-420 George street.

Slopeville, Douro

Mr. Fred Walsh spent Sunday with friends in Keene.

Mr. John Crowe was the guest of Miss Maggie Sullivan.

Mr. Thos. Barry was the guest of Frank Marquis, last Sunday.

The frequent showers give promise of good crops in this district.

Messrs. Jos. Mober and Jas. Tobin were visiting friends in Flynville last week.

Miss Molly Hayes has returned to Peterborough after spending a week at her home, "The Pines."

The many friends of Mr. James Leahy, will be pleased to hear that he is recovering from his recent illness.

The contract for the new Gorman residence on Main street, has been let to Mr. Jas. Harry, for the sum of $2,925.50.

Mr. Arthur Carveth has made final arrangements for the construction of the telephone line from Douro to Indian River. Arthur claims this will be a great convenience and save him many long walks to the school No. 7.

What has caused much excitement in the village during the past week was the rumor that Anvil McCann, Past Grand officer of the Lime Juice Club, has called upon John McBride Condon to resign as local president of that famous order. Anvil would not give his reason for such action but it is thought that it is owing to McBride's intention of joining the wedlock ranks.

The annual picnic is billed for Thursday, June 22nd, and is to be held in King Edward Grove. The committee in charge are endeavoring to have this the most successful ever held in Douro. The spot is an ideal one for the purpose, and large crowds are expected from Peterborough, Enismore and surrounding country.

Mr. Wm. Hayes spent Sunday evening the guest of Miss A. Moloney.

Owing to the inclement weather on Sunday, Messrs. Robt. Barry and Jas. Allen were unable to fill their engagement with their friends in Hastings.

Read Before Friday

Those Who Will Fish This Month Advised to Read This Article

The Times has been requested to publish the regulations issued by the Fisheries Department, which affect game fish caught in these waters.

As bass and maskinonge fishing are legal on the 16th of this month, and as many of our readers are disciples of the lamented Isaac Walton, we comply.

The regulations are as follows;

No one shall fish for, catch or kill, in any of the waters of the Province, on one day by angling, or shall carry away a greater number than eight small or large-mouthed black bass, four maskinonge, twelve pickerel (dore), or four lake trout.

No one shall fish for, catch or kill, in any of the waters of the Province, on one day by angling, or shall carry away a greater number of speckled trout or brook trout than in the aggregate shall weigh more than ten pounds, and no greater number than thirty, though said number weigh less than ten pounds.

No small or large-mouthed black bass less than ten inches in length, no speckled trout less than six inches in length, no pickerel (dore) less than fifteen inches in length, or no maskinonge less than thirty inches in length, shall be retained or kept out of the water, sold, offered or exposed for sale or had in possession; but anyone who takes or catches any of the fish mentioned of less than the minimum measurement named—which measurement shall be from the point of the nose to the centre of the tail—shall immediately return such fish to the water from which it was taken, alive and uninjured.

The sale and export of speckled trout, black bass and maskinonge is hereby prohibited for a period of five years from the date of the Order-in-Council, provided, however, that any person from a foreign country fishing in the waters of the Province, and applying and paying for an Angler's permit, may, upon leaving the Province, when the same are accompanied by him, take with him the lawful catch of two days' fishing.

Whilst we never advocate lawbreaking in any degree, we fear there will be considerable lawstraining over the absurd restrictions as to length of maskinonge it will be legal to retain. We greatly fear that fishermen with tender consciences as to the law will take an elastic tape measure to ascertain whether their take will go the necessary 30 inches: it is unreasonable to suppose that any man will, unless he expects to meet an inspector, throw overboard a 29 1-2 inch maskinonge weighing probably four or five pounds. The law is a farce and made to protect a few millionaire American sportsmen, who rent Canadian waters.

Just the Time to Visit New York.

Lehigh Valley Railroad special 15-day excursion, Friday, June 16th. Tickets only $9.00 from Suspension Bridge to New York and return. Tickets good on regular express trains leaving Suspension Bridge on June 16th at 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. For tickets, sleeping car berths, apply at station ticket office, Suspension Bridge, or of Robt. S. Lewis, Canadian Passenger Agent, 10 King street east, Toronto.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township

A settler who avails himself of the provisions of clause (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. The stock is selling at 18 cents a share. It will be paying a profit in one year of less than 25 per cent. on capitalization, which will mean a value of the stock $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ore as far as developed is $54 a ton, which does not include numerous small veins running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes nine mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

A WORLD-WIDE PEACE CLUB

Former President of British Chamber of Commerce is Organizing the F. I. G.

UNION OF PEACE SOCIETIES

Movement on Foot to Make War Next to Impossbile

London, June 14.—Sir Thomas Barclay, formerly president of the British chamber of commerce in Paris, whose work in connection with the Anglo-French agreement is well known, is busily engaged in organizing an international brotherhood which is to be known as the F. I. G.

These letters stand for the Latin words fraternitas inter gentes — brotherhood among peoples. The object of the brotherhood, Sir Thomas explains in an interview, is to establish an association of citizens of such strength that when an international conflict is threatened they can bring enormous pressure to bear on their several governments.

"It must not be supposed," said Sir Thomas, "that the F. I. G. is to be a sentimental society. It will be militant and absolutely nonpolitical. We have already enrolled 90,000 members in France alone, and they are all electors, so that you will understand that when we have occasion to use our power in favor of peace we shall have the means of doing it.

"We intend during the next few weeks to approach all the existing peace and arbitration societies in England, France, Germany and the United States with the object of persuading them to join forces with us. If we succeed in this we shall number from the start almost a million members.

"There will be no subscription to the society. All that members will have to pay will be one shilling, for which they will receive the badge of the brotherhood—a blue and gilt enamel button inscribed with the letters F.I.G. There will be a sufficient balance between the cost of this badge and the shilling that the members pay for it to leave us with a working capital for the prosecution of the movement.

"The only undertaking a member will have to enter into is to pledge himself to do what he can to promote good will and friendly feeling between men of his own nation and those of other countries. The affairs of the brotherhood will be managed in each country by a president and a number of other officials and a committee, all elected for five years.

"They will appoint local committees in all towns as the movement grows, and as soon as possible there will be an international council, composed of delegates from each country, elected in proportion to the number of members of their particular nationality."

VACCINATION COMPULSORY

14th Field Battery Men Must be Vaccinated or Stay Home

The following orders have been issued by Lt. Col. MacNachtan, of Cobourg, commanding the 14th Midland Field Battery:

Militia Orders 123 — "Owing to the existence of small-pox in certain parts of the Dominion and more especially in Ontario districts, none but individuals who have good vaccination marks or who can show evidence of having had small-pox, will be permitted to go into or remain at camp. A strict medical examination will be held on arrival of corps in camp. Officers commanding units will be held accountable for the return to their homes of individuals found not vaccinated."

In accordance with the above order any men who cannot pass the above inspection will be returned at their own expense.

Clothing. — The chevrons (N. C. O. stripes) issued are the property of the Government and not of the individual, and must not be removed from the uniform. New issue of same must be produced or value of same will be charged to the N. C. O. who fails to return them with his uniform.

Leave of Absence. — Leave of absence is granted to Sergeant Major Scollie from annual drill.

Acting Appointment. — Sergeant Ross to be Acting Sergeant Major until further orders.

Messing. — Arrangements will be made so that the officers will mess with one of the corps in camp, at a rate which will not exceed $1.00 per day.

Arrangements will also be made for sergeants' mess, which average about 25 cents each per day.

W. C. ACKERMAN,
Capt. and Adjt.

THEY DISLIKE KITCHENER

Begins a Campaign of Criticism of the British Commander in Viceroyalty

London, June 14.—A strong press campaign is being waged in India against Lord Kitchener. The Civil and Military Gazette, published at Lahore, takes the opportunity presented even by the fund he is raising for the sufferers from the great earthquake among the Gurkha soldiers to make an indirect attack upon him.

The journal states, says an Exchange telegram, that Lord Kitchener's appeal for funds is based on an extraordinary mistake, as the general fund embraces both military and civilians, and adds that it is believed that the Kitchener fund will be immediately withdrawn.

But, as a matter of fact, Lord Curzon, the Viceroy of India, showed his approval of Lord Kitchener's appeal by subscribing $500 to it.

DEAD IN HOLY WATER FONT

Dead Baby was Found in St. Peter's Church

Montreal, June 15.—Yesterday afternoon the body of a girl baby was found in one of the holy water fonts in St. Peter's church, corner of Dorchester and Visitation streets. Coroner McMahon ordered the remains to be taken to the morgue where the medical experts will make an autopsy to ascertain the cause of death. There are no exterior marks of violence found on the body, but the face, which was very dark, showed signs of strangulation. Captain Bellefleur, of the Craig and Gain street police station, in whose district the church is located, is at work on the case. The matter has also been reported to the Detective Department, and an effort will be made to ascertain who placed the body of the child in the church. Coroner McMahon said yesterday that he would not hold the inquest until the mystery was unravelled.

KING'S COME HIGH

Kaiser is Criticised for His Extravagance

Berlin, June 14.—The Kaiser's lavish extravagance in his constant royal tours is causing serious criticism. His civil list, thought the largest in Europe next to that of the Czar, is quite insufficient to cover his expenditure, and the matter has been brought to a head by the intimation that he was unable to make any provision for the Crown Prince's married household.

During his repeated absences from the capital important state business is suspended, owing to his autocratic taste for having a finger in every pie, and the withdrawal of all responsibility in large affairs from his Ministers. Then his health is undoubtedly suffering from the perpetual rushing around; his nervous system is overwrought, and his temper is becoming intolerable.

Accused of Stealing Bars of Gold

Naples, June 15.—On the arrival of the steamship Italia, from New York, on Saturday, the police arrested, at the request of the American consul, Dominico Campoli, who is accused of stealing two bars of gold, worth $12,000, the property of the S. S. White Dental Manufacturing Co., of Philadelphia. The bars were found among his baggage.

FREE

History and Production of the Goldfields of Boulder County, Colorado, Portraying Economic Conditions Which Predict the Coming Goldfields of Colorado and Presenting the Stock Offering of a Great Gold Mining Enterprise of the United States Gold Corporation

FREE

Our booklet on the gold fields of Boulder County is off the press, and is being distributed free to investors. We have prepared this book to advertise the gold fields of Northern Colorado and our great gold mining enterprise. The books will be free for the asking while they last. It will tell you of how over fifty millions have been added to the world's wealth in production of gold, silver and copper under primitive methods and from surface workings of an average depth of not to exceed 250 feet. It will tell you of its great tungsten belt, the largest in the world. It will tell you of the existence of a diversity of precious and rare minerals, unrivaled by any other gold fields on this continent. It will tell you of a mineral area of twenty-five square miles literally covered with a network of veins, practically undeveloped, with only one shaft below the thousand foot and half a dozen below the six hundred foot level. It will tell you of a gold field nearer to the Denver smelters than any other in Colorado; of a change of economic conditions, in this section, which will enable the miner to ship ore to the smelters, at a net profit, that is now being thrown over the dumps in other sections of Colorado; it will tell you of a field so attractive that it resulted in the construction of two railways from one end of the field to the other. It will tell you of the substitution of modern and up-to-date mining methods, in place of the primitive ones of the past; in short, it will tell you of all those conditions which predict for the gold fields of Boulder County the coming gold fields of Colorado.

It will also tell you of our great gold mining enterprise in the western part of the gold fields of Boulder County, near the continental divide, where nature has deposited her largest and richest treasure vaults; it will tell you of our economic development tunnel, driven to drain and develop a mineral estate almost a mile long and half a mile wide; of the thousands of tons of gold ore now blocked out and ready for shipment in the five different veins cut by this tunnel in driving it eight hundred feet, the result of two years' steady development work night and day; of our wonderful discovery of molybdenits—a rare metal—in large commercial quantities, foretelling for us the first molybdenite mine in Colorado that is producing, as well as a large and permanent source of revenue, of our project to drive this tunnel, long before the end of this year, into the famous Fourth of July dyke or "Mother Lode," from which the far famed Caribou group of mines produced twenty million dollars in gold, silver and copper from 1869 to 1893; of the tremendous possibilities for ore production which will follow the cutting of a mineral dyke from 50 to 100 feet wide at a depth of a thousand feet, and the great probability of our opening the first great copper mine in Colorado when we reach this dyke with the tunnel. In short, it will tell you of a gold mining enterprise that will go on a large producing basis long before the end of 1905; of an enterprise with possibilities second to none in Colorado, the developments of which have already shorn it of any element of risk or speculative features, rendering the investment offered a safe and attractive one.

For the financial and commercial standing of the business men who stand back of this enterprise we refer you to the First National Bank, Boulder, Colo, or Bradstreets Commercial Agency

The edition will not last long. If you would be sure of securing a copy, write to-day, or your name and address on a postal card, with the word "Booklet," will do the work.

APPEARANCE

Is such an important feature on the table. It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

Dr. Hamilton Cures Rheumatism

You Use His Mandrake and Buttermilk Pills—He Guarantees a Lasting Cure.

Rheumatism begins and ends in the blood which at no time is ever free from poison. But if the kidneys are healthy, they will filter out the wastes and poisons.

In case of rheumatism, the kidneys are not doing their work. As a result poisons crystalise around the joints and cause pain almost akin to torture.

There can be no cure, no permanent relief until the kidneys are stimulated. First get them into working order. For this purpose Dr. Hamilton's Pills excel all other remedies; they heal and strengthen the kidneys as no other poisons depart from the blood and all medicine can do. Once the kidneys are renewed by Dr. Hamilton's Pills the trace of rheumatism disappears.

No Case is Too Chronic to Yield to the Marvellous Influence of Dr. Hamilton's Pills.

"I spent nearly three years experimenting with rheumatic remedies," writes Geo. T. Sunbury, of Portland. "I had almost given up hope, when I tried Dr. Hamilton's Pills; they completely cured me. No remedy could be better."

You will never regret using Dr. Hamilton's Pills. Get a supply today from your druggist, 25c. per box, or five boxes for $1. By mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Tickets good 15 days, good on regular express trains leaving Suspension Bridge 3.50 and 7.15 a.m., 6.20 and 10.15 p.m. The date, June 16th. For tickets and further particulars call on, or address, Robt. S. Lewis, Canadian Passenger Agent, L.V.R., 10 King street east, Toronto.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & CO. Toledo, O

Peterborough Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Dr. Braden Fitzgerald is visiting friends in St. Catharines.

—Col. J. Z. Rogers left yesterday on a business trip to Montreal and Ottawa.

—Mr. George S. Matthews, of Brantford, is in town for a day or two.

—Mrs. L. Woolverton, of Grimsby, is the guest of Mr. and Mrs. L. D. Oakley.

—Mrs. Edwin T. Lush, 586 Bethune street, will receive Friday afternoon for the last time until autumn.

—The Misses Eyres will receive this afternoon and evening, and not again this season. In a few days they leave for an extended trip to the West.

—Mr. W. L. Lambert, of the Canada Cycle and Motor Co., Toronto, was in town yesterday on business. He says The Times is friendly enough.

—The marriage of Miss Lottie Foster, daughter of Mr. and Mrs. Thomas Foster, 49 Hunter street, to Mr. George F. Mein, took place yesterday evening at seven o'clock.

—Mrs. John Burnham has been the recipient of a very handsome travelling bag in acknowledgement of her great kindness shown to the Peterborough Tennis Club for so many years.

—The marriage of Miss E. Barrie to Mr. J. Pilling, the popular first baseman of the Peterborough baseball team, took place yesterday evening at 6.30, at the bride's home, 287 Dalhousie street.

—About twenty-four persons left Peterborough on Tuesday on the C. P. R. Homeseekers' Excursion to the West. Mr. T. L. Sergeant went to Strathcona, Miss A. V. Sedgwick and Mrs. Neild to Moosejaw, and others to various points.

—Mrs. Walter Stocker and daughter, Miss Daisy, Mrs. A. McLaren and Miss J. D. Dawson will leave today per C. P. R. for Montreal, from which point they will sail on Friday on the Allan Liner Bavarian on a trip to the Old Country.

—Mr. G. E. Whiten, photographer, left Tuesday morning for Toronto, Collingwood, Penetanguishene and Orillia. Mrs. Whiten went to Buffalo and Orillia and Miss Nellie to Penetanguishene and Orillia. They will all meet at the latter town on Thursday, June 22nd, and will proceed to Keewatin, where they will in future reside.

—The Lindsay Post says: Mr. W. Reid, traveller for Turner & Sons, Peterborough, was in town today. Mr. W. McMillan, of Peterborough, was a guest at the Simpson House today. Mr. J. J. Lundy, of Peterborough, was in town today looking after his real estate. Conductor Geo. Johbitt, of Peterborough, was renewing old acquaintances in town yesterday. Mr. Thos. J. Tilley, town, and Mr. W. W. Dunn, of Peterborough, are transacting business today in Roseboro in the interests of the Bell Telephone Co.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The pavement on Hunter street in front of the American Hotel is being repaired. It is a much needed improvement.

—Mr. Fred Roy entertained a number of young people on a short trip down the Otonabee last night aboard the Boy Boy.

—Mr. George Brown has placed a full stock of groceries into that part of his house at Chemong formerly occupied by the bar.

—This is the day the Baron Munchausen and Ananias turn in their graves. Fishing and subsequent fish stories will be en regle.

—Now is the time of year that the small boy, shivering on the Otonabee's banks, is heard yell "You daesnt go no further in Jimmy."

Two Dining Room Girls and a Cook wanted for the Lakefield House, Lakefield. Apply at Times Office or Lakefield House, Lakefield.

—Yesterday the Peterborough Fuel & Cartage Co. were busy, with their large dray, hauling empty coal oil and other barrels to the Cement Roofing Company for use in shipping their compound.

—Who are the strangers to symphony and mercy that, during the last few nights, have caused all the cats residing near George street, to commit suicide from envy? How long? How long is it to go on? With a brass band to drown the discords, it might be forgiven.

—On Tuesday afternoon a local electrician, wheeling to Chemong, was set afire by matches carried in his pockets. They were Telegraph matches.

—Local linotypers will have to get a move on today, in order to accommodate the large excursion expected from New York. Our local bonifaces should not allow Peterborough's visitors to go away hungry.

The excursionists from the North York Agricultural Society will leave Newmarket this morning at 7.30 o'clock for Peterborough, and will reach here about 11 o'clock on special train over the G. T. R. About 500 visitors are expected. In the afternoon sports and games will be held at Riverside Park and a lacrosse match will take place at 2.30 o'clock at the park between the Tahgoon of Newmarket and the speedy Peterborough lacrosse team.

LICENSE HOLDERS MEETING.

Annual Convention of Ontario License Holders' Association Will Meet in Toronto June 21st.

The annual convention of the Ontario License Holders' Protective Association will be held at 28 Wellington street East, Toronto, headquarters of the association, on Wednesday, 21st June.

This meeting will be an important one, as the association, now a very powerful body, will discuss amendments to be asked for, during discussion at next session of the Legislature, when consolidation of the License Act is brought up.

It is expected that quite a number of Peterborough members of the Association, who now number about 25, will attend. The association have arranged for reduced fires, one fare and a third granted to all holders of certificate of membership.

The association has now grown to be a powerful body of men, comprising members from every city, town and hamlet in Ontario. They have the interests and desire to accomplish much for genuine practical temperance reform, by discountenancing, as a body, illegal selling of liquor and suppression of dives and other breaches of the liquor laws.

From The King Edward

Palace Restaurant Secures a Cracker-Jack Chef From Toronto.

Mr J. M. Brooks, proprietor of the Palace restaurant, was yesterday lucky enough to secure the services of a chef for his dining room department, whose culinary abilities are well known in Toronto and leading American cities.

The cook he has now employed is Mr. Fred Long, late of the kitchen attached to the King Edward hotel. His specialty is what is known in restaurant parlance as "quick order" work, i.e. in steaks, chops, oysters, etc. Those wanting a toothsome dinner or lunch up to standard of the King Edward hotel can call at the Palace restaurant, and get a meal to dream on and remember as a "corker."

Dago Gets Two Months

Dominque Murdoc, the Italian Who Stabbed a Fellow Countryman in Lakefield, Sentenced.

At the County Court, on Tuesday afternoon, with His Honor Judge Weller, presiding, Mr. R. M. Dennistoun for the prisoner and Mr. R. E. Wood for the prosecution, the Lakefield stabbing case was finally disposed of. Dominique Murdock, who it will be remembered, on 22nd ult., stabbed an Italian, by name Barnostro, in Lakefield, was sentenced to two months at hard labor.

Arrrangements Completed.

Major Hayes, Capt. Eastwood, Quartermaster Capt. Beasley and Mr. Thomas Hooper returned yesterday morning from Ottawa, where they were making arrangements for the visit of the 57th Regiment to the Capital on Dominion Day. The Peterborough men were warmly received by the officers of the Governor-General's Foot Guards, and everything is now in readiness for the reception of the local corps. The Guards will give the local militiamen a hearty welcome on July 1st. Capt. Rothwell, Quartermaster of the G. G. F. G., met the Peterborough men on Tuesday morning and did all in his power to assist in effecting the preliminaries.

Unclaimed Balances at Banks

Ottawa, June 15.—The annual report has been issued at Ottawa of unpaid balances and drafts of the chartered banks of Canada. The unclaimed balances at the end of 1904 amounted to $509,407, compared with $496,018 at the end of 1903. The unpaiddividends increased from $3,794 in 1903 to $3,816 at the end of 1904.

THE AX of toughest steel becomes dulled by constant use and must have a new edge if it is to do good work. Constant work dulls a man as it does an ax, makes him sluggish of body and dull of mind. He needs a tonic, something that will restore the keenness of mind and activity of body.

Dr. Pierce's Golden Medical Discovery puts new life into weak, worn-out, run-down men and women. It strengthens the weak stomach, purifies the blood, and effectively stimulates the liver. The whole body is built up with sound, solid flesh by the use of "Golden Medical Discovery."

"I was confined to my bed for four months from January 1st, 1899, and commenced to take your medicine January 26th, 1899," writes Mrs. Sallie L. Sheppard, of Poplarbluff, Mo. "I took eight bottles of Dr. Pierce's Golden Medical Discovery, four of 'Favorite Prescription,' two vials of 'Pleasant Pellets,' and one bottle of Doctor Pierce's Compound Extract of Smartweed. I had Indigestion, obstinate constipation, and hardening of the liver was my trouble. I am at this time able to do almost any kind of house work. Your medicine saved me from my grave. Thanks to you for the benefit. My case was hopeless when I began taking your medicine."

Don't be fooled into trading a substance for a shadow. Any substitute offered as "just as good" as "Golden Medical Discovery," is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

Biliousness is cured by the use of Dr. Pierce's Pleasant Pellets.

HOW GERM DISEASES START

People with Weak Stomachs in a Continual State of Danger

Nearly all disease germs that find lodgment in the system gain entrance with the air we breathe, or through our food and drink.

If the stomach and digestive organs be weak, so that food does not readily digest, they will contain a sour, slimy fermenting mass, an ideal spot for the disease germs to grow and spread through the whole system.

People with a weak stomach are in a continual state of danger, and they should use the best means, Mi-o-na, to strengthen that organ and tone up the whole digestive system. This remedy is a certain cure for all diseases of the stomach excepting cancer. Used before each meal it so strengthens the whole digestive system that you can eat what you want and all you want without fear of indigestion. There will be no fermentation of food, and the stomach and intestines will be so clean and pure that disease germs cannot possibly live, when Mi-o-na is used.

If you suffer with headache, backache, variable appetite, nausea, gnawing at the pit of the stomach, sallow skin, heart-burn, furred tongue, sleeplessness, and general debility, it shows that the stomach has been overworked and weakened. A fifty cent box of Mi-o-na tablets will give quick and speedy relief.

Ask Wm. Madill, one of the most reliable druggists in Peterborough, to show you the strong guarantee under which he sells Mi-o-na.

Police Court

OFFICIALS
Chief of Police, G. L. Reed
Magistrate, D. W. Dumble

Yesterday morning would have seen no court held, but for the fact that, a few minutes past the regular time of opening our local "Palais de Justice," P.C. Stewart arrived with a gentleman who has been on a protracted and lusty spree. In fact the arrested man was bordering on that physical condition colloquially spoken of as "The Jims;" for once a man, figuratively speaking, "on the penitent bench," admitted the soft impeachment, and asked the officer to lock him up in a large cell, presumably, that he would not be crowded by the pink alligators and little purple demons begot by too long dallying with the treacherous "bottle."

Magistrate Rush was telephoned for and held the scales of justice. The trembling wreck was charged with having been drunk, with having no visible means of support and sundry other matters, that, in a man less well known locally, would be concentrated into the three letters V.A.G. The prisoner admitted every charge of the indictment.

"Don't you think a month on the bill would about suit your case, and enable you to straighten up?" said his Worship. "I do indeed, sir," was the reply, followed by the question, "Could I have a doctor see me there?" The party, who is known by very many people here, was assured that he would have good medical attention, and was removed to Castle Nesbitt.

Mr. Carey Elected by 17 Majority

Mr. E. M. Elliott, returning officer for the election of County Councillor in Otonabee on Tuesday to fill the vacancy caused by the death of the late John Devell, declares Mr John Carey elected over Mr. John Lancaster by 17 votes, the figures being:

Carey 330.
Lancaster 313.
Majority for Carey 17.

The next meeting of the County Council will be held next Tuesday at two o'clock.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 142 PETERBOROUGH ONTARIO, SATURDAY JUNE 17 1905 PRICE TWO CENTS

Heavy Snowfall in June

The Unusual Experience of Alberta Residents--High Wind and Copious Rain Did Great Damage in and Around Calgary.

Calgary, N.W.T., June 16. — The worst June snowstorm in Alberta's history prevailed all night all over this section. Grave fears are entertained for young lambs and calves. The high wind was accompanied by heavy wet snow between Red Deer on the north, Langdon on the east, High River on the south and Cochrane on the west.

A great deal of damage has been done in Calgary, many houses and stores being flooded. The wind tore down many signs, blowing 36 miles an hour. Three and three-tenth inches of rain fell from six o'clock last night until six o'clock this morning in Calgary. The majority of the business blocks did not prove weather-proof and the damage will run up into big figures. The hotels were also victims.

A CONSTITUTION BEFORE PEACE

The Russian Nobles and People Join in This Demand

NEW REFORM PROGRAMME

An Important Series of Measures to Be Decided Upon—Question of a War Indemnity

St. Petersburg, June 17.—Russia demands a constitution before peace The provinces have joined St. Petersburg and Moscow in this demand. Nobles, merchants, farmers and several of the generals at the front have wired their adhesion to the Moscow petition. The leaders of the movement are now in conference in Moscow. The Czar intimated that he had received only five of them. The delegates at to-day's meeting selected five of their number and instructed them to insist on the immediate promulgation of an equal rights decree without distinction of nationality or creed and on the convocation of a national assembly which should decide on peace and draw up a constitution.

THE SITUATION DEFINED.

Baron Guntzburg, who assisted at the meeting, said to a correspondent to-day: "The Czar wants peace, and the people want a constitution. The one WITHout the other is impossible. Japan demands an indemnity and guarantee. Only a nation can give these. General Trepoff's unindorsed bonds are not sufficient. A year ago the Tsarkoe-Selo group represented Russia; now it represents only a family. Three months ago some nobles and capitalists, fearing a change, flew in their addresses to the Tsarskoe-Selo group. Since then the Baltic fleet catastrophe and the fact that the navy officers are almost exclusively the relatives of great nobles have alienated them.

BETTER DAY AT HAND.

"Alphonse Rothschild's death deprived the Tsarskoe-Selo group of the only financier who believed in the regeneration of the autocracy. Now European, American and Japanese statesmen refuse to deal with the bureaucracy and demand the country's backing. The Trepoff regime and the schemes of Minister of the Interior Bouligan will prove ephemeral, and within a few months a constitutional government and a lasting peace will be established, either with the consent of the Tsarskoe-Selo group or despite its efforts. This will bring unprecedented prosperity in Russia."

NEW REFORM PROGRAM.

Paris, June 17.—A despatch to the Kelair from St. Petersburg says that a council held at Tsarskoe-Selo has approved the program of reforms proposed by M. Bouligan, the Minister of the Interior, and M. Yermoloff, the Minister of Agriculture and State Domains, which were adopted in principle last March. It includes the institution of a representative assembly, which will have legislative powers, but will not be allowed to discuss the budget.

EQUALITY OF RACES.

It abolishes the press censorship, and places Jews upon the same footing as persons of other nationalities living in Russia. To Poland are granted anew nearly all the privileges possessed by that province before the insurrection of 1866. The Polish and Russian languages are to be equally official, and Poles will have the right to hold any post in the Empire. There will be no restrictions upon Poles or Jews in entering the higher schools. Similar reforms are granted in Finland, including the admission of Finnish as the official language.

LIBERTY FOR FINLAND.

St. Petersburg, June 17.—The special Russian laws introduced into Finland by Alexander III. are abolished. The Senate of Finland is to have more power. Sweeping reforms are introduced in the Baltic provinces. German, like Russian, is to be an official language.

HARD TO RAISE MONEY.

It is stated that by paying very high interest, Russia could secure money. Prof. Migulin concedes that she could get money for a productive object, but there is no such future recompense in a war contribution. Russia would have to pay 75 millions or 150 million roubles interest yearly, according as the tribute was one or two milliard roubles. She has already to pay 200 million roubles interest yearly on foreign loans, and she cannot do so without having recourse to constant foreign borrowings. Where, then, could an additional 100 million roubles be found?

NATIONAL BANKRUPTCY.

An attempt to meet a larger tribute would mean national bankruptcy, which would be a bar to normal military expenditures, the construction of a new fleet, etc. All the revenue would be swallowed up by loans raised abroad. So prohibitive are the conditions of meeting another great debt abroad that Professor Migulin urges that the payment of an indemnity be refused.

GOING TO PETERHOF.

St. Petersburg, June 17.—The court at the end of the week will remove from Tsarskoe-Selo to Peterhof, where the Emperor and his immediate family will occupy the little palace for the remainder of the summer. This palace is situated in the corner of the vast park, where there are famous fountains rivalling those of Versailles, which, with the military music every afternoon and evening, attract immense crowds. The palace, however, is tucked away in the corner of the park, and as it is surrounded by high walls, is inaccessible to the public.

THE POLICE ARE BUSY.

The police made domiciliary visits yesterday to every house in the Peterhof district. The inmates' passports were verified. Beggars were removed from all the roads from Peterhof to Tsarskoe-Selo. No newcomers will be allowed in the district this week. All crafts have been removed from the waters fronting the Peterhof Palace, except the Government guard boats. All these steps are taken preparatory to the Czar's removal of his residence from Tsarskoe Selo to Peterhof for the summer.

UNDER ARREST, HE ESCAPES

Non-Commissioned Officer Under Guard Slips Away

Kingston, June 17.—Sergeant Cox, of the Royal Canadian Engineers, has escaped from custody, and cannot be found. He was recently arrested for insubordination, and tried, and his sentence was being awaited from Ottawa. Two corporals were on guard outside his bedroom, but the sergeant managed to slip away. He came from England recently.

WEATHER NOTES.

Warm, with thunder showers.

THE official tests by the Inland Revenue Department of the Canadian Government show the Royal to be a pure baking powder, superior to all others in leavening strength.

It therefore makes purer, more wholesome and economical food than any other baking powder or leavening agent.

Royal Baking Powder is more convenient for use than cream of tartar and soda and makes finer-flavored food.

ROYAL BAKING POWDER CO., NEW YORK.

MR. McILLROY BUSY

C. P. R. Uptown Ticket Agent Sells Tickets for Europe to Several

That Mr. W. McIlroy, the C.P.R. Uptown ticket agent, does not sit round for the moss to grow, or the flies to light on him, is proved by the fact, that he has, during the past few days, sold quite a number of through rail and steamship tickets for Europe and return. The party who left Montreal yesterday for Europe, including Mrs. W. Stocker and daughter, purchased the necessary documents from Mr. McIlroy.

Yesterday he supplied the steamship return tickets for a party including Mrs. J. Montgomery and two children, and Mrs. J. Boyd, of Peterborough, for Glasgow. They sail, on June 21st from Montreal, per Allan Line S.S. Corinthian.

Mr. McIlroy is a worthy successor to Mr. Dave Hooley, and is getting his share of the travelling public's patronage.

TURF BILLS OUT

Local Turf Club Received Huge Posters Advertising Races

Yesterday, Mr. A. Rountree, the well-known George street grocer, received a large consignment of huge posters advertising the places, dates, purses held up, and other particulars of the Eastern Ontario Turf Club's coming racing circuit. These advertising bills are beautifully gotten up in three colors, being what are termed "three-sheet posters." The posters are well adapted to secure attention from people interested in race horses and their records, being headed, in large type, "Oh boys, Oh Boys! This beats the Woodbine." The different towns, with their respective dates and particulars concerning the races held in them, stand out prominently. The Peterborough races include both trotting and running races with purses, for the two days here, amounting to $1,000.

The circuit includes races at Port Hope, Peterborough, Picton, Belleville and Kingston, with $4,500 prizes to be competed for.

Arrangements were completed yesterday for posting these large posters throughout the town.

RUSSIA CANNOT PAY INDEMNITY

Large War Tribute Would Provoke a Monetary Crisis

AND NATIONAL BANKRUPTCY

Conditions Prohibitive for Meeting Another Great Debt Abroad Say Political Economists

St. Petersburg, June 17.—Russia's capacity to pay an indemnity to Japan is analysed by Professor Migulin, of Krburkoff University, a leading writer on political economy. He points out that Russia in an extreme degree is a poor country. The last five per cent. internal loan was realized with great difficulty. The savings banks and private bankers together were scarcely able to help the Finance Minister to secure the issue. The money raised by this loan remained to a large extent in the country, and flowed back into the nation's working capital. A large war tribute to be taken absolutely out of the country would provoke a monetary crisis. What would Russia's position be if she went into the foreign markets to borrow? It is scarcely likely that France would help to find one or two milliard of roubles in order, as many Frenchmen believe, to enable Japan to take Indo-China away from France. It is stated that by paying very high interest, Russia could obtain money. Prof. Migulin concedes that she could get money for a productive object, but there is no such future recompense in a fair contribution. Russia would have to pay seventy-five million or one hundred and fifty million roubles ($3,000,000 to $75,000,000) interest yearly, according as the tribute was one or two milliard roubles. She has already to pay two hundred million roubles interest yearly on foreign loans, and she cannot do so without having recourse to constant foreign borrowings. There, then, could an additional one hundred roubles be found? An attempt to meet a large tribute would mean national bankruptcy, which which would be a bar to normal military expenditures, the construction of a new fleet, etc. All the revenue would be swallowed up by loans raised abroad. So prohibitive are the conditions for meeting another great debt abroad that Professor Migulin urges that the payment of an indemnity be refused.

LORD STRATHCONA WILL NOT RESIGN

Rumor of Mulock's Mission to England is Denied

PACIFIC CABLE CONFERENCE

As High Commissioner Lord Strathcona still Will Use His Influence In Canada's Behalf

London, June 17.—There is absolutely no truth in the statement published yesterday afternoon by the St. James' Gazette that Sir William Mulock arrived here expressly charged by the Canadian Government to take over the High Commissionership from Lord Strathcona. The only reply Lord Strathcona himself thinks necessary to be made, and makes it smilingly, is to quote, "This is the first we have heard of it here."

Sir William Mulock himself gives out that he comes here on business connected with the Pacific Cable Conference, and those well qualified to judge assert that whatever may be Mulock's alleged ambitions, as to which he is naturally silent, the Canadian Ministry has no thought of suggesting that Lord Strathcona should retire one day sooner than he himself desires or his health necessitates.

He is as full of public activity as he has been at any time in the past twenty years. Only yesterday in addition to his heavy official duties in the morning and evening at the High Commissioner's Office, he attended the garden party at Windsor Castle in honor of Princess Margaret's marriage.

He was most graciously received by the King and Queen.

Lord Mount-Stephen also was present. No one doubts that Canada derives incalculable advantages from their representation here by a man of Lord Strathcona's ripe experience and high standing.

Madman Fired on Officers

St. Catharines, June 17. — Wesley Culp, an old man, who lived alone alone near Beamsville, has been declared insane. When three officers went to arrest him. Culp opened fire on them with a revolver. Culp was placed on trial on the charge of shooting with intent, but the jury decided he was not responsible.

SMALLPOX CASE IN LINDSAY

Disease Breaks Out in Well-Known House--Servant Girl Contracts the Disease From Her Visiting Sister.

Smallpox has broken out in a well known hotel in Lindsay, causing a sensation in the town. One person only is so far affected—a servant girl, who is supposed to have contracted the disease from her sister, who came from an infected district in Ontario, and slept with her one night.

Dr. McAlpine, the local physician, notified Dr. R. W. Bell, Inspector of the Provincial Board of Health, Toronto, of the case, and the latter went to Lindsay last night, and will decide whether the hotel shall be quarantined or not. In the meantime every precaution has been taken by the local authorities to prevent the spread of the disease. All the employees of the hotel have been vaccinated and those who came in contact with the girl have been placed in isolation tent hospitals. This is Lindsay's second case of smallpox within the last five weeks.

Another Doctor to Come

Dr. McKinnon, of Millbrook, will Locate at 453 Water Street

The Millbrook Reporter says: Dr. McKinnon has sold out his practice here to Dr. Edwin J. Foster, formerly of Providence Bay, Manitoulin. It will be generally regretted that Dr. McKinnon has decided to seek a larger field of work after thirteen years in Millbrook, where both he and Mrs. McKinnon have made many warm friends, whose best wishes will go with them to their new home, which we understand will be in Peterborough. It will be a couple of weeks, however, before they leave.

Dr. McKinnon has, for some months, had arrangements partly completed for commencing practice in Peterborough, in fact he has, since last February, had his future office and residence, at 453 Water street, secured.

Dr. McKinnon has, for several reasons, mainly owing to having some very important cases in his practice at Millbrook, demanding his personal attention, and for other personal matters, been delayed in commencing practice here.

The doctor comes here very highly spoken of, both personally and professionally, and will doubtless not only establish a large practice here, but be welcomed heartily as a man.

He has secured a very central location for his business, being immediately in front of Victoria Park on Water street.

Big Strike of Foundry Men

New York, June 17.—A strike, inaugurated by the International Brotherhood of Foundry Employes against the New York and New Jersey Foundrymen's Association, has extended rapidly. There are 2,000 men now out here and in the New Jersey plants. To-day 2,000 brass workers quit work, and 1,000 more, including the core makers, will be out by the end of the week. It is claimed every foundry in New Jersey will be closed by the strikers.

ADVERTISE IN THE TIMES.

To Find the Pole.

Heir to Millions Declares He Will Fulfill His Father's Wish.

New York, June 17.—Fourteen-year-old Willie Zeigler, the richest boy in [illegible] this first time how he has determined to devote all the millions left to him by his lucky father to seeking after the North Pole, and how he plans after reaching his majority, to personally lead an expedition into the frozen Arctic regions, to place upon the world's map forever all that is to come the name of his father, who has left such great riches.

"I will be one of the richest men in the world," said young Zeigler, "but I know it will not turn my head when I gain possession of all that money. I will try and do the most good I can with my millions. The big task of my life is to find the North Pole. Many brave men have tried to do it but failed. If by the time I become a man, no other man has made a great name for himself by doing it, I will set out to discover the pole.

"I am only fourteen years old. I must study hard for years to fit myself to be the right kind of leader. Human lives will be in my hands. It will be dangerous. I may sacrifice my life. I understand all this. I talked it over with my father.

"I will be in honor of his memory that I will try to find the North pole. He dearly wished to be the father of an expedition that would do it. My father and I never settled on any plan for reaching the pole. That would be a foolish thing now, because time, my father pointed out, would make many changes in machinery and perhaps by studying the failure of others, new and better routes would be found when I came to make my trial."

Police Court

OFFICIALS

Chief of Police, G.I. Hazel
Magistrate, D.W. Dumble

Yesterday morning's court was well filled, the Sun-fish and loafing loving clubs being represented by many accredited representatives, who, with that morbid love of sensation characterizing men, craving for work, provided it is not done between meals, came to see the alleged assailant of the late Fred Hudson, tried.

The first case was that of a shaggy-whiskered, bare-footed "hobo," by name, Jos. Benton, whom the Chief considered "non compos mentis," or in the vernacular "batty." His Worship, very sensibly, instructed the Chief to get a ticket and ship him to Lindsay, where he belongs. Mr. Dumble remarked that it is unfair for this county to support vags from Lindsay and other towns having their own poor rates, saying it would pay the town to spend $150, if necessary, to ship him away, rather than have him on the county's hands for life.

A citizen was charged $2.00 costs for not procuring his dog tag in time. The Magistrate remarking that this system of trying to dodge the tax, and only paying it when summoned, was played out.

W. Cleney was fined $2, with $4.55 costs for using insulting and objectionable language in a public spot.

P. McAuliffe's case was enlarged another week.

Three boys were fined $2 each for trespassing on the C.G.E. Company's property. The boys admitted being there, and the largest of them, who acted as spokesman, said he himself worked there during the day, and had come in at night with the other boys, to chat with an acquaintance there at work. An officer of the company appeared and said that whilst the boys had not stolen any thing, they were in the building from which stuff had lately been stolen. He said the company could not watch strangers at all times to be sure whether their presence was prompted by honest intentions or otherwise.

His Worship explained to the boys that, as one of them worked there, they must have known their presence in the works at that time was illegal, and imposed a fine of $2 each.

After the court had adjourned, Mrs. Corrigan, a poor old lady, whose vagaries have several times been noted in former issues of the g.f.j., appeared before the Magistrate with a sensational tale of being intimidated by a boy, living where she boards, who pointed a revolver in her direction threatening to shoot her. The Magistrate, whilst not taking much stock in the tale, told the police to investigate, the charge being a serious

John Watson, said to be a Scotch gypsy, was charged yesterday morning in the County Police Court with failing to provide for his wife and family.

With true philantrophy, His Worship provided for John for the space of one month, with vigorous exercise thrown in gratis.

A D. and D hailing from the classic shores of Mud Lake paid $2 for the title.

Will Buy An Engine.

Fire Water and Light Committee Decide Old Fire Engine is Done.

At a meeting held Thursday night, the Fire, Water and Light committee took up the matter of our now disabled fire engine. A close examination of several persons who had used, examined, or were responsible for, the now burnt out fire engine, including Messrs. Jas. Main, of the Wm. Hamilton Mfg. Co., who examined it and discovered the terrible manner in which it had been misused; McEwen, engineer of the steamer City of Peterborough, who borrowed it to pump out the steamer's hold when sunk below the locks, and Wainwright, engineer of the fire department, showed that there had been gross carelessness on the part of some one responsible. The boiler had evidently been burnt out through lack of most elementary precautions.

It was decided to recommend that the Council dismiss the engineer and substitute another man. The committee will recommend the purchase of another new engine, of larger capacity, as the old one cannot be repaired.

Sergt. Moore Afloat

The Bisley Team Sail Aboard the S.S Bavarian for England.

As is known to our readers Peterborough is represented, and by no poor marksman, on the Bisley team this year, Sergeant Moore, of the 57th Regiment, carrying the weight bringing honors to his home, on his shoulders, dependent on his skilled eye and steady nerve.

The team sailed yesterday morning at daylight by steamer Bavarian for England. It consists of twenty men, who paraded at three o'clock on Thursday at the brigade headquarters, Montreal, and marched on board the Bavarian in the afternoon.

This year before the team was chosen the secretary had to notify the thirty-third man of his being appointed to a place on the team.

The Canadian team will wear a distinctive uniform. They will wear the khaki service uniform with maple leaf emblems and a steel shoulder plate having the word 'Canada" engraved upon it. They will wear soft felt hats turned up at one side and held in place with a maple leaf.

They will arive at Bisley on Sunday, June 25, and will have two weeks' practise before the shoot.

To Increase Sessional Indemnity.

Ottawa, June 17.—There is a movement in Ottawa to increase the sessional indemnity by $1,000, on account of the length of the session. A round robin is circulating among the members and is being largely signed. It is understood that if a suggestion will be made that Parliament should provide a salary for the leader of the Opposition, a matter that has been widely discussed and received with almost unanimous approval on both sides of the House.

Dual Language For The New Provinces.

Mr. Monk Would Fasten It Upon the West Another Problem for the Ontario and Western Liberals to Solve in Parliament.

Ottawa, June 16. — Just as the [illegible] its proceedings and the manner of [illegible] House rose last night Mr. E. D. [illegible] recording and publishing the same, Monk, the Conservative leader from and the regulations so made shall Quebec, gave notice that he would be embodied in a proclamation which move in committee as an addition shall be forthwith made and pubto clause 2 of the Autonomy Bill lished by the Lieutenant-Governor, the following paragraph: [illegible] conformity with the law, and [illegible] either the English or French [illegible] shall have [illegible] son in the debates of the Legislative Assembly of the Province and in the proceedings of the courts, and both these languages shall be used in the records and journals of such Assembly, and all the laws made by the Legislature shall be printed in both languages; provided, however, be no formal record of the vote upon that the said Legislative Assembly [illegible] may, by law or otherwise, regulate [illegible] the third reading of the bill.

This notice has created consternation among some of the Ontario and Western Liberal members lest the Government may seek to whip them into line to support this proposition. Any division that takes place will be in committee, and there will [illegible] lose the matter is again discussed on [illegible] the third reading of the bill.

A LAKEFIELD MAN SUICIDES

Mr. Zachariah White, Lakefield, Takes Strychnine on Thursday Night Last With Fatal Result.

On Thursday night the villagers of Lakefield were all excitement and agog over the terrible news, which spread like wildfire, that one of their best known citizens, Mr. Zachariah White, had, about six o'clock p.m., committed suicide.

It seems that the misguided man had purchased some ten grains of strychnine from a local druggist, and taking it home, had, in the early afternoon swallowed it.

This first intimation or suspicion of such a thing was had when Mrs. White found him in convulsions in his bedroom. Dr. J. R. Fraser was immediately summoned, but in spite of everything done in the unfortunate man's behalf, death resulted. Dr. Gray, coroner, was notified of the circumstances, but he considered an inquest unnecessary.

No reasons are yet assigned for his thus taking his life, as far as The Times could learn yesterday. Mr. White's financial affairs were good beyond dispute: both his steamboat and sawmill industries were, as far as has yet been ascertained, in good paying condition. He was a good boatman, and knew the upper lakes well. Mr. White was born at Gore's Landing, and years ago moved to Lakefield. Mr. White leaves a wife and four sons and four daughters. The funeral will take place today.

Medicos Entertain.

The Local Medical Fraternity Tak the Limbs of the Law A-Sailing.

Yesterday afternoon about 150 professional gentlemen and their friends sat said, on the good ship City of Peterborough, for Jubilee, Gore's Landing and other points.

The medical profession of Peterborough had invited their professional brethren of the law for an outing: stethoscopes were rolled up and put away, parchments and mortgages were laid on the shelf, and for a whole afternoon impecunious patients and implacable clients were left to look after their own troubles. Although the weather was warm and rain threatened, a very merry party enjoyed the outing to the full. It was late at night before the "City's" load of Peterborough's brain workers arrived at home. Many remarks were made during the trip as to the convenience of being able to catch the boat by street car in place of the long delay at the locks.

Rainy Season Set In

London, June 17.—The Mojl correspondent of the Telegraph says the rainy season has started in Manchurie. There is a continuous downpour except for a few hours at night. The roads are knee deep in mud. Nevertheless military operations will not be interferfered with. Glad tidings are expected within a few days.

Said "Good-Bye" to His Family

Dying of Weakness—Given Up by Doctors as an Incurable and Hopeless Wreck

FERROZONE

SAVED HIS LIFE

After reading the following letter from Mr. H. A. Thurston, of 228 Vermont street east, Indianapolis, Ind., no one will ever doubt the merit of Ferrozone:

"A year ago I took the 'grippe.

"I was as weak as a child.

"I was no longer able to eat.

"My blood was thin. My cheeks were white and hollow.

"Doctor gave me all kinds of medicine, but none of them brought me strength.

"My friends said I was wasting away with some slow disease, and I bid them good-bye.

"Then I heard of the wonderful Ferrozone.

"After three days it gave me an appetite. I gained strength and became cheerful. Under Ferrozone I improved steadily. I am well to-day. I weigh fifteen pounds heavier than ever before, and feel like a new man.

(Signed) "H. A Thurston."

The secret of growing strong is solved by Ferrozone. It supplies actual nourishment. It braces you up quick, supplies new energy, brings back the snap and fire of youth. Try Ferrozone, 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U. S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 6 o'clock.

The Times will be sent to subscribers in this district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

THE GERMAN PERIL

Europe is becoming seriously worried over the yellow peril. The real peril of Europe—the present peril—is not yellow, but German. The announcement that Emperor William intends to send in the fall a fleet of German war vessels on a trip around the world with a view of impressing on the nations the importance of Germany as a naval power, draws attention forcibly to the role Germany is trying to play in international affairs.

The dismemberment of Russia has made Germany the paramount power in Europe. She is to-day undisputed mistress of the Baltic as the result of the destruction of the Russian fleet. Germany is not making any effort to hide her aims. The Kaiser's sensational visit to Morocco and his blunt statements showed plainly that Germany not only realizes her power but intends to use it to the full to the advancement of the German Empire. France fears Germany. The resignation of Delcasse was due to his disagreement with his colleagues over the Moroccan policy of France. Delcasse wished to oppose Germany's claims. The Cabinet wished to propitiate Germany. It was Germany's threatening attitude that caused the scare in Great Britain last 'fall and brought about the redistribution of the British navy.

Previous to last fall Britain's policy had been supremacy in the far away parts of the world. Her biggest cruisers had been on the China and Mediterranean stations. Her navy was scattered the world over. Germany's policy has been to keep practically her entire fleet, ready for action, in her home harbors. Had Germany declared war against Britain previous to last fall she would have been able to throw a strong fleet including 30 powerful battleships against the weak channel fleet of the British and a British disaster would probably have ensued, as, while Britain had over 50 battleships they were scattered all over the waters of the world.

As a result of the redistribution scheme which came out of the scare Britain's strongest and best ships are to-day kept in the home waters and the channel fleet is large enough to cope in a sudden emergency with any other two powers.

As an answer to the Kiel Canal which Germany built across the narrow neck of land which separates Germany from Denmark, and the Baltic Sea from the North Sea, and which gave Germany a short-cut from the Baltic to the English channel, the British government opened a naval station on the coast of Scotland. That naval station was Britain's reply to Germany's threat implied by the Kiel Canal. Germany showed such evident signs of objection to Britain's move that the scare of last fall followed.

Germany's peril to Europe lies in the fact that a powerful nation has on its monarch an erratic headstrong and ambitious man. Whose whole course has been one of daring politics aimed solely at the advancement of Germany. It may be said that the German Parliament and people may be looked to to keep the worst from happening, but the trouble is that the German people regard Emperor William as a capable, clever and successful ruler. Under his rule Germany has increased in wealth and prestige and as success makes success, the people follow where William leads. Some of these days soon William is liable to lead them and the world a merry dance.

GOVERNMENT TELEPHONE OPERATION IN PARIS

A great deal has been written in recent months regarding the successes and failures attending the municipal operation of electric lighting stations, but little or nothing has been published in relation to public ownership of the telephone. It is interesting to note in this connection the experiences and impressions of foreigners visiting this country for the first time.

The number of telephone stations and the facility with which connections may be obtained in our large cities was the subject of comment by several of the French railroad engineers who recently attended the convention at Washington. It seems that in Paris, where the telephone is a government monopoly, there are practically no telephones installed in residences, and business houses receive such poor service that five minutes is the time commonly required to make a connection.

Government control eliminates one abuse, however, No impertinence to the operator is tolerated by the government, and offenders are subject to arrest on complaints of this nature.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & CO. Toledo, O

Hall's Family Pills are the best.

Keene.

An excursion from Keene to Jubilee on Thursday afternoon, 8R the steamer Rainbow under the auspices of the Improvement Society, proved a fair success.

Mr. John McLauchlan and Fred Burnham who spent a five months' visit in Columbus City, Ohio, returned home this week looking hale and hearty.

We are tormented with a vicious dog in our village, who has a habit of biting people on the street. We kindly intimate to the owner of this brute to either shut him or have muzzles enough to muzzle him for the safety of his neighbors, or undoubtedly there will be trouble over the matter.

The paper that goes into the homes is the most valuable medium for Summer Resort advertising.

Unequalled in this respect by any other paper in New England, The Boston Herald is without question the best medium for Summer Resort advertising in America.

Combining as it does both quality and quantity, it brings far better results than all other Boston papers combined.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion land in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department not to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation.

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 20 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were reliable and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $12 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.

HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you fear that you are not fit to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

RESPONSIBLE REPRESENTATIVE WANTED

The Double Dividend Mining and Exploration Co.
210 GIDDINGS BUILDING, COLORADO SPRINGS, COLO.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least a thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

Police Court

OFFICIALS
Chief of Police, G. L. Reed
Magistrate, D. W. Dumble

Thursday's docket at the Police Court was extensive, involving charges concerning drunk to druggists. As Magistrate D W Dumble is away inhaling the pure fresh ozone of Stony Lake instead of second hand fumes of forty rod whiskey from his regular customers in the court, the seat of Justice was filled by Magistrate Byres. Owing possibly to inexperience, His Worship enlarged the more important cases brought before him, to be tried by a magistrate better posted on the precidillos to be judged.

James Cain, who had stepped just a few feet over the boundary line between common sense and superfluity of booze applied internally, was assessed $2 for said indiscretions.

John Fair's watch runs too fast or he nuts have been mistaken over the fleeing minutes it record, if J. H. Bott, a C.P.R. conductor's time book is to be believed.

Bott was charged with allowing his train to obstruct Aylmer street longer than the limit of five minutes prescribed by law. John Fair, an employee of the Fuel and Cartage Co. testified that the train stood on Aylmer street crossing 8 minutes by his watch. The defence produced a time-book showing that the defendant's train had arrived at 1.35 p.m. and departed at 1.40 p.m. on June 8th.

As His Worship had to choose between verbal and documentary evidence, he threw the latter and dismissed the case Mr. W. H. Moore appeared for the defendant.

TO FIND THE POLE

Heir to Millions Declares He Will Fulfil His Father's Wish

Halifax, N. S., June 16.—Captain Scott, of the steamer Havana, which arrived from St. Pierre-Miquelon, reports that just before the steamer left St. Pierre, a mob boarded her and threatened to search her for M. Gendron, a school teacher, who was on board. They had no official authority of any kind, and Captain Scott, as master of a British ship, warned them not to attempt to lay a hand on any passenger or break a door or hatch, or the consequences would fall upon their own heads. After further talk he ordered them to leave the ship, which they did. In the meantime a crowd of women had gathered on the wharf and seemed as much excited as the men. M. Gendron was reported to have written a letter regarding immoral remarks in St. Pierre to a friend in France, and the letter was subsequently published and came to the eyes of the St. Pierre people, who regarded it as a slander to their women folk. M. Gendron left the steamer at North Sydney, and took the fast express for the United States.

CORBENITESARS DISCREDITED

How the United States has Flourished Under Protection

New York, June 17.—The Tribune says; "The rapid development of the United States as an exporting nation has hopelessly discredited the theory of the Cobdenites that no country can find a market abroad if it persists in maintaining a high protective tariff. We have been living for the last eight years under the highest protective tariff in our history. Yet in that period we have increased our annual sales abroad from $882,000,000 to $1,460,000,000, and all indications point to the continued expansion of our export trade.

"Nothing could illustrate more strikingly the failure of Cobdenite contention that we have handicapped ourselves by our tariff policy than the extraordinary growth of our trade with Canada, a growth which, according to Cobdenite opinion, we have failed to encourage, and which Canada itself has actually tried to prevent. Neither our own tariff rates nor the discriminating Canadian duties have had the effect of checking the growth of American-Canadian commerce."

Were Near War

New York, June 16.—The Paris correspondent of the Sun cables that when M. Delcasse resigned the portfolio of the offreign Office Germany and rFance were on the verge of war. M. Delcasse thought Germany was bluffing. Prime Minister Bouvier, remembering 1870, believed otherwise. Germany had been for some weeks strengthening her garrisons near the French frontier. France responded with a similar move. The Kaiser, ignoring his own provocation, notified France that if she did not cease this military movement Germany would consider it an unfriendly act. This, of course, was equivalent to an ultimatum and M. Bouvier sent a conciliatory reply. Then he warned the Czar of the gravity of the situation and said that it was imperative that Russia restore her military strength on her western frontier, and be prepared to take an active part in the campaign if France was attacked. He went so far as to intimate that unless Russia promptly assumed some of her duties as an ally France would be unable to see the advantage of a continuation of the alliance, which thus far has been wholly one-sided.

Murdered Mother--Killed Himself

Elmira, N.Y., June 17.—Robert Hagadorn, 30 years old, shot his mother four times, fatally wounding her, at the family home near Almond last night. She died shortly afterwards. A brother interfered and levelled a revolver at the assailant, when he turned his own weapon on himself and put a bullet into his temple, dying instantly. The young man had been drinking and his mother remonstrated with him. He had been an inmate of Willard State Hospital.

History and Production of the Goldfields of Boulder County, Colorado, Portraying Economic Conditions Which Predict the Coming Goldfields of Colorado and Presenting the Stock Offering of a Great Gold Mining Enterprise of the United States Gold Corporation

FREE

Our booklet on the gold fields of Boulder County is off the press, and is being distributed free to investors. We have prepared this book to advertise the gold fields of Northern Colorado and our great gold mining enterprise. The books will be free for the asking while they last. It will tell you of how over fifty millions have been added to the world's wealth in production of gold, silver and copper under primitive methods and from surface workings of an average depth of not to exceed 250 feet. It will tell you of its great tungsten belt, the largest in the world. It will tell you of the existence of a diversity of precious and rare minerals, unrivaled by any other gold fields on this continent. It will tell you of a mineral area of twenty-five square miles literally covered with a network of veins, practically undeveloped, with only one shaft below the thousand foot and half a dozen below the six hundred foot level. It will tell you of a gold field nearer to the Denver smelters than any other in Colorado; of a change of economic conditions, in this section, which will enable the miner to ship ore to the smelters, at a net profit, that is now being thrown over the dumps in other sections of Colorado; it will tell you of a field so attractive that it resulted in the construction of two railways from one end of the field to the other. It will tell you of the substitution of modern and up-to-date mining methods, in place of the primitive ones of the past; in short, it will tell you of all those conditions which predict for the gold fields of Boulder County the coming gold fields of Colorado.

It will also tell you of our great gold mining enterprise in the western part of the gold fields of Boulder County, near the continental divide, where nature has deposited her largest and richest treasure vaults; it will tell you of our economic development tunnel, driven to drain and develop a mineral estate almost a mile long and half a mile wide; of the thousands of tons of gold ore now blocked out and ready for shipment in the five different veins cut by this tunnel in driving it eight hundred feet, the result of two years' steady development work night and day; of our wonderful discovery of molybdenite—a rare metal—in large commercial quantities, foretelling for us the first molybdenite mine in Colorado that is producing, as well as a large and permanent source of revenue, of our project to drive this tunnel, long before the end of this year, into the famous Fourth of July dyke or "Mother Lode," from which the far famed Caribou group of mines produced twenty million dollars in gold, silver and copper from 1869 to 1893; of the tremendous possibilities for ore production which will follow the cutting of a mineral dyke from 50 to 100 feet wide at a depth of a thousand feet, and the great probability of our opening the first great copper mine in Colorado when we reach this dyke with the tunnel. In short, it will tell you of a gold mining enterprise that will go on a large producing basis long before the end of 1905; of an enterprise with possibilities second to none in Colorado, the developments of which have already shorn it of any element of risk or speculative features, rendering the investment offered a safe and attractive one.

For the financial and commercial standing of the business men who stand back of this enterprise we refer you to the First National Bank, Boulder, Colo, or Bradstreets Commercial Agency

The edition will not last long. If you would be sure of securing a copy, write to-day, or your name and address on a postal card, with the word "Booklet," will do the work.

Address all communications to Thos. Patterson & Co, Fiscal Agents, Peterborough, Ontario.

The United States Gold Corporation

Edward Monroe, Pres. and Gen. Mgr. BOULDER, COLORADO

THE
Montgomery Mountain Mining Company
BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD or BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining
This Company is a legitimate Mining enterprise, managed by honest, capable mining men.
The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are
President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange.
Vice-President, Hon. JOHN SPARKS, Governor of Nevada.
Directors: D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R, Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

The Company refers by permission to
McCormick & Co., Bankers, Salt Lake City; John S. Cook & Co., Goldfield, Nevada; Ormsby County Bank, Carson City, Goldfield & Tonopah, Nevada.

We believe this property and its stock will have an advance that will be as sensational as was the Original Tonopah immediately after its development.
We can supply orders for a limited number of shares at 75 cents per share This price expires July 10th, after which it will be raised. For information or stock apply to Thos Patterson & Co., Fiscal Agents, Peterborough, or,

D. D. PEERY COMPANY, Brokers, Goldfield, Nevada

PATENTS PROMPTLY SECURED

We solicit the business of Manufacturers, Engineers and others who realize the advisability of having their Patent business transacted by Experts. Preliminary advice free. Charges moderate. Inventor's Advisor sent upon request. Marion & Marion, New York Life Bldg, Montreal; and Washington, D.C., U.S.A.

YOU ARE AILING

Find the Cause for the Weakness and Nervous Dread That Overshadows Your Life.

You can't keep up forever.

Sooner or later Nature will rebel against the strain that is imposed on your overworked system. So far, will power and nerve may have tied you over, but the end is probably near at hand.

To-day the common complaint with weak men and women is lack of kidney vitality. Here you have the cause of your ill-health.

Wouldn't it be wise to use a tried-and-tested remedy like Dr. Hamilton's Pills—they cure that "ailing" feeling in one night. Next morning you feel like new—bright, fresh and happy. Appetite improves, dull, sallow color grows ruddy and clear, proving that great good is being done by this scientific medicine.

Thus writes Mrs. D. F. Fowler, from Yarmouth: "I used to feel drowsy and heavy, my color was sallow, and there was usually a bad taste in my mouth. I had various pains all through my limbs, and on a...nything headache as well.

"After one dose of Dr. Hamilton's Pills there was a sudden change. I felt better, my appetite increased, and that exhaustion and depression gradually left me. Life seems all brighter and happier since I used Dr. Hamilton's Pills, so I strongly recommend such a good medicine."

Mrs. Fowler's letter is a message to you and all others in poor health. You can't do better than follow her advice. Dr. Hamilton's Pills you certainly need; then why not get them now and enjoy the abundant good health they are sure to bring you? Price 25c. per box, or five boxes for $1.00. At all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Peterborough Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

WM PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Miss Lillie Leach, of Cleveland, is visiting friends in the town and vicinity.

—Mr. and Mrs. T. Marshall, of Toronto, are registered at the Oriental Hotel.

—Miss Ethel Plummer, of Toronto, is in town on a visit to her sister, Mrs. A. Martin, Reid street.

—Rev. R. Bertram Nelles, of Port Hope, is spending a few days with Mr. and Mrs. Torrance Jack, town.

Mr. C. G. Graham returned Thursday night from New York, where he has spent the last nine weeks on business.

—Mr. Stevens, sales manager of the American Cereal Company, left yesterday for a holiday trip of about three weeks to Pittsburg, Pa.

—The Hastings Star says: Mrs. John Kellegher, of Peterborough, is spending a few days with her sons, Messrs. R. and M. Kellegher, Percy.

—Miss Bella Lillico of the Lakeside Hospital, Cleveland, Ohio, is home for a visit with her parents, Mr. and Mrs. Richard Lillico, North Monaghan.

—Elder VanHaricomb entertained the members of his Bible class to a trip around Stony Lake on Thursday with St. Paul's Young Men's Guild excursion.

—Mr. John O'Brien, of Gilmour street, left on Thursday for Arnprior, where he is employed in a dual capacity in connection with a large contract for concrete paving.

—Mrs. M. L. Henry and family, accompanied by Mr. and Mrs. Charles A. Kelly, have moved to their cottage, at Chemong, for the summer season.

—Last night the Misses May Denne and Clarissa E. Clementi left by the nine o'clock train for Millbrook. They will be the guests of Mr. and Mrs. A. St. A. Smith in that village over Sunday.

—Mr. William Fowler has returned from Kingston, where he attended the meeting of the Presbyterian General Assembly, as a commissioner representing St. Andrew's. Mr. Fowler reports having had a most enjoyable trip.

Local Incidents

BY THE THIRD MAN ON THE STREET.

—The ice dealers are wearing the smile that won't come off, until the coal dealers again begin to exercise their visibilities. 85 in the shade creates demand for ice.

—Mr. Cubbitt, the Charlotte street sporting goods dealer, reported a great demand for fishing tackle yesterday. Other dealers in tackle say the demand was up to that of last year.

—Now we will have to buy another steam engine; this comes at an inconvenient time; just as the Board of Education are asking the town to let them spend $100,000 on a Collegiate Institute.

—Port Hope Guide says: Licenses Granted.—A meeting of the License Commissioners for West Northumberland was held on Wednesday, when three months' licenses, dating from June 15th, were granted to Hotel Cedarmere, Cobourg and the Idyl Wyld Hotel.

—The Lindsay Post says: The steamer Esturion conveyed a party of bout two hundred residents of Bridgenorth and vicinity in town this afternoon. The excursion was under the auspices of the Methodist church. The party repaired to our town park, but finding no seats they scattered and made use of adjacent sidewalks by spreading handkerchiefs and newspapers. What they will have to say about our town park and council will not bear repeating. But there may be other excursions, and if our aldermen have any regard for appearances, they will secure fifteen or twenty comfortable seats at once.

Hastings Star on Late Mr. Coughlan.

In referring to the late Mr. Timothy Coughlan, whose death on Saturday morning was recorded in The Times, after making a very eulogistic remarks concerning the deceased gentleman, the Hastings Star says; "Death was due to apoplexy of the brain.

"The deceased was born in Hastings on October 9th, 1854, and was a son of the late Timothy Coughlan, sr. With the exception of a couple of years, which he spent in Toronto, he has resided in this village all his life. For a number of years he was the proprietor of the Coughlan House, but retired from this business in 1893. During the past seven years he has been engaged in the grocery and boot and shoe business. He took a deep interest in everything pertaining to the welfare of the village, and was a member of the village council during the year 1903.

In 1876 he was married to Eliza Tierney, who, with nine children, mourn the loss of a kind and affectionate father. Among his associates, and to those who knew him, he was as a boy and man, whole-souled and kind-hearted, and to his family he was one of the best of parents. He also leaves two brothers and two sisters, viz., Mr. John Coughlan and Dr. R. Coughlan of Hastings, Mrs. M. Walsh of Asphodel, and Mrs. Jas. Convey of Percy.

In religion he was a Roman Catholic and in politics a Conservative.

HOW TWO BEAUTIFUL WOMEN ESCAPED PELVIC CATARRH BY AID OF PE-RU-NA.

Female Weakness Is Usually Pelvic Catarrh. Pe-ru-na Cures Catarrh Wherever Located.

Mrs. Lizzie Redding, 3134 B Clifton Place, St. Louis, Mo., writes:

"I found after trying many different medicines to restore me to health, that Peruna was the only thing which could be depended upon. I began taking it when I was in a decline, induced by female weakness and overwrought nerves.

"I began to feel stronger during the first week I took Peruna and my health improved daily until now I am in perfect health and enjoy life as I never did before."—Lizzie Redding.

Mrs. Mable Bradford, 18 Church street, Burlington, Vt., Secretary Whittier Oratorio Society, writes:

"Peruna is certainly a wonderful medicine for the ills of women. I have heard it spoken of in the highest praise by many, and certainly my experience is well worthy of a good word.

"I began to have severe pains across my back about a year ago, brought on by a cold, and each subsequent month brought me pain and distress.

"Your remedy was prescribed, and the way it acted upon my system was almost too good to be true. I certainly have regained my health and strength, and I no longer suffer periodical pains and extreme lassitude."—Mable Bradford.

Thousands of Women Cured Every Year by Correspondence—This Is What Dr. Hartman Proposes to Do For You Without Charge.

Women who suffer should read the evidences presented here. We have thousands of letters from grateful friends who tell the same story.

Half the ills that are peculiarly woman's own are of a catarrhal character. Female weakness was not understood for many years.

Dr. Hartman deserves the credit of having determined its real character. He has made catarrh and catarrhal diseases, including pelvic catarrh a life long study.

Peruna cures catarrh, whether of the pelvic organs or any other organ of the human body.

Pe-ru-na, a Natural Beautifier.

Peruna produces clean, mucous membranes, the basis of facial symmetry and a perfect complexion.

The women have not been slow to discover that a course of Peruna will do more toward restoring youthful beauty than all the devices known to science.

Many a girl has regained her faded beauty, many a matron has lengthened the days of her comely appearance by using Peruna.

In Peruna these women find a prompt and permanent cure.

Thousands of testimonials to this effect are received by Dr. Hartman every year. The good that Peruna has accomplished in this class of cases can scarcely be over-estimated.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio. All correspondence held strictly confidential.

NOTICE TO EMPLOYEES

Employees of the American Cereal Company will report at the plant as follows:

Employees of the Elevator, Cleaning House and Dry House, Monday morning at 7 o'clock.

Employees of the mill at 6 o'clock Monday night.

Employees of the Packing Room Tuesday morning at 8 o'clock.

Y. M. C. A. Janitor Appointed

Mr. Richard Baker has been appointed janitor of the Y.M.C.A. building. This appointment was made on Wednesday at a Board meeting with Col. E. B. Edwards presiding. A special committee had been nominated to enquire into securing the services of a janitor and janitoress and recommended Mr. Baker and his wife respectively for the positions.

Pacific Coast Excursion.

During June, July, August and September the Chicago and North Western Railway will sell from Chicago, round trip excursion tickets to San Francisco, Portland, Ore, (Lewis Clarke Exposition), Seattle, Victoria and Vancouver at very low rates. Corresponding cheap rates from all points in Canada. Choice of routes, best of train service, favorable stopovers and liberal return limits. Rates, folders and full information can be obtained from R. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

Victim of Forgery.

A despatch from Port Hope says—Mr. John Wickett, merchant, has been the victim of a forgery, by which he was swindled out of $24.50. A young man unknown in Port Hope, entered his store and presented a note on a sheet of paper bearing the heading of Mr. E. M. Mitchell, of the Ontario Gardens. The letter stated that Mr. Mitchell was sending the bearer to Mr. Wickett's store, for clothing and wished to have cashed the cheque which accompanied the note. Mr. Wickett cashed the cheque but the forgery was not discovered until presented at the bank.

C. P. Yard Improvement

A gang of men are at work in the C. P. R. yards moving the water column at the west of the station about thirty yards further west. This is required in view of the fact that the 5.10 express which takes water here reaches out over George street under present arrangements and holds rigs and pedestrians as well as street cars for five minutes or so. With the water column in its new position this trouble and annoyance will be removed, and the street will always be clear.

Mr. McClellan, of T.V.C., Explains.

Mr. J. H. McClellan, Superintendent of the Trent Canal, yesterday advised The Times that he has received many complaints with reference to the high water in the back lakes, but that, while owners of islands are making objections, the lumbermen, navigators and manufacturers are better satisfied than ever. It is pointed out that if it were not for some of these industries many a man who spends his summer at Stony Lake would not be able to do so otherwise, and it is advisable that a constant and adequate flow of water be assured all the year round.

Park Street Baptist Church.

Special subjects for tomorrow. Morning, 11: "Distinguishing Marks of the Modern Christian." Evening, 7: "The Secret of Success for both Worlds." The ordinance of the Lord's Supper will be observed at close of evening sermon, when those recently baptized will take their first communion. Sunda school, with Pastor's Bible class, at three; subject, "Heaven." B.Y.P.U. Monday night. Public service Wednesday. Short, hearty services. Hymn books provided. Strangers made welcome. Rev. A. H. Brace, pastor.

Mr. R. W. Errett Accidentally Hurt

On Thursday afternoon what might have proved a most serious accident, occurred at Mr. Faint's mill, the Peterborough Mattress Company, near the Hunter street bridge. Mr. R. W. Errett, Dominion Inspector of Weights and Measures, not noticing that a trap door, in the floor immediately behind him, was open, stepping back, nearly fell through to the flat below, a distance of some eight feet. When Mr. Errett felt his foot fail to meet a solid floor, he, by a quick motion, managed to avoid falling through the trap, and sustained severe bruises and a general shaking up. Yesterday he felt pretty sore and stiff from his close call.

Lord Roberts Honored by Masons

Toronto, June 17.—At a meeting of St. Andrew's Lodge, A.F. & A.M., it was unanimously decided to tender to Lord Roberts an honorary life membership in the lodge. It was decided also to invite the field marshal to be the guest at the Masonic banquet on the occasion of his visit to this city in September.

The French Mediterranean Fleet

Gibraltar, June 17.—France's Mediterranean fleet is now lying off Tangiers, whither it has been sent in connection with the strained relations now existing between France and Germany over the Moroccan question.

Sickness steals more savings than the burglar. Slowly, coin by coin, the money that has been so hardly earned is paid out for drugs and doctors. Sickness is the worst enemy of the working man, and the common cause of the working man's sickness is disease of the stomach often involving the heart, lungs, liver, or kidneys.

The use of Dr. Pierce's Golden Medical Discovery will stop the stealing of the savings by sickness. It cures diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, liver, lungs, kidneys, etc., when these diseases are caused by the diseased condition of the stomach and its allied organs.

$500 FORFEIT will be paid by the World's Dispensary Medical Association, Proprietors, Buffalo, N. Y., if they cannot show the original signature of the individual volunteering the testimonial below, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuineness.

"About ten years ago I began to have trouble with my stomach," writes Wm. Connolly, of 108 Walnut Street, Lorain, Ohio. "It got so bad I had to lay off quite often. You advised the use of your 'Golden Medical Discovery' and 'Pleasant Pellets.' Am very happy to state that I commenced to get better from the start and have not lost a day this summer on account of my stomach. I feel tip-top, and better than I have for ten years."

Accept no substitute for "Golden Medical Discovery."

Dr. Pierce's Pleasant Pellets regulate the bowels.

"Never once bitten" is the report from the Cape by a user.

Young Lady was in a Trance for 15 Weeks

The Strange Circumstances Which Ended in the Death of Miss Grave of Chelmsford in London Hospital.

Miss Maude Mary Grave, a resident of Great Baddow, near Chelmsford, has died under remarkable circumstances. Miss Grave, who was aged thirty-two, for a long time had been in indifferent health. Early this year she appeared to improve, until one day she suddenly fell into a trance. For upwards of a fortnight she lay as one dead, and then seemed to show signs of returning consciousness, moving a hand perceptibly and seemingly trying to speak, but apparently she did not recognise anyone around her. She continued in an unconscious state altogether for fifteen weeks.

During her trance Miss Grave was conveyed on April 15 to Guy's Hospital, London. Her case, however, baffled all medical skill, and she died without having regained consciousness. A post-mortem examination showed that Miss Grave had been suffering from meningitis, but the actual cause was pneumonia, which had supervened.

At Guy's Hospital the treatment usual in a case of catalepsy was carefully followed for three weeks, but with negative results. The lady was evidently a victim of melancholia, and lay continually in a heavy stupor. There was reason to believe that during some of the time she was in the hospital she was conscious of what was passing around her and could also recognise people, but she made no sign. It appeared as though she were overwhelmed by some great sorrow, upon which her whole mind was centred.

NEW WAR CLOUD ON THE HORIZON

France and Germany on the Eve of Conflict

PREPARING FOR TROUBLE

Both Countries in State of Unrest—French Premier Takes Important Portfolio

London, June 19.—While the surface indications are that the danger of a rupture between France and Germany over Morocco is past, confidential advices from Paris received here are to the effect that the situation is still one calling for the best diplomacy, if trouble is to be avoided. It is known that plans for the general mobilization of the French army and navy are being pushed rapidly, and there is an air of feverish anxiety at both the War Office and the Admiralty. All leave in all branches of the service, both in the army and in the navy, has been stopped, and regimental officers out of their country has been ordered to join their regiments forthwith. Repairs are pushed at the navy yards. The greatest secrecy prevails as to the movements towards mobilization.

ROUVIER FOREIGN MINISTER.

Paris, June 19.—Premier Rouvier announced at a meeting of the Council of Ministers held at the Elysee Palace at noon to-day that he had definitely decided to permanently retain the portfolio of Foreign Affairs and relinquish that of Finance.

M. Rouvier's decision to remain in the Ministry of Foreign Affairs was the result of the earnest request of President Loubet and his colleagues who desired his strong hand at the helm during difficult negotiations with Germany over Morocco. The status of these negotiations continues to give the French officials great solicitude as no progress is being made and the parties are almost at the point of having reached a deadlock.

A DIFFICULT SITUATION.

Paris, June 19.—The Figaro says the conversations which are going on between France and Germany relate to something more than the Morocco question, which is merely a pretext for opening up a general discussion between the two Governments.

Nevertheless Germany wants the Morocco question settled before any thing else. Should France agree to the international conference proposed by the Sultan of Morocco, it is probable that the diplomats would meet in Paris and not in Fez.

Germany desires to obtain from France a guarantee that the latter will not try to isolate her, either by negotiations that would tend to impair the Triple Alliance by relations of close intimacy with Germany's rivals or by other means. Germany desires a plain and exact assurances that France is not and will not be against her.

AUSTRIA AND ITALY.

Tangier, June 19.—Austria and Italy have notified the Moorish Government that they are prepared to accept the Sultan's invitation to an international conference on Morocco, provided the invitation is accepted by the powers immediately concerned.

German Activity at Fez

Fez, Morocco, June 18.—Much significance is attached to the numerous private audiences which Count von Tattenbach-Ashold, head of the numerous private audiences which German mission, has had with the Sultan since the arrival here of the British Minister, Gerald A. Lowther. There is reason to believe that the principal subject of discussion has been Germany's willingness to help the Moorish Government in the work of reform, and it is understood that in the event of the ultimate rejection of the proposed international conference on Morocco, Germany will make definite proposals to undertake the reorganization of certain government departments now included in the French reform project.

LABOR SCANDAL IN CHICAGO

Sensational Disclosures are Made by John C. Driscoll

Chicago, June 19.—The greatest labor scandal Chicago has ever known, according to State Attorney Healy, is to follow the disclosures made before a Grand Jury by John C. Driscoll, formerly secretary of the Associated Building Trades Council, and of the Coal Team Owners' Association. Driscoll revealed the history of the dealings between employers and union labor leaders, particularly that branch of union labor represented yb the Chicago Teamsters' Union. It is learned that one of the statements made by Driscoll to the jury was that President Shea of the Teamsters' Union, accepted $6,000 at the time of the stock yards strike last summer.

DUKE OF SUTHERLAND'S VISIT

Scottish Nobleman Delighted With the Progress of Canada

Toronto, June 18.—The Duke of Sutherland and party arrived in Toronto yesterday by the steamboat express from Owen Sound, after a tour through the west. After spending the day seeing the sights of the city, he left by the 10 p.m. train for Ottawa. The Duke, who has been travelling from New York, via San Francisco to Vancouver, interviewed before his departure for Ottawa, said; "I think the country is going on in a most extraordinary way. It is developing very extensively, and the glowing accounts which one hears so frequently concerning it are, in my opinion, fully justified. This is not my first visit to the North-West, for I was there last spring, and though, of course, one does not expect to notice much alteration in the course of a year, its development seems to be in every way satisfactory."

"So that you are in every way pleased with your visit?"

"Yes, indeed, and I should like to see more people from Great Britain come out here to visit this country, because we want to get settlers of our own race here."

NEW SUBMARINES BUILT

New Type of Fast Boat Constructed in Britain

London, June 19.—In the ship-building yard of Forrest and Company, at Wivenhoe, on the river Colne, under conditions of the greatest secrecy, there has just been completed a new type of submarine boat which carries two torpedo tubes, and will have a crew of three men. It is so small that it can be easily raised from the water on board the deck of the battleship, or put on a railway truck and conveyed from one part to another.

The following are principal dimensions; Length, 34 feet; diameter 6 feet 9 inches; displacement when submerged, 17 tons.

Electricity is the sole motive power, the use of petroleum being entirely discarded, and the boat, when submerged, will have a speed of eight miles an hour. It is declared that, as the submarine will ordinarily be carried on board a battleship or cruiser, where it will be ready for instant consignment to the water, the fact that being electrically driven, it will have smaller radius than a petroleum boat, is no disadvantage.

Submarine trials were successfully conducted yesterday, but before the tiny craft was allowed to enter the water certain difficulties had to be surmounted. The submarine has been built in a shed, the doors of which were kept locked night and day. Certain Government officials kept a vigilant watch on the yard. The builders had to give written assurance that the vessel would not leave the country without due notice being given the authorities.

OUR FISH INDUSTRY

Last Year's Catch was 2,815,765 Over the Preceding Year

Mr. S. T. Bastedo, Deputy Commissioner of Fisheries has issued his report for 1904.

Notwithstanding that the season was also in opening, being from two weeks to one month later than usual, owing to the long and extremely severe winter of 1903-04, it is gratifying, Mr. Bastedo says, to report that the fishermen have had a very prosperous year, judging from the returns, which show that the catch was 2,815,765 pounds greater than in 1903. Prices for all kinds of fish have ruled high. The total quantity of fish taken was 24,069,970 pounds, the estimated value of which was $1,790,229. Licenses to fish with 2,490,625 yards of gill nets, 514 pound nets, 473 hoop, 120 seines, 76 deep nets and 3 machines, besides several thousand hooks have been issued. Fishing has given employment to 3,125 men and 128 tugs, and 1,477 other boats have been in use. The number of prosecutions were somewhat fewer than during the previous year.

Regarding the depletion of international waters, Mr. Bastedo lays the blame for excessive fishing on the American fishermen and authorities, as the failure to provide protective measures and to regulate the fishing was indefensible and unjustified. From the increasing number of fishermen, and the improved means of handling the nets, he says, it is evident that if something is not done the lakes will be exhausted. No sane people can expect, he adds, that the Canadians will enforce measures to prevent such a calamity which are accepted by the Americans. The Federal Commission, whose work will likely be undertaken in 1905, should attend to this matter as well as that of close seasons.

The same danger has been noted in inland waters, where Canadian and American sportsmen for some time threatened their depletion. For four seasons, however, the Government, aided by the railroads, has been restocking these waters. Last year was most successful, 12,955 bass having been deposited.

A Close Call.

Two Ladies Meet with Mishap, and Narrowly Miss A Collision

On Saturday morning two ladies from Monaghan, driving into town on Charlotte street, at the street car crossing, tried to pass a loaded waggon. A slight stoppage was caused by the wheels partly locking, which caused a street car approaching, to take an involuntary share in the mix-up. The motorman, not expecting the vehicles in his way to suddenly come to a standstill, had considerable trouble in preventing a serious collision he put on his brakes full force but the car's momentum was too great to bring it to so abrupt a stop. The fender ran beneath a projecting wheel of the buggy, before the latter had become disengaged.

The two occupants were thrown out, the rear wheel passing over the limbs of one. No blame attaches to the motorman, and it was only by his prompt action in conjunction with the conductor that serious results were averted. The lady, who beyond the nervous shock received, was not seriously injured, was removed to the residence of Mr. Armstrong, and after a short period of rest was able to proceed.

Premier Whitney as a Possibility In Federal Politics--Hon. Mr. Tarte Thinks So.

Presence in the Ontario Cabinet of Messrs. Foy and Reaume is a Favorable Omen, and "Old Conservatives," Since Tuesday's Bye-Elections, are Said to Have Predicted Mr. Whitney's Early Appearance at Ottawa.

Montreal, June 18. — Hon. Mr. Tarte thinks Premier Whitney may be a possibility in Dominion politics.

"Sir William Meredith," he says, "a man of the greatest possible value as a jurist, attempted to upset Sir Oliver Mowat by making an anti-Catholic campaign, as George Brown had done against Sir John A. Macdonald.

"After a prolonged and fruitless effort, Sir William Meredith was replaced as leader of the Conservative party by a less brilliant man, who changed his policy and returned to the healthy traditions of the Cartier and Macdonald school of politics.

"Mr. Whitney is today prime minister of Ontario, and he has in his cabinet such Catholics as Hon. Messrs. Foy and Reaume, the latter a French-Canadian.

"Old Conservative journalists expressed in our presence, on the day of the Conservative defeat in London and Oxford, the opinion that perhaps Mr. Whitney would appear on the federal scene at a not remote date.

"Although we have doubt of such an event, yet we admit that it is quite possible.

"What a pity it was that Mr. Borden had not acted like Sir John A. Macdonald in 1875 and in 1877, when the old statesman gave his support to the hostile government on the question of Catholic rights in matters of education!"

Referring to the present European complications, Mr. Tarte says in La Papatrie:

"At critical moments one is always sure to find the English people united in the patriotic view that the interest of the country must be the first and supreme consideration —Great Britain first of all, and political interests after."

Monument to Their Memory

A Correspondent Asks: "Have the School Board Dropped Their Plan of Procuring a Monument to Their Memory At the Public's Expense?"

(To the Editor of The Times.)

Dear Sir,—Have the School Board dropped their plan of procuring a monument to their memory, at the public expense, or will the town vote on the $100,000 appropriation this month as first intended?

If it was quiet to me, on such an important subject, involving as it does, a sum of money sufficient to keep our tax payers guessing for years to come, that none of the local papers discuss or express any opinion about the matter. I am given to understand, rightly or wrongly, that your paper is in favor of the Collegiate Institute, still I hope you will allow me to express my sentiments, as a taxpayer, concerning this great imposition, that will, unless the taxpayers awake to their danger, be foisted upon them.

I, like very many other citizens, favor building a Collegiate Institute, but within reasonable limits of expenditure. I would like some one to solve this conundrum:

A man instructs his agent to erect a certain building, to cost, him, the employer, a certain sum, places this fixed sum wholly at his disposal to spend on the specified building; after the agent has spent one-fifth of the amount on land for the building, has engaged an architect to draw plans for the building as described by his employer, or in full knowledge of the amount to be spent, and then turns to his boss and says, "Well, the architect has made some very pretty plans for your building. I have bought the land all ready for it, but, unfortunately the plans show clearly that the building will cost at least double what you purpose spending; now I want you to give me double as much as you intended, and could afford to spend, and further, I really do not know even what I am to pay the architect in fees, but, will you trust me with this extra amount and let me go ahead?"

What would any business man reply to such a question? Why, most assuredly he would say "No, sir, you are not the man to handle my money, I cannot trust you in this particular. You are doubtless honest enough regarding your personal dealings, but I cannot trust you to throw away money I can ill afford. You know how much I authorized you to spend on my building; if your architect had such high flown ideas, you should have let him know that the suit must be cut according to the cloth, in which case the architect would have drawn plans for a building for use rather than ornament; you should have learned exactly what you would have to pay him. I do not insinuate that you are lacking in personal honesty, but you are not the man I can trust to squander my hard earned money. Judging by your record in this matter you may start this building and before it is finished make a still further demand on my purse. I do not trust you in this matter."

This, sir, about expresses the opinion of many of our citizens; the School Board is composed of men whose personal integrity and honor is above reproach, but their action concerning the Collegiate Institute is lacking in business methods, it savors of a desire for erecting a permanent monument to themselves to be paid by the tax payers, it determines me to vote against a vast sum of money being handed to them to squander recklessly.

I do not, again I repeat, accuse the Board of any shadow of dishonesty, but they should, before committing the taxpayers to an expense of the original $50,000, have let them know that this sum would not begin to erect such a building as the Board had in mind or they should have let the architect know the amount they were limited to. The taxpayers will, if this is voted on, show the amount of confidence the Board inspires. Without trying to resurrect any bygone scandals as to contracts for supplies in the past, and the public knows the action or lack of action in the past. I would close by saying that unless the taxpayers would plunge into a vortex of unknown addition to the rates, they will vote down the ridiculous expenditure of $100,000 towards a building to house some 165 pupils, of whom a fair proportion are non-residents, the children of people who do not pay one cent towards Peterborough's taxes. I am sir, yours,

UTILITY, NOT A MONUMENT.

AS OTHERS SEE US

THE BEETON WORLD MAN'S OPINION OF PETERBOROUGH

Interesting Reference to Local Men and Matters

The Beeton World says; The most successful excursion in many years was that run under the united auspices of the Thornton and Ivy Orange lodges to Peterborough on Wednesday of last week. The trip had been well advertised, and notwithstanding the busy season it was well patronized. The train left Thornton station about 7.10 on the morning of the excursion with a fairly representative contingent of South Simcoe people — every place from Tottenham, Allliston, and Collingwood, as far as Orillia, being represented. The efforts of Jupiter Pluvius to dampen the enthusiasm of the pleasure-seekers had no effect whatever, and the rain ceased long before the destination was reached. We arrived in Peterborough about 11, and those who had never been in the Electric City before were in a measure prepared for the great sights yet in store by the fine suburban residences, with their trim cut hedges and bankage, and stately drives, near the railway track, and finally, as the train pulled into the Grand Trunk station, the incessant din and roar of immense factories, made us realize that we were in the heart of one of Ontario's most progressive manufacturing towns. The excursionists, who numbered in the neighborhood of five hundred, were met at the station by Mr. George Hartley, deputy-master of Diamond L.O.L. No. 80; Mr. J. B. McWilliams, past county master, and Alderman Joseph Batten, representing the Town Council, who all extended us a cordial welcome to their beautiful city, and an invitation to the Orange lodge rooms, which are certainly a credit to the members of the order in Peterborough.

After dinner, the first object of attraction was the lift lock, which proved a source of wonder and admiration to the excursionists; next the power house, the dam on the Otonabee river, the cereal works, where most of the breakfast foods we use are manufactured, such as Quaker Oats, the immense grist mill—all were inspected. We were shown through the large Y.M.C.A. building by the genial caretaker, Mr. Robert Wilson, past district master. This building is charmingly situated on the west side of George street, overlooking on its left this large drill shed park. The building has a magnificent library, reading room, class room, and is equipped with gymnasium, plunge bath, and basket ball ground. The Y.W.C.A. was the next object of attraction Then the various industrial establishments were visited, and the interest of the visitors was never allowed to wane, But the industry which, perhaps, caused most comment among the young men was the mammoth pork packing establishment of George Matthews & Sons, who also carry on similar industries at Lindsay and Ottawa. Here undiminished interest was maintained from the time the hog was driven from the car until it passed through the different stages, and was finally converted into pork, lard, sausage, The harness emporium of B. F. Ackerman, employing about sixty-five hands, was the next point of attraction. We were then ushered through the Cordage Company building by a courteous young lad from the office of that establishment.

Continued on Page Two.

A True Philanthropist

A Local Merchant, to Save a Friend, Inundates His System With Buttermilk

About ten days ago, three local merchants happened to meet in the place of business belonging to one of the trio.

It seems that one of those present has been "hitting it up," in other words, drinking too hard. We will call the three respectively A, B and C, of whom C was the one too fond of his "high-balls."

A giving the wink to B, who at one time used to take too much himself, but who, for years, has never over-stepped the narrow line between sobriety and the other condition, and lead him on to give his experience of former days coupled with his battered condition since using more common sense. B, understanding the situation, expressed very freely his opinion of men who cannot control themselves, saying that a man unable to limit his drinking is better dead, being no use to himself or the community. During the conversation C sat quietly but figetted and squirmed, picking at his coat buttons.

Saturday evening A and B happened to meet in a local store. A, whose more immediate friend is C, recalling the conversation they had aimed at C, said, "Look here old boy, next time you undertake to give a temperance lecture, please choose some one else than a friend of mine. Your remarks had the desired effect on C, but you have pretty nearly killed me. You know I take a horn myself, in moderation, but the day after our former talk, C came to me, and said if I would confine myself to buttermilk he would quit whiskey and do the same. Say," continued A, "I have, for six days drank nothing but butter-milk, buttermilk, buttermilk, till I dream of churns and sour cream!"

NEW VESSEL CONSTRUCTED

Bridgeport, Conn., June 19. — A boat is being built by the American and British Manufacturing Company, which is intended to be the fastest craft ever made. For some reason, all information regarding the boat is withheld. It is known that the keel has been laid, and that it is to be built after the Herreshoff model, that it will be driven by 50 horse power motor, and that it will be able to go 45 knots an hour. The dimensions of craft cannot be learned, and it is said that only those directly interested will be permitted to witness the installing of the power. It is expected that the new boat will revolutionize torpedo boat building.

The European Crisis Continues Acute.

Great Britain Has Made It Clear That She Will Stand by France, and Will, Independently if Necessary, Put a Stop to the Kaiser's Interference in Morocco.

Paris, June 18.—The efforts to secure a diplomatic adjustment of the Franco-German controversy relative to Morocco remains without definite results and the negotiations while not suspended, make practically no progress.

France has not given her final response to Germany's movement for an international conference and the officials do not confirm the German press reports that France has definitely rejected the proposal for a conference.

For the present Premier Rouvier is turning his efforts towards learning what Germany desires to accomplish by a conference, as it is the view in official quarters that some of the chief objections to the conference may be removed by having its plans and purposes exactly defined.

In the meantime sentiment in high quarters remains most solicitous concerning the outcome of the negotiations and sinister reports circulate concerning the possibilities resulting from a complete failure to reach a diplomatic adjustment.

TRAMPS DESERT THIS PROVINCE

Old-Time Nuisance has Been Practically Removed

Toronto, June 17. — Ontario is at last free from the tramp nuisance. After spending nine days in travelling from one end of the Province to the other, covering in that time 2,300 miles, in search of tramps, Provincial Detective Rogers reports that he did not discover a single specimen of the old time variety that stole rides on freight trains and bothered the housewives in the towns and country districts. He did find a considerable number of British immigrants out of work, some of them loafers, but these men he did not class as tramps.

With Detective Rogers were four assistants. They made a very careful inspection of the railway yards and old lounging places, but the tramps are missing. The railway employes, conductors and engine-drivers had seen very few tramps on the lines this year, they said. The police reported to the same effect. Since the railway officers and local police began to give tramp work special attention six years ago, the number of tramps has been gradually growing smaller, with the result that thefts and other crimes have decreased appreciably. According to the detective the train hands are very thankful to the Government for removing one of the most dangerous elements they had to contend with.

Obituary.

Death of Mrs. David Lemay on Saturday.

The many friends of the late Mrs. David Lemay, an old and highly respected settler in Peterborough, will regret to hear of her death on Saturday at the residence of her son-in-law, Mr. H. LeBrun, 366 Simcoe street. Both the late Mr. Lemay, once prominent in Peterborough's commercial circles, and Mrs. Lemay, were always greatly esteemed by all who knew them.

Mrs. Lemay was 71 years of age and leaves, besides Mrs. LeBrun, several children to mourn her loss. The funeral will take place this morning from Mr. LeBrun's residence, and proceed to St. Peter's cathedral, thence to the Roman Catholic cemetery for interment.

Death of Little L. Gadoues.

The many friends of Mr. and Mrs. Joseph Gadoues, 121 George street, will be grieved to learn of the death of their nine year old son, Lennon. The little fellow was only taken ill on Thursday and although all possible medical aid was procured, life could not be saved, death coming at three o'clock Saturday morning, the cause being inflammatory trouble. He is the second of three sons, and was a lad of much promise. The funeral was held yesterday at 3 p.m., from the family residence to St. Peter's cathedral, and thence to the Roman Catholic cemetery.

Runaway Accident.

Mrs. Adams of Omemee Badly Hurt By Runaway Team.

On Friday last, two ladies, Mrs. Adams, of Omemee, and her daughter, received a bad fright and the former a severe bruising, by involuntarily becoming the hurdle in an obstacle race in which the horses had entered without consent of their owners.

The two ladies, in a covered buggy, were driving to Lindsay and within a few miles of that burg were overtaken by a runaway team attached to Nelson Hull's milk delivery waggon. The maddened animals fairly leaped into and passed over the rig, occupants and horse in their path, and Mr. Carscadden, who witnessed the accident from a distance, says he fully expected to find the two ladies crushed to death. However, Miss Adams escaped the iron-shod feet in some wonderful way, but her mother was not so fortunate—she sustained a number of severe bruises and complained of not being able to use one of her arms.

OFFICERS SHOULD INTERFERE.

Public Enjoyment at Our Band Concerts Marred by Noisy Boys.

Youth will have its fling and boys will be boys all the world over! There are, however, times and places where the exuberance of youth should be quietly transferred, by the law's strong arm, to more appropriate environments. We would not advocate supressing boyish spirits and put a damper on their legitimate enjoyment, but there are, as noted, times where the noise made by perhaps twenty or thirty boys spoils an evening's enjoyment for many hundred people of all ages.

We refer to the unruly conduct of boys every night the band plays in Victoria Park.

There are hundreds of tired mothers and children who, once a week, attend these band concerts, and we feel no exaggeration in saying that for the vast majority, and for all who really appreciate good music, the evening's enjoyment is lessened, if not entirely marred, by the ever-present crowd of boys, who rush screaming, yelling and hustling all bystanders within a radius of 100 feet of the band stand.

If these boys must have their outing, and the outing is incomplete without unlimited screaming and rushing about, let them gently, but very firmly, be given to understand it must be transferred elsewhere, and not at the expense of spoiling the evening for hundreds who do not, as often as they, get out for an evening's pleasure.

If for one or two band nights these boys were made keep within reasonable bounds of consideration for other's feelings, by an officer, they would soon become welcome instead of dreaded at the park.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL.

BASEBALL.

Toronto lost their final game with Baltimore by 3 to 2.

Providence defeated Buffalo by 8 to 1.

Montreal shut out Newark.

Jersey City defeated Rochester.

BOWMANVILLE WON.

The local baseball nine journeyed to Bowmanville Saturday to play the leaders in the Midland League. When they arrived there they were dismayed by finding that Mull Douglas, their slab artist, had failed to connect, owing to some misunderstanding. But, instead of defaulting, the locals decided to give Bowmanville a game, as a defeat would not by any means put them out of the running. Bowmanville won out. Peterborough, Cobourg and Lindsay have each dropped two games, while Lindsay has not yet won a game.

BASEBALL CHALLENGE.

The Alerts Baseball Club, of Toronto, have written The Times to say that they desire to arrange for a game of ball here on July 1st. The club would like to hear from some local baseball club with a view to arranging terms for a match. For particulars apply to Palmer E. Rogers, 46 Empress crescent, Toronto.

LACROSSE.

The Tecumsehs defeated St. Kitts at this island on Saturday by 6 to 3. 3,000 people witnessed the game.

Toronto defeated Brantford on their own field by 9 to 6.

Epworth League Convention, Denver Colorado, July 5th to 9th, 1905

The Official Route selected by Canadian Epworthians and their friends is via the Chicago, Union Pacific and North Western Line, the only double track railway between Chicago and the Missouri River. Low rates open to all. Liberal time limits. Write for Epworth folder and other Colorado literature, including Denver hotels and boarding houses. Special train of tourist sleepers carrying Canadian Delegation will leave Chicago, 10.30 p.m., Monday, July 3rd. Diagrams of sleepers, now ready for assignment of space, on application to B. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

To Get Bracing Health—Feel Good—Sleep Well—Enjoy Life, Use

FERROZONE

A TRUE NERVE TONIC

When you read the following experience of Mrs. N. E. Peabody, of Trenton, you will realize what enormous benefit such people get from Ferrozone.

Every woman will recognize in Mrs. Peabody's case symptoms from which she has suffered herself.

AMONG HER TROUBLES WERE:

Headaches,	Weariness,
Nervousness,	Weakness,
Palpitation	Loss of Flesh,
Dizzy Spells,	Poor Appetite.

HER STATEMENT.

"I was stricken with nervous disease of the heart and stomach. Violent headaches made life a torture. I was so nervous and weak I could scarcely walk. Work was impossible, I couldn't eat or digest anything. When completely wrecked, Ferrozone restored me. To-day I am vigorous and strong and well."

Thousands of men and women are unable to do work requiring power of body and mind. Let them take Ferrozone. It restores the energy of youth, gives back vital stamina, creates reserve force. No medicine on earth contains such concentrated nourishment. Price 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

PETERBOROUGH, JUNE 19, 1905

THE UTTER IMPOTENCE OF RUSSIA

The Government of Russia seems equally powerless to make peace or war. In spite of enormous expenditures for men and material, more than half of which seems to have been stolen or wasted, Russia has not gained a single battle, and has lost every campaign. Now she seems at the end of her resources of men and money and material. The only prospect before her is the same complete extinction of fighting forces on land that she has suffered on the sea.

Any other government in this deplorable case would hasten to make peace at once on the best terms it could get. The Russian people would be only too glad of peace on any terms. We are accustomed to say that the Russian government, regardless of the wishes of the people and intent only on its own selfish interest is unwilling to make peace even on terms of reasonable moderation.

Perhaps this is unjust. It begins to look as if the Russian autocracy, enfeebled by corruption, disorganized by terror, divided against itself and out of touch with all the bodily, mental and moral health of the nation, is no more capable of making peace than it has been of making war. The autocracy has failed utterly in every function of human government, since it turned its back upon the sound economic policies of de Witte and began to chase the rainbow of remote Imperial aggrandizement with Alexieff.

It may have achieved such complete paralysis of every government function, may have lost so entirely control of its own material and instruments, that it cannot make peace or maintain it when made. The Japanese seem to apprehend something like this when they hint that any treaty made by Russia must be guaranteed by the powers.

There is nothing more pitiful in the history of despotism than the Czar's desire to put upon a popular assembly responsibility for making peace he dares not assume himself. After refusing to trust even the educated people with a share of the government in prosperous times, the despotism turns to them to bear its burdens in adversity. If this is not the beginning of popular government in Russia, we think it is the end of despotism. The autocracy is committing moral suicide by confessing its incapacity to govern.

THE BURDEN OF EMPIRE

In response to a motion by Sir Edgar Vincent, M.P., the British Government submitted to Parliament a few days ago a return "of the naval expenditure of this country in the years 1890, 1900, 1901, 1902, 1903 and 1904, and of the naval expenditure of France, Russia, Germany, Japan and America in the same years." The returns show that Great Britain has all along been spending nearly as much on naval construction and maintenance as the other four greatest powers combined. For the last four years, viz., 1901, 1902, 1903, 1904, the total figures are as follows:

Great Britain ...	$736,134,475.
France	$252,158,265
Russia	239,747,985
Germany	202,368,875
United States	346,103,610
Total	$736,134,475 $1,034,376,725

Such is part of the burden of empire—another part being the maintenance of land forces not so numerous as those of several other powers, but as expensive as any save those of Germany.

It is almost inconceivable that the naval expenditure alone of Britain should be at the rate of seven to eight hundred millions of dollars in four years—but so it is.

The Ottawa Journal thinks that the condition helps to excuse growling at the idea that Canada might be able to save $100,000 out of the three or four millions we spend on our defensive outfit, military and naval.

EDITORIAL COMMENT.

It is now on foot to connect Lake Erie with the Ohio river by a ship canal, capable of bearing boats of 2,000 tons' burden, and assuring connections between Pittsburg and the south and the great lakes, or through the Erie Canal with the Atlantic Ocean. Announcements as to proposed canals in Pennsylvania and Ohio are more explicit than they have ever been before. Should this project materialize, another source of danger to Niagara Falls will become apparent.

• • •

Canada competes fairly with the United States in the means of fostering trade with the West Indies. The one grievance in Barbados against the Canadian steamship service is that the line holding the subsidized contract between Canada and the West Indies is not using sufficiently large steamers to cope with the increasing freight requirements. No efforts have been made to place additional steamers on the route.

• • •

"A flash of red and then the spot where the train had been," is the way the passage of the initial east-bound fast special from Chicago to New York is described. A mile was run in 32 seconds. The rate at times was from 60 to 100 miles an hour—an average of 56 miles an hour for the whole distance, including stoppages.

AS OTHERS SEE US

Continued from Page One.

Failing to obtain admission to the Canada General Electric Company's Works, locally known as the Edison works, which is walled in from the outside world, and a turnkey put "on the lock" to allow of the passage of employes, we next turned our attention to the Shovel Manufactory, which is expected to be in operation about October 1. Other points of interest were the Peter Hamilton and William Hamilton foundries, the Lock Works, the Auburn Woollen Mills, and the various canoe factories.

Three good dailies are printed in Peterborough—the Review, of which F. H. Dumbo, is managing director; the Examiner, Hon. J. R. Stratton's paper, edited by Dr. F. R. Yokleson; and the Times, of which the hereditary William Hepburn Robertson is proprietor. The last named is a morning paper, the two former evening journals. There are one or two job offices. One of the finest church properties in the province is that on which stands St. John's church, of which the Rev. John Clayne Davidson, son of a former rector of Tecumseth, is rector. This edifice, which is of stone, ivy-covered, is situated on the crest of a hill, over looking the town and river in front and the beautiful court house park in the rear. The church is open at all hours, and the rector is one of the best beloved men in all the town. Long may he be spared to proclaim the Divine message and by his kindly advice continue to cheer the down hearted and pour balm upon the troubled heart. The Roman Catholics also have a fine cathedral, St. Peter's, near which is the episcopal residence of the Rt. Rev. Richard Alphonsus O'Connor, Bishop of Peterborough diocese. The town boasts two fine hospitals—the Nicholls hospital, endowed by the late Mrs. Nicholls, and St. Joseph's (R.C.) across the river in Ashburnham. Several of us made a trip across the iron bridge spanning the river on Hunter street to this charming suburb, and found it to be a place of considerable size, and boasting some magnificent residences. Many of Peterborough's professional men reside in Ashburnham, which takes its name from the Burnham family.

Now, a word as to the police. Peterborough is to be congratulated in possessing a fine-looking body of "coppers." You could travel a week before you could find a finer specimen of manhood than George I. Rousel, the stalwart chief, and several of the ladies on the trip lost their hearts to Charlie McGinty, and small blame to them. Bob Adams and Jim Stewart are both good subjects for an artist's brush.

Beyond a doubt, Peterborough, with its beautiful churches and schools, its numerous industries, attractive public buildings and parks, its excellent hotels, shady streets, cement sidewalks, comfortable homes and courteous inhabitants, is an ideal objective point for an excursion. There are many other points of interest, but I'm afraid your readers will think somebody has lately wound me up. All I need add is, that everybody voted the trip a success in every respect, and look forward to visit Peterborough again at no distant date. The train was in charge of Mr. A. McDonald, conductor, with N. Smith and J. Grose as brakemen. The driver was W. Campbell, and O. J. Thompson, fireman. The officials in charge are deserving of special mention for the ability and courtesy they showed in the discharge of their duties.

Ayer's Sarsaparilla. Mends shattered nerves. Gives a healthy red to pale cheeks. Puts good flesh on thin children. Takes off pimples, rashes. Ask your doctor to tell you about it. J. C. Ayer Co., Lowell, Mass.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion land in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up, the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

BEFORE TREATMENT AFTER TREATMENT

Peter E. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me, guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man, I consulted the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves—I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

Call and get full particulars. Watch for description of this property in The Times.

Thos. Patterson & Co.,
FISCAL AGENTS, PETERBOROUGH.

THE DOUBLE DIVIDEND MINING & EXPLORATION C

Double Dividend but no double dealing

A Treasure vault of ores, and a Treasury Stock that soars

PROPERTIES AT BULLFROG, NEVADA, AND AT WALL STREET, OOLO.

A constant producer. 50,000 tons of milling ore blocked end in sight, with 4,500 feet of development. $25,000.00 worth of improvements. 110 acres, 50 acres patented. Past production $250,000.00 No debts. A block of treasury stock for sale at 2 cents, to complete mill and develop Nevada properties. Send card for the WESTERN EMPIRE, containing particulars.

RESPONSIBLE REPRESENTATIVE WANTED

The Double Dividend Mining and Exploration Co.
210 GIDDINGS BUILDING, COLORADO SPRINGS, COLO.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least a thousand acres more. In all nearly five thousand acres, which will not be used out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

JOIN AFRICA TO GREAT BRITAIN

New Railways to Permit Direct Journey From England to Khartum

Washington, June 17.—Within a few years it will be possible to go from London to Khartum, Egypt, by railway, with ferries across the English Channel, the Bosphorus and the Red Sea. Taking the train in London, you will follow the regular route of The Orient Express through France and southern Germany to Vienna, Budapest, Belgrade and Sofia, to Constantinople. There you will cross the Bosphorus into Turkey in Asia, and running southeastward to Aleppo, will there take the French line now under construction to Damascus and follow the east bank of the Jordan southward into Arabia, to Mecca. At Jeddah, the seaport of the Holy City, a ferry will take passengers across the Red Sea to Suakim, Egypt, where they will there resume their railroad journey via Berber to the ancient and historic City of Khartum, at the junction of the Blue and White Nile. The journey ought not to take more than five or six days, and I have no doubt that through trains will be equipped like those which crossed Siberia before the beginning of the present war.

There are several wide gaps between Constantinople and Jeddah at present, but they are being rapidly closed up. The Turkish Government is building from Damascus southward, a French syndicate is building northward from the same point, and a German syndicate, in which French, English, Belgian and Italian capitalists are also interested, is constructing the line from Constantinople to Bagdad, and expects to push it through Persia Persia down to the Persian Gulf, a distance of 1,862 miles from Constantinople. The contractors have promised to complete the road in five years.

The track has already reached Eregil, and the surveyors are now selecting a route across the Taurus Mountains, where the greatest engineering difficulties have been encountered, and the most costly construction will be necessary.

This road will make accessible to tourists and open to commerce the most interesting country in the world, except the Holy Land. It will follow the banks of the Euphrates to the land of Eden, the cradle of the human race, and touch nearly all of the countries associated with Old Testament history. Ur of the Chaldees, the ruins of Babylon, Nineveh, and other most ancient habitations of men will be found among the stations on the time table; and Mesopotamia, which was once the most populous, the most productive and the richest section of the earth's surface, will be reclaimed by the introduction of capital and labor, and the restoration of the irrigation system which was destroyed many centuries ago. For transportation Mesopotamia now depends entirely upon caravans of camels, and a few small boats upon the Tigris and the Euphrates, and its commerce is comparatively small. Its area, according to the gazetteers, is 180,000 square miles, and its population about a million and a half, nearly all of them being Bedouin nomads engaged in raising cattle and sheep, with only enough agricultural products to sustain themselves.

Bagdad is the commercial center and has a foreign trade of about $12,000,000, almost equally divided between imports and exports. The chief exports are wool, carpets, hides, skins, licorice root and mohair, and the imports are cotton goods, refined petroleum, hardware and other necessaries of life.

Big Strike of Foundry Men

New York, June 17.—A strike, inaugurated by the International Brotherhood of Foundry Employes against the New York and New Jersey Foundrymen's Association, has extended rapidly. There are 2,000 men now out here and in the New Jersey plants. To-day 2,000 brass workers quit work, and 1,000 more, including the core makers, will be out by the end of the week. It is claimed every foundry in New Jersey will be closed by the strikers.

Murphy's Fake.

Murphy Tries by Unskillful Lies to Obtain His Son.

Fortunately for this poor little boy, Murhpy, who, as will be remembered by readers of The Times, was kept in dirt and misery last winter by his father, the misrepresentations and lies told by the elder Murphy to Mr. Fair, of Cavan, were too transparent. The boy, a smart little fellow, was taken away from a father who did not properly house or support him, and handed to care of the local Childrens' Aid.

At the time of the trial Murphy raised considerable objection to the Magistrate's decision, and Thursday night, accompanied by another man, drove to the residence of Mr. Fair, of Cavan, with whom the boy had been placed. In his new home the boy was seemingly well-cared for and happy, but Murphy decided to take him away, possibly to once more keep him in a filthy cow shed as before. On arriving after midnight, Murphy woke up the Fair household and demanded the boy, representing his companion to be a constable, and saying he had "the papers to get him."

The men, in whose care the boy was, refused to give him up, believing that the story the man had told was an improbable one. He said that if the boy was wanted, he would take him into town himself, but that he could not give him to the men in that manner. Finding that their mission was to prove fruitless the two men left the place.

The man who had the boy, thinking perhaps that it would be better to take him to the Shelter, hitched up early Friday morning, and before the people of the shelter were up he arrived here with young Murphy and left him in charge of Mr. Henry, where he is now.

Mr. Cochrane and Mr. Dennistoun were communicated with, and the former is on the look out for the two men, Murphy and his companion, who are liable to get into trouble for their action.

Sport and Adventure with Rod and Gun

If you like to read of the experiences of anglers, shooters and campers, or yachting; or if you are interested in country life, ask your newsdealer for "FOREST AND STREAM," or send us twenty-five cents for four weeks trial trip. BETTER THAN GOLDFIELDS NEVADA

The East Pacific Mining Co.

OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at the mines; to install an electric power line; a large compressor and hoist capable of sinking the property at least one thousand feet deeper; and to build a concentrating mill to treat the 23,000 tons of second class ore now already out on the dumps.

CONCENTRATING MILL IS NOW IN PROCESS OF ERECTION.

It is expected to be completed and in full operation inside of sixty days, when stockholders can be assured of receiving regular monthly dividends of from 2 to 5 cents per share.

For any further information address

W. K. HALL
Fiscal Agent, East Pacific Mining Co., Peterborough, Ontario.

DYSPEPTIC

FOOD DOES YOU NO GOOD.

Half the time you're afraid to eat, your tongue is coated, mouth tastes bad, stomach is bloated. If you want to get well, stop using dyspepsia tablets and go to the source of the trouble before it is too late. Strengthen your stomach, cast out the bile, regulate the bowels—do this and dyspepsia will be no more.

For your condition the best prescription is Dr. Hamilton's Pills which are made specially for the stomach, kidneys and liver, no better remedy will ever be devised, for Dr. Hamilton's Pills are perfect. To the overworked organs they give new strength. The general health is built up, and all trace of dyspepsia disappears. Here is proof;

FIVE YEARS OF DYSPEPSIA CURED

"No one could realize my sufferings from stomach trouble and indigestion. For five years I have not been well. My food did me no good because I couldn't digest or assimilate. My doctor said constipation was at the root of my trouble, so I got Dr. Hamilton's Pills. My appetite improved, pain after eating ceased, and my food digested quickly. I was so delighted with the thorough cure I derived from Dr. Hamilton's Pills."

(Signed) "MARTIN E. WALKER.
"Bridgewater."

Quick results attend the use of Dr. Hamilton's Pills; this medicine cures all trouble in the stomach and digestive organs by removing the cause. You feel uplifted and strengthened at once. Get Dr. Hamilton's Pills to-day, and refuse any substitute. Price 25c. per box, or five boxes for $1, at all reliable dealers, or by mail, from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Rev. J. H. Toney, of Omemee, was in town on Saturday.

—Mrs. (Rev.) E. A. Langfeldt, is visiting with friends in Orillia.

—Mr. and Mrs. Geo. H. Johnston, Rochester, N. Y., are registered at the Snowdon.

—Mr. Walter McCarthy, St. Bernard Seminary, Rochester, is visiting his aunt, Miss McCarthy, Simcoe street.

—The Tweed News says; Mr. P. O. Dumble, of the Ontario Bank, spent Sunday in the lake district north of Peterborough.

—Mr. R. J. Winch, who has been spending a few days at his cottage, Stony Lake, is in town. He will return this week.

—Mrs. Ross, of Montreal, with her little daughter, Dorothy, are visiting with Mrs. Ross' friends, Dr. J. T. and Mrs. Halliday, 457 Water street.

—Mrs. J. H. Joslin, of Alpena, Mich., left for Claremont Saturday, after a two weeks' visit with her friend, Mrs. B. Hudson, Stewart street.

—Rev. E. A. Langfeldt yesterday celebrated his thirty-sixth birthday. Many friends wished the energetic rector of St. Luke's church very many happy returns of the day.

—Mr. T. L. Armstrong, of Waterloo, inspector of the Waterloo Fire Insurance Company, has adjusted the loss in connection with the recent blaze at McAllister's mill.

—Mrs. Wm. Lang will receive for the first time since her marriage, at her home, 23 Gilmour street, on Wednesday afternoon next, June 21st, from 3 to 5 o'clock and in the evening.

—Mr. J. P. Hoag, B.A., of Brantford, who was English master in the Collegiate Institute there, but has just been appointed Public School inspector for the city, is in town conferring with Inspector D. Walker.

—The Lindsay Post says; Mr. H. Pierce, of Peterborough, paid our town a business visit yesterday. Mr. Wm. Rudkins, revenue officer, Peterborough, was in town yesterday. Mr. J. W. Brightman, of Peterborough, was in town to-day.

The Havelock Standard says; Rev. H. Caplan, of St. John's church, has received a letter from Mrs. Tandy, expressing her gratitude for the prayers of the church people in Havelock for the recovery of Rev. W. R. Tandy, who is improving slowly. Mr. Tandy has had to give up the work of his Master for the present. His friends here, of whom he has hundreds of all denominations will be pleased to hear of his improving condition of health, and will hope for his speedy recovery.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Police Court on Saturday had "nothing doing."

—The Town Council will meet this evening for general purposes.

—A meeting of the Manufacturers' committee was held Saturday evening.

—Mr. G. N. Graham shipped nine fine horses to Toronto Saturday morning.

—The annual church service of the local Orange Lodges will be held in St. John's church on Sunday, July 9th.

—The ordination of the elders of Knox church took place yesterday morning. Those ordained were Messrs. Morrison, Shea and Bennett.

—Yesterday morning Rev. J. W. Tenny preached in St. John's church and in St. Luke's in the evening. Rev. E. A. Langfeldt taking his own service in the morning.

—The 57th Regiment will not be affected by the recently announced proposed regimental changes. A dispatch from Ottawa, on this subject, does not include the local regiment.

—The services at the Murray street Baptist church yesterday were held in the auditorium, which since the recent repairs presents a greatly improved appearance.

—If any young women have not yet handed in their share books in connection with the Y.W.C.A. building fund, will they kindly hand them to the general secretary before July 1st.

Record Riverdriving

—The Lakefield News says; Mr. Giles Stone, forman for the Dickson Co., made a record this spring in bringing a drive of logs from Buckhorn to Lakefield. Mr. Stone and his gang of men brought the drive down in nine days, which is the best time ever made between those two places. The drive was assorted here and taken to Peterborough.

Mrs. Davis Remembers Y.W.C.A.

The reading room of the Y. W. C. A. will be especially attractive this summer. In addition to the magazines and papers already on the tables, the following will begin with the July number: Leslie's Monthly, McClure's, Current Events, Pictorial Review, Good Housekeeping, Boston Cooking School, Table Talk, Scribner's, Everybody's, Harper's Bazaar, and Woman's Home Companion. Three magazines have been placed in the Y. W. C. A. through the never failing kindness of Mrs. A. L. Davis.

Council Should Accept

Generous Offer Made by Peterborough Light and Power Company Towards Lighting Jackson Park.

Without meaning any ingratitude to Peterborough's kind benefactress, the late Mrs. Nicholls, there is no doubt that as far as public enjoyment of our park system by night is concerned, this town has been lamentably deficient.

Up to this writing, with the exception of the comparatively insignificant Central park, on George street, we have never had a park where, after nightfall, ladies, or even men jealous of their reputations, can in comfort and safety enjoy themselves. As far as Victoria Park is concerned, we understand that public sentiment has, at last, caused our city fathers to begin arrangements for making this pretty breathing spot safe for all, by having it properly lighted. This little spot, whilst a very beautifully laid out and decorated square, is more in the nature of a garden than a park where the general public can, after the day's toil is over, stroll or sit

A proposition will probably be submitted to the Council at their next meeting for lighting Jackson Park, in so safe and thorough a manner that ladies or children can, unaccompanied by escort, wander about its broad acres, and enjoy the evening breezes under nature's primeval trees. The plan that will be suggested includes sufficient light to make the whole place glitter and gleam like a veritable fairyland.

Mr. H. O. Fisk, electrician of the Peterborough Light and Power Co., has made a careful survey of the park and finds that by placing one 16 candle-power lamp for every one hundred square feet, or in other words, a lamp that will throw its rays to where those of the next one will fully communicate with them will give brilliant light. The Light and Power Co. will make an offer that in its generous proportions and patriotic significance must appeal to all citizens of the town, they offer to pay all expenses of wiring and getting the lighting system ready to have the illuminating power turned on, providing the town will grant only $100 towards the expenses, they will further supply the power for nothing.

Now this beautiful park, which was given to our citizens free of all expense by the late Mrs. Nicholls is, as soon as darkness envelopes it, practically, a forbidden land to the large majority of our citizens: by having the place lighted, as suggested, hundreds of tired men, women and children will, every fine night, for months, be only too glad to escape the usually stifling atmosphere of their houses for a few hours' enjoyment with nature augmented by science.

A few carpers may say the Street Railway people are influenced in their generous offer by sordid considerations of increased railway traffic: even though this were so, their offer is one that will give pleasure and health to thousands during July, August and September. They, the company, also propose to erect a band stand, so that one night a week the good people, so many of whom do not own summer residences, can have music amid beautiful, healthy and safe surroundings.

Whilst The Times consistently advocates economy in expenditure of the ratepayer's monies, we feel convinced that no one will object, considering the philanthropic assistance generously offered, should the Council spend $100 in making a beautiful park, that is now, by night, inavailable, and which cost the town nothing to purchase, so good an outing spot for all.

Burleigh Falls Hotel Busy.

Mr. T. H. Darey, the genial host at Burleigh Falls, is kept busy night and day now providing for his guests' comfort and amusement. The recent fire, by which the old hotel was burnt, does not seem to have lessened the trend of trade towards this ever-popular summer resort. The new building is being pushed to completion as fast as skilled workmen can hustle, and, in the meantime, Mr. Darey's guests, who are now arriving daily, are made quite comfortable in his commodious cottages. This is certainly the queen of all Peterborough's summer outing places, and mine host Darey knows how to use his guests right.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & CO. Toledo, O

Sold by Druggists, 75c.

Hall's Family Pills are the best.

Indian River Convention.

Tomorrow delegates to the one hundred and third annual meeting of the Peterborough Association of Baptist churches will meet at Indian River.

The session will cover three days' proceedings, which include, among other interesting events, addresses by Rev. A. H. Brace, Rev. L. McKinnon, Peterborough, Rev. E. Norton, Toronto, Rev. J. G. Whiten, Picton, Rev. J. E. Trotter, Port Hope, Rev. R. Wallace, Belleville, Rev. R. Kelly, Bailieboro, Rev. J. P. McLennan, Campbellford, Rev. Jas. Deason, Norwood, Miss I. Fisher, Peterborough, and others.

—The steamer Beaver arrived Saturday morning from Gore's Landing, the Water Lily from Norwood, and the Rainbow from Birdsall's, each with a full complement of passengers.

EVERYBODY READS THE TIMES

A Nervous Woman

Will often feel compelled to stop the clock whose ticking seems unbearable to her. In such a nervous condition the woman needs a building up of the entire system. It is useless to attempt the cure of the nerves while the cause of the nervousness remains uncured. A very common cause of nervousness in women is a diseased condition of the delicate womanly organism.

Dr. Pierce's Favorite Prescription cures womanly diseases and the nervousness which they cause. It changes irregularity to regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It is a perfect tonic and nervine, tranquilizing the nerves, promoting the appetite and inducing refreshing sleep.

"I was so nervous I had to have some one by my side all the time, even in the daytime, and I could hardly eat anything," writes Mrs. Selma Erickson, of 496 Rice Street, St. Paul, Minn. "I quit all the doctors and began taking your medicines; I gained right along. I am as well and feel as good as ever."

$500 REWARD! FOR WOMEN WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

VOL XXXIII NO 144 PETERBOROUGH ONTARIO, TUESDAY JUNE 20 1905 PRICE TWO CENTS

Four Men Perished on a Burning Steamer.

Steamer City of Collingwood Destroyed by Fire Yesterday Morning--Grand Trunk Wharves and Freight Sheds Also Destroyed.

Collingwood, Ont., June 19.—Four men burned to death, the Northern Navigation Company's steamer City of Collingwood a charred hulk, and the Grand Trunk wharves and freight sheds, with their contents, totally destroyed, is the result of a disastrous fire which occurred here this morning between 2 and 3 o'clock. The dead are: James Meade, fireman, Prescott; Lyman Peters, deck hand, Owen Sound, married; A. McLennan, deck hand, East Tawas, Mich., and one deck hand, name unknown. The loss on the steamer is estimated at $125,000 fully insured in British Lloyds. The loss on the Grand Trunk Railway freight sheds and their contents, and on the wharves is from $10,000 to $15,000; no insurance.

The fire was discovered on board the steamer City of Collingwood shortly after 2 o'clock, at the time it had seized the centre part of the steamer almost from side to side. An alarm was given at once, but owing to the rapidity with which the flames spread, it was impossible to reach the different parts of the vessel occupied by the crew. One of the unfortunate men, Meade, is said to have been aroused and reached the deck, but was overcome by the smoke before he could reach the gangway.

Killed His Wife With Hatchet

She Objected to Him Groaning While in Pain--When He Realized What He Had Done He Tried to Commit Suicide.

Buffalo, June 19.—Vincenzo Govidono is under arrest, charged with the murder of his wife early today by beating her to death with a hatchet. Vincenzo is said to have admitted his guilt, claiming that his wife had objected to his groans due to a severe pain, and had gotten up in the night, and, securing a hatchet, had attempted to assault him. He wrenched the weapon from her, and in a frenzy struck her down. When he realized what he had done he tried to kill himself with the hatchet. His head is badly cut, and he was well nigh unconscious from loss of blood when taken to the hospital. The couple were close to sixty years of age. Govidono's wounds are serious, although not necessarily fatal.

WARSHIP FOR CANADA WATERS

Will Support Claims of American Fishing Fleet by Armed Vessel

WILL ISLAND BACK DOWN?

Americans Believe Newfoundland Government Will not Enforce the Bait Restrictions

Gloucester, Mass., June 19.—While the fishing interest is practically unanimous that a warship should be sent to the Treaty Coast of Newfoundland to protect the rights of American fishing vessels, some believe there is no immediate necessity for so doing. Those who advise a waiting policy believe Newfoundland intends gradually to back down from her position in debarring all American vessels from bait and other supplies of that colony. They believe that no trouble will be experienced in a matter of securing bait for a fleet. What they are looking forward with concern to, is the attitude of the Newfound fishermen on the herring question late in the fall and in the early winter. It is asserted here that under the treaty of 1818, American fishing vessels have a right to seine their own herring supply. They base their anticipation of trouble on events which led up to Fortune Bay riots in 1877-78. Since then Americans have employed native fishermen and no trouble has resulted. Now it is proposed again to seine herring in Newfoundland waters. In order to obviate another uprising, it has been circulated here that the presence of American warships in the herring districts will have a salutary effect on the natives and will prevent any interference. To this end the plan is to have a United States cruiser dispatched quickly to these waters, to remain until all possibility of trouble is passed. This presupposes that the general government will lend a favorable ear to the plans of the fishermen.

BIG INDUSTRY FOR WELLAND

American Company to Invest $1,000,000 in a Cordage Plant

Niagara Falls, Ont., June 20.—The Plymouth Cordage Company, of Boston, has optioned 153 acres of land in Welland, and will invest a million dollars in a plant to employ five hundred men. The town will give a fixed assessment and extend its boundaries to include the works. The announcement of the location of the plant has started a boom in Welland and real estate values are rushing skyward.

At Humberstone, Richardson Richards, of Toronto, has secured 650 acres for a manufacturing concern, the name of which he will not divulge. Cash has been paid for a part of the land. Rumor connects the United States Steel Company, Swift and Company, and a big cement company with the purchase. Power for both concerns will be furnished by the Ontario Power Company of Niagara Falls.

High Court of Justice

Hon. Justice Meredith will Preside To-day--Non-Jury Cases

The following cases will be heard at the Non-Jury sitting of the High Court of Justice before Hon. Mr. Justice Meredith to-day, June 20th.—Burnham v. Michels and Earl. The plaintiff, Maria M. Burnham, in her statement of claim, alleges that the defendant Thos. Earl entered into possession of certain lands in the Township of Otonabee shortly before the death of the late John Burnham, and claims that the latter had agreed to sell the lands to him, the particulars not being known to the plaintiff. Defendant refuses to give up possession of said lands. Plaintiff pleads that agreement was not put in writing, also pleading in reply, the benefit of Statute of Frauds. Plaintiff claims possession of the lands, $100, profits, and costs of the action.

The defendant, Thomas W. Earl, claims that he was prior to the commencement of the action in lawful possession of the lands, his co-defendant, Lawrence F. Michaels, being his tenant, and sets up the statute of limitations as defence.

Denniston, Peck, Kerr and Stevenson, plaintiffs' solicitors; John Green, solicitor for the defence.

This case of Darnley v. Cornell, adjourned from the spring assizes, will also probably receive a hearing.

Farmers' Institute.

Annual Meeting of West Peterborough's Farmers' Institute

There was a fairly good attendance on Saturday when the Farmers' Institute of this riding held their annual meeting.

Mr. William Collins, secretary, presented the report of the Executive Committee which congratulated the members on the successful season they have had, good prices and crops tending to reassure all concerned. He remarked that the prospects were bright for good crops this fall. The secretary whilst deploring some small attendances at certain meetings, attributed this, in part to interference by the Dominion elections. Mr. Collings, in referring to certain meetings said;

"At our regular meetings in November, with Messrs. Kydd and Glendenning, at Lakefield, we had an attendance of forty in the afternoon and about four hundred at night, with six addresses. Next day at Peterborough, 15 in the afternoon, and 40 in the evening; at North Monaghan 7. On this last day Mr. Carlow spoke instead of Mr. Glendenning.

"At the Supplementary Meetings, our delegates were Mr. Sherrington and Mr. R. H. Field.

At the fourth line of Smith, the afternoon attendance was 40, and the evening 80; seven addresses. At Enniamore next day the afternoon attendance was 40, and evening 275, eight addresses being given. At Stewart's, Otonabee meeting, the attendance in the afternoon was 25; evening 95; seven addresses being given."

Mr. Collins spoke at some length concerning the recent excursion to Guelph, saying that about 600 attended it, and said that they were well received by the Agricultural College authorities.

The following directors were elected;—

North Monaghan — J. A. Brown, G. W. Bennett and T. M. Hunter.

Smith — John McConkey, T. J. Cullen, A. W. Mann, J. Stothart, R. C. Garbutt, T. B. Young, Chas. Moore, Fred McKee, T. T. Milburn.

Lakefield — R. Q. Dench, F. K. Cline, G. K. Galvin.

Peterborough — G. M. Elliott, G. W. Fitzgerald, R. H. Leary, J. K. A. Fitzgerald.

Enniamore—P. Costello, S. O'Reilley, John K. Galvin, John Telford, Daniel Crough.

Otonabee—R. Hanbidge, S. Dayell, S. Matchett, Robt. Chambers, W. B. Stewart.

Harvey — Alex. Nicholls, A. Wilson, John Purser, Jas. McGuire.

Auditors—Joseph Barnard, Jonathan Smythe.

The meeting expressed themselves in favor of taking no action in asking a grant of $25 from County Council for purpose of sending exhibits to the Toronto Horticultural Show.;

The meeting then adjourned.

A meeting of the directors then took place at which the following officers were elected;—

President—J. T. M. Hunter, North Monaghan.

Vice President—John N. Telford, Bridgenorth.

Secretary-Treasurer.— W m. Colling, Peterborough.

An Unsanitary Building

The Town Building is now in a Condition That Menaces Health

It is a well known fact that our town building is unsanitary, and that the general condition of its atmosphere is not calculated to induce longevity among those compelled to spend many hours a day confined within its walls.

This summer the state of things seems worse rather than better; the police station and cells, the clerk's office and even the rooms upstairs fairly reek with a sickening smell.

This foul smelling atmosphere is supposed to arise from the pound immediately beneath the police station, which was, previous to completion of the building a back yard containing an objectionable building. We are told that proper sanitary precautions were not adopted to do away with possible future trouble.

Whatever the cause, the fact is patent to any one entering the premises these hot days that the place must be most harmful for all civic employes located in this building, and something should be done before an epidemic siezes upon our officials.

Should typhoid or diptheria engendered by this foul smelling building, cause sickness, the town may face a law-suit for damages.

ROJESTVENSKY INVITED DEFEAT

Sensational Stories of Battle Told by Russians

AMMUNTION WAS SHORT

Crews not Trained in Gunnery—No one Knew Anything of the Plans of Rojestvensky

Vladivostock, June 20.—A series of interviews which the correspondent of the Associated Press has had with naval officers who survived the battle of the sea of Japan has developed a most sensational story of the causes of the Russian disaster, first of all, and the complete demoralization which followed the sinking of the flagship Kniaz Souvaroff and the wrecking of Admiral Rojestvensky. It is explained that not a single officer of the fleet knew the commander-in-chief's plans. The admirals in command of divisions knew no more than the lieutenants and had to rely only on the signals of the flagship. Admiral Nebogatoff, on whom the command developed, had seen Rojestvensky only once after the juncture of their squadrons and then only for fifteen minutes.

All the stories of extensive target practice in Madagascar, it seems, were false. During the entire voyage there practically was no training in gunnery worth of the name and the big gun practice was confined to three shots per vessel.

UGLY STORIES ARE TOLD.

Ugly stories are told of the happenings at Madagascar.

Some of the crews certainly were untrained in gunnery and exhausted by the eight months' voyage under trying moral and physical conditions, were no match for the veteran Japanese, whose marksmanship was wonderful. The Japanese concentrated their fire on one ship until she was placed out of action, and then on another, thus successively sinking the Oslabya, Alexander III. and Kniaz Souvaroff.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. CHENEY & CO. Toledo, O.

Hall's Family Pills are the best.

A REIGN OF TERROR

Leading Official of Local Institute Finds Building Apparently Deserted

Shortly after the morning services were over Sunday noon, the intangible demon of terror stalked abroad, throughout a leading local philanthropic institution, chuckling with unholy glee at the discomfiture of his victims, who with blanched faces and dishevelled hair, had rushed from every quarter of the C.A.W.Y. building to a common meeting place for mutual protection and sympathy.

A leading official of this most admirable and truly feminine institution, returned from church, on entering the building was surprised to see none of the usual welcoming fair faces about this hall or offices. At a loss to understand this unusual phenomenon, the lady at once started on a circuit of the various halls and rooms, to obtain an explanation.

The first floor was thoroughly searched and no one found. Becoming alarmed at the unwonted silence and lack of the anticipated chat, she hastily and anxiously opened door after door without finding anyone. Something dreadful must have occurred! "Where have those girls gone?"

Possibly, visions of black-bearded, and sinister-visaged tramps, filled her mental vision. Again the search was resumed, room after room was empty. What has happened? At last a subdued murmur of voices rendered almost hoarse by fright, drawn the searcher's strained attention in the right direction. With an impulsive and quick twist at the door handle, a frightened party are revealed, huddling together for mutual protection. Explanations were in order; the cause of trouble is revealed. A kitten belonging to the building had taken a fit.

EUGENE M'NICHOL DROWNED

Near North Bay on Sunday Afternoon, Trying To Save Another Man's Life--Body Will Arrive on Noon Train.

The sad news reached town late last evening of the drowning, near North Bay, on Sunday afternoon, of Eugene McNichol, who a short time ago left for that district, where he was engaged as a brakeman on the Temiskaming Railroad. No further particulars could be obtained other than those stated by a telegram bearing the sad news to the remaining members of the family. That the unfortunate young man lost his life trying to save a friend from a watery grave.

The body will arrive by the noon train today.

The deceased was well known in town, especially in athletic circles in which he took a great interest, being a valued member of the local lacrosse team. He was, until a short time ago, employed in the G. T. R. yards as brakeman.

Obituary.

Death of Mrs. Angus Williams at the Venerable Age of 80.

The death of Mrs. Angus Williams, who for many years has been a resident of Peterborough, occurred on Sunday at her home, Crescent street. She was about eighty years of age, and is survived by her husband, two daughters, and three sons, Mrs. D. Crough, of Enniamore, Mrs. O'Donnell, at home, Messrs. Eugene, Angus and Ned, of Toronto.

The funeral will take place this morning at nine o'clock

Death of Edward Hammond.

Edward Hammond, an inmate of the House of Providence, died Sunday night. Deceased was seventy-two years old, and death was due to old age. The late Mr. Hammond came from Otonabee township. The funeral will take place today to the Roman Catholic cemetery.

CEREAL WORKS RE-OPEN MONDAY

Many Hands, For Sometime Idle, Now Kept Busy.

Yesterday morning the hum of whirling wheels and the hurrying footsteps of hundreds of employees was to be heard for the first time in several weeks at the American Cereal Company's works.

There is every indication that the works will now continue in active operation both night and day, as the company have large orders on hand for export goods, including shipments to Great Britain and Ireland, South Africa and Australia.

It is expected that fully 400 hands will be employed among the various departments.

A supply of 75,000 bushels of oats is already on hand from Chicago. About 40,000 bushels of oats are expected daily by way of Midland. The industry will use some 23,000 bushels a day in turning out its products for the foreign market. The fact that the mill has started up again in full blast will be welcome news to all.

Last Sad Rites.

The Late Mrs. David Lemay Laid to Rest in the Tomb.

Yesterday morning the esteem in which the late Mrs. David Lemay was held by all classes of the community was strongly in evidence, the attendance at the obsequies being very large and embracing representatives from every class and sect in Peterborough. Among those who attended the funeral from outside the town were noticed Mr. R. J. Gough, Toronto, who with his wife and three children are the guests of Mr. H. LeBrun; Messrs. Napoleon and Albert Lemay, of Rochester, N.Y., and Adolphus Lemay, of Syracuse, N.Y., the last three being sons of the deceased lady. Her daughter, Caroline, who is a sister of the order of Notre Dame, accompanied by another sister of the order, from St. Albans, Vt., near Cornwall, were guests of Mr. H. LeBrun. Another daughter, Mrs. Tilton, of Toronto, was also present.

The cortege started from Mr. H. LeBrun's, residence, 366 Simcoe street, at 9.30, and, in its following, were many of Peterborough's most prominent citizens.

The pall-bearers were Messrs. Jas. Dolan, John Corkery, Bernard Morrow, John Maloney, Louis LePlante and Thos. Kelly. At St. Peter's cathedral requiem mass was celebrated by Father Kelly. After mass had been celebrated the sad procession wound its way to the Roman Catholic cemetery, where Rev. Father O'Brien officiated.

Police Court

OFFICIALS

Chief of Police, G.I. Hunt

Magistrate, D.W. Dumble

John Strain spent last night reclining on the hard side of a hard hemlock plank in a guest chamber of the Hotel des Cops

John was yesterday afternoon found by P. C. McGinty in that happy (?) state of not caring whether the school keeps or not. John had patronized too many of our local dispensaries of the seductive 40 rod and had partaken not wisely but too often.

The officer had to procure a conveyance to bring John to the station.

He will explain this morning why he got into such a condition that it is necessary to use a shoehorn to get his hat on.

WEATHER NOTES.

Warm, with thunder showers.

The Inquest Resumed.

Dr. Amyott, Provincial Analyst, Toronto, Gives Testimony in Favor of the Prisoner, M'Cauliffe.

The inquest on death of late Fred Hudson was resumed last night in the Police Court, with Dr. Gray, coroner, presiding. Mr. Dennistoun was present on behalf of his client, McCauliffe, and Mr. Wood for the Crown.

The first witness called was Jas. Flynn, partner of the deceased in the Royal Hotel. His testimony differed little from that of former witness, and was of no fresh interest. He said he saw no implement in McCauliffe's hands nor after the blow was struck. He said from position of Hudson's body, when he fell, Hudson could not have been injured by falling against a spittoon. Had tried to hold McCauliffe after the blow had been struck, but McCauliffe's brother and others dragged him away and got him. McCauliffe, outside. Hudson was quite rational for days after taken to the hospital.

Doctor McCullough gave evidence, and read the report made by the medical men who performed the autopsy on the deceased Fred Hudson. Eliminating the technical medical terms, their report, so far as the purposes of the coroner's inquest goes, shows that Hudson whilst having died "directly from septic inflammation of the brain," he was in a most unhealthy condition previous to the injury, his kidneys, liver, heart and valves belonging to same, and other organs being in a state of fatty degeneration. Doctors McCullough and Greer both swore that, in their opinion death of Hudson was caused by the injury in the head.

Dr. Amyott, Provincial Analyst, Toronto, said that blood sample sent him arrived in decomposed state owing to bacteriological influence, and was greyish in color, and full of strepto-cocci, or pus forming bacteria. The samples, produced in court, of Hudson's liver, heart and kidneys, all had showed under microscopical examination, that degeneration and disease had been present previous to the blow which eventually, it is alleged, killed him. The liver in particular was absolutely degenerated and greatly enlarged, a result of alcoholism.

The remainder of the inquest will be given in tomorrow's issue.

Jackson Park to be Illuminated and Protected by Police.

Waterworks Commissioners Refuse to Let the Manning Wood Fibre Company Have the Site Picked Upon--New Steam Fire Engine Needed.

The City Fathers met in special session last night, when there were present Mayor Best, and Aldermen Johnston, Begley, Hicks, Mason, Crowe, Johnston, Leary, Hall, McIntyre, Tovey, Batten and Scott.

The minutes of the preceding meeting were confirmed.

Manning Fibre Company Proposition

In regard to the offer of the Manning Fibre Co. to favor Peterborough by locating here in return for a free site, exempt from taxes for 10 years, a communication from J. A. Manning was read, saying that as there is considerable timber adjacent to Peterborough and the Kawartha Lakes, suitable for the manufacture of "Excelsior," his company, the Manning Wood Fibre concern, would be pleased to receive from the town the use of that portion of the waterworks property lying between the river and the G. T.R. for 10 years, with the privilege of purchasing it at any time within that period, at a price to be agreed upon. They would also require a right of way through the town property lying east of the railway track to the roadway, with the privilege of grading, and the town could reserve access to the east end of the waterworks dam. Mr. Manning agreed to employ from six to twelve hands at the start, and he had no doubt but that this capacity would be materially increased.

It is safe to say that this matter will go no further, for yesterday, the Waterworks Commissioners very properly refused to let the Manning concern have the site opposite the waterworks dam they had picked upon, and Ald. Hicks telephoned J. A. Manning to that effect, incidently suggesting that he could purchase a very suitable site below the dam from the Township of Douro. The City Fathers have considerably cooled off the notion that an industry guaranteeing to employ a minimum of but six men has any claim upon the City of Peterborough in the way of special inducements to locate in our midst.

Where Did the Fence Go To?

The secretary of the School Board wrote the Council enquiring by whose authority the grand-stand and fence were removed from the Separate school grounds recently acquired for Institute purposes.

The grand-stand question had been considered before, but as to the fence north and east, in which was considerable lumber, its removal is not yet accounted for. The City Fathers know nothing about it, and the question still remains, "Who authorized the act?"

ROAD TO LIFT LOCK.

The Board of Works' report recommended taking steps toward securing a right of way through the Armour estate to the lift lock.

His Worship thought the Government should pay for this extension of Hunter street.

Ald. Adams opined the Government would do nothing of the kind.

The executors of the Armour estate will be asked to fix a valuation on the necessary property for this much needed extension.

NO FIRE ENGINE NEEDED.

Ald. Johnston presented the following report;

Gentlemen,—Your Fire, Water and Light committee beg leave to report as follows;

1. That the boiler of the steam fire engine is out of order and that we cannot recommend that it be repaired, as we believe it would be better to purchase a new steam fire engine of sufficient size and capacity for the requirements of the town.

2. We recommend that the chairman of this committee be instructed to dismiss S. F. Wainwright, and to advertise for a qualified engineer.

3. We received a verbal offer from the Peterborough Light and Power Co. to light Jackson park, provided the town contribute $100 towards the cost of the material. We recommend that, provided the Peterborough Light and Power Co. properly lights the park, the Council provide police protection for it.

4. We recommend that the petition for an arc light or incandescent lights on Chamberlain street be granted, and that the chairman of this committee and Ald. Tovey be authorized to decide which lights to use.

5. This clause recommended the moving of and alterations in a large number of street lights.

Ald. Johnston, in moving the adoption of the report, was not quite sure of the justice in dismissing Engineer Wainwright. He had certainly met with an accident with regard to the steam fire engine, and Ald. Johnston did not feel easy in pressing his dismissal without the support of the full Council. He invited discussion.

Ald. Batten pleaded with the Council to look at the matter from a "do as you would like to be done by" standpoint. Many good men, he said, are overtaken occasionally by mistakes. Wainwright's mistake was in not drawing his fire before shutting off steam when he found the water low. That is an oversight which occurs with many a skilled engineer; but it would not happen a second time. How many of us be asked, go through life free of mistakes? As to the engine, Ald. Batten offered that during 18 years service, it had had three set of flues, and consequently the crown sheet had been necessarily weakened.

This matter and that of purchasing a new steam fire engine or repairing the old one were referred to the Committee of the Whole, with power to act. The remainder of the report was adopted.

TO LIGHT JACKSON PARK.

Mr. Larmouth, of the Peterborough Light and Power Co., explained that they would supply free the current for 40 or 50 16 candle power lamps in Jackson Park, providing the town contributes $100 toward the expense of wiring. The company will wire to, and erect a transformer at the park entrance at a cost of $210, the town to pay for wiring from the transformer into and through the park, at a limit of $100. This was agreed to by the Council, and police protection furnished, as embodied in the Fire, Water and Light committee's report.

LIGHTS FOR ROGERS STREET.

On motion of Ald. Hall, five 32 candle power lamps will be placed on Rogers street, near Hunter street, Ward Five. This is a much needed improvement.

(Continued in tomorrow's issue.)

WORRY KILLING MANY

IMMENSE INCREASE IN HEART DISEASE IN NEW YORK

Hurry of City Life Blamed by Physicians--One out of Every Hundred Has Organic Trouble, While Other Ninety-Nine Suffer From Stomachs

New York, June 20.—An alarming increase in the deaths from heart disease presented by last week's mortuary statistics for this city has led to a comparison of data which shows that since 1898 the annual deaths rate here from heart failure and Bright's disease has grown from 13.05 to 19.02 per 1,000 population. This increase is considered alarming by authorities on the subject and is emphasized by the fact that 125 persons died last week from organic heart disease, when the rate the corresponding week in 1904 was only 58. Strain of business and the curse attendant on fierce competition in the financial center of the city and the struggle to gain wealth are given as an explanation by the physicians. To put their explanation briefly they declare the figures noted prove beyond doubt that residents of New York are living too rapid lives. Some of them say one person in a hundred examined has organic heart trouble and the other 99 have stomach affections, the latter being due to rapid eating.

Epworth League Convention, Denver Colorado, July 5th to 9th, 1905

The Official Route selected by Canadian Epworthians and their friends is via the Chicago, Union Pacific and North Western Line, the only double track railway between Chicago and the Missouri River. Low rates open to all. Liberal time limits. Write for Epworth folder and other Colorado literature, including Denver hotels and boarding houses. Special train of tourist sleepers carrying Canadian Delegation will leave Chicago 10.30 p.m., Monday, July 3rd. Diagrams of sleepers, now ready for assignment of space, on application to R. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

Aged Rebel Died in United States

Detroit, June 20.—A Marguette Michigan despatch says that Joseph Croistiere or Cruchia, is dead there. He was born near Ottawa, Ont., on July 4, 1780, and was therefore nearly 100 years old. He was for many years a woodsman in Northern Canada and a man of great strength and endurance. Cruchia took part in the rebellion of 1837-38, and for more than a year served as a spy for Papineau. He was active up to the time of his illness. He was the father of twenty children, eight of whom still live. His lineal descendants number 102 grandchildren, and 27 great grandchildren.

MEN AND WOMEN. One Big 6 for unnatural discharges, inflammations, irritations or ulcerations of mucous membranes. Painless, and not astringent or poisonous. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles, $2.75. Big 6 Co. U.S.A.

ADVERTISE IN THE TIMES.

"Now I Know the Joy of Health."

I am Brimming Over with Vitality —Appetite is Good—I Sleep Well—I Feel Happy.

FERROZONE

Made Me Feel Like New

One of the earliest settlers in the town of Turnbull, Man., is Mr. John W. McNichol. Everybody knows him; knows how poor his health was for years.

Thanks to Ferrozone, Mr. McNichol is a hearty, strong man today. Here is his statement:

"Last spring I was terribly run down.

"I was so completely fagged out I couldn't do any hard work.

"In the morning I was tired—my limbs ached all over.

"Appetite?—I simply didn't have any.

"Sleepless?—Yes, nervous and unhappy, too.

"I braced up at once after taking Ferrozone. It put new life and vitality into my body. My nerves are strong. I eat heartily, I sleep well. Now I know the joy of health.

JOHN W. McNICHOL."

Won't you take Ferrozone too? It's really a marvellous tonic, some people say there is almost witchery in the way it builds you up. It's concentrated nourishment — that's what Ferrozone is—just one chocolate coated tablet to take three times a day. No other medicine in the world restores so quickly. Price 50c. per box, or six for $2.50, at all dealers, or by mail, from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, JUNE 20, 1905

THE UNFORTUNATE PHRASE IN THE RUSSIAN STATEMENT

St. Petersburg resents the very frank talk of duplicity and trickery which the action of the Russian government since the opening of the peace negotiations has inspired at Tokio, Washington and London. Why should Muscovite diplomacy be under such suspicion? Whence this universal readiness to presume bad faith?

For an answer let the St. Petersburg politicians and nationalist editors turn to the last paragraph of the communication issued by the foreign office purporting to review and summarize the peace correspondence. That was the only businesslike, relevant and material part of the statement, and in view of Japan's well-understood position it was manifestly advisable for Russia to avoid all suggestion of condescension and patronage. Yet the paragraph reads as follows:

As for an eventual meeting of Russian and Japanese plenipotentiaries charged with ascertaining how far it would be possible for the two powers to elaborate conditions of peace, the imperial government would have no objection in principle to such an attempt if the Japanese government expressed a desire therefor.

Russia would have no objection if Japan expressed a desire! For whose consumption was this absurd and strange phraseology intended? We are told that the purpose of the government was to take the public into its confidence. But the language suggests that if the official reply to the President is in closer accord with the proprieties, the purpose was to delude the public.

We learn without the least surprise that the paragraph in question irritated the Japanese legation at Washington and caused considerable "nervousness" among the foreign ministers at St. Petersburg. What sort of an impression, one wonders must it have produced on the Japanese military leaders and on the Tokio foreign office?

A St. Petersburg dispatch informs us that Lamsdorff reassured the nervous diplomats by telling them the official statement did not reproduce the exact text of the note addressed to President Roosevelt. Charming simplicity on the part of the reassurer! Why was not the exact wording of the note given to the public? For what purpose was the change made? Was it not absolutely manifest that it was calculated to offend and excite distrust and apprehension abroad, though it might save the face of the government at home?

The definite announcement that Washington has been selected as the place for the peace conference would indicate that the matter has been passed over, but it remains an interesting example of the Russian way of doing things.

EVERYBODY READS THE TIMES.

THE PACE THAT KILLS OR LEADS TO INSANITY

Not long ago the press of the United States was pondering the significance of startling statistics of insanity in the large cities. According to a Chicago investigator, in New York, one person in every 340 is insane; in Boston one in 320, and in the western metropolis one in 400.

As to the cause of insanity there is little difference of opinion. Noise is notoriously one of them, as Rider Haggard pointed out on the occasion of his recent visit to the United States. The rush and excitement and restlessness of the strenuous chase after the dollar are another factor, and the principal one no doubt. In fact, the noise is a by-product of the storm and stress of our existence.

Just now New York physicians and health officials are explaining an alarming increase in the recorded deaths from heart disease. We give the figures in another column from New York, and they cannot fail to challenge attention.

"We are living too fast and working too hard," says Dr. Darlington, and the worst of it is that the "pace" entails anxieties, worries, struggles, that are not necessarily associated with mere hard work. It leaves no time and no mental reserve for reflection and the realization of the truth that there are higher, nobler, more satisfying things in life than wealth and social success. The true, the elevated pleasures are sacrificed to those which yield no real gratification, no recreation and invigoration.

Is there any large city in the country that can say, hand on heart, that it is without sin in this respect, and that it knows not the pace that kills? The disease, alas! is general, and if you will consult Chicago physicians they will say precisely what the Gotham specialists say. Organic heart trouble is very common, and stomach affections due to rapid eating and five-minute luncheons of our "busy men" with telephones attached to the tables, are even more so.

Bishop Potter, of Chicago, once advocated the formation of societies and groups in the cities for the purpose not merely of preaching but of exemplifying the sane, simple and dignified life. He wanted as members, men who put good health, a clear conscience, appreciation of whatever is lovely and of good repute and permanent worth in life about superfluous wealth and vain ambition. Will the distinguished prelate renew his suggestion. It was never more in order than now.

ENGLAND'S ALLY.

Lord Lansdowne, the British Foreign Secretary, recently made the statement that no matter which political party was in the ascendancy in Great Britain the alliance with Japan would be a part of its policy.

And therein England is wise. Recent events have demonstrated what a powerful ally Great Britain has in Japan, and entirely vindicated the judgement and foresight of the statesmen who concluded it. They make a formidable pair on both land and sea. England has the largest fleet in the world, and we have recently seen that the Japanese fleet is by no means deficient—to put it very conservatively. After the battle of Mukden, England congratulated herself upon her ally; and the battle of the Korean straits is calculated to increase her satisfaction.

And England can lay it all to her cleverness in knowing a good thing when she sees it. For when the alliance was concluded Japan was in the nature of an unknown quantity. No one knew what she could do against a first-class power.

CAMP REGULATIONS

B. Squadron Will Leave for Kingston Tuesday June 27

"B" Squadron 3rd P. W. C. Dragoons, Millbrook, will assemble at the armouries at 6.30 a.m., on Tuesday, 27th June, for the purpose of entraining to Kingston for the annual camp of instruction.

Clothing and saddlery will be issued on Saturday, 24th June, between the hours of 2 and 5 o'clock, also on Monday, 26th June, at the same hours.

Inspection of horses will take place on the above mentioned days and between the same hours.

Strong halter shanks must be supplied by the men for their horses in camp.

It is requested that the men club together and reduce the number of boxes and trunks taken into camp, as only a reasonable number will be allowed.

An experienced cook has been procured for this camp and good results are assured.

The railway line of transportation is indefinite. The officer commanding will be pleased to have a large turn out this year.

Efficiency pay will be allowed as follows: 1st year men 20c. per diem; 2nd year men 40c. per diem; 3rd year men 50c. per diem, in addition to regular pay.

W. T. HALL, Major,
Commanding "B" Squadron, 3rd P. W. C. Dragoons.

BIG G CURES

HER AND WOMEN.

Sold by druggists, or sent in plain wrapper, prepaid, for $1.00, or 3 bottles, $2.75.

CONDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder on payment of the purchase price, in cash or by cheque, accepted by a duly incorporated bank. Failing payment, they will be immediately re-offered for sale.

The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.

Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force, or which may be enacted hereafter.

Plans of limits offered for sale are opened for inspection in the Department of Lands, Mines and Fisheries in this city, and at the offices of the Crown Lands and Timber Agents in the different agencies in which said limits are situated, up to the day of sale.

N.B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.

ADELARD TURGEON,
Minister of Lands, Mines, Fisheries.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

No Names Used Without Written Consent.

O. W. Rowe, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of 8 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

140 SHELBY STREET, DETROIT, MICH.

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

Call and get full particulars. Watch for description of this property in The Times.

Thos. Patterson & Co.,
FISCAL AGENTS, PETERBOROUGH.

THE DOUBLE DIVIDEND MINING & EXPLORATION CO.

Double Dividend but no double dealing

A Treasure vault of ores, and a Treasury Stock that soars

PROPERTIES AT BULLFROG, NEVADA, AND AT WALL STREET, COLO.

A constant producer. 50,000 tons of milling ore blocked end in sight, with 4,500 feet of development. $25,000.00 worth of improvements. 110 acres, 50 acres patented. Past production $250,000.00 No debts. A block of treasury stock for sale at 9 cents, to complete mill and develop Nevada properties. Send card for the WESTERN EMPIRE, containing particulars.

RESPONSIBLE REPRESENTATIVE WANTED

The Double Dividend Mining and Exploration Co.

210 GIDDINGS BUILDING, COLORADO SPRINGS, COLO.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least a thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W K. HALL, Fiscal Agent, Peterborough.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

HOTEL MEN ATTENTION!

The Latest Summary of Chief License Inspector, Toronto

The chief license inspector has sent out to the Toronto licensed holders a circular containing a brief statement of the law. It states that a tavern license means one allowing the sale of liquor in quantities less than one quart, which may be drunk on the premises.

Only one bar shall be kept in any licensed house.

The bar-room must be closed to all persons, except members of the licensee's family, or domestic servants engaged in necessary work, between Saturday at 7 p.m., and until Monday at 6 p.m.

Light in the bar-room is a prima facie evidence that a sale has taken place.

Every tavern-keeper refusing to supply lodgings, meals, or accommodation to travelers is guilty of an offence under the Act.

No person of either sex under 21 years of age must be supplied liquor, or allowed to loiter around the bar-room or where liquor is being dispensed.

Drunkenness or disorderly conduct must not be allowed on the tavern premises. Nor must intoxicated persons be supplied with liquor.

No hotel-keeper must permit persons of notoriously bad character to meet on his premises.

Gambling or games for drinks are contrary to the law. So is an exhibition of curiosities, boxing, fencing or trials of skill. No entertainments of music, dancing, or other exhibitions are permitted, and no slot machines may be placed in the bar-rooms.

A shop license allows sale in quantities not less than three half pints. No liquor may be consumed on the premises. Aerated or mineral waters may not be sold in less quantities than half a dozen bottles. Every person who refuses to admit a policeman or inspector is liable to a penalty of not less than fifty and not more than one hundred dollars and costs for the first offence. The privilege of supplying to minors on an order has been cancelled

TRAMPS DESERT THIS PROVINCE

Old-Time Nuisance has Been Practically Removed

Toronto, June 17. — Ontario is at last free from the tramp nuisance. After spending nine days in traveling from one end of the Province to the other, covering in that time 2,300 miles, in search of tramps, Provincial Detective Rogers reports that he did not discover a single specimen of the old time variety that stole rides on freight trains and bothered the housewives in the towns and country districts. He did find a considerable number of British immigrants out of work, some of them loafers, but these men he did not class as tramps.

With Detective Rogers were four assistants. They made a very careful inspection of the railway yards and old lounging places, but the tramps are missing. The railway employes, conductors and engine-drivers had seen very few tramps on the lines this year, they said. The police reported to the same effect. Since the railway officers and local police began to give tramp work special attention six years ago, the number of tramps has been gradually growing smaller, with the result that thefts and other crimes have decreased appreciably. According to the detective the train hands are very thankful to the Government for removing one of the most dangerous elements they had to contend with.

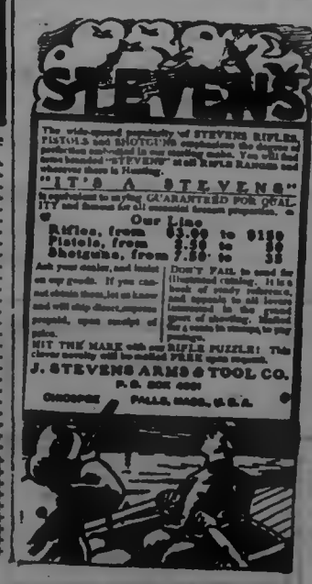
DUKE OF SUTHERLAND'S VISIT

Scottish Nobleman Delighted With the Progress of Canada

Toronto, June 18.—The Duke of Sutherland and party arrived in Toronto yesterday by the steamboat express from Owen Sound, after a tour through the west. After spending the day seeing the sights of the city, he left by the 10 p.m. train for Ottawa. The Duke, who has been travelling from New York, via San Francisco to Vancouver, interviewed before his departure for Ottawa, said: "I think the country is going on in a most extraordinary way. It is developing very extensively, and the glowing accounts which one hears so frequently concerning it are, in my opinion, fully justified. This is not my first visit to the North-West, for I was there last spring, and though, of course, one does not expect to notice much alteration in the course of a year, its development seems to be in every way satisfactory."

"So that you are in every way pleased with your visit?"

"Yes, indeed, and I should like to see more people from Great Britain come out here to visit this country, because we want to get settlers of our own race here."



The Canadian Northwest

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior

N. B.—In addition to Free Grant lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

History and Production of the Goldfields of Boulder County, Colorado, Portraying Economic Conditions Which Predict the Coming Goldfields of Colorado and Presenting the Stock Offering of a Great Gold Mining Enterprise of the United States Gold Corporation

FREE

Our booklet on the gold fields of Boulder County is off the press, and is being distributed free to investors. We have prepared this book to advertise the gold fields of Northern Colorado and our great gold mining enterprise. The books will be free for the asking while they last. It will tell you of how over fifty millions have been added to the world's wealth in production of gold, silver and copper under primitive methods and from surface workings of an average depth of not to exceed 250 feet. It will tell you of its great tungsten belt, the largest in the world. It will tell you of the existence of a diversity of precious and rare minerals, unrivaled by any other gold fields on this continent. It will tell you of a mineral area of twenty-five square miles literally covered with a network of veins, practically undeveloped, with only one shaft below the thousand foot and half a dozen below the six hundred feet level. It will tell you of a gold field nearer to the Denver smelters than any other in Colorado; of a change of economic conditions, in this section, which will enable the miner to ship ore to the smelters, at a net profit, that is now being thrown over the dumps in other sections of Colorado; it will tell you of a field so attractive that it resulted in the construction of two railways from one end of the field to the other. It will tell you of the substitution of modern and up-to-date mining methods, in place of the primitive ones of the past; in short, it will tell you of all those conditions which predict for the gold fields of Boulder County the coming gold fields of Colorado.

It will also tell you of our great gold mining enterprise in the western part of the gold fields of Boulder County, near the continental divide, where nature has deposited her largest and richest treasure vaults; it will tell you of our economic development tunnel, driven to drain and develop a mineral estate almost a mile long and half a mile wide; of the thousands of tons of gold ore now blocked out and ready for shipment in the five different veins cut by this tunnel in driving it eight hundred feet, the result of two years' steady development work night and day; of our wonderful discovery of molybdenite—a rare metal—in large commercial quantities, foretelling for us the first molybdenite mine in Colorado that is producing, as well as a large and permanent source of revenue, of our project to drive this tunnel, long before the end of this year, into the famous Fourth of July dyke or "Mother Lode," from which the far famed Caribou group of mines produced twenty million dollars in gold, silver and copper from 1869 to 1893; of the tremendous possibilities for ore production which will follow the cutting of a mineral dyke from 50 to 100 feet wide at a depth of a thousand feet, and the great probability of our opening the first great copper mine in Colorado when we reach this dyke with the tunnel. In short, it will tell you of a gold mining enterprise that will go on a large producing basis long before the end of 1905; of an enterprise with possibilities second to none in Colorado, the developments of which have already shorn it of any element of risk or speculative features, rendering the investment offered a safe and attractive one.

For the financial and commercial standing of the business men who stand back of this enterprise we refer you to the First National Bank, Boulder, Colo, or Bradstreets Commercial Agency

The edition will not last long. If you would be sure of securing a copy, write to-day, or your name and address on a postal card, with the word "Booklet," will do the work.

Address all communications to Thos. Patterson & Co, Fiscal Agents, Peterborough, Ontario.

The United States Gold Corporation

Edward Monroe, Pres. and Gen. Mgr. BOULDER, COLORADO

THE

Montgomery Mountain Mining Company

BULLFROG

promise to be one of the greatest producers yet discovered in the TONOPAH, GOLDFIELD BULLFROG DISTRICT.

This district records the greatest discovery of Gold that has ever been made in the history of mining This Company is a legitimate Mining enterprise, managed by honest, capable mining men.

The property is on the Montgomery Mountain, adjoining the MONTGOMERY SHOSHONE mine, which has only been operated ten weeks and which is now

Shipping Ore that runs TWENTY-THREE HUNDRED DOLLARS to the Ton.

The Capital of the Company is $1,250,000, divided into 1,250,000 shares of a par value of $1.00 each fully paid and non-assessable, 300,000 shares of which are in the Treasury.

The Officers and Directors are
President and Treasurer, D. H. PERRY, Salt Lake City, formerly President of the Salt Lake Stock and Mining Exchange.
Vice-President, Hon. JOHN SPARKS, Governor of Nevada.
Directors: D. E. BURLEY, General Passenger Agent, Ogden Short Line R. R., Salt Lake City; Hon. JOHN SPARKS, Governor of Nevada; E. E. EDWARDS, of the firm of Vermilyea, Edwards & Stanley, Attorneys-at-Law, Goldfield, Nevada.

No Medicine Cures so Many Sick, Overstrained, Despondent, Weak People as DR. HAMILTON'S PILLS

The One True Medicine for Health and Strength

You will realize, as you read the following letters, the grand work being done by Dr. Hamilton's Pills. They have a direct action on the blood, nerves, heart, kidneys and liver. All weakness is turned into strength, new energy and nourishing blood are created, buoyant good health is established in a short time.

DISCOURAGED WOMEN FOUND NEW HOPE.

"I had pretty nearly given myself up as incurable. I was weak and sickly all the time, had headache, poor digestion and sinking feeling. On rising in the morning there was a feeling of awful weariness.

"Dr. Hamilton's Pills helped from the first. They must have strengthened my blood, for I gained in strength as soon as I took them. Steady improvement followed, and I am now completely cured."

Mrs. M. K. Benson, Woodstock.

STRENGTH AND SPIRITS IMPROVED.

"No medicine could possibly be better than Dr. Hamilton's Pills," writes Mr. Jos. Devine from Ottawa. "I had pains in the back and side, caused by kidney trouble, was bothered considerably with headache, but Dr. Hamilton's Pills cured me quickly. I can recommend them to every man."

You'll become vigorous and strong, enjoy a good appetite, your sleep will be dreamless and sound, after regulating your system with Dr. Dr. Hamilton's Pills. Prince 25c. per box, or five boxes for $1, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W. H. PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. W. E. Bonter, of Belleville, is in town.

—Miss Olive English is visiting friends in Detroit.

—Mr. William Irwin and family left yesterday morning to spend a week at Stony Lake.

—Messrs. J. H. and M. W. Brandon, of Fenelon Falls, were in town yesterday on business.

—Mr. J. L. Hughes leaves today upon a trip to Portland, Oregon, Vancouver, B. C., and other western points. He will be gone some time.

—Mr. T. C. Jeffers, Mus. Bach., of Toronto, will conduct examinations at the Toronto Conservatory of Music on Tuesday and Wednesday of this week.

—Mr. William Anderson, M.P.P., who has been ill for some time at his home in Otonabee, is not improving as rapidly as his friends would like to see him. His condition remains about the same.

—On Tuesday of next week a party of Peterborough ladies will leave upon the C.P.R. for a trip to Winnipeg and other places in the West. The ladies from town are Mrs. A. J. Warne, sr., Miss Mabel Warne, Miss Mary, Miss Jennie and Miss Carrie Eyres. They will be joined at Port Hope by Mrs. J. T. Clarke.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—No police court yesterday morning.

—More seats are required in Central and Victoria parks.

—The June session of the County Council will open this afternoon.

—The 57th Regiment will have a march out tonight, headed by both bands.

—Next Sunday will be Flower Sunday in George street Methodist church.

—When will those wires partly strung in Victoria get busy and supply light?

—The old out-buildings at the rear of the Bank of Montreal building are being removed.

—Still the ice man holds a key to comfort. Will he be the king pin in the sweet subsequently?

—The Ladies' Aid Society of St. Andrew's church held a lawn social on the church grounds yesterday evening.

—The annual Sunday school picnic of the Murray street Baptist church will be held up the lakes on Tuesday, July 4th.

—The annual offering for the ministerial education fund will be made in the Murray street Baptist church on Sunday next.

—The promotion examinations in the Public Schools and Collegiate Institute began yesterday morning and will continue all the week.

—Mr. and Mrs. Mark Curtis yesterday evening entertained their friends. Yesterday was the 50th anniversary of their wedding. Many happy returns!

—The Lindsay Post says: Mr. J. H. Carnegie, M.P.P., is to build a summer cottage on Indian Point, Balsam Lake. It is rented to Mr. W. T. Hogg, of Oakwood.

A WORKING BRAIN

Can be Made Successful on Right Food

A busy man in one of America's largest watch factories tells how by change of food he gained a clear brain and steady nerves and averted a mental and physical breakdown. He says:

"I was accustomed all my life to the ordinary diet of the average table. I thought that meat, potatoes, and other vegetables and fruit were necessary, and that tea, coffee and pastry in moderate quantities were not injurious.

"But I found in course of time, that my dietary was affecting my health seriously. For four years I continued to run down. In time my nerves became seriously affected, they seemed constantly keyed up to the highest tension, and I became subject to the most violent bilious attacks which used to leave me in a weak and nervous condition for several days. The climax seemed to have been reached a few years ago, when I found myself about as near a physical wreck as a man could well be and live. Physicians, tonics and other medicines, visits to the country, etc., were of no avai

"In sheer desperation I concluded, a few months ago, to see what effect a diet of Grape-Nuts food would have. I had often heard of it, but had little hope it would help me. I at once cut out all the heavy dishes with the tea and coffee that I had always used and began to eat Grape-Nuts with cream and a pinch of salt. Afterwards, I added fruit, with occasionally an egg beaten up in milk, and entire wheat bread. This has been practically my diet for more than two months.

"I found that with the new diet I gained complete relief almost immediately from all the distress that used to follow every meal, my bilious condition was speedily regulated and cured, my nerves have grown healthy and steady,—in short my run down constitution has been reconstructed and built up. As to the effect upon my mental powers, I have only to point to the fact that I have recently been placed in a responsible position in our establishment where complete concentration of mind is required to deal with complicated records and reports, and that I have been enabled to keep my accounts absolutely correct, which my numerous predecessors uniformly failed to do.

"I think these things speak volumes in favor of Grape-Nuts as a nerve and brain builder. I ascribe all my improvement, mental and physical, the fact that I am possessed of steadier nerves, a clearer brain, a fine appetite, and have gained healthily in weight, to the cutting out of heavy food and the systematic use of Grape-Nuts food."

Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Read the little book, "The Road to Wellville." In each pkg.

ACCIDENTAL?

The jury returned a verdict of accidental death on the man who fell from the window ledge on which he had fallen asleep. But the death was really due to carelessness which made the accident possible. There are a great many lives suddenly terminated as a result of carelessness, although the medical certificate may read "heart failure."

When a man takes chances with his stomach and neglects the warning symptoms of disease, he is carelessly inviting calamity.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food, which makes strength. It stimulates the liver, cures biliousness, and removes bilious impurities from the blood.

"I had been troubled with a pain in lower part of my stomach for three years, so severe I thought it would kill me in time," writes Mr. Aaron Van Dam, of (Remington) 2540 110th St., Chicago, Ill. "I could hardly work; it felt like a big weight hanging on me and got so bad that I had to take medicine. I used Stomach Bitters for a time, but it did no good so I wrote to Dr. R. V. Pierce for advice, which he gave me immediately. I followed his directions, used two bottles of his medicine and was cured. I had a torpid liver which was troubling me instead of cramps (as I thought), so Dr. Pierce told me. I have pleasure in living now; have gained in weight 15 pounds since then."

Dr. Pierce's Pleasant Pellets cure constipation. They do not beget the pill habit.

—This annual ceremony of decorating the graves of the dead will be observed on Thursday afternoon next at the Little Lake cemetery by the Independent Order of Oddfellows.

—All active members of the Y. M. C. A. are asked to reserve Thursday evening next, June 22nd, for the 24th annual meeting of the Association, which will be held at eight o'clock.

—Two large conveyances will carry several ladies from the Murray street and Park street Baptist churches to Indian River today, where in the afternoon reports from Mission Bands and Mission Circles will be received at the annual meeting of the Peterborough Baptist Association.

CAMP REGULATIONS

B. Squadron Will Leave for Kingston Tuesday June 27

"B" Squadron 3rd P. W. C. Dragoons, Millbrook, will assemble at the armouries at 6.30 a.m., on Tuesday, 27th June, for the purpose of entraining to Kingston for the annual camp of instruction.

Clothing and saddlery will be issued on Saturday, 24th June, between the hours of 2 and 5 o'clock, also on Monday, 26th June, at the same hours.

Inspection of horses will take place on the above mentioned days and between the same hours.

Strong halter shanks must be supplied by the men for their horses in camp.

It is requested that the men club together and reduce the number of boxes and trunks taken into camp, as only a reasonable number will be allowed.

An experienced cook has been procured for this camp and good results are assured.

The railway line of transportation is indefinite. The officer commanding will be pleased to have a large turn out this year.

Efficiency pay will be allowed as follows, 1st year men 20c. per diem; 2nd year men 40c. per diem, 3rd year men 50c. per diem, in addition to regular pay.

W. T. HALL, Major,
Commanding "B" Squadron, 3rd P. W. C. Dragoons.

SUMMER COTTAGE BURNED.

Mr. Joseph Yelland Loses His Fine Cottage at Stony Lake by Fire.

C. D. A. Excursion.

Fire is unlike its twin element lightning in that it sometimes strikes the same spot twice. Four years ago Mr. Jos. Yelland had a summer cottage on what is known as Brownscombe's Island, which lies near the shore between Hurricane Point and Burleigh Falls, burnt to the ground; the denuded spot was soon graced by the erection of another somewhat similar structure.

Early Saturday morning this fine summer home was totally destroyed by fire. The cottage just burned was somewhat larger than Mr. Yelland's original building, being in part two stories high.

The cottage was unoccupied. No one saw the conflagration, and it was not discovered until daylight. Mr. Yelland, who was at Burleigh Falls hotel, was notified. On going to his island, which is about two miles from the Falls, he found merely a smoking ruin. Nothing was left, building and contents being entirely consumed. The loss will amount to from $1400 to $1500. The greater part of this is covered by insurance in the Royal Insurance Company. The amount of insurance on the cottage was $600 and on the contents $450.

There are three other cottages on the island belonging to Mr. Feliz Brownscombe, Mr. Robt. McWhinnie, and Mr. A. J. McCallum. Mr. Brownscombe's cottage was the only one occupied. Mrs. Brownscombe or her children did not know of the fire until next morning.

Exchange of Coats Desired

Will the gentleman who, by mistake, took a coat not belonging to him, from the upper cabin of the steamer, City of Peterborough, when returning from the Medico-Legal excursion last Friday, please return the same to the Times Book Store and ensure his own.

Great Britain Serious With Russia Now.

Sinking of the British Steamer St. Kilda Must Be Satisfactorily Explained--Government Takes a Serious View of the Affair.

London, June 20.—Premier Balfour, replying to a question in the House of Commons today, said correspondence with the Russian Government was proceeding in regard to the sinking of the British steamer St. Kilda. The Government took a very serious view of the affair because it had received the most specific assurance that no such action would again be taken.

St. Petersburg, June 20. — Neither the Admiralty nor the Foreign Office are able to furnish any explanation of the sinking of the British steamer St. Kilda by the Russian auxiliary cruiser Dneiper, for which Ambassador Hardinge has already demanded payment, except that it may have been due to the demoralization following Admiral Rojestvensky's defeat, as specific orders were issued a year ago to avoid a repetition of the Knight Commander incident.

THE GRAND TRUNK PACIFIC

Tenders Will Soon Be Asked for Construction of Lake Superior Branch

Ottawa, June 21.—Mr. Morse, General Manager of the Grand Trunk Pacific, who was in town last evening stated that as soon as specifications for the Lake Superior branch are printed, the company will ask leading Canadian contractors to tender for the construction of the line. Approximately this will be two hundred miles in length to the point of junction with the main line from Winnipeg eastward. It is not improbable that construction will be begun in about a month's time. The company has all the land it requires for terminal facilities at Fort William on Mission Island amounting to about 1,800 acres.

The company of course purchased the land from the Government, and while Mr. Morse did not mention it, the price is said to be about $400,000.

Asked as to elevator facilities, Mr. Morse replied guardedly that the Grand Trunk Pacific would have as large a plant as anybody else. In regard to a possible fleet of grain vessels, Mr. Morse's statement conveyed the idea that the company had not yet decided upon any plans.

Hon. W. S. Fielding on Friday signed the mortgage deed, executed in connection with the Government guarantee of the three per cent. bonds issued on account of the prairie section of this line. These bonds when floated recently brought 92 1-2. The mortgage deed will be held by the Royal Trust Company as trustee.

MANY MEDALS FOR VETERANS

King's and Queen's Medals for Survivors of South African War

Ottawa, June 21. — The King's South African medals for the undermentioned are now ready for issue. Application should be made to the officer commanding the Army Service Corps, Cape Colony, the Castle, Cape Town, for the same; Head Conductor J. Steward, Conductor, H. L. Smirnm, Conductor G. C. Henderson; Conductor A. Whesler, Conductor, G. J. Rees, and Conductor J. Anderson. Queen's South African medals for those who served with Julius Weil's transports are also ready for issue. Applications should be made to the officer commanding Army Service Corps, Cape Colony, the Castle, Cape Town. Queen's South African medals for the undermentioned corps are likewise ready for issue. Application should be made to the officer commanding discharge depot, the Castle, Cape Town; Prince of Wales Light Horse, Railway Pioneer Regiment, Kimberley Light Horse, Rundle's Scouts, South African Light Horse, Kitchener's Horse, Imperial Light Horse, Eastern Province Horse, Protectorate Regiments, Bethune's Mounted Infantry, Kitchener's Fight ing Scouts, Johannesburg Mounted Rifles, Border Horse, Natal Volunteers, Ambulance Corps, Rhodesia Regiment (A, B and C squadron), Brabant's Horse, Steinacker's Horse, Warrf's Mounted Infantry, Damant's Horse, Remington's Guides, Imperial Hospital Corps, Driscoll's Scouts and Nurses Scouts.

Goes Dry 21 Years for $5,000

South Bend, Ind., June 21.—Having kept a promise made at the age of 10 not to take a drink of liquor until he was 21 years old, John M. Johnson to-day was presented with $5,000 by his grandfather, J. M. Studebaker. Johnson was 21 years old to-day, and received the reward in fulfillment of his grandfather's promise.

RUSSIAN SOLDIERS ARE FOR PEACE

Men in the Ranks are Tired of the War in Manchuria

RUSSIA'S NAVAL SENSATION

Successors of Retired Officers are Announced—Russia and the "Yellow Peril."

St. Petersburg, June 20.—From a member of the court at Tsarskoe Selo your correspondent receives the information that on June 7 the Czar ordered General Linevitch to sound the army on the question of peace. The reply was received last Saturday stating that the majority of the men favored peace, and the officers war and reforms.

General Linevitch added that he believed the immediate convocation of a National Assembly would make the war assume a national aspect, and that victory would then be certain.

Otherwise, the army, which is already dismantled, would return home only to await the eventuality of the Czar. The Czar, however, fearing interior complications, came around in favor of concluding peace.

Much satisfaction is expressed over the fact that Grand Duke Alexander Michailovitch replaces Grand Duke Alexis as head of the Russian Admiralty.

It is also announced that Admiral Rookhoff has been selected to succeed Admiral Avellan as Minister of Marine, and that Admiral Alexieff loses his position as the superior lieutenant in the far east.

RUSSIAN NEWSPAPER COMMENT.

St Petersburg, June 20.—The announcement that Emperor Nicholas has accepted the resignation of his uncle, Grand Duke Alexis, as High Admiral, created a great sensation when it became known to-day, but the announcement came too late for comment in the morning papers.

Commenting upon the selection of Washington as the place of meeting for the plenipotentiaries, the Novoe Vremia calls upon Russian diplomacy to prepare to struggle seriously and not repeat the drifting policy which the Russian diplomats followed before the war—to decide what Russia wants and to act accordingly.

The Russ dwells upon the necessity for selecting the ablest men available to represent Russia at the Washington meeting, "since they may have to conclude a peace which will determine for many years Russia's position in the far east."

The Bourse Gazette demands that men representing "new," and not "old," Russia shall be sent. The paper adds: "The other powers are already expressing fears that Russia and Japan will arrive at a rapprochement which will decide the destiny of Eastern Asia. Times fears should be a powerful instrument in the hands of Russian plenipotentiaries."

THE YELLOW PERIL BOGEY.

The Listock says the world formerly manifested alarm at the "Russian advance" eastward, but seems now to be indifferent to "Japan's advance" westward through Korea and Manchuria. "In 1895," the paper continues, "Germany, France and Russia protested against Japan exploiting. Today no power comes forward to stay Japan's victorious march. Russia stands alone and a peace may be forced upon her which will be prejudicial to the interests of Europe."

The latest news from the front indicates that the rainy season is beginning sooner than usual. Already heavy storms have occurred and if the downpour continues the military operations necessarily will come to a standstill without an armistice, a state of affairs which will last long enough for the plenipotentiaries to meet.

There is some talk that Foreign Minister Lamsdorf himself may be one of the plenipotentiaries.

CRONJE ON THE WARPATH

Says Boers Will "Strike for Liberty" If European War Comes

New York, N.Y., June 21.—"If war comes and Great Britain is embroiled, the Boers are ready to strike for their liberty," said General Cronje, in an interview here.

"Germany will see that we have reasons," he added.

Although General Cronje is busy counting American dollars, he is watching international events with keen interest, and in this remark he expressed the hope for a European conflict which will give the Boers their opportunity.

"The understanding between Great Britain and France is at the bottom of the whole affair," he continued. "The practical alliance between Great Britain and France is an anti-German move, and the combined fleets of these two powers behind their desires puts a damper on Germany's territorial ambitions. Now that the Franco-Russian alliance is so weak, Germany wants France's friendship, for the colonial aspirations of the two countries do not really clash, whereas those of Great Britain and Germany do. In my opinion the Moroccan question is only an excuse for raising an argument."

BIG BREAK IN CHICAGO STRIKE

Teamsters are Weakening and End May be Near

Chicago, June 21.—A pronounced break in the ranks of the strikers occurred to-day. For the first time since the strike began many weeks ago there were numerous instances where striking teamsters applied individually for former positions without waiting for the strike to be formally declared off. This was especially true at the lumber yards.

George K. Wenig, of the Wenig Teaming Company, said to-day; "Many of my old teamsters have asked for their positions. Not one of them said anything about deliveries to the boycotted firms. I have done nothing and shall do nothing until I consulted with other employers."

There are indications that the strike will come to an end before the close of this week.

WILL GO DRY 21 YEARS MORE

Indiana Winner of $5,000 Gives Dinner and Makes New Pledge

South Bend, Ind., June 21.—John M. Johnson, who won a prize of $5,000 offered by his grandfather, J. M. Studebaker, Sr., for abstaining from the use of liquor until he became 21 years old, celebrated the receipt of the gift with a dinner party tonight to members of the family. Wines and liquors were not on the list, and in a speech at the close of the repast he announced his determination to refrain from the use of intoxicants for another twenty-one years.

Young Johnson is athletically inclined and is a bowler of much ability, being a member of the Commercial Athletic Club, which won the championship of the Indiana-Michigan League last season. He played football at Culver Military Academy and at Lake Forest, where he attended college.

AN UNSUCCESSFUL CRUSADE

The Disciples of Higher Criticism get Few Replies

The committee of English clergymen who sent out circulars a short time ago on the lines of Higher Criticism involving an investigation of such matters in the New Testament as the Virgin Birth and the Resurrection, will hardly be encouraged by the results.

Of the 30,000 circulars issued to clergymen of the Church of England all over the world, 1,694 replies have been received, according to latest advices, supporting the committee. Of that number, 322 were from the colonies. Some of the replies, it may be remarked, were withdrawn after the true nature of the movement dawned upon the writers.

THE GAYNOR-GREENE CASE

A Writ of Habeas Corpus Has Been Issued

Montreal, June 21.—Mr. Justice Ouimet ordered to-day the issue of a writ of habeas corpus in the case of Gaynor and Greene on a petition presented on behalf of the accused by Mr. Victor E. Mitchell, associated with Mr. L. A. Ouimon, of Quebec. The grounds were as usual that there was a lack of jurisdiction on the part of Judge Lafontaine to deal with the matter and that the offence charged is not included in the Extradition Act, the detention of the accused being therefore illegal.

The writ has been made returnable for Wednesday, and will be served during the course of the afternoon.

Woman Ate Matches and Died

Winnipeg, June 21.—Mrs. Rothouse, who lived seven miles north of Gilbert Plain, poisoned herself by eating matches. She was of unsound mind.

The Weights of Coal

Unjustified Suspicions of Yesterday Show That Coal Should be Publicly Weighed.

Yesterday morning there was some talk about town concerning a shortage in weight of coal sold by a local dealer.

It appears that the Chief, acting on the spirit of a bylaw now under consideration by the Council, caused a load of coal on its way to delivery to a customer, to be weighed on the market scales. The combined weight of waggon and coal amounted to certain figures; the weight of the waggon as recorded at the scales amounted to a certain number of pounds, and an easy calculation showed the exact net weight of the coal. This weight amounted to 150 less than was shown in the bill accompanying the goods. As there are always a number of people about the public scales, the news spread like wildfire that the coal dealers in question had been caught using to defraud a customer.

It is only fair to say that some hours afterwards the empty waggon was weighed on the scales and a new calculation, based on its last taken weight showed that, instead of a shortage, there had been ten pounds overweight of coal delivered.

To settle further suspicions as to the public getting their coal as billed and paid for, and to ensure against any possible fraud, all coal should be accompanied on delivery by the public weighmaster's certificate of weight.

Our local coal dealers charge the people of Peterborough the highest prices, higher than in Lindsay, where the dealers have no competition in freight rates to lower the wholesale prices, and could well afford to pay the nominal charge made for weighing the black diamonds that are making them rich.

It is an open secret that many people in this, as in other towns, suspect that they do not get all the coal they pay for, and by instituting the system of public scales certificates this suspicion, in many instances unfair, would be obviated.

New York People Slept in Parks

Police Gave Instructions That Parks be Left Open--Mothers and Babies There

New York, June 21.—Showers and a change in the wind early to-day greatly reduced the temperature and excessive humidity from which Greater New York sweltered through out the Sabbath. Nowhere in the city was the suffering so intense as in the East Side tenement section, where little preparation had been made for it. Ordinarily such days do not come until early in July.

Nearly every household among the tenement dwellers has been called upon to provide for one or more of the immigrants who swarmed into the city last spring, and most of them have nothing but heavy winter clothing. In places the curbs and doorsteps were lined with heavy bearded men, exhausted, and apparently suffering intense physical pain. Earlier than ever before it became necessary to throw open the parks to those who came there for the night. All day the small parks on the east side were thronged, but they furnished little respite from the heat until night came. Orders were issued in all downtown precincts to leave the parks open during the night until the weather changed. Midnight found the benches and grass plots of Central Park and breathing spots further north still crowded with mothers and nurses with their babies. Extra details of police were sent out to all of these places.

Heads May Fall

Hon. Frank Cochrane, Minister of Lands and Mines to Clear Out Unnecessary Employees.

Toronto, June 20.—Hon. Frank Cochrane, the new Minister of Lands and Mines, has returned from North Bay, after being elected by acclamation, and will at once enter in earnest upon the work of his department. One of his first duties will be the reorganization of the outside service. Crown land officials and Government mining officers in New Ontario will be decapitated, metaphorically speaking, by the score, for the woods are full of partisan officials who worked tooth and nail for the late Government. As is well known the Ross Government's chief reliance at election in late years was the support and influence of an army of men paid large salaries by the province for attending more to wire pulling and electioneering than looking after the merely superfluous tiresome duties involved in their nominal situations.

Mr. Cochrane has already received hundreds of letters from Conservatives in New Ontario, clamoring for the removal of these Liberal enthusiasts.

Provincial mining lands and their management will also be sharply cooled after through the field glasses of economy and honesty.

EXPEDITION TO BALTIC

Russia Afraid That Japan May Send One

London, June 21.—The correspondent of the Standard at St. Petersburg, referring to the many rumors in reference to the council at Tsarskoe-Selo, mentions one to the effect that the council considered the possibility of the Japanese sending an expedition to the Baltic.

New Fort Below Quebec

Ottawa, June 21.—An order is now before the Government awaiting the sanction of the Cabinet for the expropriation of land for the construction of a large fort overlooking the St. Lawrence below Quebec.

A Peterborough Adv.

Peterborough Cereal Company's Large Posters Now Being Issued.

Some weeks ago The Times made an extensive reference to a handsome poster being gotten up by the Peterborough Cereal Co., which advertises their leading product "Canada Flakes."

This handsome poster, a triumph of the lithographer's art, not only advertises the Canada Flakes, in an attractive manner, but for European markets, cannot but draw direct and favorable attention to this town.

As will soon be seen by our readers, the poster shows two leading engravings, one containing a lusty Canadian farmer standing in his wheat field, with a sheaf of golden grain under his arm, and the second one exhibits our world known Lift Lock. Mr. W. Stocker has the contract of placing one hundred of these huge posters in and about Peterborough, and yesterday was busily engaged with brush and paste affixing them about town.

HOW WILL RUSSIA GET $1,000,000,000?

Will the World's Financial Markets Be Upset in The Scramble?

HOW FRANCE GOT THAT SUM

No Doubt There Will be Trouble in Markets if Paris Has Much to do With Russia's Loan

Montreal, June 21.—Montreal financial circles are busy wondering how Russia is going to raise $1,000,000,000 should the Japanese demand that enormous sum of money. And incidentally the question has presented itself as to what effect the transfer of such a sum will have on the markets of the world.

China, in 1895, after the Japanese war, was worse off financially than Russia is to-day. Most of her revenues were pledged in part already against earlier loans, and Japan demanded $140,000,000 indemnity. This is what followed, as told by the London Economist, that year;

"Great financial houses are scrambling and intriguing for the purpose of acting as China's agents for the issue of new loans, and something even of international rivalry is introduced into competition. And the Chinese Government, entering into the spirit of the thing, are acting as if in consenting to borrow, they were conferring a special favor upon the lenders. If Paris and St. Petersburg are permitted to lend £20,000,000 then, as a consolation to London and Berlin, they are being given an opportunity of lending another £15,000,000.

In the end, the Russian Government actually lost China its endorsement on £16,000,000—a real stroke of political humor considering what has happened since.

The case of the $1,000,000,000 payment by France to Prussia, after the war of 1870, is familiar. France issued bonds for the amount, offered them to her own people, who forthwith sold their investments in foreign securities and subscribed for the new "rentes." This French liquidation of other bonds came at the moment when London and Berlin itself, were also trying to buy the new French rentes. The odd result was, that those two money markets suffered the consequent depression more than Paris. Something like this is possible, if Paris agrees to finance the indemnity this year for Russia.

It is often asked; Cannot Russia meet the indemnity from her home reserves? She possesses, it is true, $500,000,000 to $600,000,000 in her home gold reserves and her European credit balances; but a note circulation of $500,000,000 stands against it. Russia would certainly hesitate to denude herself of her coin circulation. That plan was tried with China, after the Boxer outbreak of 1900, and with bad results. The powers fixed, as the terms for withdrawing their armies from Pekin, a money penalty of $315,000,000 to be paid to the powers in gold, in thirty-nine annual instalments after 1901. All of China's customs revenue unpledged in former loans was devoted to this purpose. China floated no new loans; she sent out to gather up her silver currency, sold it and bought with the proceeds sterling drafts to pay the powers. Within a year Europe's Oriental trade was so badly deranged by the consequent break in silver that the whole plan had to be revised.

49,000 DIE SLEEPING

Report on Peculiar Malady Which is Affecting Africa

Boston, Mass., June 21.—The American Board of Foreign Missions has received reports from its African missionaries relating to the peculiar disease known as the "sleeping sickness," which is seriously affecting Central Africa, particularly the kingdom of Uganda. These reports show that there have been 49,031 deaths within the kingdom from the disease. It is believed that the malady is connected with the presence of the tsetse fly, which hitherto has not been supposed to be harmful to man, though fatal to cattle and horses.

Oyama is Ready to Strike Another Blow

With Overwhelming Forces at His Command Oyama is in a Position to Deliver a Most Crushing Defeat to General Linevitch.

London, June 20.—While undoubtedly the people of England would like to see a general battle in Manchuria before the armistice is declared, the Associated Press is assured that the British Government has not given Japan any advice as to what course to pursue, as alleged by the Novoe Vremya of St. Petersburg. In fact, the Government has done nothing beyond supporting President Roosevelt's effort to secure the earliest meeting of the peace plenipotentiaries, and the submission by Japan of terms likely to be acceptable to Russia. With overwhelming forces at his command, it is felt in military circles that Oyama is in a position to deliver a most crushing defeat to General Linevitch.

The recent movements of British cruisers in the Far East are taken to mean that the Admiralty has acted and taken to notify the Russian cruisers of Foreign Minister Lamsdorff's instructions that there is to be no further sinking of neutral ships. At any rate, shipowners are much relieved.

LOSES HIS FOOT STEALING A RIDE

A Tramp Named Archambault Pays a Foot for a Free Ride on the C. P. R.

That the cheapest goods are often the dearest was exemplified in emphatic manner last night on the C.P.R. tracks a few hundred feet west of the Depot, or nearly at the "Diamond."

A tramp, by name Archambault, who had evidently determined on a systematic cheap mode of transit from Montreal to Chicago lost his right foot, just above the ankle, as the price demanded by fate for his indiscretion.

Archambault was riding on the west bound freight train that passes Peterborough about 6.30 p.m., and in some way slipped or was jerked by motion of the moving train from his place of concealment on or between the cars and falling, partly, under the cruel wheels had his foot completely severed from the leg, just above the ankle. The leg is somewhat mangled for a distance above where the amputation effected, and if any serious complications sets in may have to be amputated higher up. The foot was lying at the side of the track enclosed in boot and sock; being so completely and too long severed from the leg to replace, it was left behind in the ditch when the unfortunate man was removed.

Within a very few minutes Mr. A. Comstock's ambulance, with its customary celerity in answering all emergency calls, was on the spot, and conveyed him to the Nicholl's Hospital.

Dr. Gray was at once summoned, and attended the case at the hospital.

Archambault was dressed in a blue suit, wore a light "fedora" hat and in his pockets were found one shilling in cash, a bunch of keys and an express receipt for his grip which he had shipped ahead to Chicago from Montreal.

Unless blood poisoning sets in the unfortunate "cheap tripper" will recover, but will always have to rely on artificial aid in walking.

Meeting of Stony Lake Cottagers' Association

Held in the Y.M.C.A. Last Night--Protest Against the Holding Back of Stony Lake Waters.

There was a fair attendance at the meeting of the Stony Lake Cottagers' Association held in the Y.M.C.A. last evening. Mr. J. S. Knapman was in the chair, and explained the main object of the meeting, viz., as a protest against the way the waters are held back in Stony Lake. It was decided to have a petition drawn up and forwarded to Mr. Collingwood Schreiver, Deputy Minister of Railways and Canals, Ottawa, asking for readjustment.

Mr. Bradburn, M.P.P., has made arrangements for having 1500 per cent black bass placed in the Stony Lake waters.

Mr. R. J. Winch laid the matter of his cottage being broken into and burglarized last fall before the association, and the matter will be investigated.

Valuable Nugget Found

Mr. Sager Shows the Times a Lump of Almost Pure Gold From His Mine.

The Times has, of late, in referring to a mine in which considerable Peterborough capital is invested, the Big Dipper Mine in Frontenac County, always expressed an opinion that this mine will be a paying proposition.

Our prophecy was yesterday shown to be well founded: Mr. S. Sager, whose offices are on Water street, showed The Times yesterday a fairly sized nugget almost entirely composed of virgin gold. The gold occupies nearly the whole diameter of the nugget and is of a full rich color. There is no doubt but that the lucky promoters and stockholders in the Big Dipper have got a good thing, if expenses of extraction of the ore are not too heavy. The nugget shown us was found about six feet below the surface.

Notice to Correspondents

The Times is in receipt of an amusing letter over the nom de plume of "Samuel," which we cannot print, it not being accompanied by the writer's name.

It is an invariable rule with all respectable newspapers that every ganied by the writer's signature, not necessarily for publication, but, etc.

"Samuel's" letter bears on a well founded public grievance, the disgraceful manner in which weeds are allowed to flourish like a green bay tree, in certain streets of this town.

Fast Mare in Training Here.

Mr. George Curtis, Lindsay, has his fast mare Minnie Keswick, whose record is 2.17 1-4, established at the Peterborough Turf Club's grounds, getting into trim for the Eastern Ontario Turf Club's circuit next month. This mare will probably show her hind feet to some of the fast ones in her class.

Mr. Curtis also has his high-bred Wilkes stallion that he brought from New York at the Turf Club's stables in training.

Calcutt Line Steamers.

List of Engagements Already Secured by This Popular Line of Steamers.

The general appreciation of the safety and courtesy enjoyed by the thousands who annually patronize the fine steamers of the Calcutt Line is demonstrated by the long list of engagements already booked by them, which include;

July 5—St. John's church S. S., Peterborough to Stony Lake.

July 6—St. Paul's church S. S., Jubilee Point, per City of Peterborough.

July 11—St. Luke's church S. S., Jubilee Point, per City of Peterborough.

July 18. — Uxbridge Methodist church S. S., sail over Lift Lock, per City of Peterborough.

Civic holiday—St. Peter's Court C. O.F., Jubilee Point, per City of Peterborough.

Appeal for Their Release

Toronto, June 21.—An appeal is being made against the conviction of Edward Day, William Beatty and Wm. Hodgins, members of the Painters' Union at St. Catharines, who were tried on September 15, 1904, on a charge of unlawful conspiracy to prevent Albert A. Clay, a non-union man, from earning his living. The men are on suspended sentence, and appeal is on stated question. "Is the evidence given on behalf of the Crown sufficient to sustain that conviction?" The case is of wide interest to union men.

FERROZONE

A Woman's Tonic that Uplifts, Vitalizes, and Strengthens.

You immediately experience a real gain in power and strength by using Ferrozone, which is a true nerve and blood tonic. It effects permanent cures unparalleled in the history of medicine.

Ferrozone supplies the essentials of life that are exhausted by over-work worry, indigestion or high living. It contains just what every run-down system lacks.

By instilling new strength into the blood, Ferrozone benefits the whole body. Digestion improves, the eyes sparkle, the cheeks glow with girlish beauty. Normal powers are restored to the regenerative organs, the nerves are recharged with energy, making the sufferer conscious that direct benefit is resulting from Ferrozone.

There is no greater boon to suffering women than Ferrozone. It charges the system with the snap and fire of youth, builds up firm tissue, rounds out the form until perfect womanhood is attained.

Ferrozone is the one safe tonic for ladies to use, because it contains no alcohol or dangerous drugs. Growing girls, young women, expectant mothers—every female will derive unquestionable benefit from this grand restorative. Prepared only in tablet form, 50c. for a box of fifty tablets or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to 7 o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

WILL BE STOPPED BY THE CIVIC AUTHORITIES

Aldermen Complain of the Desecration of the Sabbath Within the Town Limits--Better Police Protection Needed.

Some misunderstanding has arisen over the City Father's action at Monday night's session. The Fire, Water and Light Committee recommended that, in reply to the Peterborough Light and Power Company's offer to properly light Jackson Park free of charge for current, provding the town contribute $100 toward the cost of wiring, the Council furnish police protection, provided the company satisfactorily illuminate this pleasure resort. This recommendation was ambiguous in the extreme, and aroused very much of lodging. But Mr. Lamouth being present, clearly explained to the worthy aldermen that he expected the town to contribute $100 toward the expense of wiring from the transformer at the park entrance to and through the grounds. The balance of the cost connected therewith—$210—would be borne by the company, and free current supplied. No dissenting voice was raised to this scheme, and Mr. Lamouth and the Times left the Council chamber convinced that the incident was closed on the terms submitted by the Peterborough Light and Power Company. In fact it is an open question whether the report was intended to convey this meaning or not. Upon examination of the clause in question yesterday morning town officials and The Times discovered that the report merely commits the town to provide police protection for Jackson Park in return for the Light and Power Company, defraying all costs of lighting, wiring included, but as this is not what the company agreed to, and from the attitude of the aldermen, not what was intended by the Council in session, we hear that an early Council meeting will be called to make every thing connected with this matter clear and above board. This is a question which should be promptly decided, and before the snow flies.

COMMUNICATIONS.

From ratepayers petition for a ... King and Rubidge ... to Charlotte Sherbrooke ... local improvement—Board of Works.

From half a dozen ratepayers opposing the construction of a sewer on the south part of Aylmer street, from Rink to Lake streets—Board of Works.

From Peter Hamilton and others, petitioning against the construction of a granolithic walk on south side of King, from Aylmer to George streets—Board of Works.

From E. C. Patterson, general superintendent of the C.G.R., in favor of Dominion Day being celebrated on Saturday, July 1st, and not Monday—On motion of Ald. Tovey, this request was granted.

From ratepayers petitioning for a granolithic sidewalk on the east side of Downie street, from Charlotte to Simcoe streets—a local improvement—Board of Works.

A number of petitions were received for sewer connections on the Elias Burnham estate—Board of Works.

From property owners petitioning against the construction of a granolithic walk on the east side of Aylmer from McDonnell street to half way between London and Dublin streets—Board of Works.

From property owners praying that a granolithic walk be constructed on the west side of Stewart, from Dublin to Edinburgh streets—Board of Works.

From property owners petitioning for the construction of a pipe sewer on Simcoe street from Bethune to Stewart streets—Board of Works.

From F. Bartlett applying for the position of inspector on the construction of the outfall sewer in the 5th ward—Board of Works.

LOOKING FOR INDUSTRIES.

Ald. Hicks presented the following report:

Gentlemen,—Your Manufacturers' Committee beg leave to report and recommend that the Council subscribe for three months for the Factory Site and Trade Bulletin at $5.00 a month.

This report was adopted as read.

ROAD TO LIFT LOCK.

Ald. Adams submitted the following report:

Gentlemen, Your Board of Works beg leave to report as follows,

1. The executors of the Armour estate having been communicated with in regard to a proposed extension of Hunter street to the lift lock, they asked for information as to the grade and course of the proposed street. The town engineer prepared a plan showing the course the extension would follow and we also authorized him to strike the grade of the proposed extension.

2. We recommend that the proposed diversion of the stream known as Mason's creek or Aylmer street drain be paid for by general rates and that the proposed diversion of the stream in Ward No. 5 be paid for in the same way; that the work be undertaken and completed this year, and that a by-law be submitted to the electors at the time of the January election to authorize the issue of debentures to pay for the works; also that the Grand Trunk Railway be asked to pay part of the cost the Aylmer street drain, and that the superintendent of the railway be asked to confer with the Mayor and the Chairman of this Board in regard to it.

3. We recommend that Rubidge St. from Charlotte street to Simcoe street be graded and gravelled and that the town engineer be authorized to make the best arrangements he can for gravel.

4. We recommend that the town engineer advertise for tenders for breaking stone and delivering the broken stones on the streets, and that the chairman of the board and the engineer select the streets upon which the stone is to be delivered.

5. We recommend that the Peterborough Radial Railway Company, be permitted to lay a siding into the hill at the north end of their track on Water street, for the purpose of drawing gravel to fill in streets; and that if the railway company will do the work of filling up Park and McDonnell street, they be permitted to take gravel from the town pit to put their lines within the town in good condition.

6. We recommend that the town engineer be instructed to raise the decks of the bridges on Park and McDonnell streets to the level of the street railway rails.

7. We recommend that the town solicitor be instructed to prepare an agreement between the Peterborough Hydraulic Power Company and the town, by which the town will be permitted to use and maintain the bridge over the old Dickson dam without prejudicing the rights of the company in the property, and permitting the town to raise the south end of the bridge when the water is raised in the river.

8. We recommend that the town engineer be instructed to request the company owning guy poles at the corner of Ribidge and Townsend Sts. to move them out of the way to walks to be laid to buildings there.

9. We recommend that the Peterborough Light and Power Company be permitted to place nine poles on the west side of Stewart street, south of Townsend street, and three on the south side of Parry street east of Stewart street, the poles to be placed under the supervision of the town engineer.

10. We received a letter from Mr. D. W. Dumble regarding the proposed extension of Cambridge street, saying he would accept an eight-inch coat of gravel on the street well rolled, instead of macadam, the work to be done inside of four weeks. We recommend that this offer be accepted, and that the town engineer be instructed to do the work within one month after Mr. Dumble has given the town a deed of the land, or an agreement to give a deed.

All of which is respectfully submitted.

This report was adopted as read, with exception of clause two, which was left in abeyance.

COMMITTEE OF THE WHOLE REPORT.

Ald. Hicks presented the following report:

Gentlemen,—Your Committee of the Whole Council beg leave to report as follows,—

1. We received a letter from Sir Wm. Mulock, Postmaster-General and Chairman of the Special Telephone Committee, asking for information and the Council's opinion on certain telephone matters, and referred it to the Manufacturers' Committee, with authority to answer the questions.

2. We considered some changes asked for by the collector of taxes in the by-law appointing him, and

CONDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder on payment of the purchase price, in cash or by cheque, accepted by a duly incorporated bank. Failing payment, they will be immediately re-offered for sale.

The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.

These timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force, or which may be enacted hereafter.

Plans of limits offered for sale are opened for inspection in the Department of Lands, Mines and Fisheries in this city, and at the offices of the Crown Lands and Timber Agents in the different agencies in which said limits are situated, up to the day of sale.

N.B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.

ADELARD TURGEON,
Minister of Lands, Mines, Fisheries.

IF YOU WANT MONEY

Buy a block of stock of the Toronado-Crow Gold and Copper Company. Stock is selling at 18 cents a share. It will be paying a profit in ore your ... less than 25 per cent. on capitalization, which will mean a value of the stock ... $2.50 a share. It may be worth $5 or more in less than two years time. There ... more than 100 mineral veins crossing this property. The lowest average ... as far as developed is $54 a ton, which does not include numerous small ... running from $100 to $1,000. The money to be raised in these sales of stock ... be put in hoisting plant, equip and rapidly develop the mine, which includes ... mining claims and mill site; 185 acres. Where can you make to ... so short a time? This is an opportunity that seldom occurs.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. *We charge nothing for consultation and our knowledge*, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN,

148 SHELBY STREET, DETROIT, MICH.

THE BEST YET!!!

We have given our clients some good things in mining stocks during the past two years, but we believe one of the best propositions we have ever handled is

DILLON OIL MINING & DEVELOPMENT CO'Y., OF CANEY, KANSAS

Call and get full particulars. Watch for description of this property in The Times.

Thos. Patterson & Co.,

FISCAL AGENTS, PETERBOROUGH.

THE DOUBLE DIVIDEND MINING & EXPLORATION CO.

Double Dividend but no double dealing

A Treasure vault of ores, and a Treasury Stock that soars

PROPERTIES AT BULLFROG, NEVADA, AND AT WALL STREET, COLO.

A constant producer. 50,000 tons of milling ore blocked and in sight, with 4,500 feet of development. $25,000.00 worth of improvements. 110 acres, 50 acres patented. Past production $250,000.00 No debts. A block of treasury stock for sale at 2 cents, to complete mill and develop Nevada properties. Send card for the WESTERN EMPIRE, containing particulars.

RESPONSIBLE REPRESENTATIVE WANTED

The Double Dividend Mining and Exploration Co.

210 GIDDINGS BUILDING, COLORADO SPRINGS, COLO.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINARY

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be ninth among the greatest copper districts in the world. This company will control at least a thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

SUNDAY SPORTS AND CAROUSALS

(Continued from page two.)

agreed to some changes which will be embodied in the by-law appointing the collector for the year. We also recommend that the collector be required to give an approved bond from the United States Fidelity and Guarantee Company, approved by the town solicitor, for $12,000, and that he be not required to give other bonds.

3. We recommend that no property of the town be lent to any person, without the consent of the committee in charge of the property in question.

This report was adopted as read.

CAN BORROW TOWN PROPERTY.

Ald. Hicks' report of the Committee on the Whole provided that no person shall borrow any town property with the consent of the committee in charge of that particular property.

Ald. Hall took exception to this, and considered that no town property should be lent on any consideration.

Ald. Batten agreed with the report, and opined that occasions frequently arise when the town should not in courtesy refuse the loan of certain property that could not be injured thereby.

Considerable discussion here occurred pro and con, resulting in Ald. Hicks being sustained by a vote of 7 to 5.

$100 WANTED FOR BAND INSTRUMENTS.

Adjutant Jennings, of the Salvation Army, addressed the Council, in support of a communication sent in by him, and explained that the Army Band is growing so rapidly that it is impossible to furnish instruments as fast as bandsmen arrive. During the past few years this band has grown by 22 men, and very recently four good able musicians have joined the organization. He urged the council to make the Army a grant of $100 with which to furnish the two new instruments badly needed.

His Worship pointed out that this matter is already in the hands of the Finance committee, who will deal with it as liberally as possible.

BYLAWS.

A bylaw to authorize the execution of an agreement with the Peterborough Hydraulic Power Company, Limited, passed its several readings. This bylaw provides for the town utilizing the old Dickson dam bridge as a public footway across the river.

The bylaw to prohibit the exposure of meats, poultry, game, fruit or milk outside stores or in conveying the same through the streets, without being thoroughly protected by a dust-proof covering, passed its second and third reading, and is now in force. Any person infringing this bylaw will be subject to a fine of not exceeding $50.

A bylaw to prohibit the blocking of streets with goods passed its several readings. Merchants, under this law, will have to open and remove all merchandise before 12 o'clock noon, excepting Saturdays, on which days no goods whatever may be opened or left on the public streets at any hour.

A bylaw appointing Mr. J. Green collector of taxes for 1905 passed its several readings. Mr. Green's salary will be $850, and he will give $12,000 security in an approved guarantee bond. No personal security is asked.

CONSTABLE STEWART SICK.

On motion of Ald. Hall, T. Miller, acting in place of Constable Stewart, who is sick, will be paid on certificate of the Chief and the chairman of the Supervision committee.

SANITARY GRIEVANCE.

On motion of Ald. Hall, seconded by Ald. Tovey, the Clerk was instructed to advise Mr. W. D. Campbell to submit his grievance re sewer connection to the Board of Health.

PLUMBING INSPECTING.

His Worship, in answer to Ald. Hall, replied that the Plumbing Inspector had a right to enforce the Plumbing Bylaw in regard to all work, whether contracted for four months or not.

This question was referred to the Solicitor to decide whether the Town can legally enforce this bylaw in cases where work had been contracted before the incipiency of the bylaw.

AN INVITATION TO I.O.O.F.

On motion of Ald. Mason, the Town will cordially invite the Grand Lodge of Oddfellows to convene here next year. They meet in annual convention at Brockville this August.

BREAKING THE SABBATH.

On motion of Ald. Tovey, the Board of Works were ordered to put in decent shape the little park at the south-east corner of Rink and Park street.

Ald Crowe raised the question of police protection in Jackson park, where carousals are held Sunday nights and afternoons, and other disgraceful acts indulged in.

Ald. Adams drew attention to the fact that the Sabbath is desecrated in other parts of the town other than Jackson park. Baseball and other games are indulged in within the town's limits without protest of any kind. Regarding Jackson park Ald. Adams thought the Nicholls trustees were committed to see that order was maintained there.

This discussion was deferred for another meeting.

TO TRIM SHADE TREES.

Ald. Adams moved, seconded by Ald. Hall that a maximum amount of $200 be spent on trimming trees.—Carried.

ROAD MACHINERY.

Mr. John Robinson invited the Council to give his firm, the Climax Road Machine Co., of New York, their next order for road machinery. This firm, which also constructs steel bridges, is talking of locating in Canada, and Ald. Hicks was deputed to set before Mr. Robinson the many inducements Peterborough can offer for the establishment such a manufactory in her midst.

Council adjourned at 11.30.

When Kidneys Fail, Health Declines

Dull, Aching Back Pains, Scanty and Highly Colored Urine, Headaches and Insomnia Indicate Diseased Kidneys.

After experimenting for nearly 20 years, Dr. Hamilton discovered an absolute specific for weak kidneys. His pills of mandrake and butternut cure permanently.

Can you afford to delay? No, your interest compels you to use this certain cure now—to-day. Only take Dr. Hamilton's Pills, and an absolute recovery is guaranteed. In thousands of cases relief has been instantaneous. Such was the experience of James G. Gordon, of Marysville.

Twenty Years a Sufferer.

"My kidneys bothered me for twenty years. I had gnawing pains in the back and my limbs ached with weariness all the time. My digestion was poor and I had specks before my eyes.

"Dr. Hamilton's Pills helped me from the first day. Relief was immediate. They restored me and my health's better than ever."

All complaints kindred to kidney disease are prevented by Dr. Hamilton's Pills. Their use insures you against Diabetes, Bright's disease and liver trouble. No house should be without such a valuable medicine. Sold everywhere by druggists, 25c. per box, or five for $1.00. By mail from N. C Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Peterborough Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence courses.

W. H. PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mrs. W. J. Green, 375 Brock street, will not receive again until October.

—Mr. F. A. Crowther, wife and son, Hamilton, are registered at the Oriental.

—Mr. Charles Stevens, of Napanee, father of Mr. George Stevens, town, is here on a visit.

—Miss Etta Bartlett, Brampton, is the guest of Mrs. F. H. Bartlett, 621 Water street.

—Mr. George Sherin, of New York, is the guest of Mr. and Mrs. H. P. Kennedy, Aylmer street.

—Messrs. Millard Maguire and Harry McRae left for New York yesterday morning, where they have secured positions.

—Mr. and Mrs. H. P. Gould and daughter, of Toronto, passed through town yesterday to open up their Stony Lake cottage.

—Mr. Fred. Jones, an old Peterborough boy, now travelling for an important Toronto firm, is renewing acquaintance with old friends here.

—Mr. W. H. Meredith, of Messrs. Morrell and Meredith, is confined to his room with an attack of measles. His many friends hope to see him around again in a few days.

—Mr. H. O. Fisk left yesterday evening for Montreal, where he will attend the annual meeting of the Electrical Association of Canada. Delegates will be present from many towns and cities.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—The Chief has two keys, a post office and another. Who owns them?

—The 57th Regiment had a march out yesterday evening, headed by both bands.

—A special meeting of the Board of the Y.W.C.A. will be held this afternoon at half past three o'clock.

—The George street Methodist Sunday school will hold their annual picnic at Stony Lake on July 7th.

—The Chief was last night handed a small purse picked up on the street. The purse contains a small sum in change. Who owns it?

—Twelve cows owned by Mr. Robert Wedt, of Huntingdon, Hastings County, were killed by lightning and a couple of buildings were struck.

—Welde Groulx, pupil at the Institution for the Deaf and Dumb, at Belleville, dived off the dock and injured himself so that he could not swim and was drowned.

—The new local branch of the Bank of Ottawa, of which Mr. A A. Hollingshead will be manager, will open out on Monday, July 3rd. The fixtures and furnishings for the bank's quarters have arrived.

A DANGEROUS DRINK is impure water. It brings on diarrhoea, cramps and piercing pain in the bowels. Counteract the effect of bad water with Perry Davis' Painkiller. Take it in your grip when you travel.

—An ordination service will be held in Charlotte street church tonight at 8 p.m., conducted by Rev. W. J. Jolliffe, President of Conference. Rev. Dr. Crothers will deliver an address. The Rev. D. C. Houck, secretary of Conference; J. G. Lewis, B.A., and T. W. Leggott, of Lakefield, will assist in the service.

—Lakefield Lodge, I.O.O.F., has chosen Rev. T. W. Leggott as their delegate to the Grand Lodge of Oddfellows, which meets in Brockville on August 9th and 10th. The delegates from Peterborough and Otonabee Lodges have already been appointed. A big effort will be made to have the Grand Lodge assemble in Peterborough in 1906.

—The employees at the G. T. R. station yesterday afternoon expressed their appreciation of Mr. Oscar Menger, who has been baggage master for some time, by presenting him with a handsome fountain pen. Mr. Menger is leaving for Allandale, where he will try examinations as an operator, and then will be transferred to some other station.

—Masters Walter Charlebois, and Gerald O'Brien, and the Misses Lila and Violet Lawson and Winifred Kennedy, deaf mutes attending the Belleville Institute, will arrive home this morning.

—The Peterborough Turf Club have a gang of men busily engaged getting the track into shape for the Ontario Turf Club's races here on July 12th and 13th. They are also giving the stables on the grounds a thorough overhauling. One thing the local club are determined on, and that is, that the first appearance or hint of any crooked work will mean immediate dismissal from the grounds.

FEED YOUNG GIRLS

Must Have Right Food While Growing

Great care should be taken at the critical period when the young girl is just merging into womanhood that the diet shall contain all that is nourishing, and nothing harmful.

At that age the structure is being formed, and if formed of a healthy, strong character, health and happiness will follow; on the other hand unhealthy cells may be built in and a sick condition slowly supervene which, if not checked, may ripen into a chronic ailment and cause life-long suffering.

A young lady says:

"Coffee began to have such an effect on my stomach a few years ago, that I was compelled to quit using it. It brought on headaches, pains in my muscles, and nervousness.

"I tried to use tea in its stead, but found its effects even worse than those I suffered from coffee. Then for a long time I drank milk alone at my meals, but it never helped me physically, and at last it pulled on me. A friend came to the rescue with the suggestion that I try Postum Coffee.

"I did so, only to find at first, that I didn't fancy it. But I had heard of so many persons who had been benefitted by its use that I persevered, and when I had it brewed right found it grateful in flavor and soothing and strengthening to my stomach. I can find no words to express my feeling of what I owe to Postum Food Coffee!

"In every respect it has worked a wonderful improvement—the headaches, nervousness, the pains in my side and back, all the distressing symptoms yielded to the magic power of Postum. My brain seems also to share in the betterment of my physical condition; it seems keener more alert and brighter, I am, in short, in better health now than I ever was before, and I am sure I owe it to the use of your Postum Food Coffee."

Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Get the little book, "The Road to Wellville."

Local Oddfellows at Lakefield

Six members of Peterborough Lodge, I. O. O. F., drove to Lakefield Monday night and helped to confer the initiatory degree on four members of Lakefield Lodge, No. 358. This was the first initiation conducted by the new lodge. The Peterborough brethren were R. F. Morrow, P.G.; W. Hill, P.G.; A. A. Fowler, P.G.; Frank Sollitt, N.G.; Dr. McKerchar and Wm. Frost.

The Lindsay Smallpox Case.

Dr. R. W. Bell, Inspector of the Provincial Board of Health, has returned from Lindsay, where he advised the local authorities in regard to a smallpox case found in an hotel in the town. The patient has been isolated, a number of people who are employed at or who stayed at the hotel, have been vaccinated, and the hotel, which was closed for a few days, has been opened for business.

Round Trip On Car

The Radial Railway Company now has a sign on one of its open cars to the effect that it is a special car and that one hour's ride may be enjoyed for five cents. The car runs all over the lines and is being well patronized. Heretofore a passenger had to take the electrical conveyance at Central park, but now one may get on any place and ride all over the system back to the starting point for a nickel.

Decoration Day.

Flowers and decorative plants for everybody now ready at Cobb's Aylmer street greenhouses. Roses, carnations, etc., in fine condition, supplied on short notice. Wreaths, emblems and baskets specially filled for the occasion. Bouquets to order. Leave orders early to be in good time for Thursday, June 22nd. Greenhouses open till ten o'clock every evening. Telephone 132. J. H. Cobb, florist. 1d

The paper that goes into the homes is the most valuable medium for Summer Resort advertising.

Unequalled in this respect by any other paper in New England, The Boston Herald is without question the best medium for Summer Resort advertising in America.

Combining as it does both quality and quantity, it brings far better results than all other Boston papers combined.

Special cash discount of 10 per cent for three insertions in one week; special cash discount of 25 per cent for eight insertions in one month.

Rates are 12½c per line solid and 25c per line displayed.

Police Court

OFFICIALS

Chief of Police, G. I. Read
Magistrate, D. W. Dymond

Yesterday's police court held a very short session with Magistrate Harry Rush holding the scales of justice.

John Strain was the only victim, and was charged with having been drunk in a public place the preceding day. Strain admitted the soft impeachment, but did not concur when his Worship suggested 21 days on the hill in which to brace up. He protested yesterday's escapade was the first time he had fallen from grace in a long time.

His Worship compromised matters by letting him go on suspended sentence, with the implied understanding that should John wander from the straight and narrow path of sobriety again, it will mean six months.

Epworth League Convention, Denver Colorado, July 9th to 9th, 1905

The Official Route selected by Canadian Epworthians and their friends is via the Chicago, Union Pacific and North Western Line, the only double track railway between Chicago and the Missouri River. Low rates open to all. Liberal time limits. Write for Epworth folder and other Colorado literature, including Denver hotels and boarding houses. Special train of tourist sleepers carrying Canadian Delegates will leave Chicago 10.30 p.m., Monday, July 3rd. Diagrams of sleepers, now ready for assignment of space, on application to R. H. Bennett, General Agent, 2 East King street, Toronto, Ont.

Who Decorated the Market Scales?

Yesterday, early arriving citizens, on entering the market square, were amazed to see that some person or persons, with an eye for the beautiful or grotesque, had placed a decoration unique in its characteristics on the market weigh scales chimney.

The guilty parties had taken an old porcelain sanitary appliance, whose name shall be nameless, climbed on the building, placing it "otherside up with care" over the chimney that arises from the central portion of this diminutive structure, and gayed it safely in position with rope. Not content with this, they completed the decorative effect by adding a flag. Much amusement was caused until the authorities removed the whole addition.

WEATHER NOTES.

Warm, with thunder showers.

THE FIRST STEP

Of the child is an event in the mother's life. How proud she feels when the attempt to walk is begun so early as to evidence childish courage and sturdy strength. Such pride should be enjoyed by every mother. But it often happens that the child is timid, weak and deficient in vitality, and clings to the mother's arms with no desire to walk or play.

Mothers should learn that to have strong children they must themselves be strong, for the child's strength is the gift of the mother.

The use of Dr. Pierce's Favorite Prescription by expectant mothers gives them health and strength to give their children. It nourishes the nerves, strengthens the body and gives great muscular strength and elasticity, so that the baby's advent is practically painless.

"I have been using Dr. Pierce's Favorite Prescription, and can say it is just what you advertise it to be, and can cheerfully recommend it," writes Mrs. Victor J. Hadin, of Leonardville, Riley Co., Kansas. "I began taking it just two months before baby came and was greatly benefited by its use. The doctor who attended me said I did about as well as any one he had seen (as I was sick only about three hours), and also that your 'Favorite Prescription' was the one patent medicine which he did have faith in. The boy I have darling baby boy, strong and healthy, who weighed nine pounds when born (July 28th). During this month he has gained three and one-half pounds."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

The Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 31 one-cent stamps for expense of customs and mailing *only*, for the book in paper covers, or 50 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

BY LAW NO

A By-Law to provide for borrowing a further sum of Fifty Thousand Dollars to pay for the erection and equipment of a Collegiate Institute in the City of Peterborough.

Passed the day of 1905.

WHEREAS By-Law Number 1017 of the Corporation of the Town of Peterborough passed by the Council thereof on the 20th day of May, 1904 after having been submitted to and having received the assent of the duly qualified electors of the Town of Peterborough authorized the borrowing of the sum of fifty thousand dollars, for the purchase of a site and to pay for the erection of a collegiate institute in the town of Peterborough and the said site has been purchased for the sum of ten thousand dollars, but the Board of Education for the said town has represented to the Council that in order to erect and properly equip a suitable collegiate institute a further sum of fifty thousand dollars will be required and has by resolution of the said Board requested the said Council to submit a by-law for the purpose of authorizing the borrowing of such additional sum to the votes of the duly qualified electors of the said town.

AND WHEREAS under the provisions of the High Schools Act the said Council is required to comply with such request and it is therefore necessary for the said Council to pass this by-law to be submitted to the votes of the duly qualified electors of the said Town of Peterborough to authorize the borrowing of the said additional sum of fifty thousand dollars for the purposes aforesaid which is the amount of the debt intended to be created by this by-law.

AND WHEREAS in order to raise the said sum of fifty thousand dollars, it will be necessary to issue the debentures of the Corporation of the City of Peterborough for the said amount as the said town will be incorporated as a city on the 1st day of July, 1905, and before this by-law can be finally passed.

AND WHEREAS the amount of the whole rateable property of the municipality liable for collegiate institute rates according to the last revised assessment roll being for the year 1905, is the sum of five million eight hundred and seventy-four thousand, two hundred and sixty-four dollars ($5,874,264).

AND WHEREAS the amount of the existing debenture debt of the municipality, exclusive of local improvement debts, but including the debt of two hundred and ninety-two thousand dollars ($292,000) incurred for the purchase and improvement of the waterworks system and the amount of the debentures authorized, but not yet issued, is the sum of six hundred and sixty-nine thousand and fifty-six dollars, and eighty-one cents ($669,056.81), and there is no part of the principal or interest in arrear.

AND WHEREAS it will require the sum of two thousand dollars ($2,000) to be raised annually for a period of thirty years, the currency of the debentures to be issued under and by virtue of this by-law to pay the interest of the said debt and the sum of nine hundred and sixty-eight dollars and sixty cents ($968.60) to be raised annually during the said period as a sinking fund for the payment of the said debt, such last mentioned sum being sufficient with the estimated interest on the investment thereof to discharge the said debt when the same becomes payable, making in all, the sum of two thousand nine hundred and sixty-eight dollars and sixty cents ($2,968.60) to be raised annually as aforesaid, by a special rate upon the whole rateable property of the municipality liable for Collegiate Institute rates.

THE CORPORATION OF THE CITY OF PETERBOROUGH BY THE COUNCIL THEREOF ENACTS AS FOLLOWS:—

1. This by-law shall take effect on the day of the final passing thereof.

2. It shall be lawful for the Council of the said City of Peterborough to borrow the sum of fifty thousand dollars for the purposes aforesaid, and to issue the debentures of the said corporation for the said sum, such debentures to be sealed with the Corporate Seal of the City of Peterborough and to be signed by the Mayor and Treasurer and countersigned by the Secretary of the Commissioners of the Peterborough City Trust, and to be made payable within thirty years after the issue thereof, and to bear interest at the rate of four per centum per annum, payable half-yearly on the thirtieth day of June and the thirty-first day of December in each years, and to have coupons attached thereto for the payment of such interest; such debentures as to principal and interest to be payable at the office of the Secretary of the Commissioners of the Peterborough City Trust in the City of Peterborough.

3. There shall be raised and levied during each year of the currency of the said debentures by a special rate upon all the rateable property of the municipality, liable for Collegiate Institute rates, the sum of two thousand dollars ($2,000) for payment of the interest, and the sum of nine hundred and sixty-eight dollars and sixty cents ($968.60) as a sinking fund for the payment of the said debt at the maturity thereof, making together the sum of two thousand nine hundred and sixty-eight dollars and sixty cents ($2,968.60) to be raised annually as aforesaid.

4. The proceeds of the said debentures when sold shall be handed over to the Board of Education for the City of Peterborough to be applied in paying for the erection and equipment of the Collegiate Institute in the Town of Peterborough.

5. The votes of the electors of the Town of Peterborough qualified to vote upon by-laws for creating debts shall be taken upon this by-law on Thursday, the 29th day of June, 1905, commencing at the hour of nine o'clock in the forenoon and closing at the hour of five o'clock in the afternoon of the same day, at the following polling places, and before the following reputy returning officers, respectively, that is to say;—

Mission Funds Held as Prizes of War.

Japanese Hold the Purse Strings at Port Arthur and the Money is Needed--Missionaries are Embarrased.

Chefoo, June 22.—Local missionaries having stations previous to the present Russo-Japanese war in Korea and Manchuria complain that they are unable to secure mission funds for current accounts from the Port Arthur branch of the Russo-Japanese Bank. The bank officials in reply say that the Japanese are holding all books and papers belonging to the bank as well as postal matter.

JAPS CONTINUE THEIR ADVANCE

Russians Outflanked on Both Wings.

JOYFUL NEWS EXPECTED

St. Petersburg in a State of Stupefaction Over Latest and Greatest Turning Movement

London, June 22.—According to the Tokio correspondent of the Telegraph the Japanese are continuing their victorious advance on Manchuria. The Russians are completely outflanked on both wings. Joyful news is shortly expected. The Japanese have considerably more than half a million men in the field. The preliminary operations began as far back as May 20. The Russians occupying the outer works south-east and west of Harbin and the forts on the Sungari River, number 54,000, with more than 300 guns. Numerous mines have been laid. A train leaves Harbin for St. Petersburg daily, and one arrives daily from St. Petersburg. One train is despatched daily for Vladivostock.

ST. PETERSBURG STUPEFIED.

Paris, June 22.—The St. Petersburg correspondent of the Temps says that stupefaction has been caused by intelligence of the operations in Manchuria, and hopes of approaching peace are being abandoned. The present operations are unprecedented. They extend over a front of 500 versts, from the Korean to the Mongolian frontier.

OYAMA'S WEDGE.

London, June 22.—A despatch to the Standard from St. Petersburg says that military observers are inclined to believe that Field-Marshal Oyama is prepared to insert a wedge between Kirin and Vladivostock, driving General Linevitch west. The situation is watched with anxiety.

SHOULD JAPAN WIN.

St. Petersburg, June 22. — When asked what bearing the next battle in Manchuria would have on the peace negotiations, M. Neratoff replied that if Russia were successful it might influence Japan's proposals so as to make them acceptable, but if the Russians were defeated he believed that the war would continue to the bitter end.

POSITIVELY NO ARMISTIC.

St. Petersburg, June 22.—At the Foreign Office Counselor Neratoff as the representative of Foreign Minister Lamsdorff, stated this afternoon that it had been decided definitely that there would be no armistice.
